CAMP ABNAKI TO OPEN JUNE 20, FOR 31 ST YEAR

Camp Abnaki, which is owned and conducted by the Young Men's Christian Association, will open on Saturday, June 20 for its thirty-first consecutive season. This well-known, and popular camp which was established in 1901 by the late Byron N. (Dad) Clark, has been conducted every year since that date and over 8,000 boys have received help and guidance from its character building standards.

Dean G. H. Perkins, and Dean J. L. Hills are chairman emeritus and chairman, respectively, of the Vermont State Y. M. C. A. Committee; and Prof. G. V. Kidder of the Latin department is on the camp advisory committee.

State secretaries George R. Merriam and Walter E. McGovern will be responsible for the oversight of the camp. Mr. McGovern, who has been connected with Abnaki as Dad Clark's associate from 1911 until the latter's death in 1929, will again be in personal charge. Associated with these gentlemen will be a corps of competent, virile, Christian leaders, many of whom have already spent several seasons at Abnaki and have helped to create the ideals and standards by which Abnaki is so well-known.

500 Boys

Between four and five hundred boys are now accomodated each season. Last summer they came from every county and forty-seven towns of Vermont, as well as from many other States and foreign countries. They not only derive the benefits of living out-of-doors with plenty of fresh air and sunshine, as well as carefully supervised swimming and athletics, but in various ways they are led to become interested in many worth while things as a part of the daily program. They are thus helped to develop physically, socially, educationally and spiritually.

Abnaki is one of the best equipped camps in the east and is well qualified to render a very important service to the growing boys of Vermont. The campers sleep in safe, comfortable, dry, roomy cabins which are built to provide the maximum of fresh air at all times. The drinking water is chlorine treated and the milk is from regularly inspected and accredited herds. Consequently Abnaki is a very healthy camp.

This season will extend from June 2 to September 25, and it will be open for boys for the ten weeks from June 20 to August 29. These ten weeks are divided into five periods of two weeks each and boys will be accepted for any number of these periods.

An illustrated booklet descriptive of Camp Abnaki, and containing complete information about the camp, will be sent to anyone making the request to Walter E. McGovern, director, 203 Main St., Burlington, Vt.

Frat Relay Races Start This Week

Delta Psi, Alpha Tau Omega and Phi Sigma Delta Win in First Heat

The first heat of the Interfraternity Relay Race was run off last Monday, March 9, with Alpha Tau Omega, Delta Psi and Phi Sigma Delta coming out on top. Smooth teamwork and fast running ability characterized all of the races except the one between Zeta Chi and Phi Sigma Delta which the latter won by forfeit.

Alpha Tau Omega running against Sigma Delta had a slight advantage in that it had all sprint men while the latter depended more on distance men. The Sigma Delta team had Stetson, Lunna, Baldwin and Shippe running for them. On the A. T. O. team were Daigle, Howard, Bristlin and Blakely. Art Blakely from Great Neck, L. I., the anchor man of the team, ran the best race in the entire heat.

Due to misfortune the Phi Mu Delta team lost to Delta Psi. Hutchison mistaking the wrong chalk line for the finish, stopped and was unable to recover his wits in time to finish ahead of Bradish, the Delta anchor man. With the exception of the last error Phi Mu Delta had the best time of the afternoon. However, Delta Psi will race in the semi finals. On the Phi Mu Delt team were Proctor, Archambault, Young and Hutchison. Taft, Woodruff, Jenks and Bradish ran for Delta Psi.

STUDENTS AND FACULTY ARE IN "PASSION PLAY"

Two hundred U. V. M. students, faculty members and townspeople were included among the cast of the Freiburg "Passion Play" in its presentation Wednesday and Thursday night at the Strong Theatre.

The students and faculty members who assumed the rôles of Pharisees, legionnaries, soldiers, citizens, angels, water carriers and members of the mob in this Biblical production were provided with costumes, and two complimentary tickets each as reward for their interest in volunteering for the chorus and as extras, and supernumeral.

The Passion Play, direct from Germany is playing tonight and tomorrow night as its first and only appearance in the State of Vermont. It is the story of the life of Jesus and is truly a stupendous drama in its art, sacredness and emotional attributes.

The play was first presented in Freiburg, Baden, Germany in 1264. This German troupe, on one leg of its tour of the United States is to go directly to the Pacific Coast and thence around the world returning to Freiburg. It features Adolph Fassnacht, the greatest player of the Christus rôle.

Co-ed Notes

In bowling last week, Daisy Putnam was high scorer with a score of 86. Myrtle Jaquith was second with 81 for a score.

Posture pictures are being taken this week.

This week the seniors play the sophomores, and the juniors, the frosh in basketball. Tuesday. On Thursday the seniors play the frosh, and the sophomores the frosh.

Takes to Air

Bobby Jones, former Georgia Tech student, is now telling the golf bugs, every Wednesday evening, how he did it. Some Tom Thumb course in Cincinnati is advertising "Come here on Wednesdays and let Bobby teach you."

We'll proceed to debunk Pollyanna just as Masters is now planning to do, in his own "Spoon River" manner.

Coach Gardner Cuts Squad of Baseball Players to 25

Candidates Start Intensive Training With First Game Only Two Weeks Away—Three of Last Year's Regulars Will Not be Available This Season

ARTHUR T. POST
Coach of Freshman Basketball

VACANCIES IN INFIELD PRESENT A PROBLEM

Coach Larry Gardner took charge of the Green and Gold squad for the first time of the season Tuesday afternoon, only two weeks before the first scheduled contest and with the advice of Assistant Coach "Doc" Newton reduced the candidates to a squad of about twenty five.

However, the prospects for a successful 1931 season have become somewhat discussed, due to the untimely death of Captain E. L. "Pie" Traynor, Jr. and the failure of "Dutch" McKay and "Wib" Howard to return to school last fall. Otherwise the team will be intact because no letterman graduated last June.

As far as the batteries go, Coach Gardner, has both regular receivers from last year, namely Charley Stroh and "Max" Kendall. Also there are "Wally" Sargent, "Lefty" Cummings and "Chet" Rutkowski, the three regular hurlers of last year's club, and John Cunningham a transfer from Holy Cross, who is eligible for competition this season.

The infield presents the most serious problem. "Ed" Winant will again hold down the initial sack, while Frank Pires, last year's shortstop may be switched over to either second or third base. It is expected that short stop and one of the other two positions will be filled from the following candidates: Baker, Macomber, Heaton and Collins.

With Dinelman and Jay in left and center field respectively, the only vacancy is right field, which will no doubt be filled by Rutkowski, who is a heavy sticker in addition to possessing a strong arm. When he is pitching the berth will be filled by Bussey, Levy, or Robinson.

WCAX TO BROADCAST THREE TALKS TONIGHT

The program of Station WCAX on the air at 8:00 p.m. this evening includes three talks by members of the faculty of the College of Agriculture and a recital by the Department of Music. The program:

8.00 p.m. Talk "Brooding and Feeding Chicks"—Professor A. W. Lohman, Extension Poultryman.

8.10 p.m. Talk—"Improving the Home Grounds"—Dr. M. B. Cummings, Professor of Horticulture.

8.20 p.m. Talk—"Suggestions to Sugar Makers"—C. H. Jones, Chemist, College of of Agriculture.

8.30 p.m. Student Recital, Department of Music.
1. "Automne"—Chaminade.
2. "If I Were a Bird"—Henselt. Katrina Munn, '32, pianist.
3. "Die Lotusblume"—Schumann.
4. "Der Nüssbaum"—Schumann. Dorothy Fowler, '32, soprano.
5. "Cradle Song"—Gretchaninoff.
6. "Soldier's Bride"—Rachmaninoff. Dorothy Fowler.
7. "Warum"—Schumann.
8. "Witches' Dance"—MacDowell. Carlotta Grimm, '31, pianist.

Here's to the girl who's mine—all mine
She drinks and she pets
And she smokes cigarettes
And sometimes she even goes out and forgets
She's mine, all mine.

NINE HOCKEY LETTERS AWARDED THIS YEAR

According to an announcement from the graduate manager's office, nine men have been awarded hockey letters for the past season. Four of these are seniors including the manager. Elections for next year's captain, manager and assistant managers are being held this week.

The following men were awarded the letters:

J. C. Cunningham, R. W. Hendricks, I. Segal, J. W. Murvin, E. J. Mercier, J. E. Wood, R. Hwain, R. H. McVetty, and D. E. Coburn, manager.

The Extension Service of the Agricultural College is fostering community singing, which was once such a pastime and important factor in community affairs on Vermont hillsides. The latest step on the part of the Extension Service is to prepare a list of songs that may be sung in home demonstration groups, one for each month.

Before their marriage he nectar and now elixir.

What the NEW HUMIDOR PACK

means to Camel Smokers*

COMPARE a package of Camels with any other cigarette and note the difference in the technique of packing.

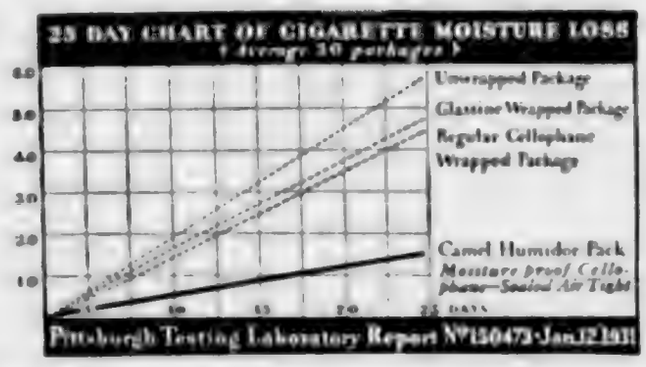
Note that Camels are completely enclosed in an outer transparent cover of moisture-proof cellophane and sealed air-tight *at every point.*

We call this outer shell the Humidor Pack. It differs from the ordinary cellophane pack and while it is egg-shell thin, it means a lot in terms of cigarette enjoyment.

It means, for instance, that evaporation is checkmated and that Salt Lake City can now have as good Camels as Winston-Salem.

While Camels are made of a blend of the choicest Turkish and mellowest domestic tobaccos, it is highly important, if you are to get full benefit of this quality, that these cigarettes come to you with their natural moisture content still intact.

The Humidor Pack insures that. It prevents the fine tobaccos of Camels from drying out and losing any of their delightful flavor.



Aside from cheap tobacco, two factors in a cigarette can mar the smoker's pleasure:

Fine particles of peppery dust if left in the tobacco by inefficient cleaning methods sting and irritate delicate throat membrane.

Dry tobacco, robbed of its natural moisture by scorching or by evaporation gives off a hot smoke that burns the throat with every inhalation.

We take every precaution against these factors here at Winston-Salem.

A special vacuum cleaning apparatus removes dust and now the new Humidor Pack prevents dryness.

The Pittsburgh Testing Laboratory chart above graphically shows you that only the Camel Humidor Pack delivers cigarettes to you in prime condition

Check the* difference *yourself

It is a very simple matter to check the difference between Humidor Packed Camels and other ordinary dry cigarettes.

First of all you can feel the difference as you roll the cigarettes between your fingers. Camels are full-bodied and pliable. A dry cigarette crumbles under pressure and sheds tobacco.

If you will hold a cigarette to each ear and roll them with your fingers you can actually hear the difference.

The real test of course is to smoke them. And here's where the new Humidor Pack proves a real blessing to the smoker.

As you inhale the cool, fragrant smoke from a Camel you get all the mildness and magic of the fine tobaccos of which it is blended.

But when you draw in the hot smoke from a dried cigarette see how flat and brackish it is by comparison and how harsh it is to your throat.

If you are a regular Camel smoker you have already noticed what *proper condition* of the cigarette means.

But if you haven't tried Camels in the new Humidor Pack you have a new adventure with Lady Nicotine in store.

Switch your affections for just one day, then go back to your old love tomorrow if you can.

R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.

*smoke a Fresh cigarette!

The Vermont Cynic

VOLUME 49 | BURLINGTON, VERMONT, TUESDAY, MARCH 17, 1931 | NUMBER 42

Austin Howard Will Head Newly Formed University Radio Society

Austin Howard, '31, will serve as president of the Radio Club of the University of Vermont as the result of an election held Wednesday afternoon at four o'clock in the radio building. The following officers were elected: Vice-president and chief operator, Richard [illegible] '34; secretary-treasurer, Donald E. Child, '32.

(Continued on page 4)

Enrollment of Twenty-third Summer School will be 1,000

Annual Session Opens July 6 and Closes August 14 for Students and Teachers

REQUIRES NO ENTRANCE EXAMINATIONS, DOUGLASS

[illegible] enrollment limited to one [illegible] students, the twenty-third [illegible] session of the University of Vermont will open on Monday, July [illegible] and will close on Friday, August [illegible] The summer school is an [illegible] part of the work of the University, enabling students to derive the [illegible] of summer study and at the [illegible] to enjoy recreational opportunities in a most delightful vacation [illegible] Twenty-three states, as well as [illegible] China and Japan were represented in the student body last year, which numbered well over 950.

The summer session is intended to [illegible] the needs of various groups of [illegible] such as:

1. Students or teachers who have [illegible] a full college course and [illegible] to take work which will be [illegible] toward the Master's degree.
2. Students with adequate preparation who desire to take work of college grade for college credit.
3. Teachers in elementary or secondary schools who desire to take courses for professional improvement [illegible] for credit toward state teachers' certificates of higher grade.
4. Students who desire to remove [illegible] entrance conditions. (Students who desire to take courses for [illegible] purpose should do so only after consultation or correspondence with the Registrar of the University.)
5. Students who wish special instruction in commercial subjects, art [illegible] music.

No Entrance Exams

No examinations are required for admission to any of the courses, although the instructor in charge must be satisfied that the student is properly qualified to do the work necessary. Registration will be conducted in the gymnasium on Monday and Tuesday, July 6 and 7, from 9.15 a.m. to [illegible] and from 2 to 5 p.m. After July 7 all matters of registration will be taken care of at the office of the Director of the Summer Session in the Old Mill.

If the entrance requirements are met courses which are the same as those offered by the University in the summer session for degree credit will be accepted by the University for this purpose. Credit of two semester hours will be given for five-hours-a-week courses taken for six weeks, with laboratory courses excepted.

An enrollment fee of $2.50, which is not returnable, is required of all students who register for any of the courses. Eighteen dollars is the tuition fee for each course meeting five hours a week and carrying two points credit, unless otherwise specified. Not including travel, a student should be able to complete the entire summer session of carrying three tuition courses for about $150.

Advance enrollment is urged because of the limited number of students admitted to attend.

Those who are under contract to teach in Vermont during the coming school year can also avail themselves, under certain restrictions, of the loan funds of the University, thus enabling many to attend who otherwise could not.

In the summer school, courses are offered in art, the fine arts, education, English, French, geography, German, history, Italian, Latin, mathematics, music, philosophy, political science, physical training, psychology, Scandinavian literature, the sciences, social science, and Spanish.

Complete information about the courses offered may be obtained from Bennett C. Douglass, Director of Summer Session, University of Vermont, Burlington, Vt.

The Faculty Club of the University met at the Klifa Club rooms Saturday evening, March 14 at 8 o'clock. Prof. [illegible] Ellenberger spoke on "A Tour of Land Grant Colleges," and illustrated his talk with moving pictures.

Prof. H. B. Ellenberger, professor of [illegible] and dairy husbandry, and Mrs. Ellenberger have returned from Washington, D. C., and New York City. Professor Ellenberger has been in conference with leaders of the dairy industry in connection with matters of importance to dairying throughout the nation.

BRADISH AND CODDING TO MEET FLORIDA TEAM ON FORENSIC PLATFORM

Home Varsity Debaters Will Uphold Free Trade Policy Tonight In Old Chapel

J. A. Bradish and E. M. Codding, two of the seniors comprising Vermont's home debating team, will meet the University of Florida on the affirmative side of the forensic argument, Resolved, that the nations of the world should adopt a policy of free trade, tonight at 8 o'clock on the platform of the Old Mill Chapel.

Florida will be represented by Mr. Dixie Beggs and Mr. Harold B. Walk. The Vermont debaters were chosen in the recent elimination tryouts held to determine the best varsity material.

John A. Bradish is a new debater to the Vermont ranks. This debate will be Bradish's first at Vermont. However, Bradish is well-known to the speaker's platform. Last year at Founder's Day he delivered his class oration and will repeat the process again this year. Bradish is active in campus affairs and is a member of the Delta Psi fraternity.

Ernest M. Codding has been a debater at Vermont for several years, having done junior varsity work around the state. Codding was a member of the team which debated Bates College in a no-decision contest late last May. This year Codding has participated in two or three junior varsity debates and was recently selected to give the commencement address to Ira Allen. Since his coming to Vermont Codding has taken an active part in student affairs, participating in athletics, Kingsley Prize Speaking Contest, debating and other activities. He is president of the Vermont Independents.

Concerning the Florida team it can only be said that they are worthy debaters engaged in a tour of the North. Last evening Beggs and Wahl debated against Holy Cross College at Worcester, Massachusetts taking the same side of the question as tonight, and Saturday evening they debated against Boston University. The Florida men will also meet several other leading college teams during the course of their trip, including Penn State.

The next debate of the home schedule will be held Friday against New York University at the Old Mill Chapel. The question will be the same as in the Florida debate but Vermont will uphold the negative in this tilt. Vermont's team is Francis Bolles, '31, J. E. Bigelow '32 and either E. M. Codding or John Bradish.

"WORLD WAR CAUSE OF INTERNATIONAL SPIRIT," SAYS RACHEL CROWDY

Declares That New Cooperation Among Nations Is Helping to Curb World Vice

WHITE SLAVE AND OPIUM TRAFFIC BEING CHECKED

Conditions in Occidental Countries Investigated by League of Nations Committee

"The low age of marriage, and insufficient sex education for boys and girls are two of the most important conditions facilitating the white slave traffic, declared Dame Rachel Crowdy, last speaker in the University lecture series for the current year, when she discussed causes of the great wave of internationalism that is now sweeping the world, the early work and achievements of the League of Nations and the more recent important work of the League on the problems of international traffic in women, children and drugs.

"The World War and the rapid pace of our living," said Dame Crowdy, "have been mainly responsible for the recent growth of the international spirit." She pointed out that nations learned to cooperate with each other, that men of different nationalities learned to know each other, and that men and women were brought into a closer understanding.

After mentioning the early work of the League of Nations in the return of war prisoners to their native countries, the rescue of women and children deported by the Turks and sold as slaves, the relief of refugees, and the control of the typhus plague in Poland, Dame Crowdy referred to the work, which she has been directing for almost ten years.

It was learned that after the committee of inquiry on the subject of traffic in women and children had spent two uneventful years in discussing the problem, action was finally taken because of the impatience of Miss Grace Abbot, an American. Conditions in Occidental countries were to be investigated first hand; and for the purpose of carrying this out members of the committee lived in the underworld for three years. The astounding fact that each year thousands of women were taken from France, Italy and Spain to South and Central America and Egypt was uncovered. The underworld was found to be well organized although not under the rule of any one man as had been thought, and that only a grim camaraderie provided the bond of union.

"One good result of this investigation," asserted Dame Crowdy, "was that it started governments doing a little house cleaning even before the committee could get around to investigate."

The report of the commission stated several well-founded reasons why the illicit traffic flourished. One of which was the low minimum marriage age existing in many of the countries, while another important factor advanced by the commission was the insufficient sex education of the children.

Turning now to the problem of opium traffic, Dame Crowdy said that although it is even more difficult to control than the white slave business, wonderful progress has been made in its limitation. It is understood that the League has directed both national and international systems of control, one of which is known as the export and import control system, already adopted by forty countries and where by government permits must be obtained by both importer and exporter. Another system is that all countries making seizures report them to the League for publication. Thus in this way every nation knows who is doing the trafficking. A third method is the reporting by the governments of all imports and exports as well as estimates for medicinal use and internal manufacture.

Dame Crowdy concluded her lecture by expressing both the hope and the conviction that legislatures would translate laws into action and put a stop to the great illicit traffic in women and children, as well as in opium.

Mr. and Mrs. A. B. Rooney are the parents of a son born Sunday, March 8, at the Mary Fletcher Hospital.

Right Reverent Booth of Vermont Diocese to Speak in Chapel Wednesday

The Rt. Rev. Samuel B. Booth, bishop of the Vermont Episcopal Diocese, will conduct the weekly Chapel service at [illegible] in Ira Allen Chapel tomorrow morning. Bishop Booth lives at R. F. D. 4 Point, Burlington.

Mattison and Smith Find No Active Rules at McGill

Lack of Support Given Recently Abolished Freshman Traditions at Canadian University Indicates Distinct Progress

FACULTY REMAINS ALOOF FROM STUDENT AFFAIRS

A slight similarity in results to those brought back by Householder and Cowles from their investigation of freshman-sophomore relations at Wesleyan, Amherst and M. A. C. last week, and a marked contrast to present conditions at Vermont are observed in the report of Hugh Mattison '31 and Stanley Smith '31 concerning their recent visit to McGill University at Montreal. Mattison, who investigated with Smith at McGill University, stated that he found no evidence of active observance of freshman rules at the Canadian college.

As contained in the Freshman Handbook the freshman rules at McGill concern themselves with eight principles including the learning of the Alma Mater song and the singing of it standing and uncovered; the learning of as many other McGill songs and cheers as possible. All freshmen must uncover when passing the Principal of the school and the Dean of the Faculty.

Rule number five, states that freshmen must watch for announcements of class meetings and rooter practice. Attendance at these gatherings must be regular.

The sixth rule says that all temporary or standard regulations appearing from time to time in the *McGill Daily* must be noted carefully.

Redress of Grievances

An opportunity for redress of grievances appears in the seventh section which declare that "If you think you have grounds for complaint on account of treatment you have received at upperclassmen's hands, report to the Secretary of the Student Executive Council you will always be given a fair hearing."

The rules conclude with the reminder that the freshmen should always retain their good sportsmanship and especially so at games where visitors are present.

No Faculty Interference

Mattison said that Dean McCrae of the Arts College told him that the students are allowed to manage their own affairs without any interference from the faculty. Mattison also interviewed the secretary of the Student Executive Council, editors of the *McGill Daily*, members of Scarlet Key, the Junior Honorary Society and the president of the senior class. In speaking to the fourth class head J. A. Hutchinson, who has led his class since its freshman days, Mattison learned that he had started the discussion over freshman rules which led to their abolition recently.

Mattison attempted to account for the absence of freshman rules at McGill by the fact that it was a different type of college from Vermont. He declared that McGill was a more cosmopolitan institution from Vermont and that not more than 50 per cent of the students who are drawn from all nationalities belong to fraternities.

He added that each college at the university has its own separate class organizations with no common officers. "Here lies the nucleus of the situation," Mattison asserted, "and that is why observance of frosh rules died out."

Societies Entertain Teams

Answering the question as to whether honor societies existed at McGill, Mattison declared that the society present, called Scarlet Key had as its function the entertaining of visiting teams and ushering at school games. "They are not self-perpetuating as at Vermont," Mattison said.

Evidence of former class scraps between sophomores and freshmen were disclosed in the statement that they were abolished together with freshman rules.

No Uniform Cap Worn

Mattison declared that the general trend opinion favored the wearing of frosh caps for purpose of acquainting freshmen with their class and schoolmates. At present no uniform cap is worn at McGill as each college maintains separate activities.

Commenting on the student campaign which was being conducted at McGill at the time of the committee's visit Mattison said that he did not think the rules would be instituted in accordance with the speech of one of the students who was running for office and advocating their reinstitution for freshman class.

STUDENTS WHO DESIRE TO WRITE ARE ELIGIBLE FOR GREY FRIARS NOW

Freshmen Must Submit Two Manuscripts for Membership States Germain

"We are interested in having any one try out for Grey Friars who has a moderate amount of creative ability and a desire to write," declared Edmour Germain, '31, president of the society in a recent interview for the Cynic. He also pointed out that since mid-years all freshmen are eligible and urged to submit manuscripts for the organization's approval.

"To become a member of Grey Friars," Germain added, "it is not necessary to be an accomplished writer; rather is it more important to like to write and to have a tendency for writing. He also said that much rehashed material has been handed in for the admittance requirements, and that that sort of stuff was not wanted. The society provides a common stamping ground as it were for all aspiring young authors as much helpful criticism always results from the reading of one's literary attempts.

It is necessary to submit two manuscripts which must be in two different fields of writing, to be read and discussed by the members of the society before admission can be granted.

The last meeting was held at the home of Robert Hyde at 131 N. Union Street, last Tuesday evening. Fred Householder, '32, read a very interesting ballad, which met the approval of the members. Robert Hyde read some essays that were highly commended; and William Macdonald, '32, also read a short story.

The club is meeting each time at the residence of a different member, and the next meeting will be held within the next two weeks.

FOILSMEN FACE CADETS IN RETURN MATCH SAT.

Vermont's crack swordsmen will meet Norwich at Northfield March 21 in a return engagement. Norwich beat Vermont in the previous match but the result of the forthcoming fray is doubtful. Both U. V. M. and the Norwich cadets beat Dartmouth by a single point during the recent carnival held at Hanover, N. H.

After that contest the foilsmen will end their season's schedule with a trip to Boston. Here they will endeavor to lengthen their winning record. The teams which Vermont hopes to beat are Boston University and M. I. T.

The line-up will include Wadsworth, Aiken, Captain Perelman, Bashinsky and Shuman.

IN OTHER COLLEGES

A most difficult task, and one that requires a critical and open-minded attitude toward all the facts concerning relationships between the two lower classes at the institutions visited by the investigation committee now confronts the Faculty-Student Council.

Reports have been brought back from four institutions: Amherst, Massachusetts Agricultural College, McGill and Wesleyan. The quality of these reports depends upon the unbiased or prejudiced interest shown by the men who visited these colleges and universities.

A most conservative attitude in freshman rules policies has been maintained at all of the institutions visited. But the reports indicate a sudden and progressive departure from the observance of most of the time-worn customs and systems of punishment. A student returning from an investigation of conditions at Amherst, M. A. C. and Wesleyan declares: "If my conclusions are correct, then the observance of freshman rules at U. V. M. should be greatly relaxed. The general tendency in all three colleges is toward the abolition of freshman rules. The wearing of the freshman cap and prohibition of walking on the south side of a college avenue were noted as being *rules that are enforced if a man belongs to a fraternity*. At Amherst the president of the Student Senate pointed out that after fraternity initiations which are held during the second week of school, little attention is paid to the enforcement of freshman rules. "Honorary societies at Wesleyan," says Cowles, "are strictly honorary and membership is on a scholastic academic and athletic basis."

Evidence of attempts at orientation by the wearing of the freshman cap is seen at M. A. C. In contrast with this evidence comes the statement that at Wesleyan no freshman bothers to get another cap once he loses his first one. Is this enforcement? It would indicate either a lessening of interest in freshman rules or an enlightened student opinion rising in opposition to the practice.

At M. A. C., while caps are worn during one semester, no paddling is tolerated for the enforcement of the rule. The editor of the *M. A. C. Collegian* describes the situation as one tending toward interclass contests with decreasing attention being given to the rules after the first week.

A significant statement from Householder, one of the men visiting the above colleges: "General opinion seems to favor wearing of freshman caps for one semester, continuing of one or two class scraps, and complete abolition of the honor-enforcing societies which attempt to humble the freshmen. All colleges advocate courteous greeting and doing away with paddling in all its forms."

A recent editorial in the *Amherst Student* states: "The old Amherst traditions are fading one by one. Class rushes, Sabrina (an honorary society), the Blacklist, the freshman cap-burning, all are gone."

At McGill, Mattison and Smith found no evidence of active observance of freshman rules. Says the *McGill Daily*: "There are no rules." But it admits that freshmen should remove their caps or hats, attend announced class meetings and notice the regulations printed in the *Daily*. The societies, similar to our honorary societies, Gold Key, Key and Serpent and Boulder, restrict their activities to entertaining teams and are not self-perpetuating. Class scraps there were abolished with the freshman rules. Mattison, who with Smith visited McGill, states: "I do not believe the rules will be reinstated there."

The men comprising the traveling committee have a difficult task to perform. In the face of the facts found at the first colleges visited they may find situations in other student bodies which indicate a trend of student opinion toward the maintenance of the *status quo*, and the retention of the whole or a modified freshman rules system. If so, the Faculty-Student Council will have a still more complex problem when it meets for the study of the facts these tours will have brought to light. All effort should continue to be made to obtain the truth. No evidence should be side-tracked and, above all, the men should be tolerant of opinions which seem to oppose their own prejudices. We have confidence in the ability of the students to handle this important investigation.

Vermont Seeks Light

McGill Daily

It is rather a curious thing to see ourselves pressed into making statements in this column. For several years we have been accused of raising issues merely for the sake of seeing our selves speak. But this time the motivation comes from outside. We feel strongly neither way as regards freshman initiation, though we certainly look back with horror on any systems of such which have ever been in vogue at McGill. We probably would have had nothing to say on the subject unless at least some comment was called for by the visit of the Vermont delegates looking for light, and finding McGill a place of darkness.

But now the attitude we took in calling this darkness a blissful one has been challenged. Our usually fine, conservative Montreal press, so contented at other times to let us rant and rave alone, seems for the moment to have taken the lead of the Toronto papers in regarding a college as the best place to find fireworks which only need touching with the match of publicity to cause an explosion. The visit of the Vermont representatives is commented on in a news article, and an excerpt is made from the editorial which appeared in the *Daily* the same day, in which we pronounced the demise of the initiation rites here a timely one, and denied that the tribulation period added anything to the friendships made in first year.

The story then takes on a surprising tone for what purports to be a piece of news only. One might almost think there was some opinion aired in the paragraph which follows:

"No mention, is made, however, of the fact that the boyish exuberance of the undergraduates, which at one time spent itself, sometimes to the annoyance of the public, on the playful hazing of freshmen, has now been turned into channels which produce street jubilations following hockey games."

This is just a little too much. It is rather hard in the first place to have the whole blame for these post-game disturbances once more thrust on McGill. In this connection we might quote the remarks of one student we overheard recently, who claimed that once he became interested enough in an alleged McGill victory parade to follow it to see if he could recognize anyone among the roisterers. As far as he could see none of them came from college. True, after several attempts, a successful capture of some *bona fide* students was made after the Harvard game; seldom, however, are they in the majority.

But what might lead one on to pages of contradictory reminiscences is the implication that there was less "hell-raising" in the hazing days than there is now. In the old days the hazing week was only a small disturbance among others raised by the college during the year. The theater night of some years back did begin with some dramatic entertainment, but that was only an excuse for the rest of the evening. Similarly after each game raids on the lower part of the town were the order of the day.

The principal object of attack always used to be the bulletin boards outside the newspaper offices. Perhaps it is because neither of the papers has an uptown office now that the press is unable to keep tab on the number of celebrations indulged in, and thus they made such a mistake as to think there is more rowdyism now. These men of twenty years ago are rather proud of their big nights. They will be justly enraged that the city papers place the undergraduate of today beside them as public nuisances.

No, freshman hazing never gave an outlet for steam, but rather worked the undergraduate body into a heat from which it spouted all year. Along with the lawlessness engendered came a spirit of fellowship which was the excuse for freshman rules, initiations, and all the other observances of the first two weeks. We have not yet had time to see whether this spirit is through lack of hazing, but in case we are sure that it can be sensibly regained by reviving the old customs; if something needed, it must be something new better.

AMATEUR RADIO

The Radio Club of the University of Vermont has had an active history. Records and station acknowledgment cards in the club's possession indicate that the station has been in communication with similar amateur stations the world over. Certificates are reposing on the walls now that state the club was a member of the Army-Amateur Radio Net, the American Radio Relay League, the "WAC" (Worked All Continents) club, and other honorary organizations too numerous to mention.

It is not definitely known now just when the club actually had its inception, but the present members believe that its founding took place before the war. At all events, the establishment of a branch of the Army Signal Corps and its attendant Signal School was a great stimulus to the study of radio, or "wireless," as it was then known, communication, and shortly after the signing of the Armistice we note the formal organization of the "University of Vermont Radio Association."

The original transmitting and receiving equipment was rather crude, viewed in the light of modern achievement in the art. Commencing with a small spark-coil and plain gap for the sending set, and a crystal for the receiver, the students progressed rapidly to a larger spark set with its one kilowatt transformer, non-synchronous rotary gap, and a one-tube "audion" receiver. From this to a small vacuum tube transmitter was but a short step, as well as the addition of two steps of tube amplification to the receiver. For a time the two transmitters, spark and tube functioned side by side, and it was then that reliable long-distance communication made its appearance.

But spark soon became obsolete, chiefly, perhaps, because of its "rock-crusher" note, and tubes were the only thing in use. Now the club really entered upon its "palmy" period. No distance was too great to span; no schedules with European, African or Asiatic stations too difficult to keep.

Since that day the club has fluctuated between periods of activity and idleness, depending upon the number of men present in the student body actively interested in the subject. At the present moment it has just been reorganized with a membership of twelve, a large assortment of fine equipment, and excellent prospects ahead. It is to be hoped that this time it will be a lasting success, for the radio "game" is a fascinating pursuit, productive of much instructive amusement and a possible source of lucrative employment in the summer, at sea or on land, for those who wish to study it in a really technical way.

Riflemen Have Victory Week

Norwich and Company K Fall Before Vermont Sharpshooters in Shoulder-to-Shoulder Matches

CATS HAVE REVENGE ON UNBEATEN CADETS

A shoulder to shoulder match on Saturday at the University of Vermont range with Co. "K" 172nd Infantry, Vermont National Guard, Vermont won by a score of 1,764 to 1,652.

Donaldson, captain of the Catamounts again was high score man with a record of 372. Dunham was second with 365. Tudhope, Co. "K" captain, was highest on his team, his score being 348. Thomas came next highest with 347.

The summary:

U. V. M.

	Prone	Sit.	Kn.	St.	Tot.
Donaldson, capt.	98	98	95	81	372
Dunham	97	96	87	85	365

Managers For Frat Athletics

New System to be Inaugurated for Students to Manage Interfraternity Activities

INTRAMURAL SPORTS GAIN IN POPULARITY

Upon the initiative of Howard A. Prentice, director of physical education, the Athletic Council has approved the plan for an organization of intramural managers, as outlined in detail below:

1. To have two managers of intramural athletics, one to function for the first semester and one for the second semester.

2. These two to be members of the junior class.

3. A group of scrub managers from the sophomore class on a competitive basis. Each scrub to compete for one semester. Not more than three scrubs as candidates in any semester.

4. Managers of intramural sports to be appointed by the department of physical education from the group of competitive scrub managers.

5. Class numerals to be awarded by the Athletic Council for their appointment as intramural managers.

6. This system to take effect September 1, 1931.

Sophomores interested in becoming intramural managers and freshmen wishing to scrub intramural athletics are requested to see Howard A. Prentice immediately for full particulars.

Under the directorship of H. H. Prentice the development along intramural lines has progressed in leaps and bounds during the last three years.

With the assistance of H. B. Levine and A. T. Post it was possible to undertake larger and more activities and carry them through in a commendable manner. Many activities have been introduced since the department has come under such able leadership. Touch football, basketball, baseball, track and winter sports now occupy the attention of the fraternities. Besides these sports the department gives instruction in tennis, riding, fencing, handball, boxing, tumbling and golf. Class athletics and tournaments for wrestling and boxing attract many, and the policy of the physical education department is gaining many advocates, who are willing to aid in making intramural athletics more popular than ever.

GILBERT WRITES OF VT. AGRICULTURAL OUTLOOK

The last issue of *Vermont Farm Business*, compiled by C. W. Gilbert, farm management demonstrator, and issued by the Agricultural Extension Service of the University of Vermont and State Agricultural College, is now ready for distribution. The issue discusses the agricultural outlook for Vermont farmers in 1931.

As the introduction reads: "this statement is prepared to present briefly the outstanding features in the outlook for agriculture in Vermont for 1931. It is based on the best available information as to production and market conditions which are likely to prevail during 1931 and is designed to give farmers more facts upon which to base plans for the coming season. Each farmer should consider these statements in the light of his own particular conditions."

G. C. CROOKS TO SPEAK AT CHEMISTRY SEMINAR

G. C. Crooks, instructor in chemistry at the University will deliver the principal address at the chemistry department seminar to be held tomorrow. Mr. Crooks will use as his subject 'Studies in the Protein Content of Normal Arelan Blood.' The subject is that on which Mr. Crooks did much research work at Amherst College.

Professor Burrows head of the chemistry department in speaking of the weekly seminars, pointed out the two fold purpose served. First to stimulate interest among the older students as well as those of in the lower classes and second to promote closer association between the faculty members of the department. Various members of the faculty thus become more interested in the others' experiments.

The attendance at the seminars is usually about twenty-three freshmen, five sophomores, one junior and five seniors and six or seven faculty members usually are present.

The department will again serve tea at another seminar soon to vary the cut and dried chemical department.

CARPENTER CALLS FOR TENNIS SQUAD ASPIRANTS

"More men are needed for both varsity and frosh tennis squads," stated Coach Carpenter in a recent interview. "Two members of last year's squad, Palmer and Holbrook, are ineligible which reduces prospects considerably for this year. Starting this week practice will be held every afternoon in the cage from 1 to 3:15 o'clock. Times for individual practice may be had by applying to Coach Carpenter. The frosh have only four or five players who have signified their intentions of going out for the squad. Only one or two of these men have any team experience from high school or prep school. While no frosh matches have been scheduled it is planned to play several nearby high and prep schools making a list of about six or eight matches."

VERMONT HAS ENVIABLE RECORD IN FORMER TRI-STATE LITERARY WORK

Has Always Placed Well Since Contest's Inception in 1926 When Three First Prizes Were Won

The Tri-state Literary Contest which will be held in the near future was started in 1926 at the suggestion of the University of Maine, and all three short story prizes that year were won by Vermonters, Florence Chapman, Bertrand Chapman, and Elizabeth Warner Morrill.

In 1927 Pauline Sullivan and Merta E. Munro of Vermont took first and third in the short stories, Lewis Leary and Janice Goodrich took second and third in the essays and Miss Goodrich tied for second in verse.

In 1928 Merta E. Munro won the short story contest, Ann K. Perkins won the essay contest and Wilmond S. Parker won the poetry contest giving U. V. M. three first places.

In 1929 University students took three thirds, Mary Turner in short stories, Marjorie Rice in essays, and Janice Goodrich in verse.

Last year, Janice Goodrich with her short story "A Hired Woman" took first place in that division and her poem "On a River Bank" rated a second in the poetry division. Edward Fitzgerald, '32 won first place in the latter division with his poem, "Fog."

The final score of the contest was New Hampshire, 14; Vermont 13; Maine, 0.

The candidates wishing to participate in the contest must turn the copy into the English office before the beginning of the spring vacation. A committee of the English department will judge the manuscripts submitted. If one is accepted the author must make three copies which will be sent to the various judges. The contestant must also enclose his real name and his *nom de plume* in a sealed envelope which is to accompany each manuscript in the final contest.

Three contestants for each of the three divisions will be chosen here to enter the final contest.

Jack: You'd better keep your eyes open around here.

Mack: Why?

People will think you're a darn fool if you go around with them closed.

Frat Relays Reach Finals

Kappa Sigs Defeat Phi Sigma Delta in Semi-Finals and Sigma Nus Outrun Sigma Alpha Epsilon

SIGMA NU TEAM MAKES FASTEST TIME TO DATE

In the semi-final round of the interfraternity relay schedule held on Friday, Kappa Sigma advanced to the finals by continuing to win, this time from Phi Sigma Delta in 2 56 minutes.

The combination of Wesely, Delfausse, Jay and Smith worked smoothly and ran wild over the opponents. The race was well run but was not the fastest of the day.

The surprise came when the Sigma Nu team was forced to run the relays in the fast time of 2 53 to win from a fighting S. A. E. team. Sigma Nu was by far the better team, although the latter tried their hardest to win. Last year's championship team of Phillips, Wright, Bedell and Huey outclassed the practically new S. A. E. combine of Mulcahy, Calcagni, Tomassetti and Crockett.

The Kappa Sigs and the Sigma Nus will run in the finals this afternoon. Sigma Nu with its fast time in the semi-finals is favored to win although it is believed that Kappa Sig will run faster than it has in previous races and will make Sigma Nu stretch its legs also. Kappa Sigma will use Wesely, Delfausse, Jay and Smith. Sigma Nu will use Phillips, Wright, Bedell and Huey.

Second Round

The second round in the relay schedule resulted in victory for Kappa Sigma, Sigma Nu, Phi Sigma Delta and Sigma Alpha Epsilon.

In a very speedy and smoothly run race Kappa Sigma romped to an easy victory over Delta Psi. The former ran by far the better race and the fast team of Wesely, Delfausse, Jay and Smith assured an easy victory over the comparatively slow team of Woodruff, Wilson, Jenks and Bradish.

Phi Sigma Delta, which had previously won from Zeta Chi, had a hard time in winning from the fast Alpha Tau Omega team, which had also won a race. Perelman, Cohen, Fienberg and Berger, running a smooth race, eclipsed the time set by Daigle, Brislin, Howard and Blakely by nearly a second. The race was evenly run throughout the entire time.

Sigma Nu won from Phi Delta Theta in a rather easy fashion. "Chick" Grant, the anchor man of the latter team, ran the best race on both teams when he recovered over a quarter of a lap of lost ground for his team. Sigma Alpha Epsilon won from Sigma Phi by default.

Prof. L. B. Puffer addressed the Green Mountain Chapter, Daughters of the American Revolution, on the subject, "Old Highways of Vermont" at the meeting held Monday afternoon, March 9. He had with him an interesting map of the Vermont highways in color which he used in illustration. Professor Puffer is an authority on early Vermont history.

"What kind of a report card is this to bring home, young man? Nothing but A-A-A-A. Are you going to turn out to be a sissy?"—*Log*

Faculty-Student Group Will Hear Reports of College Tours

COMMITTEE HAS VISITED SEVEN OF TEN COLLEGES

[illegible] of the Faculty Student [illegible] hear all future reports of [illegible]ed by the committee in[illegible] freshman-sophomore rela[illegible] colleges before they were [illegible]ulted in the first of the [illegible]eliminary hearings by the [illegible] Wednesday at 4 o'clock. [illegible]lles '31 and P. E. Westin, [illegible] returned from a tour of New [illegible] Bowdoin, and Bates. Last [illegible] H. Mattison and F. S. Smith, [illegible]s, returned with a report [illegible]ll and R. H. Cowles, '31, [illegible] W. Householder, '32, have re[illegible] the situation existing at [illegible] M. A. C. and Wesleyan.

[illegible] intends to leave for Middle [illegible] Dartmouth next week and [illegible] will visit Williams during [illegible] Easter recess.

That the reports returned by Bolles and Wolfin were too long for publication in the CYNIC at present was the [illegible] of both Dean Swift, the secretary of the Faculty-Student Council, and Bolles himself. But both men [illegible] that fully detailed reports of the investigations as well as the final decision of the Council in regard to the [illegible] settlement of the problem [illegible] freshman rules and haz[illegible] which was such a stirring issue [illegible] V. M. last fall, will be available [illegible] publication soon after the Easter [illegible].

[illegible] committees which are visiting [illegible] New England and Canadian [illegible] are bringing to the Faculty-[illegible] Council reports of facts found [illegible] interviewing student and faculty [illegible] and will serve as a basis of [illegible] for the University of Vermont [illegible].

The members of the Faculty-Student [illegible]

Professors Bullard, Carroll, Cum[illegible] Great, Mower, Swift, Miss Cum[illegible] and Dean Whiting; 1931, F. A. [illegible] R. J. Maynes, K. M. Stevens, [illegible] Fields, Jean Wappler; 1932, H. [illegible] Albee, P. E. Westin, M. B. Morrill, [illegible] Bunslow, Lillian Mount; 1933, [illegible] Perry, the president of Women's [illegible] Union, Margaret Stanley; [illegible] L. Morgan.

JOSEPH C. CARTER, '32

Who retires from the positions of Editor-in-chief, 1931 Freshman Handbook and Director of the 1929 and 1930 Freshman Camps

MUSIC DEPARTMENT TO PRESENT LENTEN-EASTER CONCERT THIS SUNDAY

This Year's Program Will Feature Sixteenth Century Music, Especially Bach

The University of Vermont music department will present its annual Lenten and Easter concert Sunday afternoon at four o'clock in the Ira Allen Chapel.

Several new selections have been chosen for presentation this year. They are a 16th century motif "Rejoice Thou Worthy Christendom," by Tinck; "Crucifixus," from Bach's B minor Mass; area, "Jesus Saviour I am Thine" from Bach's St. Matthew Passion.

Service will be conducted by Rev. I. C. Smart. The University choir will be directed by Prof. H. G. Bennett, head of the music department. Professor Bennett will be assisted by Miss Miriam Natilee Marston, organist; R. H. Albee and the Misses Dorothy Fowler, Mailia Putnam and Elsie Roosa, soloists. The University orchestra, directed by Miss Charlotte de Volt, will also be in attendance.

The public is cordially invited to attend.

"What is the lethal drop of temperature" was the subject discussed by Dr. Fred Johnson at the meeting of the Research Club held Tuesday evening in Morrill Hall.

TWO-MAN TEAM MEETS FLORIDA IN NO-DECISION DEBATE ON FREE TRADE

Bradish and Codding Uphold Affirmative Side of Forensic Question

CONSIDER SOCIAL AND ECONOMIC ARGUMENTS

Vermont debaters encountered the debating team from the University of Florida in a no-decision debate, in the Old Mill Chapel Tuesday at eight o'clock. The question at which Vermont upheld the affirmative was "Resolved that all nation of the world should adopt a policy of free trade." The Florida debaters defending the protective tariff in their negative [illegible] were, Dixie Beggs and Harold B. Wahl. The Vermont men were J. A. Bradish and E. M. Codding, both seniors. Each speaker was allowed twelve minutes for constructive arguments and five minutes for rebuttal. Professor Dean acted as chairman of the debate.

J. A. Bradish opening for Vermont, welcomed the Florida team and hoped that they would enjoy their brief stay at Vermont. He next stated that the affirmative based their arguments upon two main points. First that Free Trade was economically to the best interests of the world and secondly that it was socially best to the world. He argued that the nations should all adopt free trade at the same time, they should however be gradual in their endeavor to establish free trade. Tariffs are undesirable and unsound Bradish said, and therefore are economically inefficient. Denouncing the present tariff as burdensome to nation, he said that the need of all nations is to develop market for surplus and free trade.

Beggs of Florida

Dixie Beggs, Florida negative debater, next took the platform to defend the protective tariff. Beggs discussed the relation of tariffs with the two major political parties. We are not concerned with whether the tariffs are right, but with the principle of soundness of the protective policy. Nations are trying to encourage protective tariff as a means of attaining prosperity. As yet 65 percent of trade is free trade. He next pounded upon the free trade idea as an impractical theory and that it would not work. The second speaker stated that free trade is practicable only where there is the inter-relation of states and that is what we must have in order for free trade to obtain. Free trade would disrupt the entire economic make-up of the world. In the United States thirty million wage earners are dependent upon the present protective policy of the country.

Codding concluded the affirmative arguments by claiming that tariffs are unsound socially and politically. There is constant international irritation and ill-will, which means constant tariff war and disruption. Free trade is beneficial and practical. The nations of the world are demanding a change, and free trade is the ultimate end.

Wahl concluded the negative side by refuting several affirmative arguments and accusing them of using only theory and not facts. Tariff he said is the only manner in which backward nations can develop. He then showed how the tariff had aided the United States to rise among leading nations and take the foremost stand.

The Rebuttal

The negative showed how the United States industries could not stand a minute without a protective tariff. The protective tariff is necessary economical development and can not be supplemented by free trade. Constantly referring to the affirmative's inability to show how the free trade would work, the Florida debaters closed their arguments with complete reviews and challenges.

The rebuttal of the Vermont speakers was in direct refutation of arguments offered by the negative and asserting that the free trade policy works. Codding said that perhaps the wage earner received five dollars more under the tariff, but he paid seven dollars more for the necessities of life and therefore there was no gain. Concluding the debate the affirmative debaters asserted that the change should be gradual and that there should be adopted a policy of free trade among all nations.

Vermont Commission On Rural Life Plans Continued Activity In 1931

The Vermont Commission on Rural Life plans to continue its activities," said Prof. H. F. Perkins, secretary of the commission which has been in operation for two and one-half years. Instead of winding up the sixteen committees and eighteen sub-committees as originally planned, he stated, the commission will find some way of continuing its work even if no grants are received.

Last Thursday Ex-Governor Weeks appeared before a joint session of the legislature and announced the commission's plans and urged the members to advertise and attend the mass meetings which will be held Tuesday, Wednesday and Thursday, June 16, 17, and 18 respectively.

A business meeting of the commission will be held the 18th to decide upon a permanent organization. Some of the commission members have already declared their intention of holding separate meetings among themselves to perfect their own organizations in case the commission decides it best to disband.

Commission's Organization

The groups include, the Eugenic [illegible] a permanent organization [illegible] will return to its independent [illegible] the committee on Vermont [illegible] the Adult Education Sub-Com[illegible] the Rural Library Sub-committee, the Fish and Game committee.

Cowles Describes Plans

Sunday Chairman Judge [illegible] of the committee on Vermont [illegible] described plans of the committee [illegible] University Discussion Club; [illegible] that this is the first state-[illegible]ganization, unofficial in [illegible] organized for the purpose of at[illegible] persons who wish to leave Trust Funds which shall be administered for the benefit of educational and charitable enterprises throughout the state.

Members of two banks will also serve as members of a board which will include at least three representative citizens who will receive and administer funds bequeathed to the board for any non-sectarian purpose.

"This system will guarantee a wise and economic administration of funds left by friends of the state in accordance with the wishes of the givers," declared Professor Perkins. "It is entirely a new, strictly non-sectarian, state-wide board created for the first time," he added.

PROF. MOWER TO SPEAK AT NEXT I. R. C. MEETING

The International Relations Club will hold its regular monthly meeting next Tuesday, March 24, at 8 o'clock at the Vermonters' Clubhouse. Prof. Edmund C. Mower, head of the department of political science, will speak on a subject to be announced later, and which will be posted as soon as possible on the bulletin boards.

All those interested are cordially invited to attend the meeting, whether members or not. The International Relations Club secures prominent speakers to address its members, and others who are interested in political, social, and economic relations.

Dr. H. B. Ellenberger spoke on "Land Grant Colleges" at the Faculty Club meeting, held Saturday, March 14.

Drew Will Edit Handbook; S. Carter to Manage Camp

Vermont Christian Association Student Cabinet Elects Heads of Two Freshman Preliminary Activities

WEBSTER WILL SERVE AS HANDBOOK MANAGER

Fraser H. Drew, '33, of Randolph will edit the 1932 *Freshman Handbook*. Stanley K. Carter, '32, of East Corinth, will serve as director of the Freshman camps and David W. Webster, '33, of Brighton will be the business manager of the *Freshman Handbook*, as a result of an election by the student executive cabinet of the Vermont Christian Association last Wednesday at 4 p.m.

In accordance with a by-law to the V. C. A. Constitution adopted at the same meeting, each of the above men will soon issue a call for scrubs to work with him. He will select two of the men who try out for the positions to serve as assistants subject to the approval of the cabinet.

New Heads Active

Drew is one of the three news editors of the Cynic, is a member of Phi Sigma Phi, and French Club. He was an assistant editor of the *Freshman Handbook*, the chairman of the Foot ball Hop and has been on the dean's list each semester. He is a member of Lambda Iota fraternity.

Carter is an assistant editor of the Cynic, is the student secretary of the Vermont Christian Association cabinet, is a member of Le Cercle Lafayette, served on the Football Hop Committee and belongs to Lambda Iota.

Webster, last year the assistant business manager of the *Freshman Handbook*, is a sophomore representative in Student Senate. He is a member of Sigma Alpha Epsilon.

WOMEN'S CHORUS NOW SELECTED FOR COMING COLLEGE COMIC OPERA

Seventeen Young Ladies Win Places on Chorus of Comic Opera, Pirates of Penzance

Women's choruses for the comic opera "Pirates of Penzance," to be given at the Strong Theatre April 16, were selected at the music building March 11 and 12 according to Prof. H. G. Bennett, director of the production.

The choruses include: Sopranos, Eleanor Eggleston, '33; Sylvia Farnham, '34; Ethelyn Foster, '32; Irene Hall, '32; Sylvia Holden, '32; Alliene McNall, '34; Dorothy Sweeney, '32; Ruth Tarleton, '34; Helen Taylor, '31; Betty Wallace, '33. Altos: Ruth Buxton, 32; Elizabeth Dickens, 34; Helen Jenkins, '34; Elisabeth Mandigo, '32; Dorothy Nash, '31; Agnes Parsons, '32; Gene Petze, '33.

"Pirates of Penzance" is a comic opera which was first presented in New York City at the Fifth Avenue Theatre December 13, 1879. Sir Arthur Sullivan conducted the production and W. S. Gilbert managed the stage. The opera has distinctly English characteristics and is the first of the famous Savoy series.

In the course of "Pirates of Penzance" a song now well known to American life is noticed, 'Hail, Hail, the Gang's All Here.'

The third reason why "The Pirates" is closely bound to America is that most of the music and probably part of the libretto was composed on this side of the Atlantic. On the wall of a building at 45 E. 20th street, New York City, is a tablet with the inscription: "On this site Sir Arthur Sullivan composed 'The Pirates of Penzance' during 1879. This is true only in part. It is certain, however, that when the author and composer arrived in this country—to show the United States the authentic "Pinafore"—they brought with them only an incomplete second act of "The Pirates." It is likely that part of the libretto, all the first act music and all the orchestration were written in New York.

FOUR MEN'S SOCIETIES INITIATE MEN FORMALLY

Formal initiations were held recently in the fraternities: Alpha Tau Omega, Kappa Sigma, Phi Mu Delta, and Sigma Nu.

SIGMA NU held its initiation last Saturday afternoon. The following men were initiated: E. E. Carlson, '34, J. A. Chiota, '34, T. G. Cogswell, '34, and C. J. Kilburn, '33. A banquet was held in the evening at the New Sherwood Hotel. Many alumni were present.

KAPPA SIGMA initiated the following men Saturday: W. W. Adams, '34, R. R. Barron, '34, L. L. Bowers, '34, C. K. Bush, '32, H. S. Farr, '34, Richard Powell, '34, J. D. Smith, '34, K. D. Spaulding, '34, J. D. Tobin, '34, and M. H. Welch, '34. The banquet was held at the Hotel Vermont roof garden.

PHI MU DELTA initiation was held Sunday afternoon March 8. The following men were initiated: A. A. Austin, '34, Charles P. Cassidy (honorary), W. E. Concannon, '34, C. F. Dobson, '34, W. H. Galvin, '34, H. F. Howard, '34, C. G. Otis, '34, R. C. Rubino, '34, M. J. Young, '34. Professor Evan Thomas spoke at the banquet which followed the initiation. Kenneth Pierce was the toastmaster.

ALPHA TAU OMEGA held its initiation Saturday afternoon and initiated the following men: H. C. Abbott, '34, A. B. Blakey, '34, W. W. Brisbin, '34, R. H. Dorion, '32, E. E. Johnston, '34, R. R. Lowell, '34, R. A. Martin, '34, W. J. Ryan, '34, W. E. Sbaie, '32, C. M. Terriem, '34, P. B. Williams, '34. The banquet was held at the New Sherwood Hotel.

UNIVERSITY CONCERT IS WELL APPRECIATED

A large and appreciative audience attended the musical concert given by the University orchestra, Prof. H. G. Bennett, of the music department, director, Miss Charlotte de Volt, concert master and violin soloist, and assisted by the combined men's and women's glee club double quartets, with Katrina Munn, '32, accompanist. The gymnasium was the scene of the concert which took place last Wednesday evening, March 18.

The program:

Introduction and Dance of the Furies — *Gluck*

Allegretto from the 7th Symphony — *Beethoven*

The Orchestra

Song of Fate — *Brahms*

The Double Quartets and Members of the Orchestra

Allegretto poco mosso from the Sonata for Violin and Piano — *Franck*

Miss de Volt and Mr. Bennett

Danse des Mirlitons from the "Nutcracker Suite" — *Tschaikowsky*

Miss de Volt, R. S. Jenks, Elizabeth Eckhard, F. W. Householder, C. F. Heath, Jr., D. W. Jenks

Overture to the "Pirates of Penzance" — *Sullivan*

The Orchestra

The following took part in "The Song of Fate": Members of the women's double quartet, consisting of Mailia Putnam, '32, Eleanor Eggleston, '33, Cynthia Lynch, '31, Katherine Skinner, '32, Esther Beardsley, '33, Emma Rock, '32, Winona Spencer, '31, Elisabeth Mandigo '32.

The members of the men's double quartet: W. J. Kearney, '34, M. D. Jenks, '30, G. O. Richer, '34, J. H. Jardine, '34, A. A. Scharbius, Jr., '32, J. G. Gordon, '33, G. H. Burrowes II, '34, D. Baker, '31.

CYNIC PLANS CONTEST FOR JUNIOR PROM QUEEN

A beauty contest, to be sponsored by the Cynic, with the object of determining the most beautiful of the women in the four classes who will be announced as Queen of the Junior Prom, will begin shortly after Easter recess if the proposal meets with popular approval.

The winner of the proposed contest would be selected by popular vote of the student body and a board of faculty judges.

Vol. 49 — March 20, 1931 — No. 6

Religion, like numerous other topics, seems to occupy a place of unprecedented importance in student discussions. The tendency is not for an uncritical acceptance of all the theological dogma of the past, but an inquiry into the ultimate values of faith and certain divine or universal principles.

The decreasing attendance at chapel exercises is not one peculiar to our own university. Since the abolition of the compulsory feature of chapel in many institutions there has been a decided decrease in attendance. This we believe is not indicative of a loss of faith, or a developing atheism among students. Contrary to the statements of some of our contributors, religion as such is not dying. Its eternal principles still exist and will demonstrate their potency if applied to our every-day relationships.

We see great value in the positive stand taken by our administrative officials in the recognition given to the spiritual forces of the University. But at the same time we realize that they are working in competition with more temporal forces such as the change in conventional moral standards, materialism, science, and the new psychology. Truly these are new challenges to faith. But they need not destroy faith. Religion does need to readjust itself and free itself from many of the shackles which tend to prevent it from realizing its ultimate purpose—that of the development of man as a reverent individual who can live in peace and harmony in society.

Religion was once an escape from reality. In its emotional manifestations in personal worship it still provides spiritual warmth and strength. "What you admire makes you what you are," said Bishop Booth in Chapel Wednesday. In this affirmation there is much well-founded psychological truth. For our ideals, our search for truth, and our appreciation of the finer intangible things of life, along with our heritage from the past and our environment determine in a large measure our social development.

On the college campus the concerted religious life, expressed through the curriculum and in chapel and the Christian Associations, is a local movement banding together those students and professors who share a common concern for the ethical, moral and religious life of the college.

In this movement we sense an earnest quest for higher values and standards of conduct, and an increased desire to reorganize our faith in systems of eternal, ethical, and moral principles as demonstrated by certain dynamic religious leaders and prophets. The ultimate fulfillment of the purpose of this movement, we believe, will give to the college student a workable social code which he can rely upon as a remedy for many of the evils obtaining in the present social situation.

Through a casual perusal of the news organs of a large number of colleges and universities in the United States we find that student discussion of the vital controversial topics of the day has never before been so keen. Through the contributors' columns of the collegiate journals there is in evidence an expression of a critical attitude toward questions which directly concern the student mind.

The Campus Comment column in the CYNIC is a free column open to letters from both students and faculty. The contents of the letters or the individual attitudes or opinions expressed do not necessarily reflect either our editorial policy or the policy of the University administration. They represent the opinions of those individuals over whose names they are published.

The CYNIC is proud to say that this column is free for students to express their opinions on all sides of any subject of campus interest. It does, however, request that each communication bear the name of its author.

T. Nell Taylor, *Oregon Daily Emerald* reporter, must have some hook-up with Capone. He has unearthed some interesting analogies between racketeering and college slang. According to Taylor: a "greener" in college is a frosh, in gangs an immigrant; "go to college" means to start serving a sentence in prison; a "graduate" is one who has served a sentence in jail; an "education committee" is a group of sluggers or strong arm men appointed to bully, terrorize, or beat someone into yielding to the orders of racket leaders; "check out" means to leave hastily; "initiation fees" are the amount levied on a new member when he joins a racket; "monkey clothes" (in college, a tux or R. O. T. C. uniform) are plain clothes; "oh my" is near beer; a "chisler" is one who lives by his wits, whereas on campus it means the little blonde who is always hungry.

Old Joe College says that for his he'd just take Quaker girls, because they don't believe in fighting.

Campus Comment

To the Editor of the CYNIC:

The Military Ball took place last week. It was a spectacular affair. Everybody had such a fine time that many probably commenced to believe, if they had not done so already, that all things military are great and wonderful. In short, many undoubtedly seem to feel that nothing can possibly be wrong with an institution that can entertain so royally. It is our sincere hope that everybody attending the ball did enjoy himself. But let us not confuse dancing with military. Military and militarism are very different animals from dancing. In dancing, there is pleasure and companionship. In militarism, there are included all the honors imaginable, tortuous suffering, disease, hate, repine, enmity.

But, of course, in the very genteel manner in which military training is given at Vermont, anyone would easily be led to suppose that the training there was a course in sophistication. War would be a delightful exercise if it consisted only in the lovely maneuvers conducted by the local battalion. The reality of war is not made apparent in the artificial drills held on our back campus or in the gymnasium.

On the battlefield, any soldier who walks erect, with his shoulders back, is soon riddled with bullets. Yet, every officer insists that his little cadets prance around the drill field in the most gentlemanly fashion and remember always to hold their heads up very high and to force those unruly shoulders of their's way, way back. It is curious, to be taught the very thing in a military course that is to be avoided in actual battle. It is curious and tragic.

Some of the campus jingos, who think that their duty to their country is to destroy all other countries, would undoubtedly reply to the objection that the military training, as given at present, is inadequate, by advocating a still more rigid course of training here. Perhaps they would have bayonet practice. They would have our freshmen and sophomores learn the art of ripping men's stomachs open. If military training were taught at Vermont in a way that what was learned in drill could be practiced on the glorious field of battle, it would be apparent how little loveliness is actually connected with military.

There are those timid souls who cry very loudly for preparedness and—mind you!—exactly the kind of preparedness which the stupid drill we get at Vermont is supposed to establish. These timid souls think that war is inevitable and they point to the pages of history which, to them, is only a vast record of the military experiences of past peoples. Certainly, the history of man is a long story of blood and ruin, but it is also more than that. History is the record of man's development from the primitive stages to the higher levels of civilized society. War is a phenomenon in backward states particularly. War is advocated by barbarians. (There can be barbarians even in civilized states!) It is only as a man becomes more intelligent that he realizes that war is not inevitable and that there are better means than that of arms to settle international disputes.

I remember very well, while taking the second year of the basic course in military, being told in a lecture by a member of the military staff that, though men could settle international disputes without a recourse to war, they do not do so. Such words perpetuate a dangerous doctrine and as long as men will allow professional militarists to dictate many of the ideas they will hold to them, the world is likely not to be rid of either war or the parasitic military machine. Professional militarists, naturally enough, want to hold their jobs and they can do so only by playing upon the fears of a credulous and timorous public and by taking an active part in wars which of course must take place.

As a matter of fact, war solves nothing. Rather than settling problems, it creates others still more complicated. The World War is an excellent example of this. The treaty that was concluded at the end of this last great war made Europe and Asia a hotbed of revolution.

Well-meaning mothers and grandfathers may claim that military drill itself, even if it does not make the nation secure from attack, does do some personal good to young men. It teaches them discipline. They forget that discipline, in military language, means unquestioning obedience to the officers. Is this the best kind of discipline a young man can have? That young men should discipline themselves into good habits goes without saying. But, what kind of habits are acquired in military drill and military camps? A cadet may learn to swear very well, he may become very proficient in the use of foul language. He may become so well disciplined that his mind will cease to be a relatively free agent and will react mechanically. When a man is a soldier or trained in the ways of a soldier, he is no longer a free citizen. He has learned to be so obedient to his "superiors" that at the least provocation from them he will fly to arms unquestingly, gladly. Soldierly discipline is hardly the brand of discipline to be mustered in a democracy.

Americans prize their freedom, and very rightly do they do so, for freedom is the most precious possession of an American citizen. There are institutions in this country, large, powerful societies, claiming to uphold American rights and to be very patriotic and yet either secretly or openly doing everything they can to destroy the sacred privilege of the American liberty. If Americans were to cease to be free citizens, they would no longer be Americans. Everyone should be careful not to be misled by the bombastic and very beautifully phrased sentiments of representatives of such institutions. The American cry has always been "liberty!" May we ever have freedom, and in all the departments of life! I don't think I am being radical in expressiong such an idea.

Why not carry the principle of freedom into the realm of military training?

Why should military training be compulsory at Vermont?

Would it not be more in accordance with the American tradition of liberty if it were voluntary?

It is the popular conception that military training must be compulsory at Vermont because this institution is a land grant college. Yet, another land grant college, the University of Wisconsin, has made military voluntary and Attorney-General Mitchell himself declares that the action of the institution was not in violation of the laws pertaining to land grant colleges. It would seem that Vermont has nothing to suffer whatever from making military training voluntary.

The trend of student opinion in other colleges concerning the matter of military training is shown by the fact that a petition signed by 10,000 college students from all sections of the country was presented not two weeks ago to President Hoover and members of the Senate and House of Representatives, requesting the abolition of the compulsory feature of military training from American colleges and universities.

The petition stated: "We believe that insistence upon the compulsory feature of military training indicates that the majority of student opinion stands opposed to it, and constitutes its own confession of failure.

"Accordingly we petition the Congress of the United States to consider the mandate of student opinion on a matter which so vitally concerns it, and to outlaw the compulsory feature of military training from American colleges and universities."

If we are living in a democracy, is there any reason why student opinion should go unheeded?

—EDMOUR GERMAIN, '31.

To the Editor of the CYNIC:

I notice in two recent issues of the CYNIC the naive controversy between Messrs. Germain and Butterfield over that so tangible and limited field—Christianity. The best conclusion I can draw from the respective articles is that Mr. Germain will be satisfied only with a "this-worldly" Christianity whereas Mr. Butterfield demands a strictly spiritual or "other-worldly" conception. But to what point does all of this discussion lead?

What do we expect of Christianity? Isn't faith the first and greatest need? We need faith for happiness which is admittedly our life goal. We need faith in friends and relatives. We must have faith in ourselves. We ask for faith to believe that death is not merely physical and spiritual dissolution. If we have not this faith we are bound to lead a miserable life, at least after we have lost our milk teeth. Try to imagine happiness devoid of faith. "It just can't be done." This is our primary demand of Christianity.

But now, should this Christianity be "this-worldly" or "other-worldly." Christianity with hands and feet in the mire of material aims will never lift the doubter to sure footing, nor will that with ideals alone make contact to help a doubting mind. Because of this I would advocate a Christianity with its feet in the earth and its head in the clouds. But search as you will it does not exist. In the hands of students the world over lies the responsibility for materializing this conception though I have too little faith to believe that it will ever come about. Christianity as we know it through our various churches would melt us in a common pot and pour us into a mold, tradition encrusted, with creed as a watchword. As students, we refuse to submit to such limiting of our right of free thought and, no alternative being offered, we sit in the scoffers seat to the annoyance and perturbation of our pious elders.

Here on the hill we might as well pull the shades and drape the chapel in black. Christianity is dead or else has a serious case of sleeping-sickness. Witness the small numbers that attend chapel on Wednesday mornings; a scant hundred out of a thousand students. Fine speaker or poor it makes no difference, only the faithful stand-

SPORTING NEWS

SQUAD TAKES ANOTHER CUT AS DIAMOND MEN TRAIN FOR TRIP SOUTH

To Be One More Elimination Before Team Leaves on Annual Southern Invasion

VETERANS COMPETING FOR TEAM POSITIONS

[illegible] approach of the southern baseball team is rounding [illegible]ape and Tuesday's prac- [illegible]d by the final cut before [illegible]me at Quantico, leaves [illegible]men on the squad.

[illegible] which was the backbone [illegible]nt machine for two years [illegible] disrupted by the death of [illegible] Traynor and the loss of

LARRY GARDNER

[illegible] baseball coach who will again [illegible] charge of the University of [illegible]nt nine when it opens the season next week on the southern trip

[illegible]h McKay, leaving wide gaps at the [illegible] sack and at third base. Eddie Winant, the only three-letter man in [illegible] and notable for his consistent [illegible] will again take charge of the [illegible] sack.

The rest of the infield presents a [illegible]zzle. Baker, Pires, Macomber and Heaton seem to be the leading candidates for the open berths.

The outfield presents a more favorable aspect with Jay and Dinniman, [illegible] regular fly-hawks. Jay was [illegible]ed to center field last year and [illegible] acclimating himself to the outer garden made a name for himself as an outfielder and home run king. Dinneman is the only ball player who is starting his fourth year on the varsity club. He has been one of the most valuable players on the team and his fielding and batting propensities should place him in the limelight [illegible] season.

The right field garden berth is vacant with the possibility of Robinson and Rutkowski alternating in this position. Robinson looks good in the field as far as handling the fielder's job goes but is weak with the stick. Rut is also a pitcher, with a mighty fine batting average for last year.

The receiving end of the battery appears a little more secure this year with two regulars in Stroh and Kendall. With a year of college experience and more of amateur ball, the catching department seems much stronger than it was last spring. Stroh hit well over the .300 mark last year and has developed into a fairly good catcher. Foul flies had been Charlie's weakness, but consistent effort has rubbed this fault away. In Kendall we have a catcher, infielder and outfielder, one of the few versatile players on the squad. Bowers and Tomasetti, however, are giving the others a stiff battle for the catching berth.

The pitching staff is strong, with [illegible] veterans among the mound candidates. Cummings, Sargent and Rutkowski. Cunningham, of the J. V.'s, has plenty of smoke and hooks and with proper control should be a dangerous hurler.

Coach Larry Gardner said early in the week, "Second and third base positions are entirely open, in fact, all positions are open to more capable men. In picking men for the southern training trip, knowledge of past performance and performance in the cage will largely determine the tentative line-up. The southern trip is largely a conditioning and training period, during which the varsity line-up will fluctuate. However, after the team returns a change in the personnel of the team will take place, if necessary." At this point it appears that the infield will look much different than in the game at the opening game with [illegible]. Winant and Pires in the infield and Dinniman and Jay in the outfield are the main cogs left of the championship Green Mountain championship team. Jay is being tried at third base and is doing well there, giving Baker [illegible] competition. At short, Kendall and Pires are fighting it out. Others at second have appeared Tom Macomber, Heaton and To[illegible], in a four-cornered battle for [illegible]sition.

LYMAN R. DURFEY

Regular on the past seasons varsity basketball team who has been elected to captain next year's quintet

WRESTLING TOURNEY IS NOW IN PROGRESS

Exhibition Boxing Matches and Wrestling Bouts Result in Several Upsets

At present the wrestling tournament is commanding the attention of the physical education department.

The first set of wrestling bouts and exhibition boxing matches were run off without any undue excitement, mishaps or special skill. By the laws of the State of Vermont, no decision may be rendered on any amateur boxing bouts and as a result exhibition fistic matches are in order. The stimulation of interest in boxing here has failed because of this reason, although sparring is required by the P. T. department in the curriculum of some sophomores.

Wasserman won his bout over Whitman by a six minute time advantage. Of the two, the latter was a slightly better wrestler, but as is the case many times, size has its advantages. Whitman seemed to be very curious and always had his head in affairs (affairs being Wasserman's arms and legs).

Douglas and Watson seemed to be evenly matched in the second bout, although the former won with an eight-minute time advantage. It was quite a while before either hit the mat, and when they did, Douglas always seemed to be on top although he had no particular hold.

"Sailor" Burns and "Slugger" McCutcheon battled for three rounds in a boxing match. Burns was more intent on sparring and tapping his opponent, than was the opponent who hooked all his blows into the "Sailor's" pan with a more slugger-like vigor. Neither seemed to have an advantage over the other.

In the next bout "Black Tights" Barron had a slight advantage over "Gamecock" Gardner. The fight was interesting and snappy. In the first round Barron outclassed his rival badly, gave him a couple of kissers and buffeted him around in general. In the second round neither had any advantage. In the third round Gardner pinked his opponent, who was badly winded, and floored him for a count of seven.

In the heavyweight class, White and Hornstein wrestled mostly in the air. The latter took the bout with a three-minute time advantage. The match was slow and sluggish.

Much to the amusement of the onlookers, time-keepers and referee (the Honorable "Bumps" Levine), a match was staged between "Piggy" Cohen and "Frankie" Paris. The former gave an exhibition of brute strength and won by a fall the only one of the day. Paris made a fine effort to throw his weighty opponent but did not succeed.

In the final bout of the day "Eddie" Newcombe outclassed his opponent, "Bob" Roche, in a one-sided battle. Newcombe was in far the better condition. Roche put up a great fight but was unable to stand the three rounds. He took a terrific lot of punishment but rocked Newcombe with some well placed jabs.

In the 145-pound wrestling division, Powers forfeited his match to Perelman.

Intercollegiate News

Freshmen at the University of Denver may grow mustaches without fear of being molested by upperclassmen. The attorney general of the state of Colorado warns the upperclassmen that when they shave off a freshman's mustache they are liable to prosecution for assault and battery.

The Connecticut river boasts more institutions of higher learning on its banks than any other river in the world thirteen of them, namely: Dartmouth, Norwich, Northfield and Mt. Hermon Seminaries, Amherst, Massachusetts Agricultural College Smith, Mt Holyoke, two colleges at Springfield, Trinity College, Hartford Theological Seminary, and Wesleyan

Kansas State College has installed a "dating bureau" for students. Women filing their names at the offices to make the bureau successful should answer the following: height? weight? waist? drink? smoke? neck? appetite? age? A very good system—unless some one should lie!

The Work Psychology Institute is paying a lad to drink fourteen bottles of beer a day. The idea is this: the psychologists want to find out how long it will take a person fortified with fourteen bottles of beer to become tired. There were more than one applicant for the position.

Sigma Nu Wins Frat Relay Cup

Team of Wright, Bedell, Flagg and Huey Defeat Kappa Sigma in Finals

Sigma Nu defeated Kappa Sigma Wednesday afternoon in the finals of the inter-fraternity relays sponsored by the department of physical education.

As their victory was the third in succession years for the winners they automatically each permanent possession of the Jack Lally Inter-fraternity Relay Cup donated by the former Coach and Gold track coach.

The race between Huey for Sigma Nu and Smith for Kappa Sigma who were running number four for their respective teams, was the feature. Huey, who started off at a two yard handicap, overcame this disadvantage and won by about a yard. The winners time was 2 minutes 01 1-5 seconds made by Wright Bedell, Flagg and Huey. The losers were represented by Wesoly, Delfausse, Jay and Smith.

WOMEN'S DEBATING TEAM LEAVES SUNDAY ON TRIP TO MASS., N. Y. AND N. J.

Vermont's women's debating team leaves Sunday on a four-day trip through New York and New England. The team consists of Roberta Powers, '32, Laura Johnson, '33, Caroline Taft, '32, and Sophie Levin '32 alternate and manager. The team will debate Boston University, New York University, Pembroke College and New Jersey State College on their tour.

The first debate of the series will be held at Boston, Mass., next Monday evening, when the Vermont team will encounter Boston University. The subject is, "Resolved, that the several states enact legislation providing for a system of unemployment insurance." Vermont will defend the negative side of the question. Three judges will render the decision. The American plan of debate will be used, with ten minute speeches and five minute rebuttals.

Tuesday, March 24, the team will debate Pembroke College at Providence, R. I., again upholding the negative side of the unemployment question which will be worded "Resolved, that this House approves a system of compulsory unemployment insurance." The Oxford style of debate will be used with fifteen-minute speeches. There will be a decision by three judges.

New York University will be encountered at New York, Wednesday March 25. This time Vermont will uphold the affirmative of the same question as against Boston University.

The final debate of the trip will take place against New Jersey State College for Women At New Brunswick, N. J., on Thursday, March 25, the Vermonters will uphold the affirmative of the question. "Resolved, that the European indictment of American culture is justified." The American plan of debate will be used, with ten minutes for construction and five for rebuttal. The decision will be by a vote taken in the audience.

The team will be chaperoned by Miss Evelyn Orton, a graduate of U. V. M.

The trip promises fair to be a marked success. The Vermont team has yet to win a debate this year but it is hoped that several victories will result from these debates away from home.

RIFLE TEAM COMPETES AT McGILL TOMORROW

Tomorrow the Cabeumont rifle team will be in Montreal to fire an international shoulder-to-shoulder match with McGill University. This match will take place under the usual American rules and will be fired in the prone position only. The American rules consists of a fifty foot range and a 10 inch bull's eye.

Last year the match with McGill was conducted according to the Canadian rules. Those who are expected to make the trip are: Captain Donaldson, L. M. Wright, M. L. Joslin, L. R. Dunham, and H. J. Sheldon.

FREE TRADE POLICY TO BE CHARLOTTE DEBATE

Vermont, Represented by Bigelow, Bolles and Codding Will Uphold Negative

Vermont will uphold the negative side of the question, Resolved: That all nations should adopt a policy of free trade, this evening at the Charlotte parish house.

The debate will be presented before the Men's Club of the parish of which Mr. Hale of the English department is pastor. It will be ladies night at the club and the debate will follow a banquet.

Vermont will be represented by Bigelow, Bolles and Codding.

This will be a no-decision debate and the American style, in which each speaker will speak ten minutes in construction and five minutes in rebuttal, will be used.

TOUR SOVIET RUSSIA ADVISES TOURIST AGCY.

For 1931 a number of interesting itineraries are available for travel to Soviet Russia, at greatly reduced rates. Parties of ten or more students, traveling in Category "T" (student third) may tour the U. S. S. R. for as little as $5.00 per person per day.

These daily rates cover every expense—all transportation from the beginning of the tour to its end, hotels, meals, sightseeing, theatres, and the constant services of English-speaking guide-interpreters.

Intourist, the State Tourist Bureau of the Soviet Union, is glad to assist student groups or individual students to prepare special itineraries covering any particular phase of Soviet life they happen to be especially interested in such as art collections, collective farms, socialized medicine, legislation, sport societies, industries, social work, children's villages, theatre, cinema, schools, minor nationalities, hunting and fishing, communal life, or scientific research institutes.

Improved hotel accommodations are available all over the U. S. S. R., and new hotels are constantly being built. Prices have been sweepingly reduced. The Soviet visa is easily secured. Tours to Soviet Union combine conveniently with any general European trip. For information write:

VERMONT RIFLE CLUB IS ORGANIZED UNDER NATIONAL ASSOCIATION

All Students and Faculty Are Eligible for Membership—Headed by Student Officers

OBJECT TO ENCOURAGE ART OF RIFLE SHOOTING

A "University of Vermont Rifle Club" operating under the National Rifle Association charter has recently been formed here with the object to encourage the art of rifle shooting. Any member of the student or faculty body if a citizen of the United States is eligible for membership, but only students can compete against other clubs.

The officers of the club are: A. H. Roller, president; G. M. Donaldson, vice-president; M. L. Joslin, secretary; P. H. Thomas, treasurer, and Lieut. J. W. Kullman, executive officer.

All the officers are seniors. A. H. Roller, president of the club, is a resident of Jersey City, N. J. He is manager of both the rifle and tennis teams and is a member of the Phi Sigma Delta fraternity.

G. M. Donaldson of Warren, Wyoming, is captain of the rifle team and member of the Scabbard and Blade society. He also was a player on the senior basketball team.

M. L. Joslin was the high score man in the shoulder-to-shoulder match with Norwich University. He was a member of the cross country team and is a resident of Wallingford, Vermont.

The club's treasurer, P. H. Thomas, a resident of Burlington, is a member of the rifle team and the Sigma Delta fraternity.

The following are members of the club: W. J. Burke, '33, H. J. Sheldon '33, M. L. Joslin '31; G. M. Donaldson, '31; L. R. Dunham, '33; N. P. Park, '31; P. E. Bush, '32; P. H. Thomas, '31; C. V. Primpas, '33; J. L. Buckley, '34; P. E. Westin, '32; L. M. Freedom, '34; L. S. Wright, '32; R. M. Donahue, '34; H. S. Farr, '34; C. J. Libby, '34; D. F. Van Antwerp, '34; R. W. Ogle, '34; G. H. Burrows, '34; R. Johnson, '34; W. P. Hibb, '34.

There are at present nearly 3,000 rifle clubs operating under the N. R. A. in all parts of the United States, Hawaii, Alaska, and Canal Zone. The "University of Vermont Rifle Club" fires a series of matches under the V. R. A. supervision with all other clubs in the New England division. These matches are known as the New England intercollegiate league matches.

At the present time Vermont University ranks second in the league with Norwich and M. I. T. tied for first place. Members of the club will be able to shoot for N. R. A. prizes and medals in the following year.

Philosophy at Vassar

Sexual adjustments in marriage do not just come. They must be worked for. One must be well informed, and have love and understanding to put it through. Marriage from its personal aspects must be a relationship between two persons whose lives become inexplicably woven. Three psychological entities arise: you, he, us.—*Vassar Miscellany*

Our idea of forlorn is a miniature golf course covered with about three feet of snow.—*Montana Huddle*

He was Despised"; Air from the "Messiah." Elise Roosa, '32

Recitative: "Although Mine Eyes With Tears O'erflow" and Air: "Jesus, Saviour, I am Thine," from the "St. Matthew Passion," by *Bach*. Dorothy Fowler, '31

Air: "I know That My Redeemer Liveth" from the "Messiah" with violin obligato by Miss Charlotte deVolt. Mailla Putman, '31.

VERMONT DEBATERS ARE SUCCESSFUL ON JOURNEY

Win Decisive Victories Over Northwestern, Lake Forest College, and Wheaton College

The University of Vermont debating team met a team from Northwestern University Monday evening, March 16, in the first of the nineteen debates scheduled for the western trip. The debate was held in Chicago, Ill., before a meeting of the Cook County Retail Grocers' Association and was on the question, "Resolved, that chain stores are detrimental to the best interests of the American Public." In view of the particular occasion the audience was almost without exception made up of independent retailers.

The Vermonters, G. R. Nelson, '31, P. J. LaCrosse, '32, and R. P. Donaghy, '33, upheld the negative of the question and presented their case so convincingly that at the conclusion of the debate the audience conceded in a "shifting opinion vote" that they no longer held the chain stores to be detrimental.

The ballots that have been forwarded to Mr. Powers, coach, contain several remarks complimenting the Vermont team on their logic and their presentation.

The Vermonters were also able to win an easy point victory and an overwhelming audience decision over Lake Forest College, at Lake Forest, Ill., in their second debate of the mid-western trip, held on the evening of March 17. They argued the detrimental features of the chain store system.

The single judge appointed by Lake Forest to render a decision confessed, from the platform, to an ignorance of economics of any sort, particularly economics of distribution. Since the question for debate was the chain store question their admission went far to disqualify his decision in the minds of the audience.

The coach at Lake Forest apologized and declared that in the future he would try to make sure that the persons selected could really qualify as expert judges.

One of the professors declared that the Vermont team was the best debating team that had ever visited their platform.

On Wednesday, March 28, the Vermont debating team won a decision of a board of three judges over Wheaton College, Wheaton, Ill., upholding the affirmative side of the chain store question. This was the third consecutive victory to the credit of the Vermont team on its western tour.

It is notable that the Wheaton College team has been for two successive years champion of the Illinois intercollegiate debate league, the famous "Little Nineteen" league comprising nineteen of the leading colleges in the State of Illinois and has been defeated only once before in recent years. This team has won victories and fame as far west as the Pacific coast, including a decisive victory which placed them as champions in the regional intercollegiate meet held at Tulsa, Okla.

It is a very distinctive feat to have won a "board of judges" decision over a team of such marked ability and wide renown. Captain Nelson and his colleagues, Donaghy and LaCrosse are to be congratulated on having tucked the Wheaton scalps under their forensic belt.

The Vermont team has been very successful in the first three of nineteen scheduled debates throughout the mid-west. The trip this year is the longest and has the largest schedule of any former years.

Passion Chorales and Messiah Feature Lenten-Easter Music Program

Dorothy Fowler, Mailla Putnam, Elsie Roosa, Roger Allbee, Are Soloists

CONCERT GIVEN BY CHOIR AND STUDENT ORCHESTRA

Selections from Handel's "Messiah," the "Passion Chorales" of both Brahms and Hassler, and Bach's "St. Matthew Passion" were presented as features of the two-part Lenten-Easter concert last Sunday afternoon in the Ira Allen Chapel by the University Choir and the University orchestra under the direction of Prof. H. G. Bennett and Miss Charlotte deVolt.

The Rev. Isaac C. Smart, D.D. pastor of the College Street Congregational Church, assisted with scripture reading.

Dorothy Fowler '31, Mailla Putnam '32, Elsie Roosa, '32, and Roger Allbee '31, were the soloists.

The program:

Part I. Lenten Music

Organ Prelude: Chorale Prelude on "Herzlich tut mich verlangen" (Passion Chorale) ..... *Brahms*

Hymn: Pange Lingua Gloriosi Proelium Certaminis ..... *Gregorian*

Scripture Reading and Prayer

Response: O Bone Jesu.. *Palestrina*

Chorus: "Surely He Hath Borne Our Griefs," from the "Messiah". *Handel*

Air: "He Was Despised," from the "Messiah" ..... *Handel*

Elsie Roosa

Recitative: "The Rebuke Hath Broken Tears O'erflow," and

Air: "Jesus, Savior, I am Thine," from the St. Matthew Passion"..... *Bach*

Dorothy Fowler

Recitative: "The rebuke Hath Broken His Heart," and

Air: "Behold and See if There be Any Sorrow," from the "Messiah" ..... *Handel*

Roger Allbee

Chorus: "Crucifixus," from the B Minor Mass ..... *Bach*

Final Chorus from the "St. Matthew Passion" ..... *Bach*

Part II. Easter Music

Scripture Reading.

Choral: 'Christ Is Arisen"...*German*

Mailla Putnam

Motet: Rejoice Then Worthy Christendom" ..... *Heinrich Finch*

Air: "I Know That My Redeemer liveth.' from the "Messiah" *Handel*

Mailla Putnam

Chorus: "Worthy Is the Lamb." from the "Messiah" ..... *Handel*

Chorus: "Hallelujah." from the "Messiah" ..... *Handel*

Hymn: "The Strife Is O'er" from *Palestrina*

Prayer and Benediction

Response: "Christ Is Arisen."

Recessional Hymn: "O Filii et Filiae" ..... *French*

Organ Postlude: "Alleluia" ..... *DuBois*

Members of the University Choir—Sopranos Eleanor Eggleston, Marjorie Eisenwinter, Dorothy Fowler, Alice Gay, Eleanor Koenig, Charlotte Odell, Mailla Putnam, Dorothy Sweeney. Altos Esther Beardsley, Norma Carder, Barbara Douglass, Cynthia Lynch, Elizabeth Mandigo, Priscilla Perry, Elsie Roosa, Katherine Skinner. Tenors R. H. Allbee, R. F. Colburn, R. H. Cowles, B. J. Dimon, D. C. Hazen, J. H. Jardine, M. B. Jenks, R. S. Jenks, W. F. Kearney, R. H. Russell. Basses—G. H. Burrows, H. C. P. Harwood, R. F. Holbrook, D. W. Jenks, G. M. MacKenzie, W. Q. Millet, J. O. Perceval, A. A. Scharbaus, Jr.

Members of the University Orchestra—Violins Irene Marcotte '30, S. Barker, Effie Winn, Florence Murch, Clarinet—F. W. Hopeshelder, Jr. Violoncellos—D. W. Jenks, Ruth Wood, Priscilla Perry, Esther Wheeler, Laura Tracy. Trumpet—G. F. Heath, Jr. Flutes—R. S. Jenks, Elizabeth Eckhard, A. F. Whiting. Pianist—Evelyn DeBrune.

JUNIORS TO GET TAX BILL SOON, G. E. WILDER

Tax bills for the 1932 *Ariel* will be issued to the class of 1932 early this week according to G. E. Wilder, business manager of the year book in a recent interview with a Cynic reporter. All questionnaires have now been handed in and work is progressing as favorably as possible.

Professor George E. Dykhuizen will speak tonight at the John Dewey Club on "The Philosophy of Santayana"

MASON S. STONE WILL GIVE ALUMNI ORATION FOUNDER'S DAY, MAY 2

Trustee of University and Ex-Lieutenant Governor Has Enviable Record in Public Life

Honorable Mason S. Stone, U. V. M. trustee and former Lieutenant-Governor of Vermont will be the alumni orator for the Founder's Day exercises which will be held on Saturday, May 2.

Mr. Stone was born in Waterbury Center and was graduated from the University in the class of 1887 with an A.B. degree. In 1900 he was awarded the honorary master of arts degree by our Alma Mater and the same year he received the degree of LL.D. from Norwich University. He was elected trustee of the University of Vermont last spring.

Mr. Stone has spent the greater part of his life in educational work in Vermont. He has been principal of Williston Academy, Bristol High School and People's Academy of Morrisville.

He was supervisor of schools in Orleans county in 1889; superintendent of Easthampton District, Mass. in 1891; state superintendent of education for Vermont 1892; superintendent of schools in Manila, P. I. 1901-1904; superintendent of education for Vermont, 1905 to 1916. Lieutenant-Governor of Vermont, 1919 to 1921. While at Vermont he was a member of the Delta Psi fraternity.

HIGH SCHOOL ORATORS TO BE PICKED BY APR. 1

Vermont high schools must make applications to enter the oratorical contest by April 1. This year the University of Vermont offers scholarships totalling between $800 and $1,000 as prizes for successful contestants. The rules as drawn up by the Headmasters' Club committee are similar to those of last year. When all entries are in the schools will be divided into districts comprising six schools each and contests will be held in each district April 17.

The rewards to the successful orators are generous. The winner and runner up in each district in the state will receive scholarships of $150 and $100 at the University of Vermont respectively and will come to Burlington to compete in the state contest April 24. The winners of the first three places in the state finals will receive in addition to the prizes won in the districts, scholarships of $150, $100, $75 respectively.

The winner of the state contest will also receive all expenses of a trip to Springfield, Mass. to compete in the National Semi-final contest. If a Vermonter should be fortunate enough to win at Springfield he will be one of seven American high school students to be given a tour of Europe next summer, with all expenses paid by the sponsors of the National contest.

Each contestant in both district and state finals will deliver a prepared oration six minutes in length on some subject dealing with the Constitution of the United States. The participant is required to have command of the background of his subject to enable him, at the close of his prepared oration to give a four-minute extemporaneous talk on the topic assigned by the chairman. Any secondary school student who was under 19 years of age on February 1, is eligible to enter the contest.

Roberta Powers and Harvey Butterfield to Have Leads in Play

A. A. Milne's, "To Have the Honor," to Be Presented Junior Week by Competent Cast

FIVE NEWCOMERS MAKE ANNUAL SPRING PLAY

Roberta Powers ... of Morristown and H. D. Butterfield ... of Proctor, ... popular ... of ... Junior ... have the leading roles in ... and Professor Mower ... in the ... Junior Week play. The ... by A. A. Milne ...

Tryouts for the ... were held last week with Prof. E. T. Mitchell ... with coach the week Prof. A. D. ... and Prof. W. H. Adams ... as judges.

The complete cast of the play, which includes several newcomers to the dramatic stage as well as some old favorites, ...

Angela ... E. Murphy ...
Hughes
Miss ... Roberta Powers ... of Morristown
Ethel Holt Alda Anderson ... of Peekskill, N. Y.
Mrs Faithful Melvin Lloyd ... West Newton, Mass.
Emily ... Mary Elizabeth Eckhard ... of Burlington
Dr. ... M. Edwards ... of Westport
Peggy Mercer, H. D. Butterfield, Jr. ... of Proctor
Mr ... E. E. Adams ... of Burlington
Captain ... P. Barker ... of Burlington
Doctor Almslee ... of Burlington
Oliver F. W. ... of Burlington
Dorothy ... Mary ... has acted in the class play, "Many Happy Returns of the Day."

Roberta Powers has had leading roles in Dramatic Club productions and as a member of Masque and Gavel.

Sylvia Boyd also had a part in "Many Happy Returns of the Day" while Elizabeth Eckhard gained her experience in high school productions.

Dorothea Edwards acted in the 1931 class play.

Prince Michael is played by Butterfield who has had leading parts in "Lady Windermere's Fan," "Adam and Eve," "Dear Brutus" and the "Queen's Husband." He is also a member of Wig and Buskin.

Aiken, last year's vice-president of Wig and Buskin has played in "Summertime," "Dear Brutus," "Holliday" and "Queen's Husband."

Barker who plays the part of Captain Holt has acted in "Dear Brutus," "Holliday," and "Queen's Husband." He is a member of Wig and Buskin.

Jenks, this year's vice-president of Wig and Buskin, had parts in "Devil's Disciple" and "Dear Brutus."

Householder a member of Wig and Buskin played in "Devil's Disciple" and "Summertime."

PROF. MOWER TO SPEAK AT I. R. CLUB TONIGHT

Prof. Edmund C. Mower, head of the department of political science, will talk before the International Relations on the World Court issue as it will be taken up in the December Senate.

Professor Mower is frequently ... to discuss World Court problems as he is a recognized authority on international affairs. He is the author of "International Government" which is the result of research work begun in the fall of 1926 when he was one of a group of fifty American political scientists sent to Europe for a six weeks' study by the Carnegie Foundation for International Peace. Data for the book was gathered during the period from the fall of 1927 to the summer of 1928 when Professor Mower spent his sabbatical leave in Europe.

The physical education classes have completed their program of indoor basketball and are now taking up ... work.

A PLACE IN THE STARS

A distinguished finished group of soloists and a masterly rendition of all the traditional conventions of the sacred music artists by the University choir, the Orpheus orchestra and Miss Marion Marston, organist should give to Director H. G. Bennett a satisfaction in knowing that the Lenten and Easter concert Sunday was a most effective triumph and one deserving of much praise.

The program presented last Wednesday by the University orchestra is yet another illustration of the splendid work the department of music is accomplishing this year. At no time has interest in the musical activities been great but at all times the effort of the few has been indeed most commendable.

The Men's Glee Club has steadily increased in prestige both through the earnest enthusiasm of those students devoting their time to this activity and through the heightened quality of the voices of those who have faithfully rehearsed during their entire college career. No more convincing proof of the increasing ability of this group of singers under the direction of Professor Bennett exists than in the most noteworthy achievement of its attaining fifth place higher than ever before in the sixth annual intercollegiate glee club contest held at Hartford. We pay especial tribute to this unprecedented talent.

NO APOLOGIES

For the unfortunate and embarrassing conflict which exists between the meetings tonight of the John Dewey and International Relations Clubs the committee which arranged the social calendar for the year offers no apologies.

The John Dewey Club was scheduled several months since to hold a meeting tonight. In conflict with this arrangement the International Relations Club finds itself competing for a student and faculty audience with the other departmental club. Such an unfortunate coincidence of events is to be regretted. Yet we do not see in it any cause for either of these organizations to lack appreciative interest from a goodly attendance.

Let this collision of events be only a warning to future schedules and not a deterrent from a demonstration of interest in the two authorities who address their respective clubs on two of the most timely and interesting topics which the students will be privileged to hear discussed.

All too often the editorial staff of a news organ is forced to guide the quality and tone of its news columns only on the basis of the principle "no news is good news." A publication board seldom receives commendation for its efforts but is subject to unrestrained denunciation if it fails to please. But it is not the function of a college news sheet to be the echo of all the variegated opinions that exist on the campus. It does, however, of necessity, recognize the right of its readers to call the attention of the editors in a courteous manner to errors and omissions.

THE FORUM

"What's one man's poison, signor
To another's meat or drink."
Beaumont and Fletcher

A Panacea

Socialism! The word has a horrible sound. Socialism! How it chills the marrow of fatted bones. Swing your sleek snake about you, staunch capitalists, and shrink from the untouchable. Call on your dogs. Here Property! Come Profits! Hi! Prosperity! Hound this phantasm back to those fiend minds which gave it birth. Hail Rugged Individualism! All hail Business Cycles! Three hails, Unemployment! Bread Lines forever!

The world is two billion years old. How long, O Capitalism, how long? Shall we have expiated our sins in another billion years or more? Will eternity find us immolating our children, our manhood and our old age upon your altar? Must Class forever tear the throat of Mass? Is there no earthly haven of peace and plenty? Must we placidly await a spiritual heaven especially designed for those alone who debase themselves before you? How long will press and pulpit bow to profits? How long shall we be goaded by poverty and suffering, taunted by luxury, ridden by crime, and pressed to bleeding pulp between the shapeless lobes of your business cycle, your misbegotten machination?

Forever? No! And "No!" is echoed from ten million hearts where fear and anguish scorn the half-learned catechism of a profiteering god. No! You've had your try, and failed. Your show is over! You're through! Pick up the fragments of your altars and sink your bloated carcass in the murky pool of time.

Millions Starve

One hundred and fifty million bushels of grain in America cannot be sold though millions starve in China and hunger stalks naked through the Middle South. One percent of the population of this country owns sixty percent of the wealth. Millions of barrels of oil each year are being sold at less than the cost of production, although thousands cannot afford to buy gasoline for their cars this winter. Seventy-two percent of the population of this country receive an annual income of less than $1500. There are nearly twice as many mines and miners in the soft coal regions as are needed to supply the whole United States. Bankers cry "Save More!" while retail advertisements scream "Buy Now!" With our present capital equipment, technical knowledge, and labor supply we could increase our annual output of consumable commodities by one-third without forcing any one to work more than eight hours a day. Rugged individualism means ragged chaos. Private profit means public bankruptcy. Laissez-faire means laissez-souffrir.

What Do You Offer?

What panaceas do you proffer, you socialists? With what "Iam" will you pay the price of power and popularity? We refuse the double question. Our panacea is common sense: The substitution of collective control for individual ignorance, public welfare for private profit, and reason for mob fear. An all-inclusive Federal Reserve Banking System, into which all deposit banks shall be forced, dedicated to the establishing of the price level and the sane control of credit; government control of the coal and iron mines, the oil fields, and the superpower lines, highly progressive income taxes on all incomes over five thousand dollars, a nation-wide system of unemployment exchanges and state unemployment insurance; compulsory and gratuitous academic or technical schooling until the age of eighteen; the abolition of all constitutional restraints upon federal or state minimum wage laws, maximum hour laws, and factory or mine legislation, old age pensions for all over sixty, and the removal of all restrictions upon manufacturers' and business men's associations devoted to the control of their trades in the interest of service and public welfare.

This is the panacea we offer: Obvious common sense based on the recognition that Individualism and production for profit only failed the instant they began.—*Wesleyan Argus.*

The Mystic Pen

Overheard at the Concert

She: "Do you know that girl Vee Dee?"

No.

"I'd like to ask her to the Prom. I wonder what she likes." Presently: "Say, is she?"

Yes. I don't know much about her. How do you go about asking a girl, say, you'd want not to go to a dance?"

"Don't know. I guess you would find somebody who knows her and have m introduced you."

"But that's the trouble; nobody I know seems to know her; she's a Phi Beta."

The *Vassar Chat* in her customary spring wail:

Easter Cantata

With the country so depressed,
I am too broke to be dressed
In a gown that has a Bergdorf label
on it
Easter I will walk down Park
Avenue but after dark
With a mangey beret for my new
Spring bonnet.

—mp—

Eureka, as they say in Neo-Slavania of which country you are going to hear much from now on, we have a contributor:

Recuerdo Amoroso

sunset gun and flamered sky
desert silence—you and I
so close together in the white
clear coolness of the world above
alone with sagebrush and our love
so close together that our breath
was mingled vapour on the air
your lips on mine—who thought of
death
that night you gave yourself so
fair
I think we'd better stop right here
those passionate Westerners!

—mp—

Church Street, Saturday Night

Church Street Jungle:
Jungle-thoughts and jungle-stares
Follow females. Unawares
They pass the eyes of savage brutes
And sex-starved boys.
Or (sensing well the primal urge
That quite surrounds them), frightened surge
For home with nervous walk...
They don't! They'd rather sense the stalk
Of hungry men and tantalize
Their sense of danger...watch their eyes
And see desire reflected there
It shocks? You'll find it anywhere!

ODDS AND ENDS

"Will you have anything on your face after shaving?" asked the barber.
Gilly. I wonder.

"There is only one way that we will have as many football teams as Notre Dame."

"How's that?"

"Make every student who told a girl during the summer that he played on the team come out for the squad."—*Bucknell Belle Hop.*

He: If there's something you'd like to attend tonight, I'll try to arrange it.

She: Well, it's your funeral.

FACULTY COLUMN

In the Cynic of March 6 there appeared an article excerpted from *College Humor* on working one's way through college. I doubt whether the original article is worth reading—at any rate, I haven't read it. My remarks are based solely on the Cynic extract. The article irritated me when I read it and since I have been asked to write something for this column I now have an opportunity to remove the repression from my desire to express my irritation.

The central thought of the article was that any would-be student, who must work while attending college to maintain himself there, should not make the attempt. In such a case, it is indeed a question whether the game is worth the candle, whether the student can gain enough value from the studies he attempts to pursue and the associations which should form a subsidiary but valuable portion of college life to compensate for the often cruel drain on his energies.

This is a question, however, that must be considered carefully in each individual case and cannot be settled out of hand for the whole group. Unless the prospective student who must earn his way has mental ability markedly above the average, he will probably be doing himself and society at large a greater service by spending the years of his youth in gaining experience in some line of immediately productive work than in attempting under heavy handicap to prepare himself for a work which some other not so handicapped may de better then he. In such a case years spent in college may be little better than lost time.

Someone may object that I am considering college-training from the bread-and-butter point of view only. That point of view is the one which the student compelled to earn his way must perforce take, primarily at least. A person who has sufficient mental ability to profit from a college course but who, owing to financial conditions, is unable to attend college, can, by guiding his reading habits, gain an enrichment and maturity of mind which would compare favorably with that of many college graduates.

The assertion made in the cited article, that almost no student under the necessity of working his way while in college is benefited by the college course, seems patently false. On the contrary, many students work their way and do creditably in their studies also. Such students should exercise caution, of course. Usually they should not attempt to participate in extra-curricular activities other than their remunerative work and, in many instances, they would do well voluntarily to carry less than the usual schedule of studies and to plan to spend a year longer than usually required to complete the work for their degree.

With the central thought of the article I do not greatly disagree, though the hopelessness of the case of the student who must work his way seemed much exaggerated. The sources of my irritation were four. They were the unpleasantly flippant style of the article; the application of the grossly unjust epithet of "academic parasites" to students who work their way; the assertion that such students habitually expect unfair, special favors from their instructors; and the statement that "every college teacher with a corpuscle of humanity" has "passed" hundreds of fellows who deserved to be flunked.

The unpleasantly flippant style may have caused undeserved mortification to worthy young people who are in need rather of kindly advice. As to "academic parasites," I have seen a greater number of persons, outside the ranks of students who work their way than in them, to whom the epithet might more fittingly be applied. Many students are working their way at the University of Vermont; I do not remember that a single one has ever asked me for an unfair, special favor. Any "college teacher with a corpuscle of humanity" will give each of his students impartially the grade which that student's work seems in his judgment to deserve—no less, no more.

EDWARD Y. LINDSAY.

Druggist (to motorist who had been carried into his shop after a bad accident): Yes sir; you had rather a bad smash but I managed to bring you to.

Motorist: 'S funny, but I don't remember. Do you mind bringing me two more?

Youngster: I'm looking for a job.

Butcher: Well, I like the looks of you but I can't afford much help.

Youngster: But I won't be much help, sir.

"Is mistletoe a vine or a tree?" asked the teacher.

"Neither" replied the student sheik "it's an excuse."—*Norwich Parade Rest.*

Campus Comment

To the Editor of the

In reading the last in the last issue curred to me that others on campus attitude towards course, they do that of seeing the sonal, selfish light.

The writer stated prize their freedom dom is the most of an American is the underlying which our nation tinued, and develope basic feeling one has of patriotism, or his it stands for. Of out saying that we to have this freedom tion, secondly as indi by freedom as a free as individuals. We desire for freedom and see this doctrine furth ized and uncivilized p tory of the world is its wars. Wars took of lack of sympathy ing between two factions be regretted, but it is human trait to want as everyone cannot degree, there is bound which has led to wa of individuals in the today. We see this in our everyday life. is still in our very and there are at present factors and forces or for other reasons peoples which will lead warlike conditions. but it is true. Other large armies and are paring and increasing forces. If these other start war, neutral coun evitably be drawn into in the last to protect When such a condition If military had been country, we would find prepared to cope with where would be our fr ously guarded and kept seriously in danger of existent. If such were freedom of the individual become non-existent.

When we think of the aspects of the situation, apparent, I believe, that tions mutually agree to and navies and settle arbitration, we must prepared. The only way is to give our men the ing in advance. When opportune time than young?

War of the future is even more than ever a I think I can say without of boasting for ourselves, lege man represents by stratum of America. is by far the more America needs her men and all, but naturally is far better equipped gently in any situation. training we get here in erect, with shoulders course very fundamental. ject when first approached mastering of fundamentals only one way to handle of men efficiently and army does it.

We of college today leaders of tomorrow, will fall the burden of our prosperity and national We must look forward, tain minor inconvenien rising for a seven-thirty mornings, and consider ternational peace is stand ready to protest and the ideals for which We, as individuals, can by doing all we can to tion in preparedness. very little of an indivi three hours a week for when one considers the paredness it gives our this is done in large

Only a selfish and vidual could object to that is, taking for gra would want to see his ceed in a controversy think one can, for I heart, if he stops to thi each and every one of us tense pride in our nation to see it continue. It is fall into the depths of and introspection to tent do we forget for a national responsibilities.

The connec... medical department at that ... was by no means so close to the ... as it is today. The students ... the two departments had nothing ... common, and did not even know ... other except in isolated cases. The only medical student in the class ... 1881 whom I knew was a Burlington boy who was graduated from the academical department in 1879, and it was not until the present honored dean of the College of Medicine, Dr. J. N. Jenne, moved to Burlington to practice his profession that I knew another one. The graduating exercises of the medical department were not held with the exercises of the academical department, but usually occurred about two days earlier.

Freshmen Completely Humbled

While the freshmen of fifty years ago were plainly told where their place was, and strongly advised to stay there, I do not recall that there were nearly as many rules as have been laid down for them in later years. Every effort was made to keep the time and place of the sophomore and freshman banquets secret, least there should be an absentee list when the time came. I remember a mild form of hazing when a squad of sophomores surprised a freshman in his room in the "Old Mill" and proceeded to try and smoke him out. But the effort was not always successful. In one particular instance the party was running along merrily until one sophomore felt the need of aid and surreptitiously slipped out. Soon another followed and then another until the freshman was left alone and filled his pipe again for a quiet smoke.

The annual football game between the sophomores and freshmen was an entirely different affair from the game of the present day. Every male member of the two classes was expected to participate, unless ill, and if one class greatly outnumbered the other, victory usually went to the class with the most kickers, that word being used advisedly as football then was a strictly kicking game.

Members of the upper classes were assigned to deliver original orations from time to time in the chapel. The writers were given a free hand and I recall one delivered by Charles L. Gates, a senior when I was a freshman. It was a string of the longest words I had ever heard and created much merriment. Presumably, the words made sense but they were quite beyond the grasp of the poor freshman.

Junior and sophomore "exhibitions" were held annually and at one of them Roger W. Hurlburd of the class of 1882 told the story of the Rhine in a word picture that I have never forgotten. I have since heard him present most eloquently, the names of candidates at political conventions, and he has himself served as lieutenant governor of Vermont.

The public exercises of the University were held "down town," at first in the College Street Church and, after its construction, in the Howard Opera House, because there was no building on "the hill" large enough to accommodate all who wished to attend. Commencement was the big event of the year, for today as many local residents as it is now with fewer students and a larger population it was then. I can explain this only by the fact that there were not nearly so many diversions in 1881 as there are in 1931 when there does not seem to be time enough to avail oneself of all that is offered.

Students and Profs Intimate

Naturally, with a smaller number of students, acquaintance was more general than it is now and we knew all the professors. There was an intimate personal relationship between teacher and student not possible in a large college. Probably every student had his favorite professor. For courtesy treatment any sympathetic interest I believe that no one surpassed the one man who was a member of the faculty during the four years my class was in college and who has continued as a member for the succeeding half century. I refer to the present professor of natural history, dean of the College of Arts and Sciences, and honored vice-president of the University, George H. Perkins.

Survivors Widely Scattered

The class of 1881 scattered widely both before and after graduation, many going to the far west. Three of the eleven survivors are there at the present time. Two of those living in the east have been members of the Board of Trustees of the University for many years. Our secretary is conducting a vigorous campaign to get them all back here next June.

A SMILE OR TWO

Man (rushing into editor's office): See here! You've published an announcement of my death. You must fix it up.

Ed: Well, we never contradict anything we've published, but I'll tell you what I'll do. I'll put you in the birth column tomorrow and give you a fresh start.

There are lots of things in stockings besides runs that should be taxed. *Montana Huddle.*

Perusal of "The College Maul" Finds Three Fraternity Sensations

Back in the days when men drank beer and women were women and Democrats Grab Grub and Co published "The College Maul." The date on its initial volume reads May, 1848 and its motto was *Terribile est Fallere in Hoodibus mault*. Which in case you don't know your dead languages, simply states "It is terrible to fall into the hands of The Maul." Make no mistake it was terrible. In those primitive days of wild dissipation, but the present could not be compared on the basis of the college days. Only enough for the whole society. He occasion whereupon he gave vent to a sen-

[illegible] the society is a curiously [illegible] combination. Every [illegible] attained a portion of this [illegible]. He found it composed of the following elements and forged [illegible]

Gas	.27
Small headedness	.23
Insufficiency	.19
Blue light element tinged with rowdyism	.01
Adulterated decency	.01
	1.00

Having thus briefly touched upon the society we leave it for the scrutiny of the public with bespeaking for it their kind indulgence.

SIGMA PHI

DELTA PSI

Is not as flourishing as usual. Hypocrisy will sooner or later be unveiled. They say no more passes shall be elected there being a good stock on hand now. This possibly they will prefer to cheat asses to going without any members. We could advise them to pay their tailor and livery stable bills. Taken them all in all with some exceptions, they are the most rough, hypocritical, ill-bred and swell-headed set of donkeys ever collected in one association strongly reminding us of [illegible] verse in the Bible, which says, "And they went unto Noah into the Ark, two and two of all flesh wherein is the breath of life."

LAMBDA IOTA

As a whole this arrogant band swaggers around town fully impressed with their own importance to the world at large, and magnanimously attempting to discharge their overwhelming responsibilities to the freshman. These model pharisees. N-ble and Fe-d-rs, with grave and solemn visage and with hearty tread paced the walks, thinking no doubt that every one was deluded by their outward show, into counting them perfection as they count themselves. O poor deluded freshies! How you have been sold!

S. Z. P., '32.

In every college town there is one *outstanding* smoking tobacco

At Illinois it's

ALONG Green Street, where campus leaders stroll . . . in the great slate-roofed fraternity houses of Champaign . . . there is one pipe tobacco which always rolls up the biggest vote. At Illinois it's Edgeworth, every time.

A pipe - Edgeworth. That is the smoking combination which has won the college man. Harvard, Cornell, Michigan, Stanford, Dartmouth — all agree with Illinois. Natural merit has made Edgeworth the favorite tobacco in America's leading colleges and universities.

College men everywhere respond to the appeal of pipes — packed with cool, slow-burning Edgeworth. Be guided by their verdict. try Edgeworth yourself. Find it at your nearest tobacco shop—15¢ the tin. Or, for generous free sample, address: Larus & Bro. Co., 105 S. 22d St., Richmond, Va.

EDGEWORTH
SMOKING TOBACCO

Edgeworth is a blend of fine old burleys, with its natural savor enhanced by Edgeworth's distinctive "eleventh process." Buy Edgeworth anywhere in two forms—"Ready-Rubbed" and "Plug Slice." All sizes, 15¢ pocket package to pound humidor tin.

ELECTRICAL ENGINEERS HOLD MEETING THIS A.M.

The Vermont Branch of American Institute of Electrical Engineers will hold a meeting this morning at 11.30.

A group of students representing the branch will probably attend the regional meeting of the A. I. E. E. in Rochester, N. Y.

ERRATUM

The story on the class constitutions, appearing in the Cynic of March 17, erroneously reported that the class of 1931 possessed no constitution. The editor wishes to thank Pres. R. W. Worrell for calling his attention to the inaccuracy. The editor sincerely regrets this reportorial error.

Smith College student dances will hereafter be "more refined." No more will a fluttering maiden gush into a manly ear that she is all agog because she *simply never* cut in on a *man* before. For the formidable female stag line, long a custom at that New England institution, has been officially annihilated.

STEPPING INTO A MODERN WORLD

Fitting the service to the customer's needs

Bell System service is custom-made. Each of the 65,000,000 telephone calls handled in the average day must meet the exact wishes of the person making the call.

Telephone men study a customer's communication needs, then advise the type of equipment that fits them best. For department stores they may recommend the "order turret" — a special switchboard for taking orders by telephone. Thus they enlarge the store's service and simplify ordering for the customer. They develop equipment and plans for brokerage houses, police departments, nation-wide sales forces — and all manner of business firms.

The telephone industry continues to grow by fitting its service more and more completely to the user's needs. For men with insight and the ability to coordinate, *the opportunity is there!*

WRESTLING TOURNEY ATTRACTS INTEREST

Finals Will Be Staged Tomorrow Afternoon at 4 o'clock

A large number of spectators witnessed the second round of the boxing and wrestling tournament, held in the gym last Wednesday under the auspices of the physical education department. The matches were very interesting despite the fact that no decisions were rendered.

The bout between Shoor and Douglas was a slugfest from start to finish. Both boys jarred and rocked each other for three rounds, but neither had the punch necessary for a knockout. Each weighed in at 150 pounds.

The next bout between Wesoly and Dente lacked the thrills of the previous mêlée. They kept pounding away at each other without getting any effective results.

In the third and final bout Watson and Powers sparred rather listlessly until the final round, when they began to mix rather heatedly. Both weighed 145.

In the unlimited class in wrestling Isenberg secured a win by throwing Cognetta for a fall after six minutes of scrappy fight.

In the 145-pound class Peters forced Press to yield in 3 minutes and 45 seconds. This fray was featured by fast action.

Mintzer and Winthrop staged an interesting bout. Winthrop had the advantage most of the way, but Mintzer slipped out and broke his opponent's holds. Winthrop pinned his shoulders to the floor after four minutes of wrestling.

In the other bouts Pierce took a fall out of Varrichionne in 3 minutes, 45 seconds; Libby beat Michaelman with a time advantage of 6 minutes, 16 seconds; Shippee downed Brousseau after 4 minutes, 9 seconds of wrestling, and Perry defaulted to Fleming.

The winners in the semi-finals, held yesterday in the gym, will meet in the finals which will take place tomorrow afternoon at 4 p.m.

NOTICE

All sophomores wishing to scrub track should report to the gym any afternoon after four o'clock.

Hugh R. Mattison,
Manager of Track.

Vicious Verse

I had some money
But no clothes,
And weekends to spare
But no beaus.

I got the clothes.
And then the beaus.
Bids to Prom.
Bids to shows

But Life was a thorn
Instead of a rose
I'd spent all my train fare
On the clothes!

Vassar Chat.

Joe: How did you get banged up?
Chuck: Skiing.
Joe: What happened?
Chuck: Couldn't decide which side of a tree to go around.

CAT'S MEOW

SPORTING EDITOR—

[illegible] Gardner has been to [illegible] there the last [illegible] considerable [illegible] the baseball team should not be discouraged by the presence of so many sophomores and veterans from last year. No position is established and the choice at the opening of the season is only tentative. Changes may occur throughout the rest of the year.

[illegible] Gardner's words, Nothing is definite everything is open. Positions at second and third base are hotly fought places for new candidates and in fact all positions are open.

Merit will be the deciding factor in determining positions in the line-up and candidates should remember that it is results and not reputation that count.

In the past the Green and Gold baseball team has had but little success in winning games on the southern trip. This is due mainly to the fact that the players have had no outdoor practice until reaching South, usually only a day or so before the first game. Consequently, this annual trip is in the nature of a training and conditioning session.

Vermont has been represented by very good baseball teams in recent years and we like to think the same will be true this year. The 1929-30 team had poor luck on the trip south but ended the season by winning ten games in a row, including thrilling battles with Dartmouth and Middlebury.

The first-year rule will affect the baseball nine for the first time. No freshmen will be allowed to play on the varsity this year.

The Sigma Nu relay team established a new record of 2.51⅘ for the course on the indoor track when it beat Kappa Sigma in the finals of the interfraternity relay races.

Election of "Hank" Durfey and "Dick" Swain as captains of basketball and hockey, respectively, came as no surprise and they are logical choices for the positions. We congratulate them on their election and we congratulate the members of the teams for their wise selections.

HOME VARSITY DEFEATS N. Y. U. AT CHARLOTTE

Two out of three audience votes went to the home varsity debaters when they met New York University on the negative side of the question, Resolved, that all nations should adopt a policy of free trade, last Friday evening at Charlotte.

Debating for Vermont were Francis Bolles, '31, J. E. Bigelow, '33, and Ernest Codding, '31. New York University was represented by Sidney Gittelson, '31, Leon A. Gold, '31, and Carson Baker, '31.

The debate was under the auspices of the Charlotte Men's Club and was given at the annual ladies' night of that organization. Before the debate a banquet was served by the men and Maynard Welch, '34, played several selections on the violin, accompanied by Prof. R. A. Hall of the English Department.

HUGE VITAMIN CONTENT IN GREEN VEGETABLES

Several interesting briefiets, written by Prof. M. B. Cummings, on important garden vegetables have recently been issued by the Agricultural Extension Service. The numbers of these briefiets are 303, 304, 305, 306, 308 and 309, and they may be obtained without charge by addressing a request post card to Extension Service, Morrill Hall, Burlington, Vt.

Briefiet 308, which is typical of the others, deals with salad plant, celery, endive and lettuce. "These plants and others like them are very healthful vegetables because of their many good properties—bulk value, relishing, appetizing and vitamin content," says Professor Cummings. "Moreover they are easy to prepare and attractive in appearance. They are easy to grow." The briefiet then goes on to explain how to grow them and mentions the numerous varieties.

First Snob: I'll have you understand I'm related to the Boones.
Second Beta: Now I remember, your grandmother's name was Bab.

Sigma Nu Again Victorious In Interfrat Track Meet

Scores 41 Points to Lead Nearest Competition by 6½ — Ten Fraternities Compete for Scoring Honors

KAPPA SIGMA SECOND PHI MU DELTA THIRD

Before a large crowd of interested spectators at the gym Saturday afternoon Sigma Nu repeated last year's victory in the interfraternity track meet by outscoring Kappa Sigma 41 to 34½. The meet was run off very smoothly and efficiently due to the efforts of the department of physical education, the manager and assistant managers of track and the members of the faculty who aided in judging the events.

Following is the list of events and the winners:

30-yard dash—First, Smith, Kappa Sigma; second, Bedell, Sigma Nu; third, Tupper, Sigma Phi.

Shot put—First, Aronson, Delta Psi; second, Manning, Phi Mu Delta; Bowers, Kappa Sigma; and Daigle, A. T. O., tie for third place.

Pole vault—First, Meehan, Kappa Sigma; Tupper, Sigma Phi; Woodward, Phi Mu Delta; and Mulcahy, Sigma Alpha Epsilon, tied.

Mile run—First, Brooks, Phi Mu Delta; second, Maynes, Sigma Nu; third, Wilder, Sigma Alpha Epsilon; fourth, Leach, Independents.

Hammer throw—First, Manning, Phi Mu Delta; second, Aronson, Delta Psi; third, White, Kappa Sigma; fourth, Child, Sigma Nu.

30-yard high hurdles—First, Huey, Sigma Nu; second, Phillips, Sigma Nu.

30-yard low hurdles—First, Cohen, Phi Sigma Delta; second, Crockett, Sigma Alpha Epsilon; third, Proctor, Phi Mu Delta; fourth, Bedell, Sigma Nu.

880-yard run—First, Huey, Sigma Nu; second, Brooks, Phi Mu Delta; third, Wesoley, Kappa Sigma; fourth, Dobson, Phi Mu Delta.

2-mile run—First, Hadley, Phi Mu Delta; second, Woodruff, Delta Psi; third, Shippee, Sigma Delta; fourth, Varney, Independents.

Broad jump—First, Tupper, Sigma Phi; second, Bedell, Sigma Nu; third, Smith, Kappa Sigma; fourth, Suitor, Sigma Alpha Epsilon.

440-yard dash—First, Delfausse, Kappa Sigma; second, Bedell, Sigma Nu; third, Jay, Kappa Sigma; fourth, Towne, Sigma Delta.

Relay—First, Sigma Nu; second, Kappa Sigma.

Scoring by fraternities:

Sigma Nu	41
Kappa Sigma	34½
Phi Mu Delta	26
Sigma Alpha Epsilon	11
Delta Psi	11
Sigma Phi	9
Phi Sigma Delta	6
Sigma Delta	3
Independents	2
Alpha Tau Omega	1½

DURFEY AND SWAIN WIN ELECTIONS FOR CAPTAIN

Former to Lead 1931-32 Quintet and Latter to Captain Hockey Team

As a result of elections held recently Lyman R. "Hank" Durfey has been named the varsity basketball captain for 1931-32 and Richard "Dick" Swain will be next year's hockey captain.

Durfey has seen service at forward and center positions for two years and has been a stellar player. He is an active athlete and participated in football, where he played at end and center the past season. He is also a good baseball man and will be a candidate for Larry Gardner's diamond team after the southern trip. He is a member of Kappa Sigma fraternity and is a resident of Burlington.

Edward L. Meehan, '32, of Fitchburg, Mass., was elected varsity manager of next year's quintet. He also is a Kappa Sig.

"Dick" Swain, '33, of Wellesley Hills, Mass., has been outstanding as center and wing on the Vermont hockey team for the last two years. He belongs to Phi Delta Theta. M. Tomassetti, Sigma Alpha Epsilon, of Meriden, Conn., was made manager and S. J. Massucco of Bellows Falls and R. I. Brooks of Newfane were appointed assistant managers.

Society Notes

DELTA DELTA DELTA

The trident degree was conferred upon Eleanor Gates, '32, Marjorie Collins, Virginia Drew, Elvira Farman, Grace Harris, Ruth Johnstone, Ellen Pearl, Ruth Tarleton, Leona Warren and Barbara Whiting, of the class of '34, on Wednesday, March 18 at the Athena Club. Supper was served afterwards, at which some alumnae and mothers were guests.

PI BETA PHI

The local chapter will entertain the Province president, Mrs. M. L. Campbell, tomorrow and Thursday, March 25 and 26.

ALPHA CHI OMEGA

Marian Baldwin, '29, will be a visitor in town for a few days, coming tomorrow.

The pledges of Alpha Chi Omega are giving a tea at the chapter hourse this afternoon in honor of the pledges and new initiates of the other sororities on campus.

SIGMA GAMMA

The pledges entertained the active chapter after the meeting, Tuesday night, March 17.

Lucene Little, '29, was in town over the week-end.

"This is the fig tree you've heard so much about."

"Oh! I thought the leaves were much larger!" *Dirge*

There's Many A Slip

My roommate gets wires from Amherst.
My roommate gets wires from Yale.
Whenever I go to our mailbox
It's full of my roommate's mail.
The reason that I'm going crazy,
The reason that I tear my hair,
Is because the pink slips that come my way
Are only the ones that I wear.

—Vassar Chat.

What no Knickers?

CROCKETT AND TUPPER EDIT TWO STATE BOOKS

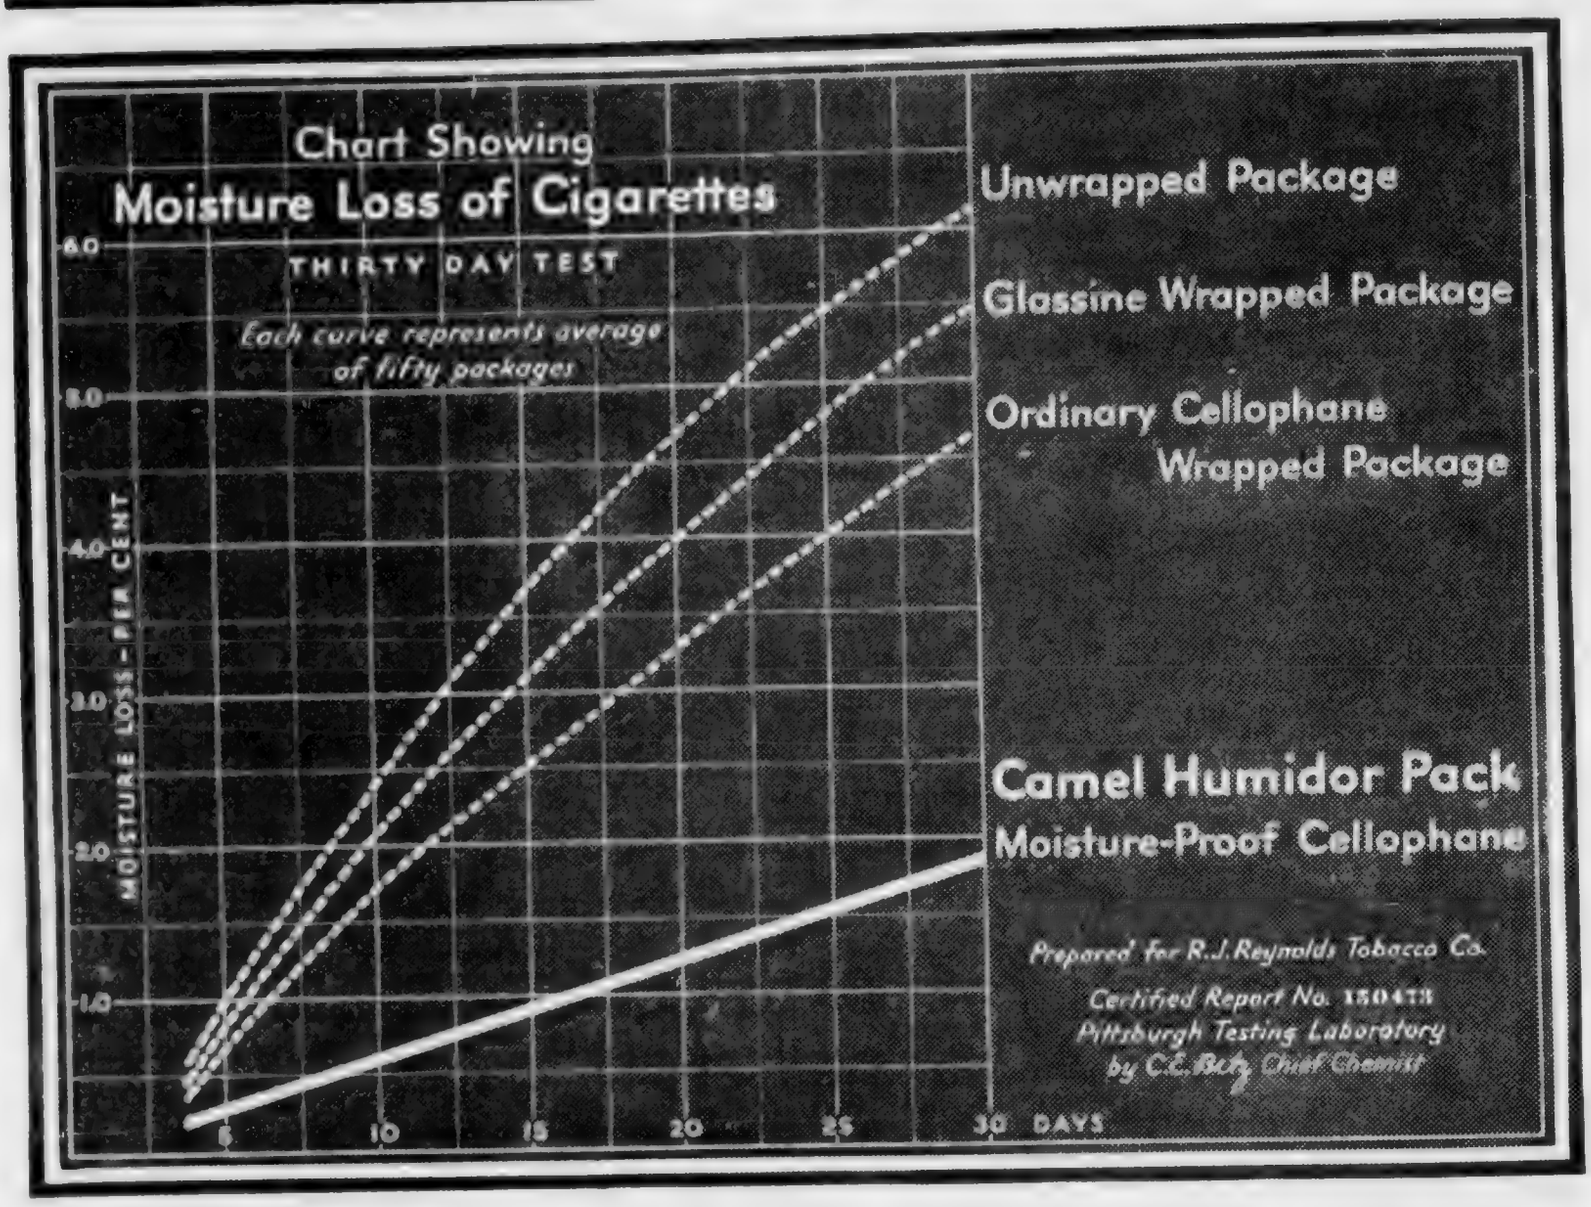
The [illegible] Vermont: A Book of Biographies by Walter H Crockett, and Vermont Poetry An Anthology by Prof Frederick Tupper and Walter J Coates will be published this spring by the Houghton Mifflin Company.

The volume by Mr Crockett author of History of Vermont, will consist of [illegible] Vermonters edited by Hilton Allen. The anthology will [illegible] will include Vermont's best poems, reflecting in its scope the poetic trends and growth of Vermont's poetic tradition since 1775.

Two other books in the Green Mountain [illegible] with the [illegible] "Vermont Prose, A Miscellany," [illegible] Harold Rugg and Prof A W Peach of [illegible] and Vermont Songs and Ballads, by Mrs Flanders and Miss Helen Hartness [illegible] in Eugenics in connection with [illegible] Prof A W Peach, Mrs Dorothy Canfield Fisher, Miss Sarah Cleghorn Walter Coates, Prof Frederick Tupper, Walter Crockett, Harold Rugg, Mrs Zephine Humphrey Fahnestock, the Rev J D Shannon, Miss Mary [illegible] Mrs Helen Hartness Flanders, and Miss Hetty Copeland.

Co-ed Notes

In the [illegible] basketball finals which were played off at the gymnasium Tuesday March 19, at 4 o'clock, the [illegible] from the juniors by a score of [illegible] the spohomores were victorious, winning from the freshmen by a score of 17-10. The seniors who won from the sophomores by nine points are campus champions for the fourth consecutive year.



The indoor meet, which was scheduled for March 21, has been postponed until after the Easter recess.

PROFESSOR HALL WILL GIVE CHAPEL ADDRES

Prof R A Hall [illegible] partment will speak [illegible] Chapel Wednesday.

A graduate of W[illegible] of 1914 with the A B Hall also attended [illegible] sity where he obtained [illegible] B.D. and thence went [illegible] graduating as M A [illegible] he was a member of [illegible] Service. Coming to V[illegible] he has for seven years [illegible] with the English department teaching public speaking.

Smoke a FRESH Cigarette!

Cigarettes in prime condition have a moisture content of about 10%. It will be seen by the Pittsburgh Testing Laboratory Chart that cigarettes in the ordinary wrapped package lose more than half of their total moisture in thirty days and that only the Camel Humidor Pack delivers cigarettes to you in prime condition

THE whole country is talking about the throat-easy mildness and the prime freshness of Camel Cigarettes in the new Humidor Pack.

The above chart prepared by the Pittsburgh Testing Laboratory tells you why.

Please examine it carefully. It is an unfailing guide to cigarette selection and enjoyment.

As you can quickly see by the three upper curves on this interesting chart, cigarettes that lack the protection of the Humidor Pack lose their moisture rapidly from the day they are manufactured.

And day by day as this moisture disappears, the smoke from these cigarettes becomes *harsher, hotter, more unkind to the smoker's throat.*

Not so with Camels!

The Humidor Pack is moisture proof and sealed air-tight at every point. It protects the rich, flavorful aroma of the choice Turkish and Domestic tobaccos of which Camels are blended.

Make these tests yourself

It is so easy to tell the difference between parched dry cigarettes and fresh prime Camels that it is no wonder everybody is reaching for a *fresh* cigarette today.

Your fingers identify stale, dried-out tobaccos at once. While a Camel is flexible and pliant.

Your ears can tell the difference too. For a dust-dry cigarette crackles under pressure.

But the real test is taste and there is simply no comparison between the rich mildness of a Camel and the hot, brackish smoke from a stale, dry cigarette.

Switch to Camels just for today then leave them tomorrow if you can.

R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.

CAMELS

● *Artificial heat in houses and apartments soon dries the moisture out of cigarettes wrapped the old fashioned way. It is the mark of a considerate hostess, by means of the Humidor Pack, to "Serve a fresh cigarette." Buy Camels by the carton—this cigarette will remain fresh in your home and office.*

© 1931, R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

The Vermont Cynic

VOLUME 49 BURLINGTON, VERMONT, FRIDAY, MARCH 27, 1931 NUMBER 65

Student Union Elects Council Officers For Coming Year's Duties

Mount, Fields, Boyd, Perry, LeBaron, O'Dell Will Officiate in Executive Capacity

PROMINENT IN STUDENT ACTIVITIES ON CAMPUS

As a result of the elections held last [illegible] Saturday for the officers of the Student Union Council, Lillian [illegible] is president; Olive Fields, [illegible] justice; Sylvia Boyd, '33, [illegible] president; Priscilla Perry, '33, [illegible] Helen LeBaron, '32, treas[illegible] Harrington, '32, chairman of social calendar; and Charlotte [illegible]bell, '33, chairman of program com[illegible]

Lillian Mount, of Burlington, a [illegible] of Alpha Chi Omega sorority, has been especially active in athletics. She has been on class and [illegible] volleyball, baseball, basketball, hockey and bowling teams, has been captain of volleyball, baseball and basketball teams, manager of basketball, hockey and volleyball teams, and has coached classes in baseball, volleyball and skating. For two years she has been on the Student-Faculty Council, the Press Club; she was W. A. A. class representative, served on the Football Hop, Sophomore Hop, Freshman Rules Committees, and was chairman of the indoor meet during her sophomore year. This year she was president of W. C. A., vice-president of Student Union and W. A. A., women's athletic editor of the *Ariel*, director of the Freshman Women's "Y" Camp, member of Pan Hellenic Council, treasurer of "Le Cercle Lafayette," is on the Junior Week Committee, has been sent to conferences at Northfield and Syracuse as Y. W. C. A. and W. A. A. representatives, respectively, and has been on the dean's honor list for two years.

Olive Fields, of Brooklyn, N. Y., a member of Pi Beta Phi, who was chairman of the Student Union Committee last year, belongs to Press Club, Dramatic Club, of which she was secretary last year, is junior class vice-president and representative on the Student Conference Committee. She was a member of the Freshman House Committee and class basketball team, sophomore volleyball team, and has served on Football Hop, Basketball Hop, and will serve on the Junior Week Prom Committees.

Sylvia Boyd, of West Newton, Mass., a member of Alpha Xi Delta, Eta Sigma Phi, Dramatic Club, and Women's Glee Club, was secretary of Y. W. C. A., of which she has recently been elected president, and has been active in debating during her freshman year she was on the class debating team and is now on the varsity women's debating team.

Priscilla Perry, of Springfield, is a member of Pi Beta Phi sorority, Bluestockings, Dramatic Club, Women's Cynic Board, Health Council, sophomore hockey team, has been in the University Choir, Women's Glee Club and Orchestra for two years, and is now assistant manager of women's debate.

Helen LeBaron, of Morrisville, a member of Alpha Xi Delta sorority, Y. W. C. A., W. A. A., Masque and Sandal, Home Economics Club, Bluestockings, of which she served as secretary last year, is the newly elected president, and treasurer of Press Club; was property manager of "Holiday," last year's Junior Week play, and was assistant editor of the Cynic this year.

Olive Harrington, of North Bennington, belongs to Alpha Xi Delta, W. A. A., Y. W. C. A., Dramatic Club, of which she was vice-president last year, Home Economics Club, Omicron Nu, and was junior class representative to W. A. A. Council; she has been on her class hockey team for three years and varsity hockey team this year. Miss Harrington is now one of the assistant editors of the *Ariel*, is on the Junior Week Committee.

Charlotte O'Dell, of Bronxville, N. Y., a Kappa Alpha Theta, as a freshman, vice-president of her class, has been in the University Choir for three years and has taken parts in the operas. This year she was on the class volleyball team, Winter Carnival Committee, and women's cheerleading squad, and is the newly elected circulation manager of the *Winnowings From the Mill*.

LILLIAN MOUNT, '32, *ex-president of Y. W. C. A. and ex-vice-president of W. A. A.*

BEATRICE PARKHILL TO HEAD PRESS CLUB FOR COMING YEAR, 1931-32

Helen LeBaron To Be Sec.-Treas. and Verna Carrier Chairman of Social Committee

Press Club announces the election of the following officers for the year 1931-32: Beatrice Parkhill, '32, president; Helen LeBaron, '32, secretary-treasurer; Verna Carrier, '32, chairman of social committee.

Miss Parkhill, of Middlebury, is a member of W. A. A., Y. W. C. A., Masque and Sandal, Dramatic Club, and Alpha Chi Omega fraternity. She has been on class volleyball teams and was secretary-treasurer of Press Club during the past year.

Miss LeBaron, of Morrisville, belongs to W. A. A., Y. W. C. A., Masque and Sandal, Bluestockings, of which she has served as secretary this year, Home Economics Club, being treasurer of it, and Alpha Xi Delta. She has been an assistant editor of the Cynic board for two years, is a grind editor of *Ariel*, and served as assistant property manager for the college play, "Holiday."

Verna Carrier, of Bennington, is a member of W. A. A., Y. W. C. A., Health Council, House Committee, Eta Sigma Phi, of which she was vice president last year, Pi Beta Phi fraternity and has been on the dean's honor list.

Hope Ranslow, '32, of Montpelier, was appointed as chairman of the Scrap Book Committee in place of Sarah Westcott, '31, who resigned at the last meeting.

U. V. M. WOMEN ATTEND A. C. A. C. W. CONVENTION

Mildred Akins, '32, and Lillian Mount, '32, represented the Women's Athletic Association of Vermont at an A. C. A. C. W. convention of seventy-five girls from thirty colleges, held at Syracuse University, March 12, 13 and 14, at which all phases of W. A. A. were discussed.

Miss Mount, when interviewed, said that Vermont's system is very highly developed in comparison with those of other colleges. The point system, health rules, health cards, posture, smoking, training systems and the ways in which W. A. A. can help in college activities were brought up in discussion groups. A. C. A. C. W. was very much opposed to having women participate in Olympics.

Dean Eugenie Leonard of Syracuse University, in an inspiring talk on "Foul Play," said: "Each girl expresses her own self in athletics. The leader is the one who sets the stage for the others, while she carries the light and interprets the way."

In giving her impression of Syracuse, Miss Mount said: "You don't get out of breath saying hello as you know only the people in your own group. Vermont's campus, in being much smaller, is a more friendly place."

KAPPA DELTA

Helen Albee, '30, and Hope Grant, '29, spent the week-end in town.

CLASS BOWLING TEAMS WILL BE SELECTED SOON

DRAMATIC CLUBS' UNION PRACTICALLY CERTAIN

Allan Eaton, '32, and Elizabeth Howe, '32, secretaries of Wig and Buskin and Masque and Sandal, local Thespian societies, are investigating the matter of merging the two organizations with the ultimate view of joining some national dramatic society.

According to Samuel Barker, '32, president of Wig and Buskin, there is nothing definite yet concerning the joining of a national organization, but a merger of the two is practically certain.

The following officers will serve in Dramatic Club for the year 1931-32 as a result of elections held at the regular meeting at the Alpha Chi Omega House, Tuesday night, March 24: President, Alice Fairchild, '33; vice-president, Mildred Gile, '32; secretary, Ara Armstrong, '33; treasurer, Catherine Woodward, '32.

Miss Fairchild, of Brooklyn, N. Y., is a member of Alpha Chi Omega sorority, Y. W. C. A., W. A. A., John Dewey Club, and Women's Glee Club. She has been on class volleyball teams and Football Hop Committee.

Miss Gile, of Burlington, is a member of Alpha Chi Omega, W. A. A., Y. W. C. A., Judiciary Council, Faculty-Student Council, Press Club, is one of the assistant editors of the Cynic, grind editor of the *Ariel*, and treasurer of Bluestockings.

Miss Armstrong, of Belmont, is a member of Alpha Xi Delta, Press Club, Women's Glee Club, and W. A. A. Council.

Miss Woodward, who comes from Rocky Hill, Conn., belongs to Alpha Chi Omega sorority and Press Club.

HOPE RANSLOW TO BE BLUESTOCKINGS LEADER DURING COMING YEAR

At a meeting of Bluestockings, held at the Theta House, Monday afternoon, March 23, the following new officers were elected. President, Hope Ranslow, '32; vice-president, Helen LeBaron, '32; secretary, Margaret Mower, '32; treasurer, Mildred Gile, '32; and chairman of the entertainment committee, Elizabeth Hollis, '32.

Miss Ranslow, of Kappa Alpha Theta fraternity, has been a member of Bluestockings, Cynic Board, Press Club and Masque and Sandal since her freshman year. As a freshman she made Dramatic Club, as a sophomore women's rifle team. She has appeared in several of the college plays and has served on class dance committees.

Miss LeBaron, a member of Alpha Xi Delta sorority, has been a member of Press Club, Home Economics Club, of which she was treasurer her sophomore year, Bluestockings, Y. W. C. A. and W. A. A. since her freshman year. This year she is one of the grind editors of the *Ariel* and is a member of Masque and Sandal.

Miss Mower is a member of Kappa Alpha Theta, Bluestockings, Dramatic Club, W. A. A., Women's Glee Club, Y. W. C. A., and is now one of the associate editors of the Women's Cynic Board. She was substitute on the class hockey team as a freshman.

Miss Gile belongs to Alpha Chi Omega sorority, Bluestockings, Press Club, Cynic Board, Dramatic Club, and Faculty-Student Council. She is now one of the grind editors of the *Ariel*, and has been on the judiciary committee of the Student Union since her sophomore year.

Miss Hollis is a member of Kappa Alpha Theta fraternity, Bluestockings and Dramatic Club. She has been in two class plays, one college play and has served for two years on the board of *Winnowings From the Mill*.

MARGARET STANLEY, *'31, ex-secretary of Student Union.*

BOYD, FREEMAN, PUTNAM, PERRY TO LEAD Y. W. C. A. ACTIVITIES NEXT YEAR

Four Women Active in Student Life Will Direct Vt. Christian Association Work

Y. W. C. A. announces the following officers to serve for the year 1931-32 as a result of elections held Saturday, March 21: Sylvia Boyd, '33, president; Beatrice Freeman, '32, vice-president, Daisy Putnam, '34, secretary, Priscilla Perry, '33, treasurer.

Miss Boyd is a member of Alpha Xi Delta sorority, Dramatic Club, Eta Sigma Phi; she has served in the Y. W. C. A. cabinet during the last year, has been on the honor roll for each semester, and will play a rôle in the Junior Week play, "To Have the Honor."

Miss Freeman has been very active in athletics; she has been on class hockey, volleyball, basketball and baseball teams.

Miss Putnam is a member of Alpha Xi Delta and the women's rifle team.

Miss Perry is a member of Pi Beta Phi sorority, Bluestockings, Dramatic Club, Women's Cynic Board, Health Council, sophomore hockey team, has been in the University Choir, Orchestra and Women's Glee Club for two years and is assistant manager of women's debate.

AGNES PARSONS TO BE GLEE CLUB PRESIDENT

Women's Glee Club announces the election of Agnes Parsons, '32, of Gloucester, Mass., as president for the coming year. Miss Parsons is a member of Kappa Alpha Theta sorority, and has shown much interest in musical and athletic events during college.

Ruth Buxton, '32, of Saxtons River, was elected manager. Miss Buxton has been on her class hockey team for three years and is now a member of W. A. A., the women's sextet, and will appear in the operetta "Pirates of Penzance."

BOATRIDE TICKETS MUST BE SOLD TO INSURE TRIP

At the meeting of the senior class held on Monday March 23, at which less than a third were present it was voted that the class treasury should not be liable for any deficit incurred in running the senior boatride. This means that there will be no boatride unless the committee can assure itself of its financial success by selling a minimum number of tickets some time in advance or unless the class at a later meeting, votes to take care of the deficit, should one be realized.

Last year, with an enrollment of 175 in the senior class only 49 tickets were sold for the boatride, some of these going to underclassmen. From 1926 to 1929, inclusive, the number sold averaged about 75.

The opinion of some of those present was that when the ride realized a deficit which had to be met by the class, those not going on the boatride were forced to meet an unjustified expense, and that, unless supported by the whole class, the senior boatride should be given up as a class function.

Prof. and Mrs. H. G. Bennett entertained the members of the University Choir and Orchestra at a supper and social evening at their home at 42 Fletcher Place, Sunday evening, March 22. About fifty were present.

Hope Ranslow to Edit "Winnowings From The Mill" for Coming Year

Marguerite Dunsmore is New Short Story Editor, and Gladys LaFlamme Poetry Editor

NEW BUSINESS BOARD IS CHOSEN AT ELECTION

Hope Ranslow, '32, of Montpelier, is the recently elected editor-in-chief of the Vermont literary magazine, *Winnowings From the Mill*. The staff of publication is: short story editor, Marguerite Dunsmore, '33; poetry editor, Gladys LaFlamme, '33; the business board consists of Roberta Powers, '32, business manager, Katherine Tolman, '33, circulation manager, and Eleanor Gates, '32, advertising manager.

Miss Ranslow, a member of Kappa Alpha Theta, Press Club, Dramatic Club, Bluestockings, Student Faculty Committee, House Committee and Masque and Sandal, in which she has held offices of vice-president and chairman of social committee, has been very active on campus. She has been on the women's rifle team, class archery and bowling teams, has taken rôles in the college plays "Summer Time" and "Holiday," was property manager of "Queen's Husband." This year she is serving as one of the associate editors of the Cynic and has been on several class committees.

Miss Dunsmore, the short story editor, is from Swanton, and belongs to the women's rifle team and Dramatic Club.

Miss LaFlamme, the poetry editor of Bennington, is a member of Alpha Chi Omega, Bluestockings and has been on the dean's honor list.

Miss Powers, of Morrisville, is women's editor of the *Ariel*, captain of the women's debating team, secretary of Tau Kappa Alpha, a member of Masque and Sandal, Pan Hellenic Council, W. A. A., Y. W. C. A., the junior week committee, nominating committee for 1932, and Delta Delta Delta. She has taken parts in the college plays Holiday, "The Queen's Husband," and will appear in "To Have the Honor," this year's junior week play.

Eleanor Gates, of Richford, belongs to W. A. A., Y. W. C. A., Delta Delta Delta and has been on her class hockey team.

Katherine Tolman, of Reading, Mass., is a member of Bluestockings, Press Club, Health Council, and Kappa Alpha Theta fraternity.

PROPOSED NEW WOMEN'S DORM, TO COST $300,000, TO BE READY IN 1932

The proposed women's dormitory unprecedented in beauty and capacity as described by President Bailey in a recent interview to a Cynic reporter which is to be constructed on S. Prospect Street near Redstone and Robinson Hall is hoped to be ready for occupancy in 1932.

The new dormitory which will be larger and better equipped than Wade Hall, which was officially opened to the college students in 1929, will cost $300,000, $100,000 of which has been pledged already. The new structure will rise to four stories and will contain one hundred single rooms a large reception hall on the first floor dining halls, kitchen and coat rooms. It will be absolutely fireproof.

The plan of the outside of the building as it has been worked out by the architects, McKim, Mead and White who planned the construction of the Fleming Museum, will present a pleasing appearance.

President Bailey is going to decide upon the permanent site of the dormitory as soon as he can examine the locality. There are two possible locations for building, either south of and facing Redstone with the long sides of the building facing north and south, or facing Redstone, with the long sides facing east and west. The latter will doubtless be decided upon so that the students can enjoy from their rooms the most beautiful views, the mountains at the back of the building and Lake Champlain at the front.

Office of Publication, Free Press Printing Co., Burlington, Vt.

Vol 49 March 27, 1931 No. 45

The election of officers for the campus organizations and the approaching spring recess brings the realization that another year of college is nearly over. In the minds of seniors the question arises as to whether or not success has been attained during their college career. The ex-presidents doubtless feel that at the end of a year's efforts some ends have been achieved which make for the feeling of success. Experience has been gained which will be of value after college. Responsibility, preparation for future leadership, the attainment of self confidence, these are all worthwhile achievements.

One might ask what constitutes a college student's interpretation of success. This necessarily varies for each individual. To some, satisfaction may come with the attainment of high scholarship and at the end of four years the coveted Phi Beta key. Others may deem a broader field necessary for their feeling of success—membership in some fraternity of good standing "on the hill," membership in campus organizations, a large circle of friends, the ability to get along in a group and be singled out by the students as "a good sport." Perhaps leadership is the long-desired-for honor or a long list of campus activities to show one's friends. In glancing at these, one asks which ones were really worked for and which are complementary. Although differing slightly in value, all tend to give one the feeling of self-satisfaction.

Whatever the standard which each one has set for himself, may he feel at the end of four years that he has achieved success which is to a degree satisfying to him!

This year, not unlike other years, the rumor is around that teaching positions are scarce, that in many towns the experienced teachers are being asked to return for a lower salary than they have been receiving, and that as usual there are twice as many prospective teachers as there are vacant positions.

The days March 13 and 14 will be remembered by many of the seniors not for the teachers' convention which took place at Burlington High School, but for a new experience which is still fresh in their minds—that of the first interview with a superintendent for a teaching position. To listen to the accounts of some of these interviews is humorous as well as instructive.

To the student, the interviewer may have seemed unduly inquisitive and particular about many secondary details, but looking at the matter under discussion from the superintendent's viewpoint, too much care cannot be taken in choosing a teacher.

The superintendent is looking for not only someone who can efficiently instruct a group of students in the subject or subjects which he or she may be prepared to teach, but also for an individual whom the students can respect. A teacher is more or less of a leader, someone whom the class will try to imitate. In his actions both in the classroom and outside the teacher is making indelible impressions upon the minds of the pupils, who are at an age when impressions are readily received and stored up to exert an influence later.

If the teacher is not efficient in the subject which he teaches, the student is not given a fair chance, for if he later goes to a college or an institution of higher learning, insufficient preparation will be a great handicap to his progress.

From this point of view much rests upon the superintendent in choosing his teachers and he is therefore necessarily going to exercise great care to learn who is best fitted for the position, which is one of great responsibility.

The Cynic, the official student newspaper, purposes to set before the student body, twice each week, the news, both previous and past of the numerous campus organizations. To enable the appearance of accurate, detailed accounts of what your organization is doing there must be cooperation between the Cynic board and the leaders of the organizations.

It is sometimes inconvenient and a "bother" to be stopped on the way to class or to be phoned during lunch hour by some reporter who is searching for information about some happening which, to you at that time, may seem of slight importance, but to assure its correct presentation before the Cynic readers it is to your interest to cooperate with us in giving news. In this way not only the organizations but also the Cynic are given much valuable and favorable publicity.

At this time we, the Women's Board, wish to thank everyone who has cooperated with us in making possible the appearance at this date of the women's issue of the Cynic. Especially, we appreciate the efforts of the ex-presidents of the women's organizations who have kept election results for us, and of members of the men's board who have patiently helped and advised in our behalf.

EXTRACTS FROM A CO-EDS' DIARY

Special

With apologies to Samuel Pepys

Year 193

Blessed be God at the end of the last college year, I was in very good health with only fatigue from over study for final exams. But this year I have no sense of that old pain.

Sept. 21

Went early to go down to the big station of Burlington by way of walking—having made the resolution to not pay out money for rides. Met many of the sisters of the fraternity when there was much kissing of cheeks and hugging of friends. Had not seen B—— for three months. Hungry all the time. Dined downtown with several friends, as a result was minus a half week's allowance. Great discourse at night in my room and talk flowed freely and openly about my last year's roommate's elopement, about men, resolutions and many daring topics—and so to bed and giggling.

Sept. 22

Up in the morning and some ba[illegible] for our breakfast at Grassy Mountain, one of the Grocer's halls. Much talk and business. Everyone togged out in the latest styles. Noted many peculiar head decorations and in an inquiring mood I find they are called berets—They are such loud colors. I do not like them. But one has to put up with such fashions, I suppose. Important business today. Necessary to hurry to registration with College authorities, wherein I disclose all my secret thoughts upon home life and conditions, religion, interests and ideas for activities in fact, most all I know. Trying to decide what courses rate best and at the same time require the least study and outside work because I must devote my sophomore year to outside interests—this being kept from my parents' knowledge.

Sept. 23

Much hilarity—all the sisters of the fraternity back—except my last year's roommate who just dispatched to me a letter today from X—Shall miss her. Long business session with social meeting following at which I did much to satisfy my hunger. Very pleased with my new roommate. And she wears the same size dresses as I.

Sept. 24

To first Chapel service and heard a good plain sermon. Big crowds there, each fraternity attended in a body to look the freshmen over. With my roommate to shop in town, by foot. Made the acquaintance of fine looking young man whose face did please me greatly—I think his name is Mr. Sandwich.

Oct. 28

This morning early up and whole day busy, thinking to get to studying not having done any so far. With my mind full of trouble—I strove in vain. But full of more trouble after my two exams of the hour. After all is this institution worthy of all this anxiety and trouble that it causes me.

And so to bed.

Nov. 1

At night I supped with sisters and then to business meeting of the Noble Order of the Bluestockings (orginally the Garter). Would not have attended if had known the refreshments were lacking. Going home bought me a chocolate bar.

Nov. 3

I was saluted in the morning with two letters. One of which brought me in some paper money from my aunt—the reason of which I cannot think, but something there is of plot or orgin in it. Much joy transplanted in me. And so to see "Charlie's Aunt"—first time I have seen it—a fine performance.

Nov. 15

Me thought that Man's name was Mr. Sandwich but I do believe that I was mistaken. To dance with Mr. Trowbridge. He was a great content and joy to me.

Dec. 1

Much white snow—attached my winter underwear to my list of clothing. Sad yet true.

Dec. 6

Waking out of my sleep this morning of a sudden I did hit my roommate with my elbow a great blow on her face, with which blow waked her—at which I was sorry—and to sleep again. At home all morning. Busy all day.

Dec. 7

By foot, to Women's Mass meeting held in the biggest University building, but even then much crowded. The freshman women are fascinating and we were all kept busy. About ten hours it fell a-raining and on the way home we all got wet—but there was no help for it. Great congregation in my room and much talk of the effects of this rushing.

Dec. 14

Much delighted that I have some money—hurried to store to buy me a flat iron—big demands for such implements as there was an important meeting of Press Club this afternoon at which much business smoothed out.

Dec. 18

I hear to my great content my train home leaves 10 minutes more soon than my expectation. Great deal of hilarity—and much packing. A little vexed with my roommate. She did make a ruin of my only pair of clothing for my legs. Wherefore she bought me a handsome new pair which exceedingly please. Contented to have vacation with us, but possessing great deal of anxiety at thought of first talk with my superintendents, of money, bills and—oh, yes—what I come to College for—Shall not mention Mr. Trowbridge. Goodbye diary.

I knowst I shall have no more time to spend with you till I transplant myself back to College—So by train, Home.

Campus Comment

That quaint and purely American attitude towards education is creeping ruthlessly and, not so very silently either, within our very walls. Walking slyly about in the Old Mill it's been crawling around the outside of the building for some time hissing dire threats in through the windows, but now our little pet has "crashed the gate of knowledge," has become out pet and plaything. Perhaps spring fever brought it here, or our own great desire to see the world as "gramma" sees it—in ignorance. Ignorance isn't such a bad idea—for at least some favored few might grow a bit more thankful, which is quite a thing in itself. But to get back to this curse of all modern education, this thing that is whispered about behind closed doors, and hooted at derisively by the more modern inmates this business of attending classes that concerns all of us more or less some students don't like it.

This is the first inkling that U. V. M. has ever had of the fact that Americans will pay enormous prices for an education, and then will not take their money's worth. And so, unbeknownst to our student body, spouting fonts of intelligence have been "putting something over on us." We've been forced to attend classes whereas the great American urge is not to attend classes. But at last the monster, that has been a threat for so long, has wept its last tear of entreaty, taken the bit in its mouth and broken down tradition, driven by a group of radicals—Vermont wants a cut system! Noble sentiments but quite beyond the scope of an institution so conceived and so regulated.

A splendid thing, this progressive group of students are advocating. How gloriously Vermont rises to the occasion (when there is an occasion)! Our leisurely but progressive friends tell us that with a new cut system U. V. M. would harbor a whole raft of souls burning with a thirst for knowledge, and dying for a chance to fight for Alma Mater. And a new cut system is to be the whole key to the situation. What a relief not to have to worry next year—to know that our Cynic policy will ride the rocks in state—the pride of the University! Poor U. V. M. to have lost so much through the lack of so little! But it seems a waste of effort, dear ambitious friends, spring's a mad time of year—who wouldn't cut classes anyway?—Margaret Mower.

Setting probably a speed record as well as an altitude record for entering higher education, aviation all over the country is past penetrating college curriculum along-side Greek and Latin. A thousand more students than last year are studying it in colleges, according to a survey by the Aeronautical Chamber of Commerce. And the number of colleges offering it has grown from sixty-one to seventy-four.

A third of the students electing it are working for a special bachelor's degree in aviation, at the end of a four-year course. A number of colleges now offer also graduate courses practically on a par with those in medicine or engineering, leading to the degree of doctor of philosophy or of master of science in Aeronautical Engineering. Meanwhile, aviation mechanics are being trained in the public schools in several cities.

To Choran

Please tell the shades that haunt your boat
Upon the river Styx
They've made an awful mess of things
And left us in a fix.
We battle with their theories—
We read the stuff they wrote—
They verily have done us dirt,
I'd like to sink your boat.

Co-ed Athletics Has Grown From Inauspicious Beginning in 1902

Mrs. Myrick and Mrs. Fletcher Were Early Leaders of Movement —Miss Cummings, Present Director, Has Been at Vermont Since 1902

...letics have had a small ... beginning, and a sur... as successful develop... ...nt discovered a CYNIC ...arked back to the far... ...ing when physical cul... ...n first had its inception ...ity. Since that time, a ...teady growth has taken ... the present department ...ducation with its own ... ably takes care of the ...ments and athletic train... ...men students. Although ... such an organization ... almost thirty years ago, it ... years before a director ... chosen and girls' athletics ... part of college life. Under ...adership of Mrs. Myrick ... Fletcher, foundations were ... later work of Miss Cram, ... in 1919, and Miss Cum... has been director since ... 1925, an assistant was found ... necessary and Miss Lash held ... position followed by Miss Blan... ... in 1925. In 1927, as the staff ... found to be too small, Miss ... took charge of the classes in ...

W. A. A. Founded 1913

... the most important parts of ... department is the Women's Ath... Association, which was founded ... the purpose of "fostering ... training among the girls." ... interest of this organization ... track meet held annually at ... ment, at which time a reward ... dollars was given to the best ... athlete. It is interesting to note that in 1915 a tennis match was held with Middlebury, practically the only intercollegiate game that has been played in any sport outside of rifle matches. W. A. A. has grown until now it is part of the National Athletic Federation of College Women and delegates are sent each year to the sectional conference.

Interclass teams originated in 1919 when the first basketball tournament was held. Hockey became a part of the course during the same year although class teams in it were not chosen until 1920. At this time the back campus was used as the practice field instead of the present one near the Weather Bureau. A year later volleyball, baseball, track and gymnasium work were introduced thus beginning the schedule used today. One of the interesting features of this, is that track was under the supervision of Coach Cloughen of the varsity track team, during the first year. This was also the first time that the annual "Gymnasium Exhibition," as it was then called, was held, giving a practical demonstration of the benefits derived from the writer's training.

Rifle Team Always Good

The rifle team showed promise from the beginning of the great success it has enjoyed; as in the first year of its existence, 1922, they fired two matches, winning both. In 1924 it was considered one of the leading sports, for then four girls performed the remarkable feat of shooting a perfect score. It has been under the direction of the military department from the start.

It has been a long way from these early attempts to the present schedule which, as extra-curricula activities, fosters the fall field day, the indoor rallies at Robinson, the winter carnival, the indoor meet, the basketball banquet, and the spring field day, as well as tournaments in all major sports. The W. A. A. Hand book for the instruction of freshmen has been printed since 1924. In 1928 the Health Council was established whose aim is to raise health standards in all possible ways. Much of the credit for such a general interest in athletics and for the introduction of so many sports, is due to Miss Cummings who has always shown an active and hearty interest in plans discussed, and who, by her own enthusiasm, has made girls' athletics at Vermont worthy of interest and work, and a force in the recreational life of the girls at U. V. M.

AT BREAD LOAF

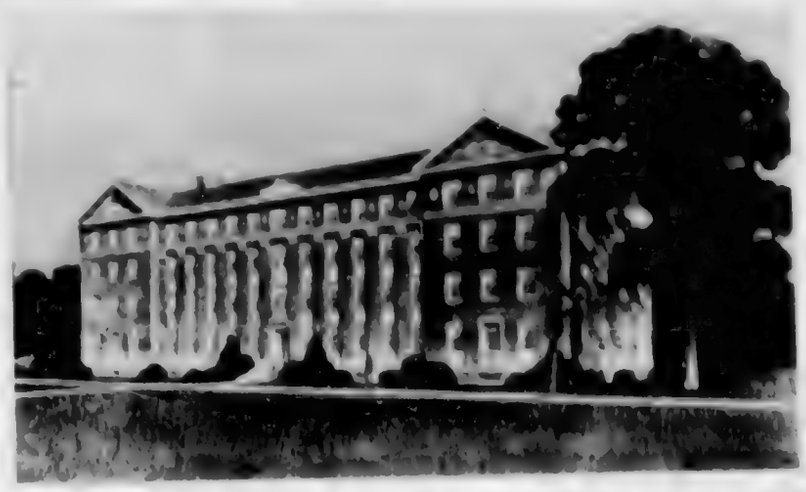
THE FORUM



The faculty of Rollins College has adopted a new comprehensive plan to be put into operation at the opening of the next college year.

The summer term will be divided into an upper and a lower division instead of the customary four-course plan. New methods of evaluating a student's work enable the abandonment of credits and grades. Of the three courses in the college course. The work of the student is to be passed on by comprehensive exams rather than on a specified period of residence and required credit courses.

The new plan is designed to compel the student to assume the initiative in his work.

In the lower division the student must round out and fill in the gaps of his preparatory school education. He should also find time to inaugurate work in his special field of interest.

In the upper division the student's time will be largely occupied by intensive study in the field of his specialization, and the faculty believes he should also find time and only to do [illegible] work closely related to his specialty.

The proposed [illegible] will [illegible] ... [illegible] ... It will [illegible] ... [illegible] ... on Scott Prospect ... Hall.

[illegible] ... May I hold your hand?"
Hernando: [illegible] ... I can manage Dusty now.

The United States government has just spent about a million dollars on students who have moved at West Point.

WOMEN'S SPORT NEWS

Mildred Akins to Preside Over W. A. A. For 1931-32

Caroline Taft is Vice-Pres.; Lois Harrington, Corresponding Sec.; Janet Miller, Recording Sec.; Katherine Skinner, Treas.; Beatrice Freeman, Publicity Mgr.

HELEN LE BARON WILL EDIT WOMEN HANDBOOK

[illegible] of the W. A. A. elections [illegible]kins is president; Caroline [illegible] president; Lois Harrington, [illegible]ding secretary; Janet Mil[illegible]ding secretary; Katherine [illegible]reasurer; Beatrice Freeman, [illegible]manager; Lillian Mount and [illegible]ington, senior representa[illegible] Armstrong, junior repre[illegible] Daisy Putnam, sophomore [illegible]tative, Priscilla Perry, chair[illegible] the health council; Helen [illegible] editor of the handbook; and [illegible] hiking chairman.

[illegible] Akins, '32, has been very [illegible] athletics while in college, [illegible] Taft, '33, is a member of [illegible]ha Delta, Tau Kappa Alpha, [illegible]nomics club, and has been [illegible] active in debating.

[illegible] Harrington, '32, belongs to [illegible] Delta, Y. W. C. A., Dramatic [illegible] which she was vice-president [illegible]ear, Home Economics Club, [illegible] Nu, and was this year, junior [illegible]ntative in W. A. A. Council; [illegible]been on her class hockey team [illegible] years and made varsity hoc[illegible] this year. Miss Harrington [illegible]one of the assistant editors of [illegible]k is on the Junior Week com[illegible] house committee and has been [illegible]Dean's honor list each semes[illegible].

[illegible] Miller, '32, is a member of [illegible] Alpha Theta, and has been on [illegible] class and varsity athletic [illegible] and has served on class com[illegible].

Katherine Skinner, '32, of Pi Beta Phi, has been in the Women's Glee Club, Double Quartet, W. A. A., Y. W. C. A., on class basketball teams, and has been chosen for casts in the operettas for three years, sang in the women's sextet as a freshman and junior, is now a member of the University choir and the junior class hockey team.

Beatrice Freeman, '32, has shown her interest in athletics by being on class hockey, volleyball, basketball and baseball teams.

"Billie" Mount, '32, has been very active in almost every [illegible] since she entered college.

Ara Armstrong, '33, is a member of Alpha Xi Delta, Press Club, Dramatic Club, W. A. A., Women's Glee Club, and has been on class basketball and volleyball teams, and has been a member of the Health Council.

Daisy Putnam, '34, belongs to Alpha Xi Delta sorority and the Women's Rifle team.

Priscilla Perry, '33, is a member of Pi Beta Phi, Bluestockings, Dramatic Club, Women's Cynic board, Health Council, sophomore class hockey team, has been in the University Choir, Orchestra, and Women's Glee Club for two years and is now assistant manager of women's debate.

Helen LeBaron, '32, belongs to Alpha Xi Delta, Y. W. C. A., Masque and Sandal, Home Economics Club, Bluestockings, of which she was secretary last year, is now secretary.

Alice Hoyt, '34, is a member of Bluestockings, W. A. A., and was on her class volleyball team.

Isabel Warhurst, '31, retires after an active presidency of W. A. A.

BASKETBALL BANQUET FEATURES SEVEN TALKS

Warhurst, Wright, Mount, Armstrong, Dickens, Abbott and Whiting Tell of Game's Peculiarities

Six student speakers, one faculty speaker and attendance of more than sixty, featured the annual basketball banquet held at Robinson Hall Monday evening, March 23.

Miss Whiting opened the program with a short talk. The remainder of the program was as follows:

Good Sportsmanship ..... Isabelle Warhurst
The Last Quarter ..... Harriet Wright
Time Out ..... Lillian Mount
Play the Game ..... Ara Armstrong
Lasting Loyalty ..... Betty Dickens
The Varsity ..... Edith Abbott

The varsity an honorary team, selected each year from the various teams consists of: Frances McKean, Justine Rogers, Harriet Johnstone, Winifred Graham, Janet Miller and Edith Abbott.

The program was under the direction of Janet Miller, '32, and Mrs. Florence Hard served as toastmaster.

HYGIENE COURSES ARE BENEFICIAL FOR CO-EDS

The course in general hygiene, required of all freshman women, has been beneficial this year in teaching them the care of the body and the formation of the correct mental habits. Dr. F. S. Kent, of the State Laboratory in Burlington, has conducted lectures on the digestive system, the respiratory system, remedies of common colds and contagious diseases, correct diet and first aid, with demonstrations on bandaging.

Doctor O'Neil of Waterbury, in a series of two lectures, outlined the history and background of mental hygiene as well as its relation to children. In view of the fact that the first four years of an individual's life are the most important as far as the formation of mental habits is concerned, Doctor O'Neil stressed the importance that children receive the proper guidance and discipline, since this directly affects their later life.

Dr. Oliver N. Eastman of Burlington is scheduled to give instruction in the hygiene of the reproductive organs after the Easter vacation. There will be three more lectures before the course is completed.

Co-ed Notes

No regular skating classes have been held this year because of the warm weather. During Kake Walk week many students used the skating rink at Chiott's, as well as the one on back campus.

Summary of the basketball season: Seniors 9, juniors 6; seniors 11, sophomores 9; seniors 15, freshmen 5; juniors 19, sophomores 10; juniors 15, freshmen 7; sophomores 19, freshmen 10; sophomores 0, freshmen 2.

In the class tournament the seniors won first place, followed by sophomores, juniors and freshmen, respectively.

The juniors won the greatest number of points—40. Sophomores came second with 36 points, while the seniors and freshmen had respectively 35 and 22 points.

"Winnie" Graham was the season's high scorer with 27 points, followed by Janet Miller with 22, "Jimmie" Johnstone with 18 and Harriet Wright with 15 points.

Coe College holds an annual party called the "Flunker's Frolic" for all students who flunk out of college.

The Methodist University of Southern California was founded by a Episcopalian, a Jew and a Catholic.

Edith Pritchard Elected Hon. Captain of Rifle Team

Rifle Team, Victorious in All But One Match, Elects Best Shot to Honorary Position, Following Perfect Scores in Twenty-eight Matches

ETHEL BISHOP TO BE TEAM'S NEW MANAGER

Edith Pritchard, '31, was elected honorary captain and Ethel Bishop, '33, manager at a meeting of the Vermont women's rifle team held Monday, March 23.

Miss Pritchard, a member of Alpha Chi Omega fraternity, has been a member of the women's rifle team and Home Economics Club for four years.

Miss Bishop, also a member of Alpha Chi Omega, has been on the women's rifle team for two years, as well as on other class teams.

The Women's Rifle Team of the University of Vermont has remained undefeated with the exception of one match with the University of Maryland as is shown by the records taken over a period of six weeks. Competition as released by Sergeant R. T. Conner, of the military department, coach of the team.

Four more matches will be held in the week of March 28, completing the schedule for the year. They will be with: DePauw University, Indiana State University, the University of Iowa, and the University of Utah.

Edith Pritchard, '31, has completed her firing in twenty-eight matches, holding a perfect record, having attained a score of 100 out of a possible 100 in each match; there also are indications that Ethel C. Bishop, '33, Evelyn I. Slayton, '31, and Esther C. Smith, '33, will finish with an average above 99.

"The firing of the team as a whole," declared Coach Conner, "is much above the average. Every member of the team shoots with consistency and skill."

As compared with other years:
1927-28 2 defeats.
1928-29 Won all
1929-30 Won all.

Statistics show that out of 30 matches in four years Vermont has been defeated only three times.

The report for the year 1930-31 to date is as follows:

	W	Opp.
University of Idaho	500	0
University of Nevada	498	494
University of Nebraska	494	469
Mass. Agricultural College	500	493
North West University	499	477
State College of Washington	499	48[illegible]
University of Arkansas	500	494
University of Hawaii	500	469
Kansas State Agricultural College	995	
University of Missouri	499	488
University of Pennsylvania	49	494
University of Wichita	494	489
Drexel Institute	500	
Indiana University	500	49[illegible]
Keene Normal School	500	395
University of Kansas	994	979
University So. Dakota	500	
Michigan State College	498	490
Cornell University	498	486
University Washington	498	497
University of Maryland	499	500
University of Wyoming	498	490
Carnegie Institute of Technology	498	
University of Maine	498	49[illegible]

N. B. Where no score is given, the match was lost by default.

The personnel of the team is as follows: Ethel C. Bishop, '33, Nelly M. Chase, '31, Elizabeth Clark, '31, Alice C. Dodge, '31, Marguerite R. Dunsmore, '32, Helen Kotellonis, '32, Ruth Goss, '32, Alice C. Hersom, '34, Georgina Hubert, '31, captain, Cora I. Humphrey, '32, Gertrude A. Marsh, '34, Emily Murray, '31, Dorothy Nash, '31, Edith Pritchard, '31, Daisy Putnam, '34, Evelyn I. Slayton, '31, manager, Esther Smith, '33, "Dot" Taylor, '33, Frances Thomas, '33, Marion Urie, '33, Lenda Walker, '33, Margaret Wharton, '33.

WOMEN—A DOLE LAMENT

1

Comes a Frosh[illegible] green to college
To seep in a hoard of knowledge
And find out about women

2

Green cap donned he goes to classes
Studies hard through horn-rimmed glasses
No time for women

3

Then Boulder finds he needs repression
And after a long and painful session
He wants a woman

4

Next day he lingers in the store
Sees sights which thrill him to the core—
Such wonderful women!

5

He's easy bait for the Mortar Board
Pays thirty dollars for a Ford
To take that woman

6

She cannot dance, she is a cow
He is not quite so eager now
But there must be other women

7

He finds one, takes her to a show
But in there you can't get to know
Much about women

8

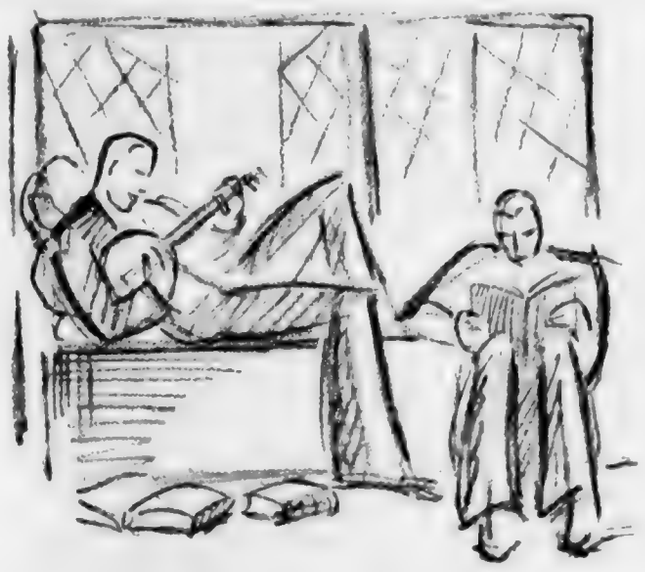
Later when he is nearing heaven
She coos she must be in by 'leven
He's learning about women.

9

They take a ride against her will
The can breaks down, he gets his fill
Of hysterics and a woman

10

He's out thirty dollars—she's now on pro
With his black eye he's glad its so
He's wise now, about women!



Prodigal: Father, I've a notion to settle down and go in for raising chickens.

Skeptical Father: Better try owls. Their hours suit you better.

"Just put it on my Bill," sobbed the young widow as she left a floral offering at the cemetery.—*Longhorn.*

She: Do you feel sick?
He: No. But I'd hate to yawn.—*Wet Hen.*

And then there was the prohibition agent who refused a drink because he was off duty.—*College Humor.*

Vermont Baseball Squad Leaves for Sunny South

Will Be Gone Thirteen Days on Annual Spring Training Trip—To Engage in Ten Contests With Such Opponents as U. S. Marines, Navy, Georgetown, Columbia and Army

FIRST GAME TOMORROW AGAINST U. S. MARINES

[illegible] baseball squad [illegible] for their annual spring training trip [illegible] Quantico, Va., with the U. S. Marine outfit [illegible] Tom Keady, former Vermont athletic mentor. On next Monday another contest is to be staged with the Marines and then the following teams will be played in succession: Mt. St. Mary's, Navy, Georgetown, Temple, Rutgers, Columbia, St. John's and Army.

The following is the itinerary subject to change:

Itinerary

March 26, Thursday: Leave Burlington via C. V. R. R. at 10:05 p.m.

March 27, Friday: Arrive in New York City at 7:55 a.m. Leave New York City via Penn. R. R. at 8:10 a.m. Arrive in Washington at 12:55 p.m. Leave Washington via bus after lunch. Practice at Quantico. Lodging at Quantico.

March 28, Saturday: Game with U. S. Marines at 3:00 p.m. Lodging at Quantico.

March 29, Sunday: At Quantico. Practice at 3:00 p.m.

March 30, Monday: Game with U. S. Marines at 3:00 p.m.

March 31, Tuesday: Leave Quantico via bus at 8:00 a.m. Arrive in Emmittsburg at 12:00 a.m. Game with Mt. St. Mary's at 3:00 p.m. Leave Emmittsburg via bus at 6:00 p.m. Arrive at Annapolis at 9:00 p.m. Lodging at Navy.

April 1, Wednesday: Game with Navy at 4:00 p.m. Leave Annapolis via bus after dinner. Lodging at Hotel Continental, Washington, D. C.

April 2, Thursday: Bus to Georgetown at 11:30 a.m. Game with Georgetown at 3:30 p.m. Bus to Washington. Lodging at Hotel Continental.

April 3, Friday: Leave Washington via Penn. R. R. at 9:00 a.m. Arrive in Philadelphia at 11:49 a.m. Game with Temple at 3:30 p.m. Lodging at Hotel Robert Morris.

April 4, Saturday: Leave Philadelphia via Penn. R. R. at 10:27 a.m. Arrive in New Brunswick at 11:39 a.m. Game with Rutgers at 3:30 p.m. Leave New Brunswick via Penn. R. R. at 7:26 p.m. Arrive New York, Penn. Station at 8:20 p.m. Lodging at Hotel Pennsylvania.

April 5, Sunday: At Hotel Pennsylvania, New York City.

April 6, Monday: Subway to Columbia. Game with Columbia at 3:30 p.m. Lodging at Hotel Pennsylvania.

April 7, Tuesday: Subway to St. John's. Game with St. John's at 3:00 p.m. Lodging at Hotel Pennsylvania.

April 8, Wednesday: Leave New York via bus at 9:00 a.m. Arrive at West Point at noon. Game with Army at 3:45 p.m. Leave West Point via bus at 6:00 p.m. Arrive New York, Penn. Station, at 8:30 p.m. Leave New York via N. Y., N. H. & H. at 8:45 p.m.

April 9, Thursday: Arrive Burlington via C. V. at 6:10 a.m. Sleeper for occupancy until 7:30 a.m.

VERMONT DEBATE TEAM DOES IMPRESSIVE WORK THROUGHOUT FIRST WEEK

Nelson, Donaghy, LaCrosse Are Successful in Six Debates With Mid-Western Colleges

Vermont's debating team established an impressive list of victories last week when they emerged successful from six debates in Illinois.

Beginning Monday against Northwestern University at Evanston Ill. the Vermont team of Nelson, LaCrosse and Donaghy made a clean sweep of six debates five of which were overwhelmingly in favor of Vermont. Against Northwestern University the Vermont team debating before an audience of independent store owners converted a large number of them to the chain store cause.

On successive nights the Vermont team defeated Lake Forest College, Wheaton College, North Central College, Augustava College and Carthage College. The Vermont team debated on both sides of two questions in these debates, the chain store question and unemployment insurance. Against Northwestern University, Lake Forest, North Central and Wheaton Colleges all three of Vermont's debaters participated in the debates, but against Carthage College and Augustava College G. R. Nelson, '31, and R. P. Donaghy '33 represented Vermont.

The Vermont team has won decisions of every possible sort by audiences, by a board of three judges, by a critic judge, and by vote on the shifting opinion of the audience.

This week the team is debating State College at Bowling Green, Ohio, Heidleberg College, Ashland College, Mt. Union College, Kent State College and John Carroll University.

The feature of the week was the defeat of Wheaton College, champions of the "Little Nineteen" debating league of Illinois composed of nineteen of the best debate colleges of the Middle West.

Wheaton College was undefeated with one exception in two years of league debating. The Vermont team won by a 3-0 decision.

FRATERNITY DANCES ARE FEATURE OF WEEK-END

Revelry prevailed in college circles last Friday night as nine of the men's fraternities held their annual Easter dances. Three of the frat frolics were formal while the other six enjoyed themselves in soft collars and varicolored suits.

Lambda Iota held an informal dance at the fraternity house, with Doctor and Mrs. Braun and Professor and Mrs. Stineford acting as chaperones. The Black Panthers from Middlebury furnished the music.

The Kappa Sigma dance was formal. The chaperones were Prof. and Mrs. R. D. Adams, and music was furnished by the Hottentots.

Phi Delta Theta also held a formal dance with Freddy Lynch and his orchestra supplying the music. Maj. O. H. Stanley and Lieutenant and Mrs. Kullman were chaperones.

Phi Mu Delta held an informal dance and Mr. and Mrs. Sinclair and Professor Dean were chaperones. Red Mentens orchestra played.

The Hotel Vermont's roof garden was the scene of the Phi Sigma Delta formal. Professor and Mrs. Carroll and M. H. Laatsch and Miss Shirley Andrews were chaperones and Bob Minetti's six-piece band supplied the syncopation.

Sigma Alpha Epsilon's dance was informal with Mr. and Mrs. Congdon and Mr. and Mrs. Whetherbee as chaperones. Music was furnished by Joe Lechnyr.

Sigma Delta's dance was informal with Holbrook's orchestra as music and Professor and Mrs. Puffer and Professor Sheldon as chaperones.

Sigma Phi held an informal dance with Professor and Mrs. Carpenter as chaperones. Music by Coon's Saun dara.

Zeta Chi held a formal dance with Prof. and Mrs. H. Millington and Mr. and Mrs. George Ward as chaperones. Music was furnished by Ballou's orchestra of Rutland.

Sigma Nu will hold a formal dance Friday the 25th. Professor and Mrs. Bullard and M. H. Laatsch are to be the chaperones. Music will be furnished by the Black Pirates.

Alpha Tau Omega, Delta Psi and others will hold their dances some time Friday of this week.

Intercollegiate News

An increase in total enrollment at the College of the City of New York was shown in the registration figures released by Dr. Morton Gottschall recorder.

The single decline was manifest in the afternoon division of the School of Education, where 3,078 were enrolled as against 3,408 last spring. This was attributed to increased number of courses in education at Hunter and Brooklyn Colleges.

In the day sessions a total of 6,144 were admitted. 5,095 in the main branch on Washington Heights and 1,049 in the School of Business at Twenty-third Street and Lexington Avenue.

The total of matriculated and non-matriculated students in the five evening sessions of the college is 12,796 of which 3,467 are women.

A recent survey of records at Williams College has revealed that about one-sixth of the professors there have served twenty-five years or longer.

PROFESSOR DYKHUIZEN ADDRESSES DEWEY CLUB ON SOCRATIC DOCTRINES

The Philosophy of Socrates In Talk Before Departmental Club

OCCASION IS 2400TH YEAR OF SOCRATES BIRTH

[illegible] celebration of the 2400th anniversary of Socrates, Prof. G. R. Dykhuizen addressed the John Dewey Club on the philosophy of the Greek [illegible] last Tuesday evening in [illegible].

Socrates chief contribution to philosophy, the speaker pointed out, is that universal man is the measure of all things. His greatest teachings were concerning virtue.

How could Socrates hope to meet the challenge of the Sophists?

Socrates to the Rescue

The chief concern of Socrates was to meet this challenge of the Sophist that individual man is the measure of all things. Socrates clearly saw that if this is so the foundations of knowledge of morality, and of the State are undermined, and social catastrophe is but a matter of time. This problem of the Sophists, Socrates felt, really resolved itself into the problem concerning the nature of truth. For the other views of the Sophists, notably those on morals and politics, had their source in the complete misunderstanding concerning the nature and meaning of truth. The key to the whole situation lay in the problem of knowledge. What is the meaning of truth?

Search for Unity

Are we now to stop at this stage, where we are confronted with confusion and diversity of opinion, the Sophists say that this is the final stage: that men differ, opinion opposes opinion, and one man's thought is as true as another; that no more can be done. But Socrates asserts that we have not gone to the bottom of the matter, that we have not done our duty till we have ascertained whether or not it is possible to come to an agreement.

In this discovery of universal man, or, in more technical language, in this discovery of the universal as opposed to the individual, of the general as opposed to the particular, of the concept as opposed to the precept, and of the subsumption of the latter to the former, lies Socrates' great contribution to philosophy—his claim to fame.

"Know Thyself"

Wisdom or knowledge is the greatest virtue, and the panacea of all human ills. And by knowledge, let us remember, we do not mean private, individual opinion, or impulse, but the knowledge which is found in one's own rational self, *i.e.*, knowledge in and by conceptions. Hence, above all else, one must search his own mind, his own reason, in order to discover this wisdom. *Gnothi se auton*—know thyself—this is the first and greatest commandment.

The Socrates doctrine of virtue can be stated in three propositions. 1. *Virtue is knowledge.* A virtuous act is one which proceeds from a clear knowledge of all that is involved. 2. *Virtue is one.* Socrates insists on the unity and identity of all the virtues. This becomes clear when we realize that the rightness of an act is determined by the intellectual insight behind it. 3. *Virtue is teachable.* This thesis also becomes obvious when we remember that virtue is knowledge, for if anything is teachable, it is knowledge.

"BE PARTICIPANTS, NOT SPECTATORS" SAYS HALL

"We are too often inclined to be the spectators rather than the participants in the play of life," declared Prof. R. A. Hall in chapel Wednesday morning. The average college student's relation to Jesus is similar to Pilot's in that he is allowing himself to listen to the element crying "crucify Him." The Kingdom of God of the past has become the Commonwealth of Good Will of the present. We forget that the same enemies that persecuted Christ in the flesh are still trying to attack him in this present-day life. Peter knew Christ and denied him. When our time comes will we have the strength to follow the right course or will we fall as did Peter? At the close of this talk Professor Hall gave the very appropriate poem, "Be Strong."

World Court Reservations Favor U. S. Says Mowe

Political Science Head Tells International Relations Club Th Senate Should Accept Protocols in December—Little Likelihood of Objections Obtaining

ALSO REVIEWS SOME OF WORLD COURT HISTORY

"It will be a rare situation which will call for objections upon the part of our government in regard to acceptance of the World Court Protocols," declared Prof. Edmund C. Mower, head of the political science department, speaking on the "World Court Issue As It Will Be Taken Up In the Senate In December," before a small group of members and friends of the International Relations Club, last Tuesday evening at the Vermonters' Club house.

Professor Mower reviewed the history of the World Court in reference to its connection with the United States and told the audience of the reservations embodied in the Senate resolution of 1926 which had its genesis because of Article 14 of the Covenant of the League of Nations which directed the establishment of a National Court which might render judgments and also advisory opinions. A council composed of ten eminent jurists formulated the plan for the World Court, the [illegible] and it was next [illegible] states of the world [illegible].

Entrance to the W[illegible] restricted to league [illegible] plan formulated [illegible] league members [illegible] only the fact that [illegible] is not a league membe[illegible] about the present [illegible].

The World Court [illegible] of the league. Professo[illegible] explaining that it [illegible] through acceptance by [illegible] the Protocols.

The adoption of the [illegible] tion in the spring of [illegible] tended to constitute the [illegible] a signatory of the W[illegible] tocols providing that [illegible] offered should be accepted by [illegible] states concerned, created a great [illegible] of sentiment throughout the [illegible]. Professor Mower stated. The two reservations declare that United States need not accept treaty of Versailles, and that should be permitted a fair sha[illegible] the court's expense which [illegible] appropriated by Congress. No troversy concerning the first raised at all. Reservation three that if the first two are accepted should be allowed to participate election of judges who are elect[illegible] the Council. The fourth reserv[illegible] proposes other provisions rega[illegible] the right of withdrawal from court, and the point stating tha[illegible] amendments to the statute ma[illegible] made without our consent. The reservation concerns the renderi[illegible] advisory opinions—a very impo[illegible] function.

Professor Mower pointed out the present number of advisory [illegible]ions given by the court are the as the number of judgments rend[illegible].

The speaker cited an example court's function, the dispute be[illegible] Great Britain and Turkey over Iraq-Turkey boundary line the[illegible] come of which would decide the[illegible] session of the Mosul oil fields. Great Britain and Turkey in[illegible] that the oil fields were theirs Great Britain finally proposed tha[illegible] Council settle the whole affair key objected on grounds that Council could only act as a med[illegible] An advisory opinion was asked cerning the interpetation and the[illegible] decided that the Council had power to settle the dispute. T[illegible] abided by the judgment and the troversy was settled.

"Advisory opinions do not anyone," Professor Mower de[illegible] "but usually all parties concern[illegible] cept the judgment."

Speaking of the Root Fo[illegible] which is included in the Proto[illegible] 1929, Professor Mower said th[illegible] could not see any reason for [illegible] by the senate but that ingenio[illegible] semblies can usually find a lo[illegible] to slip through.

Following the talk on the [illegible] Court, pamphlets containing a[illegible] nightly Summary of Interna[illegible] Events sent by the Carnegie E[illegible] ment for International Peace [illegible] issued to all present.

And then of course there musical carpenter. He plays tuba four.—*Wisconsin* [illegible]

SEMI-FINALS ARE HELD IN WRESTLING TOURNEY

Exhibition Boxing Bouts Provide Interesting Diversion for Spectators

Before a large and interested crowd at the gym Monday afternoon, the semi-finals in the intramural wrestling tournament, conducted by the department of physical education, were held.

In these matches Perelman defeated Douglas in the 140-pound class by a time advantage of 7 minutes and 10 seconds.

In the 158-pound class, Fleming who was thought to be about finished, "played possum" on his aggressive opponent Shippee and threw him with a head lock after 9 minutes and 34 seconds of active wrestling.

In the unlimited class Isenberg pinned Bigelow to the mat with a body hold after 4 minutes of action.

Horenstein and Cohen staged a very interesting contest, which was forced into two overtime sessions in order that the winner might be chosen. Neither contestant was able to do much of anything with his adversary, and only after much deliberation did referee "Bump" Levine award the decision to Horenstein.

In the boxing exhibitions Newcomb and Varricchione staged a very good scrap, during which the latter showed himself to be a very clever defensive boxer.

Cognetta and White also put on a good exhibition, wherein the shorter Cognetta overcame his taller opponents reach by rapping him solidly with his right.

Donaldson was somewhat outclassed by the superior ability of his opponent Burns but showed plenty of spirit and ability to absorb punches by continually forcing the fight.

The last fight of the card, between Morrison and MacCutcheon, was a bit slower and less interesting than the rest.

FOUR SORORITIES HOLD BANQUETS FOR INITIATES

Alpha Chi Omega, Kappa Alpha Theta, Delta Delta Delta and Alpha Xi Delta are Feasting Groups

The active chapters of four girls' fraternities held initiation banquets on the week-end of March 21-22 in honor of the new members.

Delta Delta Delta held its initiation banquet at the New Sherwood Hotel, on Saturday evening, March 21 with about fifty guests present.

Miss Julia Waterman of Vergennes was toastmistress. The banquet tables were lovely with their decorations in the Delta Delta Delta colors of silver, blue and gold. The centerpieces were of yellow daffodils.

The initiates into the sorority are the Misses Eleanor M. Gates of Richford; Marjorie M. Collins, Colchester; Ellen A. Pearl, Grand Isle; Virginia T. Drew, Poughkeepsie, N. Y.; Ruth Tarleton, Brooklyn, N. Y.; Leona M. Warren, Morrisville; Ruth A. Johnstone, Morrisville; Grace E. Harris, Stowe; Barbara G. Whitney, Springfield, Mass.; and Elvira M. Farman of Newport.

Among the out-of-town guests at the banquet, which was held immediately following the initiation ceremony, were Miss Iva Harris, who is teaching at Pownal, Miss Beatrice Farman of Newport and Miss Barbara Witters of Barre.

The Kappa Alpha Theta initiation banquet was held at the Hotel Vermont, in the main dining room, on Saturday evening, March 21, following the initiation ceremony at the Theta house.

Mrs. Ruth Harrington Lane of Burlington, of the class of '21, presided as toastmistress. The address of welcome was given by Miss Janet Miller of the class of '32 and others of the banquet speakers were: Mrs. Lucia Downing, Miss Harriett Howe, '33, Miss Claribel Morse, '34, and the Misses Marjorie Eisenwinter and Helen Taylor of the class of '31.

The centerpieces of the tables were colorful spring bouquets, in which were massed yellow tulips, iris and forget-me-nots. Each one of the initiates wore a corsage bouquet.

The alumnae present were Mrs. R. E. Beebe, Mrs. Bennett and Mrs. Herrick of Fort Ethan Allen; Mrs. Bessie Brown of West Burke; Miss Elizabeth White of Montpelier; Miss Frances Timpson of South Orange, N. J.; Mrs. Jones and Mrs. Robbins of Shelburne; and Miss Bates, Mrs. Westcott, Mrs. A. L. E. Crouter, Mrs. Mudgett, Mrs. Noyes, Miss Virginia Noyes, Miss Eleanor Grout, who transferred to Smith College, Miss Doris Dodds, Mrs. Downing, Mrs. Lane and Miss Margaret Miller, of Burlington.

The initiates of this fraternity are Miss Eleanor Eggleston of Montclair, N. J., and Miss Ann Sawyer of Seattle, Wash., of the class of '33; and the Misses Janet Dodds of Burlington, Marjorie Hayden, Winchester, Mass.; Betty Lane, Barre; Elizabeth MacLeod of Pawlet, Claribel Morris of Burlington, Florence Morse, Montclair, N. J. and Laura Tracey of Shelburne, all members of the freshman class.

The initiation into Alpha Chi Omega of six pledges took place Saturday afternoon, March 21, at the Alpha Chi Omega house. In the evening, at the Hotel Vermont roof garden, the initiation banquet was held.

Miss Olufa Jones of the class of '27 was toastmistress at the banquet. Miss Ruth Reynolds of the class of '34 was awarded a gold piece for having the highest scholarship in the fraternity.

Upsilon chapter, Alpha Xi Delta held its initiation banquet at the Hotel ... '31

TOURING COMPANY OF SHAKESPEARE PLAYERS TO PRESENT "MACBETH"

English Department Sponsors Production, Scheduled for Next Monday Evening

GREAT TRAGEDY WILL BE PRESENTED IN GYM

The Shakespeare Players of New York City, playing in Burlington under the auspices of the English department of the University of Vermont, will present Macbeth in the University gymnasium Monday evening, April 13.

The Shakespeare Players are now in their fourth season of touring and advance notices speak highly of their appearances in the leading schools and colleges. The company, which is headed by James Hendrickson and Claire Bruce, includes also much well known actors as John C. Hickey, Stanley Cobley, Webster Patterson, Mary Glover, Robert Greene, Martin Wells and others.

The Shakespeare Players productions follow somewhat the manner of the Coburns and Ben Greet. While their plays are handsomely costumed and correctly staged in every detail, cumbersome scenery is dispensed with. By thus eliminating waits between scenes greater continuity is obtained and a larger part of the original text is retained than is customarily employed in the conventional stage versions.

These Shakespeare Players had the distinction last season of breaking a long standing tradition at the United States Military Academy at West Point. No professional dramatic company had appeared there until last October when the Players were invited to give a Sunday matinee performance of Julius Cæsar, in the historic Memorial Hall overlooking the Hudson. Following their performance the Players were extending the privilege of witnessing the regular Sunday afternoon dress parade of the cadets.

Several local young people from the University will assist the visiting company of players in their presentation of Macbeth, as it is customary for the Shakespeare Players to invite a limited number of students from the drama and English classes to appear with them in certain scenes requiring group acting.

Prof. Leon W. Dean spent last week conferring with county agricultural extension service agents in twelve counties of the State about publicity matters. He talked over individual problems and helped the agents in preparing news matter on local agricultural, home demonstration and 4-H Club work, and in cooperating with daily and weekly newspapers.

Walter H. Crockett addressed the meeting of the Washington Alumni Association which unanimously chose Warren R. Austin, U. V. M. alumnus as its president.

Vermont, March 22. Roses were beautifully arranged in decoration of the banquet tables and the fraternity colors, double blue and gold, were attractively carried out.

Mrs. Chester M. Way presided as toastmistress. Toasts during the evening were responded to by Catherine E. Durick, Ruth Conant, Mildred Akins, Dorothy Emery, a representative from Middlebury of Alpha Pi chapter, M. Louise Morgan, an alumnae who is an instructor in commerce and economics at the University of Vermont, and Lois Harrington, Mrs. Edmund C. Mower, Sylvia Boyd, Jean Belden, Eleanor Koenig, Helen Merritt Lorraine Guyette, Constans Holden and Daisy Putnam.

Among the alumnae present at the banquet were the Misses Marion Way, Constans Holden, Anna Smith, Helen Merritt, Jacqueline Lanou and Louise Morgan.

Initiation took place at the Alpha Xi Delta chapter rooms preceding the banquet. The initiates are Dorothy V. Buzzell of Burlington; Hilda W. Davis of Burlington; Catherine E. Durick of Fair Haven; Eola Goodrich of Morrisville; Helen B. Jenkins of Orleans; Ruth Johnson of Medford, Mass.; Jean C. Kinloch of Springfield, Mass.; Frances L. Osgood, Saxtons River; Daisy M. Putnam of Springfield and M. Elizabeth Woodward of ... Hill, Conn., all of the class of ...

Varsity Debaters Return From Mid-Western Journey

Travelers Experience Moderate Success in Wanderings; Dropping Four Debates, Winning Seven—Cross Six States in Trip

... returned Wednesday from an extended tour of the Middle West and southern ... sections of our fair nation. Although ... debated one team fought back a fair average of debates, winning seven, ... four being ... The other debates were no decisions (contests).

Vermont's team was composed of ... K. Nelson '31 of Stamford, Conn., veteran of three years' experience, and R. P. Donaghy '32 of Northfield and F. J. Lawrence '32 of Burlington both without previous traveling debating experience.

The Vermont team won all types of decisions seemingly with equal ease. Against Northwestern University a shifting opinion vote of the audience which consisted entirely of independent grocers revealed a victory for the Vermont team arguing in favor of the chain store. Audience decisions were in favor of the Green Mountain debaters at Lake Forest College and North Central College. Vermont lost to Kent State, however. Vermont won debates by a vote of a board of judges at Carthage College and John Carroll University. The last named debate was originally scheduled as a no-decision contest at the petition of the home team which boasts a very good record this year. Expert judges were the most popular means of decision in which Vermont's debates against Wheaton College and Augustana College and losing one to the University of Buffalo were decided. No decisions were rendered on the debates with State College, Heidleberg College and New York University. One debate against Mount Union College ... decision of audience decisions ... at Wheaton.

The last two debates, with St. Thomas College of Scranton, Pa., and Fordham University were lost by unanimous decision of boards of judges.

All of the debates were three-man debates except those with Augustana College, Carthage College and N. Y. U. In these three debates Vermont was represented by R. P. Donaghy and ... R. Nelson.

The questions used on the trip were the chain store, unemployment insurance, free trade, modern advertising and the American jury system. Against Northwestern Vermont upheld the negative of the chain store question and the affirmative of the same question was debated by U. V. M. against Lake Forest College and Wheaton College. Unemployment was the subject of five debates on the trip. Vermont upheld the affirmative against Augustana College, Kent State College, Western Reserve University and the University of Buffalo and the negative against Heidleberg College. The side taken in the debate with North Central College is not known. Advertising was the subject of ... debates in which Vermont argued the negative side of the question. Vermont debated Carthage College, State College and John Carroll University on the affirmative of the free trade question. New York University was the only team against which Vermont took the negative of this question. Fordham was the sole debate opponent on the question of the jury system.

The feature debates of the trip included those against Wheaton College champs of the Little Nineteen Debating League, Northwestern University, John Carroll University and Heidleberg College in the west and N. Y. U., University of Buffalo and Fordham University in the eastern section of the area visited.

The team traveled through two countries and five or six states on the trip which is estimated at about three thousand miles. The team also debated on both sides of several questions on successive nights which is not generally the practice of traveling debate teams.

AUDITING PLACES U. V. M. SIXTH IN SONG CONTEST

Contrary to erroneous addition of judges ratings, the University of Vermont, according to Professor Bennett, won sixth place with Middlebury attaining one position above, in the New England Intercollegiate Glee Club Contest held at Hartford, Connecticut.

The winners were Williams, Wesleyan, and Amherst. Trinity was fourth with 218.4 points. Middlebury earned 217.8 points and Vermont attained sixth place with 217.4 points.

PROF. BASSETT TO GO TO GREECE NEXT YEAR

Appointed Annual Professor at American School for Classics in Athens

Professor Samuel E. Bassett, head of the Greek department of the University of Vermont, has been appointed annual professor of Greek language and literature at the American School for Classical Studies at Athens, Greece, during the academic year 1931-32.

Professor Bassett has been granted leave of absence from the University, and will reside in Athens from October 1, 1931, to June 15, 1932.

Professor Bassett was a student at the American school following his graduation from Yale College in 1898, and has been a member of the school's managing committee since he came to the University of Vermont as head of the Greek department in 1905. Since 1919 he has been chairman of the school's committee on fellowships.

EXTENSION SERVICE AIDS GROUPS IN 241 PLACES

Two hundred and thirty-nine home demonstration groups, having 6,680 members, have been active in the State this past year, touching the life of 241 communities. The work was carried on by fourteen extension workers and numerous local leaders.

Records compiled by Miss Marjorie E. Luce, State home demonstration agent leader, show that 2,017 home visits were made, including 1,448 different homes.

In fifty-two communities home garden and home beautification work was carried on; in four communities agricultural engineering and home engineering projects were conducted, in ... communities food and nutrition projects were studied, in four communities child training and care was given attention, in 230 communities ... clothing served as one of the projects, in eighty-one communities home management, in 177 communities house furnishings; in sixty communities home health and sanitation, in 120 communities community activities were stressed, and 147 communities engaged in miscellaneous work. Many of the communities also studied the extension program and organization work.

During the year 1,194 office calls were received by home demonstration agents and 5,929 telephone calls. News stories to the number of 665 were prepared and published in cooperation with the State press. Nine thousand individual letters were written and 460 different circular letters were sent out. 35,176 bulletins were discriminately distributed. There were forty-nine training meetings held for local leaders or committee members attended by 1,468 people, 1,495 demonstration meetings, attended by 23,810; sixty-seven result demonstration meetings attended by 2,231; fifteen tours conducted, attended by 416; nine achievement days held; ten camps for farm women conducted; 141 other types of meetings held, with an attendance of 16,941, and 361 meetings held by local leaders, ... with an attendance of ... At many of the meetings motion ... and lantern slides ...

FOR THE BEST INTERESTS OF VERMONT

[illegible] and administration, courses and attitudes. Then [illegible] of students with each other.

[illegible] of liberal education will [illegible] opportunity for individual [illegible] and self-expression on the part of the students held by the [illegible] of an educational institution may be the cause of much [illegible] from the strait-jacketing of the student body and from the [illegible] and zeal of enthusiasm.

The present situation [illegible] found on an increasing number of college campuses at the present time. A student body enlightened by the knowledge gained from the courses of study presented and or by [illegible] the trend of intercollegiate critical thought on certain issues or by observation of the actions of secular, political, economic, and social groups uses its opposition to a policy or situation which may exist on their campus. Frequently, the expression of critical student thought takes the form of discussion in organized departmental discussion groups, church groups, larger house sessions, mass meetings, letters to the contributors' column of the student news organ, and even by strikes, massed protests, and non-cooperation.

A [illegible] well organized and balanced expression of undergraduate opinion is an invaluable asset to a university. Its significance and worth far outweighs that of the material surroundings and esthetic environment although we recognize the importance of the two latter considerations. A small college with poor equipment and few buildings may be a leader in the intellectual world. On the contrary, we can [illegible] a university with the finest material facilities which lags far behind in the type of rational thinking students it graduates.

Two controversial topics at the University of Vermont which have become quite delicate are compulsory military drill and religion. While the latter exists at this institution, a mandatory system of the former, such as compulsory chapel would imply, does not exist. Few colleges or universities now require chapel attendance on the part of the students but although basic military drill is required in a greater number of institutions, vexed student and citizen opinion has in many places abolished the feature and still continues to align itself against it. At Vermont, although not a requirement of the Morrill Land Grant Act two years compulsory military are an institutional policy at the present time.

Several students have written letters to Campus Comment expressing their individual opinions and observations concerning preparedness and religion. We do not regard such effusions as being an indication of a Communistic or Socialistic undercurrent or influence in student thought. The very fact that discussions of the sort appear in the columns of student publications all over the country would indicate that information is being gained and that a certain amount of intellectual virility still exists.

But at the University of Vermont, we are informed by the administration the discussion of any phase of compulsory military training and religion by the students in the columns of the CYNIC carries with it much danger to the institution. Nothing so pleased the officials here than to learn a year ago that not one professed atheist existed in the student body. Any attitude which would tend to indicate a refusal on the part of a student to accept the doctines of orthodox theology in their entirety would create an unfavorable impression of the University in the eyes of the patrons of its students and its financial benefactors. It is decidedly an economic question. The University depends upon a legislature and sources of endowment in a state which has always been ultra-conservative and any sign of liberalism or questioning of University policy, while given consideration in many other institutions, cannot be tolerated here. Although there is distinct evidence of progressive liberal thought on the part of both faculty and students in the classes of history, political science, and economics, in regard to social and ethical problems, at Vermont, "You Can't Print That." The situation is different on the editorial page of the CYNIC.

The present editor is cooperating with the administration by not editorially leading a student campaign toward the abolition of required military drill. Any discussion of the topic by the students in the letter columns while desirable (since it is an individual and not necessarily an administration attitude) is the administration tells us not expedient because of "its tendency to imply University policy which would be opposed by its material benefactors." We will tolerate no censorship, but at the instance of the officers of the administration, we suggest that letters dealing with religion and compulsory R. O. T. C. be presented to either the faculty advisor of the CYNIC, or to the chairman of the Faculty Committee on Publications, or to the President for their consideration before being submitted to the editor for publication.

Thus we shall work with the best interests of the University in mind.

Campus Comment

To the Editor of the Cynic:

[illegible] of those days when [illegible] the world a better place for the [illegible] demands that the intoxicating [illegible] be denied the right to use intoxicating beverages. Sobriety leads to greater efficiency and so to large scale production. No other argument is necessary to convince the employer that prohibition is a necessity.

The other benefits that are claimed for prohibition are of purely secondary importance. The moral and social aspects of the question are only convenient instruments that can be used to convince uncertain minds that prohibition is a great thing.

The country has been flooded with Dry propaganda. Every attempt has been made to convince the public that the Dry way of living is the most desirable. But as yet, the greater number of people are not really serious when they say they favor complete prohibition. Prohibition is always for the other fellow. It is forever someone else who is guilty of mis-using intoxicating liquor. People reason that, after all, it is not unreasonable for sensible people to drink. And of course the Drys are very sensible people.

In spite of the dictates of modern industry and the pious wishes of reformers, who are as a matter of fact mere tools of the economic system, the people continue to drink. There isn't a single way to stop them. But less liquor is consumed now than formerly. The higher prices that are being charged for alcoholic beverages cuts down the consumption. To a certain extent then, prohibition has succeeded, but it has also brought about a sort of anarchy in the social situation.

The myth that in America the majority rule is nowhere more apparent than in prohibition itself. There is certainly a majority drinking population, but there is only a minority dry vote. The thing is weird, inexplicable. Why aren't Americans more interested in their rights than that? Why do they allow selfish commercial interests to exploit them?

Many people do not get excited over the Eighteenth Amendment and the Volstead Act because they are very little affected by them. Liquor is plentiful everywhere. They do not bother to change existing statutes. They annul existing laws by disregarding them entirely. They secure their rights after fashion, in this illegal manner. A selfish commercial minority can hardly inflict an unpopular law upon a lawless community.

Some states, such as New York, have resorted to a more legal method to destroy the effects of federal prohibition legislation. By refusing to lend state aid in the enforcement of the prohibition law, New York makes prohibition within her borders practically impossible; that is in New York majority opinion makes itself felt politically.

To attempt to abolish the Eighteenth Amendment would be ridiculous. The political strings that must be pulled to effect the needed change in the constitution are so numerous and varied in their character, that it makes the repeal of the Eighteenth Amendment impractical, further evidence that in America the majority do not rule. Intelligent people will direct all their attention and energies toward modification of the Volstead Act which defines what shall constitute intoxicating liquor.

Perhaps the number of those who favor the unrestricted sale of alcoholic beverages constitutes only a minority, but a strong minority and when governments do not accede to the demands of their minorities, they are piling up a lot of trouble for themselves. Government by majority works only as long as minority interests are not disregarded entirely. It is better to legislate some compromise measure between the opposing groups than by unfair and unscrupulous measures to attempt to suppress the unwilling minority.

The Canadian system of liquor distribution is perhaps the best method yet devised to handle the liquor traffic. Such a system in this country would certainly satisfy the majority drinking population and would be a fair compromise between those who would have the unrestricted sale of liquor and the extreme Drys. It is unfortunate that we did not try the Canadian system first, before inflicting the prohibition laws upon the country.

Prohibition was a war-time measure. It was designed at first to meet only a war-time situation and President Wilson was unwilling that prohibition should be continued when our hostilities with the Central Powers ceased. But religious bodies and commercial interests brought pressure to bear upon the matter and a state of perpetual prohibition was forced down the throats of the returning soldiers, the proletariat, and all the other members of our complex society. The Republican party, as the champion of prosperity, stood firmly by the Volstead Act.

But since 1920, religious bodies have lost much of their influence and the Republican party has assumed an air of increasing indifference to prohibition. In the last presidential campaign, Hoover handled the little monster, prohibition, with great care. The Wickersham committee too which has just concluded an investigation into the liquor situation in the country, made its report and recommendations with such an excessive amount of gentility that it betrays too well its desire to hurt the feelings of no one.

Bootleggers, rum rackets, bribed officials, and a general lawlessness are disgusting. It is far more sensible to suffer from some of the evils of alcohol than to tolerate a selfish and corrupt government to exist. It is better that the people rule than that an exploiting clique should have control of the government and direct our social affairs. Not until majority desires are actually realized will the evils of the present system of liquor distribution be done away with. Would it not be better too that the liquor that is consumed here be manufactured in this country and become taxable property?

An additional objectionable feature of prohibition is the disgrace which it attaches to the man or woman who drinks liquor. The smart set and the upper bourgois do not recognize this disgrace but it is only this group that doesn't. A large number of our respectable citizens do not care to touch liquor, at least publicly, because they feel that their reputation is at stake. Just as if drinking in itself could be good or bad! Drinking is good or bad only as it affects one's character. If drinking assists to make a man happier, certainly there can be nothing evil in drinking for him. On the other hand, if it causes a man to shirk his responsibilities, then for this man drinking can become a curse. But it is education, and not coercion, that makes men sensible human beings. Statutes alone can not improve men's characters, and class legislation least of all. The desirable thing of course is temperance, but between temperance and prohibition there is a great gulf.

Hypocrisy is rampant among our people at the present time. The people lack courage too. And something terrible has happened to the American mind. It no longer feels itself free! Democracy is the best form of government yet devised. Let's not give it up without a fight!

EDMOUR GERMAIN, '31.

VISITORS FROM VERMONT

(An editorial from the McGill Daily during the recent investigation by Mattison and Smith of U. V. M.)

"A delegation from the University of Vermont is now visiting McGill to investigate our system of freshman initiation. No doubt they have been surprised to learn that there is nothing to investigate. Hazing died a natural death three years ago among the men; the women have carried it along and even last fall inflicted indignities on the freshettes.

The demise of the time-honored rites was timely and seemly. A wide-spread feeling had grown up that the whole business was silly and smacked strongly of the more violent type of college spirit fostered in certain colleges, but tacitly discouraged here. It was felt moreover that there is little weight to the argument that a period of tribulation adds anything to the friendships which may be made in first year. There are uninitiated classes now in the university with far more cohesion within their ranks than one or two of the senior years who came in before abolition.

There has been, of late a weak counter action, which may grow into greater proportions at any moment. One or two candidates have taken the matter up in their platforms; but the great majority of the student body has said farewell to all that nonsense."

ALPHA XI DELTA

Marjorie Huntley, [illegible] born Leicester Junction, November [illegible] 1908, died in Cambridge, Mass., after an illness of several [illegible] February 28, 1931. She was the daughter of Harold B. and [illegible] Smith Huntley. Receiving her preliminary education at Brad[illegible] High School, of which she was [illegible] graduate, she entered the Univ[illegible]sity of Vermont. Here she was a popular student, a member of Alpha Xi Delta fraternity, active in student affairs. Her father and mother were with her a short time previous to her death, which came unexpectedly a few hours later. The bearers at the funeral were five of her own age, the spacious home was crowded with sympathizers and the floral tributes, which were many, gave evidence of the esteem in which Miss Huntley was held. Burial was in the home cemetery at Leicester Junction.

A man is no more noble than the injustices he tolerates.

Baseball Team Is Back From Southern Trip

Catamounts Play Only Five Games On Annual Invasion

Rutgers Is Only Victim While Marines, St. Mary's, Temple and Columbia Defeat Vermonters—Rutkowski Leads in Stickwork With 8 Hits—Team's Batting Average Is .196 and Fielding Average .864

CUMMINGS CREDITED WITH SOLE VICTORY

By Dinny Whitmarsh

Gardner and a rain-weary ball tossers trudged into Burl... Wednesday morning, one day ... the regular schedule. The ... lost four of five games ... this annual southern train... and were rained out of five ... The trip:

...t Marines, rain.
... 1, Marines 8 (Cummings).
... 3, St. Mary's 5 (Cunning...

...t-Navy, rain.
... Georgetown, rain.
... 6, Temple 12 (Rutkowski).
... 5, Rutgers 4 (Cummings).
... 0, Columbia 2 (Rutkow...

...t St. John's, rain.
Vermont Army, wet field.

Cummings was credited with the ... victory of the trip and was also ... with one beating. Cunning... was charged with one defeat and ...wski two. Sargent did not start ... games but was injected into three ... relief hurler. Against the Marines ... worked three scoreless innings, ... Temple two and against Rut... three more. He showed up best ... the trip. Cummings has apparently ... the use of his fast ball ... he did not seem to have last ... but like all left handers, he ... competent on a cold day and was ... in both his southern trip starts. ... total of twelve innings pitched ... struck out 13 men, walked 12, hit ... and used up two wild pitches. Rut... pitched a fine game at Colum... and deserved to win, two bad ... going against him. At Temple he pitched good ball with the ex... of one inning when apparently ... had unlimbered the ball and threw it ... there. Temple liked this sort of ... and in that inning whaled ... all for five hits, including a home ... and tallied five times. Cunning... had Mt. St. Mary's eating from ... hand for five innings and held ... hitless in that time, but he tired ... and was treated to a battering ... the Saint's sluggers in two frames ... has plenty of speed, a fair curve which he did not show enough in that game, but lacks control and perhaps ... power.

The catching department, of course, ... a great improvement over last sea... Charlie Stroh is not hitting the ... ball but otherwise his work was away ... ahead of what he was doing last sea... The surprise, however, was in ... work of Max Kendall, who caught ... Rutgers and Columbia games. The ... little backstop went through the ... games with only one stolen base ... down against him, hit for ... and made fifteen putouts and ... without an error. He fairly ... confidence and takes a nice ... at the ball.

The infield is weak defensively, ... up eighteen errors in the five ... or better than three a game. ... smooth out, however. Baker ... to have advanced perceptibly. ... Macomber's play at second is ... better than was expected and his ... ment in the two closing games ... perceptible. He still hesitates, ... about letting the ball drive. ... Pires is going to be a much ... ball tosser this season than he ... year. He hits at the ball ... and charges in on the play ... of waiting for it to come to ... Eddie Winant is playing a ... game at the keystone, but has ... develop his hitting eye.

The garden seems to be set. Dinni... who went through last season ... dropping a ball, lost two in ... two games but steadied down ... trip progressed. Jay is one of ... best ballhawks in college circles. ... for everything and gets most ... him. He was good for five putouts ... first game and four in the sec... Robinson is just a little hesitant ... getting under the ball and as a ... looked bad in the St. Mary's ...

Vermont 1, Marines 8

Opening against the Marines, the ... mounters played steady ball for the ... part of the game, but had two bad innings. Charley Cummings started to pitch but was wild and the Devildogs got to him for eight runs. Sarge went in and pitched airtight ball to finish. Vermont looked fair afield and turned in two double plays. Frankie Pires and Dinny Dinniman hit well. Jay made a great catch off Freeny in the first inning. Score by innings:

	1	2	3	4	5	6	7	8	9-	R	H	E
Marines	0	1	1	3	1	0	0	0	x	8	9	1
Vermont	0	0	0	0	1	0	0	0	0	1	6	3

Batteries—Couch, Smith and Lustgan. Cummings, Sargent and Stroh.

Vermont 3, St. Mary's 8

A bad sixth inning gave Mount St. Mary's six runs and an 8-3 decision over Vermont. Cunningham started and went good for five innings but tired in the sixth. Again Sargent finished. Dinniman made a great catch in left field off Mulhearn in the first. Rutkowski started a ninth-inning rally with a two-base wallop to left. Score by innings.

	1	2	3	4	5	6	7	8	9	R	H	E
St. Mary's	1	0	0	0	1	6	0	0	x	8	12	4
Vermont	0	2	0	0	0	0	0	0	1	3	7	3

Batteries Valibus, Edlen and Gallens Cunningham, Sargent and Stroh.

Vermont 6, Temple 12

The Vermonters showed how really bad they could play ball against Temple when the Cats kicked the ball around for 14 miscues. The only good points were two doubles each by Baker and Rutkowski. The team, however, has an alibi in the fact that a hard trip was necessary to make connections for the game. Score by innings:

	1	2	3	4	5	6	7	8	9-	R	H	E
Temple	1	1	4	0	1	5	0	0	x	12	9	3
Vermont	0	0	0	1	0	0	0	1	4	6	6	14

Batteries—Melrose, Silver, Dougal and Whittock. Rutkowski and Stroh, Kendall.

Vermont 5, Rutgers 4

Pasting two Rutgers pitchers for ten solid smashes, two of them doubles by Rutkowski the Vermonters turned in their only win of the trip at the expense of the Scarlet, 5-4. Cummings was wild but effective. In the first inning he walked four Rutgers batsmen forcing in a run but he also struck out three. He hit the ball to deep center for what appeared to be a home run in the sixth inning but the wind carried it back into the hands of the racing Grossman. Vermont got its runs in two concerted assaults on Liddy and Thompson. Winant made a fine catch of Baehr's foul fly and converted it into a double play with a great throw to Macomber while Rutkowski made a great running catch of Stager's foul in the fifth. Score by innings:

	1	2	3	4	5	6	7	8	9	R	H	E
Rutgers	1	0	0	0	1	2	0	0	0	4	5	2
Vermont	2	0	0	0	3	0	0	0	0	5	10	1

Batteries — Thompson, Liddy and White. Cummings Sargent and Kendall.

Vermont 0, Columbia 2

A tough break cost Chet Rutkowski a victory against Columbia. The game was limited to seven innings because of the cold weather. Chet allowed only four hits but Landau did better than that, limiting Vermont to two bingles. Columbia scored the winning runs in the fifth. Rivero was safe on an error and was sacrificed by McCoy. Bender hit to Chet who tried to get Rivero at third. Baker apparently had Rivero out at the corner but again the breaks went against Chet and Umpire Eagan ruled him safe. It looked like a bad error on his nib's part. Then when the Sphinx attempted to pitch to Landau he slipped and fell and Rivero trotted home on the balk. Landau pasted a double to center to score Bender. Macomber made a fine play on Rivero in the first, going over behind second to stop his drive and throw him out to Winant with a pretty shot. By innings:

	1	2	3	4	5	6	7	R	H	E
Columbia	0	0	0	0	2	0	x	2	4	2
Vermont	0	0	0	0	0	0	0	0	2	1

Batteries — Landau and Bender. Rutkowski and Kendall.

U. V. M. RIFLEMEN PLACE SIXTH IN BOSTON SHOOT

Only 26 Points Behind Leaders in National Intercollegiate Championship Matches in East

In the fourth annual shoulder to shoulder rifle matches for the national intercollegiate championships held in the Commonwealth Armory at Boston the University of Vermont rifle team placed sixth and 89 points ahead of Norwich which was ninth.

Vermont scored 1,273, 26 points behind N. Y. U. and C. C. N. Y., which tied for first place with 1,299 each.

Sheldon of Vermont was third and Captain Donaldson tied for fourth for the highest individual marks with 271 and 269, respectively. Manin of N. Y. U. and Clark of M. I. T. were high with 274 each. Sheldon of Vermont and Shaw of B. U. were the only ones to make possibles.

Vermont				
Donaldson	97	[illegible]	80	[illegible]
Burke	93	87	60	240
Dunkain	94	88	73	255
Sheldon	100	89	82	271
Wright	96	60	82	238
Total				1,273

Following is a composite box score of the five games played:

	ab	r	h	po	a	e
Jay cf	20	0	1	11	[illegible]	0
Pires ss	[illegible]	[illegible]	4	11	10	0
Winant 3b	18	2	3	17	2	1
Dinniman lf	17	2	4	5	0	[illegible]
Stroh c	11	1	1	9	1	2
Kendall c	9	0	[illegible]	15	1	0
Robinson, rf	11	[illegible]	1	2	0	1
Baker 2b	14	2	3	5	9	1
Macomber 2b	13	0	2	7	10	2
Heaton 2b	4	1	0	[illegible]	[illegible]	1
Rutkowski p	14	2	8	1	13	[illegible]
Cummings p	4	0	1	2	2	0
Sargent p	4	0	1	0	1	0
Cunningham, p.	2	0	0	0	1	0
Totals	162	15	32	118	53	27

Two-base hits—Rutkowski 5, Baker 2, Winant, Pires.
Sacrifice hit—Baker.
Stolen bases—Stroh 2, Kendall, Robinson.
Team batting average—.196.
Team fielding average—.864.

Southern Melodies

Larry: "Keep away from Rutkowski. Chet talks the ear off a brass monkey."

Pires: "Did you hear how I got my black eye? You tell him Sarge."

Larry's war cry: "Warm up Sarge."

Blond hair and black eyes make a marvellous combination, eh Maxie?

The Exchange Club is a great institution. You can exchange coin of the realm for experience anytime.

And what a wonderful job those Vermonters did at the table. Ate everything but the patterns on the plate.

Actually saw Sarge several times on the trip. He was on the train several times and showed up for every game. Outside of that he was on the move.

The Sphinx was over explaining things to the United States Senate and thereby missed the team picture at Washington. Cummings nearly crabbed the mugging at that.

Tom Keady is just as genial and fine a fellow as he ever was. He looks a little peaked and thin right now though, having dropped to about 275 pounds this winter. This Marine life must be a tough racket, Thomas.

With all the eating that the team did on the trip Sabe failed to finish a club steak and Stanley couldn't even get over a club sandwich.

Tom Keady and Larry got together in the barracks at Quantico and boy what a bull session. Larry finally talked the big Leatherneck coach to sleep.

Sabe treated some of the boys to a fine trip to Richmond. Thanks a lot G. M.

QUICK FALLS FEATURE FINALS IN WRESTLING

Only One Contest Goes To An Overtime Period

[illegible] bout featured the final round of the University of Vermont wrestling championship and they ran the [illegible] limit to an overtime period.

[illegible] was in the unlimited class. Both finalists, Hotenstein and Isenberg, hobbled to the mat under weight, each having injured a leg before the match began. Hotenstein secured a brief advantage from which Isenberg wiggled out, and in the closing minutes Isenberg [illegible] the advantage. As neither had a full minute when their 12 minutes were up, Hotenstein reluctantly consented to fight it out and won by a fall in 24 seconds.

Sam Sokolov won the 175-pound championship by bouncing Pratt's shoulders to the mat so quickly the latter got no exercise out of it at all. The fall came at 1:16.

Not so with the Douglass-Newcombe boxing bout, a three-rounder packed with plenty of action. Douglass' longer reach and straight punches seemed to give him an edge on the south-paw.

Peters and Fleming staged a pretty little match for the 145-pound title. Peters won after five minutes by a fall from which Fleming had the experience but not quite the speed to escape.

Bedell and Barron staged a fight which looked interesting in the first round, which ended with Skippy Bedell getting a half dozen good shots home, but the fight was fixed by the boys for the remaining two rounds to judge from the kittleness of their antics.

Lyford captured the 115-pound championship by flopping Shuman in a quick 1:27 tempo.

Don Pierce won the first match of the afternoon from Perelman, whom he felled in 1:54 after one of the hottest struggles ever seen in a U. V. M. tournament. It was hard fast skillful work on the part of both contestants until the winner's big reach enabled him to sew up the bout. They were about even on time when the fall came.

Winthrop and Wasserman staged the only match which ended with a time advantage, and it was one of the classiest on the card. Winthrop won by 2:16. He secured his edge in the first half of the match after some furious work, and then managed to keep standing up for most of the time until the end.

At the conclusion of the boxing and wrestling show, Sigma Nu fraternity was presented with cups earned by winning the interfraternity track championship and the interfraternity relay race. The cup for the latter event now becomes a permanent possession.

ROCKNE GAVE ADVICE ON USE OF TOBACCO

One of Knute Rockne's last letters was written to a school boy who wanted to know the great coach's opinion on the use of tobacco by athletes.

The boy wrote to Rockne while fellow students were writing to other athletic leaders concerning the use of tobacco.

In reply the famous coach said: "My experience has shown that tobacco shows up the reflexes of the athlete, lowers their morale and does nothing constructive.

"Athletes who smoke are the careless type and do not have the best interests of their team at heart."

CATAMOUNT FENCERS FINISH SEASON WITH WIN OVER BOSTON U.

Score Is 8 to 5—Team Is Barely Nosed Out by M. I. T., 9 to 8

SEASON'S RECORD HAS 4 WINS AND 4 LOSSES

By an 8 to 5 score over Boston University at Boston on the first day of the Easter vacation the Vermont fencing team closed its season with a record of four wins and four losses.

The team completed a very successful season in view of the opposition faced and the fact that the team was practically self-coached due to the press of other duties on Mason [illegible].

Captain Julius Perelman and Elmer Wadsworth were the outstanding members of the team, the latter winning nearly every event in which he participated.

The score of the B. U. match:

Epee: Wadsworth, Vermont, defeated Desmond, 5-2; Holmes, 5-0; DiVitto, 5-4; Perelman, Vermont, defeated Smith, 5-0; Holmes, 5-1; DiVitto, B. U., defeated Perelman, 5-2; Bastilicato, 5-4; Desmond, B. U., defeated Bastilicato, 5-4; Holmes, B. U., defeated Musgrove, 5-4.

Epee: Wadsworth, Vermont, defeated Holmes, 1-0; DiVitto, [illegible] Perelman, Vermont, defeated DiVitto, 1-0; Holmes, B. U., defeated Perelman, 1-0.

M. I. T. Wins

The team was nosed out, 9 to 8, by M. I. T. fencers at the M. I. T. gymnasium the previous evening due to a clean sweep by the winners in sabre events. The summary:

Epee: Fragiacomo, Tech, defeated Perelman, 5-4; Musgrove, 5-0; Wadsworth, Vermont, defeated Fragiacomo, 5-4; Kennedy, 5-2; Hamilton, 5-4; Perelman, Vermont, defeated Shellard, 5-0; Musgrove, Vermont, defeated Kennedy, 5-3; McCormack, 5-2; Hamilton, Tech, beat Perelman, 5-2.

Epee: Wadsworth, Vermont, defeated Shellard, 1-0; Shellard, Tech, defeated Perelman, 1-0; Hamilton, Tech, beat Wadsworth, 1-0; Perelman, Vermont, defeated Hamilton, 1-0.

Sabre: Fragiacomo, Tech, defeated Bastilicato, 5-2; Wadsworth, 5-4; Kennedy, Tech, defeated Perelman, 5-1; Wadsworth, 5-3.

The season's record:

Vermont	9	Montreal A. A. A.	8
Vermont	8	McGill	9
Vermont	14	Montreal A. A. A.	13
Vermont	7	Dartmouth	6
Vermont	6	Norwich	11
Vermont	7	Norwich	10
Vermont	8	M. I. T.	9
Vermont	8	Boston University	5

NEWS IN BRIEF

[illegible] H. Wallace as a recent speaker on the program of the local Parent-Teacher Association, discussed three questions: Why do we have schools? What are schools supposed to do for children? And what do schools do?

In the last topic he spoke especially of what should be done for the children in connection with more health education, acknowledgment of the use of facilities, independence, tolerance, co-operation and appreciation of beauty in art, music and nature.

Student vouchers will be on sale at the University Store for the "Pirates of Penzance" today. Reserved seats may be secured for $.75 and $1.00 and can be exchanged for $1.00 and $1.50 later.

Persons desiring to give time to typing of Cynic copy should see the Editor as soon as possible. Pleasant and instructive work, with opportunity of being elected to board.

REV. SMART CALLS FOR RENEWAL OF ENDEAVOR

We are in the home stretch of the college year, stated the Rev. [illegible] minister of psychology at the chapel service Wednesday morning, and if our spirits have sunken and become as we cannot expect to reach our endeavors.

Reverend Smart said that this was the most particular time of the year in which to accomplish our endeavors. We must put ourselves fast and not [illegible] ourselves. It is [illegible] that the things staring us in the face are not seen. They have [illegible] but we not they have only [illegible] had.

Concluding his address Reverend Smart said that in the home stretch of the year we must put one foot ahead of the other and keep our resolves as the next seven weeks flash by.

CORRECTION

At the U. V. M.-N. Y. U. debate held at Charlotte, March 20, on the free trade question, N. Y. U., maintaining the affirmative side, won the audience decision on the strength of their arguments.

This is in correction of the report of the March 24 issue which stated that U. V. M. won the debate.

All sophomores wishing to scrub the business side of Wig and Buskin should meet with J. W. Marvin Wednesday afternoon, April 15, at 4 o'clock in Old Chapel.

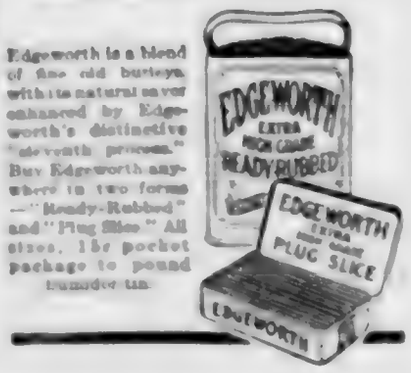
McGILL UNIVERSITY
Montreal - - Canada

The FAVORITE tobacco of the Dartmouth man is . . .



IF you want to know the Dartmouth man's favorite tobacco, watch him as he loads his pipe between classes in front of Dartmouth Row. Watch him as he strolls along Wheelock Street and pulls the familiar blue tin of Edgeworth out of his pocket.

A pipe and Edgeworth—this is the smoking combination that has won the college man. Harvard, Cornell, Michigan, Stanford, Illinois . . . all agree with Dartmouth. Natural merit has made Edgeworth the favorite smoking tobacco in America's leading colleges and universities.

College men everywhere respond to the appeal of pipes packed with cool, slow-burning Edgeworth. Be guided by their choice; try Edgeworth yourself. Taste its rich natural savor that is enhanced immeasurably by Edgeworth's distinctive "eleventh process." You will find Edgeworth at your nearest tobacco shop—15¢ the tin. Or, for generous free sample, address: Larus & Bro. Co., 105 S. 22d St., Richmond, Va.

EDGEWORTH
SMOKING TOBACCO

Edgeworth is a blend of fine old burleys with its natural savor enhanced by Edgeworth's distinctive "eleventh process." Buy Edgeworth anywhere in two forms—"Ready-Rubbed" and "Plug Slice." All sizes, 10c pocket package to pound humidor tin.

NATIONAL COLLEGE DAY HAS VERMONT DISPLAY

Displays of banners, photographs, [illegible] and other material from the University of Vermont for the information of women contemplating entering college next fall were a part of the annual "College Day" program presented by the American Association of University women in Washington, D. C. The exhibit was in charge of Dorothy Cottrell, '29, and was one of twenty-six college displays.

The women graduates of U. V. M. presented to the club as a permanent house possession an autographed photograph of Mrs. Calvin Coolidge, which was formally presented by Miss Cottrell at the "College Day" dinner, attended by 200 guests, among them many women notables of Washington and Baltimore.

The photograph hung in the Vermont booth over a gold background with green strips on each side. Many stopped to see the picture but stayed to inquire about and admire the fine photographs of the campus, buildings, dormitories and activities.

Those on the Vermont committee besides Miss Cottrell were Mary J. Simpson, '13; Maude Casey James, '17; Jessie Tracey Chandler, '15; Anna L. Orton, '20, Alma C. Eggleston, '09; and Jeannette A. Chapin, '07.

Among the twenty-six colleges to participate were: Bryn Mawr, Wooster, Elmira, Cornell, George Washington, Goucher, Knox, Lake Erie, Mount Holyoke, Oberlin, Redcliffe, Stanford, Swarthmore, Trinity, University of California, University of Michigan, Vassar, Wellesley, Western Reserve, Wilson, University of Vermont.

Cool
All the Way Down

IF YOU inhale, you can quickly tell the difference between fresh and stale cigarettes. A Camel, protected by the Humidor Pack, retains its natural moisture, and gives you a cool mild smoke. But when you draw in the smoke from dried-out stale tobacco, it's hot and irritating to the throat.

If you haven't discovered this difference, we suggest you switch to Camels for just one day. Then leave them tomorrow, if you can.

VOLUME 49 | BURLINGTON, VERMONT, TUESDAY, APRIL 14, 1931 | NUMBER 47

Cynic Announces Contest For Most Beautiful Co-ed

Selection of Winner by Popular Student Preferential Ballot to Constitute New and Colorful Feature of Junior Week

JUDGES TO ANNOUNCE QUEEN OF JUNIOR WEEK

As a distinct, unique and colorful feature of the 1931 Junior Week festivities the Cynic will sponsor a beauty contest to ascertain by popular student ballot the woman from among the four classes who best exemplifies feminine beauty and personality.

Voting which will begin soon, following an announcement of details and regulations will be in two preferential student ballots followed by a selection of the winner from the three highest by a board of faculty judges.

Prizes appropriate for the occasion and acceptable to the winner will be presented gratis by several local stores. The rules will govern qualification of the participants, casting and counting of ballots, and points of consideration in selection of the most beautiful woman at Vermont.

The winner of the first prize will be named Queen of Junior Week and will be announced at the Junior Prom following her selection by the board of judges.

The prizes, judges and minor details will be announced later. The prizes will be expensive and the judges impartial.

CHRISTIAN ASSOCIATION PROMOTES VARNEY TO POSITION OF CHAIRMAN

V. C. A. Elects Seven New Men and Three Former Officers to Ten Positions

R. I. Varney, '32, of Bristol, was [illegible] chairman of the men's student [illegible] the Vermont Christian Association at its annual business meeting held in the office Friday afternoon, April 10.

In addition to the above officer nine [illegible] who have either served in some [illegible] of the cabinet or been other [illegible] were named to positions [illegible] ratification by the faculty [illegible] board of the Vermont Christian Association. Upon the approval [illegible] the new cabinet will immediately assume the responsibilities [illegible].

The other men elected by the cabinet [illegible]:

[illegible] Chairman, J. C. Carter, '32, East [illegible] editor-in-chief of the Cynic, [illegible] L. N. Brock, '33, of South [illegible], a member of Zeta Chi fraternity; secretary, W. P. Stetson, '34, of New Haven, Conn., and a member of Sigma Delta fraternity; director of [illegible] F. B. Drew, '33, of Randolph, [illegible] editor-in-chief of 1935 Handbook, news [illegible] of the Cynic, treasurer of Eta Sigma Phi and a member of Lambda Iota fraternity; director of entertainment S. K. Carter, '33, of East Corinth, [illegible] assistant editor of the Cynic, director of Freshman Camp, former student [illegible] secretary of the cabinet and a member of Lambda Iota; director of [illegible] World Education, W. N. [illegible] '34, of Amsterdam, N. Y., a Phi Delta Thet; director of church [illegible] L. L. Woodward, '33, of [illegible] and a member of Phi Mu Delta; director of student service, D. [illegible] Wooster '33, of Burlington and a member of Sigma Alpha Epsilon.

WCAX BROADCASTS "PIRATES" SELECTIONS

Eight selections from "Pirates of [illegible]" the University comic opera to be presented next Thursday, were broadcast over radio station WCAX [illegible] Friday evening at 7.30. The remainder of the program consisted of [illegible] members of the University Extension Service. The detailed program was as follows:

7 p.m. Solo selections from "Pirates of Penzance" by Gilbert and Sullivan to be presented by the U. V. M. Glee Clubs and Orchestra, April 16.

1. When Frederick Was a Little Lad," Mailla Putnam, mezzo soprano.
2. "Oh, Better Far to Live and Die," W. E. Morgan, Jr., bass.
3. "Is There Not One Maiden Best," R. H. Allbee, tenor, with chorus of girls.
4. "Poor Wandering One," Dorothy Fowler, soprano, chorus of girls.
5. "Am the Very Pattern of a Modern Major-general," A. A. Scharbius, Jr., baritone, with chorus.
6. "When a Felon's Not Engaged in His Employment," Benjamin Baker, bass.
7. "Oh, Dry the Glistening Tear," chorus with solo by Charlotte Odell, soprano.
8. "Climbing Over Rocky Mountain," chorus of girls, with solos by Catherine Skinner, mezzo soprano, and Priscilla Perry, alto.

7:30 p.m. Talk—"Assistance in the Marketing of Milk and Milk Products," H. W. Smith, Jr., College of Agriculture.

7:45 p.m. Talk—"Growing the Chicks," A. W. Lohman, Extension Poultryman, Extension Service.

8 p.m. Talk—"Reducing Costs in Milk Production," E. H. Loveland, Extension Dairyman.

TWO POSITIONS OPEN FOR DIRECTORSHIPS OF NEXT FRESHMAN CAMP

Carter Calls for Scrubs to Become Assistants on 1931 Program

"We want men who are interested in obtaining positions as assistant directors of the Freshman Camp this fall to begin work immediately by aiding in the program and securing of speakers and equipment," stated S. K. Carter, director of the 1931 camp in a recent interview.

"The fourth annual Freshman Orientation Camp" be continued will be held the week-end before the formal opening of the University at Camp Abnaki on North Hero Island. All members of the incoming freshman class are invited to attend. This camp is sponsored by the Vermont Christian Association and is held for the purpose of acquainting the freshmen with the college and its extra curricula activities. The camp program will consist of talks by professors and student leaders on subjects which will be of interest to the new student. Recreation will be in the form of various kinds of sports such as swimming, boating, hiking and tennis.

The topics to be discussed will embrace fraternities, college life and extra-curricula activities. Anyone wishing to scrub the directorship of the camp may see Carter at the Owl House. Two assistant directors for this year's camp will be chosen from the scrubs. These scrubs will be eligible for the directorship next year.

ARIEL WILL BE READY DURING JUNIOR WEEK

Without a doubt the copies of the 1932 *Ariel* will be ready for distribution by Junior Week. According to a recent press announcement by the editors, practically all copy was handed in before the Easter recess and by the time this article goes to press the small part that remains will undoubtedly be ready with the exception of a few minor things. The committee has been greatly hampered by the lack of cooperation shown by the seniors in failing to hand in their honor lists. Unless the seniors attend to this matter at once it will mean that their lists will have to be taken as they appeared in last year's *Ariel* with the result apparently that any new honors will have to be omitted. Originality and novelty will be a noticeable feature in the publication this year.

FOUNDER'S DAY PROGRAM WILL INCLUDE SPEECHES ANNOUNCEMENTS, PARADE

Stone, Bradish, Barker to Be Orators on Program with Boulder Exercises

PRESIDENT BAILEY TO ANNOUNCE MEN ELECTED

With President Bailey [illegible] Mason S. Stone will [illegible] Alumni [illegible] Founder's [illegible] Samuel Barker the Junior orator [illegible] [illegible] will announce their [illegible] elected members the Boulder Society through [illegible] members will hold several exercises at the boulder before the Old Mill while the University R. O. T. C. battalion stands by in full color to [illegible] Founder's Day, May 2.

In sponsors this year [illegible] an extract nearly half [illegible] March Stone the alumni speaker is prominent in state affairs and is now serving as [illegible] of the University. John Bradish, the senior orator, gave the [illegible] oration at Founder's Day last year and is a varsity debater. Samuel Barker, the junior orator, is a veteran of several oratorical contests, having participated in Kingsley Prize Speaking last year.

The three class honorary societies Boulder, senior, Key and Serpent, Junior and Gold Key sophomore will announce the lucky new men who will carry on the work of the societies during the coming year. The Boulder Society will also hold several exercises at the historic boulder.

The R. O. T. C. battalion will form on the back campus whence it will march to the boulder and form a hollow square. The presence of the men in uniform will do much to add to the color of the ceremony. In case of inclement weather all the exercises will be transferred to the Ira Allen Chapel and the battalion will not form.

FRESHMAN HANDBOOK IS TO TAKE FORM BY JUNE

All freshmen and sophomores who wish to scrub the *Frosh Handbook* report to me as soon as possible during the coming week," announced Fraser Drew, '33, newly elected editor-in-chief of the 1935 *Freshman Handbook* in a Cynic reporter's interview. Work will begin at once and the two scrubs who turn in the most and best work will be chosen assistant editors. I intend to get as much of the copy complete and ready for the printers before the summer vacations."

When asked about the proposed plan and arrangement of the book the editor stated that no major changes would be made and that he intends to follow in main the plan of last year's book which was edited by Joseph Carter, present editor-in-chief of the Cynic. He expressed the opinion that there would be great opportunity for scrubs to accomplish good work on it and becoming assistant editors. All those desiring to do so may communicate with him through the Cynic office or at the Lambda Iota house.

The *Freshman Handbook* is published each year about the middle of August and mailed to all enrolled freshmen at the University. It contains sources of valuable information concerning the University and school life as it present itself to new freshmen.

This excerpt from last year's editorial foreword suggests the purpose of this publication. "The Vermont Christian Association presents this handbook to you as a guide to the religious, social, literary and athletic sides of your college career."

Contained in it are the University and Social Calendars of the ensuing year a brief history of the University, names and locations of the various fraternity houses on the hill, names of individuals prominent on the campus, the heads of different honorary and activity societies, an outline of the Freshman Camp at Abnaki and general information about securing rooming and boarding places in the city.

Extremely valuable is the editorial advice concerning fraternities in connection with school life. This aids in acquainting students who have never had any experience with brotherhood societies with *pro* and *con* of the question of joining one. A complete list of the rushing rules is also included.

Strongest Cast In Years To Present Spring Operetta

Veteran Cast to Figure in Gilbert and Sullivan's "Pirates of Penzance," Thursday

SIXTH PRODUCTION OF VT. MUSIC DEPARTMENT

[illegible] one of the strongest [illegible] in years which is [illegible] annual presentation [illegible] Charles Paul Howard [illegible] Pirates of Penzance," the concert and stage [illegible] the fifth production [illegible] the music department to be presented by the Men's and Women's Glee Clubs, assisted by the University orchestra, at the Strong Theater, Thursday evening at 8:15 p.m. and for which tickets are now on sale in the gymnasium at seventy-five cents and one dollar apiece.

The leading roles will be played by Dorothy E. Fowler '31 of Hartford, Conn., as Mabel, General Stanley's youngest daughter, and by R. H. Allbee '31 of Springfield, Vt., as Frederick the Pirate apprentice and hero of the play. Included in the cast of major characters are M. R. Jones '32 who portrays Samuel Richards; Llewellyn R. S. Jenks '32 who takes the part of the Pirat Pirate Mailla Putnam '32 as Ruth the piratical Maid-of-all-works; W. E. Morgan Jr. '32 as Richard the Pirate chief; Katherine Skinner '32, Charlotte Odell '32 and Priscilla Perry '32 as General Stanley's daughters, Edith Isabel and Kate and A. A. Scharbius Jr. '32 as General Stanley and R. Baker '31 as Edward a sergeant of police.

Chorusses Assist

The foregoing cast is supported by the chorusses who take the part of General Stanley's daughters, pirates and police men. They are as follows:

General Stanley's daughters: Ruth Buxton '32, Elizabeth Dickens '34, Sylvia Farnham '32, Ethelyn Foster '32, Irene Hall '32, Sylvia Holden '32, Helen Jenkins '34, Allbene M. Nall '34, Elizabeth Mandigo '32, Dorothy Nash '31, Agnes Parsons '32, Gene Petze '32, Dorothy McSweeney '32, Ruth Tarleton '34, Helen Taylor '31, Betty Wallace '32 and Eleanor Willes '32.

Pirates: S. H. Caroles '34, R. F. Colburn '33, C. B. Harwood '34*, D. C. Hazen '32, J. H. Jardine '34*, D. W. Jeple '34*, G. M. MacKenzie '34*, W. J. Millet '34*, W. J. Patten '31, N. H. Press '32, E. B. Rand '31*, G. O. Ricker '34, R. H. Russell '34, J. Schwartz '31, J. C. Shoor '33*, J. G. Gordan '32*, G. L. Davis '34*.

*Policemen also.

Orchestra Will Play

Members of the orchestra who will assist the glee clubs are: Violins: Miss Charlotte deVolt concert master, Irene Marcotte '30, S. R. Barker '32, Effie Winn '32, Florice Morch '32, D. E. Bennett, Jr. '34, Violoncellos: Ruth Wood '34, Esther Wheeler '31, Laura Tracy '34, Flutes: Elizabeth Eckhard '32, A. F. Whitney '33, Clarinet: F. W. Householder, Jr. '32, Trumpet: C. F. Heath, Jr. '34, Piano: Katrina Munn '32.

Cast Work Hard

Rehearsals are being held every day in the music building and the University gymnasium. Prof. J. T. Metcalf is dramatic director and costumes are arranged for by Mrs. Isabell Mills and Miss Mary Maud Patrick. Mrs. Mills also has charge of properties and Mrs. Elizabeth Bradish and Miss Annie Baldwin are serving as vocal coach and dancing director respectively.

The entire student management of the opera consists of Agnes Parsons '32, president of the Women's Glee Club; Ruth Buxton '32, manager; Evelyn DeBruno '32 in charge of posters and R. S. Jenks '32, manager of the Men's Glee Club.

History

"Pirates of Penzance" the first act of which was written in the United States was first presented in New York City at the Fifth Avenue Theater December 12, 1879 under the personal supervision of Sir Arthur Sullivan and Mr. W. S. Gilbert. It is known as the first of the famous Savoy series and contains distinct English characteristics.

The American song "Hail Hail the Gangs All Here" originated from the song of different title sung in full by the Pirates in the course of the opera.

WOMEN DEBATERS BEAT PEMBROKE COLLEGE BUT LOSE TO B. U. AND N. Y. U.

Uphold Negative Side of Question on Adoption of Unemployment Insurance by the States

FOURTH DEBATE OF THE SCHEDULE IS CANCELLED

Vermont's women forensicists who have just returned from a week's tour of New England and New York state, they encountered Boston University, Pembroke College at Providence, R. I. and New York University, met with almost as much success as the men's team as they won one-third of their debates.

The women debating team composed of Roberta Lescure '32, Laura Johnson '32, Caroline Pafi '31 and Sophie Levin '32 upheld the negative side of the question: Resolved that the several states should adopt unemployment insurance, in all their debates. They were successful against Pembroke College where they won a three to nothing decision of the judges. Against N. Y. U. they were forced to accept but one judge on debate no decision as two of the judges failed to put in an appearance. It was the strength of the N. Y. U. rebuttal that turned the tide of battle away from the Vermont leaders because up until the rebuttal the teams were evenly matched. This was revealed by the time judge after the debate as she had used a point system in rendering her decision.

The debate with New Jersey State College for Women was for some unknown reason cancelled at the last minute. The other debate on the schedule was with Boston University which won a three to nothing decision against the Vermont women.

At a recent meeting of the alumni clubs in Chicago and in Washington, Assistant Dean Swift and W. H. Crocket editor of University publications respectively were guest speakers.

assisted by the police at the back part of the stage.

Two Acts

The opera has two acts with the first act opening upon a scene off the rocky coast of Cornwall. The pirates of Penzance are noblemen gone wrong who can't make piracy pay because they spare anyone who says he is an orphan. Frederick the slave of duty, was to have been apprenticed to a pilot according to his father's will, but Ruth his nurse misunderstood the word and apprenticed him to a pirate remaining as a piratical maid-of-all-works.

His apprenticeship over Frederick wishes to return to civilization. Ruth wishes to marry him but Frederick is not sure that she is beautiful never having seen other women. General Stanley's daughters approach. Frederick and Mabel the youngest daughter fall in love. The pirates capture the daughters but General Stanley pretends he is an orphan and is released.

Act Two

In act two the scene shifts to a garden outside a ruined chapel by moonlight. Ruth and the Pirate King have discovered that Frederic was bound to the pirates till his twenty-first birthday and that he was born on February 29. Frederic's sense of duty compels him to rejoin the pirates, and to reveal General Stanley's deception. The Pirate King swears vengeance. The pirates attack the policemen defend. The pirates are victorious, but yield when the police sergeant bids them in the name of the king. Ruth reveals the noble origin of the pirates whereupon all now kneel to the pirates and General Stanley withdraws his objections to them as sons-in-laws.

CANDIDATES FOR FROSH BASEBALL TEAM START PRACTICING FOR SEASON

Thirty Players Report to Coach on First Day—To be Keen Competition for Positions on Squads

OPENING GAME TO BE ON MAY 2 WITH T. C. A.

[illegible] coach of the freshman baseball team, issued a call for candidates which some thirty aspirants answered last Thursday with encouragingly clouded batting [illegible] Preliminary practice consisting of batting and pitching to Hill for the first day. [illegible] look good and the team has a successful season seem[illegible]

[illegible] battery several promising men have reported. Spicer and Burnham of Essex Junction and Beckley of Northfield, Ill., on the hurling end [illegible] Essex Junction on the receiving end showed up well in practice [illegible] Jim Smith, Cogswell and Hill showed their hitting ability [illegible] messing up the good ones and knocking them out for bingles. [illegible] have taken a sad toll among the promising candidates. Winters, Williams, Adams, and Donahue are out for positions and there seems to be plenty of competition [illegible] Uniforms will be distributed in a short time.

The schedule of the frosh team is as follows:

- [illegible] T. C. A., home.
- [illegible] Dartmouth frosh, there.
- [illegible] Clark School, there.
- [illegible] Vermont Academy, here.
- [illegible] Vermont Academy, there.
- [illegible] T. C. A., there.

RADIO CLUB WILL MEET TO PLAN FOR FUTURE

[illegible] post-vacation meeting of the University Radio Club will be held in the radio building on Wednesday [illegible] at four p.m. At this meeting will be discussed the proposed [illegible] of the club for the remainder of the school year. Code classes will be reorganized, and reassignments of [illegible] operators as instructors of [illegible] made. All members of the club are requested to be present.

The transmitter in present use by [illegible] is working very successfully. It is a rather low power, having but [illegible] tube, but it seems to "kick [illegible] well. If enough time can be taken from studies, the eighty [illegible] fifty-watt set will be finished [illegible] in operation. The present set is attuned to a wavelength of forty [illegible] which seems to be good only [illegible] the daylight hours. When night comes, there appears what is known as the "skip-distance" effect. Stations comparatively nearby are no longer audible, while those eight hundred or a thousand miles distant and [illegible] are very loud. If the set had a greater power rating it would most likely be possible to get into communication with these distant stations. Quite often the operators on duty have succeeded Pacific Coast amateur stations "coming in" with the same intensity that a station five miles away [illegible] now in the daytime.

When the construction of the eighty [illegible] set has been completed, it will be necessary to erect an eighty metre experimental antenna. As this is [illegible] of a difficult undertaking, it will not be put off as long as possible.

WILL APPOINT THREE U. S. N. A. ALTERNATES

Senator Partridge has informed [illegible] Swift of the Arts and Sciences office that he is to designate three alternates (the principal having already been named) for appointment to the United States Naval Academy. The men must be natives of Vermont, under twenty years of age; they will be obliged to take the examination for entrance to the Academy on or about April 15. In case the principal fails to pass these and the first alternate succeeds, the first alternate will be appointed; if the principal and first alternate fail and the second alternate passes, the second alternate will be appointed and similarly for the third alternate.

Anyone wishing to be considered should hand his name in to Professor [illegible] at once.

Why She Came Back

Dean of Women: Did you read the letter sent you?

Shipped Soph.: Yes'm. I read it inside and outside. On the inside it said: You are requested to leave college. And on the outside it said, Return in five days, so here I am.—*Old Dominion*

Intercollegiate News

Coaches Barred from Bench

Coaches of teams in the Eastern Intercollegiate Baseball League will be barred from the bench in all conference games this year and play will be directed by undergraduate captains. Announcement to this effect was made recently by Ellwood W Kemp Jr. secretary-treasurer of the organization which includes Yale, Princeton, Pennsylvania, Columbia, Cornell and Dartmouth.

Doctor Kennedy feels that running their own games under graduates will develop self-reliance and enjoy the games more as well. The idea is part of Doctor Kennedy's policy of working toward the point where all college athletics will be more directly in the control of undergraduates.

In the "coachless" games last year the various captains conducted play just about the way the coaches would have run it. In at least one instance a captain—Bart J. McDonough, of Dartmouth withdrew himself from a batting rally in favor of a substitute batter he deemed more effective. The pinch batsman hit and the game was won.

Coachless baseball was tried once before in the East, but only in one series—the meeting between Yale and Princeton in 1916.

Members of the executive committee of the Eastern Intercollegiate League described Doctor Kennedy's plan as a progressive principle, and expressed satisfaction that all teams would be on an equal basis in the working out of this idea this year.

No Rule Changes in Basketball

Faced with nearly a score of suggestions for changing basketball rules, the National Association of Basketball Coaches in its closing session at the Hotel Astor in New York failed to pass along to the joint rules committee one recommendation to alter the rules.

Rejecting some proposals outright, tabling others and referring still more to the research committee, the convention finally took the stand that the game was quite satisfactory in its present condition.

But this decision was not reached without hours of debating and controversy as nearly every disputed point came in for its share of discussion.

After prolonged debate, during which the East accused the West of sponsoring rough play and the West declared the East had organized the "block," it was decided to pass the buck to the rules body at its meeting here next month.

It was decided that the onus for "stalling" will continue to rest on the defensive side, whether it is ahead or behind in the scoring.

The coaches voted not to change the center jump, not to establish a "center zone," not to penalize teams reporting late, to permit the jumping center to keep both arms free and not to cut the time-out allowance from two minutes to one.

A proposed rule that a dribbler be allowed only one bounce was rejected unanimously, and no action was taken toward improving the present method of handling out-of-bounds balls.

Athletes at Middlebury

Fifty-five percent of the eligible men in the student body of 352 at Middlebury College represent the college on a varsity team, according to statistics released recently by Professor Arthur M. Brown, director of athletics and coach of track. The figures also show that Professor Brown's program of athletics for all undergraduates has been highly successful in the field of intramural sports, so that a total of over 89 percent of the men students are actively competing on some organized team, though computation of non-team members playing tennis, golf, and other individual sports is not included. A count of these men would doubtless bring the percentage close to the one hundred mark.

Track claims the largest number of team members among the varsity sports with eighty-five men out or 42 percent of the student body. Football is next with forty-two players, or 18 percent, and basketball and hockey follow with 27 and 26 respectively, approximately 11 percent each. Baseball, the fifth major sport, only calls out about 9 percent.

Intramural basketball has the largest number competing in any one sport, with one hundred twelve in action, or a total of 34 percent of the students. Interfraternity baseball gets eight-six men, or 26.4 percent of those eligible, but interfraternity track with seventy-four has a higher percentage of about 28, since all varsity contestants are ineligible.

The winter season, when the golf links and tennis courts are not in use, puts the largest number of men on the teams, a total of 83 percent competing. In the spring 64 percent of the students take part in the intramural sports program, exclusive of those in varsity athletics and in individual or non-competitive athletics.

The prisoner's life isn't all dreary. He gets a big thrill when the next cell is occupied by the judge who sent him there.

Gun-girls End Season of Wins

In Final Week Eight Girls Shoot Perfect Scores in Matches Against Louisiana, De-Pauw, Iowa and Utah

[illegible] girls' rifle team [illegible] the University of Vermont women's rifle team ended its [illegible] season [illegible] gun.

[illegible] Participated [illegible] in eight perfect scores, the University of Vermont women's rifle team ended its [illegible] season [illegible] gun.

[illegible] Participated [illegible] in eight perfect scores for a team average of perfect scores for [illegible] up an excellent possible for the week. One [illegible] missed a shot in the last twenty-eight matches in which she participated.

The Vermonters topped in 20's in a [illegible] match with Louisiana State University. This is believed to be the highest ever reached in any such match and betters their own previous high of 99.

The girls who contributed possibles to that record were Esther C. Bigelow, Dorothy Nash, Alice C. Dodge, Edith G. Pritchard, Daisy M. Putnam, Evelyn Slayton, Esther C. Smith and Loveda Walker. Nellie M. Chase and Margarite Dunsmore hit 99 each, the latter's miss coming on her last shot. The other five who fired, but whose scores were not high enough to count, were Hersom 99, Goss, 98, Thomas 98, Marsh 97, and Murray, 95.

Against DePauw, the perfect score of 500 was made by Nash, Putnam, Pritchard, Slayton and Smith. Those shooting the 500 against the State University of Iowa were Bishop, Nash, Pritchard, Slayton and Smith, and the 500 mark against the University of Utah was made by the latter group of girls.

This year, four girls bettered the season average mark of 99.0, established last year by Dorothy Gurney of Burlington. Miss Pritchard, the national champion, averaged 100 in twenty-eight matches; Miss Slayton 99.8 in twenty-seven; Miss Smith 99.7 in twenty-one, and Miss Bishop 99.5 in twenty-six. The latter is the manager and Miss Smith her assistant.

Society Notes

KAPPA ALPHA THETA

A reunion in the form of a luncheon bridge was held at the home of Miss Helen Taylor, '31, Montclair, N. J., on March 31. A reunion was also held in Boston at the Brick Oven Tea Room on April 4.

DELTA DELTA DELTA

Roberta Powers, '32, has been elected delegate to the national convention to be held in Quebec next July.

Roberta Powers, '32, Catherine Fay, '32, and Laura Johnson, '31, visited Alpha Chapter in Boston while on the recent debating trip.

ALPHA CHI OMEGA

Clare Sank Candy, '25, and Marion Baldwin, '29, spent a few days in Burlington during vacation.

KAPPA DELTA

Rosena Allen, '30, of Vergennes visited the chapter on April 2.

EPSILON SIGMA

Miss Gertrude Nicholson, '29 was recently married to Mr Guy Richard of Shoreham. The wedding took place in Middlebury.

"PLANT FOREST TREES SOON," SAYS J. G. WEIR

The best time for planting forest trees this year is not far away, says J. G. Weir, Extension forester of the University of Vermont and State Agricultural College. "Trees may be planted in the spring from the time the frost leaves the ground until the buds start to open."

Mr. Weir goes on to state that the time for planting will vary with the season, elevation and direction the land slopes. Planting will usually be finished by the middle of May.

"Anyone intending to order trees for planting in Vermont this spring," he says, "should send their order in the near future to the Vermont Forest Service at Montpelier. The trees are sold at a reasonable price."

Practically all of the non-agricultural land in Vermont Mr. Weir points out is adapted to the growing of forest trees. While some of this land that has a sufficient number of seed trees per acre will seed in naturally there is much of the land that needs to be planted.

Because they boasted publicly of breaking all of the freshman rules two first year men at Dickinson College have had their hair shaved off by members of a sophomore vigilance committee.

Well well well. The Rollo boys at Dickinson.

Happy freshmen! Only four years more and their education will begin.

Vermont Baseball Team to Embark On Second Invasion

Will Go On Three-day Trip This Week—Springfield, Wesleyan and Brown to be Opponents—Latter Two Are Newcomers to Vermont Schedule

NO CHANGE EXPECTED IN REGULAR LINE-UP

[illegible] this week the Catamounts baseball team will set out on the annual trip of the season. The first stop will be at Springfield, Mass., where the Vermonters will play the Y. College nine [illegible] city on Thursday. On the following day the team will [illegible] Wesleyan at Middletown, Conn., and next Saturday a game with the [illegible] Brown University at Providence, R. I.

All games of these opponents had been [illegible] previous to this campaign. Vermont will have a slight edge [illegible] of the four that [illegible] games have already been played. The Southern trip, second as a training spring schedule, [illegible] and could hardly [illegible] considerable [illegible] pitching ahead if some of them [illegible] pressed in that capacity.

Although the Catamounts played rather erratic baseball in the first games of the season, they showed signs to steady down and show improvement. On this trip the team will be able to profit from the training gained from the southern trip.

Wesleyan and Brown are new [illegible] on the Vermont baseball schedule. The latter may give the team some strong opposition but the former is not expected to give the Catamounts much difficulty.

The game with Springfield on Thursday will probably be the hardest contest on the three-day trip. The "Y" College is known for the prowess of its athletic teams and has always been a strong rival of Vermont. Last year Springfield beat the Green and Gold nine 4 to 3.

Coach Gardner is expected to use practically the same line-up that he took on the Southern trip. This consisted of Winant at first; Macomber, second base, Baker, third; and Pree, shortstop. In the infield. In the outfield there will be Jay, Dinniman and Robinson. Cummings will probably be on the mound to face Springfield with Kendall receiving.

VERMONT PLACES THIRD FOR N. E. RIFLE TITLE

With a record of five victories and only two defeats the University of Vermont team placed third in the National Rifle Association matches for the 1931 New England championship in the final week of firing the Catamounts won over Cooper Union by a score of 1,332 to 1,279.

By defeating Massachusetts Institute of Technology their closest competitor, by a score of 1,384 to 1,376, the Norwich marksmen became the undefeated title-holders in the New England Intercollegiate Rifle League.

Defeated only by Norwich, M. I. T. finished second in the league race. Vermont was third with two defeats, followed by Conn. Aggies, Boston University, Worcester Tech, Cooper Union and Rensselaer.

Besides the Vermont and Norwich victories over Cooper Union and M. I. T. respectively, the last week of the [illegible] gave wins to Conn. Aggies over Rensselaer, 1,331 to 1,048, and to Boston University over Worcester Tech, 1,360 to 1,269.

The final standing follows:

	Won	Lost	Pct.
Norwich	[illegible]	[illegible]	[illegible]
M. I. T.	[illegible]	[illegible]	[illegible]
Vermont	[illegible]	[illegible]	[illegible]
Conn. Aggies	4	[illegible]	[illegible]
Boston University	3	4	.429
Worcester Tech	1	[illegible]	[illegible]
Cooper Union	1	6	.143
Rensselaer	0	6	.000

WORRELL, CHAIRMAN OF SENIOR WEEK, ANNOUNCES COMMITTEE MEMBERS

Stanley, Woolson, Davis, Brush, Mattison, Huey, Codding, and Butterfield to Speak

CLASS TREASURY NOT TO PAY FOR BOATRIDE

[illegible] W Worrell, president of the [illegible] 1931, and recently elected [illegible] of Senior Week, has ap[illegible] the following committees for [illegible] Commencement Week exercises:

CLASS DAY—R. J. Maines, chairman, R M Huey, W S Heaton, E A. [illegible]th, Lorraine Guillett, Dorothy [illegible], Rebecca Seaver.

SENIOR BOATRIDE—F. J. Reed, chairman, J. A. Bradish, W. C. Brasor, [illegible] Davis, Jean Wappler, Frances [illegible] Koch.

PIPE—Harold W Adams, chairman, [illegible] Willets.

CLASS WALK—E. M. Codding, chairman, L. L. Jones, Jr., Isabelle Wadhurst, Grace Ross.

GOWNING STATUES—G. R. Brush, chairman, S. S Corbin, Margaret [illegible], Helen Taylor.

BANNER—Georgina Hubert, chairman, R E. Tobin, R. H. Cowles, Edith [illegible]son, Elizabeth Cory, Ruth Field.

SENIOR PROM—F A. Bolles, chairman, C N Crockett, Marjorie Bracken, Margaret Rice, Alice Dodge.

CANE—W. E. Craig, chairman, R B Aiken, Harriet Johnston, Carolyn Whitney.

QUESTIONNAIRE—F. A. McBride, chairman, G. R. Nelson, H. R. Matteson, Harriet Wright, Barbara Douglas, Agnes Shaw, and Lena Cochrane.

Harvey Butterfield is the financial manager of Senior Week. Margaret Stanley will give the class history, and Mary Woolson the class poem, George Brush will deliver the campus oration, Hugh Mattison the pipe oration and Janice Davis the ivy oration. Robert Huey will give the address to undergraduates, Ernest Codding the address to Ira Allen and Harvey Butterfield the address to Lafayette.

The senior class has decided that the class treasury shall not be responsible for the senior boatride this year, and that in order to hold the ride a sufficient number of students must certify their intentions of going. It is open for any University student.

Faculty-Student Council Meets This P.M. To Hear Investigation Reports

Detailed reports from the Intercollegiate Freshman-Sophomore Relations Investigation Committee will be heard and considered by the Faculty Student Council which will meet this afternoon at 4 [illegible] in the Marsh room of the College Library. All the members of the committee will be present and Chairman Cowles will present the report.

(Continued on page 4)

JOHN DEWEY CLUB TO CONSIDER PROPOSAL FOR REORGANIZATION

Departmental Club May Become an Honorary With Limited Membership

After nearly four years of activity open to the interest of every student at the University of Vermont, the John Dewey Philosophy and Psychology Club will at its next business meeting, April 28, vote upon a proposed plan for its reorganization into an honorary departmental club limiting its membership to those students who have averaged A or B in at least one course in either philosophy or psychology or who present an original thesis acceptable by a two-thirds vote of the society.

Charms or keys will be awarded to all who become members of the society and the meetings will be closed to the general student body, with the exception of those at which a speaker is present. Dues which will carry with them the right to vote in the society, will be assessed on the same basis as this year.

At the executive session held Tuesday afternoon, the plan for reorganization was proposed and at the same time, a nominating committee with Hilda Smith, '31, as chairman, was named to present a slate of candidates for the offices of president, vice-president, secretary, and treasurer, which will be chosen at the April 28 business meeting.

The proposal for reorganization of this departmental club will come before the members as an outcome of an effort on the part of the officers and the faculty advisor, Professor Ewert to attract and hold the attention of those students and faculty members who have an interest in creative work in either psychology or philosophy. A test for membership it is felt will provide a stimulus for increased activity and also assist in maintaining a stable instead of transient membership.

The present officers of the John Dewey Club are Louis Lisman, '31, president *ex-officio*, Hilda Smith, '31, vice-president, and Ruth A. Burroughs, '31, secretary and treasurer.

MISS FROST PUBLISHES SECOND BOOK OF POEMS

"Blue Harvest," a book of poems by Frances M. Frost, has just been published. It is her second, the first, "Hemlock Wall" having been published in October, 1929.

Miss Frost is a senior in the Arts College and a member of the faculty as a lecturer on poetry. Both her poetry and she, as a poet, are described by the publishers, Houghton Mifflin Co. as

"A young poet of New England, with the New England characteristics of strength, vigor, precision, and controlled emotion. Miss Frost in this new book takes distinguished place among contemporary poets. She has a power of imaginative penetration into her subjects, she has delicacy and concision of expression, and a gift of melody which never becomes oversweet. Her images, though often surprising, are never extravagant. Rugged without being crabbed, subtle without obscurity, keeping always the the balance between form and thought, her book is a distinct contribution to American poetry."

A review of "Blue Harvest," by Prof. W. E. Aiken, will appear in a later number of "*Wisnoscinge from the Mill.*"

Miss Martha M Leighton, assistant State 4-H Club leader is attending the County 4-H Leadership Conferences in Orleans and Caledonia counties. These conferences are units in a series which are being held throughout the state.

VERMONT DEBATERS TO DEBATE ALBANY STATE COLLEGE NEXT WEEKEND

U. V. M. Forencists to Argue Relative Merits of Chain Store at Albany

On either April 24 or 25, the University of Vermont debating team which recently returned from its lengthy Western trip will debate Albany State College at the institution at Albany, N. Y., at 8:30. Vermont will uphold the affirmative of the question Resolved that the chain store is more detrimental than beneficial to the American people. It is expected that the same three men that represented Vermont throughout the mid west, namely, George R. Nelson, '31, Paul J. LaCrosse, '32, and R. P. Donaghy, '33, will again represent Vermont.

Vermont will hold its last home debate on May first with Clark University. The debate will be on the Free Trade question.

No definite plans have been arranged as yet with Middlebury College for the annual prize debate which also will complete the series of State debates. Because of difficulty of deciding upon the question to be used in this debate and the lateness of the western trip, George Nelson, manager of debating at Vermont stated that the date of debate and a suitable subject had not been decided upon. It is expected to be held in the very near future. For the past two years Vermont has succeeded in winning the State series, and looks forward to a very interesting debate with Middlebury at Middlebury.

None of us have a patent on being right.—*Senator Tydings.*

TWO HUNDRED COUPLES ATTEND MORTAR BOARD DANCE SATURDAY EVE

[illegible] hundred couples attended Mortar Board's annual informal dance [illegible] the Gym Club Saturday night, [illegible] 11 at the Burlington Boat Club [illegible] Cotillion room.

Ryan E. Lord, president of Mortar Board and chairman of the dance committee, announced at the dance that about $[illegible] was cleared towards the [illegible] fund. Tickets were sold at $1.50 per couple.

Miss Ford added that these results compare favorably with Mortar Board dances of the past, for when the money was actually cleared, the expenses of running the dance were higher. Dotson's six-piece orchestra, the Black Pirates, furnished the music with Dick Shepherd, '34, as soloist. Lilizbeth Cox and Peggy Greene received the guests and Prof and Mrs J E Pooley and Prof and Mrs Leon W Dean acted as chaperones. Refreshments of punch and cookies were served.

RICHARD H. COWLES, '31, *chairman of the Freshman-Sophomore Relations Investigation Committee which recently wound up its work by sending a comprehensive report to the Faculty Student Council. The Council will meet this afternoon to consider the recommendations and report of the committee. Mr. Cowles is to be especially thanked for the great amount of work and time he has spent in making this report complete.*

University Publications Gain New Contemporary In Aggies' Chronicle

The number of University publications was increased by one with the recent début of the *Aggies' Chronicle*, a mimeographed newssheet in magazine form published under the auspices of the Aggie Club of the College of Agriculture.

The masthead bearing the caption Volume 1, Number 1, March 24, 1931 gave as the editors, Howard Martin, '31, Frank Lyford, '33, and John Gilmore, '34, and in its editorial on the front page entitled, Aggie Club stated one of the big problems confronting that organization is the strengthening of the school on the campus and in the state. The editorial says in part:

"This may be accomplished by securing a large enrollment and by keeping the students who enroll so interested and active in the College that they will remain for the entire four years. This means that the club must give the College publicity, it must help the underclass men in all their troubles and it must develop a feeling of comradeship among all 'Aggie' students."

In closing it adds that there are many avenues along which the club may direct its activities to bring about these ends but all 'Aggie' students must cooperate and put forth some real effort to ensure a successful result."

The second page contains a cartoon of a freshman Aggie five minutes late for 7 o'clock military, along with an item on the Aggie Club reorganization and a note on the Seven Wonders of the Aggie College.

Horticulture, animal husbandry, chicken dinner special, lost and found, and news cracks feature the second page and the third page concerns athletics, jokes, news and a poem, headed "A Poem With Apologies." She Knew."

Covering the entire fourth page is a cross word puzzle including words ranging from "something to be forgiven," as number one, through "A Kind of Stick Used by Artists," as number sixty-six.

The *Chronicle* is part of a series of activities being carried on by Alpha Zeta honorary agricultural society and the Aggie Club which was recently organized with Fred Blanchard, '31, as president, Carleton Wright, '32, vice-president, John Buchanan, '32, treasurer and Edwin Miller, '34, secretary.

FRENCH CLUB MEETS AT ALPHA CHI OMEGA HOUSE

The French Club will hold its next meeting eight o'clock April 22 at the Alpha Chi Omega House on Main street.

This meeting has been well planned and many interesting features will compose the evening's entertainment. George Simard, '31, will give a review of the Romantic Tendencies in French Literature. Following this Mrs. Paul D. Evans will discuss various phases of French life. As the concluding feature of the meeting the members present will read a French play. This is the second in a series of plays planned to be read by the Club.

The meeting following the one to be held this month, at which officers for the coming year will be elected will be the last this semester. The present officers are P. LaCrosse, '32, president, Lillian Mount, '32, treasurer, Elizabeth Mandigo, '31, secretary, and P. Drew, '33, chairman of entertainment committee.

The entertainment committee for this time consists of P. Drew and Lillian Mount. French selections will be played and refreshments will be served.

Twenty-four Percent of Vermont Men Under Warning Report Deans

Five Seniors, Twenty Juniors, Thirty-Three Sophomores and Seventy Freshmen Swell List

FRESHMAN RULE PROVED VALUABLE BY FIGURES

According to the latest report from the Deans offices of the College of Arts and Sciences and the College of Engineering there are about 40 percent of the men in the freshman class who are ineligible to take part in College athletics because of scholarship. No report could be obtained from the College of Agriculture. Setting a mean average, the [illegible] [illegible] and [illegible] classes showed about figures of approximately 30 percent, 20 percent, and 5 percent respectively.

These statistics certainly go to show [illegible] the rule benefiting freshmen to participate in varsity sports [illegible] of a protection to them than it first appeared.

College of Arts and Sciences

Class	Enrolled	Under Warning	Percent ineligible for Varsity Sports
1931	[illegible]	4	6 percent
1932	[illegible]	11	16 percent
1933	[illegible]	[illegible]	26 percent
1934	134	41	28 percent

College of Engineering

Class	Enrolled	Under Warning	Percent ineligible for Varsity Sports
1931	16	1	6 percent
1932	34	9	27 percent
1933	36	10	30 percent
1934	64	28	43 percent

AUSTRO-GERMAN UNION INEVITABLE—CARPENTER

"Such a customs union as proposed between Austria and Germany is ultimately inevitable owing to Austria's economic organization," stated Prof F. D Carpenter head of the German department of the University of Vermont at a meeting of the Discussion Club of the College Street Church Sunday.

The greatest benefit that Germany could derive from this trade agreement would be added prestige in Central Europe and the beginning of restoration of its former dominance in that territory. Due to the cut-down in population from [illegible],000,000 to [illegible],000,000 persons by the Versailles Treaty, Austria needs the union to avoid potential bankruptcy. The speaker said. Vienna at present contains almost one-third of the entire population of Austria. The country is not agriculturally self supporting its imports by far exceed its exports.

France opposes the Union expressing fear that it would result in a political union which the Versailles Treaty forbade.

Professor Carpenter expressed the belief that Austria was not anxious for a political union because of Austria's antipathy to Prussians and Prussianism. Another complication which would arise from the political union is a sizeable increase in the German Centrist party which would upset party balances.

He said that Vienna is more like Paris than Berlin. Berlin holding strictly to the literal interpretation of laws and regulations. Vienna and Paris being much freer. Berlin similar to American cities in its lively and business, Vienna and Paris, care free.

Howard A. Prentice, director of physical education for men at the University of Vermont attended the convention of the National Physical Education Association held April 14 in Detroit, Mich.

Prof. J. T. Metcalf was the guest speaker at the meeting of the Intercollegiate Alumnae Club held at the Alpha Chi Omega house. He delighted the assembled members by giving a program of selected readings that comprised short stories and poems.

FOR COOPERATION

This afternoon the Faculty-Student Council will hear and act upon the recommendations of the committee which investigated undergraduate relationships in nine eastern colleges and universities.

The Council, as it convenes, must recognize, first, that the truce agreed upon by the principals in the freshman-sophomore problem at Vermont is ended; second, that all but two of the men who went on the intercollegiate tours are definitely biased in favor of the maintenance of the old system of freshman discipline at Vermont which has been the cause of much campus dissention; third, that in all of the institutions visited the trend of enlightened student opinion is toward the abolition of freshman customs and hazing; and fourth, that the Faculty-Student Council was invited to study the local situation and remedy it to the satisfaction of all because of recognized rebellion on the part of the freshman men and women and the campaign of student opinion which questioned the sanity and values of the entire system.

The committee this afternoon is recommending a system of freshman rules to be enforced by the imposition of a pledge, the vigilance of Gold Key and the prestige of the faculty which would, for all ostensible purposes, back any system adopted by the Faculty-Student Council.

The committee, fearing that their recommendation, practically identical with that at Vermont which has been the occasion of so much chafing in the past, would appear to be nothing new, prefers the appellation "customs" instead of the more mandatory "rules."

The term "customs" implies voluntary abeyance with no enforcement, which we have never opposed. A reliance on faculty prestige is an admission of the weakness of the system. When students cannot settle the matter for themselves, then we see an indication of a confirmed reactionary spirit which will forever prevent the progress of enlightened collegiate educational programs and systems of orientation for underclassmen.

It is illogical to assume that the Vermont Christian Association, part of a national program for the successful adjustment of the incoming student, and which opposes compulsory freshman customs, will act at the dictation of the Faculty-Student Council and publish a system of rules or customs in the Freshman Handbook.

In reiteration of our policy we demand cooperation from the Faculty-Student Council. We will tolerate no reminiscing by the Council with the intention of ignoring the present situations and advances in the colleges visited. We urge an expression of whole-hearted interest with the view toward arriving at a solution of the local problem which will satisfy all the principles in the controversy. Finally, in full confidence that it will never obtain, we warn against any attempt to re-establish the reactionary system which until this year prevailed at Vermont. To do so would be tantamount to vitiating all the good faith we have in the Faculty-Student Council's intentions to cooperate in the interest of all concerned.

OUR NEW CONTEMPORARY

It is with gratification and interest that we read the editorial note in the first number of our new contemporary, the *Aggie Chronicle* which calls for increased activity on the part of the student organizations in the College of Agriculture.

The Aggie Club must give the College publicity; it must help the underclassmen in all their troubles." It is indeed honorable for the Club and the editorial staff of the *Chronicle* to foster the interest of the Agricultural College by giving it publicity. This is also the function of the CYNIC which serves as the official news sheet of the Colleges of Arts and Sciences, Agriculture, and Engineering. Despite this fact there has been, not only a scarcity of news in the Agricultural College, but a definite lack of cooperation on the part of those department and organization heads who have been approached for news stories. Press releases from the Extension Service come to the desk of the editor. The copy for the Friday evening program of WCAX has, in nearly every instance, arrived too late for publication as an advance in the issue of that day. The releases concerning activities of the 4-H Clubs, farm bureaus, and extension information, although far from being of immediate interest to the student body, are published because they are indicative of the work this department is doing about the state.

The *Aggies Chronicle* should provide incentive for greater activity on the part of the organizations and students in this College and also further their interests through its news and editorial columns. We heartily congratulate our contemporary on the newness and aspirations of its endeavor and wish success to its staff.

Campus Comment

To the Editor of the CYNIC:

Are you satisfied with the new cut system? This question has been asked on the junior questionnaire every year for some time and when the students come to answer the question they inevitably ask "What is it?"

The interrogation is not because the student is ignorant but rather the so called "system" here at Vermont is so far from being a system that it is truly non-existent.

How many students here at the University have any three classes in a day governed by the same "system" of cuts? If there are any they should consider themselves lucky.

Is it not time to have a real cut system governing all our classes instead of each instructor or professor being allowed to treat absences from class according to his own ideas and to entirely disregard a dean's excuse if he so desires?

Why is it that in such colleges as Bates, Middlebury and others, for example, a well regulated cut system, run by the administration, instead of several departments or individuals, exists, giving all the students definite rules upon which they may regulate their cuts?

This matter was brought before the Faculty Student Council at its last meeting and a survey is to be conducted upon the campus in order to gain the opinion of the student body as a whole by means of a questionnaire.

Co-operation is needed by those who seek to rectify the present conditions existing here at the University and we relying upon the student body to truthfully and wholeheartedly answer the questionnaire presented to them.

This movement is not necessarily to gain for the student more cuts, but rather to have a unified system for all courses in order that the student may govern himself accordingly.

FRANCIS A. BOLLES

To the Editor of the CYNIC:

Your editorial entitled "For the Best Interests of Vermont," published in the April 10 issue, interested me greatly. I have always been a careful reader of the CYNIC, particularly of the editorial page and the "Campus Comment" column, and always have I been struck by the singular freedom, lack of editorial partisanship, and willingness to publish any and all letters in the "Comment" column displayed by it, as contrasted with most other college papers with which I have come in contact.

But apparently, from now on, we will have what in effect amounts to a censorship of the column. This is bad. Although Vermont has always been known to the rest of the country as a conservative, "rockbound" state, her University has not been considered as such. Universities in general are, and always have been, traditionally liberal. The universities of the Middle Ages were the seat of all enlightened thought at a time when the best efforts of the rest of the world were directed towards stifling such thought. From these universities sprang the ideas which were at the basis of all democratic freedom, and upon which our country was founded.

I am neither for nor against compulsory military training or attendance at chapel, but I am most decidedly in favor of the free and unsupervised use of "Campus Comment" by members of the student body and faculty for the airing of views on these or any other subjects. The mere fact that this privilege is to be restricted places the administration in the position that it is afraid of what may be said, and fear is nearly always a presage of defeat. It is certainly against the traditions of the University to indulge in any such practices, for whether Vermont is or is not conservative, she was the first State to grant to her citizens universal manhood suffrage after the Revolutionary War for freedom from oppression, and her University was founded by a noted proponent of liberty, General Ira Allen.

If the parents of students and the benefactors of the University are opposed to discussion of topics of vital interest in the columns of the College newspaper, their children do not belong here. Their sons should go to military colleges and their daughters to convents. In a University that is at all representative of the different elements present in this country diverse opinions are bound to be expressed regarding the various administrative policies, and opposition by certain students to military training or compulsory attendance at chapel, even though it be of the red flag, bomb-throwing, "bolshevist" (I hate the use of that word!) type does not signify that the general consensus of student opinion is in agreement with it. If "benefactors" of the University tie a string to their "beneficences," the value of these said "beneficences" to a college supposedly devoted to the liberal education of youth is, to me at least, very much in doubt. When the time comes that a column, supposedly devoted to a free discussion of topics of interests to the students by those students themselves, is subject to administrative censorship, there indeed exists an unfortunate state of affairs!

RICHARD R. MURRAY, '34.

Ten Timely Topics

TARA TANTARA TEINO

In this issue Tara Tantara Teino breaks a silence of more than half a year. Columnist in a serious vein, he concluded his Ten Timely Topics when, more than a semester ago, he enunciated a platform for a Liberal Party. Only one of his ten planks has been adopted, that which called for the adoption of a Social Science curriculum. This column will continue to further the platform of the Liberal Party, resuming where it left off.

The manner in which the Faculty-Student Council started to dispose of the Freshman Rules rumpus was most gratifying. The platform of the Liberal Party insisted on cooperation rather than obstinacy in the examination and revision of the antiquated systems and institutions whenever the attention of the student body is directed to their existence at Vermont. In the matter of the Freshman Rules controversy, at least, we have taken a long stride toward the goal of cooperation.

What's wrong with our departmental clubs? Neither the John Dewey Club nor the International Relations Club can attract audiences whose size does credit to their aspirations. We can see a favorable solution of their problems only in the course adopted by Eta Sigma Phi, Grey Friars and Bluestockings. This lies in the imposition of a test for membership, the constitution of a semi-honorary organization and the granting of exclusive privileges and honors to those to whom membership is awarded. Permanent organizations engaged in creative work would be the outcome of such a step.

Plank number one of the Liberal Party called for open political activity. Taking a leaf from the experience of the CYNIC, which finally was forced through the indifference of the student body and the pressure of fraternity politicians, to cease its attacks on fraternity politics, the Liberal Party sought to divert the attention of the electorate from the ambitions of contending fraternity groups by directing it to live issues of student government. This can be made possible only by insisting that candidates run on platforms whose planks will state their policies in office and by their naming their allies in advance of the election.

More than one political machine crumpled under the stress of the publicity accorded to fraternity politics by the CYNIC last spring. The policy of the Liberal Party would be directed towards the organization of groups pledged to the furtherance of such aims as would not merely enhance the prestige of the members of a successful fraternity combine.

We merely name some of the other planks in the platform of the Liberal Party.

The establishment of the tradition of a free press, leading student opinion and commanding the support and the respect of all thinking students.

Comprehensive examinations at the close of the senior year in major and minor courses in place of the present examination system, with the alternative of examinations to be taken in all senior courses rather than in merely the major and minor courses of the entire degree-seeking period.

Tolerance for opposing views.

Would not the library rather than the CYNIC office be a good place for the college exchanges? This is a plan used in a number of neighboring colleges, where students are given an opportunity to see for themselves, at first hand, what is doing in other colleges.

This year the one-year rule adopted by the Athletic Council was made to apply to at least one non-athletic activity. Thus we have the paradoxical situation in which regulations adopted by the benefit of athletes, and satisfactory to those interested in athletics, are invoked for non-athletics activities.

We therefore propose a Non-athletic Council, paralleling in personnel and in functions the Athletic Council. On such a Council students would have that voice in determining by what regulations non-athletic organizations should be bound which they are now denied in this field, but permitted in athletics, while all decisions would be arrived at only after discussion between them and the other groups on the Council.

We respectfully suggest to the CYNIC a series of interviews with the investigators appointed by the Faculty-Student Council. Such interviews might touch on anything except Freshman Rules. The investigators must have brought back much of interest from the colleges they visited.

Why not a cut system at Vermont? At present no student knows when a penalty will be inflicted on his cutting or what that penalty will

Intercollegiate News

Forty members of the Johns Hopkins [illegible] on record as favoring [illegible] tinuance of intercollegiate [illegible] the university, it was [illegible]

A resolution urging [illegible] the sport was adopted [illegible] the annual dinner [illegible] of the American [illegible] university professors [illegible] Hall.

While the meeting [illegible] future of athletics at [illegible] at some length, the [illegible] and the future edu[illegible] such as the abolition [illegible] credit system, also [illegible]

Dean Edward Wilbur [illegible] College of Arts and S[illegible] the future of the college [illegible] discussion mentioned [illegible] policy. It was then [illegible] urged the adoption [illegible] seeking discontinuance [illegible] legiate athletics and the [illegible] of a system of intramural [illegible]

It was decided to [illegible] tion so that it would include football and in this way create opening wedge in the [illegible] that ultimately would result in abolition of all intercollegiate [illegible]

A faculty ruling enacted at Mount Holyoke College the first week of the semester introduces a [illegible] change in the plan of [illegible] tions as an experiment for [illegible]

The innovation will require [illegible] to take only three finals in place of the normal five, the two omitted courses in their major department. For the entire college there will be a reading period of one week preceding examinations.

The purpose of the new plan is to give seniors a week to prepare for their general examinations in their major departments, and underclassmen are suggested supplementary reading.

Various places of rendezvous are provided during classes, but there is only one spot which is the accepted gathering place for the elite, namely the Park Building pump. To go from one class to another without passing at the pump for a swig is an unforgivable breach of etiquette.

There is likewise only one diversion during this period, namely, sissying. This is a gentle art, which in its finest moments, a true art, we say, a true art. It is not to be confused with the more vulgar pastimes of necking, or the more arduous task of wooing. It consists of strolling with some girl, not necessarily the one you love only, whispering sweet nothings, indulging in bright repartee, sprightly humor. Remember, sissying is never to be confused with kissing or necking, which is only to be indulged in in broad daylight, in the gentle atmosphere of sweet spring.—*Utah Chronicle*

On Moving About

I wish all the paths weren't straight,
I wish the bells were sometimes late
Because I'd like to wander
Around in circles and ponder
On things in general.
Ephemeral,
Springy thoughts,
Not got-to's and oughts.
Are what I like best
Not math and the rest.
Or cases of over production
Or the Russian reaction
How can I think on what makes the world go round,
When I must keep my eyes on the ground,
And walk in the squares
To escape the bears,
And hurry to classes
Along with the masses
Oh I do so love to wander
Around in circles and ponder.
—*Vassar Miscellany News*

A student at the University of Chicago was recently fined $1 for forcing a piece of pie at a girl who refused to kiss him after he had purchased a bouquet of forget-me-nots from her.

President Walter Scott of Northwestern University, offers the opinion that the lowest grades in college and university courses are given by the poorest professors.

A system of one cut per hour which is, roughly, what is permitted by the Commerce and Finance Department, might be permitted students. More cuts would be given to students who attain [illegible] grades. The penalties for [illegible] should be plainly stated. [illegible] a student has taken his cuts and has fallen in his grades, he [illegible] denied all further cuts [illegible] regained his former standing. [illegible] penalties would tend to [illegible] The prospect of gaining [illegible] large or even unlimited [illegible] on condition of attaining [illegible] grades would give the [illegible] regard to the striving for a place on the Dean's list.

College editors everywhere are noting a decrease in sophistication and boredom among students. [illegible] fads are indeed unfathomable.

SPORTING NEWS

Interfrat Baseball Games Will Start Next Monday Afternoon

by the Department of Education, the Interfraternity League will officially pry into intramural athletics next week when the opening games in baseball will be played.

For some time now the crash of ash on horsehide has been heard around the campus as the different fraternities put their sluggers through their paces. Various slab artists have been unlimbering their soup bones and practicing sundry assortments of hooks. From all indications the race is to be a hectic struggle between the recipient of the Key and the cup is declared.

The director of intramural athletics has announced the following rules applicable to all entrants:

1. Any *bona fide* student of the various colleges and of the medical school who has not received a degree may play, except the following:
   a. No student who has received the varsity award in baseball either at Vermont or at any other college or university may play.
   b. No member of the present varsity baseball squad and of the present freshman baseball squad may play. (See lists on bulletin board.
2. All games will be played on the back campus diamond and shall start at 4.10 p.m. Any fraternity whose team is not ready to play at that time shall forfeit the game to the opposing team which is ready to play.
3. Any question concerning weather and postponment of games will be settled by the director or the officials in charge of the game.
4. All games will consist of five innings except the championship game which shall consist of seven innings.

The schedule:

INTERFRATERNITY BASEBALL SCHEDULE

LEAGUE 1

Sigma Phi, bye
Delta Psi, April 20, Tau Epsilon Phi — May 4
Phi Delta Theta, April 24, Kappa Sigma — May 6
Sigma Alpha Epsilon, April 29, Independents
May 18
May 21 — Centennial Field

LEAGUE 2

Zeta Chi, April 22, Phi Sigma Delta — May 5
Phi Mu Delta, April 22, Alpha Tau Omega
May 19
Sigma Nu, May 1, Sigma Delta — May 8
Lamda Iota, bye

SOME CHANGES MADE IN REQUIREMENTS FOR ATHLETIC FRATERNITY

Members Must Be Proficient in Twelve Events—Constitution Contains Several Interesting Points for Prospective Members

TRIALS FOR MEMBERSHIP NOW HELD TWICE A WEEK

With the coming of spring the physical education department hopes that a large number of candidates will try out for membership in Sigma Delta Psi, the national honorary athletic fraternity. Trials are now being held every Tuesday and Thursday afternoons at 4 o'clock at Centennial Field, weather permitting. Several changes have been made recently in the membership requirements.

The events and requirements for admission to the society are as follows:

1. 100-yard dash, 11⅘ seconds
2. 120-yard low hurdles, 16 seconds
3. Running high jump, 5 feet
4. Running broad jump, 17 feet
5. Shot put (see below)
6. 20-foot rope climb, 12 seconds
7. Baseball throw, 250 feet or Javelin throw, 130 feet
8. Punting football, 120 feet
9. 100-yard swim, 1 minute 45 seconds
10. 1 mile run, 6 minutes
11. Tumbling
    a. Front hand spring
    b. Hand stand, 10 seconds
    c. Fence vault, height at chin (body not touching and free from bar)
12. Posture erect

Shot put requirement for men over 160 pounds is 30 feet. Less than that weight, the proportion is:

$$\frac{160}{\text{candidate's weight}} = \frac{30}{X}$$

Substitutions will be handled through H. A. Prentice, director of physical education.

The constitution of Sigma Delta Psi embodies many points which are of interest to the candidates for admission.

1. Purpose—the object of the society shall be to promote physical, mental and moral development of college students.
2. All male students in colleges in the United States shall be eligible to membership.
3. No student shall be admitted to membership who is found by the faculty to be delinquent in scholarship.
4. The initiation fee of full membership shall be ten ($10.00 dollars). This fee includes membership in the national organization, the expense of the gold insignia key, and the certificate of membership.
5. Tests taken by summer school students shall be considered official, but the words "summer session" shall be inserted upon the certificate of membership.
6. The director of physical education shall certify to the physical fitness of a candidate before allowed to attempt any of the tests.
7. A candidate shall be permitted to attempt only three tests on a single day. Only three official trials shall be permitted in any test during a single day.
8. A candidate may attempt to qualify in Sigma Delta Psi any time while a student or as an alumnus from his institution.
9. Substitutions: A candidate who has won a varsity letter or an intramural championship in any sport may substitute this letter for any one requirement in Sigma Delta Psi, except swimming. A substitution may be made but once for one sport; for example, the candidate may substitute the football award but once, even though he plays on the varsity team three years. The privilege of substituting varsity letters is limited to two official varsity sports and one intramural championship.

A. TUDHOPE APPOINTED FRESHMAN TRACK COACH

Arthur K. Tudhope a graduate of the University of Vermont in 1927, has been appointed to coach the freshman track team by E. C. Abell graduate manager of the University. Tudhope has coached the Burlington High School team for the past few years and has turned out two state championship teams. He has developed several champions along this line in the State of Vermont. He ought to develop a fine team out of the wealth of material now available.

Tudhope earned his letters in both track and cross-country while at the University. His specialty in the former field were the two-mile and relay event. He is a lieutenant in the local branch of the National Guard and also works as an insurance salesman.

B. H. S. GYM WILL BE LOCUS OF GOLD KEY HOP

Tomorrow evening will be another big night for the college social items as the Basketball Hop, sponsored by Gold Key, sophomore honorary society, is to be held at the Burlington High School Gym. James Wood, '33, is chairman of the event and promises a gala time, with the music furnished by the ever popular Lechnyr's Vermonters.

Prof. and Mrs. Leon Dean, Mr. and Mrs. Archie Post and Mr. Howard Prentice will be chaperones. The admission price is $1.00 per couple.

A. A. U. W. INVITES SENIORS TO TEA AT REDSTONE

All women of the class of 1931 are invited to a tea given by the Burlington Branch of the American Association of University of Women tomorrow afternoon at 4 o'clock at Redstone.

Miss Helen B. Shattuck the librarian at the Billings Library, will speak and tea will follow this program.

CATAMOUNT NINE NOW ON THREE-GAME INVASION IN SOUTHERN NEW ENGLAND

Springfield, Wesleyan and Brown Are Opponents on Second Trip of Season—Players Confident

TEAM'S RECORDS SHOW NEED OF IMPROVEMENT

This afternoon the Catamount baseball team is at Middletown, Conn., to play the Wesleyan College nine on the second day of the three-game trip. Yesterday the Vermonters were scheduled to meet Springfield and tomorrow they will tackle Brown University at Providence, R. I. Due to the preliminary training from the Southern trip the Green and Gold team should be developed enough to be able to meet their opponents on better than even terms. Today's contest opens the season for Wesleyan and Brown barely beat Boston University 2 to 1 last Saturday. C. C. N. Y. has downed Springfield by the score of 9 to 1.

The record for the team in the first series of contests is not at all encouraging although it is understood that the Catamounts went south without any outdoor practice, and had bad luck with the weather all the way.

Rutkowski, moundsman and outfielder, leads the Cat in batting with eight hits (five of them doubles) but his fielding has been slippery. Kendall, who is making a strong bid to displace Stroh as the regular receiver is errorless, and bats .333, while Charlie has two miscues in the error column and only one hit in eleven times at bat. Wally Nargent, who continues his feat of keeping opponents scoreless in the relief rôle, has run his record up to 44, and bats fairly well.

However, only four on the team bat over .200, and the fielding averages are in most cases a pale pink. Jay has come through clean on all of his thirteen chances, and Eddie Winant holds a mark of .980, good enough for any first baseman. Every one of the other players must boost his mark by more than ten percent if Vermont is to have as successful a season as last year, although the players seem perfectly confident the team will make just as strong a bid as in 1930.

The official batting and fielding averages from the U. V. M. scorebook gives the following results:

	Batting average	*Fielding average*
Rutkowski, p.	.571	.814
Kendall, c.	.333	1.000
Cummings, p.	.250	1.000
Nargent, p.	.250	1.000
Pires, ss.	.190	.770
Baker, 3b.	.187	.778
Robinson, f.	.181	.667
Dinniman, f.	.174	.714
Winant, 1b.	.167	.980
Macomber, 2b.	.144	.714
Stroh, c.	.090	.933
Jay, f.	.058	1.000
Heaton, 2b.	.000	.833
Cunningham, p.	.000	1.000
Team averages	.189	.865

Marlene Dietrich is playing in "DISHONORED" (according to the Flynn Theatre program). We hope she didn't have the heeby-jeebies when she made that film.

ALUMNI TO ELECT NEW TRUSTEE BY BALLOTING DURING COMING MONTH

F. P. Byington, A. D. Welch, and A. C. Eaton Are the Candidates To Be Voted On

The Alumni Council of the University is now conducting an election of a new trustee to serve for four years. The council has submitted the following three names to the Alumni for their approval: Frederick Percy Byington, Arthur Day Welch, Arthur Chester Eaton of Great Neck, Long Island, New York City and Worcester, Mass. respectively. The election must be completed and all ballots must be in the hands of the Alumni Council by June 10, 1931.

Frederick Percy Byington

Frederick Percy Byington of Great Neck, L. I., N. Y.; born in Charlotte, Vermont, September 5, 1876; Class 1900, University of Vermont; farming on old Homestead, Charlotte, Vermont, 1900-05; Circulation Dept., American Architect, Chicago and New York, 1905-06; Adv. Mgr., American Architect, New York City, 1906-07; Circulation & Editorial Depts., New York Architect, 1907-09; Mgr. Archt. Service Dept., Metropolitan Dist., New York City Johns-Manville Corp., 1909-28; Mgr. General Archt. Service Dept. U. S. and Canada Johns-Manville Corp., 1928-1931; Treas., The Producers' Council, Affiliated with A. I. A., 1927-31; President, The Producers' Council, 1927-31; married Lillian H. [illegible] November 7, 1917; three children. Clubs: Architectural League, City Engineers' Club, N. Y. City, North Hills Golf Club, Douglaston, L. I., N. Y.

Arthur Day Welch

Arthur Day Welch of New York City; born in Strafford, Vermont, April 21, 1878; B. S. in Electrical Engineering 1902, University of Vermont; with New York Telephone Company, an Associate Company of the Bell System, from graduation to date—first as a member of the engineering staff, then General Commercial Engineer, later General Commercial Manager, and now Assistant Vice-President; married, one daughter; member of the Machinery Club and Canoe Brook Country Club.

Arthur Chester Eaton

Arthur Chester Eaton of Worcester, Mass.; born in Lunenberg, Mass., August 3, 1883; Graduate of Cushing Academy 1902; B.S. in Civil Engineering 1907, University of Vermont; Instructor in Civil Engineering, University of Vermont 1908; Practiced engineering in New York State, 1908-1912, State Water Supply Commission, Department of Highways and Barge Canal; Hydraulic Engineer with New England Power System in design, construction and operation of Hydro Electric Plants of the System, 1912 to date; Member American Society of Civil Engineers, member of Boston Society of Civil Engineers (Desmond Fitzgerald Award 1924), member of Worcester Society of Civil Engineers; married Ethel Obear of Beverly, Mass., June 30, 1909; two sons.

Instructions for Voting Alumni
(From the Constitution of the Alumni Council)

(Article VIII, Section 4. The voter shall designate the candidate for whom he wishes to vote by making a cross in ink opposite the name of such candidate, and by signing the ballot with his name, class and post office address, and returning said ballot to the Secretary by mail or otherwise, on or before the tenth day of June in the year in which the ballot is signed.)

QUEEN OF JUNIOR WEEK TO BE DETERMINED BY TWO STUDENT BALLOTS

Academic Women Eligible For First Prize as Most Beautiful Co-ed

[illegible] Queen of Junior Week [illegible] Academic women [illegible] Junior Week [illegible] Vermont [illegible] Junior Week [illegible] Queen of Junior Week [illegible]

Prizes

[illegible] prizes [illegible] Vermont [illegible] prizes [illegible] purpose

[illegible] a cash prize will be awarded the co-ed receiving first prize in the women from the four classes who is voted the most beautiful at Vermont

The Queen of Junior Week will be crowned by some star at this year's prom who will be given to her. Her name will be announced with the announcement of the winner at the Junior Prom but she will be taken to the store to choose the type according to her personal taste

Chairman Tupper of Junior Week states: "The CYNIC Beauty Contest will be decidedly a novel feature and will create a much student interest

"It will, I believe, be a great attraction to the Junior Prom, the concluding number on the Junior Week program."

Members of the CYNIC feature staff when interviewed decided that the contest would not stimulate a healthy competition among the women at Vermont. In fact they saw it also as a most undesirable unofficial addition to an ever popular Junior Week program. They also denied its possible custom places on the collegiate

Who Is She?

One member of the staff asks: "The most beautiful girl, who is she? Who is going to be the Queen of Junior Week? Is she your girl friend or your fraternity brothers? Maybe she is your sorority sister. Maybe *she* is you?"

Another queries: "Blond? brunette? copper sheen? or Titian hatred? Tall or short? A little plump or otherwise? Freshman sophomore junior or senior?"

And she continues: "Who will be the Junior Week Queen? Men of the University of Vermont do your stuff. Help us out even if it involves dating every good looking girl in our fair institution. Girls help us out *please*. Wear that beautiful spring outfit you have just purchased. Be ravishing or coy be gentle be charming. Above all be cheerful and smile smile smile."

Does she come from Grassmount, Campus House, Robinson, Slade, Redstone, Rand, or Allen "sweet one mam," or where do you spend your spare time?"

These questions all concern the intellectual and aesthetic minds of the men and women at Vermont who will be called upon to express by ballot their preference of the Queen of Junior Week.

In a later issue will appear the prizes, rules and additional details of interest to the candidates and voters

WHEREVER college men pause to load their pipes you'll see the familiar blue tin of Edgeworth!
At California, at Yale, at Williams and Cornell . . . in America's leading colleges and universities you will find Edgeworth the favorite smoking tobacco of the collegemen.
College men everywhere respond to the appeal of pipes packed with cool, slow-burning Edgeworth. Be guided by their choice. Try Edgeworth yourself. Taste its rich, natural savor that is enhanced measurably by Edgeworth's distinctive eleventh process.
You will find Edgeworth at your nearest tobacco shop—15c the tin. Or, for generous free sample, address Larus & Bro. Co., 105 S. 22nd St., Richmond, Va.
EDGEWORTH
SMOKING TOBACCO
Edgeworth is a blend of fine old burleys, with its natural savor enhanced by Edgeworth's distinctive eleventh process. Buy Edgeworth anywhere in two forms —"Ready-Rubbed" and "Plug Slice." All sizes, 15¢ pocket package to pound humidor tin.

The Vermont Cynic

VOLUME 49 — BURLINGTON, VERMONT, WEDNESDAY, APRIL 22, 1931 — NUMBER 60

Evening Ensemble To Be First Award For Queen of Junior Week

Abernethy's, Clothiers, Offers Gown and Jacket to Most Beautiful Co-ed

STUDENT INTEREST IN PROM RISING RAPIDLY

As first prize in addition to the [illegible] presented by the Cynic the [illegible] Junior Week who will be [illegible] by the entire academic [illegible] body next Wednesday and [illegible]day will receive an evening en[illegible] consisting of a gown and [illegible] given by Abernthy's, Burlington's most select clothing store.

The woman from all four classes [illegible]ected the most beautiful at the [illegible]ersity will select the ensemble to [illegible] her own pleasure and personal [illegible].

Prizes which will be awarded to the [illegible] women who attain place among the highest in the Cynic Beauty [illegible] will be as expensive and appropriate as the first. They cannot, however, be divulged at this time.

The Junior Week committee reports: "Since the announcement of this unique Junior Week feature, the demand for tickets has increased considerably. Junior Prom this year will be a gala affair and that the beauty contest will be an unprecedented feature."

The Queen of Junior Week, will be determined by popular student vote [illegible] among the fully-enrolled academic women by means of two student [illegible]s and a board of judges.

Who Has "It?"

In the choice of the individual receiving this distinction the voters will consider her personality, individual charm and beauty of face and form.

From among the ten highest resulting from the first ballot, the voters will choose by preferential ballot on May 6 and 7 the highest three from whom the Queen of Junior Week will be presented during intermission at the Prom.

As this is a novel feature on the V M campus the girl selected will have the additional honor of being the first coed to win the Cynic Cup and be considered the first Queen of Junior Week. Already the Cynic office has been swamped by inquiries as to the identity of the judges but this will not be announced until the three highest have been selected by the special ballot.

This the girls will not know when they are being judged adding a little mystery to the affair. It is felt that the girls should be spared the ordeals of personal interviews. Another advantage is that the judges will have the same conditions in which to judge and the student body placing all on an equal footing.

STUDENTS MAKE MERRY AT BASKETBALL HOP

Lechnyr's Vermonters at Top Form for Annual Dance Given by Gold Key

Over one hundred couples made merry last Saturday evening as the melodious rhythm of Joe Lechnyr's musical Vermonters floated through the dimly lighted High School Gymnasium, locus of the annual Basketball Hop. The dance was under the auspices of Gold Key, sophomore honorary society, with James J Wood '33, acting as chairman. In the receiving line were Prof and Mrs. Leon Dean, Howard Prentice, coach of varsity basketball, with Miss Gene Petze, Coach Archie Post, of the track team, and his wife, and James E Wood, '33, with Alice Hoyt, '33.

Varsity Trio To Meet Clark University On Free Trade Question

Three Who Made Western Trip Will Meet Opponent Tomorrow Night

TO MEET MIDDLEBURY AND ALBANY STATE SOON

Laleix returned from a three thousand mile Western debating tour, on which it won seven out of eleven debates the varsity forensic trio comprising R P Donaghy '32, F J LaCrosse '32 and G R Nelson '31, will support the affirmative side of the free trade question against Clark University tomorrow night at 8:00 o'clock in the old Chapel. There will be no decision.

Two more debates will conclude the season for the varsity team. Friday night the team will go to Albany where it will debate the chain store topic against the Albany State College. The Vermont team will take the affirmative and by mutual agreement there will be no decision.

Middlebury is viewed as the last team to be met this season although definite arrangements have not yet been completed.

A special telephone system has been installed between the men's and women's dorms at Antioch College in the hope of promoting a better and increased social contact.

Dean Hills Tells of Life and Work of Senator Morrill in Radio Talk

Dean J L. Hills of the College of Agriculture gave an address on the life and work of Senator J S Morrill which was broadcast over station WCAX last Friday evening.

One hundred twenty-one years ago last Tuesday a babe was born in a farm household in Orange County, Vermont. The boy was the first born of a family of ten. We know little of what became of the other nine, of their labors or of their deeds. Long ago they were gathered to their fathers. But this primigenial lived, as it were, to sit among kings and when, full of years and honors, he went to his grave, the great of this and other lands gathered about his bier. His name is honored and remembered throughout the length and breadth of our land. Not only is it fitting, but "meet, right and our bounden duty" that this Vermont broadcasting station should on his natal day again tell the story of the service to mankind of a great Vermonter, Justin Smith Morrill. It has been told and retold, but cannot be told too often. It is for us of this generation to see to it that such names be not forgotten.

Vermont's Foremost Senator

Senator Morrill's congressional service lasted for more than forty years. Vermont has sent many notable men to Congress. The names of Collamer, Edmunds, Proctor and others readily come to mind but Senator Morrill was peer of the best. Indeed, when one notes some of the great contributions he made to our national polity, one may well look upon him as the greatest Vermont statesman in our history, a claim which he himself would be the first to disparage.

His permanent fame will always be identified with three great measures or groups of measures for which he was in the main responsible. Any one of these would have been sufficient to have given him an abiding place among the constructive statesmen of the land. They are:

(1) The 1861 tariff law with its subsequent modifications and the complementary system of internal revenue.

(2) Measures, looking towards the construction and modification of public buildings, especially in the capital city of Washington.

(3) The Land-Grant Act of 1862 for educational purposes and the many subsequent enactments supplementary thereto.

Morrill Tariff

(1) The Morrill tariff law of Civil War times was meant primarily to strengthen the credit of the Government, to provide for the payment of a floating debt, to raise revenue and to pay interest. The emergency was pressing. The measure passed Congress and was signed by President Buchanan on March 2, 1861, on the very day on which the person whose voice you are hearing over the radio first broadcasted in the form of a tiny wail of protest on the occasion of his advent into a cold, cold world. The Morrill Tariff Act was distinctly a protective measure. For the first time it introduced into our tariff legislation certain principles upon which to a large extent, subsequent similar legislation has been based. This measure became, as it were, the backbone of a financial system which enabled the Federal Government to wage a successful war against the seceding states, to pay off the public debt, to strengthen public credit. It has been a mighty factor in its subsequent modifications, in making us the wealthiest nation in the world. Mr Morrill doubtless did not foresee all of this. Of course, these results are not due solely to this one piece of legislation (important as it was) or to any one cause, but the financial policy which he inaugurated and with which his name is forever identified has been followed with almost invariable consistency for two generations, and his fundamental concept has remained the corner stone of subsequent revenue legislation.

W. A. A. COUNCIL ATTENDS SUPPER AT GRASSMOUNT

The new W A A Council was served an informal supper at Grassmount April 15. At the recent elections Mildred Akins '32 was elected president of the council to succeed Isabelle Wardwell '31. Helen Le Baron, '32 was elected chairman of the spring rally, and Ara Armstrong '33, chairman of the indoor meet, both of which will take place soon. Margaret Crane '32 and Mary Bennett '34 were nominated for the position of vice-president. W A A members will vote upon these names this week. Among other important business discussion Vera Chadburn '31 was elected campus chairman of women's baseball and Beatrice Free, '32 campus manager of archery.

Coeds should hand in their W A A points to either Miss Cummings or Mildred Akins '32 before the spring rally in order that the awards may be made at the rally.

R. Allbee, Dorothy Fowler Take Star Roles In Pirates

Leading Players, Supported by Veteran Cast, Make Gilbert and Sullivan Comic Opera a Huge Success, Thursday at Strong Theater

Ruth E Field '31 one of the six women representatives on the Faculty-Student Council which is acting upon the recommendations of the intercollegiate investigation committee.

CHORUS, ORCHESTRA ASSIST IN PRODUCTION

R H Allbee '31 as Frederic a Pirate Apprentice and Dorothy Fowler '31 as General Stanley's youngest daughter assumed two of the leading roles in one of the strongest casts that has appeared in years in the presentation of Gilbert and Sullivan's comic opera The Pirates of Penzance at the Strong Theatre Thursday April 16.

Included in the veteran cast were M R Jenks '31 who portrayed Samuel Richards Lieutenant R S Jenks '32 as First Pirate Maida Putnam as Ruth the piratical Maid-of-all-work W E Morgan Jr '32 as Richard the Pirate Chief Katherine Sleeper '32 Charlotte Odell '32 and Priscilla Perry '32 as General Stanley's daughters Edith Isabel and Katy and A A Sabatino Jr '32 as General Stanley and R Baker '31 as Edward a sergeant of police.

Choruses

The cast was also supported by the choruses who took the part of General Stanley's daughters pirates and policemen. They are as follows:

General Stanley's daughters: Ruth Boyton '32, Elizabeth Dickens '34, Sylvia Farnham '32, Ethelyn Foster '32, Irene Hall '32, Sylvia Holden '32, Helen Jenkins '34, Allene McNall '34, Elizabeth Mandigo '32, Dorothy Nash '31, Agnes Parsons '32, Gene Petze '32, Dorothy McSweeney '32, Ruth Tarleton, '34, Helen Taylor, '31, Betty Wallace, '33, and Eleanor Willey, '32.

Pirates: S H Carsley '34, R P Colburn '32, C B Harwood '34, D C Hazen '32, J H Jenkins '34, D W Jones '34, G M MacKenzie, '32, W J Millet '34, W J Patten '31, N H Press '34, F B Rand '31, G O Rocker '34, R H Russell, '34, I Schwartz '31, J C Shaw '32, J G Gordon '32, G I Davis '34.

*Policemen also.

Members of the orchestra who also assisted the glee clubs were: Miss Charlotte deVolt concert master, Katrina Mann '32 at the piano, Irene Marcotte '30, S B Barker '32, Effie Winn '32, Florice Murch '32, D E Bennett Jr '34, Violoncellos, Ruth Wood, '34, Esther Wheeler '31, Leora Tracy '34, Flores Elizabeth Eckland '32, A F Whitney '32, Clarinet, F W Householder Jr '32, Trumpet, C F Heath, Jr '34.

With the raising of the curtain a brilliant array of color presented in doublets and hose sashes and cutlasses and even wearing earrings and in occasional tatoo. The scene disclosed the pirate band provided with drinking mugs quaffing and singing. These pirates were gentlemen gone wrong and couldn't make piracy pay because they always let off orphans.

(Continued on page 6)

MISSES DE VOLT GAVE PLEASING RECITAL AT HIGH SCHOOL LAST EVE.

Misses Charlotte deVolt and Artiss deVolt gave a very pleasing recital under the auspices of Alpha Chi Omega at the High School auditorium last evening. They were assisted by Carlotta Raine, soprano. The program is as follows:

First was a violin solo "Romance in F Minor" played by Miss Charlotte deVolt. This was followed by a solo by Carlotta Raine "Depuis le Jour." Miss Artiss deVolt played a group of harp solos followed by a group of violin solos by her sister Carlotta Raine sang another solo. The Misses deVolt concluded the program with two duets "Nocturne" and "Blue Danube Waltz."

Charlotte deVolt is an American violinist and a direct descendant of the James Monroe family through her mother who is gifted with an unusual appreciation of music and is a lecturer on musical subjects.

Miss deVolt is a graduate of the Longy School of Music in Boston. She received ensemble training under Joseph Adamowski at the New England Conservatory and her instruction on the violin comes from such masters as Norman Ballheim of the Cox College Conservatory, Cedar Rapids, Iowa, Charles Martin Loeffler of Boston, Richard Burgin, concert master of the Boston Symphony Orchestra, Victor Kuzdo, and Leopold Auer of New York City.

As a solo violinist Miss deVolt has toured in practically every state of the Union and has given recitals in the provinces of Quebec and New Brunswick in Canada. She has become popular with radio audiences through her recitals from Boston and New York stations.

Miss deVolt is a member of the Three Arts Club of New York City and of the Macdowell Club of Boston. She gives individual recitals also appearing with Artiss deVolt in joint recitals for violin and harp.

MUSICAL SKIPPERS TO PLAY AT JUNIOR PROM

Dan Murphy and His Musical Skippers, a popular eleven-piece band from Boston are to furnish the music for the Junior Prom, May 15. The decorations this year are to give the appearance of a ship. Also another feature of this years dance will be the favors which will be of an exceptional nature but which are being kept secret to preserve interest.

During the intermission prizes will be awarded to winner of the University of Vermont Beauty Queen contest while refreshments are being consumed.

FACULTY-STUDENT GROUP TO MEET AGAIN FRIDAY

Having heard the report of the investigation committee and progressed considerably in the consideration of the recommendations made by the committee chairman the Faculty-Student Council convenes again Friday, April 24 to complete the work.

At the meeting the members of the committee which studied freshman-sophomore relations in nine other eastern colleges will be present and for a discussion of the problem and for definite action upon it.

PRESS CLUB INSTALLS NEW OFFICERS APRIL 15

Press Club held a short business meeting Wednesday April 15. At that time Elizabeth Clark '31 formerly turned over the Club to the new president Beatrice Parkhill '31. The club voted to transfer the duties of check[illegible] up on the work completed by the [illegible] officers, and of passing appointments from the secretary to the president. Hope K. Ransom '32 as chairman of the scrapbook committee reported the work as up-to-date and gave a brief explanation of the type of news that comes in from newspapers all over the United States for the scrapbook.

Vol. 49 [illegible] No. 19

VOLUNTARY CUSTOMS

[illegible] the University Council [illegible] to the duty of [illegible] drafting the [illegible] the non-delegated system of freshman rules and [illegible] to their [illegible]. For it is not an [illegible] for such a [illegible] or executive body [illegible] by the [illegible] and [illegible] of the [illegible], to [illegible] as [illegible] or [illegible] which is the product of [illegible] and has lately been [illegible] as to its value and [illegible] in the education and [illegible] of the [illegible].

The days of [illegible] punishment such as paddling and similar [illegible] of barbarous [illegible] and customs or [illegible] rules are fast [illegible] into the past. We note the trend in the college world, which [illegible] from [illegible] obedience to a system of [illegible] rules, [illegible] hallowed, and the [illegible] adoption of class honorary [illegible]. The progressive movement is toward a positive psychological [illegible] which has as its aim the orientation and adjustment of the [illegible] individual freshman. Through the media of faculty [illegible] during the Summer Freshman Camp and Freshman Weeks [illegible] genuine feeling of fellowship is built up among not only the new [illegible] to the college [illegible] and those of the other classes. It is no [illegible] a freshman-sophomore [illegible]. Class distinctions are [illegible] and the new student sees himself a part of the whole College [illegible].

In [illegible] a voluntary system of compliance or abridgment of personal initiative and freedom of thought and discussion is every [illegible] the object of a wholesome and keen weighing of values.

As for the work before the Faculty-Student Council, we do not [illegible] for any retention of the freshman rules which were once enforced at the pleasure of the Sophomore societies with the ostensible purpose of aiding the freshman to become a loyal, happy, and useful citizen of the University.

With the developing Freshman Camp traditions and preliminary [illegible] of this end have [illegible] accomplished. We see no crying need [illegible] freshman customs. For [illegible] we become intolerant we must not deny the spontaneous organized class contests such as a tug o'war, cane rush and burning [illegible] taking place in the fun of the college student. All other customs we regard as being of less value than harm. We would advocate the following:

1. That such customs and contests be purely voluntary and not [illegible] by the Faculty Council.
2. That the Green and Gold cap be worn at will by freshmen for [illegible] after chapel, and acquaintance until Christmas. It is no [illegible] secret that this date because of fully three-fourths of the [illegible] have become pledged to the Greek letter societies and entered in [illegible] activities work. The cap should not in respect be removed upon [illegible] a faculty member.
3. A [illegible] "Bible" appears to [illegible] because the unnatural [illegible] greeting [illegible] should be at the will of the student of all [illegible].
4. Attendance at [illegible] intercollegiate games and learning of the Varsity songs [illegible] Here we would offer as valuable suggestions to the [illegible] year. The absence of preparatory school insignia we regard as [illegible] etiquette.

Through [illegible] of these means [illegible] a strong class spirit character [illegible] college loyalty be developed.

Such [illegible] voluntary as [illegible] psychological effect upon the development and adjustment of the entering freshman. We [illegible] our opposition to corporal punishment and all humiliation and degradation. We maintain also our favor of such activities as are being advanced by leading student thought in the colleges.

We oppose the imposition of all pledges designed to secure the [illegible] loyalty by faculty prestige. Such a system as that at Middlebury College is most unjust and would bring the opposition and non-cooperation of all intelligent students. Likewise do we see, in faculty interference and the resort to faculty prestige in any system of customs which might be adopted, a serious danger—that of the usurping of the administration of student affairs by the faculty.

Did Rev. once a vigilance paddling society, would in accordance with the recommendations made by the investigation committee, lose the glorification of its latter function.

Any attempt by the Faculty-Student Council, itself influenced and perpetuated by the closed political activity of class elections, to assure enforcement of a system of freshman rules or customs we unhesitatingly refuse to countenance. For not only would it remove student control of activities which has long been a tradition at Vermont, but also we see in it the danger of further enforcement and restraint beyond the mere first warning and reprimand of disobedient freshmen.

All parties in the present controversy must be satisfied. We would continue to demand liberality, cooperation, clear progressive vision, and the initiative of the University of Vermont in taking a great step forward in its educational program.

We have faith in the interest of the Faculty-Student Council to continue its task Friday and present a plan for the consideration of the students whom it concerns.

The Mystic Pen

For the benefit of those misguided souls who missed the heralded performance of Male Against Female at [illegible] Yes, we miss the fifty cents but don't rub it in!

There was a picture, a very flick[illegible] ran off on a wheezy machine. The sound effects were furnished by a fonograf backstage which had lost [illegible] records. The story was about a woman who was unfaithful to her [illegible] and contracted some awful disease. In fact this disease was so awful that it was not named during the whole evening. The little woman went to a quack. She became worse and ignored the advice of a medical [illegible] she died.

Then there was the man who was unfaithful to his wife. She left him but came back when he was half dead from that same unmentionable disease and under good medical care. The fellow recovered, but we don't think much of the point because, according to the subtitles, he was suffering mostly from remorse. The picture was quite silly, slow and saccharine. We wouldn't refuse an infant the fun of seeing the thing.

Then there was a lecturer with candy [illegible] sections. We didn't learn anything new and when we saw that he was going to pull a pamphlet out of his well lined pockets, we left, not staying to see the *illustrations of the terrible results of ignorance*. We can duplicate the lecture at any time.

—mp—

One Guess Who We're Imitating

The Green, the Cynic, the Mystic Pen and the Cynic, spring and the Mystic Pen, birds and a left wing and a fly, a one eyed female fly, a fly, a fly, lazy girls and a dress a pink, a yellow, a skirt, a shirt, a fella fell, a fell fella fell, I fell, you fell, he fell, we she it fell, falling a fall falling ball, peroxide and the spring, the hopeless spring, the hopeless peroxide the lazy colyumist, the lazy crazy, crazy lazy.

—mp—

Lewis Carroll Resigns

This week we give our valuable space to a gentleman from *Wesleyan*, whose name and ancestry we do not know, but whose future we are assured of. Behold:

Sonit

The lily-white lady of Bosh, and her lover Twaddle.
Trysted while evening rolled down the eastern slopes.
Their busoms unlulated with dark hopes
Of swapping souls to fuse one perfect noddle.
"My mind, I find, is the kind of mind that pours
Its evanescent essence of pure art
Into the grovelling goblet of my heart."
"Pale moons, like toy balloons, by 2s and 4s
Are circumvolvulating thru the drear
And dismal vistas of my once elate
Cerebrum. Fancy doth absquatulate,
While naked stars, like asterisks besmear
My bowl-shaped soul." Some folks who seek a model
Poem, will whisper, "Bosh," and others "Twaddle."

J. A.

—mp—

"Whenever you see a poet," remarks *Robert Lynd*, one of the celebs, "you will usually discover money somewhere in the offing." "And," we hasten to add, "very, very much in the offing!"

—mp—

We passed up the chance to produce our annual quota of Spring Songs. But we stand humbly by and let our nine year old prodigy, who bears the impressive nom de plume of *Harold Ekwobaz*. Behold:

Rain, rain everywhere
From the April showers.
People are out in quantities.
Mowing the grass with huge iron mowers.
Old mother Westwind is singing thru the trees
With her old merry song
And her little twittering breeze. . .

It's quite lyrical in its intensity, and we predict a great future. (Our commission, 12½%).

—mp—

This is an electrical transcription made especially for broadcast purposes. . .

Ten Timely Topics

TARA TANTARA TEENO

Before the little gods of verbosity overtake us, may we, in a few words express our appreciation to Professor Bennett for his presentation of "The Pirates of Penzance." So much that is done on a college campus is so largely the product of a single individual's initiative that we are often bewildered by his seemingly ceaseless activity. Such a man we have in our genial musical director.

What forecast of a student's post college business success is afforded by his scholastic standing? We recall a study along these lines undertaken some months ago by the Bell Telephone System among those of its employees, who were college graduates. Its findings have again struck a note of publicity in certain college journals.

The study embraced four groups of students: One, those students graduating in the first tenth of their class; two, those graduating in the first third but not the first tenth; three, those graduating in the middle third of their class; and four those graduating in the lower third of their class. The records of 3,806 men were studied.

The findings of the Bell Company were illuminating. In the case of the men who had stood highest in their class at graduation they found that at ten years after graduation, the median salary of this group was something over 10 percent more than the median salary of the entire group; at twenty years after, it was about 30 percent more than the median of the entire group; and at thirty years after, was 55 percent more than that of the median.

A similar study among men who had participated in extra-curricular activities was less fruitful but men of "substantial campus achievement" constituted 20 percent of the group studied at twenty-five years out of college, and obtained a median salary 20 percent above the median for the whole group. On this basis only, it appears that "substantial campus achievement" does have some rather definite bearing on progress in the Bell System, but that its influence is not so great as that of high grade scholarship.

It is now a foregone conclusion that the Faculty-Student Council will vote to retain freshman rules in one form or another. We suggest that the rules, no matter in what form retained, be discarded each year by Christmas time. The only good reason for retaining them lies in their alleged influence in promoting acquaintanceship among the first-year men. Two or three months of the freshman cap should be fully sufficient for the purpose.

These quotations are from an editorial in the *McGill Daily:*

"Education has been defined by an Oxford man as being, What remains behind you when you have forgotten all that you have learned. Surely, as college students, we should be vitally interested in what will remain behind when we have forgotten all that we have learned or pretended to learn.

"What we are to be, value to our country, community and to ourselves depends almost entirely upon-what survives. Too many college students regard an education as the wholesale accumulation of facts as the result of having sat through so many classes, or reading so many books, or attending a lecture on this and that. What an unpleasant surprise these people are going to get when they discover the comparatively short length of time that such facts stay with them! How will they feel when they take inventory of what remains behind, and find practically nothing?

"The time to acquire those things that will survive is not after one has tacked a few letters after his name, but while he is in an environment which is very conducive to the acquisition of those things which wear well—in other words, while he is in college. However, it is impossible to include in one's schedule any course or courses that will definitely give one those things which will remain behind. It is up to the individual to get those thing for himself.

"Courses in character building, willpower development, creative ability, perseverance, mind enrichening and good habits are not included in the college curricula. These things are by-products of hard, conscientious effort in the diverse courses included in the curricula of the present-day colleges. It is up to each college student to make sure that he will take away from college at least a few of these valuable things, in addition to the smattering of book knowledge that he obtains during [illegible] the University.

"The answer to the [illegible] is it that remains" [illegible] noble in reason and [illegible] ties."

Time is approaching [illegible] who intend to enroll in [illegible] will be required to make [illegible] tion. So little is known [illegible] rolling in honors" that we advise every junior to [illegible] self with those portions of the [illegible] logue which treat of the [illegible] standing juniors may [illegible] on something if they do not [illegible] honors.

Why are lectures [illegible] classroom so poorly attended? [illegible] it go at the query.

If a system of pledges [illegible] whereby freshmen will [illegible] promise in advance to [illegible] toms" as may be enacted [illegible] or student groups, we [illegible] have to reckon with [illegible] will be convinced that [illegible] been put over them. What [illegible] birthright and the tradi[illegible] dlebury College?

We once saw a [illegible] that contained almost [illegible] matical errors as the [illegible] an Alabama rural polit[illegible] grammatical inaccura[illegible] matics textbook are [illegible] merit special mention. [illegible] point will do to illustrate [illegible] examples of instructors [illegible] who insist on excluding [illegible] course the materials de[illegible] other course. Thus, [illegible] into a course in econo[illegible] ordinarily taught in [illegible] garded as a violation of [illegible] studiously to be avoi[illegible] tionality of such an [illegible] parent. Constant publi[illegible] it in the past has lesse[illegible] an appreciable amount [illegible]

A thorough study of the *Chronicle* leaves us [illegible] waste of time and effo[illegible] If it will agree to impo[illegible] restriction on its [illegible] may consider permitti[illegible] arize on us to the ex[illegible] its title to the "Seven S[illegible] ics." The title occurred [illegible] think it should be [illegible] tical and suitable use.

Nothing enrages us [illegible] see another institution [illegible] our state usurp the li[illegible] licity which rightfully [illegible] mont. A debating team [illegible] college in this state [illegible] comparatively short [illegible] photographs and numer[illegible] the subject in many pa[illegible] the state. The Vermont [illegible] taking a trip many time[illegible] difficult, rarely received [illegible] than have debate s[illegible] former institution.

Campus Comment

To the Editor of [illegible]

For some [illegible] CYNIC issue of [illegible] the Mid-west d[illegible] less successful [illegible] ern venture. [illegible] mysterious reason[illegible] or beast and [illegible] bers, the CYNIC has [illegible] rect comparisons [illegible] it's just getting [illegible] the school seems [illegible] habit.

Personally, I was [illegible] teams, taking part [illegible] both trips. Natural[illegible] little to me as an [illegible] Doe of the CYNIC [illegible] to judge seasons [illegible]

But the essential [illegible]

It so happens that [illegible] was the most succes[illegible] that I have ever [illegible] was the hardest w[illegible] happiest appearing [illegible] all the smoothest per[illegible]

Every bit of the [illegible] to Pete and Paul [illegible] to make the trip [illegible] even harder once [illegible] There wasn't one st[illegible] or bickering durin[illegible] travel. Not even the [illegible] pushing our ancient [illegible] 1:30 a.m. in a p[illegible] could take the gru[illegible] or the wisecracks from [illegible]

Vermont honestly [illegible] and Paul, and it [illegible] learn that the Offic[illegible] University of Verm[illegible] initial efforts "mode[illegible] ful.

Perhaps the CYNIC [illegible] reply is necessary. If [illegible] form, it will no doubt [illegible] investigation to dete[illegible] the whole truth, nothi[illegible] and six other types [illegible] gney. I shall offer [illegible] laugh too easily."

Review of "Pirates of Penzance"

The production of Prof. H. G. Benham's has again proved capable of producing a noteworthy success when the University Glee Clubs united last night to present Gilbert and Sullivan's musical comedy, "The Pirates of Penzance."

The presentation was sufficiently finished to assure it an enthusiastic reception from the audience, even in spite of certain lack of polish, which sometimes threatened but never succeeded in marring the production. Failure to learn their parts well enough accounted for occasional forgetful slips, but these were rare enough to detract little from the excellence of the comedy.

First honors were shared by Mailla Putnam and Dorothy Fowler, both unusually well cast for their parts. Miss Putnam, singing the part of Ruth, the "piratical maid-of-all-work," lent a humorous touch to the performance noticeably lacking from the operetta as a whole. Her opening solo was reassuring; her duet with Frederic, the handsome pirate apprentice played by Roger Allbee, one of the high spots of the evening, and her later scenes almost equally good. Miss Fowler brought to the stage the sweetest voice in the cast, taking the part of Mabel, Major-General Stanley's youngest daughter. Her performance was consistently good.

It was unfortunate that the best voices should also have been among the poorest actors. Undoubtedly the best actors of the evening were Roger Allbee and Benjamin Baker, the latter taking a minor part as Edward, sergeant of police.

Allbee was a bit of a disappointment, singer of the high grade character of his acting. His voice was too thin to carry his part through the solos, although in the two- and three-part songs and especially in his duet with Miss Putnam in the first act, he showed up well. Watson Morgan, who played the pirate chief, deserves special mention for a mellow baritone voice and the ease with which he carried his part.

With the exceptions of Miss Putnam, Miss Fowler and Morgan, all of the singers showed up far better in the duets and trios than in the solo parts. This is to be expected in an amateur performance, and the surprising feature of the production lay less in the inadequacy of some of the solos than in the near-perfection of most of the multi-part scenes.

The women's chorus was far superior to the men's. The latter displayed an appreciable amount of uneasiness from the first and the duration of an entire act was hardly sufficient to overcome it. The women's chorus also contained two excellent singers in Catherine Skinner and Priscilla Perry, who played minor parts along with their roles in the chorus. High-water marks of the production included the patter songs of the women's chorus; the humorous duet of the Jenks brothers, Mason and Robert; the Allbee-Putnam duet in the first act; the Morgan-Putnam duet in the second act; the Allbee-Morgan-Putnam trio in the second act, and certain of Miss Fowler's solos. The battle in the second act was a triumph over technical disadvantages in the scenery appointments. On the whole, the second act was superior to the first, especially in the singing of the male parts. The orchestra was one of the fastest we have ever heard at an operatic production; at times it was many seconds ahead of the cast.

Cast:

Major-General Richard's Lieutenant ..... M. B. Jenks
The Pirate ..... R. S. Jenks
Frederic, a Pirate Apprentice ..... R. H. Allbee
Ruth, a Piratical "Maid-of-all-work" ..... Mailla Putnam
Samuel, a Pirate Chief ..... W. E. Morgan, Jr.
Edith, Kate, Isabel
Major-General Stanley's Daughters ..... Catherine Skinner, Priscilla Perry, Charlotte Odell
Mabel, General Stanley's Youngest Daughter ..... Dorothy Fowler
Major-General Stanley, of the British Army ..... A. A. Scharbius, Jr.
Edward, a Sergeant of Police ..... B. Baker
Major-General Stanley's Daughters: Ruth Buxton, Elizabeth Dickens, Sylvia Farnham, Ethelyn Foster, Irene Hall, Sylvia Holden, Helen Jenkins, Allene McNall, Elizabeth Mandigo, Dorothy Nash, Agnes Parsons, Gene Petze, Dorothy Sweeney, Ruth Tarleton, Helen Taylor, Betty Wallace, Elinor Willey.

Pirates: S. H. Carsley, R. F. Cowles, G. L. Davis, H. R. Fleming, J. G. Gordon, C. B. Harwood, D. C. Hazen, J. H. Jardine, D. W. Jenks, G. M. MacKenzie, W. J. Miller, W. J. Patton, N. H. Press, E. E. Rand, C. O. Ricker, R. H. Russell, I. Schwartz, J. C. Shoor.

Policemen: G. L. Davis, J. G. Gordon, C. B. Harwood, J. H. Jardine, D. W. Jenks, G. M. MacKenzie, W. Q. Miller, E. E. Rand, I. C. Shoor.

Orchestra: Violins: Miss Charlotte de Volt, concert master, Irene Marcotte, '30, S. B. Barker, Ella White, Pierce March, D. E. Bennett, Jr. Violoncello: Ios Ruth Wood, Esther Wheeler, Laura Tracy. Flutes—Elizabeth Eckhard, A. F. Whiting. Clarinet—F. W. Householder, Jr. Trumpet—C. F. Heath, Jr. Piano: Katrina Mann.

Faculty Direction: Dramatic Director: Prof. J. T. Metcalf. Musical Director: Prof. H. G. Bennett. Costumes: Mrs. Isabel Mills, Miss Mary Maud Patrick. Properties: Mrs. Isabel Miller. Vocal Coach, Mrs. Elizabeth Bradish. Concert Master of Orchestra, Miss Charlotte deVolt. Dancing, Miss Annis Baldwin.

Student Management: Women's Glee Club—President, Agnes Parsons; Manager, Ruth Buxton; Posters, Evelyn DeBrune. Men's Glee Club—Manager, R. S. Jenks.

DARLING WILLS U. V. M. FIVE THOUSAND DOLLARS

The University of Vermont will receive a bequest of $5,000 under the terms of the will of the late Elmer A. Darling of Burke. The will which was filed in Probate Court, April 16, revealed the fact that Darling's estate is worth $211,000.

Many bequests were made to other Vermont educational institutions, the largest being to the Lyndon Institute at Lyndon which will receive $100,000. Middlebury College and Bennington College for girls will each receive the same amount as Vermont, $5,000, while St. Johnsbury Academy receives $10,000.

The remaining bequests are as follows: $30,000 to the Burke Mountain Club at Burke, $10,000 to Brightlook Hospital at St. Johnsbury, $15,000 to the Congregational Society of East Burke; $15,000 to the Woodmount Cemetery of East Burke; $6,000 to the Burke Meeting House; $10,000 to the town of Burke as a fund for aiding needy persons.

A. I. E. E. TO CONVENE THIS P. M. IN SCI. HALL

The Vermont Chapter of the American Institute of Electrical Engineers will hold a meeting in Room 27 Williams Science Hall this afternoon at four o'clock. Moving pictures will be shown. The titles are:

"The World's Telephone Workshop"
"The Telephone Repeater"
"Something About Switchboards"
"A Concrete Example"

These pictures are of interest to every one who uses a telephone.

NEWS IN BRIEF

Pres. Guy W. Bailey has returned after speaking last Tuesday night at the annual meeting of the Providence, (R. I.) alumni of the University and Wednesday night at the annual meeting of the Boston alumni. Prof. Elijah Swift, assistant dean of the Arts and Sciences also spoke at the Boston meeting.

The Newman Club is planning a bridge party to take place inside of two weeks at the Cathedral High School gymnasium.

The monthly meetings are being held regularly.

Co-ed Notes

Y. W. C. A. [illegible] was held at the Kappa Alpha Theta house Monday, April 20. The new cabinet was installed at this time.

Y. W. C. A. [illegible] of officers [illegible] Monday, April 27. The Kappa Alpha Theta [illegible] ...

The [illegible] ... Sylvia Rose ... Delta [illegible] ... Dana Patten ... Perry ... presented.

The junior girls secured the class bowling championship April 16, in two string candle pin matches, which ended the supervised bowling season for women. Lenora Mount, '32, and Mildred Adams [illegible] a total of 267 for the two strings. The sophomores, Evelyn Hamblett and Eleanor Flanders, came in second with a score of 262. Dot Johnson and Hamblett were tied with 251. Daisy Putnam and Myrtle Jaquith rolled for the freshmen, while Helen Drugg and Helen Dunleavy formed the other team.

F. M. SMALL APPOINTED ORANGE COUNTY AGENT

Frank M. Small, [illegible] Extension Service, worker, has been appointed to succeed Guy D. Hawkins as county agricultural agent in Orange county. Mr. Hawkins, who has been agent in the county for five years, has resigned to engage in other work. Mr. Small's appointment takes effect May 1.

Mr. Small is a state of Maine man, having been born in Cherryfield and took his agricultural college work at the University of Maine at Orno, from which institution he received the degree of B.S. specializing in dairy husbandry. Graduating in 1923 he became assistant state dairy inspector, with headquarters at Augusta, and then joined the James Manufacturing Company at Elmira, N. Y. Since 1925 he has been in creamery and dairy marketing work, serving as field man and in other capacities. Mr. Small has been doing field work recently under Mr. Hawkins.

TWO U. V. M. DEPT. HEADS ATTEND N. E. C. A. MEET

Professors S. E. Bassett and L. M. Prindle and Miss Wiss of the classical faculty attended the meeting of the New England Classical Association at Smith College, March 27 and 28. At this meeting Professor Bassett read a paper on "The Inductions of the Iliad, the Odyssey, and the Aeneid."

FEDERAL INSPECTION TO BE HELD MAY 12, 13

The annual Federal Inspection of the R. O. T. C. [illegible] will be made [illegible] May 12 and 13, according to announcement made by the Commandant. The Board of Officers [illegible] will be composed of Major Robert H. Barrett, [illegible] Corps Area at Headquarters of the First Corps Area at Boston, Mass., and Major [illegible] E. Theobald, 13th Infantry, on duty at Fort Ethan Allen, Vermont.

BRAUN WILL SPEAK AT CHEM. MEET TOMORROW

Prof. C. E. Braun of the department of chemistry will speak on the subject, "The Chemistry of Some Sun Spots," at the Chemistry Seminar to be held in Williams Science Hall tomorrow afternoon at 4:00.

If you like to dance go to Oregon State. University's fifty-two dances were held there in one week.

Dorothy Lockwood, '32.

Intercollegiate News

Democracy

Democracy is another embodiment of this principle. In spite of all the reverses which the political institutions of democracy have suffered the ideal of democracy is more widely accepted than ever. (In how many countries where this is true have there ever flourished?) In the league the nations which represent democracy and dictatorship work together on democratic principles. Even the high caste people of India began to acknowledge the principle of social democracy at the Round Table Conference. In this country, where moral relativism has perhaps gone farthest, democracy is generally accepted. It took the slogan "to make the world safe for democracy" to arouse enthusiasm for a war which was a denial of the value of persons. The philosophy of John Dewey and the New Education connected with it recognize democracy as a practical absolute though they are regarded as the source of much of our moral relativism. The defenders of capitalism must make speeches to show that capitalism is the method of providing equal opportunity for all persons. Those who practice racial discrimination or on the defensive except in the very circles which have not yet entered the age of relativity.

This principle in [illegible] ... leaves much to be discovered about the course of the good life and the [illegible] ... of personality. There is [illegible] ... moral relations. But it does give us a criterion which can be applied to [illegible] ... We can [illegible] ... democratic principles. Even the [illegible] ... should seek them and [illegible] ... that I should use them [illegible] ... only for myself but also for others and directly are affected by the acts.

— John Bennett of Auburn.

Successful Graduates

[illegible] ... Yale University [illegible] ... figures to show that Harvard College alumnae average $ [illegible] ... a year while graduates of Dartmouth, Massachusetts Institute of Technology and Princeton get higher salaries of $ [illegible] ... and $11,081 respectively. Princeton alumni get such high salaries on the study concludes, because they inherit opportunity for financial success and thus secure high salaried positions immediately after graduation. Graduates of M. I. T. usually begin working at low salaries which later in life they may raise even above those of Princetonians.

This study has interest; its main fault however, lies in its stress upon material success. Its viewpoint is quite characteristic of American codes of values and might well have been made for publication in *The American Magazine*.

Educational surveys dealing with graduates' wealth and prominence are comparatively simple to make, such investigators find something tangible to render into statistics. But a study that would judge the contribution of a college to the happiness, usefulness, and understanding of its alumni seems to difficult if not impossible to make.

It is interesting to speculate on the questions that [illegible] ... would be given to such a survey could be made. Where would the best-rounded Princetonian place? How would the [illegible] ... Princeton College of Wisconsin compare with other colleges of this [illegible] ... Would [illegible] ... Amherst, Williams College of Mines Art, find [illegible] ... Wisconsin graduates?

[illegible] ... Yale graduates of the [illegible] ... think nothing of [illegible] ... everything they can lay their hands on," said Assistant Fire Chief Jim O'Connor of the [illegible] ... department, who [illegible] ... to a fire [illegible] ... than [illegible] ... at Purdue University, who made away [illegible] ... the hand now [illegible] ... Business, but at a recent fire [illegible] ... pocket.

Last, members of the Johns Hopkins University faculty recently went on record as favoring the discontinuance of inter-collegiate football at the university.

Then there was the Trotter who thought Public Sentiment was open [illegible].

NOTICE

ST. MICHAEL'S BASEBALL GAME

Due to the track meet with Colby on May 9, the baseball game scheduled for April 25 will be St. Michael's home game, and the game scheduled for May 9 as St. Michael's home game will be Vermont's home game.

In as much as the game on April 25 at Centennial Field is under the St. Michael's College management, student and faculty tickets will be on sale Wednesday, Thursday, Friday and Saturday morning at the University Bookstore at 50c each. General admission tickets sold at the field will be 75c. Ticket books should be presented when purchasing tickets at the Bookstore.

S. C. Abell,
Graduate Manager.

LOST

From the selves of the Billings Library Encyclopedia Americana, Volumes 4 and 23. International Encyclopedia, Volume 5. Stevenson Home book of verse 6th edition. Stevenson Home book of modern verse.

Anyone knowing the whereabouts of these volumes will please return them to the Library immediately as they are much needed. They are expensive books and in the case of the Encyclopedia it is absolutely impossible to replace separate volumes.

Helen B. Shattuck,
Librarian.

Miss Cummings wishes to announce that the girls' indoor rally will be held this Friday evening at eight p.m.

WANTED

Sophomore scrubs for Wig and Buskin. Report to J. W. Marvin at the Delta Psi House.

Seniors must sign their order for canes and send them immediately. The price for canes this year has been reduced from four dollars to three dollars.

(signed) W. F. Craig,
Chairman of the Cane Committee.

Children's Aid Society Has Great Growth in Twelve Years' Existence

The Children's Aid Society, of which Professor A R Gifford of the Philosophy department is president, was founded twelve years ago and has grown steadily since At that time its yearly income was $5,000

In 1929 the expenditures were nearly $50,000, while the number of children assisted by the society has increased proportionately

The purpose of the society is to [illegible] by studying the cases reporting to the public and then placing unfortunates in suitable homes The society does case work [illegible] work and also [illegible] keep family groups [illegible] The children [illegible] Aside [illegible] although it does not [illegible] with its wards [illegible] they are 21 The foster homes [illegible] children are removed, [illegible] action are necessary approved by the general secretary, Miss Josephine Webster

From the first, however the society has recognized that prevention was the most important phase of its work One most important cause of child neglect was found to be the adoption of children by unsuitable foster parents while the probate judges were powerless to prevent it The Children's Aid was instrumental in making it required that all prospective foster home be thoroughly investigated

The Society has also been influential in raising the marriage age from 14 for girls and 16 for boys to 16 and 18 years respectively This will help prevent the rearing of large families of neglected children

At present the Children's Aid is trying to prevent the transfer of children by their mothers to almost anyone who will take them Such children are usually of illegitimate birth and are given away with scarcely any formality and passed from one undesirable family to another As yet, the passage of a bill prohibiting the transfer of the custody of a child without the consent of a court of record has failed; meanwhile the Society is doing its best to relieve the conditions of such children.

FIVE SORORITY FORMALS WERE HELD LAST FRIDAY

Five sororities held formal dances either at their chapter house or at local lodge and hotel halls last Friday evening

Pi Beta Phi held its formal dance at the Country Club with the Black Panthers from Middlebury furnishing music Mrs VanDyke and Prof. and Mrs J K Pooley chaperoned

Alpha Xi Delta held its formal dance at the Catholic Daughters rooms Carl Ramm's orchestra played Prof and Mrs J T Metcalf chaperoned.

Alpha Chi Omega's formal dance was held at the fraternity house with Lechnyr's Vermonters playing The chaperones were Prof and Mrs I. W Dean and Prof and Mrs D. B Carroll

Sigma Gamma held its formal dance at the Hotel Vermont Roof Garden with Lechnyr's Vermonters' playing. Prof and Mrs C E Braun and Prof. and Mrs. W. R Adams acted as chaperones

The Epsilon Sigma formal was held at the Masonic Rooms Music was furnished by Charles Heath's orchestra Prof and Mrs B H Wallace and Mr and Mrs A L. Mills chaperoned.

Kappa Alpha Theta will hold its formal May 1, at the Hotel Vermont with Lechnyr's Vermonters' as dance orchestra. Dean and Mrs. Swift and Prof and Mrs H F Perkins will chaperone

Delta Delta Delta will hold its formal dance May 1, at the Van Ness Roof Garden, with orchestra. "Dick" Holbrook's "Harmonians" Prof and Mrs C. L. Stineford will chaperone.

Kappa Delta's formal dance will be held May 1, at the Country Club; music will be furnished by "Bill" Clapp's orchestra; Prof. and Mrs. I. W Dean and Major and Mrs. O. H Stanley will act as chaperones

BARKER, COLLABORATES ON UNEMPLOYMENT BRIEF

A brochure, "A Remedy for Unemployment and Industrial Depression" by Edwin R. Douglas, a Vermonter, and Harry Barker, '04, has just come off the press It is a study of the cure of what is thought to be the greatest industrial or social problem of the day—unemployment and business depression, with references to the Vermont Flood Credit Corporation and its work

At Michigan State University a course in hotel management has an enrollment of 180

"Were you trying to catch that street car"

"Oh, no, indeed! I was merely frightening it away from this corner"

—*Ranger*

BEST R. O. T. C. SQUAD TO BE GIVEN PRIZE CUP

Realizing the value of military training to National defense, the Reserve officers of Burlington, Vermont, through Lieut. Col. R W McQuen presented a cup in 1929 to the Infantry unit of the R O T C at the University of Vermont, for the purpose of encouraging competition in drill and thereby increasing the efficiency of the Unit

This cup will be awarded annually to the most efficient squad, as selected by competent judges at a competition to be held at the time of the annual general inspection in May Each fraternity may enter the squad in the competition and one squad may be composed of non-fraternity men.

The cup will be retained for one year by the fraternity or group furnishing the winning squad It will become the permanent property of the fraternity or group which shall furnish the winning squad in three annual competitions.

The squad in competition will consist of eight students in ranks and one additional student who will conduct the drill as squad leader. The students in ranks must be members of the basic course R. O. T. C. (Sophomores or freshmen) not exceeding fifty percent being members of the second year class, (sophomores). The squad leader must be a member of the R O T C., but may be a member of any class, basic or advanced course.

The following points will be considered by the judges in determining the most efficient squad:

1. The excellence of performance of movements in the competitive drill
2. The military bearing and the condition of the uniforms and equipment of the members of the squad in ranks and of the squad leader.
3. The manner of giving commands and the general control of his squad by the squad leader

In the competitive drill, a squad may be called upon to execute any or all of the movements described in the following listed paragraphs of training regulations, and only movements described therein will be considered

TR 50-15 Sec II. Par 2-6 Incl.
Sec III. Par 8-19 Incl.
TR 420-50 Sec. I. Par. 4-7 Incl.
Par. 9-12 Incl.
TR 50-20 Sec I. Par. 2 and 4
Sec II. Par 6-27 incl.
Par 30

These movements are

1. Position of the soldier, or of attention
2. Eyes Right (Left).
3. Right (Left) Face.
4. Right (Left) Half Face
5. About Face
6. March in Quick and Double Time.
7. Halt.
8. March at Half Step.
9. Mark Time.
10. Side Step.
11. Back Step
12. March by the Flank.
13. March to the Rear.
14. Change Step.
15. Manual of Arms (all movements except Fix and Unfix Bayonets).
16. Form the Squad.
17. Align the Squad
18. Open and close rank
19. Stack and Take Arms.
20. Oblique March.
21. Turn on Moving Pivot
22. Turn on Fixed Pivot

Announcement has been made from Headquarters First Corps Area, Boston, Mass that the annual Federal Inspection of the R. O. T. C. Units at the University of Vermont will be held on May 12 and 13, 1931.

The board of officers to conduct the inspection this year will consist of Maj Robert H Barrett, Infantry Headquarters First Corps Area, Boston Mass and Maj Jacob E Bechtold 13th Infantry, Fort Ethan Allen, Vt

FOUR VT. HIGH SCHOOL STUDENTS WIN PLACES IN ORATORICAL FINALS

Misses Lavethal, Chase and Whitney and R. T. Stafford Will Compete for State Title

Robert T Stafford of Rutland High School and Miss Ethel Lavethal of Montpelier High School were first prize winners and Miss Madeline Chase of Brattleboro High School and Miss Mary Whitney of Northfield High School, second prize winners in the Rutland and Montpelier district oratorical contests, of the state series sponsored by University of Vermont. The first prize winners will receive scholarships valued at $150 at the University of Vermont while the second place winners will receive $100 scholarships

State Contest

The first and second place winners will meet at Burlington to decide the state champion next Friday. The contest will be held in the City Hall auditorium under the auspices of the University of Vermont.

Other contestants at Rutland were Harold Ladd Smith, who represented Proctor High School and Anita Kittell the orator from Burlington High School. At Montpelier the unsuccessful orators were Miss Clara E. Jay, St. Albans High School, last year's second prize winner in the state contest and first prize winner in the Burlington district contest. Norman Lawson, People's Academy, Morrisville and Nathaniel Gould of Spaulding High School of Barre.

History

The state oratorical contest has for a numbers of years been operated by the University of Vermont in cooperation with the *Burlington Free Press*, but this year the University offers the prizes of scholarships and conducts the contest without outside assistance.

There are fewer schools in the state oratorical contest this year than formerly, last year there being three districts as compared with two this year.

Last year's winner was Floyd Kinsley of People's Academy, Morrisville, who later won third prize in the Eastern district contest at Utica, N. Y. In 1929 the winner was the Brattleboro High School representative and in 1928, People's Academy won.

Original Orations

The contestants are required to prepare and deliver an original oration on some phase of the Constitution of the United States. The ones used by the winners in the Rutland contest this year were "The Influence of the Doctrinal Powers as Enumerated in the McCullock vs. Maryland Decision" and "The Influence of the Veto Powers of the President" It also has been the custom in some years to require an extemporaneous speech on a subject given by the chairman but this is not being used this year.

DEAD LANGUAGE COMES TO LIFE AT PITTSBURG

A dead language came to life recently in a lighted room before the Greek class at the University of Pittsburgh when Prof. H. S. Scribner, head of the Greek department, spoke the famous Greek word "Eureka" into a new device, developed in the Westinghouse Research Laboratories.

As the word "Eureka" entered the device, curious lines very much like an animated movie wriggled from left to right across a screen about the size of a large plate.

These lines showed the "high" and "low" spots of the professor's voice. They made it possible for observers to distinguish the "pure" from the compound notes or tones which are heard by the human ear.

It is entirely possible to dove-tail the high and low spots of many noises to produce, or approach, silence. For instance, two tuning forks with equal wave lengths or frequencies are set in motion. While each produces a note which is heard by the human ear, yet both together, under certain conditions, produce a "silent" note which is not heard by the human ear.

For specific machines, such as airplanes, the solution to our present noise problem may be in the direction of dove-tailing the high and low spots of the various objectionable noises so that they do not fall within the range of the human ear.

Note to Editor:

Technical description of this apparatus may be obtained by requesting article A-08657.

BRIEFLET TEACHES ART OF LAMP-SHADE MAKING

Extension Service Briefiet, No. 310, which is descriptive of parchment shades, has been prepared by Miss Marjorie E. Luce, state home demonstration agent, and is ready for distribution. The briefiet is one of four pages and describes how to prepare the material for parchment shades, how to decorate them, where to obtain the supplies, how to fashion the different styles, how to attach them to the frames, and how to take the other necessary steps in their home manufacture.

Real parchment, which is especially prepared sheepskin, is expensive. The so-called parchment paper, however, which is used for making lamp shades, is merely a heavy grade of paper that has been treated with oil to render it translucent. This paper may be bought, or one may easily oil the paper. As the oil dries, the paper becomes translucent, and also develops a flecking and mottling.

April 24 and 25

"The Little Accident" [illegible] A very presentable young man [illegible] himself a father on the eve [illegible] wedding and becomes involved. After a series of [illegible] hilariously funny antics he [illegible] emerges in safety. Douglas [illegible] Jr., is perfect as the young father [illegible] Anita Page is better than usual. Dismiss this—the hospital scene is wow, and Zasu Pitts is in the cast

Monday and Tuesday
April 27 and 28

We all knew that Joan Crawford was Okay but most of us never suspected that she was a great dramatic actress. Joan is marvelous in "Paid" and she has good support from Kay Douglass, Robert Armstrong, and Marie Prevost. The film is an adaptation of Bayard Veiller's famous stage play "Within the Law." Be sure and see Joan if you didn't at the first Burlington appearance of "Paid"

Time of game—2.28.

Wesleyan 3—Vermont 0

Playing against an untried Wesleyan nine at Middletown, Conn., last Friday the Cats were blanked 3 to 0 in a brief game which was forced to an end in the sixth inning by continual rain.

Charlie Cummings who toed the rubber for Vermont was rather unsettled and was touched for five safeties. Two passes which he issued resulted in scores. He was credited with six strikeouts, however. Nye, who twirled for Wesleyan had no trouble mowing down the Cats, whiffing eight of them. Only one hit was garnered off his delivery and that by Baker. Wells secured the only extra base hit of the game, a two-bagger in the fifth.

CIVIL AND MILITARY TAILORS TO GENTLEMEN FOR 81 YEARS

YEARLING NINE OPENS SEASON WITH VICTORY OVER FORT SOLDIERS

Stage Two-run Rally in Last Inning to Win, 4 to 3—Wesoly Hits Homer in Third

FROSH SHOW UP WELL IN THEIR FIELD WORK

By staging a two-run rally in the last half of a seven-inning contest at Centennial Field, Thursday, the freshman defeated the Fort Ethan Allen nine by a 4 to 3 score. In the third inning Andy Wesoly banged out a lusty home run with one on.

The work of Coach "Doc" Newton's yearlings in their first encounter after only a week of practice came as a pleasant surprise.

None of the regular frosh made errors, and the soldiers made only a few safeties off the Kitten slab artists. Burnell, who pitched the first three frames, didn't allow a single bingle, and showed up exceptionally well. Spicer, who finished the contest, also performed well except in the last inning.

In this frame the Fort Ethan Allen boys touched him for three runs, including a brace of doubles, and it looked like a visitor's victory. But in the Green and Gold half, concannon walked, Cogswell singled, Wesoly was hit by a pitched ball to fill the bases, and Jim Smith banged a clean single into the outfield which brought in the two runs.

Cass caught the entire game. Concannon at first, Cogswell at second, Rubino at short, and Griffiths at third made up the infield, while Wesoly and Smith took charge of two outfield berths, and Delfausse and Beckley shared the other post.

EX-VT. HISTORY HEAD TO LECTURE IN EUROPE

Prof. Arthur I. Andrews head of the history department at Vermont in 1927 and 1928 will sail May 1 for England, Poland, Romania and Czechoslovakia to give a series of lectures on the relations of the United States with Eastern Europe and upon the American Foreign Policy.

Mr. Andrews is a member of the Commission on Constitution of the International Committee of Historical Sciences and also chairman of the Committee of Collaborators for the United States in connection with the work of the International committee on Historical Sciences. Walter H. Crockett and Melvin H. Laatsch both members of the faculty of Vermont are other collaborators on this latter committee.

While in Europe, Professor Andrews will gather material for a book on "History of the Near East" and for such other literary works as "A Survey of Czechoslovakia Ten Years After" and "East of Venice."

AGGIE CLUB SEES PROF. ELLENBERGER'S MOVIES

At the last meeting of the Aggie Club held before the beginning of spring vacation, Prof. H. B. Ellenberger gave an illustrated movie lecture on observations made when he toured the South during his sabbatical year. Following a second talk by Dean J. L. Hills, suggestions were made and discussed concerning future club activities with a possibility of a continuance of the type of program already started or of a combined meeting with members of the home economics department in form of a dance or social. Refreshments of maple sugar on snow were served.

SPORTS SYMPOSIUM

Columbia Attains Two Crowns

Two intercollegiate team championships, two individual titles and an impressive string of victories represent the harvest reaped by Columbia University athletic teams in the winter season just concluded.

A recapitulation of the winter sports season on Morningside Heights discloses the interesting fact that the Blue and White won forty of its intercollegiate contests and lost only twenty-one, giving Columbia a percentage rating of .657 or almost two victories out of every three games.

In addition to this generally fine showing, Columbia won the championship of the Eastern Intercollegiate Basketball League for the second year in succession. The Columbia sabre team captured the intercollegiate title in the finals at the Hotel Astor, New York, and the individual sabre championship was again won by Haakon Gulbransen of Columbia.

The varsity basketball team did much to make Columbia's winter sports showing one of the finest in many years. Defending their 1929-30 championship in the Eastern league, the New Yorkers made a clean sweep of all ten of their league games, and over the entire season won twenty-one contests and lost only two to Syracuse and to Fordham, both away from home.

Gus Peterson's wrestling team captured eight meets out of eleven, losing only to Cornell, Lehigh and Princeton, the latter by one point. In the individual championships at Yale, Orrin Clark of Columbia won the intercollegiate title in the 165-pound class.

Despite the loss of Ray Ruddy, intercollegiate champion and world's record holder in the 440 yard race and Johnny Rae, breast stroke swimmer, the Columbia swimming team won more than 50 percent of its meets, with six victories against five defeats. The water polo team, also weakened by the loss of Ruddy, who has been called the greatest college water polo player of all time, did not fare so well, winning only three matches out of eight.

The record of the Columbia teams in winter sports follows:

	Won	Lost
Basketball	21	2
Wrestling	8	3
Swimming	6	5
Water polo	3	5
Fencing	3	6
Totals	40	21

Proof of the fact that athletics and scholarship go hand in hand is again provided in the cases of three Columbia athletes this year. Orrin H. Clark and Edward Baker, both members of the Columbia wrestling team, are members of Phi Beta Kappa, national honorary scholarship fraternity. Recently these two were joined by Henry Walter, bow oarsman in Richard J. Glendon's varsity crew.

Clark won the intercollegiate championship in the 165-pound class recently. Walter was bow in Columbia's Poughkeepsie championship crew of 1929, which won all its season's races. This is his third year in the varsity shell.

Students of the University of Pittsburgh decided in an open forum that student government is "obsolete." It is their belief that the so-called undergraduate administration is a mere cat's paw for the University Administration.

FEWER VETERANS THAN USUAL FOR VERMONT'S TRACK TEAM THIS YEAR

Coach Post Will Have to Develop Team from Inexperienced Men—Large Group of Candidates Reporting

FIRST MEET IS MAY 2 AGAINST ST. LAWRENCE

With the coming of summer weather, Coach Archie Post is giving his track men plenty of hard work in an attempt to get the team in shape for the first meet scheduled with St. Lawrence University at Canton, May 2.

At the opening of last season most of the followers of the Green and Gold were very optimistic regarding this season's prospects but mid-years exacted a far heavier toll than usual among the trackmen so that instead of a fairly strong nucleus to build upon, Coach Post will be forced to choose and develop his men from an inexperienced group who have had but little training.

For veterans Coach Post will have Captain "Peep" Park in the weights, one of the few consistent point getters of last year's team; "Stew" Phillips and Gardner in the javelin throw. For distance men Colburn, Huey, Flagg and Hadley are the most prominent reporting for work. Meehan is the only pole-vaulter of proven ability. Maynes and Child two lettermen from last year, appear to be the best bets in the broad jump, while Cohen is the only hurdler from last year's squad. There seems to be a particular dearth among the dash men with only Young and Grant from the participants who competed last year.

However, there is a large group of willing candidates reporting, and barring any unforeseen difficulty, Coach Post will be able to develop a winning team.

WOMEN'S INDOOR MEET TO BE HELD APRIL 24

The Indoor Meet, held annually as a competition between the freshmen and sophomore women, will take place at the gymnasium on Friday, April 24 at 8:00 p.m. The following program will be presented.

1. Posture March: freshmen in competition with sophomores.
2. Relays: freshmen in competition with the sophomores.
   1. Mother Goose
   2. Pass and Spot
   3. Tip Top
3. Demonstration dancing for graded schools by the first year teacher training girls.
   1. Chimes of Dunkirk
   2. Cachucha
   3. Shoemaker's Dance
   4. Varsovienne
4. Cage Ball: freshmen vs. sophomores.
5. Competition Dancing.
   1. The Generals: the sophomores
   2. Jockey Dance: the freshmen
6. Demonstration Dance: by the elective dancing class.
   1. East Side

"Where Vermont Men Meet"

DEAN HILLS TELLS OF MORRILL'S CHARACTER

(Continued from page 1)

Beautified Nation's Capital

[illegible] was interested in the beautification of the National capital city. Perhaps more than [illegible] we owe the completion of the Washington Monument, the erection of certain public buildings, especially those housing the State, Navy and War Departments, the reconstruction of the eastern front of the Capitol. Kept [illegible] indebted to him for successful efforts in respect to the erection of the magnificent building which now houses the Congressional Library. The very last speech he made in the Senate before his death was in behalf of the project of building a home for the United States Supreme Court, a dream which now, thirty years later, is about to be realized. It seems passing strange that a man born, brought up and living most [illegible] life in the simple surroundings of an Orange County farming town should have evidenced the fine artistic sense which became realized in such enduring architecture.

Welfare and Progress

But these two contributions to national welfare and progress were notable, sufficient to send his name down through the ages, but they were not all. He made what, in some respects, was a yet greater gift to posterity. He was the main sponsor of a new and national system of higher education created in behalf of the industrial classes. Prior to 1860 to all intents and purposes they had no access to collegiate halls. Indeed, had they had such access they would have found little therein which would have been of use to them. Colleges in those days were for the intelligentsia. They trained for law, medicine, the ministry, teaching, the learned professions—they did not attempt to meet the needs of what Abraham Lincoln called the common people. While doubtless Senator Morrill was not the only one who felt that such folks deserved a better chance than they had had, at any rate he it was who coped with the difficulties that beset the path and secured action. He was successful in 1862 in securing the passage of a law which placed and endowed in every State in the Union a college or university whose leading object is the teaching of subjects which are allied to agriculture and engineering. As a result of that legislation, many of the greatest colleges of the land were created, not only (in part) the University of Vermont (from which this broadcast is being sent) but such institutions as Cornell University and the great State Universities of Ohio, Illinois, Wisconsin, Missouri, California, such State Colleges as those in Massachusetts, Pennsylvania and Michigan. These colleges quite commonly have been called argicultural colleges, but this is, and always has been, a misnomer. They have had to do with engineering fully as much as with agriculture. These institutions now teach students by the hundreds of thousands and disburse funds of federal, state and private origin by the hundreds of millions. Their activities are legion. They teach the several arts and sciences, the trades and industries, humanities, economics—all sorts and conditions of subjects. They teach resident students, summer-school students, by correspondence, by radio, by outlying courses. They carry on research work along lines of pure and applied science, as well as in agriculture, home economics and engineering. They do extension work in these several fields. The county agent system has placed county agents, home demonstration agents, and 4-H club agents in most of the agricultural counties throughout the land. Thus the entire state becomes the campus of such a college. A mighty oak has grown from the acorn of the original Land-Grant Act which thanks to Justin Morrill was passed and which Abraham Lincoln signed on July 2, 1862.

Worthy Record

Senator Morrill created the protective tariff system of this country. He had as much, or more, to do than any other man of his generation with the beautification of the capital city. His name is forever linked with the creation of the greatest system of popular higher education in the entire world. What a record—one of which every Vermonter can well be proud!

ALLBEE AND FOWLER STAR IN "PIRATES OF PENZANCE"

(Continued from page 1)

and consequently all their victims claimed to be orphans.

The Ladies

The feminine portion of the chorus was made up of the numerous daughters of Major General Stanley. They appeared in modern dress, first in sports costumes, then in dazzling evening gowns for a very attractive moonlight garden scene, and finally quite bewitchingly in lounging pajamas.

Quartet of Cops

In the second act a double quartette of policemen offered much clever humor and convinced the audience that a "policeman's lot is not happy." Their sergeant was B. Baker, who led them forward until danger threatened and then counselled hiding.

Cast Work Hard

Prof. J. T. Metcalf was dramatic director and costumes were arranged for by Mrs. Isabell Mills and Miss Mary Maud Patrick. Mrs. Mills also had charge of properties and Mrs. Elizabeth Bradish and Miss Annis [illegible] served as vocal coach and dancing director, respectively.

The entire student management of the opera consisted of Agnes Parsons, '32, president of the Women's Glee Club; Ruth Buxton, '32, manager; Evelyn DeBrune, '32, in charge of posters and R. S. Jenks, '32, manager of the Men's Glee Club.

History

"Pirates of Penzance" the first act of which was written in the United States was first presented in New York City at the Fifth Avenue Theatre, December 13, 1879, under the personal supervision of Sir Arthur Sullivan and Mr. W. S. Gilbert. It is known as the first of the famous Savoy series and contains distinct English characteristics.

The American song, "Hail, Hail, the Gang's All Here," originated from the song of different title sung in full by the Pirates in the course of the opera, assisted by the police at the back part of the stage.

Two Acts

The opera has two acts with the first act opening upon a scene off the rocky coast of Cornwall. The pirates of Penzance are noblemen "gone wrong," who can't make piracy pay because they spare anyone who says he is an orphan. Frederick the "slave of duty," was to have been apprenticed to a pilot according to his father's wish, but Ruth, his nurse, misunderstood the word and apprenticed him to a pirate, remaining as a "piratical maid-of-all-works."

His apprenticeship over, Frederick wishes to return to civilization; Ruth wishes to marry him, but Frederick is not sure that she is beautiful, never having seen other women. General Stanley's daughters approach; Frederick and Mabel, the youngest daughter fall in love. The pirates capture the daughters but General Stanley pretends he is an orphan and is released.

Act Two

In act two the scene shifts to a garden outside a ruined chapel by moonlight. Ruth and the Pirate King have discovered that Frederic was bound to the pirates till his twenty-first birthday, and that he was born on February 29. Frederic's sense of duty compels him to rejoin the pirates, and to reveal General Stanley's deception. The Pirate King swears vengeance. The pirates attack, the policemen defend. The pirates are victorious, but yield when the police sergeant bids them in the name of the king. Ruth reveals the noble origin of the pirates, whereupon all now kneel to the pirates, and General Stanley withdraws his objections to them as sons-in-laws.

DE VOLT SISTERS GIVE DELIGHTFUL RECITAL

(Continued from page 1)

Charlotte deVolt made her Boston debut in Steinert Hall, February 23, 1927. Further biography may be found in the 1928 edition of Who's Who in Music in America.

Artist deVolt, who has left her Boston concert work particularly for the concert is an American harpist also a graduate of the New England Conservatory of Music and received her instruction upon the harp from Alfred Holy, eminent composer, and former solo harpist of the Boston Symphony Orchestra, the Vienna Opera and Philharmonic Society, and the Berlin Imperial Opera. Her orchestral training was received [illegible] tion of Major Frederic[illegible] Royal Academy of M[illegible] and Wallace Goodri[illegible] New England Conserv[illegible] The past months have [illegible] travel and study a[illegible] deVolt received conti[illegible] and coaching from [illegible] Vienna, Austria.

She has toured the United States and appe[illegible] in many recitals and [illegible] rope. Her remarkably [illegible] touch and the deep [illegible] with which she play[illegible] diences, and her [illegible] charming manner [illegible] hearts.

Miss deVolt was [illegible] People's Symphony, th[illegible] phony, the New England [illegible] and MacDowell Club [illegible] Boston. She has played [illegible] conductors as Stuart M[illegible] Hadley, Wallace Goodr[illegible] Sawyer Dunham and J[illegible] ner.

She tours with Charl[illegible] joint recitals of their [illegible] ensemble in which they [illegible] been unsurpassed and [illegible] ensemble of two harps and [illegible] a teacher of the harp Miss [illegible] been especially successful.

Miss deVolt made her [illegible] in Steinert Hall, February [illegible]

VOLUME 49 | BURLINGTON, VERMONT, FRIDAY, APRIL 24, 1931 | NUMBER 50

FINALISTS FIGHT FOR FIRST HONORS IN STATE ORATORICAL CONTEST

District Winners to Vie For Privilege of Representing Vermont in Regional Contest

UNIVERSITY HAS FULL CHARGE OF THIS CONTEST

[illegible] ips of $150, $100 and $75 [illegible] warded to successful candidates in the State Oratorical Contest [illegible] tonight at the City Hall at [illegible]. The first and second prize [illegible] the district contests at [illegible] and Montpelier will compete [illegible] scholarships. The contestants [illegible] Robert Stafford of Rutland, and [illegible] Leventhal of Montpelier first [illegible] winners in their respective dis[illegible] and Madeline Chase of Brattle[illegible] and Mary E. Whitney of North[illegible] second prize winners.

The winners in tonight's contest will represent Vermont in the regional contest at Springfield, Mass. with all expenses paid, under the auspices of the University of Vermont.

The judges of the contest will be Prof. D. B. Carroll of the political science department at Vermont, Prof. Frank W. Cady, professor of English at Middlebury College and Prof. E. R. B. Flint of the Norwich University political science department.

Robert T. Stafford, son of attorney and Mrs. B. T. Stafford, a senior of Rutland High School won first prize in the district oratorical contest while Madeline Chase of Brattleboro won second place. Other competitors were Harold Ladd Smith of Proctor and Anita Kittell of Burlington. Stafford's topic was "The Influence of the Veto Powers of the President." Miss Chase's oration was on "The Influence of the Doctrinal Powers as Enumerated in the McCullock *vs.* Maryland Decision." Stafford will receive a $150 scholarship and Miss Chase a $100 scholarship to the University of Vermont.

Ethel Leventhal who last year won second prize in the Montpelier district succeeded in winning this year's contest. Mary E. Whitney of Northfield won third prize in last year's contest. Other competitors were Miss [illegible] Jay of St. Albans who won the Northwestern district contest last year; Norman Lawson of People's Academy of Morrisville and Nathaniel Gould of Barre.

Lloyd Kinsley won the final State contest last year with Clara Jay second and Lester Lovell third. The winners of the regional contests received trips to Europe. As yet no definite arrangements have been made for the trip this year.

For the first time in the history of the contest the entire matter is in the hands of the University of Vermont. In previous years the *Burlington Free Press* has always sent the State champion to the regional contest.

Co-ed Notes

The following sports are being [illegible] this spring in Outdoor gymnasium work which will begin Monday, April 27. Tennis, archery, baseball golf and horseback riding may be elected and a fee charged. New equipment has just been purchased by the department for archery and it is [illegible] that there will be a large number of co-eds who will take advantage of this sport, which is becoming as popular as miniature golf.

The health council will hold a meeting Thursday, April 23 at 1:30.

A Student Union Council meeting was held Tuesday in the Old Mill Chapel at 1:30.

The following girls are in charge of the home management house this week: Edith Pritchard, '31, hostess, Ruth Small, '31, assistant hostess, Theodora Wakefield, '32, cook, Lois Carruthers, '32, house manager, Hazel [illegible], '33, waitress, Arlia M. Kenzie, [illegible] Folsom, Thelma Buchanan, and Esther Stott, freshman helpers.

On Thursday Lambda Iota society held an informal gathering at its home on Pearl Street in observance of the ninety-fifth anniversary of the adoption of its Constitution, which took place April 23, 1836.

Senior editor of the revived "Aggies' Chronicle"

MUSICAL SELECTIONS, TALKS ARE BROADCAST

The first part of the WCAX program this evening will consist of selections by the department of music. The last part will consist of four talks by members of the faculty of the Agricultural College.

The detailed program is as follows: P.M.

7:30 Musical program under the auspices of the Department of Music
1. "Tarantelle," *Heller*
   Ruth Tarleton, '34, pianist
2. "Romance," *Debussy*
   "Care Selve," *Handel*
   Mrs. Paul Moody, soprano
3. "Fantasia in D Minor," *Mozart*
   Hildur Wilde, '32, pianist
4. "My Menagerie," *Fay Foster*
   "Sleep Song," *Fay Foster*
   "Come Down, Laughing Streamlet," *Spross*
   Mrs. Moody
5. "Valse Brillante," *Mana-Zucca*
   Muriel Magee, '34, pianist

8:00 Talk, "Fitting and Showing 4-H Club Calves," Prof. M. H. Campbell, Vermont Experiment Station

8:10 Talk, "Plans and Plants for the Home Grounds," Prof. M. B. Cummings, College of Agriculture

8:20 Talk, "Analysis of Milk Receiving Station Operations," O. M. Camburn, Associate Dairy Husbandman, Experiment Station

8:30 Talk, "The Cost of Producing Eggs on Vermont Farms," Dr. C. W. Gilbert, Extension Economist in Farm Management.

Traffic Problem Not Yet Serious; Kehoe

"The parking and traffic situation arising from the large number of student cars on the campus has not yet become a problem," said Registrar F. W. Kehoe to a Cynic representative, "yet considerable annoyance caused by the noise and dust from 'campus Fords' and other cars would be eliminated if the students would have the consideration to use University Place for parking. Before the street was put in, there was a lot of noise from campus cars which was particularly annoying in the summer months when the windows are kept open, but now we should have no trouble of this sort.

"The only official action that has been taken," he continued, "was that a recommendation was made to the University Council that cars park on University Place."

When asked whether he thought regulations as to direction and right of way would be necessary, Mr. Kehoe said that present conditions did not seem to demand them, but that as soon as some one should be hurt, rules probably would be enacted for the safety of all concerned.

CARPENTER WILL SPEAK ON "GERMAN LITERATURE"

Bluestockings will hold a meeting at 4 o'clock Tuesday, April 28, at the Kappa Alpha Theta house. Professor Carpenter will speak on "German Literature." The old members will be required to hand in their manuscripts, at this meeting, for this year.

The first American college paper was published in 1810, at Dartmouth College, named *The Dartmouth Gazette*.

To Make Dewey Club Honorary

Philosophy-Psychology Organization May Adopt Plan for Limited Membership

TO ELECT NEW OFFICERS AT NEXT BUSINESS MEET

Next Tuesday will, without doubt, see the John Dewey Club after nearly four years of concentrated activity in the field of philosophy and psychology reorganized into an honorary departmental club with membership limited to students who have averaged A or B in at least one subject in psychology or philosophy, or who present an acceptable thesis in one of the above fields.

Retiring Officers

At the same meeting the following members retire from a year of activity as officers of the association.

Louis Lisman, '31, president *ex-officio;* Hilda S. Smith, '31, vice-president; Ruth A. Burroughs, '31, secretary-treasurer.

New officers to be slated by the nominating committee, of which Hilda Smith is chairman, will be elected at the Tuesday business session.

With the acceptance of the new constitution and plan of reorganization, charms or keys will be awarded to all who become members of the society and the meetings will be closed to the general student body, with the exception of those at which a speaker is present. Dues which will carry with them the right to vote, in the society, will be assessed on the same basis as this year.

To Stablize Membership

The proposal for reorganization of this departmental club will come before the members as an outcome of an effort on the part of the officers and the faculty advisor, Professor Ewert to attract and hold the attention of those students and faculty members who have an interest in creative work in either psychology or philosophy. A test for membership it is felt will provide a stimulus for increased activity and also assist in maintaining a stable instead of transient membership.

Although not in attendance at every meeting during their college years, over one hundred and fifty University students have shown active interest by being members of the John Dewey Club during the past four years.

CAMPUS IS ASTIR OVER MOST BEAUTIFUL CO-ED

Eds Not Among Those Silent On Choice of Junior Week Queen

Students in the Coffee Corner, students in the library, and the class rooms all discuss the coming event and the coming prize winner. As in every contest speculation is rife as to who will be this most charming girl—and of course charm is an attribute of beauty—that will carry away the magnificent first prize to be awarded the night of the Junior Prom.

The long apathetic eds in this co-ed paradise have cast off their lethargy and are casting about their penetrating glances in an effort to appraise the relative merits of the numerous candidates and all the women are eligible. In various places where Vermont women eat, and their escorts pay, it is the prime topic of conversation.

To prove the point: Two sophs and an ubiquitous frosh could barely be pried apart from a little grudge fight that seemed to require a good deal of cheering on the upperclass side lines last Wednesday. The difficulty arose as to their choice of the most beautiful. The contenders agreed to settle their contentions at the polls.

Those serious minded people who are always ready to question the why of things popped the inevitable question in this fashion. "What is to be gained by a contest of this nature?" Spurred on by this inquiry your most humble correspondent ran hither, thither, and yonder seeking information until finally he discovered a lone, weary, unshaved creature buried over his shoulders in copy. All about him were letters from prominent magazine

Secretary-treasurer of the John Dewey and International Relations Clubs, the former of which will become an honorary psychology and philosophy organization next Tuesday

JUNIOR PROM WILL BE HELD IN YACHT-RIGGED MEMORIAL AUDITORIUM

Orchestra To Be In Seamen's Attire—Occasion of Naming of Queen of Junior Week

With the promise of being the most colorful gala occasion of Junior Week, the Junior Prom with the announcement of the most beautiful co-ed at Vermont, will be held in the Memorial Auditorium decorated in the form of a fully-rigged yacht in red, white and blue. The dancing will take place on the deck.

The members of the orchestra will be attired in seamen's uniforms and will be located in the pilot house.

A gang plank, life boats and life preservers will complete the plan of the ship. The chairman of the Prom states that the programs will be ready by May 1.

Every fraternity, sorority and dormitory is expected to take part in Junior Peerade.

Codding and Stevens Attend Convention

Vermont was represented in the recent convention of Kappa Phi Kappa, held in Syracuse, March 26, 27, 28, by Ernest Codding and K. M. Stevens. Kappa Phi Kappa is a nine-year-old national educational fraternity which meets every other year. The convention was held in the Onondaga Hotel and was attended by 115 representatives of forty chapters.

Both U. V. M. delegates were fortunate to be on important committees; the committee of the constitution and by-laws, and the committee on alumni activity.

An address at the convention was given by Dr. G. D. Strayer of Teachers College of Columbia University, a famous educator and author, to an audience of over 2000. The address was broadcast over WSYR. Doctor Strayer showed how the seed of a great conflict which may destroy the world is now being planted as one aspect of our complex modern world. Doctor Strayer also stressed the opportunities for leadership in the educational profession and also remarked that there was a great need of increased and broader training for educators—two or three years beyond a bachelor's degree—a doctorate of philosophy or at least a master's degree.

AWAKENED MIND NEED OF COLLEGE GRADUATES

"What should we carry away with us from our college course?" asked Professor Evan Thomas in addressing the student body at the exercises in chapel recently. Professor Thomas immediately answered his own question as follows: "An awakened mind." Professor Thomas defined an awakened mind as one which is alive to the beauty the desirability and the attraction of knowledge and culture, but the dormant mind is one which is unresponsive to the splendors of literature and to a desire to partake of them.

For my part, I esteem a certain churlishness in a newspaper.—*James N. Cain.*

ROBINSON HALL SCENE OF ANNUAL SPRING RALLY BY WOMEN ATHLETES

Business Meeting, Awarding of Numerals and Reports Feature Gathering

ARA ARMSTRONG PLEADS CAUSE OF INDOOR MEET

The annual Spring rally, sponsored by the Women's Athletic Association was held Tuesday evening at Robinson Hall.

The meeting opened with a business meeting under the direction of Isabelle Warhurst, '31, retiring president. Helen Taylor led the singing of "High O'er the Waters" following which Isabelle Warhurst welcomed the new council and expressed her thanks for the cooperation given her during the past year. The officers installed were Mildred Akins, '32, president; Caroline Taft, '33, vice-president; Janet Miller, '32, recording secretary; Lois Harrington, '32, corresponding secretary, Katherine Skinner, '32 treasurer; Beatrice Freeman, '32, publicity manager; Priscilla Perry, '31 chairman of the Health Council; Helen LaBaron, '32, editor of the Handbook; Alice Hoyt, '34, hiking chairman, and class representatives, seniors, Lois Harrington and Lillian Mount; junior, Ara Armstrong; and sophomore, Daisy Putnam.

Mildred Akins next awarded the following class numerals: to freshmen Helen Roberts, Daisy Putnam, Helen Fogg, Virginia Yeuell, and Jennie Scutakes; and to sophomores Esther Urie, Leah Gowen, Marion Urie, and Mary Petras. Eligibility for class numerals consists of earning either four hundred points in one year or six hundred in two consecutive years, and also having good posture. The U. V. M. insignia, the award given for eight hundred points, were given to Ara Armstrong, Ethelda Miller, Marion Urie, and Mary Petras, all of the class of 1933.

Following the business meeting, Lillian Mount, and Mildred Akins gave a dialogue entitled "At Syracuse," which proved to be a very interesting and entertaining report of everything they did, saw, and heard at the W. A. A. convention held there recently. For the rest of the entertainment, two of the dormitories gave stunts which were both pantomimes the first, "An Indian Romance," presented by Robinson Hall, and "Wild Nell, the Pet of the Plains," by Slade Hall. The former was an Indian love story in an Indian scene accompanied by a parody of the poem "Hiawatha." The other was an exaggerated take-off on a Wild West movie, with the Indians and everything.

Before closing, Ara Armstrong, who is in charge of the Indoor Meet held tonight, asked everyone to attend whether or not taking active part in it. The rally ended with the singing of "Champlain."

COMPANY K HAS SEVEN VERMONT MEN IN RANKS

Company K, 172nd Infantry, Vermont National Guard, had its annual Federal inspection on Monday night. Present in the company were six men from the University of Vermont and one graduate, 1st Lieutenant Arthur K. Tudhope, '26, 1st Sergeant O. M. Donaldson and Corporal Philip H. Thomas, '31, Private William C. Perry '33, and Privates Wilson Shippee, Richard R. Murray, and Franklin O. Paris. The professor of military science and tactics, Lieutenant-Colonel Frederick F. Black, and the other officers of the military department were present as invited guests as well as the cadet officers of the R. O. T. C. battalion.

VERMONT HOLDS LAST HOME DEBATE THURSDAY

Vermont held its last home debate with Clark University, Thursday evening in the Old Mill Chapel. George Nelson, '31, and Peardon Donaghy, '32, appeared for Vermont on the negative side of the Free Trade question. Professor Dean presided. The debate was American style and no decision was rendered.

Dean Lord of B. U. believes the college degree to be worth $72,000—because of the increased earning power that it may be responsible for.

Office of Publication, Free Press Printing Co., Burlington, Vt.

Vol. 49 April 24, 1931 No. 50

Out of the session of the Faculty-Student Council this afternoon must come a solution to the controversy regarding the position of freshmen at the University of Vermont, which has for the past two years [illegible] and nine other universities.

The Faculty-Student Council must decide partly on the basis of [illegible] rational judgment and that of a student body which is done [illegible] bickering over the color of freshman apparel and submitting to [illegible] committees interested primarily in their own prestige.

In weighing the values of such a pledge system as is imposed in [illegible] places we might ask: Does the University of Vermont take greater pride in the thought that the students exist for the institution [illegible] that the institution maintains a traditional policy of adjusting the high school senior to the new situation he finds himself in upon entering college?

In preference to the continued enforcement of some customs traditionally assumed to effect the orientation of the new student we would, among other points, favor increased attention to the individual through continued contact with his faculty advisor. This, following the programs of the administration in cooperation with student organizations, has in an increasing number of institutions, demonstrated its effectiveness.

The voluntary wearing of the freshman cap during the first three months of college, to facilitate identity by faculty members and among the freshmen, we believe has an essential, though not indispensable place among the voluntary customs advocated. That our conclusion is valid is shown not only by the evident lack of need for the cap since the University of Vermont freshmen refused to wear it last fall, but also by the decision last week of the Student Council at Middlebury College to allow the 1934 men to remove their caps. The *Campus* states:

"At a meeting of the Student Council, under whose jurisdiction lies the question of freshman rules, it was decided that since half the class had not worn their caps for the major part of the year, it is not fair to the faithful that they should continue. When several members of the class of 1934 found that they were not prosecuted for not wearing their caps, they made this procedure a regular habit (*this in spite of claims that the rule is enforced by a signed pledge in the dean's office*); the Student Council displayed no interest in the matter, so the result is the abolition of the cap rule for the rest of the year."

We find it difficult to believe that any future class at Vermont will ever wear the freshman cap longer than three months. As for the College Street ruling we can but quote the *Freshman Handbook*.

Why such a rule should ever have originated we are only allowed to guess." With voluntary customs, which the Council will undoubtedly adopt, we see no further need for a vigilance paddling society. Skull and Dagger and Key and Serpent can adequately handle ushering and entertaining of visiting teams we would recommend the abolition of Gold Key Society. To do so, would be to assure the freshman against future tutoring by a sophomore class society.

But notwithstanding the barriers of outworn rules and conservative attitudes that confront the Council as it convenes once more for its duties, we believe it will have the courage to place Vermont in the line of progressive institutions by eradicating the useless rules, abolishing paddling and class distinctions and giving the freshman a position of social equality with every other student. Through all the smoke of verbal battle this is what we see as the essence of the demands of the enlightened college student throughout the country.

ST. MICHAEL'S BASEBALL GAME

Due to the track meet with Colby on May 9, the baseball game scheduled for April 25 will be St. Michael's home game, and the game scheduled for May 9 as St. Michael's home game will be Vermont's home game.

In as much as the game on April 25 at Centennial Field is under the St. Michael's College management, student and faculty tickets will be on sale Saturday morning at the University Bookstore at 50c each. General admission tickets sold at the field will be 75c. Ticket books should be presented when purchasing tickets at the Bookstore.

S. C. Abell.

This is the second consecutive year that the freshmen at St. Stephen's College have buried their algebra without any interference from the sophomores in fact, they were sound asleep during the whole affair. This just goes to show that folks are tired of war.

The Sad Fate of Phi Beta

Minnie Schmultz was a Phi Bete
Of a mind and mien sedate,
Starred in hockey and in track,
With faculty she had a knack,
Warbled tunefully in choir;
But to her heights I don't aspire—
It might have paid her to be dumber
For now she's married to a plumber.

The Mystic Pen

And also, in the spring the animal
world awakens. See it through the
eyes of youth
Young Heather Feng with his kind
and growing
[illegible] of a one whose the [illegible]
path on [illegible]
[illegible] Rating Registrar [illegible] Evaluation
Lying under trees
And strong as a new tree!
Worship a [illegible] Pan!
Further [illegible] [illegible] keeping at the
end!
[illegible]
[illegible]
So that is the secret of the [illegible] of
our Spring Fever!
[illegible] [illegible] [illegible]
Preparing for the Harvest!
[illegible] is a consequence of what we
shall say, of imagination. Note the
[illegible] of restful activity. The
[illegible] [illegible] plans [illegible]
preparing for some [illegible] harvest
or fear of [illegible] we [illegible] [illegible]
social. We have a professor of the
[illegible] [illegible] at Wesleyan. We hope
you like him. Devoted to critics of
[illegible] country is an essential [illegible]
relation to the poetry of our age. [illegible]

I even [illegible]. I admired her. I want to
[illegible] She was perfect. My ideal. I
could easily make allowances for nail
[illegible] and [illegible] but when her su
perexcellence of intellect so over
shadowed all those things. We got
along swimmingly. I was all a ga-ga
over her. Then one night came the
end. I took her to the Majestic. I
bought the tickets, and we stepped in
side. And, friends, I blush to men
tion it . . . my heart bleeds; and for
her fault. I had to let her go. She
wanted to sit in the last row. Im
agine! ! ! The *last row!*

Bits of Bunk

We take our gripewriter in hand, children, to warn you about the symptoms of a dread disease likely to become an epidemic on the campus. No name has been given it, but you may readily recognize it from the following symptoms: Do you watch young girls climb in and out of automobiles? Do you sit in the bleachers in the afternoon and watch the men on the track? Do you curse fervently when you miss a two-foot putt? Do you stop and look into shop windows? Do you remember after dinner that you have some studying to do at the library? Do you wonder who that blonde is? If so, you have the disease.

It is more devastating than athlete's foot, American stomach, rumble-seat heart or post-blind-date gripe.

If you already have the disease, there is no help for you. If you feel it coming on, there's no help for you either.

There is only one disease known which is worse. That is a combination of longing for leisure and sudden desire for Sunday afternoon picnics.—*Montana Huddle*

Sports at Montana U.

Inadvertently, uncle failed to prescribe signals for bleacher play last issue, so he has compiled a set and duly records them with their meanings.

34-13-12: "Keep quiet a minute, while I listen for the night watchman."
88-88 888: "What time do you suppose it is?"
Wait-a-minnit: "Wait a minute."
D'y love me?: "I'm running out of something to say. For heaven's sake help me out a bit."
Time out: "Wait a minute, I wanna blow my nose."
Don't': (Sometimes that's just what it does mean.)
10-25: "We'll have to hurry or I'll be late."
No: (Exact meaning of this still undetermined.)
Mmmm: (Tone of voice determines whether this is approval or disapproval.)

—*Montana Huddle*

Not on the Tables

The following analysis of a well-known element in everyday life has been advanced by a chemist at *Indiana State Teachers' College*.

Element. *Woman.*

Occurrence: Found wherever man exists. Seldom in the free state; with few exceptions, the combined state is preferred.

Physical properties: All colors and sizes. Usually in disguised condition. Face covered with film of composite material. May freeze at any moment but melts when properly treated. Very active, possesses great affinity for gold, silver, platinum, and precious stones. Is able to absorb food at any time. Turns green when placed beside a better looking specimen. Fresh variety has great magnetic attraction, but is inclined to age very rapidly.

And we might add that it is under some conditions very hard to make.

THE FORUM

In the Classroom and Out

Some professors of economics protest that they cannot "bring religion into the classroom" arguing that to introduce questions of ethical evaluation is to become unscientific. As they see it, the functions of college courses in economics are to acquaint the student with the facts of the present order, to give him a scientific historical appreciation of how we came to be where we are, and possibly to cultivate in him some understanding of the principal technical problems now confronting us; but not to help him to form any critical estimate of the ends and aims of economic processes. Of course there are opportunities to stress business ethics so that the prudential ethic of the commercial world may be hastened and sanctified, creating higher money-getting powers through the release of moral energy. But by and large, there are few curricular offerings which help students to arrive at ethical judgments about basic issues in the economic world.

But many of those who hesitate to "drag religion into the classroom" are eager to discuss the ethical aspects of economics with groups of students outside regular academic hours. It is at this point that the Christian Associations have a special opportunity. We can set up discussion and study groups, often with willing faculty leadership, which will put ethical meaning into facts and develop a sane and robust ethical-mindedness which will refuse to accept uncritically the assumptions either of the defenders of the *status quo* or of reformers. It is our job to sensitize and make ethical the consciences of students on economic matters. That is a way of making economics more nearly scientific; and more important, it is a way toward the Christianizing of our industrial civilization. And if the Student Movement fails to do this job, who will do it?

—Buell G. Gallagher.

No Politics

Early in the fall, members of the local chapter collaborated in the preparation of a scheme to put on a competitive basis positions on the *Kaleidoscope*, junior yearbook, heretofore subject to whimsies of politics. The plan, as finally drawn up, was accepted by the sophomore class, members of which have since worked hard for positions. The yearbook elections are held during the spring of sophomore year, and the annual itself is published every junior year, generally appearing for Junior Week early in May. It was felt that any experience the sophomores could gain before taking up the work would prove to their advantage. To all appearances, the experiment is proving successful, although it is too early as yet to tell whether the newly established system will work out.—*Epsilog.*

What the prohibition squabble is to the political world, so is the phosphorous discussion of the relative merits of the fraternity system to colleges. It is a distinct mark of progress for any campus to receive the impetus to promote a better understanding, yet a keener sense of responsibility, by the inauguration of an independent body such as has been proposed for the University. As the march of collegiate life continues, so has the desire and necessity for independent action increased, until one after another of the colleges have become the proud possessors of barb organizations. Of the many establishments of this group, nowhere has a body been set up in direct opposition or antagonism to the fraternity system. Rather it has been the profound purpose of such groups to become the cooperative partner of the fraternities in the problems which beset any campus.

As long as an educational institution is maintained by the state and open to the entire strata of the American public, it is certain that no single level can populate or control our colleges. It is a cosmopolitan situation as far as the different classes of society go. Since this exists and the entire student body is composed of them, it is only fair that a representative portion of the school should take active part in its affairs. In the past the fraternities under their system of organization and selection have obtained, not necessarily produced, the best in student direction and work. It is natural under that cover that an octopus hold upon the campus should result.

There is little need to quote the innumerable famous quotations that have been made upon the need of organization and a solid house. It is recognized that a hundred voices in a storm is much stronger than a solitary one lost in a desert. It is this organized crescendo which the independents have been lacking. Even a scarecrow of a skeleton is imposing if not effective. The barbs so far have not even had a shadow to show life, let alone move about and produce self-benefits.

Intercollegiate News

Dating back to the [illegible] War of 1812, fraternities [illegible] founded one after another [illegible] eighty general fraternities [illegible] approximately 6,000 [illegible] total membership [illegible] and dead, which [illegible] not separated in the [illegible] more than 800,000. [illegible] colleges have in the [illegible] fraternities. A few [illegible] tutions have prohibited [illegible] Princeton, while Harvard [illegible] given them encouragement. [illegible] national schools and [illegible] stitutions bar them. [illegible] their wide spread [illegible] become a vital and [illegible] of the student's life.

In the social atmosphere [illegible] colleges now more [illegible] small niche for the [illegible] it stands with a people [illegible] the collegiates being [illegible] wield a decided influence [illegible] ninety percent of [illegible] are obtained through [illegible] ence. Positions in [illegible] societies and boards [illegible] of unified organization [illegible] tion and appointments [illegible] and committee members [illegible] the intimacy of [illegible] such known actions [illegible] possibilities in independent [illegible] tion.

Prof. Ulrich B. Phillips [illegible] versity, in an address to [illegible] had attained Phi Beta K[illegible] at Yale this year gave [illegible] as his definition of the purpose [illegible] university:

To put an old head on [illegible] ders, to extend a mat[illegible] far beyond his personal [illegible] broaden his criteria and [illegible] judgment, to give him an appe[illegible] to comprehension of this [illegible] plex world, a sense of the [illegible] the ages, a desire to discover and form a wholesome function [illegible] in his generation, and to set him firmly upon the path of [illegible]

Thirteen dollars was found to be [illegible] cost of an average date at Purdue.

Contrary to a widely accepted [illegible] about the achievements of the [illegible] privately-endowed universities [illegible] State institutions are the ones [illegible] proving most productive in [illegible] out front-rank men of science [illegible] ing to a survey prepared by Stephen [illegible] Fisher and printed in the *Journal of Higher Education*. The test applied was the number of graduates who [illegible] achieved a "star" in American Men of Science.

The actual rank of institutions [illegible] the basis of numbers is: Johns Hopkins, the University of Kansas, University of Chicago, University of Pennsylvania, Harvard, University of Indiana, University of California, University of Michigan. The ranking of institutions such as Johns Hopkins, it is asserted, comes partly because they attract so many outstanding graduates from other schools, while the rank of the University of Kansas is said to be based on a record made on its own merits.

San Mateo Junior College [illegible] finds any semester dull that does not develop a major issue between the faculty and the student body [illegible] wavering on the question of [illegible]

Dean Robert J. Hopkins has written a letter to the student committee expressing disapproval of a [illegible] in a recent college press [illegible] which one co-ed seemed to be clad in a bath towel. The dean didn't like the exhibition exactly [illegible] said so.

Many of the students and parents are inclined to agree with [illegible] but his suggestion that [illegible] should be suspended for the [illegible] raises the important question [illegible] ulty interference with academic freedom.

"Hell broke loose" on Feb. 13th when the Dent student Loyola celebrated "Hell Day" [illegible] expense of luckless underclassmen. The only fortunate persons in the spree were the tailors, who [illegible] special rates on work obtained from unfortunate victims.

The *Tower* had an article on [illegible] *Villanovian* dealing with the [illegible] ish word "cribo," whose [illegible] ing is getting by without [illegible] night oil. The advice to be [illegible] from this article is, "Invent a method for the employment of the professors are familiar with the ancient forms."

Students at the University of [illegible] land are liable to a three [illegible] they cut class. If such a [illegible] in effect here it would [illegible] raise the necessary funds for the proposed Student Union Building.

Compulsory military training received a slight shock at the University, where, out of [illegible] cast, only 22 favored compulsory, optional, and 117 "stood pat" for Drill."

VERMONT CLASHES WITH ST. MICHAEL'S NINE AT CENTENNIAL TOMORROW

Purple Has Inexperienced Team With Only Three Veterans—Catamounts Are Favorites to Win

OPENING GAME IN STATE SERIES FOR VERMONTERS

[illegible]

Delta Psi and Phi Sigs Win Interfraternity Baseball Games

Talbert Pitches No-Hit No-Run Game for Delts Who Defeat Tau Epsilon Phi 15-0—Phi Sigma Delta 16, Zeta Chi 10

In the opening contest of the interfraternity baseball league Monday afternoon on the back campus, Ray Talbert pitching for the Delta Psis, entered baseball's hall of fame by twirling a no-hit no-run game against the Tau Epsilon Phi nine. When the smoke cleared away the score stood 15-0.

The game was all Talbert and spectators were of the opinion that he might be a valuable addition to the varsity moundsmen. Thirteen of the men who faced him in the five-inning circle whiffed the air for strikeouts against his baffling shoots, and the only two balls which were hit were handled by him for assists. He walked three men, only one reaching second base on a passed ball.

Reed the winners' catcher, handled Talbert very effectively, while Corbin and Taft did the heavy stickwork.

The Delts scored their 15 runs in their four innings at bat. Talbert batted two of them, making two hits. Ross Corbin tripled with the bases loaded and Chet Taft also turned in a three-bagger. The battery for the Delts was Wasserman, pitcher and Winthrop, catcher.

Score by innings:	1	2	3	4	5—	T
Delta Psi	2	3	6	4	x—	15
Tau Epsilon Phi	0	0	0	0	0—	0

Umpires—Rapuano and Levine.

Phi Sigma Delta Wins

In the opening game of league 2, Tuesday afternoon, the Phi Sigma nine managed to outscore the Zeta nine by a 16-10 count. The game was closely played by both sides but the winners proved more steady in the field.

Both pitchers were hit hard but Allen, the Phi Sig twirler was graced with more efficient stickwork by his teammates, especially Spiller and Sargent. Fienberg, Bagley and Green were the outstanding players for the losers. Logan, Minot and Romanos comprised the losers' battery. Segal caught for the winners.

Score by innings:	1	2	3	4	5—	T
Zeta Chi	4	2	0	0	4-	10
Phi Sigma Delta	7	4	4	1	x—	16

Umpires—Rapuano and Prentice.

This afternoon the Phi Delta Thetas and the Kappa Sigmas meet in the second game of league 1. Kappa Sigma, runners-up for the championship last year, expect to again give good account of themselves this year, in view of the fact that they have plenty of promising freshman material.

Tomorrow afternoon the A. T. O.'s, champions of last year, make their initial bid for the cup this year, when they take on the Phi Mu Delta nine. Neither team has had much practice, but the A. T. O.'s have a nucleus for another championship team this year with the return of several veterans.

GREY FRIARS TO HEAR TWO NEWSPAPER TALKS

Two talks by members of the society on the making of a newspaper and the editor on the various aspects of journalism will feature the next meeting of Grey Friars, men's honorary literary society to be held Sunday evening at the home of Paul J. LaCrosse, Elmwood Avenue. In addition to the talks manuscripts will be read. Those interested in being admitted to Grey Friars will please submit manuscripts at once.

CHAPEL SERVICE HAS TWO FEATURE NUMBERS

A service of praise was conducted in chapel Wednesday morning. The choir rendered two anthems: *Finale* from the First Beatitude by *Franck*, and *Nunc Dimittis* by *Gretchaminoff*.

A suggestion has been made that after the benediction while the organ plays soft music for a moment the congregational body remain standing as the

VERMONT TENNIS TEAM GETS OUTDOOR PRACTICE

Prospects Are Not Very Bright for Coming Season

With the past week of favorable weather the varsity tennis team has had an opportunity to get its first outdoor practice of the season after the back campus courts were limed Monday.

Prospects for the coming season are not very bright at present. Captain Freddy Tupper appears to be the outstanding man. He played number 2 last year and will be promoted. Les Woodward, who was number 4 last season, will probably play number 2. Trying out regularly for places on the team are F. E. Beers, '31, of Fitchburg, Mass., A. B. Wheeler, '31, of Holyoke, Mass., H. M. Albert, '32, of Waterbury, Conn., and M. A. Bisson, '33, of Barre.

The season starts with a three-game trip into Massachusetts and the first match is against Worcester Polytech on the last day of April.

WOMEN TO HOLD ANNUAL INDOOR MEET IN GYM

The annual Indoor Meet will take place in the Gymnasium, tonight at 8 p.m., between the freshman and sophomore women.

The program: Posture Contest, demonstration dancing by the teacher training girls, three relay games, competition dancing, game of cage ball, demonstration dancing by the sophomores. Awards.

The judges will be Mrs. Hard, Miss Babbitt, physical education director of Burlington schools, Miss Baldwin, Miss Cummings, Isabelle Warhurst, '31, and Mildred Akins, '32.

MISS HELEN SHATTUCK SPEAKS AT REDSTONE

Miss Helen Shattuck was the speaker at the tea held at Redstone Saturday April 18, at 4 o'clock by the Burlington Branch of the American Association of University Women to which all senior women were invited. Tea was served after the program.

Had God wished automatons, He could have changed the nature of the grape or destroyed the human appetite.—*Chairman Graham of the House Judiciary Committee.*

Collegiate Drinking

There has been considerable controversy in the past year or two regarding the prevalence of immorality, especially the violation of the prohibition law in American colleges. There are those, usually unacquainted with the facts, who would give the public to believe that our colleges are nothing more than dens of iniquity hiding behind an academic smoke screen.

Speaking for our own campus and, we believe, for the general run of colleges, drinking has decreased markedly during the last four years. The sudden increase of drinking in collegiate circles that followed the passing of the Volstead Act was a natural psychological reaction but has almost run its course by this time. Practically all of the sentiment on college immorality is kept alive by propagandists.

In the current issue of the *American Mercury* H. L. Mencken puts all of this type of trouble makers in one of two classes. The first is comprised of parents who have forgotten what they did when they were young, and second, those professional moralists who live by unearthing and denouncing sins which do not exist. Both of these classes are undependable as far as judging the actual truth of the matter is concerned.

Mr. Mencken says, "In the department of drink they are equally unreliable. On the one hand they grossly exaggerate the amount of guzzling that is going on among the young today, and on the other hand they grossly underestimate the amount that went on twenty or thirty years ago. There has been, under Prohibition, an undoubted increase in drinking in certain circles, but it is not serious in amount, and it is by no means confined to the young. My own impression is that the chief speeders are married women above thirty-five—in other words, not youngsters but the mothers of youngsters. These bagmothers having taken to liquor somewhat imprudently, fall into the error of assuming that every one else is going the same route. I doubt it. The movement for sobriety that began with the turn of the century was halted by the Methodist millennium but is now under way again. Most American men, I believe, drink less today than they did ten years ago, and a great deal less than they did in 1900. So with college boys. They may go on occasional gaudy toots, but the steady boozing of thirty years ago is now out of fashion."

This we believe is a fair and characteristic observation. It will probably take some little time for the idea to sift through the mind of the average man of the public—like any other gradual development—but it will come finally as a triumph of intelligence over false propaganda and as a token that college students themselves are becoming more intelligent and seeing things in a clearer light than did their predecessors.—*Hobart Chronicle.*

BRADISH AND BARKER TO SPEAK FOUNDER'S DAY

Founder's Day addresses will be delivered May 2 by J. A. Bradish, '31, and S. Barker, '32. Bradish, who delivered the address for the class of '31 last year will speak on "Ira Allen and Freedom," endeavoring to show how man's struggles have ever been concentrated around freedom and that there have been leaders who have endangered their own lives to gain liberty for a people.

"Ira Allen, a personality" will be the theme of Barker's address. Having taken Emerson's words "An institution is but the shadow of a personality," Barker plans to center his address around the quotation.

Founder's Day has been observed by the University for a period of thirty-eight years. The first formal observance was held May 1 at the Billings Library with President Mathew Buckham presiding. The speaker of the evening was the Reverend Doctor Byington of the class of '52. In his address, Doctor Byington spoke of the Puritan forefathers, their character and influence and gave many interesting facts about their custom of worship and daily life.

The following paragraphs are extracts found by a Cynic reporter in one of the old volumes of the Cynic describing part of the exercises of the day.

"At Oxford it has been the custom for 400 years for the choir to sing a Latin hymn at five o'clock on May Day morning, always drawing large crowds to hear it. The hymn sung this year was 'Hymnus Eucharisticus.' After the address the glee club rendered this hymn which they had prepared for the occasion, the singing of which brought to mind many of the old customs of college and university life which we know of only in history.

"After the exercises, the audience passed a pleasant hour in conversation, thus bringing to its close our first observance of Founder's Day."

Y. W. C. A. EXECUTIVES PLAN FOR COMING YEAR

Plans for the coming year and especially plans for the Women's Freshman Camp were subjects discussed at a meeting of the officers of the Y. W. C. A. held recently. Indications are that a very successful year is in the offing.

The candlelight installation of new officers of Y. W. C. A. was held at the Kappa Alpha Theta house Monday, April 20. Officers of Y. W. C. A. are as follows:

President, Sylvia Boyd; vice-president, Beatrice Freeman; secretary, Daisy Putnam; treasurer, Priscilla Perry, director of the Freshman Camp, Mildred Otis; editor of the *Women's Handbook*, Doris Brennan; manager of *Women's Handbook*, Carolyn Taft; chairman of Conferences, Lillian Mount; chairman of publicity, Virginia Yuell and chairman of social service, Elizabeth Mandigo.

65TH YEAR OF BASEBALL

Baseball at the University of Michigan is entering in the 65th year since the game first was placed on the University's calendar.

Society Notes

PI BETA PHI

The Country Club was the scene of the Pi Beta Phi formal dinner dance Friday night, April 17. The Black Panthers of Middlebury furnished music. Chaperones were Mrs. VanDyke and Prof. and Mrs. J. V. Poole.

ALPHA XI DELTA

Alpha Xi Delta held its formal dinner dance at the Catholic Daughters rooms on College Street, Friday night, April 17. Music was furnished by Carl Ramm's orchestra. Prof. and Mrs. J. I. Metcalf acted as chaperones.

ALPHA CHI OMEGA

The Alpha Chi Omega formal dance was held at the chapter house Friday night. Prof. and Mrs. L. W. Dean chaperoned the dance for which Lesley's Vermonters played.

SIGMA GAMMA

The Hotel Vermont Roof Garden was the scene of the Sigma Gamma formal dance Friday night which was chaperoned by Prof. and Mrs. C. E. Braun and Prof. and Mrs. W. H. Adams. Foden's Black Pirates furnished music.

EPSILON SIGMA

The Epsilon Sigma formal dance was held Friday night, April 17, at the Masonic Rooms. Prof. and Mrs. B. H. Wallace and Mr. and Mrs. A. I. Willis chaperoned. Charlie Heath's orchestra played.

K. E. L.

K. E. L. held a formal dance last Friday night at the Sherwood Hotel. Prof. and Mrs. P. Evans and Prof. and Mrs. P. Carleton chaperoned. Freddie Lynch's orchestra furnished music.

TO MAKE JOHN DEWEY SOCIETY AN HONORARY

(Continued from page 1)

John Dewey

The club was named for John Dewey, alumnus of Vermont, head of the philosophy department of Columbia University and one of the foremost philosophers of the present time.

The club held its first meeting of the Vermont Club house in December, 1928. Prof. A. R. Gifford, head of the philosophy department and acting chairman was empowered to appoint a nominating committee. The first officers elected were Oliver Orton of St. Albans, president, George Graves of Hartford, Conn., vice-president, and Cecelia Pond of Burlington, secretary-treasurer. As was active in campus activities. Orton belonged to Phi Delta Theta and was a member of the Cynic board. Graves was a member of Lambda Iota fraternity and Miss Pond of Delta Delta Delta.

The second group of officers for the year 1929 included A. C. Laney, president, George Graves, Jr., re-elected vice-president, and Laura Bliss, secretary and treasurer. For 1929, Harrison Goddard, Cecelia M. Depeough, and Annette Rosenberg were chosen. The present officers of the organization are Harrison Goddard, '30, president; Annette Rosenberg, '30, vice-president, and Edmour Germain, '31, secretary-treasurer. The first constitution of the John Dewey Club was adopted March 29, 1927, and was revised October 15, 1929, to its present form.

At its meetings the club has heard many interesting lectures by prominent men. John Dewey, the "patron saint" of the club, addressed the members after delivering a University lecture here last year.

A list of speakers would include Prof. A. R. Gifford, who has lectured at different times on "Philosophy and Mystery," "Different Realms of Evolution," and "The Nature of Mind"; Dr. J. C. Smart, University lecturer on biblical literature, who has spoken on Jean Jacques Rousseau, the famous eighteenth century philosopher; Prof. J. T. Metcalf, who has spoken on "The Psychology of Art" and on "Psychological Aspects of Criminality"; Prof. G. Dykhuizen, who, in 1928 and 1929, presented two very interesting lectures, one on "The Philosophy of Science" and the other on "The Functions of Philosophy"; Dr. H. E. Perkins, professor of zoology, who spoke on Evolution and Philosophy; Dean Elijah Swift of the College of Arts and Sciences, who explained the "Relation of Mathematics and Philosophy"; Prof. L. P. Dickinson of the engineering faculty, who discussed the "Point of View of Science"; Dr. H. Jordan, who delivered an entertaining lecture on the subject of some biological speculations; and Prof. A. Gershoy of the history department, whose subject was "How the Biologist Might Regard 'It.'"

CORNELIA HUBERT, '31
Last season's captain of the Women's Rifle Team

In His Honor

At a special meeting on October 15, 1929, in honor of John Dewey's seventieth birthday, three of the faculty gave appropriate talks—Prof. B. C. Douglass on "John Dewey and Education," Professor Metcalf on "John Dewey and Psychology," and Professor Gifford on "John Dewey and Philosophy."

At a recent meeting Prof. A. B. Myrick, head of the department of romance languages, spoke about "Hyppolyte Taine and the Influence of Positivism and Determinism in Modern Literature." At several of the meetings students have participated wholly and made group discussions a feature of the club's activities. In February of this year, George R. Nelson, '31, and Franklin A. Sears, '30, led the discussion with talks on "Various Phases of Psycho-analysis."

The "Nature of Mind," was the topic of an address by Prof. A. R. Gifford March 11, 1930. The following students led discussions: Alice Dean, '30, "The Relation of Philosophy to Life," Julius Perelman, '31, "Toleration," Robert L. Stewart, '30, "Philosophy Courses."

In May Prof. and Mrs. J. T. Metcalf upheld views of two conflicting schools of psychology, "Structuralism" and "Functionalism."

"The Power of the Press," a topic led by President Lisman, was discussed at the October, 1930 meeting.

Other lecturers have been Professor Gifford on "Human Relations," Professor Metcalf, on intelligence tests, and Prof. G. B. Dykhuizen on the "Philosophy of Socrates."

CAMPUS IS ASTIR OVER MOST BEAUTIFUL CO-ED

(Continued from page 1)

[illegible] began him for pictures and details of Vermont's choice.

Your most humble reporter met with a hostile glare delivered as only a newspaper man knows how, though he [illegible] a CYNIC man. When the question as to the reason was repeated, the glare somewhat subsided.

"My Friend!"

"You flatter me," I murmured.

"Have you read Shelley's Ode To a [illegible] who probably know that [illegible] is my own excuse for being." I wish I could say the same about this contest. However a greater reason was the father of this idea. It seems that in certain quarters—I do not care to say where—the sentiment seemed to be that U. V. M. girls on the whole were not up to par with the girls of other schools in that they were not so good looking. In addition it added a wholesome feature to the Junior Prom. While you are adding note the fact that this contest will gain national notice thus bringing to the attention of others the nobility of our institution. We could go on adding indefinitely—"

Getting more and more humble, your reporter determined to find out what the student body thought the most beautiful co-ed should look like. The most he could learn however was that 'Miss So-and-So exemplified it, or Miss Such-and-Such. So with the rest of the weary reporters he finally decided to let the CYNIC poll decide the question.

Your more and more and more humble reporter was requested to ask you gentle readers that all sexes are expected to vote. Voting will be in the Coffee Corner on the days announced, April 29 and 30. So don't forget to come to the polls on the voting day to cast your ballot for the girl who in your opinion is the most beautiful co-ed at the University of Vermont.

S. Z. P., '32.

EVELYN I. SLAYTON, '31,
Manager of the Women's Rifle Team during 1930-31

WANTED

Sophomore scrubs for Wig and Buskin. Report to J. W. Marvin at the Delta Psi House.

The smallest book in the world is now in the possession of the library of the Massachusetts Institute of Technology. Smaller than a postage stamp, the book measures thirteen-sixteenths of an inch and contains 160 pages. It is bound in red leather which is tastefully lettered in gold.

NOTICE

WANTED

Freshman and sophomore men to scrub for the business managership of the Freshman Handbook. Report to D. W. Webster at once.

A meeting of the International Relations Club will be held during the coming week. Watch the Cynic for further announcement.

All senior reports must be handed in to the English department by May 16.

Seniors must sign their order for canes and send them immediately. The price for canes this year has been reduced from four dollars to three dollars.

(signed) W. E. Craig.
Chairman of the Cane Committee

Junior Varsity Debaters In Midst of Successful Season This Year

Evidence of a highly successful season for the junior varsity debating team was disclosed in an interview by James F. Bigelow, '33, manager, Friday.

"Exceptional success," he declared, "has been achieved in the development of young debaters, enough I think to warrant an entirely new team for the class of 1934 next year to compete in the Burton Prize Debate. At least four of the men are strong possibilities for the position on the varsity team which will be made vacant by the graduation of G. R. Nelson, '31, this June."

The junior varsity aims to develop men interested in debating who have no other chance to display their talent. Usually freshmen under supervision of older debaters take part in the frequent debates held.

Junior varsity activities will be resumed in a very few weeks and letters arranging for future meetings have been sent to Granges, clubs and fraternal organizations throughout the State. There is also a possibility of several debates with Saint Michael's College at a later date.

Debates have been held on a series of topics including "The Chain Store Question," "Capital Punishment," Prohibition," and "The Emergence of Woman From The Home."

Burlington, Milton, Vergennes, West Bolton, and East Georgia have been the chief scenes of activities this year with the men debating including Marshall Howe, Irving Lisman, Robert VanDyke, C. J. Libby, Realtus McCuin of the class of 1934, Fred Householder, '32, Ernest Codding, '31 and James Bigelow, '33.

MRS. GRIEBEL TO STAGE STYLE SHOW ON MAY 2

Mrs. Catherine Griebel, who each year gives a series of style shows under the auspices of the home demonstration department of the Vermont Extension Service will hold the Burlington show Saturday, May 2, at the Memorial Auditorium. Nine other shows will be staged according to the following schedule: May 1, City Hall, Montpelier; May 4, High School Auditorium; May 5, Memorial Hall, Orleans; May 6, Fuller Hall, St. Johnsbury; May 7, Opera House, White River Junction; May 8, Chandler Music Hall, Randolph; May 11, Bellevue Theatre, St. Albans; May 12, Grange Hall, Middlebury; May 13, Auditorium, Brattleboro.

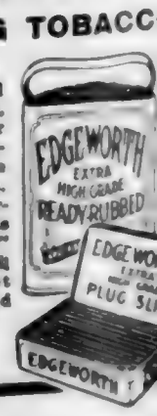
What's YOUR favorite pipe tobacco?

Most* PRINCETON *men smoke—



IF you walk along Prospect Street in Princeton you'll notice how many men load their pipes from the familiar blue Edgeworth tin. At Senior Singing on the steps of Nassau Hall this spring the pipes will glow with Edgeworth.

A pipe and Edgeworth—this is the smoking combination that has won the college man. Yale, Dartmouth, Cornell, Illinois, Stanford . . . all agree with Princeton.

College men everywhere respond to the appeal of pipes—packed with cool, slow-burning Edgeworth. Be guided by their choice: Try Edgeworth yourself. Taste its rich natural savor that is enhanced immeasurably by Edgeworth's distinctive eleventh process.

You will find Edgeworth at your nearest tobacco shop—15¢ the tin. Or, for generous free sample, address Larus & Bro. Co., 105 22d St., Richmond, Va.

EDGEWORTH
SMOKING TOBACCO

Edgeworth is a blend of fine old burleys, with its natural savor enhanced by Edgeworth's distinctive eleventh process. Buy Edgeworth anywhere in two forms—"Ready-Rubbed" and "Plug Slice." All sizes, 15¢ pocket package to pound humidor tin.

GREY FRIARS SOCIETY HOLD NEXT SOCIAL MEET AT HOTEL IN CANADA

Decision Reached at Last Business Meeting — Members Read Manuscripts

HOUSEHOLDER EXPLAINS MAKEUP OF NEWSPAPERS

Grey Friars, the honorary men's [illegible] society, will hold its next [illegible] meeting in Canada with a banquet and talks by members.

This decision was made at the last meeting held Sunday evening at the home of Paul J LaCrosse on Elmwood Avenue. It is the general policy of the society to meet at the homes or camps of its members.

"Newspaper Makeup," an exposition delivered by Fred W Householder, '32, managing editor of the CYNIC, featured the last meeting at which manuscripts were read by several of the members of the club. In the course of his talk Householder pointed out that on the news page as well as in any pattern is attained by symmetry and variety.

News stories are given prominence in this page by means of position, and by style of their type and size of their columns. He stated that the columns of a page rank in importance from left to left, the center and lower columns being of lesser significance.

Symmetry is attained by the placement of the newsheads on the page with a view toward presenting an even effect.

Ears are used to balance heads, which are also balanced and separated from each other by different heads or by the bodies of other stories.

The front page is the most important and so attention is given to its balance and variety and the continuation of long news articles on inside and rear pages.

Variety is attained, Householder showed by grouping stories of different object matter together and avoiding the juxtaposition of articles on similar topics. These with the pyramid arrangement of advertising matter, are the main factors in the makeup of a newspaper.

WOMEN'S STUDENT UNION INSTALLS NEW OFFICERS

Bouquets Presented to Retiring and New Officials at Last Thursday's Meeting

Women's Student Union held a mass meeting Thursday evening, April 23, in the Gymnasium to install the new officers. Margaret Stanley, '31, retiring president of the organization, presided over the meeting.

After the treasurer's and secretary's annual reports had been given by Lucia Davis, '31, and Elisabeth Mandigo, '32, respectively, Margaret Stanley, in her farewell address stated that the year had been a very successful one in regard to the work of the organization, and expressed her gratitude to the student body for the hearty cooperation in carrying out the Student Union rules.

Dorothy Nash, '31, retiring chief justice presided over the installation of the following officers who will officiate during the year 1931-32: president, Lillian Mount, '32; vice-president, Sylvia Boyd, '33; secretary, Priscilla Perry, '33; treasurer, Helen Gilman, '32; chief justice, Olive Hall, '32; chairman of social calendar committee, Lois Harrington, '32; chairman of the program committee, Margaret O'Dell, '33.

Mildred Akins, '32, president of W A A spoke on the women's indoor meet held last Friday, April 24, and Sylvia Farnham, '32, gave a short talk on archery.

Bouquets of roses were presented to the retiring president and chief justice and to the new president and chief justice by the organization.

After the business meeting adjourned a social evening of dancing was enjoyed. Refreshments were served.

A college education has been estimated to be worth $72,000 by Dean Everett Lord of Boston University. He claims that increased earning power is responsible for this figure.

Vote For Junior Week Queen at Polls Today and Thursday

Cast Cynic Ballots in Coffee Corner for Co-ed Best Exemplifying Personality, Charm and Physical Beauty—Currier's to Add Sports Costume to List of Prizes for Highest Three

Voting for the woman at the University of Vermont who, in the mind of the students best exemplifies feminine personality, charm and physical beauty, will be held in the Old Mill near the Coffee Corner today and tomorrow.

Students will clip the printed ballot from the CYNIC and indicate thereon their choice of the Queen of Junior Week.

Ballots are not to be signed and the officials stationed at the polls will check the name of the voter as he drops his folded vote into the slot of the ballot box.

Every academic woman at the University is a candidate for the Queen of Junior Week. From among the ten highest appearing as the result of the first ballot, the students will choose by preferential ballot on May 6 and 7, the highest three from whom the winner will be selected by a faculty board and announced at the Junior Prom, May 15.

Abernethy's offers as first award an evening ensemble, consisting of a gown and wrap to be personally selected by the winning woman. In addition, the CYNIC will present the CYNIC Cup for her permanent possession. Currier's also will award a sports costume as one of the prizes for the two others not receiving first place.

SOCIAL CALENDAR DRAFT WILL BE DISCUSSED AT MEETING ON WED., MAY 6

Assistant Dean Swift Anxious to Have Meeting Well Attended in Order to Schedule All Events

In order to arrange a preliminary draft of the Social Calendar for the coming year, Dean Elijah Swift has called a meeting for all those interested to be held Wednesday, May 6 at 4 15 p.m. in his office. He urges that there be a very full attendance at this time so that as many events as possible may be scheduled.

The Social Calendar for all the past year is posted in the Dean's office where it may be consulted by any who wish to do so with a view toward improving next year's calendar. It is proposed to arrange a tentative calendar at this meeting, publish it in the CYNIC and post it, making the final draft later in the month. Please come prepared to offer constructive suggestions and criticisms.

While every organization interested in making this calendar is invited to send a representative, it may be possible to have the same individual represent several organizations and this should be done, when convenient, to avoid too large a meeting.

The following organizations were either represented in the making of the calendar last year or have given dances this year. Others interested are, of course, also invited to attend.

Men's and women's fraternities, Boulder, Mortar Board, Key and Serpent, Gold Key, Scabbard and Blade, Wig and Buskin, Y M C A and Y. W. A. C., Newman Club, Band, sophomore and junior classes, i.e. 1934 and 1933.

ELLIS, BARNES AWARD UNIVERSITY BEQUESTS

During the past few days Vermont has been especially fortunate in acquiring combined bequeaths totalling $11,000. The first of these was a $10,000 award from the settlement of the will of the late George W Ellis of New York City. The second of these awards was from the will of the late Reverend Dr Stephen G Barnes of Essex Junction.

In the case of the Ellis award the money was originally willed to go toward the combination of the three Vermont colleges Vermont, Middlebury and Norwich. Combination of these colleges being out of the question to all parties concerned, the will then provided that the money, at that time $100,000, should go to Columbia University after five years had elapsed. Columbia, however, desiring the money immediately effected a settlement through the efforts of Attorney George Ellis of New York, nephew of the deceased. The settlement gave $70,000 to Columbia and $10,000 each to Vermont, Middlebury and Norwich.

The will of Doctor Barnes included bequests of $1,000 to Lafayette College, Grinnell College, Hartford Theological Seminary and Fisk University, in addition to the one to Vermont.

ON FEMININE BEAUTY

A prominent Arts and Sciences professor, in an interview with the CYNIC, expressed himself as follows on the subject of beauty: "Beauty varies with country, time and place. Perhaps there is no criterion of beauty, yet pleasantness would not be a bad standard. Esthetic beauty is a question of relativity. Green looks beautiful on grass but not so good as a girl's complexion.

In a woman symmetry would be a fine standard. In judging beauty we take into consideration symmetry and proportion of features, body, legs, nose, etc. In space perception the eye naturally tends to follow circles and curves. In aesthetic perception curves are of course important.

It is well to keep in mind the Greek idea of measure, order, proportion as exemplified in their statuary."

The reason for this interview was to give the students somewhat of a criterion to go by as they made their choices on balloting days of Vermont's First Queen of Junior Week. Certainly there is no universal law of beauty.

Measure order, proportion seems to fill the bill as far as an everyday rule of beauty goes. The tendency for the human eye to follow curves has been long recognized by the layman as well as the scientists. Still the Greek statute as a model of beauty is a sound one and Penelope in the Billings Library will serve as a good example.

In another personal interview with Webster's Collegiate Dictionary he tells us that beauty is an assemblage of graces or properties which command the approbation of the senses; those qualities which are most pleasing to the eye, a particular grace or charm; a beautiful woman. As for us that last is enough; a beautiful woman.

French Club Hears Talk by G. H. Smead

Romantic Tendencies in French Literature is Followed by Play

"Romantic Tendencies in French Literature," was the subject of an oral review by George Smead, '31 at the monthly meeting of Le Cercle Lafayette held at the Alpha Chi Omega House last Wednesday evening.

Professor Doane of the French Department gave a talk on his sojourn in France and the advantage of studying in France.

A play, "La Dame en Bronze," was read by members of the club under the direction of Mrs F D Carpenter. This is the second of a series of plays to be presented at the French Club meetings.

A short business meeting was also held at which Paul J LaCrosse, '32 president of the club, announced that officers for the coming year will be elected at the final meeting to be held in May. The present officers are: President, Paul LaCrosse, secretary, Lillian Mount; treasurer, Elizabeth Mandigo, and chairman of the entertainment committee, F B Drew.

Refreshments of coffee, sandwiches and ice cream were served after the meeting under the supervision of F B Drew and Lillian Mount.

LAST HOME DEBATE TO BE NO-DECISION CONTEST WITH CLARK UNIVERSITY

Vermont Argues on Negative Side of Free Trade Question, With Clark U. As Opponents, in Old Chapel Last Thursday

Clark University met the men's varsity debating team in a no-decision tilt upon the question, "Resolved: That the Nations Should Adopt a Policy of Free Trade" last Thursday evening at 8:00 p.m. in the Old Mill Chapel. G R Nelson, '31 together with R P Donaghy, '32 upheld the negative with M Gissen and E Rogers of Clark speaking for the affirmative. Prof L. W Dean of the English department acted as chairman and the Oxford style of debate was used allowing seventeen minutes for each man speaking in construction and the first speaker dividing his time, with a five-minute rebuttal at the end.

M. Gissen of Clark, a Vermont boy and a one-time member of the Brattleboro High School State Championship team along with Franklin Sears, U V M '30 opened the debate for the affirmative, by stating that the policy of free trade was sound as compared to the unsound antagonistic policy of the protective tariff. Gissen quoted prominent economists who he declared were against the protective tariff in consideration of the fact that with trade barriers once removed, goods could be bought much cheaper in cheaper markets.

In closing Gissen advocated a policy of free trade like that among the various states in the country who at one time had high import taxes upon goods carried from one state to another. "Even nations too at one time practiced protection" Gissen said, "only to come to the conclusion that it is a cut throat method which is not economically sound."

R P Donaghy was the first speaker for Vermont. He told the audience that the Vermont team had not separated its points into economic or social divisions, and that the Clark team was merely trying to find a hole in the protective tariff rather than upholding the value of free trade. "Spheres of competition in trade among the nations" Donaghy said "When one industries meet other by industries that is competition. When a big fellow meets a big fellow that is competition, but when a little fellow meets a big fellow, that is murder!" The best market for a manufactured product is in its own country but with a policy of free trade that country becomes the dumping place of the nations in time of a depression."

Rogers of Clark opened his speech as third speaker by declaring that protection in trade was "but an offshoot of selfishness which appeals to the crowd. "Farmers join for protection" he said, "and sly politicians advocate protection." Mentioning the Smoot-Hawley Bill, Rogers declared "If we raise a high tariff wall to aggrandize a few particular industries we will have 90 percent of our wealth in the hands of 4 percent of the population. "We cannot view without concern," he said "a policy which has ended in impoverishing entire Europe."

George Nelson captain and manager of the team closed the debate for Vermont.

Answering the statement of the Clark team that leading economists advocate free trade he said "I dispute the fact that any such economists would favor the cotton industry's being king in the South." "Neither Great Britain nor Canada has free trade" he said. "England regulates the inflow and outgo from her colonies by means of preferential tariffs."

What would a country do in case of war with a policy of free trade?" Nelson asked.

"I challenge you to quote one economist who stated that a policy of free trade would eradicate world unemployment."

As the debate was informal Nelson took the opportunity to thank Mr Powers coach of the team and Mr Dean who has chairmanned several debates, for their aid to the team in the past.

When interviewed after the debate by a CYNIC reporter Nelson said: "I have really enjoyed my work with the team and am sorry that this was my last home debate."

Gissen as last speaker closed the debate in rebuttal for Clark, challenging several of the statements made last on the Clark schedule and the last by the Vermont team.

The debate which was carried out in informal style with frequent interruptions by both teams, was the home debate for Vermont.

"You know," he thundered "that the United States has succeeded because of its economic resources."

IRA ALLEN ORATIONS TO FEATURE FORTIETH FOUNDER'S DAY PROGRAM

Mason S. Stone to Speak on Program with Samuel Barker and John Bradish

TO ANNOUNCE INCOMING MEMBERS OF SOCIETIES

Announcement of the incoming members of the honorary societies, addresses by Mason S Stone, John Bradish, '31, Samuel Barker, '32 and a review of the R O T C battalion will comprise the program of the fortieth Founder's Day ceremonies which will be held Saturday, May 2.

President Bailey will announce the men elected to Boulder, men's academic senior society, Mortar Board, women's academic senior society, Cap and Skull, medical senior society, Key and Serpent, junior society, Gold Key, sophomore society, Kappa Mu Epsilon, engineering society, and Scabbard and Blade, military society. Grey Friars, Blanketeers, Tau Kappa Alpha, Kappa Phi Kappa and John Dewey will make no announcements at these exercises.

Mason Stone of Montpelier, U V M alumnus, trustee and former lieutenant governor, will deliver the Alumni Oration.

John Bradish, senior orator who delivered the Junior Oration last year at Founder's Day, will speak on Ira Allen and Freedom, endeavoring to show how many struggles have even been concentrated around freedom and there have been leaders who have endangered their own lives to gain liberty for a people.

Ira Allen a Personality" is the theme of Barker's address. He centers his theme around Emerson's words "An institution is but the shadow of a personality."

While the schedule of events had not been released at the time the CYNIC went to press, the same program will be followed as last year.

All addresses will be in the Ira Allen Chapel and the battalion formation will be around the Boulder stone outside the Old Mill. At this time the members of Boulder and Scabbard and Blade will be announced.

All students are urged to attend the fortieth annual Founder's Day exercises which will be held Saturday, May 2.

The R. O. T. C. battalion will form at 9:15 a.m. The orations and announcements of the new members of the honorary societies will be held at 10 a.m. in the Ira Allen Chapel.

SOCIAL CALENDAR

At the preliminary meeting of University societies and honoraries to be held for the purpose of arranging a satisfactory social calendar, there should also be present representatives from the International Relations and John Dewey Clubs.

An effort should be made to draw up a schedule of meetings, events, and dances with no conflicts. Too often in the past a date has been selected for a dance only to discover a week or two prior to this date that it conflicts with a program of one of the intellectual organizations or comes during an extended period of final examination period.

This most frequently occurs when a date is scheduled on a night when one of the departmental clubs is meeting or when a University lecturer is present. This situation can seldom be avoided.

We do however see little excuse for a conflict between a glee club recital, dance, and departmental meetings which has at times occurred.

SPECIAL HONORS

Vermont is allowing students of high standing to devote some of the time during their senior year to specialization in honor courses, aligned herself with those institutions which are working for the good liberalization of the curriculum.

Instead maintaining a high standing she enables the possessors of it to escape being annoyed of some of the routine work of their curricula and allows the privilege of devoting a large part of their time during their senior year to a piece of research study on the subject in which they have special interest.

Under the arrangement provided by the Committee on Degrees of Honor Prof. G. P. Burns is suggesting the student will be allowed to count on not more than twenty hours of course work, and these to be elected after consultation with the head of the department in which special honors are sought. The balance of his time will be devoted to the study of some phase on which a thesis is to be prepared.

VOTE FOR JUNIOR WEEK QUEEN TODAY OR THURS.

(Continued from page 1)

So Vermont men and women, when you show your University patriotism and march to the polls tomorrow and Thursday don't forget to use the best of your ability in picking a fitting representative of feminine pulchritude and charm. As two eyes in space perception is better than one, so in this case two opinions are better than one.

It has just occurred to the most humble correspondent that perhaps his previous advice could only aid the eds. However, your subservient correspondent being an ed how could he hope to advise his weaker (?) colleagues in that matter. In desperation he turned to the poets, and offers you their advice.

THE TRUE BEAUTY

By Canaw

He that loves a rosy cheek
Or a coral lip admires,
Or from star-like eyes doth seek
Fuel to maintain his fires;
As old Time makes these decay,
So his flames must waste away.

But a smooth and steadfast mind,
Gentle thoughts and calm desires,
Hearts with equal love combined,
Kindle never-dying fires;
Where these are not I despise
Lovely cheeks or lips or eyes.

And listen, this is great advice to eds, too.

B. S. P., '31.

I believe parents are usually bad for their children.—*John B. Watson.*

VT. EXTENSION SERVICE HELPS FARMER'S INCOME

"Members of Dairy Herd Improvement Associations who have been following their records and making changes as a result of their studies have no thought of dropping this line of work because of lowered prices for milk," says E. H Loveland of the Extension Service of the University of Vermont and State Agricultural College.

The tester of one of the newer associations reports that one of his members has recently been checking over his milk checks and grain bills. He found that following a year in the Dairy Herd Improvement Association, the same number of cows showed an additional gross income of nearly $1,000 or about $50 per cow more than the previous year before entering the Association. For this additional income he had spent about $250 more for grain and had an additional expense of about $50 in preparing for better fall roughage.

BLUESTOCKINGS TO HEAR PROFESSOR CARPENTER

"German Literature" will be the subject of Professor Carpenter's talk at the next meeting of Bluestockings, which will be held at the Kappa Alpha Theta house at 4 o'clock today. Manuscripts from all the old members will have to be handed at this time.

That some people we know are so snooty they would just as soon insist on puffed rice at their wedding.—*Holy Cross Tomahawk.*

CINEMA COLUMN

AT THE STATE:

Wednesday and Thursday, April 29 and 30

"Hook, Line, and Sinker"—Idiots Wheeler and Woolsey perform their fooleries in a moribund hotel this time, which they try to resuscitate in behalf of Love Interest Dorothy Lee. [illegible] machine gun fire of rival gangs adds to the piquancy of the proceedings. Johnna Howland and Hugh Herbert give the two W's a hard run for comedy honors. If you don't laugh at this, you're diaphragmatic. A pepsin bar with some good gags.

Friday and Saturday, May 1 and 2

So many people have played in "Charley's Aunt" that in 1912 a "Charley's Aunt Club" was formed in London, composed entirely of people who had played in it. But it is excellent farce and this, combined with Charlie Ruggles' aunties, makes it worth seeing again. Doris Lloyd gives a fine performance as the real aunt and June Collyer adds beauty and distinction.

Monday and Tuesday, May 4 and 5

"Today." This old melodramatic stage thriller has been brought up-to date in one of those sensational films that are all hell, sex, and box-office. And yet, although you know it is hokum, you are held by it in spite of yourself, perhaps, because of the good acting of the ever-capable Conrad Nagel.

F. B. D.

R. O. T. C. OFFICERS WILL ATTEND SUMMER CAMPS

Sixteen juniors enrolled in the first year advanced course in Military Science, will attend the R. O. T. C encampment at Camp Devens, Mass.: S. B. Barker, P. E. Bove, W. F. Burnes, C. K. Bush, H. W. Davis, A. O. Eaton, M H Gower, R. A. Hyde, E. V. Kibby, C. S. Macutchan, C. L. Park, D. K. Parker, C. V. Prentiss, F. J. Varricchione, P. E. Westin and E J. Mercier.

A number of seniors are being scheduled for active duty, training as second lieutenants, during the summer training period. It is expected that at least ten will be stationed at Fort Ethan Allen, Vt.

COMPANIES A, B LEAD FIRST APRIL INSPECTION

Company A and Company B were the leading organizations at the Friday morning inspection of the R. O. T. C. battalion, Friday, April 10. The standing of the four companies to date listed by Fridays is as follows:

Friday, November 21, 1930: A 85.5%, B 84%, C 86%, D 89%.
Friday November 28: A 88%, B 80.5%, C 83%, D 86%.
Friday, December 5: A 90.5%, B 90.5%, C 83.5%, D 85.5%.
Friday December 12: A 90%, B [illegible], C 87%, D 86%.
Friday, December 19-January 2, 1931: Av. 88.5%, Av. 87.1%, Av. 84.9%, Av. 86.6%.
Friday, January 9: A 81%, B 87%, C 73.5%, D 71%.
Friday, January 16: A 80%, B 81.5%, C 81%, D 83.5%.
Average for First Semester: A 84.5%, B 86.2%, C 82.3%, D 83.5%.
Friday, February 6: A 80%, B 76.5%, C 87.5%, D 82%.
Friday, February 13: A 79.5%, B 81%, C 82%, D 84%.
Friday, February 27: A 88.5%, B 87, C 81%, D 93%.
Friday March 13: A 88.5%, B 92%, C 79.5%, D 86.5%.
Friday, March 20: A 90%, B 87.5%, C 87%, D 90.5%.
Friday, March 27: A 88.5%, B 87%, C 80.5%, D 88.5%.
Friday, April 10: A 87.5%, B 80%, C 78.5%, D 82.5%.

CLOTHING CONSULTANT HERE FOR STYLE SHOWS

Mrs. Catherine Griebel, clothing consultant from New York City, arrives in Burlington on April 26 to work in conference with the county club agents and the home demonstration agents. She will give actual training to these agents on selection and making of an appropriate outfit for the school girl and new finishes and permanent patterns adapted to the new styles. Following this conference, she starts, on May 1, her series of ten style shows to be given in Montpelier, Burlington, Morrisville, Orleans, St. Johnsbury, White River Junction, Randolph, St. Albans, Middlebury and Brattleboro. These style shows are under the auspices of the Extension Service of the University of Vermont and State Agricultural College and are being supported by women's clubs, local home demonstration groups and other organizations within the counties.

Review of "The Winnowings"

PAUL D. EVANS

Once again the *Winnowings* in its [illegible] brighten our desks. The March number, like its predecessors, has drawn tribute from numerous talented contributors, each with the product from his specially cultivated field.

[illegible] familiar yellow covers has come to [illegible]. First to present his offering is Merritt P. Allen who may well be as much read and loved by our children as were Henty and Alger by the youth of the last generation. From his own experience and from the depths of an understanding which penetrates far into the psychology of the juvenile mind, he has produced a charming little essay on the writing of books for boys. Here is sage advice to the tyro who would win the attention of the youth of America. Here are the rules of the game for those who would sit in with the contributors to *St. Nicholas* and the *American Boy*. Genius and experience alone can supply the art which appeals at once to the mind and the heart of youth, but Merritt with unerring judgment has analyzed that art and laid bare its requirements for those who aspire to its mastery.

To Justine Rogers goes the credit of a delicate and fanciful tale called *Creation*. Uncle Emile, the kindly cripple in his wheel chair, unwittingly conjures up the Werewolf. A moment this weird and [illegible] threatens like a [illegible] to bedevil his [illegible] of midnight he [illegible] tery of the Nor[illegible] forest.

Margaret Rice [illegible] vein, recounts a [illegible] *The Shack on* [illegible] no *procurateur de* [illegible] uncertain memory [illegible] whose ghost cannot [illegible] new haunts on the [illegible] mountain like in the [illegible].

The poets have [illegible] corners in fact [illegible] Robert Aiken have [illegible] stores of gentle mock[illegible] forth the *Youthful* [illegible] *Rondeau*.

Gladys LaFlamme [illegible] prose to the *Pine T*[illegible] an editor perhaps [illegible] protecting wall of anot[illegible] explodes the over[illegible] genenlogy, watching [illegible] sorry wreck floats [illegible] ground.

Finally comes E. J [illegible] less savage humor that [illegible] with an armful of book[illegible] sideration. You could [illegible] find a less trusty guide [illegible] mazes which the publis[illegible] ing for us.

DELTA DELTA DELTA

The alliance of Delta Delta Delta gave a bridge for the active chapter at the Athena Club, Wednesday evening.

Betty Smith has been chosen as delegate to the Tri-Delt Dance at Middlebury, to be held next week.

PI BETA PHI

Vermont Beta will entertain the Middlebury chapter in celebration of Founder's Day, Tuesday evening at the Klifa Club.

KAPPA DELTA

Second degree initiation will be conferred upon Elinor Bean, '34, Dorothy Davis, '34, Anna Green, '34 and Betty Page, '33. The initiation breakfast will be held at the Athena Club.

K. E. L.

K. E. L. held its spring formal at the New Sherwood Hotel last Friday night. Professor and Mrs. Evans and Professor and Mrs. Carleton chaperoned.

There will be an outdoor meeting of K. E. L. at the Sandunes next Sunday.

Molly Levin, '29 was a visitor last week.

NINE CRACK SQUADS TO COMPETE FOR PRIZE CUPS

Eight fraternities and the Vermont Independents will be represented by crack drill squads in the contest for the R. O. T. C. cup which will be held during Federal Inspection, May 12 and 13, 1931.

The cup, which was presented by the Reserve officers of Burlington in 1929, is given annually to the fraternity or group whose squad won the contest. It becomes the permanent property of any group which wins it in three annual competitions. Delta Psi Fraternity has won the contest at the 1929 and 1930 inspections. In addition to the Vermont Independents, the following fraternities will be represented: Sigma Alpha Epsilon, Alpha Tau Omega, Phi Mu Delta, Kappa Sigma, Phi Delta Theta, Sigma Phi, Sigma Nu, Delta Psi.

Green and Gold Defeats St. Mike's in Eleven Innings

Win 7 to 6 in Erratic Game—Cummings Starts on Mound for Vermont but is Relieved by Sargent—Purple Ties Score in Ninth with Two Runs

GAME CHARACTERIZED BY LOOSE FIELD WORK

The first game of the 1931 season at Centennial Field the Green and nine managed to set St. ...s down by a 7-6 count after ... innings of exciting baseball ... afternoon. The contest was ... and marked by frequent and ... errors. St. Michael's was ... with six miscues and Ver... with four. Neither of the start... pitchers, Cummings for the Green ... or Dupuis for the Hilltoppers, ... allowed to go the distance. Coach ... Gardner sent Wally Sargent, ... reliable to relieve Cummings ... ninth and Burke took up the ... assignment for Dupuis in the ...

The heavy stickwork for Vermont was done by Jay, Macomber and Cummings. The former collected two ... Cummings one, and Macom... a triple, while Burke's triple was ... only extra base hit for the St. ...

The Game

... Inning:

Vermont grounded out to first. Pires ... out short to first. Winant ... out second to first.

St. Michael's—Peppin hit a hot liner ... Macomber. Leddy reached first ... Stroh fumbled his sacrifice. ... Remillard hit safely scoring Peppin ... had reached third on Stroh's ... error. Remillard and Leddy ... on Burke's triple. Dupuis hit ... Burke. Sullivan grounded ... Dupuis going to second. McGowan ... out and Dupuis went to third. ... reached first on an error. ... struck out. Score—St. Michael's ... Vermont 0.

... Inning:

Vermont—Stroh popped to short. ...man walked. Baker flied out. ...mber grounded to Dupuis.

St. Michael's — Papin flied out. ... fouled to Stroh. Remillard ... to Cummings.

... Inning:

Vermont—Collins reached first on ...'s error. Cummings hit through ... Jay and Pires each were out ... called third strike. Winant hit ... short to score Collins, and ...mings hold up at third. Stroh ... out.

St. Michael's—Burke and Dupuis ... Winant for outs. Sullivan ... to right field. McGowan flied ... Winant.

... Inning:

Vermont—Dinniman grounded out ... Baker walked. Macomber ... Baker at second. Macomber ... second and scored on Collins' ... The latter went to third on ...'s bad peg and Cummings struck ...

St. Michael's- Devine and Dupont fanned and Peppin flied out to Baker.

Fifth Inning.

Vermont—Jay hit through first for two bases and stole third. Pires struck out. Winant hit through second scoring Jay. Stroh walked but was forced out at second by Dinniman's rap while Winant went to third on the play. Baker flied out to right field.

St. Michael's—Cummings whizzed three strikes past Leddy and Burke, while Remillard was tossed out on a ground ball.

Vermont Ties Score

Sixth Inning

Vermont—Macomber and Collins were thrown out on infield plays. Cummings spanked a double to center field and Jay duplicated the feat through first and Cummings' run tied the score 4-4. Pires grounded out.

St. Michael's—Dupuis and Sullivan hit safely but McGowan was out on an infield fly. Devine walked and the next two men failed to reach first.

Seventh Inning:

Vermont—Winant reached first on wide peg by Peppin. Stroh sacrificed. Dinniman flied out to Leddy. Baker hit to center scoring Winant and went to second on the play. Macomber tripled to deep right field to score Baker. Collins flied out to left.

St. Michael's—Leddy was out on a pretty play, Winant to Cummings. The next two batters hit into the air for put-outs. Score—Vermont 6, St. Michael's 4.

Eighth Inning:

Vermont—Cummings walked. Jay sacrificed. Pires flied out to right and Winant was out on a called third strike.

St. Michael's—Dupuis walked. Sullivan and Devine failed to make connections while McGowan flied out to Dinniman.

Purple Scores Twice in Ninth

Ninth Inning:

Vermont—Stroh grounded out. Dinniman singled to center but Baker and Macomber fanned.

St. Michael's—Sears batting for Dupont singled through short. Peppin grounded out to Cummings. Leddy walked. Sargent relieved Cummings. Remillard was safe on Macomber's error, Sears scoring. Burke hit to Pires who fumbled and Remillard scored. Then Sargent pulled his team together by slipping three strikes past Dupuis and Sullivan. Score was tied 6-6.

Tenth Inning:

Vermont—Collins grounded out to McGowan. Sargent and Jay struck out.

St. Michael's—McGowan struck out. Devine walked. Sears hit to Macomber and was interfered with on the play by Devine, who after a heated discussion and long deliberation by the umpires was called out for the offense. Peppin fanned.

Eleventh Inning:

Vermont — Pires hit to center. Winant sacrificed. Stroh flied out to Devine. Pires went to third on a passed ball and scored a minute later on Burke's wild pitch. Dinniman hit

Jack Libby Pins Lou Lisman on Mat

Freshman Wins 125-pound Crown by Throwing Senior in Spirited Match

Jack Libby '34 won the 125-pound wrestling championship when he defeated Lou Lisman '31 by the count of two falls and forty-five seconds time in the twelve minute final match on Friday afternoon. Both contestants placed at weight and did not go the full time allowance. With just a few seconds to go Libby pinned Lisman's shoulders to the mat with a cross-over and arm-lock hold. Libby was in slightly better condition than his opponent although the fight was more of a game of wits.

The results of the wrestling matches gave created the following championships for Lyford, Libby, Winthrop, Pierce, Peters, Sokolov and Horenstein. In the 115-pound class Lyford forced Sherwin in 1.27 time. Winthrop won the 135-pound event from Wasserman with a 2.16 time advantage. Tom Pierce won from Perelman in the 145-pound bout when he secured a fall in 7.41 in a bitter struggle. Peters secured a fall on Fleming in five minutes time. Sam Sokolov had no trouble in winning in his class (175 pounds) when he bounced Pratt's shoulders to the mat in 1.16 time. Horenstein took the unlimited championship from Isenberg.

KAPPA SIGMA DEFEATS PHI DELTA THETA TEAM IN FRIDAY SLUGFEST

Newcomb Stars at Bat and in Box for Winners in Game of Runs

The Kappa Sigma baseball team defeated the Phi Delta Theta team in a five-inning ball game last Friday afternoon. The final score was 13-10. The Phi Delts had the game sewed up in the first inning when they knocked Hank Durfey out of the box to score seven runs. When Newcomb went in to pitch for the Kappa Sigs, that team settled down and played real ball. In the fourth inning they pounced on Loudon for nine runs, peppering hits through the infield, outfield, and even the pitcher. The fifth inning was a goose egg inning for both teams. Loudon pitched a fine game for the losers but was handicapped by poor support. Newcombe was in fine fettle not only in the box, but at the bat.

The box score:

PHI DELTA THETA

SHELDON TO CAPTAIN VERMONT RIFLE TEAM

Press Will Be 1932 Manager—Letters are Awarded

Herman J. Sheldon of Fair Haven has been elected captain of the Varsity rifle team of Vermont, succeeding Willis Stone of [illegible] and N. H. Prue of St. Albans will be manager.

Letters were [illegible] Capt. Leo C. Mayette, Dorchester of Warren Wm. L. R. Bradshaw of North [illegible] Wm. J. Burke of Isleboro, Me., [illegible] of Waterford, P. H. Thomas of Plattsburgh, L. S. Wright, Jr., of Chazy, N. Y., Sheldon and Morrison both of Fair Haven, N. Y.

Sheldon was also elected president of the V. M. rifle club, Wright vice-president, Burke treasurer, C. K. Bush of Sheldon recording secretary, Prue corresponding secretary, and Dunham assistant to the executive officer, Lieut. J. W. Kullman.

PHYSICAL EDUCATION DEPARTMENT WILL GIVE SEVERAL NEW COURSES

Tennis, Riding and Baseball Coaching May be Elected This Spring

The Physical Education Department of the University of Vermont has inaugurated several new courses that may take the place of the regular course offered. Tennis, riding and baseball coaching constitute the new fields of activities.

Tennis is played any time convenient to those who have signed up. Horseback riding, while a little strain[illegible] on the members for the first few times, has excited quite some interest. Classes are held twice a week and a small nominal fee is charged. Those who are interested in baseball and cannot play are satisfied with the rather novel course of baseball coaching.

Spring activities in the regular course consists of track for the freshmen. High jumping, sprint starts, broad jumping and field events are the [illegible] covered in this course. "Archie" Post is completely in his element and seems to be finding new candidates [illegible]. The sophomores, under the direction of "Bumps" Levine, play baseball on the back campus. Much excitement and enjoyment has been derived in this [illegible].

Coupled with the other activities of the Department are the Sigma Delta Psi [illegible] which are held every Tuesday and Thursday afternoons. Many promising candidates are out for the [illegible] honor society and there is a prospect of quite a few new members.

Nowadays everybody wears chains and never thinks of getting them off. They juggle with them, outwit the laws. *Jonathan Leonard*

SOPHOMORES DEFEAT FRESHMEN 8 TO 4 IN ANNUAL INDOOR MEET

Mrs. Hard, Misses Baldwin, Babbitt, Akins '31, Warhurst '31, and Cummings Judge Events

MARKS FIRST SOPHOMORE VICTORY IN MANY YEARS

At the indoor meet the annual competition between Freshmen and Sophomore women held Friday night April 24 in the University Gymnasium, the Sophomores won from Freshmen by a score of 8-4.

Following is the program and the points totalled by the competitors:

		Soph.	Frosh
1	Posture march	3	
2	Relays	2	1
	Medley [illegible]		
	Pass and Squat		
	Tip [illegible]		
3	Demonstration dances by first year teachers training students		
	Chimes of Dunkirk		
	Cachuca		
	Shoemaker's dance		
	Varsouvienne		
4	Cage ball		3
5	Competitive dancing [illegible] Sophomores. The [illegible] Freshmen. Jockey dance	1	
6	Demonstration dance—advanced dancing class. East side		
	Total points	8	4

Mildred Akins, '32, president of W. A. A., awarded the cup to the Sophomores, and this is the first time in several years that the Sophomore class has won the indoor meet cup. The basketball cup was presented to Edith Abbott, '31, captain of the Senior basketball team, which has won the cup four years consecutively.

The varsity basketball team announced at this time consists of: Forwards, Winifred Graham, '32, Harriet Johnstone, '31; guards, Edith Abbott, '31, Janet Miller, '32; center, Frances McKean, '31, side center, Justine Rogers, '31. Varsity basketballs were awarded to Edith Abbott, '31, Winifred Graham, '32, and Justine Rogers, '31.

Ann Armstrong '32 was chairman of the indoor meet, which was the best one held for several years. The judges of posture were Mrs. Hard, Misses Baldwin, Babbitt, Akins, '32, and Warhurst, '31. Judges of dancing were Mrs. Hard, Miss Babbitt and Miss Cummings.

DEFEAT POST TEAM

In a seven-inning practice game Wednesday the Green and Gold varsity defeated Fort Ethan Allen's baseball nine by a 9 to 6 score. Larry Bowers hit a home run with Dinniman on base in the first inning when Vermont tallied four times.

After the opening inning the game was close with the Soldiers threatening frequently and at one time securing a temporary lead. Farmer relieved Cunningham in the box after the fifth when the Post men pushed five counters across the plate.

The playing of both teams was somewhat erratic with many blunders committed by both.

After gaining a four to one lead in the opening frame the Catamounts sailed along nicely until the fifth when the Post team batted around and scored five times on a double, three singles, a walk, an error and a few misplays.

In their half of the fifth the Vermonters made two walks and two hits good for three runs and further assured themselves of victory in the sixth with two more scores, the product of four singles two of which were infield hops beaten out by the runners.

KAPPA SIGMA DEFEATS PHI DELTA THETA TEAM

(Continued from page 3)

Ed Sylvester, partial owner of "Moaning Low" (the long green conception which he and "White Man" Barlow drive around in), started off with a low rumble behind the plate at the beginning of the game, but had to be content to finish with a squeak at the end.

Babe Ruth and Ken Smith have decided to edit a book together called, "How to Avoid a Charlie Horse."

Newcombe had a tough time pitching to "Shorty" Brown because he couldn't see where the latter's knees began. Bill had long pants on.

Co-ed Notes

Margaret Crane, '33, has been recently elected corresponding secretary of the W. A. A. Council.

A varsity tennis team will be chosen this year for the first time.

Outdoor sports, classes of archery, tennis, and baseball, with golf and riding as electives began Monday, April 27.

STEPPING INTO A MODERN WORLD

"Test it!"
the watchword of an industry

The Bell System—whose plant cost more than $4,000,000,000 and is still growing—offers wide opportunity to the man of engineering bent. Here he has ample scope for testing new ideas, not only in telephone apparatus development but also in manufacture, construction, installation, maintenance and operation.

No matter what his particular branch of engineering—electrical, mechanical, civil, industrial, chemical—his training stands him in good stead. For "telephone engineering" calls for the broad engineering point of view as well as specialization.

Basic technical knowledge, an appreciation of economic factors and the ability to cooperate are some of things that count in Bell System engineering. For men of this stamp, *the opportunity is there!*

John Dewey Club Will Become New Honorary Society Tuesday Night

Membership in Psychology-Philosophy Group To Be By Invitation Only—Will Require Either Grade of A or B in One of Above Courses or Acceptance of Thesis—Plan to Stabilize Membership

SOCIETY ELECTS OFFICERS FOR COMING YEAR

Acting upon the recommendation of the executive committee the John Dewey Club, at its business session last Tuesday, become an honorary psychology and philosophy society with membership to be by invitation only.

This change in organization comes after four years of functioning as a society open to membership of those who have taken at least one course in either psychology or philosophy. The reorganization came as the result of an effort on the part of the officers and Professor Ewert to attract and hold the attention of student and faculty members who have an interest in philosophy or psychology.

It is felt that this will provide a stimulus for activity and thus stabilize the membership of the society.

Under the new constitution which will be adopted at the next meeting of the society provisions will be made for membership, election of officers, payment of dues and time and program meetings.

At the last Tuesday meeting the following officers for next year were elected after being nominated by the executive committee: Joseph C. Carter, '32, president; Clara M Kellogg, '32, vice-president, Pearl Jennings, '32, secretary, and S. Nathan Spiller, '33, treasurer.

Eligibility for membership under the provisions of a motion made by Ruth Burroughs, secretary-treasurer of the society, will require applicants to have attained an A or B in one course in either psychology or philosophy or to present an original thesis which shall be accepted by a two-thirds vote of those present or voting at the meeting of the executive committee at which the thesis shall be considered.

Membership of those who fulfill the necessary scholastic requirement is by invitation. Those who cannot meet this requirement must voluntarily submit a paper on some phase of psychology or philosophy.

Dues, carrying with their payment the right to vote and to hold office, will be required of all members including charter members.

All meetings of the John Dewey Club will be open to the general public after the business meetings which will meet in closed session for the purpose of considering constitutional amendments, admission of new members, and election of officers.

Pins of a distinctive nature for recognition of membership as well as a suitable initiating service will be provided at the next meeting.

The honorary faculty members of the newly organized society are George B Dykhuizen, associate professor of philosophy; P Harry Ewert, associate professor of psychology, Asa R Gifford, professor of philosophy and John T Metcalf, associate professor of psychology. Professor Gifford is to be the faculty advisor of the John Dewey society next year.

The members of the retiring executive committee are: L. Lisman, '31, president; Hilda Smith, '31, vice-president; Ruth Burroughs, '31, secretary-treasurer, Joseph Carter, '32, Edmour Germain, '31, and Julius Perelman, '31.

To assist the new officers as members of the executive committee are: Chester Bush, '32, Esther Beardsley, '33, Paul LaCrosse, '32, Norma Carder, '33.

Invitations are being sent to the following charter members of the society:

Helen N. Allen, '33, Burlington, Esther S Beardsley, '33, W Hartford, Conn., Ruth A. Burroughs, '31, Charlotte C K Bush '32 Sheldon; Norma B Carder '33, Newport, J C Carter '32, E Corinth, Helen Estelbrook '32, Shirley, Mass.; E. A R Germain, '31, Burlington, Carlotta Grimm '31 Hartford, Conn., Pearl E Jennings '32 Hardwick, P. J. LaCrosse, '32 Burlington; L. Lisman, '31, Burlington, Mailla R. Putnam, '32, Burlington, Waver S. Keeler, '31, Orleans, Clara M. Kellogg, '32, Bristol; Jessie T Minckler, '32, Grand Isle; E B Rand '31, Albany; S. N Spiller, '33, Barre, Hilda S Smith, '31, Easthampton, Mass.; Katherine R Tracey, '31, Burlington, Hildur E. Wilde, '32, N. Andover, Mass.

TWO SPLIT REWARD OF LATIN ENTRANCE PRIZE

The Howard Entrance Prize in Latin is divided equally between John Luther Beckley of Great Neck, Long Island, N. Y., who prepared at Great Neck High School and Ruth Mary Reynolds of St. Johnsbury, who prepared at Bellows Falls High School.

The girls living in the Practice House this week are: Ruth Small, '31, hostess, Edith Pritchard, '31, assistant hostess, Katherine Skinner, '32, Theodora Wakefield, '32, Zoay Bigelow, '33, Marie Hornk, '34, and Alice Hersom, '34.

The Intercollegiate Club met at the Practice House, Tuesday evening, April 28. Mrs. H. G. Bennett gave a Brahms recital.

RESEARCH CLUB TO HEAR EIGHT GRADUATE FELLOWS

Representatives From Six Departments and Five Institutions Will Discuss Own Work

Eight graduate students, representing six departments who hold University research scholarships will give reports on their work at the final meeting of the University Research Club which meets Tuesday, May 19 at 8 p.m. in Morrill Hall.

The speakers will be Shirley Andrews French, John Berry, history, E O Bundy, physics, Lillian Cohen, French, Mable Freeman, history, A E Pottala, Winona Stone, plant pathology, Elizabeth Wiss, Greek.

Of the eight speakers four are U. V. M. alumni and four are products of other institutions.

MASON STONE DELIVERS ALLEN ALUMNI ORATION

Mason S. Stone, former Lieutenant Governor Vermont, present alumnus and trustee was the principal Founder's Day orator this morning in Ira Allen Chapel.

The text of his Ira Allen address could not be secured at the time the CYNIC went to press but will be contained in the issue of May 5.

Eight Honorary Societies Elect

Class and Departmental Groups Take Sixty-six—Gold Key Increases Number to Twenty

Eight class and departmental honorary societies each invested with the power of the perpetuation of its membership, announced sixty-six new members this morning. President Bailey read the list of newly-elected honorary members.

Boulder, the senior men's honorary society, elected two men who had never before been included among the members of a class honorary.

Of the fifteen Gold Key men of last year three attained recognition by election to Key and Serpent the junior class society.

Gold Key this year at the suggestion of the University Council and representatives from Boulder and Key and Serpent increased its memberships by five.

Boulder

Boulder, the men's senior honorary society, elected seven men to membership:

S B Barker, Montclair N J., R. W. Cobb, Bennington, A O Eaton, Worcester Mass., J W Marvin, East Norwalk, Conn.; E. L. Meehan, Fitchburg, Mass.; G E. Wilder, Petersham, Mass.; E. M. Winant, Bronx, N. Y.

Mortar Board

Mortar Board, senior honorary society for women, corresponding to Boulder society chose six, one less than last year:

Mildred Akins, Burlington, Olive Fields, Brooklyn, N. Y., Helen Le Baron, Morrisville, Janet Miller, Burlington, Lillian Morse, Burlington, Margaret Mower, Burlington.

Key and Serpent

Key and Serpent, the junior honorary society elected seven men:

Clarence Brown, Newport, William Burke, Rutland, Russell Colburn, Burlington, Thomas Collins, West Hartford, Conn.; Paul Fischer, Great Neck,

(Continued on page 6)

RONALD BINGHAM WINS MATH. ENTRANCE PRIZE

The Howard Entrance Prize in Mathematics is awarded to Ronald Hollis Bingham of Enosburg Falls, prepared at Enosburg Falls High School. Honorable mention is given to Grace Harris of Stowe, prepared at Stowe High School.

GOLD KEY INCREASES MEMBERSHIP BY FOUR

Athlete Membership Necessitates Addition to Perform Only Function of Entertaining Teams

In fulfillment of the suggestion of the University Council which met last Monday for the ratification of the new members of the honorary societies, Gold Key has increased its membership by four and will without doubt receive an appropriation of about $100 for the purpose of entertaining visiting teams.

The move was made in recognition of the need for reorganization of the function of Gold Key as a society for entertaining all athletic and non-athletic teams instead of degenerating as have similar groups into paddling.

It was felt that there was a dire need for more men to entertain visiting teams, and in order for this to be more efficient a part of the student activity fee would be appropriated said Dean Hills.

President Bailey felt that since the days of paddling and enforcement of freshman rules by corporal punishment are over and there is a movement in the colleges to abolish these key societies Vermont should remain here. Also the increase in number was favored to compensate for the large number of athletes in the society. The additional men elected are for the most part not in competition in any sport.

BRADISH CALLS ALLEN LEADER IN STRUGGLE FOR VERMONT'S FREEDOM

Urges Fulfillment of Trust Placed in Us By Founder of University

LAUDS HIS PROPHETIC VISION AND SACRIFICES

Urging the fulfillment of the trust placed in us by Ira Allen, John Bradish, '31, Senior Founder's Day orator honored the name of the founder of the University of Vermont by aligning him in the cause for freedom.

The struggle for freedom which ensued within the state of Vermont was discussed at length by Bradish under the topic: "Ira Allen and Freedom." The text:

"One day some three weeks ago I boarded a Central Vermont Railroad train and settled down in one of its dusty coaches to commence my last journey as a student bound to our University. As the hours went by I half dozed in the sunlight that sifted in through the window, and as on such occasions, many fanciful thoughts played lightly about in my mind. At some time during the trip, I know not just when, I projected my thoughts twenty years or more into the future and I am quite secure in my belief that a fellow passenger might have noted a crystal sheen in my countenance, for my imagination was framing in my mind's eye the picture of a future student endeavoring to select a topic for a Founder's Day speech.

There was no need for me to follow his footsteps closely, for he trod the same path that I had so recently trod. I saw him turn the key in the door of the Vermonter's room on the balcony of the Library. I painfully witnessed him draw forth from the Cynic archives copies of Founder's Day speeches that dated back over a period of three decades. How intensely he perused those time-worn pages, and how my heart went out to him as chagrined, and perplexed he again turned the key in the door and went forth to wander aimlessly, knowing not of what he was to speak.

There is a saying that if you go at your task boldly some unforeseen power will come to your aid; then difficulties will disappear and obstacles will vanish into the air. I went at my task boldly. I considered every phase of the life of Ira Allen. I reflected that he was a great statesman, a courageous soldier and that he possessed the skill of an astute diplomat. Yet none of these accomplishments stirred within me the spark of enthusiasm. Would that he had possessed the inaccuracies of a floundering student! Then with him I would have affinity, and about him I could speak.

Then an unforeseen power came to my aid, and revealed itself in one word. My attention became focused on a page of the Sunday newspaper and there I read the following poem by Thomas Edwin Jefferson:

Freedom

"Let me be free always
As a swift stream is
As a wild bird
In breathless maddened flight
Let me lift up mine eyes
To the boundless sky
To the tall trees,
And to all things that are free
And let me hear
Notes of music unrestrained
The melody of Spring rain
And the carefree laughter
Of children
Let me be untrammeled
And know no bonds
The song of life
Is all too quickly sung."

Above this poem in large print was the word the word Freedom. Enthusiasm seized within me for I knew of what I would speak.

Freedom, said Carlyle, is the one purpose always aimed at or unwisely of all man's struggles, toilings and sufferings in this earth."

With what vivid coverings has this word Freedom been clothed on the

GLORIOUS HERITAGE

Verbosity and unstilted praise can not diminish the inestimable value of the heritage that is ours from Ira Allen. Pioneer in the field of statesmanship and education, he has not failed to realize the material fruition of all his visions for the future of the University of Vermont. For it was through his lofty ideals that this institution was founded. And from that day progress, the very keynote of its existence, has been reflected in the aspirations and deeds of those personalities who have expressed themselves through their positions as scholars and administrators. For, "an institution is but the shadow of a personality." What though the standards and customs of a university may lag behind in the face of modern ideals, and tendencies. What though the doctrines it teaches and the personalities it develops may be far in advance of the common mind.

The fact still remains that it is due to the influence of those characters who hold the reign of power either as students, alumni, or faculty who have the courage and audacity to effect the realization of their visual goals and ideals. It requires a great strength of conviction and a willingness to meet opposing tendencies and movements. All of this the founder of our state and university possessed. Not one whit less of the pioneering spirit have Vermont men and women had since the inception of the institution.

Their thoughts, their ideals and their works have given the University of Vermont the high place of esteem and admiration it now occupies in the collegiate world. Every day it becomes more widely associated with progressive education tendencies, through liberalization of its curriculum and the attention given to the fulfillment of the potentialities of those personalities who are influenced by it. Attesting this is the great number of world-famous men and women who have distinguished not only themselves but also their alma mater by the greatness of their vision, their scholarship, their executive demonstrations and their wealth.

Vermont, guided and inspired by Ira Allen has aligned herself in the struggle for human liberties. No longer will her people tolerate oppresion, suppression of thought and free discussion. All that is good is being retained, and all that savors of a hampering conservatism is being thrown overboard.

The introduction of the new social science curriculum last spring, and the increased extension of the elective feature are noteworthy advances. The new aptitude test in the College of Medicine is a distinct enhancement of Vermont's medical prestige. The influence of the Agricultural Extension Service is felt at every turn throughout the State.

Not without commendation is the great forward step taken yesterday by the Faculty-Student Council in the abolition of time-worn freshman rules and barbaric hazing methods which were relics of a day when only ignorance of personal adjustment and orientation was the situation. Once more we have not failed to fulfill the trust placed in us by our Founder. It requires great courage to act against a stand-pat system. But we see in the results of the study of the freshman's social situation nothing to retard the progress of student and faculty thought toward the Better University. May Vermont continue her leadership in the struggle for freedom and progressive education!

A NEW HONORARY

"Truth is won by the adventure of experimentation." Such has been the watchword of John Dewey, who above all other graduates of the University of Vermont most merits the rank of "distinguished." Champion of truth, freedom and justice; restless pioneer in the educational field and brilliant thinker in philosophy and psychology, he has mirrored not a little of the Ira Allen idealism.

It was with this same spirit that the John Dewey Club last Tuesday evening became an honorary society. Its decision to impose definite requirements for membership with tangible reward for interest we regard as the outstanding example of experimentation in the departmental clubs. This plan should stabilize the personnel of the organization and provide incentive to increased activity and the accomplishment of concrete creative work in the field of research and experimentation in psychology and philosophy.

That Gold Key should be forced to increase its membership to the unwieldly number of nineteen we regard as an admission of the failure of the society to live up to its purpose to enterain visiting teams. If it is adding to its personnel men who are not athletes in order to increase its efficiency at entertainment this, to us, is an indication of a careless choice of candidates and the result of political activity which overlooks personal qualifications and emphasizes popularity. This is but a transitory and unstable virtue when it is made the basis of election to a society of honor. Gold Key exists side by side with Boulder and Key and Serpent and because there is considerable questioning of the reasons for its retention as a society (since the Faculty-Student Council by its recent action has shorn it of all power to supervise freshmen) we reiterate our recommendation that it be abolished. Simply because it is a "key society" is no valid argument for its existence. That its assistance at ushering and entertaining teams is indispensable we doubt. Since it has in the past been the root of much evil, through the exercise of an extraneous power of freshman hazing, we see no justification for a continued unblushing acceptance of membership in it as an honor.

Ten Timely Topics

TARA TANTARA TEMO

The *Wesleyan Argus*, published at an institution which permits only a sharply limited number of cuts to each course, has this to say about cutting:

"Occasional cuts distributed throughout a semester are no doubt a deterrent to indulgence. It is only when cutting becomes the rule rather than the exception, when it becomes a habit, that it is pernicious. An allowance of one or two cuts a semester is entirely too stringent a requirement. Nowhere except in Utopia is it possible for a man to prepare every assignment. Cuts are sometimes taken for which an excusable reason might be hard to frame but which nevertheless are perfectly justified. Last of all there is the simple humanity of it. It is really pathetic when a man has taken his only cut in a course and then oversleeps some morning. With such a small allowance a student cannot reserve one for such an occasion."

Although we can think of better reasons for a cut system, we feel we could hardly improve on the principle of the system suggested by the *Argus:*

"In consideration of these facts we submit the following as a substitute for the present cut system: Absences (except as noted below) in courses meeting two or more hours a week shall be three each semester. Exceptions: 1—(a) Seniors who rank in Groups 1, 2, 3, and 4 shall be exempt from regulations requiring attendance upon classes; (b) Juniors who rank in Groups 1, 2, and 3 shall have the same privilege; (c) **Sophomores in** Groups 1 and 2 shall also have this privilege, as well as (d) all freshmen whose marks at mid-years place them in Group 1. 2—(a) All Seniors and Juniors in Group 5 shall have four cuts each semester. (b) All Juniors in Group 4 shall have five cuts. (c) All Sophomores and Freshmen in Groups 4 and 5 shall have four cuts in each course. (d) Sophomores in Group 3 shall have five cuts and (e) all Freshmen in Groups 3 and 2 shall have five cuts. 3—All Juniors and Seniors shall have unlimited cuts in the courses on their major card."

Simpler systems are, of course, in use; most notable being that which permits the student one cut for each hour he takes.

Thus a student enrolled in fifteen hours would be entitled to fifteen cuts per semester. Ordinarily, these may all be taken in one course, or may be distributed over several.

Occasionally a peculiarly luckless answer graces an examination paper. The *Viking Press* has published a book of "Boners" among which these shine:

A senator is half horse and half man.

A vacuum is an empty space where the Pope lives.

Geometry teaches us all about bisecting angels.

The climate of Bombay is such that the inhabitants have to live elsewhere. But we award the fur-lined spats to this inspiration:

Sarah was Abraham's half-wife, otherwise mid-wife, sometimes called columbine.

The class of 1933 yesterday elected an editor-in-chief and a business manager to direct the fortunes of the *triel* next year. The method of election they employed—popular vote—is one which was long ago discarded by the CYNIC and has been abandoned by well-nigh every college newspaper and annual in the country.

Popular vote can frequently decide the most popular man or woman in a class, but it can never determine the most capable editor or the most efficient manager. The present editors should introduce a system from which scrubs may each year be elected to the various positions on the board. To this end they should be able to secure the assistance of the Faculty Committee on Publications and a satisfactory merit system should not be difficult to evolve.

Reverberations are still to be heard of the death of athletics' most colorful figure, Knute Rockne of Notre Dame. Conceding the attraction of the man and his accomplishments in the sports world, one wonders, however, how many special editions and two-inch high headlines would have heralded the death of a scholar equally eminent in fields more useful, if less picturesque.

Once in a while, and particularly at this time of year, charges crop up on campus that this or that committee or manager is mishandling complimentary tickets or even squeezing out private gains from a college function. Such charges are rarely definite and may work great harm to students innocent of the charges. We suggest that the Committee on Auditing Student Finances regularly investigate all activities along these lines and publish its reports, in order to allay what, in all probability, are only unfounded rumors.

The appreciative crowds on the back campus these afternoons should be regarded as another tribute to the policies of the physical education department. Their motto is Athletics For All, and, thanks to the department's management of its regular classes and its constantly enlarging program of intramural competitions, that motto each year comes near to attaining complete realization.

Reorganization was the obvious cue for the John Dewey Club. It needed a stable and interested membership such as only an honorary can give. It will undoubtedly take its place with such active honoraries as Eta Sigma Phi in the departmental group, Grey Friars in the literary group, and Wig and Buskin in the dramatic group. Vermont needs more organizations of this type.

M. I. T. refuses to honor the election of a candidate to a class office who "attempts to form voting blocks." This is one way of getting at a very real evil, if it can be enforced. Partial enforcement, however, is too frequently the rule and results in discrimination against honest groups which refuse to participate in fraternity combines.

Another method lies in the public announcement of the groups supporting a given candidate, the publication of his record and his proposed policies. There is nothing reprehensible about clean and open politics not too definitely committed to a spoils system.

It is none too frequently these days that columnists in the daily or weekly press go out of their way to say something pleasant about colleges or college students. But here is something from the *Drifter*, writing in the *Nation*, which should find the American college in a pleasant mood:

"Higher education as it is practiced in this country has come in for some hard knocks within the winter just past. And if the *Drifter* feels constrained to say a word in its favor it is not because he would care to deny any of the strictures that have been passed upon it by critics more qualified than himself. Aside from the fact that he learned long ago—from a college prof—that it is useless to argue with anyone who doesn't already agree with you, the *Drifter* would be the first to admit to a serious-minded investigator that in his own case the years he spent at college were mostly wasted, that the hard-earned money (hard-earned by someone else) he consumed might better have gone back into the business, that gerunds and gerundives are to him almost as if they had never been. But he would still feel that the investigator was wasting his in railing at American universi

"It is not yet a crime even democracy to say that there are excellent brains in any given State, or nation than there are iocre brains. Keeping that f mind, surely it is a little less realistic to assume that unive which are open to all who com the *Drifter* thinks they should can possibly have much relat higher education in its strict further, if we must provide teachers to call the rôles and i teachers must have Ph.D.'s to ge jobs, it is patently absurd to that very many Ph.D. theses wi any relation to "real schola whatever that is. Such assum and expectations can lead o false hopes and savage storms, which are irrelevant. The feels, in short, that Abraham F Institute for Advanced Learni which only scholars will be a for work in 'pure science' an scholarship,' is much more to th than Abraham Flexner's beau universities. The present-day will probably remain just what is. The critics and the scholars do better in the *Drifter* windmill and let that windmill whirl in democratic air and head for m fied and more exclusive regions

"...It is not true that coll dents are frivolous-minded. The in fact the most serious-minde tures alive. If they concern th ves with first love and the fate of an autocratic dean, who is that these are less worthy th price of stocks, the precise da early Egyptian tax list or the ing of a political party."

Even to one who frequents Library only occasionally, the visiting among neighbors in t and talking aloud has become sistent nuisance.

Even more annoying is the reserving books for which the never calls, thus preventing from using them. There should be some way to stop these incidents.

Janet Miller, of Burlington, a member of Kappa Alpha Theta fraternity has served on the W. A. A. Council for two years, took part in the Lilac Day Pageant as a freshman, has been on class and varsity basketball teams for three years and was manager during her sophomore year, has played on the tennis team for three years, volley ball and archery teams during her sophomore year, and is a member of Press Club.

Lillian Mount, of Burlington, a member of Alpha Chi Omega fraternity has been very active on campus. She is now president of Student Union, and is one of the senior representatives to W. A. A. Council. In athletics she has been on class and varsity volley ball baseball hockey and bowling teams, has been captain of volley ball baseball and basketball teams, manager of basketball hockey and volley ball teams and has coached classes in baseball volley ball and skating. For two years Miss Mount has been on the Student Faculty Council, and in Press Club. During her sophomore year she served as W. A. A. class representative on the Football Hop, Sophomore Hop, Freshman Rules Committees, and was chairman of the indoor meet. Last year she was president of Y. W. C. A., vice-president of Student Union and W. A. A., women's athletic editor of the *Ariel*, director of the Freshman Women's "Y" Camp, member of Pan Hellenic Council, treasurer of "Le Cercle Lafayette," is on the Junior Week Committee, has been sent to conferences at Northfield and Syracuse as Y. W. C. A. and W. A. A. representative, respectively, and has been on the Dean's honor list for two years.

Margaret Mower, of Burlington, is a member of Kappa Alpha Theta fraternity, Bluestockings, of which she is now secretary, Dramatic Club, W. A. A., Women's Glee Club, Y. W. C. A. and is one of the associate editors of the CYNIC. During her freshman year she was substitute on the class hockey team.

The retiring Mortar Board members are Elizabeth Clark, Elizabeth Cory, Janice Davis, Ruth Field, Dorothy Nash, Margaret Rice and Harriet Wright.

Society Notes

KAPPA ALPHA THETA

Doris Dodd '26 passed over week-end Monday evening, April 20 announcing her engagement to Dr. Horace Eaton of Burlington.

Eleanor Lockwood '28 of Miami Fla., and Margaret Wallace '28 were in town Monday.

DELTA DELTA DELTA

There will be a supper for mothers given by the active chapter in honor of Mothers' Day on May 8.

ALPHA XI DELTA

Alpha Xi Delta initiated Marguerite Sargent '33 Wednesday evening.

ALPHA CHI OMEGA

Alpha Chi Omega will hold a rummage sale at the Star Hose House Friday afternoon, May 1, beginning at two o'clock.

Lucille Bernell, '29, was a guest at the chapter house last week.

Doris Harber, '27, visited the chapter this week.

KAPPA DELTA

Emma Douglas, '30, was in town over last week-end.

Ira Allen, founder of the University of whose home ... Ethan Allen Hall.

BARKER, JUNIOR ORATOR, LAUDS ALLEN HERITAGE

(Continued from page 1)

... actually been effective were not ... committees of the Convention ... financial economic problems and ... Chief Executive of Vermont called ... even realized the serious [illegible] ... Where Ira Allen came in ... Patriot Party consisted chiefly ... the Loyalists at first were ... the authority of the King of ... order and at the same time ... Council of New York or the New ... Hampshire Grants although neither ... of these two would accept their ... tive defeats as yet.

Fort Ticonderoga

... Seth Warner Lieutenant ... Green Mountain Boys made the first ... give news of the Declaration to ... the Fort Ticonderoga. After this ... rage the people of Vermont ... to begin ... democ... Early in 1776 Ira Allen took ... upon himself the task of ... Vermont's independence. ... caused it, all these conventions ... a series of ... meetings ... free State of Vermont was set up and ... organized. It seems entirely ... to treat Ira Allen's constant labors ... before, during, and after these three ... vention in so few words. For not ... only was there grave danger to the ... small group of settlers from English ... forces and New York and New Hampshire ... outside but there were innumerable ... quarrels and jealousies ... principally between the East and the ... West groups of the state. It was an ... enormously difficult job to keep order ... in such a house, and one which Ira ... Allen alone could handle. His universal popularity and unconquerable determination were certainly the principal factors in quelling disputes and in persuading everyone to work together for the common good.

While the last convention was voting on the proposed Constitution drawn up and submitted by Ira Allen Burgoyne had started his last campaign by recapturing Ticonderoga His successful march did not last long however as he fast was defeated at Bennington and a few months later completely overwhelmed at Saratoga At Bennington Ira again rendered invaluable service. Indeed we seem to have been solely responsible for the information about the movements of the English troops information which dooped the battle.

Returning again to the government of this new State, we find that it was run by a Council of Safety during the year or so before the first election was held. Ira was Secretary of the Council a sort of Secretary of State and all of the diplomatic correspondence ... [illegible] ... 1778 Thomas Chittenden was elected governor with Ira Allen as treasurer. Through his able financing the people of Vermont were practically freed from the burden of taxes. One of his first measures later adopted by the state was to put the expenses of the war by confiscating all Tory property.

In Land Disputes

New York and New Hampshire took advantage of the lull in fighting during the winter of 1778 to bring up their old and disputes again. Massachusetts soon joined them and the three had before Congress plans for dividing up this much disputed little peninsula of land. Thus began Vermont's period of hardest struggle for existence and in connection with that the period of Ira Allen's greatest services both to Vermont and to the new United States.

When Governor Chittenden saw that Congress apparently was going to recognize the New York, New Hampshire and Massachusetts claims he at once wrote that, if they did not admit Vermont to the Union of States she would consider herself perfectly free to make negotiations for peace with England on her own part. Ira Allen and Stephen Bradley carried this letter to Congress as a representative from Vermont but while ... [illegible] ... New York tried to ... a Resolution from Congress that ... the demands ... BOULDER HAS SEVERAL DUTIES, SOME NEW AND SOME TRADITIONAL

Supervises Historic Interclass Contests—Assumes Extraneous Functions

Supervision of the freshman fight on water night and the cane rush advisory power over Key and Serpent and Quill Key and the presentation of two informal dances and smokers comprise the activities of Boulder.

In addition the members back Boulder Week and also the senior smoker. This year Boulder sponsored a student poll on the three editorial polls. This using which expressed the freshman hazing was at its highest point.

The outgoing Boulder men this year are: S. S. Cutler, F. A. McBride, H. W. Mattison, R. J. Maynes, W. M. Sargent, S. S. Smith and R. F. Tenney.

Boulder has in its symbolic rock a most history of a silent struggle which in many ways is analogous to the life and characters of its members. Like this boulder at first an ill formed rock on the earth's bosom, then swept by raging torrents of water which wore each year a little deeper into the ledge is an undeniable testimony of the ameliorating forces of nature, so in like degree, is a member of Boulder the truest type and product of the beneficial influence of his Alma Mater the prototype of Mother Nature at her best.

While construction of the Central Vermont Railroad in 1848 at West Hartford, Vt., was going on, a pot hole 15 feet deep was disclosed in blasting. The fissure leading to it from the surface of the rock was six feet in length. Side by side within this hole lay two granite boulders. They had rested here for ages until Nature's concerted forces had ground them into a perfect shape.

These time-worn boulders were found upon closer examination to be of a different composition than the surrounding rock. Thus the logical assumption was that these boulders were products of the Glacial Period. Nature's time had carried these smoothly worn rocks to the site of the New Central Vermont Railroad.

When the blast had uncovered this marvel of Nature, the workmen not appreciative of its value, dumped it in a ditch along with the other rocks. Professor Hitchock of Dartmouth College examined these rare boulders and selected the most perfect of them with the intention of taking it to Hanover. But Governor Payne, then president of the Central Vermont, claimed it and had it sent to Burlington as a gift to the University. This boulder after many ramblings about the campus was finally brought to rest on the front campus opposite the west entrance of the Old Mill where it now stands.

On January 9, 1848, a group of the most prominent members of the community met together for the purpose of organizing a [illegible] and [illegible] for the [illegible] part of Chittenden [illegible] and [illegible] the [illegible] [illegible] [illegible]

SPORTING NEWS

FRESHMEN TO ATTACK TROY CONFERENCE TEAM TODAY AT CENTENNIAL

Home Season's Opener Follows Spectacular 4-3 Victory Over Fort

This afternoon finds the freshman [illegible] readiness to take on Troy [illegible] Academy. This is the [illegible] game of the season and will [illegible] at three o'clock.

[illegible] the frosh team has shown [illegible] very satisfactory manner [illegible] took over the Fort team [illegible] game their showing was [illegible] spectacular. The yearlings won [illegible] score 4-3. The fact that [illegible] same Post team beat St [illegible] varsity 10-6 and also gave [illegible] Vermont varsity a run for their [illegible] at a 9-6 ending, seems significant [illegible] itself. The ability of the boys [illegible] in pinches was particularly [illegible] that game when they came [illegible] behind in the last inning with a [illegible] rally to win in a whirlwind [illegible]. Nevertheless one game doesn't [illegible] a season, and yet it seems to show the mettle of the team.

"Doc" Newton will just as likely use any one of his pitchers; either Burr[illegible], Spicer, or Beckley will toe the [illegible] this afternoon. Burnell turned in a very creditable performance when he did not allow a hit in the three [illegible] when he was in the box against the Fort team. Spicer, with the aid of his teammates also performed well. [illegible] of Essex Junction, will be used behind the bat. He has shown up very well in practice. An airtight infield with Sargent at third, Rubino at short, [illegible]ach at second and Concannon at first will back up the pitcher. Smith, [illegible]ly and Saba will most likely play the outfield. The last three are intensive sluggers.

The much looked for Varsity-Frosh game has not as yet been played but it will be held some afternoon this week.

KAPPA PHI KAPPA AIMS TO PROMOTE EDUCATION

Aiming to promote the cause of education by encouraging men of recognized ability and sound character in the study of the principles and problems of education, Kappa Phi Kappa, the honorary professional education fraternity reports a membership roll of thirteen.

Founded May 13, 1927, at Vermont, the society has since initiated fifty-two men including four faculty members who are: Prof. B. C. Douglass, Prof. B. H. Wallace and Prof. K. J. Stetson of the Educational Department and Prof. M. H. Laatsch of the Department of Political Science.

The Vermont chapter recently sent as delegates to the National Convention of Kappa Phi Kappa, E. Codding, '31 and K. M. Stevens, '33.

Membership to the fraternity is open to all men who have completed two years of study at the University and to those who are enrolled in at least six hours of educational courses.

Members

The present members of the fraternity are as follows: President, L. C. Pierce, '31; vice-president, E. M. Codding, '31; secretary, K. M. Stevens, '31 and treasurer, M. H. Kendall, '31. Other members include M. J. Campbell, '31, J. A. Peters, '31, F. E. Blanchard, '31, C. F. Amsden, '31, T. S. Webster, '31, K. C. Boyden, '32, O. W. Jay, '32, M. B. Morrill, '32, F. J. Proctor, '32 and C. E. Wright, '32.

Various members of the faculty address the members on questions of general interest and a general discussion usually follows such procedure.

In addition banquets are held throughout the year and the national officers often visit the local chapter.

Relapse

You may have heard the story
Of the Vassar student who
Spent last vacation visiting
A friend she scarcely know.

One night, displeased at dinner
With the things they had to eat;
She said with charm and dignity:
"Please—bring some shredded wheat."

—*Vassar Chat.*

According to the Lehigh *Brown and White*, graduate students and research assistants in the Yale experimental station recently received a warning from Prof. Arthur Hill that they were not to use the grain alcohol in the laboratory for beverage purposes.

VERMONT RIFLES ELECT OGLE FRESHMAN CAPTAIN

Robert W. Ogle '34 was elected captain of the Vermont Rifles at a recent meeting held under the direction of Lieutenant Tomlinson.

This drill "outfit" is a purely voluntary proposition, to which the officer in charge donates an hour of his time. A rather bad showing has been made since the Easter vacation, fewer and fewer men coming to each successive drill. About fifty were present at the first meeting, dropping off to thirty-two just prior to the vacation. At the last meeting there were barely enough to form two "skeleton" squads. It is suggested that those whose names were on the list report the next time, as there are but two periods left before Federal Inspection and much work is needed to whip this section into shape.

GOLD KEY HAS HAD A VARIETY OF FUNCTIONS SINCE ITS INCEPTION

Founded As Vigilance Committee It Has Long Since Outgrown This Duty

First organized in March, 1922, Gold Key was the immediate outgrowth of a sophomore committee, elected by the class at large, for the express purpose of performing the duties of class vigilantes. The new honorary society, of which Beryl M. Randall, '25 was the first president, adopted a constitution modelled after the one used successfully by the Green Key of Dartmouth.

It aids the athletic office in many ways. Its specific functions through which Gold Key performs these duties are many and varied. Up until last year the society had general charge of Freshman Week, seeing that the freshmen got all essential equipment and that they strictly adhered to the rules laid down for them. Appropriate punishment was meted out to those freshmen who refused or failed to live up to the requirments of the sophomores. Oftentimes drastic methods were utilized in impressing upon lowly freshmen the vital importance of the revered traditions. It was just this reason, of unfair, autocratic methods, such as was staged in a militaristic setting last fall, that had caused Gold Key's unpopularity and slow expiration.

In times gone by, it was the fate and duty of the luckless freshmen to erect the basketball and Kake Walk bleachers and to move the football stands. It was then one of Gold Key's numerous functions to supervise and enforce this manual labor. Meeting visiting teams, and ushering at games are duties which they still perform.

Three years ago at a meeting of Boulder Society, a new plan of organization, which was accepted by Gold Key, and which is at present in use, was adopted. Under the new plan Gold Key was elevated to the status of the true honorary society, bringing it to a similar position as that occupied by Key and Serpent, and Boulder.

Gold Key now elects its own successors and has a maximum of nineteen members. Boulder considered that by making the society smaller it would be able to function more efficiently. A more compact organization naturally speeds up its decisions on matters brought to its attention and conclusions are reached more easily. The society is also considerably more exclusive than before. New members are selected for their character, their interest in the University and their activities on the campus. Of the fifteen members elected there is one from each of the fraternities and two from the class at large, including the Independents.

A gold key is the emblem of the society, and the hat worn by the members is green and has a gold brey encircled by a representation of the Boulder upon it.

During the past year, Gold Key has attempted by many unsuccessful efforts to discipline the freshmen. It was the freshman class vs. Gold Key, a group of fifteen men, thus the result is evident. Gold Key has supervised, with Boulder, the ushering at football games, and entertaining the visiting teams. During the year, Gold Key staged two very entertaining and successful dances, the Fall Gold Key dance and the Basketball Hop.

The present officers in Gold Key are: Francis J. Massucco, '33, president; Maurice F. Mahoney, '33, vice-president; Fraser B. Drew, '33, secretary; James E. Wood, '33, treasurer. The members for the past year were: Clarence Brown, Maurice Mahoney, Thomas Collins, Rolf Hadley, Fraser Drew, Edward Dunn, Jerome Panwell, George Fienberg, Earl Judkins, Carl Kilburn, Francis Massucco, Harold Greenblatt, Raymond Talbert, James Wood, Curtis Wormelle.

THEODORE TAYLOR, '33

JUNIOR SOCIETY WILL BEGIN ITS PROGRAM OF INTERFRAT FELLOWSHIP

Award of Cup to Crack Squad by Key and Serpent Is Among Duties

This month Key and Serpent will award a trophy to the winner of the interfraternity drill squad competition. It is the first of its real tangible attempts to further interfraternity spirit and competition.

Until recently in the authority of Boulder and in turn exercising control over Gold Key, the society now twenty-three years old finds itself with a host of activities which are not a little less than its aspirations.

It exists to promote college spirit, further interfraternity relations and a good fellowship among the freshmen. In addition it serves as an ushering committee at athletic contests. One smoker is given each year. An informal dance is given yearly, and in addition the society manages the interfraternity basketball and baseball series awarding a cup to the winner of each.

The society elects its own members each spring term from the members of the sophomore class, and the elections are announced on Founder's Day. The qualifications for membership are manliness in deportment as in body nobility as to spirit, in self control as to spirit, popularity in classroom, on campus, and in society, and achievements intellectually, physically, and morally.

The elections are made irrespective of academic courses and on the basis of the candidates disposition to further college interests. Later in the term, the men who have been elected appear at some specially designated place in full dress suit with top hat cane and spats for informal initiation. They are then made to do various stunts such as directing traffic, and otherwise appearing conspicuously in public places.

When this is over, a banquet is held, after which both the old and the new members serenade the girls' dormitories. The membership of the society is limited to twelve, but usually the full quota is not elected.

In the spring of the year 1908, it was decided to form a junior class honorary society to be known as Key and Serpent. Before commencement of that year, the society was duly organized from members of the class of 1910, then sophomores. The first meeting was held at the Sigma Phi Place on October 14, 1908. The officers who had been chosen the preceding spring had not returned to college, and as a result of the new elections Arthur K. Rich was the first president and Arthur T. Dailey the first vice-president. At the second meeting Professor Tupper was invited to join the society as an honorary member, and he has guided the destines of Key and Serpent since that time. The next fall Professor Stetson was also elected an honorary member.

The returing men are: S. B. Barker, A. O. Eaton, E. L. Meehan, R. A. Phillips, P. E. Westin, G. E. Wilder, E. M. Winant.

VEDDER VAN DYCK PLEAS FOR SUSTAINING RELIGION

"The trouble with the world is not that a few are very wicked but that the great majority of people are just like us," declared the Rev. Vedder Van Dyck who spoke in Ira Allen Chapel Wednesday morning.

"I see no need of a religion if we wish to be only as good as the world," he continued, "the world itself will help us do that. However, the moment that we try to be better than the average in matters of Christian living, we need a religion to sustain us, for the world will oppose us in the attempt."

WANTED

Sophomore scrubs for Wig and Buskin. Report to J. W. Marvin at the Delta Psi House.

Questioning pedestrians on the streets of New York recently, Columbia newspapermen came to the astounding conclusion that five persons out of six believe college students are loafers.

Even the college boys often think so

But woe awaits a country when
She sees the tears of bearded men.—

SPRING FOOTBALL TO BE INAUGURATED MONDAY

Spring football, under the direction of Coach Dutch Sell and assistants will be inaugurated next Monday from May 4 to May 11. During this week the coach and his assistants will endeavor to instill the fundamentals of the game. In addition the varsity will be drilled in plays and formations for the coming season.

This week of practice offers the novice a chance to learn the game scientifically as well as gain some valuable exercise. All men that report for spring training will be excused from physical training. Most likely scrimmages and perhaps a game will be featured in the final few days of practice. It offers the would-be varsity player a fine chance to impress the coach with his potentialities.

Codding, popular supply man, says that he has uniforms for any number applying.

FRANCES FROST READS BLUE HARVEST POEMS

Frances Frost, '31, one of Vermont's noted poets, as the guest of honor read poems from her newly published collection, "Blue Harvest" before a large crowd gathered at the University tea held at Redstone, Sunday afternoon, April 26.

Elizabeth M. Cory, '31, acted as official hostess and introduced Matila Putnam '32 who favored the crowd with two vocal selections. Piece by Joyce Kilmer and "Open Secret."

Miss Frost was introduced by Prof. F. Tupper of the English department of the University. Her poems merit worthy because of Miss Frost's style dealt primarily with man's relation to nature. Tea was served before Miss Frost gave her readings. Mrs. Samuel Bassett and Mrs. Harry Perkins poured. The room and tea table were attractively decorated with daffodils which furnished a pleasing atmosphere for the occasion.

GIRLS EXCEED BOYS IN NUMBER IN 4-H WORK

Records compiled by Miss Martha Leighton, assistant state 4-H club leader of the University of Vermont and State Agricultural College, show that there are more 4-H Club members in the state of about twelve years of age than of any other age. There are more girls than boys enrolled in 4-H Clubs but boys remain in club work longer than girls. Some members remain for as long as nine or ten years in the work.

Last year there were 4,020 4-H Club members in the State. Girls to the number of 800 and boys to the number of 585 were enrolled for the first time. 659 girls and 493 boys were in their second year, 317 girls and 138 boys were in their fourth year, 75 girls and 57 boys were in their sixth year—in numbers but that the proportion showing that the girls exceed the boys decreases with the increase of years.

TENNIS TEAM TO COME FROM TOURNEY WINNERS

It is the plan of the W. A. A. to select the women's varsity tennis team from the winners of the women's tennis tournament to be held soon. This decision was made at a recent meeting of W. A. A.

U. V. M. TRACK TEAM AT ST. LAWRENCE TODAY TO OPEN 1931 SEASON

Squad Left Last Night for Canton, N. Y.—Ineligibility Takes Toll Among Candidates

SEVERAL INEXPERIENCED TRACKMEN GO ON TRIP

During the past week Coach Archie Post has worked his track candidates especially hard in order to leave them in charge for their initial meet of the season scheduled this afternoon with St. Lawrence University at Canton, N. Y.

Led by Captain "Deep" Park in the weights the Vermont team should be able to put good account of itself against the New Yorkers. However too much may not be expected of the Catamounts during the early part of the season in view of the fact that a practically inexperienced team is making the trip. Mid-years and ineligibility exacted a heavier toll than usual from the ranks of the Green and Gold trackmen.

Captain Park, Blant, Phillips and Gardner will compose the weight men with the last three also performing in the javelin throw. In the distance events Varney and Leach will run in the two-mile race, while Brooks and Hadley will enter the mile run. Huey, a veteran from last year and Bedell will enter the quarter mile. Colburn, Brooks, and Huey are to be placed in the half mile event. Child, Grant, Phillips, Young, Wright and Crockett are the dash men who are expected to make the trip. Cohen will enter both the low and high hurdles while Prosser will also be entered in the low hurdles.

Child and Maynes, two lettermen in addition to Wright, are entered in the broad jump, while Meehan is the only pole vaulter making the trip.

The team left last night and is expected to return tonight after the meet.

NO SMOKING, SUBJECT OF CO-EDS' DISCUSSION

The University rule of "No Women's Smoking" was the subject of discussion at the meeting of Women's Student Union held in the Old Mill Chapel at 1:30 p.m. Tuesday. Lillian Mount '32, led the discussion and in addressing the gathering stated that the problem is one of a very particular nature and that it was not probable in her opinion that anything will be done about it.

The present University regulations state that there shall be no smoking in the University buildings, on the campus or in any public places, by University women.

Lillian Mount '32 president of Student Union also read the Constitution of the organization and duties of each officer to clarify any confusion which might exist in the minds of new officers.

The rumble seat is an emissary of Satan on a college campus, said Geo. O. Foster, registrar of the University of Kansas, in the first of a series of radio talks of interest to high school seniors and their parents over the University's station.

CIVIL AND MILITARY TAILORS TO GENTLEMEN FOR OVER 81 YEARS

Eta Sigma Phi With Thirty Members Among Most Active

With an active student membership of [illegible] Eta Sigma Phi [illegible] Iota Chapter of the national classical [illegible]

This year an attempt has been made to make the meetings and programs more interesting so that a larger number of students taking the Greek course might become active. The membership roll which is larger than that of past years was made larger [illegible] last February of Rosetta Harlow, '32, Sophie Levin, '33, Ruth Reynolds, '34 and Hugh Wilson, '34. Membership qualifications require an A and two B's from all prospective candidates. In all the active membership [illegible] of the classical department excluding members of the faculty.

Meetings have been held every two weeks and programs of varied nature including entertainments and drama [illegible] have been presented after the business meetings which are usually followed by the social hour with lectures presented by faculty and students.

At the last meeting of the organization held last Wednesday at 24 Buells Courage, C. W. Knapp, '31, was named the delegate of Iota Chapter of Eta Sigma Phi to attend the national convention to be held in Cincinnati May 1 and 2.

Present Officers

The present officers who were elected in March are all prominent on the campus and in student affairs.

Chester K. Rush, '32, of Sheldon is president. He is a member of Kappa Sigma fraternity, an advanced officer in the R. O. T. C. unit and on the Dean's list.

The vice-president is Dorothy D. Nash, '32, of Concord, N. H., who is on the Dean's list, is a member of Alpha Chi Omega sorority, belongs to Mortar Board, is chief justice of Women's Student Union, a member of the Board Week Committee, a member of the woman's rifle team and is active in other activities.

Irene D. Brennan, '32, of Bristol, Conn., the secretary is a member of Sigma Gamma sorority, the French Club and is on the Dean's list.

Fraser B. Drew, '32, of Randolph, the treasurer is prominent in all campus activities. He is a member of Lambda Iota fraternity, secretary of Gold Key society, social chairman of the French Club, news editor of the Cynic, newly elected editor-in-chief of the Freshman Handbook, Director of Publicity for the V. C. A. cabinet, was chairman of the Football Hop and has been on the Dean's list every semester.

Dorothy Edwards, '33, of Barre, and Elizabeth Mandigo, '32, of Randolph, act as reporter and song leader respectively. Miss Edwards belongs to Kappa Delta sorority, is an assistant editor of the Cynic, on the Dean's list and has taken part in the class and Junior Week plays.

Miss Mandigo is on the Dean's list, plays class basketball and hockey, is a member of the *Ariel* Board, the Cynic Club, and belongs to Sigma Gamma sorority.

BRADISH CALLS ALLEN LEADER IN STRUGGLE

(Continued from page 1)

pages of history' it flares forth in transcending glory, emblazoned with the crimson life blood of Christ who died nailed on a cross that the world might be freed from sin. It is tinted with the red blood of great military leaders who have died on the field of battle that nations might be freed from tyranny.

How devoutly did Garibaldi espouse the cause of Freedom when he spoke to his Italian soldiers: "Soldiers," said he, "What I have to offer you is fatigue, danger, struggle and death; the chill of the cold night in the free air, and heat under the burning sun, no lodgings, no munitions no provisions; but forced marches, dangerous watchposts and the continual struggle with the bayonet against batteries, those who love freedom and their country may follow me."

So too, if less gloriously, have statesmen, philanthropists, journalists and the obscure men in the streets indelibly shaded into this great word a touch of bright color.

The eighteenth century witnessed fresh manifestations of Humanity's surging flow toward Freedom. Silhouetted against the horizon of Continental Europe tottered France, engulfed in the consuming flames of revolution. Here in the Western Hemisphere, superseding England's thirteen shackled colonies, there arose a new edifice, the United States of America.

Of less far-reaching consequence; but of vital interest to us here today was the struggle for Freedom which ensued within our own State of Vermont.

Struggle For Freedom

About the year 1770 our founder, Ira Allen, then a young surveyor, first came into this region. With prophetic eye he visualized the future and the possibilities which it held for those who would settle in these green valleys. The years that followed brought many other pioneers. There then ensued a bitter boundary line controversy between New York and New Hampshire. New York claimed the Connecticut River as its boundary line whereas New Hampshire contended that its territory extended to the shores of Lake Champlain. Nonplussed by this wrangling, the Vermont settlers banded together and solemnly determined that this disputed territory, which they had come to love and on which they had built their homes, would be created, by sword if necessary, a Free State. Having thus declared their Freedom the Vermonters fought off the encroachments of their neighboring enemies, and by virtue of sustained fidelity to a noble cause, they in truth established their independency.

With like staunchness of spirit this newly formed state contributed to American independence. In the very early stages of the Revolutionary War Ethan Allen and his Green Mountain Boys stood before Ticonderoga and demanded its surrender—"in the name of the Great Jehovah, and the Continental Congress." It was in recognition of this service and further valor displayed by Vermonters that Congress, in the year 1791, admitted this state into the Union.

And what of Ira Allen during this long period of strife? We last visualized him as a mere youth, pausing on some such spot of ground as stands this chapel where today we revere his name. There he looked out on a panorama of wilderness and the shimmering waters of Lake Champlain. There he had his vision as you and I have a vision when we are inspired by the beauty of Nature.

But unlike many of us Ira Allen was no idle dreamer. Those troublesome years that followed found him a paramount leader in the public life of this state. The cause was Freedom and before this altar Ira Allen ever worshipped. In so doing he denied himself every vestige of that which he so assiduously sought for his fellowmen. His activities took him away from home and the warming comforts of the fireside. Where others occupied themselves with private gain and diversion, he sacrificed his own fortune and endured those mental agonies which torture the mind of one who would solve the complex problems of a struggling state.

Today we praise Ira Allen. A hundred years ago he was maligned, and imprisoned because of his inability to settle unjust debts. Visualize our Founder in prison! Consider the irony of the charge with which he was indicted!

Time has enwreathed his name with garlands of respect and honor, for today we behold his works; but Time can never restore to him the liberty he denied himself for the cause of Freedom! We the students, and faculty of the University of Vermont are guardians of this Freedom for which our Founder so valiantly struggled.

We dwell within this institution which he founded, that this generation might shake loose the tenacles of ignorance and break through the crust of new intellectual worlds. Within these new worlds are unbounded opportunities ever stretching out before us.

How ungrateful are we who fail to recognize the significance of this 'greater Freedom"! How unworthy are we who would betray our trust by twisting into its meaning any false and selfish concept! When we feel the restraints which our obligations force upon us, and we yearn "to be untrammeled, and know no bonds"—let us then reflect that we cannot lightly repudiate the debt we owe our Founder.

To quote James Russell Lowell

> Is true Freedom but to break
> Fetters for our own dear sake,
> And, with leathern hearts, forget
> That we owe mankind a debt?

The earthly remains of Ira Allen are buried beneath some unmarked plot of ground—his spirit hovers here, above us—intangible, immutable it lives through the fleeting years. We are but transients, yet this spirit of our founder urges us to fulfill our trust before we leave these halls of learning.

John Dewey, L. L. D. '31, Patron saint of the John Dewey Philosophy and Psychology Club which became an honorary organization last Tuesday.

COLLEGE HUMOR

She: Promise you'll love me as long as you live.

He: Cross my heart and hope to die. *Jester*

Motorist: Officer, officer, come quickly. I've knocked down a student!

Cop: (picking teeth casually) Sorry it's Sunday, and you can't collect your bounty until tomorrow morning. *Zip'n Tang*

EIGHT HONORARY GROUPS TAKE IN NEW MEMBERS

(Continued from page 1)

L. L. N. Y.: William MacDonald, Willington, James Wood, Belmont, Mass.

Gold Key

Gold Key, the sophomore honorary society, chose twenty men from the freshman class.

John L. Beckley, Great Neck, L. I., N. Y.; William Brislin, Rutland; A. H. Cass, Essex Junction; William Cohen, Burlington; Thomas Cogswell, Warner, N. H.; Gordon L. Davis, Springfield; Clarence Dobson, East Templeton, Mass.; Clarence Drown, Burlington; Chester Eaton, Worcester, Mass.; William Gilbert, Burlington; Douglass Green, Albany, N. Y.; C. J. Libby, Richmond Hill, N. Y.; Norman Myers, Burlington; Bernard Mulcahy, Barre; Richard Powell, Island Pond; Herbert Selib, Jamacia Plain, Mass.; Alden Spicer, Essex Junction; William Stetson, New Haven, Conn.; Edward Sylvester, Hanover, Mass.

Alpha Zeta

Alpha Zeta, the honorary agricultural society, named only four men, all sophomores.

John O. Buchanan, Derby; James O. Hoag, Grand Isle; Neil W. McLaren, Barnet; Cola D. Watson, Newport Center.

Omicron Nu

Omicron Nu, honorary home economics society, named Lois Harrington, '33, of North Bennington, to membership.

Kappa Mu Epsilon

Kappa Mu Epsilon, the honorary engineering society, chose from the junior class thirteen men:

SENIORS NOMINATE FOR PERMANENT PRESIDENT

F. S. Smith of Adams, Mass. and R. W. Worrell of Providence, R. I., were nominated for permanent president of the class of 1931 at the nominating committee meeting Thursday noon in the Old Mill.

The other nominations were: Vice-president, Harriet E. Wright of Essex Junction, and Jean Wappler of Rutherford, N. J.; men's secretary, R. J. Maynes of Woodstock, W. J. Willetts of West Hartford, Conn.; women's secretary, Janice E. Davis of Wallingford, Georgiana Hubert of West Hartford, Conn.; treasurer, G. R. Brush of Arlington, H. R. Mattison of Bennington, marshal, R. M. Huey of Saylesville, R. I.; alumni representative, E. M. Codding of Bellows Falls, S. S. Corbin of Burlington, J. S. Perelman of Burlington, and R. E. Tobin of Fairhaven, Mass.

R. O. T. C. UNIT TO MEET DAILY IN PREPARATION OF FEDERAL INSPECTION

All Companies Will Meet Five Days Each Week Until May 12

Effective during the period April 27 to May 11, 1931, all members of the R. O. T. C. Battalion, infantry unit, at the University of Vermont will report to their respective companies for military instruction five days a week: Monday, Tuesday, Thursday and Friday at 7.30 a.m. and Wednesday at 7.00 a.m. it was announced by the Military Department at the University, Friday.

All members of the R. O. T. C. unit are also required to turn in an assigned exercise of written work daily. The schedule of these exercises is as follows:

April 27: Questionnaire, Seniors—Ten questions, combat principles, general; Juniors—Ten questions, combat principles; Sophomores—Ten questions, drill and command (selected from Nos. 60-75); Freshmen—Twenty questions, rifle M/m Nos. 1-20.

April 28: Questionnaire, Seniors—Ten questions, combat principles, plans and orders; Juniors—Ten questions, map reading and sketching; Sophomores—Ten questions, drill and command (elected from Nos. 76-96); Freshmen—Ten questions, rifle M/m (selected from Nos. 21-40).

April 29: Questionnaire, Seniors—Ten questions, drill and command, platoon; Juniors—Ten questions, M. G., general, stripping and assembly; Sophomores—Ten questions, drill and command (selected from Nos. 97-119); Freshmen—Ten questions, general and courtesy (selected from Nos. 41-59).

April 30: Questionnaire, Seniors—Ten questions, drill and command,

Announce Student Choice of Most Beautiful Women

Results of First Ballot Disclose Ten Receiving Most Votes—Second Ballot Thursday and Friday to Select Three Highest from Ten Candidates

NO PROXY BALLOTS TO BE VALID AT THIS POLL

As the result of the first Cynic ballot in the contest for the Queen of Junior Week Prof. L. W. Dean, faculty advisor of the Cynic, announces the following ten women receiving the highest number of student votes:

Miss Anderson, '34, Peekskill, N. Y.; Ruth Burroughs, '31, Charlotte, Vt.; Jane Corwin, '31, Brooklyn, N. Y.; Janice Davis '31, Wallingford, Vt.; Marion Kiel, '33, S. Orange, N. J.; Charlotte Odell, '33, Bronxville, N. Y.; Caroline Taft, '33, Wallingford, Vt.; Isabel Torrens, '33, Montclair, N. J.; Marie Tucker, '32, Stamford, Conn.; Helen Willard, '32, Hartford, Conn.

All of these ten are the candidates in the second ballot which will be held Thursday and Friday to determine the three women at the University of Vermont who are the best examples of genuine personality, charm and physical beauty.

From the three resulting from the second ballot the board of faculty [illegible] Week who will be announced during Intermission at the Junior Prom.

The ballot box will be in the Notty College corridor and ballots must be clipped from the Cynic. Of the ten candidates one only must be checked and the ballot handed to the voting official who will place it in the box. *Voting must be in person, no proxies signed or unsigned will be honored.* The ballots need not be signed and must be given to the official after the name of the voter is checked.

An evening gown and wrap will go to the winner of the Cynic Beauty Contest, by Abernethy's of Burlington. In addition the Cynic Cup will be awarded. One of the prizes for the two not attaining first place will go to each of the two women receiving a place as a result of the second student ballot. Contrary to a former statement this ballot will not be a preferential one.

Bennett Announces Contests

Prof. H. G. Bennett of the music department announces that on Tuesday, May 26 at 8.00 p.m. there will be a recital of the students of piano and voice. Also on Sunday afternoon May 31 or June 7 Miss Katherine Eckley of the Extension Service will give an organ recital. Further details will appear in a subsequent issue.

CLASS CONSTITUTION OF 1932 MAKES APPEARANCE IN REVISED CONDITION

Appearing as the first revised class constitution in many years, the document adopted Thursday, April 30 by the class of 1932 is the only one now in use here, except the one jointly used by the senior, sophomore and freshman classes.

The text follows:

CONSTITUTION OF THE CLASS OF 1932

Preamble: We, the members of the class of 1932, being joined together by common ideals and interest, in order to promote the general welfare, and establish a truer fellowship, do ordain and establish this Constitution.

CONSTITUTION

ARTICLE I—NAME

Section 1. The name of this organization shall be "The Class of 1932."

ARTICLE II—PURPOSE

Section 1. The class work for the general welfare of the University shall comply with the rulings of the University Senate, shall support all athletic teams, organizations and functions as may seem best for the good of the University and class.

ARTICLE III—MEETINGS

Section 1. Meetings shall be called by the President regularly at least three times a year, and otherwise whenever application, signed by at least twenty members of the class, is made to the President or Secretary for such a meeting.

Section 2. Thirty members eligible to vote shall constitute a quorum.

Section 3. A written notice of meetings to be held shall be posted on the bulletin boards of the Academic Building at least [illegible] hours previous to the holding of such meetings.

Section 4. It is understood that every member of the Class shall always be present.

Section 5. Order of the meetings shall be governed by the Roberts Rules of Order.

ARTICLE IV—OFFICERS

Section 1. The officers of this organization shall be: a President, a Vice-President, a Secretary, a Treasurer, an Executive Board, and a Nominating Committee.

Section 2. The duties of the President shall be: to call meetings of the Class, to preside over said meetings, and to work for the general welfare of the Class.

Section 3. The duties of the Vice-President shall be: to preside at all meetings in the absence of the President, with full authority in performance of the duties of that office; and to aid the President in the performance of his duties.

Section 4. The duties of the Secretary shall be: to keep the minutes of

Revised Final Schedule

(All examinations will begin at 9.00 a.m. and 2.00 p.m. and will be held in the gymnasium unless otherwise announced by the instructor.)

Wednesday a.m., May 27: Geography (T. Tr.), German 1, German 2, German 4.

Wednesday p.m., May 27: A. C. Eng. (Senior), Economics 4 (Marketing), Economics 60, Economics 61, Geology 4, Geology 5, Highway Eng., History 4, History 11, History (T. Tr.), Mechanical Drawing, Pub. School Music 1 (T. Tr.), Zoology 7 (Embryology), Zoology 8 (Entom.).

Thursday a.m., May 28: Psychology 1, Psychology 2 (Applied), Psychology 5 (Abnormal), Psychology 106 (Exper.).

Thursday p.m., May 28: Alt. Currents (Junior), El. of E. Eng., Home Ec. 5, Hygiene (T. Tr.), Latin 105 (Cicero), Pol. Sci. 1, Pol. Sci. 6.

Friday a.m., May 29: Botany 4 (Plant Phys.), Education 4 (Ed. Psych.), French 111, Greek 2, Greek 106, Home Ec. 333 (T. Tr.), Math. 7 (Adv. Alg.), Phys. 1, Pol. Sci. 107.

Friday p.m., May 29: Mechanics, Spanish 1, Spanish 2, Spanish 3.

Monday a.m., June 1: Home Ec. 8, Math. 1 (Arts & Ag.) (Anal. Geom.), Math. 1 (Arts) (Math. of Finance), Math. 1 (Eng.) (Anal. Geom.), Math. 2 (Arts) (Calculus), Math. 2 (Eng.) (Calculus), Math. 103.

Monday p.m., June 1: Ec. 1, Ec. 114, French 105, Intro. to Ed. (T. Tr.), Music 1 (Apprec. & Hist.), Music 8 (Solfeggio), Sociology.

Tuesday a.m., June 2: Economics 20, Education 5, English Methods (T. Tr.), French 112, Journalism, Pol. Sci. 111.

Tuesday p.m., June 2: Astronomy, Economics 12, Elec. Design, English 7 (Am. Lit.), Farm Management, Geology 2, M. E. Lab., Zoology 2, Zoology 6, Zoology 10.

Wednesday a.m., June 3: Chemistry 9, Economics 11, Latin B, Latin 1, Latin 2, Latin 14 (Methods), Psych 7, Water Power Eng.

Wednesday p.m., June 3: Arith. Methods (T. Tr.), General Forestry, History 12, Home Ec. 2, Math. 4 (Proj. Geom.).

Thursday a.m., June 4: Contracts & Spec., Economics 7, Economics 13, Elect. Commun., French 108, Indust. Eng., Physics 1, Pol. Sci. 109.

Thursday p.m., June 4: Auto Eng., Botany 7 (Plant Embry.), Chemistry 8, Dairy Bact., Economics 2, Eng. Construction, History 2, Music 3 (Elem. Harmony), Music 4 (Adv. Harmony), Philos. 109.

Friday a.m., June 5: Bridge Design, History 7, Home Ec. 14 and 15 (Home Nurs., etc.), Latin 11 (Mythology), Mechanism, Pol. Sci. 114, Scandinavian Lit., Zoology 5.

Friday p.m., June 5: Botany 2, Botany 3 (Ag. & Hom. Ec.), Ec. 8, Education 6, General E. E.

Saturday a.m., June 6: French 1, French 3, French 4, French 113.

Saturday p.m., June 6: Chemistry 15, Chemistry 20, Chemistry 111, History 8, Philos. 2 (Ethics), Public School Music 2 (T. Tr.).

Monday a.m., June 8: Chemistry 104, Child. Lit. (T. Tr.), Economics 5 (Corporations), Economics 9, Genetics (Ag.), Greek 1, Philos. 5 (History), Power Stations, Vermont History, Zoology 1 (Pre-Med.), Zoology 3 (Ag. & H. Ec.).

Monday p.m., June 8: Animal Husbandry 6 (Dairy Herd Mgt.), Greek 108, History of Art, Home Ec. 9, Philos. 3, Pol. Sci. 4, Rural Ed. (T. Tr.), Thermodynamics.

Tuesday a.m., June 9: Chemistry 1, Economics 58, Feeds & Feeding (Ag.).

Tuesday p.m., June 9: Botany 8 (Cytology), Dairying 1, Geology 1, Geology 1a (T. Tr.), Home Ec. 12, Reading Methods (T. Tr.), Soils.

Wednesday a.m., June 10: English 2.

Wednesday p.m., June 10: E. E. Lab (Junior), Forestry 2 (Ag.), Greek 6, Home Ec. 11 (Jrs. & Soph.), Special Methods (T. Tr.).

CYNIC EDITOR THROWS FAVORABLE SEARCHLIGHT ON "TO HAVE THE HONOR"

Declares Milne's Junior Week Play is An Example of Talent and Versatility

FEATURE EDITOR SAYS, CAST PAR EXCELLENCE

[illegible] Are you going to the Junior Week play? If you have that feeling, I will cheer the cockles of your heart when you see the three-act play "To Have the Honor" by that acotch humorist Alan A. Milne and as truly as the play's the thing" we may say the cast's the thing for this year's cast is a cast *par excellence*. Coached by Professor Metcalf of the psychology department, the dramatis personae exhibit such technique and versatility that one marvels at the wealth of talent available.

The play opens with a clever and interesting dialogue between *Simon Battersby* and his daughter *Angela*, who are respectively Robert Athens, '31, and Dorothy Murphy, '33. The audience will have much to admire in Miss Murphy's complete assurance and pleasing diction. Needless to add Mr. Atkin at his best is also far from displeasing to an appreciative audience.

Roberta Powers, '32, as *Jennifer*, a leading character reaches another milestone in the development of her dramatic ability. Harvey Butterfield, '31, as "Prince Michael" in all fairness deserves more than usual praise for the interpretation of this difficult role. We feel strongly that an appreciative audience will center on him more than a little of their spontaneous admiration.

Dorotha Edwards, '32, as *Imogen* an ingenuous and naive schoolgirl admirer of royalty will undoubtedly commend herself highly to the audience. If prognostications are allowable, we are convinced that Miss Edwards will not be far from the limelight that evening. Sylvia Boyd, '33, as *Mrs. Faithful*, mother of *Imogen*, has a natural aptitude for the portrayal of this interesting rôle.

Hope Ranslow, '32, and Sam Barker, '32, as *Ethel* and *Robert Holt* bring out all that is demanded of them and more. We can only repeat the old phrase "one must see and hear them to appreciate them."

Elizabeth Eckhard, as *Emily*, Fred Householder, '32, as *Oliver* and Robert Jenks, '32, as *Doctor Amalie* are the remaining characters who add in their respective rôles the minor though important touches to a Junior Week play that will bring honor to its coach, Professor Metcalf, to themselves as a cast and as individuals with dramatic talent, and to the University from whom they have derived encouragement to produce this splendid and interesting comedy—"To Have the Honor."

The cast as a whole is as follows in the order of appearance:

Simon Battersby	Robert Athens
Angela	Dorothy Murphy
Jennifer	Roberta Powers
Emily Holt	Elizabeth Eckhard
Robert Holt	Sam Barker
Mrs. Faithful	Sylvia Boyd
Imogen	Dorotha Edwards
Doctor Amalie	Robert Jenks
Pomeroy Muchmore	Harvey Butterfield
Oliver	Fred Householder

A CLASS CONSTITUTION

The [illegible] the class of 1932 upon its recent election of [illegible] constitution. Classes, like societies and governments, cannot exist [illegible] carry out their legal parliamentary functions without a body of [illegible] rules.

The good news comes with the announcement by the president that [illegible] the best workable constitution that the class can call its own. It is strange indeed that the classes before it could have functioned properly [illegible] the antiquated constitution that was previously in use. Some weeks ago we were informed that some of the class documents were missing and others were in the hands of the officers of another class. This will produce a chaotic state of affairs in the event of the contesting of an election, the promotion of some measure or the challenging of the constitutionality of an adopted by-law or amendment.

[illegible] to see how three classes can use the same constitution. Each should be provided with one suitable for its own particular needs. We therefore wholeheartedly urge each to follow suit and adopt a revised class constitution.

STUDENT SPOTLIGHTS

[illegible] activity and thought on our own campus and on those of [illegible] other institutions one is impressed by the way in which students are probing beneath surface questions of organizations, systems and attitudes. There is undeniable evidence of a searching [illegible] of education, religion, the economic order, politics, science, [illegible] social problems and personality values.

[illegible] of the Detroit Student Conference came the recognition of the [illegible] relationship between education and the development of Christian character. Fearlessly and frankly in every institution students are facing problems of athletics, fraternity help weeks, extra-curricular activities, honor systems, chapel programs, honorary societies, military [illegible], comprehensive examinations, open campus politics, social regulations, racial discrimination, freshman hazing and lower class orientation and adjustment. Faculty as well as undergraduate attention seems [illegible] to be in the direction of progressive scientific solution of problems and [illegible] a decreased tolerance for the existing facts.

[illegible] a number University students are striking because of faculty interference. Of interest is the editorial note in the *Boston University News*:

Much unfortunate publicity has been gained by college students in the past few weeks. Harvard had its Vallee run in, Michigan University had its liquor scandal and N. Y. U. had its subway raid. From all sides condemnation has been hurled at the malefactors and college students in general.

The matters have been published far out of proportion with their importance, solely because they concerned college students.

As a result, the idea is once more being impressed upon the public mind that college students are wastrels, vandals, and law breakers. That these cases of iniquity are the exception rather than the rule is obvious. The unfortunate part of the matter is that little or nothing can be done about it. A college man is evidently 'news' and as such is not excused for infractions of the law which the average citizen could commit with impunity."

The *Intercollegian* has this to offer: "Hell Week's benefits are insignificant when compared to its costs. Scores of collegiate editorials preached on this text indicate that fraternity initiation week left in its wake the usual acrid atmosphere, black-and-blue spots, meals eaten in standing position, some sheer fun, sullen submission, fear, the memory of barbaric and inexcusable mistakes."

Debunking the honorary societies is now in vogue. *The Purdue Exponent* prophesies that, unless they snap to and serve some useful function "they will soon be as extinct as the dinosaur." The *Daily Californian* which comes to our desk calls these societies "superfluous nuts." They have outdone themselves in doing nothing—if they are not intended to serve California, we doubt the advisability of perpetuating them. The worst thing about honoraries is their false front. From the outside they seem pinnacles of heaven; from the inside, nothing but hollow emptiness and sham." We can, however, conceive of honorary societies, election to which would represent a real honor through achievement. The *Clarkson Integrator* states editorially:

"The custom of freshman and sophomore rules comes down to us from the days when it was found necessary to have them. This does not mean that age has made these rules time-honored and makes their enforcement an honorable duty. . . . . The enforcement of rules is *passe* in many of the institutions in this country. Throughout the nation the old tradition of rules is fast fading. McGill, Amherst, Wesleyan, Vermont, are some of the colleges now without or abolishing rules. The doing away with rules at Clarkson will be a forward step."

The University of Vermont in its recent decision on freshman customs has placed itself voluntarily in the ranks among the leading progressive collegiate institutions.

Campus Comment

To the Editor of the Cynic:

When the history of our times is written up future peoples will learn that a serious economic [illegible] was on at [illegible] and chaos. They will see that over the surface of the whole earth men starved in the face of [illegible] They will wonder. They will be puzzled. They will be astonished to think that men did not keep alive when nature and man's ingenuity were providing an unprecedented quantity of food and material goods. Perhaps some of the more sympathetic and understanding citizens of our country fifty years hence will weep over our folly and blindness. How strange it is, after all, that a small group of men, here and in foreign lands should enjoy the fruits of the labor of the many, and that those who in faithful toil labored hard and skillfully should starve and be trampled upon as if they were nonentities and social parasites.

What is wrong with our economic system? Undoubtedly the difficulty lies in the mechanics of the distribution of wealth. Karl Marx predicted that great wealth would be amassed by the very few in ever-increasing quantities. Critics ridiculed the idea. Yet the last fifty years have seen huge fortunes built up. The accumulation of great wealth in the hands of an extreme minority would not be so damaging in its effects upon society, but for the disturbing fact that such accumulations impoverish the vast majority in direct proportion as the accumulated fortunes increase. If industry manages to make a profit of $100,000,000 annually and only $10,000,000 of this amount reaches the hands of nine-tenths of our people, there can be little doubt as to where the root of our economic evils lies.

When people have no money, they cannot buy. When nothing is exchanged in the market, business ceases and there is no longer any need for either services or goods. The result is business depression and unemployment.

The sickening attitude taken by our captains of industry at the present time reveals only to well what poor captains they are. They are waiting for something to turn up. They feel that some stroke of magic, or the will of God, or some other vague power, will in the not too distant future come to straighten out our economic mess. Meanwhile, these so-called captains lie idle, feasting on the products of the past toil of others, while the very ones who produced the existing surplus of goods must remain content to have merely scrap morsels of food which are thrown out at them as if they were dogs. The irony in the situation is that the miserable majority are expecting hopefully, that Hoover, and such like, all great captains of industry, of course, and heralds of prosperity (what a lovely Republican word!) will face the economic issues fairly and squarely and at least attempt to solve a few of the problems that face us at the present time. But I fear that as long as we entrust the conduct of our economic affairs with Hoovers and other Republican captains of industry that the lot of the most of us will become increasingly miserable. After all, doesn't the Republican party stand for the interests of the very favored few primarily?

There is such an outcry against Russia today! The chief trouble with the Communists seems to be that they are doing things. I think really that Soviet Russia is a government of the people, by the people, for the people, as much, if not more, than our own. If we can call workers in Russia slaves, we can certain call many of our own laborers slaves, too! At least, in Russia the government is endeavoring to better the lot of its citizens. Here, by its inactivity, the government makes the economic conditions of the people only worse. I am far from advocating the government ownership of our industries. Judging from the mess the government is making of prohibition, I think that we can expect little from our politicians in the larger field of government ownership. It would seem, wouldn't it, that most of our present government officials are more inefficient, more untrustworthy, less vigorous, than those terrible, bloody, Soviet leaders in Russia?

But we can have the government supervision of industries. We can pass laws aiming at further restrictions of the cunning and selfish practices of business interests. Certainly better than doing nothing at all, we should attempt something like this.

The first bit of legislation that needs to be passed should concern itself, I think, with restricting the hours of labor. For instance, forty hours might be established as the maximum time a laborer would be permitted by law to work each week. What would be the effect of such legislation? It would certainly do much to avoid over-production and it would provide work for a greater number of men. But labor must live and it can hardly do so on less than it was receiving when it was putting in forty-eight or fifty-four more hours a week. The wages of labor must then not be reduced. I think that strong labor unions are the best agents to carry out this particular part of the economic reconstruction program but the government would perhaps pass legislation supporting the unions.

Shortening the hours of labor without reducing wages would do much, I believe, to relieve the present economic evils and perhaps also to avoid economic catastrophies in the future. Profits would be reduced if these proposed measures were carried out and much of the economic inequalities eliminated. Greater stability would be introduced into the market because of the increased buying power of the great mass of the people and the elimination of a number of disturbing factors in production activities. The captains of industry themselves would profit too since they would suffer less from extreme fluctuations, a condition which is so prevalent in the market today.

Those who would benefit most from the adoption of the proposed measure would constitute in round numbers about nine-tenths of our people. The other one-tenth of the population would, of course, complain loudly but they must remember that other people have a right to live. Besides the proposed program does not eliminate the profit incentive in industry. Profit would still be possible, but only a reasonable profit. What's more, if captains of industry insist on profits, and more profits, the great mass of the people have at least a right to exclaim with Carlyle "a fair day's wage for a fair day's work!"

Also, there are certain features of the stock market which are particularly objectionable because they aggravate the problem of the distribution of wealth. Any practice which enables men to make money without any effort on their part is criminal. Speculation should be prohibited by law. It is an entirely unnecessary feature of our economic system and its disappearance from the stock market would prove a blessing, I think. The speculation market is a true parasite upon society.

The investment market, on the other hand, is a desirable part of the economic system, as it provides a useful outlet for excess wealth. But at present the speculation market and the investment market are one. How will it be possible to abolish the one and retain the other? Perhaps here too legislation might prove useful. It might be made law that any stock that is bought must be held by the purchaser for at least one year before he be permitted to negotiate the sale of the stock. Such a requirement would eliminate much of the undesirable conected with the sale and exchange of stocks and would certainly introduce sanity into the stock market. Greater stability would result too, I think. If people buy stock for investment purposes only, much of the hysteria is automatically eliminated from the market.

And not only is the investment market desirable but the buying of stocks for investment purposes alone should be encouraged. Stocks give the holder command over the fruits of industry. The stockholder shares in the returns of business enterprises and successes. If the great mass of the people are ever to gain control of the business interests in this country they must buy stocks and hold them.

The question naturally arises: How is all this proposed legislation to be effected? The Republican party certainly won't help the situation.

Perhaps we should consider the claim that is made that the seat of all authority lies in private property. According to this assumption, property, less individuals, has no political powers from the consent of the governed. If our government has been allowed to slip largely into the hands of the moneyed interests, it is not because the people have been compelled to submit to the dictates of industry but rather that they have been somewhat [illegible] much of the power be [illegible] business interests. There [illegible] prevent the people from [illegible] power out of the hands of [illegible] The power to run the [illegible] lies in wait for the people [illegible] over, if they will.

The formation of a new [illegible] party seems to be the answer [illegible] that is affecting the country [illegible] present time. John Dewey, a [illegible] guished alumnus of the University [illegible] proposed such a party and [illegible] upon the Liberal element of [illegible] lation to support his proposed [illegible] alignment. Certainly, it is [illegible] that Liberal thinkers group [illegible] into a single political unit and [illegible] reality to their ideas. The world [illegible] leaders now, and Liberal leaders [illegible] of all. The leaders who are [illegible] to the old ways have been [illegible] they have failed. They have [illegible] us into a sea of trouble. There [illegible] one way to get out of the [illegible] dilemma. We must form a new [illegible] party and oust the present [illegible] from office.

If a Liberal party is not [illegible] this country then perhaps we [illegible] witness an extraordinary [illegible] communism. If capitalism [illegible] set its house in order then [illegible] may be brought to bear to [illegible] italism altogether. It would [illegible] for us as a people to eliminate [illegible] evils we can from the capitalistic system. By so doing, we not only [illegible] our economic order but also [illegible] remove all dangers of extreme [illegible] ism and communism as in [illegible] Russia.

No doubt, it will take [illegible] the simple measures outlined [illegible] eliminate all the evils of our [illegible] system, yet the adoption of the [illegible] lation proposed by the [illegible] gested would certainly do away [illegible] us on the track to stable and [illegible] business conditions.

I fear, however, that as long as [illegible] ple will believe in a better [illegible] come, that is, a hereafter, they [illegible] become too excited about [illegible] this world, however dreary [illegible] may be. The development of [illegible] Liberal party is in this way [illegible] But there shall be a day [illegible] ing.

The time will come when [illegible] be convinced that the [illegible] enjoy are all they will ever [illegible] when men will think [illegible] will undoubtedly feel that [illegible] is their duty to society and [illegible] selves to do everything [illegible] make this world a better [illegible] everyone to live in and [illegible] men generally will be better [illegible] may arrive sooner than [illegible] us expect!

When that day arrives [illegible] party would be very powerful [illegible] be well to start a Liberal [illegible] to prepare for the future.

Winnowings Volume 1, Number 1 Depicts Spirit of '75 Sophomores

...ings From the Mill, Decem... had the following editorial ... A. W. Boynton, R. B. Grif... Seaver, H. W. Hill, C. W ... and was published twice each ... the U. V. M. Press Association. ...aculty, Prof. G. H. Perkins is ... member.

Class of '78

...notwithstanding the statement of ...thy President, that there was ...ing done in College last year ... twenty years previous, '78 has ...own well, and yet lives to tell ... We congratulate ourselves ... sophomority. Our freshman ...ced seem a far away thing, ... fairly smile when the laders ... that solt, shot, and ropes were ...mium last year. To be sure, we ...mber that sometimes we re... ghostlight, and that some... well sometimes we did not

Confidential Relations

...sometimes we tarried with a ... professor after recitation: not ... we could not leave the room ... had chosen, but because we ... it a proper thing to cultivate ...ntial relations with the faculty ... achieve that meekness, above all ... becometh a freshman, and ... during our freshman year, ... strove to exemplify for the bene... of our successors, this most laud... virtue. But meekness does not ... with the general character of ... sophomores as everyone knows so ... have put it away in company with ... Peabody's Moral Science the milder mathematics and other freshman relics.

It becomes the painful duty of the historian to record that even from our ranks there have been deserters.

But for our loss we are more than compensated by the accession of several noble specimens from abroad, and some of the best of the class of '77 who felt a desire for more congenial companionship. For many years we have not been outnumbered by any sophomore class. '78 is famous for her strong and stalwart men. Twice have we borne the palm from the football ground. This year upperclassmen predicted a defeat for us, but our victory was a most brutal one, and as easy as complete. Perhaps it was in part due to the leadership of an Angell and in part to the encouraging presence of the members of the class whose stalwart arm was as much in use as that of their most active brethren and who cheered the contestors with garlands of flowers in place of the Olympic Laurel. But although '78 rejoices in the possession of her men she purposes that they shall do their full share of brain work. We are now revelling in the mysteries of the Eighth: mathematics. Professor Pettee loved and revered by all stands at helm and thus far, we have been sailing on the arc of a great circle. But juniors point ominously to analytical geometry and tell us there are schools ahead. However, we have the true sophomore spirit and know not fear.

Camp Hochelaga, on Choates Island, scene of Women's Freshman Camp last fall and probable location of 1931 Camp

CAMPUS COMMENT

To the Editor of the Cynic:

We would like to call to the freshmen's attention the situation that exists regarding the freshman section Vermont rifles. This outfit was organized by Lieutenant Tuttle-son for the benefit of those interested in forming a crack drill team and putting on a show at Federal Inspection. The way things look now the "show" will be conspicuous by its absence.

Nearly fifty men reported at the initial formation at the rifles and most unpromising were the prospects that the fresh section would win the prize at inspection. But now it would all such things usually do, the attendance, once pretty satisfactory, commenced to drop off and soon the section was failing to present. At the last drill barely enough men were present to form two platoon squads.

Come on, get peppy, and show Vermont that you have not lost your pep in college spelling of course, a career of selfish pleasure. Now the middle of April is a good week before the Interclass Competition. Let's get busy and win it for the class of '31. Remember the date, Wednesday, April 29, and don't forget to be there. Monday and Tuesday of the next two weeks will be given over to the drill in Federal Inspection the loss of which Vermont would not feel for the best "ole reason."

Intercollegiate News

STUDENT UNION

[illegible] The movement [illegible] on the campus of the University of Alabama is the Student Union building. The Union seeks to provide a social center for the student body, [illegible] and to provide a suitable place for the student [illegible]

The erection of the Union was made possible by funds raised by the Alumni Memorial Campaign during which alumni and friends of the university subscribed a substantial sum. It is one of the most completely equipped buildings on the campus with the latest modern improvements and electrical installations. Beautiful in its architecture it stands as a fitting memorial to the soldiers of Alabama who lost their lives in the cause of their country.

Orgaization Rooms

In addition to meeting rooms for all student organizations it contains the university supply store, the postoffice, a large public dining room and a small [illegible] room. Separate reading rooms for men and women are kept by the Y M C A and the Y W C A, while lounges furnished in wicker furniture open out from two sides of the building.

Meetings rooms for all groups in the university are located on the third floor together with offices for the *Alumni News* alumni secretary *Crimson White* (undergraduate newspaper), *Corolla* (annual yearbook) *Rammer Jammer* (humorous magazine), the university news bureau, student government glee club and the Union director. There are also separate club rooms for the faculty and graduate students as well as for the various religious denominations on the third floor.

The Union has opened the eyes of people who have been accustomed to seeing student centers as bare as possible with seats and tables but with no particular attention paid to the artistic perfection of the whole. The interior is tastefully and beautifully furnished although no set scheme has been followed and every piece of furniture has been chosen with such care that it fits into the general plan admirably. The colorful draperies and coverings for chairs and sofas, the well-chosen pictures that adorn the walls, the rugs and other fittings create an air of beauty as well as of comfort.

STEPPING INTO A MODERN WORLD

The long arm of the telephone operator - - - *made longer*

How to extend the operator's range five-fold? There's an example of the problems put up to a telephone engineer.

This was part of a study in stepping up the speed of service to distant points. "Long Distance" used to relay your call to one or more other operators. Now she herself reaches the city you are calling, 30 or 300 or 3000 miles away.

Result: in five years the average time needed to complete a long-distance connection has been cut from 7 minutes to less than 2 minutes.

In this industry even long approved methods are never considered beyond improvement. For men of the right aptitude, that viewpoint is a stimulating challenge.

Freshman Baseball Team Beats T. C. A. Nine, 12-10

Green and Gold Yearlings, Opening Their Home Season Founder's Day, Come From Behind to Defeat Visitors in Loosely Played Contest

TEAM SHOWS NEED OF MUCH IMPROVEMENT

[illegible] freshman baseball team brought [illegible] victory of the Founder's [illegible] when it defeated Troy Conference Academy by a 12-10 score. The game which opened the frosh schedule was loosely played and long drawn [illegible]

[illegible] Spicer started the game for Vermont team and got into deep [illegible] at the very beginning when the [illegible] were loaded with none out. For [illegible] three innings the team played [illegible] ball around Spicer. T. C. A. [illegible] scored runs in these three innings while Vermont only got two tallies.

[illegible] Burnell went into the box for [illegible], he immediately retired the side and pitched an airtight ball game [illegible] allowing only four hits [illegible] did but little damage. "Vi" was the hurler for the visitors, played a steady game and was instrumental [illegible] several rallies in the bud, [illegible] his team booted the ball behind him.

The third inning found the frosh [illegible] some of their lost runs. [illegible]en on the frosh crept steadily [illegible] their opponents until they were [illegible] in the fifth.

[illegible] played a flashy game at third [illegible] showed up well at the bat. Beckwith left field improved as the game progressed and secured two bingles. Cogswell and Cass played steady games [illegible] deserve credit.

[illegible] the team does not show improvement it will have only a slim chance against the Dartmouth frosh nine, the next opponent, who has scored 55 runs in three games played to date.

The box score:

RUSSELL COLBURN WILL BE EDITOR 1933 ARIEL

Sophomore Class Elects MacKenzie Business Manager of Yearbook

Elected from the sophomore class at large, Russell F. Colburn of Burlington will be editor-in-chief of the 1933 *Ariel* and G. M. MacKenzie of Williamstown will be business manager.

The meeting was held last Friday and was open to attendance by the entire class of 1933, which comprises about 230 men and women.

Both Colburn and MacKenzie will appoint their assistants who will serve with them next year in editing the yearbook. Both men belong to Sigma Alpha Epsilon fraternity.

Colburn is assistant manager of basketball, captain of freshman cross-country, and a member of the varsity team, a class debater, winner of first prize in the Kingsley Prize Speaking Contest last year, a member of both the Men's Glee Club and the choir. Last year he was on the dean's list.

MacKenzie is a member of the Glee Club, choir and is scrubbing track.

ST. LAWERENCE TRACK MEET IS CALLED OFF

A strike among the students at St. Lawrence University caused the track meet with Vermont to be called off. A number of students protested certain rulings restricting social activities and refused also to participate in extra-curricula events.

NEWS IN BRIEF

Mason H. Grower was the marshal of the junior class on Founder's day.

Professor L. P. Dickinson of the Engineering College of the University of Vermont is representing the University at the annual meeting of the American Institute of Mechanical Engineers at Rochester, N. Y.

Charles W. Knapp, Jr., '31, has gone to Cincinnati, O., to attend the national convention of Eta Sigma Phi, honorary society for students of the classics. Mr. Knapp is a past president of the University chapter and holds a national office in the society.

Vermont Tennis Team Loses Opening Three Matches of Schedule

Tufts Wins 5-2; Boston University, 6-1; and Worcester Tech, 7-0

TUPPER AND BEER SHOW UP BEST ON FIRST TRIP

[illegible] Tufts, the first [illegible] the season, Vermont tennis team bowed to a round of three defeats.

These were expected however, as the team was used for the first time as a variety of unseasoned material. Freddy Tupper, Vermont's net captain, won several matches, and Beer doubling with him, showed unexpectedly well.

Tufts defeated Vermont by 5-2 at Medford Saturday. Tupper, V. MacLaren, 6-0, 6-1; Walker, T. d. Bisson, 6-0, 6-2; Ingraham, T. d. Woodward, 6-0, 6-1; Howard, T. d. Beer 6-4, 6-3; Hathaway, T. d. Albert, 4-6 7-5, 6-3. Doubles, Tupper and Beer d. Howard and MacLaren, 8-6, 6-4; Ingraham and Walker, d. Woodward and Bisson, 6-1, 6-1.

Boston University won by a 6-1 score at Boston on Friday. The summary: Donforth, B. U., d. Tupper, 6-4 [illegible] 7-5; Hudson, B. U., d. Bisson, 6-2, 6-1; Bannister, B. U., d. Woodward, 6-0 6-1; Whitmore, B. U., d. Beer, 6-1, 6-2; Livingston, B. U., d. Albert, 6-0, 6-1. Doubles, Whitmore and Bannister d. Tupper and Beer, 9-8, 4-6, 7-5; Woodward and Bisson d. Lombard and Fernandez, 6-2, 3-6, 6-1.

Worcester Tech shut out the Green and Gold men, 7-0, at Worcester on Thursday in the opening engagement for both teams. Only one match went to an extra set, R. Corsini and E. Collins of Tech defeating Tupper and Beer, 7-5, 4-6, 8-6.

Three more matches are on the schedule this week. The first home game of the season will be played on Thursday afternoon when the New York State Teachers team will be in town. Next Friday St. Lawrence is scheduled to play here if in the meantime the students and administration at that institution can iron out their little difficulties. The game in the state series will be played on Saturday against the Blue and White at Middlebury.

VERMONT DELEGATES TO GO TO DEERFIELD MEET

Following a precedent established ten or fifteen years ago, Vermont will send a delegation to the Northfield Student Conference which will be held from June 10-18 at Eaglebrook Lodge, Deerfield, Mass. The topic for discussion this year will be "The Way of Jesus In The Modern World."

The conference program will be much the same as last year presenting speakers, featuring group and "under the-tree meetings." It is expected that Dr. Harry F. Ward will give a series of addresses on topics along the line of his recently published book "Which Way Religion?" Morgan Noyes of Yale and Union Seminary in New York will be the alumni conference chairman and in charge of the "Round Top" program. Other representatives will be present from every Christian Association in New England.

The meeting is scheduled for Eaglebrook, because of the fiftieth anniversary of the founding of Mt. Hermon School which is to be celebrated this year in connection with the three million dollar endowment campaign for which alumni guests are being invited. Eaglebrook is three miles from Greenfield and a short distance from Deerfield. The lodge is situated on a wooded hill commanding a view of the Berkshires off to the west. In addition there are two well-kept tennis courts, and an indoor swimming pool.

A circular sent out by the executive secretary of the conference W. J. Kitchen of Boston, Mass. states:

"It is a great place for hikes in the woods and many quiet nooks and chimney corners. Complete its charm as a place to relax, rest, and find recreation in new and deepening friendships."

This year the cost will be approximately twenty-five dollars per person and a registration fee of seven dollars.

The beautiful seems right
By force of Beauty, and the feeble wrong
Because of weakness.—*Elizabeth Browning*

Green and Gold Nine Loses To Williams In Close Game

Each Pitcher Is Effective But Opponents Bunch Hits to Win, 2 to 1—Jay and Winant Star at Bat for Catamounts While Markowski Leads for Williams

UNIVERSITY AWARDS $150 TO ORATORICAL WINNER

[illegible] Mary Mackenzie Chase won the [illegible] prize of an additional $150 scholarship [illegible] the University of Vermont in the [illegible] first place at the final contest in the Fourth Vermont State Oratorical contest on Friday, April 17 at the City Hall, Burlington. Miss Chase will also represent the State of Vermont at the National semi-finals to be held May 15 at Springfield, Mass., with all expenses to be paid by the University of Vermont.

Miss Chase is the daughter of Judge and Mrs. Harris B. Chase of Brattleboro. Her oration was "The Influence of the Implied Doctrinal Powers As Enumerated in the McCullock vs. Maryland Decision." Miss Chase also excelled in her extemporaneous speech on the topic assigned by the chairman: "Discuss what would have been the effect if the decision had been reversed."

Miss Ethel Levinthal of Montpelier High School won second prize and an additional $100 scholarship, totalling $250, to the University of Vermont. Miss Mary Whitney received third prize with an additional $75 scholarship totalling $175 at the University. Miss Levinthal's prepared oration was "The Rights Privileges and Duties of a Citizen under the Constitution," and Miss Whitney's oration was "The Constitution Our Priceless Heritage." Robert Stafford of Rutland High School winner over Miss Chase and two others at the district contest at Rutland last week was fourth. His topic was "The Influence of the Veto Powers of the President." He won a $150 scholarship at the district contest.

Faculty Judges

The judges were Prof. F. W. Cady of Middlebury, Prof. D. R. Carroll of the University of Vermont, and Prof. K. R. B. Flint of Norwich University. Prof. R. A. Hall of the University of Vermont presided and assigned the topics for the extemporaneous speeches. "The intermission was furnished music between the orations.

This contest was the Fourth Vermont Oratorical contest. The idea originated in the spring of 1925 in the high schools of the State of California, the general subject being the Constitution of the United States. So successful was the enterprise that the leading newspapers of the country organized the first national contest which was held the next year. The president of the American Bar Association was in charge of the finals at Washington and the meeting was addressed by President Coolidge. Five members of the Supreme Court of the United States acted as judges. In 1926 the contests became international. This year more than twenty nations are participating.

In previous years the Burlington Free Press has sponsored the contest here in the State. This year the University has full charge of the contest.

VERMONT TEAM PLAYS ERRORLESS BASEBALL.

In a pitchers' battle Williams defeated Vermont by a 2-1 score at Williamstown yesterday afternoon. The game was very fast and was marked by effective twirling by both pitchers and sharp fielding, the Green and Gold [illegible] for the first errorless game of the season. Lefty Cunningham was going strong for Vermont and pitched a very good game, while Tilley of the [illegible] also was in good form.

Jay for the Catamounts led both teams in hitting, by banging out two [illegible] Winant for Vermont and Markowski for Williams each connected for two baggers the only extra base hits of the game.

The Green and Gold scored first in the third, when Pires reached first on an error by Wallace after two were out and then scored on Ed Winant's two-base hit.

Williams evened it up in the sixth and Tilley singled and came in on a sacrifice by Markowski and hits by Forbes and Page. The home team won the game in the eighth when Newcomb walked and scored on Markowski's double.

The box score:

CLASS CONSTITUTION OF 1932 MAKES APPEARANCE

(Continued from page 1)

[illegible] The Executive Board, consisting of the officers and one member of the class at large appointed by the President, shall act as advisors of the President who shall be Chairman of the board.

[illegible] The Nominating Committee shall consist of the Class President who shall act as Chairman, and one member from each Men's Fraternity and Women's Fraternity represented in the Class chosen by their respective Men's Fraternities and Women's Fraternities together with two representatives from the non-fraternity members of the Class two men and two women chosen by the non-fraternity members or at the discretion of the President.

Section 3. The duties of the Nominating Committee shall be to nominate [illegible] members of the Class for office and to report the nominations to the Class Secretary for the [illegible] of ballots.

ARTICLE V—NOMINATIONS

Section 1. The nominations for all the Executive Class Officers shall lay upon the table for one week and shall be posted for that length of time upon the several bulletin boards. President, Vice President, Secretary, Treasurer, Junior and Senior Founder's Day Speaker and Commencement speakers representing the Class and all permanent Class Officers. Nominations additional to those made by the Nominating Committee may be made from the floor at the will of the Class.

ARTICLE VI—ELECTIONS

Section 1. The elections of all officers shall be by ballot and shall consist of a plurality vote.

Section 2. The President, Vice President, Secretary and Treasurer for the ensuing year shall be elected at a meeting to be held two weeks before final examinations.

ARTICLE VII—TAXES AND EXPENDITURES

Section 1. Taxes may be levied by a majority vote at a meeting of the Class.

Section 2. No appropriation shall be made from the funds of the Class except by a majority vote of a legally called meeting of the Class, as before prescribed.

Section 3. No bills shall be paid until approved in writing by the President and the person incurring the bill.

Section 4. The Class tax during the Junior year shall be sufficient to insure publication of the Class *Ariel*.

Section 5. Any surplus remaining at the end of the Senior year shall be turned over to the Permanent Class organization or used toward the endowment of the University.

ARTICLE VIII—CLASS TEAMS

Section 1. A manager shall be elected by the Class athletic team.

Section 2. The duties of the manager of each team shall be: To control the money matters of that team of which he has been chosen manager, to pay all bills lawfully contracted and to take a receipt for such payment and at the end of his term, to hand over to the Treasurer all surplus moneys, all bills paid or unpaid, together with an itemized account of receipts and expenditures.

Section 3. The Captains of the teams shall be elected by the members of the respective teams.

COLLEGE HUMOR

[illegible] said the lady in the street car, "why don't you get up and give your seat to your father, doesn't it make you ashamed to see your father reach for a strap?"

Not in a street car, replied Bobby, but it does at [illegible]

Freshman: Any rags, papers or [illegible]

Housewife: [illegible] No, the [illegible]

Freshman: Ain't [illegible]

Section 4. Every player on a team must be a bona fide member of the Class.

ARTICLE IX—AMENDMENTS

Section 1. All amendments to this Constitution must be made by a two-thirds vote of the Class.

Section 2. Any proposed amendment must be laid on the table at least one week before it can be voted on by the Class.

Submitted for the approval of the Class of '32 by the Committee:

SUSY B. BARKER,
Chairman.
RAYMOND W. COBB,
ALLEN O. EATON,
LILLIAN E. MOUNT,
ROBERTA F. POWERS.

Down on the Stanford Farm

. . . pipe smokers *agree* with NAVY • HARVARD WASHINGTON COLGATE

"FROM the foothills to the bay" the curling tendrils of smoke from pipes loaded with Edgeworth rise to meet the sunset fire.

In the Stadium before the big games . . . watching spring football practice . . . in the great hall of Encina . . . over on the Row and up on the Hill . . . men of Stanford give Edgeworth the preference over all other tobacco brands.

College men everywhere are turning to Edgeworth! In 42 out of 54 of the leading colleges and universities Edgeworth is the favorite pipe tobacco.

To win the vote of so many college men a tobacco *must* be good. If you've never tried Edgeworth, begin today! The pocket tin is only 15¢. Or, for generous free sample, write to Larus & Bro. Co., 105 S. 22d Street, Richmond, Va.

EDGEWORTH
SMOKING TOBACCO

Edgeworth is a blend of fine old burleys, with its natural savor enhanced by Edgeworth's distinctive eleventh process. Buy Edgeworth anywhere in two forms—"Ready-Rubbed" and "Plug Slice." All sizes, 15¢ pocket package to pound humidor tin.

The regular $6.50 grade.

Prepare for the June social activities. Long gloves are absolutely necessary for evening wear.

J. K. Perelman, '31, Captain of Fencing Team, 1930-31

He put his arms about her,
Indulged in fond caress,
For he was exercising
His freedom of the press.

She balked his kind attentions,
She was a wise co-ed
And knew her Monroe Doctrine.
"Hands off" was what she said.

He waived her weak objection,
Lawful to the core.
For the Monroe Doctrine
Isn't practiced any more.

NELSON WINS LAWRENCE AWARD IN MIDDLEBURY-VERMONT 2-1 DEFEAT

Four-year Varsity Veteran Crowns U. V. M. Debating Career With $25 Laurels

VERMONT LOSS ENDS YEAR'S FORENSIC WORK

[illegible] cuts of intercollegiate debat[illegible] the University of Vermont [illegible] team for George R. Nelson, '31, [illegible] Conn., were crowned with [illegible] laurels of $25, representing [illegible] Lawrence award, when his team [illegible] defeated 2-1 by Middlebury, Tues[illegible] night on the affirmative side of [illegible] question: Resolved, that the pres[illegible] trend in modern journalism is de[illegible]able.

Nelson, veteran U. V. M. debater [illegible] captain and manager of his team, [illegible] first prize; Yarowitz and Duffield [illegible] Middlebury won $15 and $10 re[illegible]ively. The prizes are awarded an[illegible]ally by Mr. Lawrence, a Rutland [illegible]orney and Vermont alumnus.

With this debate, the varsity trio, [illegible]mprising R. P. Donaghy, '33, P. J. [illegible]esse, and G. R. Nelson, completes [illegible]e most extensive season it has ever [illegible]ertaken.

On Journalism

P. P. Donaghy, opening the debate [illegible] Vermont pointed out that his team [illegible]unted and would not divide their [illegible] of questions superficially. He [illegible]eared that modern journalism [illegible]ded towards development by great [illegible]ains—mentioning the Hearst publi[illegible]ations which control 38 unit papers.

Thomas Duffield of Middlebury, up[illegible]lding the negative, upheld the [illegible]oids and sensationalism. He stated [illegible]at comparison was the only evidence [illegible] the tabloids and in comparing the [illegible]per of today with that of former [illegible]mes. Duffield said that newspapers [illegible]ve the readers what they want and [illegible]ead. "Sensationalism," he declared, [illegible]s a fair account of the news without [illegible]ich the people would have no way [illegible] getting the facts."

Paul J. LaCrosse, '32, continued the affirmative's case with a definite criti[illegible]sm of the bias of capitalism. He [illegible]rgued that even the *New York Times*, [illegible]ich is considered a conservative [illegible]aper, prints so-called facts which are [illegible]ot always true because of the capi[illegible]istic influence upon it.

Edward Yarowitz, speaking second [illegible]or Middlebury, declared that the [illegible]esent trend of journalism was [illegible]onomically sound and it was foolish [illegible]or the bias of capitalism. He [illegible]allenged the affirmative for concrete [illegible]amples of capitalism.

Nelson of Vermont and Kline of [illegible]iddlebury concluded their team's con[illegible]structive argument.

GOLD KEY INITIATES NINETEEN AT BANQUET

[illegible]old Key, sophomore honorary so[illegible]ety initiated its new members at a [illegible]anquet held at the Ethan Allen Club [illegible] last evening. Former officers [illegible]f the society conducted the ceremo[illegible]ies.

The members initiated:

[illegible] L. Beckley, Great Neck, L. I.; [illegible] William Brislin, Rutland; A. H. [illegible] Essex Junction; William Cohen, [illegible]ington; Thomas Cogswell, [illegible]ster, N. H.; Gordon L. Davis, [illegible]nfield, Clarence Dobson, East [illegible]pleton, Mass.; Clarence Drown, [illegible]nton; Chester Eaton, Worcester, [illegible]s; William Gilbert, Burlington; [illegible]nglass Green, Albany, N. Y.; C. J. [illegible] Richmond Hill, N. Y.; Norman [illegible]s, Burlington; Bernard Mulcahy, [illegible] Richard Powell, Island Pond; [illegible]Herbert Selib, Jamacia Plain, Mass.; [illegible]len Spicer, Essex Junction; William [illegible]stes, New Haven, Conn.; Edward [illegible]ester, Hanover, Mass.

MORTAR BOARD DINES WITH DEAN OF WOMEN

Dean Isabel Whiting entertained the active chapter of Mortar Board at an informal luncheon Saturday noon, May [illegible] at Robinson Hall. Faculty members present were Misses Alice Blanchard, [illegible] Blundell and Eleanor Cum[illegible]ings.

DRAMATIC CLUB ELECTS LOIS HARRINGTON, HEAD

Lois Harrington '[illegible] of North Bennington, Vt. was elected president of Dramatic Club at the meeting held Tuesday, May 5 at Alpha Chi Omega house. Miss Harrington will serve in place of Alice Fairchild, '33, who will not return to Vermont next year. A social hour with refreshments followed the business meeting.

COLONEL BURNET FROM FORT ETHAN ALLEN TO TALK ON JAPAN TONIGHT

Prominent Military Official Will Address International Relations Club

Colonel Burnet, prominent Fort Ethan Allen staff officer and eminent authority on military science and U. S. military advisor at the London Naval Conference, will address the students of the University on "Present Day Japan," at the May meeting of the International Relations Club which will be held tonight at 8 o'clock at the Vermonters' Club House.

Men taking courses in advanced military science as well as the department faculty members will be cordially welcomed at this meeting. Students pursuing courses in government, economics and international relations will be interested in hearing Colonel Burnet.

A government office was held by Colonel Burnet in Tokyo for a number of years. In this position he has been able to study first-hand the national affairs of this great sea power and also its relation to the other nations of the world, especially to the United States and Great Britain.

Said Pres. Edmour Germain, "probably no local man is as well qualified through military knowledge and international science as Colonel Burnet. This Fort Ethan Allen officer should attract a sizeable group."

The International Relations Club is maintained at the University of Vermont as in all other institutions by the Carnegie Endowment for International Peace. It holds meetings once each month throughout the college year.

Attendance as well as membership is open to every fully enrolled student. The present faculty advisor is Prof. Edmund C. Mower, head of the department of political science, and the student officers are: E. A. Germain, president; G. H. Smead, vice-president; Ruth A. Burroughs, secretary-treasurer.

Alpha Tau Omega Buys New House On Williams Street

Fraternity to Move Into Former Unitarian Parsonage Next Fall

Alpha Tau Omega Fraternity, since 1926 located on the southwest corner of College and South Willard Streets will next fall move into its new home at 1 Williams Street, next to the Parsonage of the Unitarian Church. The sale is subject to the approval of [illegible]

The lot is a [illegible] approximately 300 feet in depth with a frontage of about 75 feet. There is ample space in the back yard for such activities as baseball or football practice, and it is wide enough for a tennis court to be laid north and south.

The building has 13 rooms in addition to two large hallways and two unfinished rooms on the third floor which can be finished and made use of if the fraternity desires.

The new chapter house is large enough to furnish accommodations comfortably for 25. There are five large bedrooms on the second floor, and three finished and two unfinished rooms on the third floor. On the west side, extending the full width of the house are wide verandas on both first and second floors which may be glassed in to provide sleeping quarters. Finishing off the basement space under the first floor veranda is contemplated. This space is now lattiged in.

Acquisition of the fine brick building was enthusiastically viewed both by alumni and especially by members of the active chapter. Not only because of the suitability of the building as a chaper house; but also because of its location, members felt pleased with the purchase.

The new house is a block nearer the campus and is only three doors from Sigma Nu Lodge to the south, and a few rods from both the Kappa Sigma and Sigma Phi houses.

The fraternity group purchasing the property is one of the older Greek letter societies at the University. The chapter was established here in 1887.

Among the alumni of Alpha Tau Omega, both of the U. V. M and other chapters, are Pres. Guy W. Bailey, Profs. Frederick Tupper, E. C. Jacobs, A. T. Butterfield, and Hovey Jordan, Dr. C. F. Whitney, Col. F. F. Black and L. S. Hartwell of the University faculty.

REV. DAVISON SPEAKS ON CHRISTIAN PRINCIPLES

The Rev. Dr. W. A. Davison of this city spoke at the Wednesday [illegible] chapel [illegible]. He stressed the [illegible] Fatherhood of God and the Brotherhood of Man. He said in part: "We were told in praying to say 'Our Father.' We should have some vital connection between Our Father and ourselves and this can be attained through faith." Concerning the "Brotherhood of Man," he asked for everyone to be ever conscious of his less fortunate fellows men and to try to be of service to them.

DEAN ISSUES TENTATIVE SOCIAL CALENDAR WITH PROVISIONS FOR REVISION

Swift Asks All Organizations to Send Representatives to Next Meeting

Twelve students met with Deans Swift and Whiting for the arrangement of a tentative social calendar for the year 1931-32, in 3 North College Wednesday afternoon.

The Christmas recess in this calendar is to be one day longer than that of the present year. "The representation," stated Dean Swift, "was small and we wish that all the societies and organizations would call our attention to any omissions or changes that should be made. All should send a representative if possible to the revision meeting, which will be held some time during the next two weeks."

The tenative social calendar:

September

15 Freshman enrollment.
16. Opening day
19 College mixer (Boulder).
22 Women's mass meeting
24 Freshman banquet and dance.
25 Boulder smoker.
26 Union, here—Boulder dance.

October

3. Newman Club.
7. Open house.
9. Open house
10 Providence, here Gold Key.
13. Open house
15. Open house
17 Colby here
20 Open house.
22. Rushing dates
24 New Hampshire, here Rushing
26, 27, 28 Rushing.
29. Bids.
31. Norwich, there—Mortar Board.

November

7. Men's informals—Rensselaer
10. Military ball.
11 Armistice Day
13 Key and Serpent Smoker.
14 [illegible]
17 [illegible]
[illegible]
[illegible]
25. Men's informals
26. Thanksgiving dance (Commuters Associations).
28. Women's dances

December

3. College play.
5 Football [illegible]
10 Women's mass meeting
18. Men's Journals.
[illegible]
[illegible]
[illegible]

January

4 Christmas recess ends
8. Lambda Iota dinner dance.
9 Boulder
17-30 Midyear examinations.
30. Men's formals

February

5 Sophomore hop
19 20 Kappa walk.
28 Women's formals

March

5 Women's informals
10. Women's mass meeting.
12. Basketball hop.
18 Men's formals.
20 Easter concert
25 Men's formals
26. Easter recess begins

April

6 Easter recess ends.
9 Key and Serpent
14. Spring opera.

(Continued on page 8)

JUNIORS TO HEAR SIX FACULTY AND STUDENTS SPEAKERS AT BANQUET

Profs Dean, Evans, and Lindsey —Eaton, Carter and Margaret Mower to Give Toasts

HOUSE DANCES FOLLOW PEERADE, PLAY AND PROM

[illegible] W. [illegible] of the department of English [illegible] a member of the [illegible] history department, Prof. K. T. Lindsey of the Latin department, Alice O. Eaton, president of the class of 1932, Joseph C. Carter, Editor-in-Chief of the Cynic and Margaret Mower, newly elected member of Mortar Board.

The banquet will be informal and tickets, $2.00 each, may be secured at the Bookstore, or from the members of the banquet committee which comprises J. Stein, R. J. Boylen, J. C. Carter, G. R. Collins, and M. V. Kibby.

Peerade

With every fraternity, sorority and dormitory entering the Junior Peerade, featuring the play, "To Have the Honor" will be held Thursday afternoon, starting from the gymnasium. In it will be fraternity and individual floats, and other entries all displaying undergraduate genius at concocting the colorful, and unique in parade entries. Groups intending to enter the peerade must notify the peerade committee as soon as possible giving the name and description of their entry. A board of judges not yet appointed will review the peerade, render the decisions and award the prizes. The members of the peerade committee are F. R. Gorman, H. M. Albert, W. F. Collins, C. L. Park, and A. A. Scharbius.

To Have the Honor

"To Have the Honor," comic drama of A. A. Milne, will be presented by an experienced cast of University players Thursday evening, May 14, at the Strong Theatre. The prices of tickets are $1.50, $1.00, 75c and 50c. Vouchers are on sale at the Bookstore and must be exchanged for reserved tickets at the Strong.

Prom-Prom

The Queen of Junior Week will be presented during intermission at the Junior Prom which will be held Friday evening at the Memorial Auditorium. Prizes to be awarded to the

(Continued on page 8)

Three Cups Will Be Given For Best Entries In Junior Peerade

Three cups, on display at L. P. Wood's Store will be awarded for the best entries in the Junior Week Peerade which will be held Thursday afternoon, May 14.

Every year the fraternities and dormitories at Vermont present a Junior Week Peerade, the purpose being, to arouse public interest in the Junior Play. This Peerade, one of the most outstanding of Junior Week activities, consists of numerous elaborately decorated floats pertaining to the title or theme of the play. Being run on a competitive basis large, handsome, silver cups suitably engraved donated by the combined honorary dramatic societies of Wig and Buskin and Mask and Sandal are awarded for the best floats, one for the best submitted by the fraternities and one for the best submitted by the sororities and dormitories.

The route is from the Ira Allen Chapel on University row to Main St. down Main to Church St., up Church to Pearl St., down Pearl to St. Paul St., down St. Paul St. to College St. and up College to the campus.

The Peerade committee consists of Hon. Mayor Jackson of Burlington, Mrs. Isabelle Mills, head of the art department Prof. P. H. Ewert of the psychology department and Prof. P. D. Evans of the history department. Prof. J. T. Metcalf, associate professor of psychology, as faculty advisor has been working hard with the committee and a great deal of progress has been made. Todate entries have been coming in rapidly as the play this year promises to be exceptional.

The R. O. T. C. band under the direction of Joseph F. Lechnyr will, as has been the custom in past years, lead the procession. Individuals wishing to offer entries this year must build their floats around "To Have the Honor" which is the title of the play and get in touch with F. R. Gorman, chairman of committee or with C. T. Park, A. T. Scharbius, Jr. or H. Albert immediately so to insure places in the Peerade.

DEWEY SOCIETY ADOPTS AMENDED CONSTITUTION

At a joint meeting of the old and new executive committees of the John Dewey Club newly organized honorary society held in the Marsh Room of the the Library, Tuesday afternoon the constitution and amendments of the new society were adopted. Dues of one dollar for semester were decided upon. It was voted to receive graduate students into membership. A suitable initiation service was also discussed and the president appointed a committee consisting of Ruth A. Burroughs, '31, Hilda Smith, '31, and Edmour Germain to formulate a suitable initiatory service.

The officers of the society are J. C. Carter, '32, president; Clara Kellogg, '32, vice-president; Pearl Jennings, '32, secretary; and S. N. Spiller, '32, treasurer.

WINDSOR AND BELLOWS FALLS IN FINAL DEBATE

Bellows Falls and Windsor will enter the final debate in the Vermont High School debating league [illegible] at 8 o'clock in the City Hall. Windsor will take the affirmative and Bellows Falls the negative on the question "Resolved that the United States is detrimental to the best interests of the American Public." The judges [illegible] will be Professors [illegible] of the Department [illegible].

The [illegible] team to-night's debate will receive full scholarships of three hundred dollars and the losing team will receive half-scholarships of one hundred and fifty dollars to the University of Vermont. This is one of the many reasons why such interest is displayed by the Vermont high schools in debating.

[illegible] high schools and academies are noted as having participated in the debating. In the first round Tilton Conference Academy defeated Black River Academy only to lose the decision in the quarter-finals to Fair Haven which had defeated Middlebury High School. In the same way Spaulding defeated Burlington and then lost to People's Academy which took the decision from Hardwick Academy in the first round.

In the semi-finals Bellows Falls and Windsor which had not met any of the above mentioned teams, defeated Fair Haven and People's Academy respectively. The semi-finals were held April 25.

Office of Publication, Free Press Printing Co., Burlington, Vt.

Vol. 49 May 8, 1931 No. 54

CONGRATULATIONS!

[illegible] team [illegible] Intercollegiate Novices [illegible] in his attaining the [illegible] prize in the Middlebury debate.

It has been through his tireless efforts, patient struggles and keen interest in debating that he has gained this recognition. Without his [illegible] this year debating at the University of Vermont could never have attained its present prestige in the forensic world. The western trip [illegible] by far the most singular achievement of any Vermont team, was the result of the leadership of Nelson working with a group [illegible] varsity material. The Middlebury debate closed the season for Vermont and simultaneously the [illegible] career of the senior members of the team. With graduation this spring Vermont debating will lose its most capable representative, but we anticipate for both the team and Nelson the greatest success for the future. Again we offer Congratulations!

COLONEL BURNET TO SPEAK

Students of world government, political science and history will welcome Colonel Burnet, who addresses the International Relations Club, a speaker possessing unusual insight into present-day problems and relations between the nations of the world.

Today, when attention is being focussed on the international political and economic situation, students are studying possible adequate solutions to the pressing problems of the time. "Present Day Japan," the topic of tonight's lecture by Colonel Burnet, should bring with it a wealth of interesting personal experience in the Far East. For the speaker has spent several years in the foreign service and is well acquainted with the people, problems, and conditions of modern Japan. In addition his service as United States military advisor at the London Naval Conference, makes him qualified to present equally well the military aspect of the position of Japan as a world power. It should be a real treat to hear Colonel Burnet.

THE COLLEGE PRESS GROWS

Of significance is the growth of collegiate journalism as manifest in the publications which come to our office and are discussed in other sheets. Thirty-eight of the United States universities are served by daily papers, published and controlled by the students themselves. Many colleges have papers which are issued twice or three times a week, while more than four hundred are served by weeklies, we note in a recent survey conducted by a news service bureau.

"Practically every daily, as is true of the less frequently issued college publications, affords some financial compensation to one or more members of the staff. In general the compensation of the dailies takes the form of salaries, although members of the business staff are often given commissions on advertising contracts.

"The significant factor concerning these dailies is that the faculty exerts little or no control over the papers at all. A faculty member serves as the adviser of some papers, and in many instances, takes active interest in the publication.

"In the East the general size is from four to eight pages, while in the Mid-West and West, the average number of pages is greater. Many of the dailies use some kind of wire service, even though it be only a pony service. On the other hand, there are many dailies which devote their columns solely to campus affairs."

After being present at the preliminary meeting of the deans and students, Wednesday, for the arrangement of a social calendar we are convinced of the evident lack of cooperation on the part of societies and organization desiring to schedule dates. Representation from every organization would greatly facilitate the work of the committee and insure an even and unconflicting distribution of campus events.

Ten Timely Topics

By Tantara Tiro

We have no sympathy with those who, ever since Founder's Day, have grown bitter in their denunciation of the "honorary" societies. Their attempts to [illegible] and of [illegible] in the recent elections to [illegible] societies, and their accusations of inactivity they direct against the "honoraries," leave us cold.

On what grounds do they assert that the class societies have erred in their choice of new members? On the assumption that, as honoraries, these societies must elect to membership every student leader in the class, and only them. Then they are proceeding on a false assumption, for none of these organizations are entitled to the distinction of "honorary."

An honorary society fixes certain definite requirements for membership, which cannot be altered in individual cases to suit the whims, prejudices and policies of certain members or campus groups, and which are predicated purely on accomplishment. Among honorary societies at Vermont are Phi Beta Kappa, which admits every student who has attained a certain scholastic grade; Tau Kappa Alpha, which opens its doors to those who have participated in a specified number of debates; Sigma Delta Psi, which prescribes certain definite athletic tests for membership; Eta Sigma Phi, which requires a certain grade in Greek for membership; and the John Dewey Club, which requires a certain grade in philosophy or psychology.

Pi Delta Rho, a journalistic fraternity, began the career which led ultimately to its disruption a year ago, when, after declaring itself "honorary," it refused to admit two or three men who had attained high rank on one or other of the college publications. Grey Friars, the men's literary society, has repeatedly refused to term itself honorary, since new members are elected by vote of the society. The organizations which announced their lists last Saturday, however, are, almost without exception, in no sense honorary. The class societies, at least, are largely organizations for the political perpetuation of certain fraternity groups. No one may aspire to membership unless he is affiliated with one of these groups or with a political ally of one of them.

Most colleges prescribe that students who attain certain campus distinctions are automatically entitled to membership in the class honoraries. Such societies are truly honorary, their members possess the respect of all groups, and their prestige is sufficiently great to enable them to direct campus affairs. It is unfortunate that similar conditions should be impossible at Vermont.

This is our little ad for the Junior Week play. From all appearances, he who misses the performance of the University Players will ever afterwards be beset by the "I-told-you-so's" of the happy ones that went.

In spite of constant befogging of the issue, the fact remains that the late St. Lawrence University strike arose from faculty intervention in a certain student activity; which once again demonstrates the dangers of student resentment when the faculty assumes authority—even by the passage of innocuous-appearing rules—over student organizations or other extra-curricular interests.

Incidentally, the St. Lawrence strike, which affected only extra-curricular activities, is the keenest demonstration we have yet had of their importance in modern college life.

The St. Lawrence students, who demanded finally only the relaxation of certain social regulations, seriously weakened their case by abandoning the original issue. It was also a mistake to alienate sympathy by calling off athletic contests with teams scheduled to play at St. Lawrence.

Intercollegiate journalism must have attained something of a record when the VERMONT CYNIC reprinted an article from the *North Carolina Tar Heel*, prepared by the *Princetonian* and republished through the courtesy of the *Daily Nebraskan*.

The late *Ariel* election demonstrated how a single well-organized combine can sweep the ground from under the feet of all other groups. Such procedure penalizes those students who refuse to involve themselves in the intrigues of fraternity politics. Once again we propose open, publicly-recognized political parties and the removal of the *Ariel* from politics.

Mr. Stone's address on Founder's Day was in every way gratifying to those who had the privilege of hearing him. His reputation as an orator has been well earned.

Three hundred Washington and Lee frosh, clad only in pajamas, recently crashed a local theater after a pep rally.

DELTA DELTA DELTA

Installation of the following officers took place at the meeting, May 6: President, Roberta Powers, '32; vice-president, Helen Cunningham, '32; treasurer, Elizabeth Smith, '32; recording secretary, Crystal Lawes, '32; corresponding secretary, Dorothy Sweeney, '32; chaplain, Louise Manson, '32; marshal, Cherolyn Barber, '32; and rushing captain, Vivian Hubbard, '32.

ALPHA XI DELTA

A victrola dance will be held at the rooms tomorrow evening, May 9. Mr. and Mrs. L. S. Hartwell will chaperone.

SIGMA GAMMA

Elizabeth Brown, '29 was in town over the week-end.

KAPPA DELTA

The active chapter is holding a rummage sale at the Star Hose House on North Street this afternoon.

Tomorrow, May 9, the following girls will be initiated: Betty Paige, '32, Anna Greene, '34, and Elinor Bean, '34.

Dorothy Davis, '34, will be the pledge representative of the local chapter at the National Convention to be held in Washington, D. C. during July. She will be initiated at the convention.

EPSILON SIGMA

The active chapter will hold a formal banquet at Hotel Sherwood, Tuesday evening, May 12.

Bits of Bunk

Judge: Who was driving when your car hit this pedestrian?

Drunk (triumphantly): None of us; we was all on the back seat.

She Geologist: Oh, isn't the lake lovely tonight? Just think it's been there thousands of years! And the rugged shore—it's beautiful!

He Geologist: Come now, let's not talk shop.—*Purple Parrot.*

Senior Femme: I could die waltzing.

Ditto Male: Excuse me while I speak to the orchestra leader.

Our plumber is a Swedish chap
With muddy shoes and vacant map,
– Extremely unbecoming;
I watch him putter round the drains;
And think, "That fellow has no brains
For anything but plumbing.

"He has, it's true, a skillful touch,—
In fixing leaky pipes and such,
He is accomplished, very,
But books are quite beyond his ken"
(I muse) "He has no vital yen
For matters literary."

I ask him then, "What do you do
When times are hard and jobs are few,
Olaf—you walk the streets?"
"Nah!" he replies, "When no work come
I bane do nodding, joost stay home,—
Home wit' my Wife and Keats."

Ah, then I swelled to think that he
Should turn to lyric poetry
To soothe his worldly scars;
I shook his hand, and shed a tear!
I stood him to a mug of beer
And slipped him five cigars.

The Interlocking Grip

Love, it seems, on close inspection,
Is lots like golf—a spring infection.
A crowded course each afternoon,
A crowded car beneath the moon.
We drive and dub at golf each day.
Then drive and love our nights away.
We practice each sport more and more,
Hoping to improve our score.

It makes no difference where you are,
What kind of course, what brand of car;
In fairway, rough, sedan or coach,
A heap depends upon approach.
Success will come your way if you
Will only learn to follow through.
You never need to fear the rough,
If all your lies are good enough.—
Montana Huddle.

Prof.: How many times have I asked you to try and get to classes on time?

Wally Dow: I don't know, I thought that you were keeping the score.—*Springfield Hurdle.*

Intercollegiate News

Springfield College [illegible] the B.S. will hereafter [illegible] degree. Language [illegible] the B.S. have been [illegible] more laboratory work [illegible] education substituted [illegible] taken in order to keep [illegible] trend in modern education.

At the University of [illegible] undergraduates can be [illegible] being called on in class [illegible] with professors. Should a [illegible] is insured be called upon [illegible] double his premium.

A recent survey of [illegible] liams College has revealed [illegible] one-sixth of the professors [illegible] served twenty-five years [illegible] *This would seem to [illegible] they are eligible for pa[illegible] Rain*

Sensible Examinations

The National Student [illegible] America in its regular [illegible] this suggestion on the [illegible] amination problem:

Providence, R. I. (NSFA)—A new type of test for [illegible] dents has been suggested [illegible] H. E. Smith of Brown [illegible] The new plan calls for [illegible] hensive" examinations by [illegible] ring to text books.

Under the comprehen[illegible] tem, the student goes to [illegible] lege building on a certain [illegible] draws a slip from a box [illegible] he finds indicated a subject [illegible] the field of his knowledge [illegible] must return 24 hours later [illegible] complete lecture written [illegible] subject. It must include [illegible] quate bibliography of all [illegible] that he may select, and [illegible] and personal treatment of [illegible] ject matter.

The topics are chosen [illegible] the task is hopeless for [illegible] dent unless he has skill [illegible] ganization of data, and [illegible] sion of abundant facts. This [illegible] method of taking quizzes [illegible] pected to eliminate the [illegible] strain that is encountered [illegible] ent among students during [illegible] final examination period.

This system is now in [illegible] European universities and [illegible] with wide approval from [illegible] one, students and instructors [illegible] Professor Smith is of the [illegible] that the comprehensive [illegible] tion method would be a boon [illegible] American colleges and he [illegible] recommends its adoption.

The plan at least would [illegible] mium on native intelligence, [illegible] self-reliance, and possibly [illegible] *faire*. It would eliminate [illegible] tressing circumstance in which [illegible] unoffending student is asked [illegible] question which he happens to [illegible] able to answer. Perhaps it would [illegible] inate the other poor unoffending [illegible] dents who study hard but [illegible] can't learn what it's all about. [illegible] last, probably, would be the [illegible] point of objection on the part [illegible] lege administrators. It might [illegible] too many students.—*Small Trojan.*

Americans have been admired [illegible] many things but the latest [illegible] admiration, and even of envy, [illegible] at the University of Amsterdam [illegible] land. At this University, the [illegible] can group is thought to be [illegible] interesting on the campus and [illegible] are envied because they can [illegible] privilege of drinking and [illegible] in conversation after 1 [illegible] official curfew time. And [illegible] might be envied.

Officials at the United States [illegible] Academy were given a [illegible] cident when they received a [illegible] from a disappointed candidate [illegible] trance into Uncle Sam's [illegible] school. He had been rejected [illegible] of low scholastic grades and [illegible] officials that they paid too much [illegible] tention to school work and not [illegible] to athletics. He stated in [illegible] that they couldn't expect [illegible] pound all-round athlete to [illegible] much time for studies."

A publicity stunt that [illegible] was recently attempted at [illegible] versity of Minnesota. The [illegible] man for a play that was being [illegible] there arranged for the police [illegible] a fake raid, supposedly in [illegible] some bottles of "ancient Egyptian" [illegible] which turned out to be only [illegible] pop. Having performed their [illegible] the agreement, the police [illegible] innovation of their own and the [illegible] entire cast to the police station [illegible] they fed the actors bread [illegible] and then sold them all the [illegible] policemen's ball.

A new one was chalked up [illegible] "absent minded professor" [illegible] members of an honorary [illegible] seniors, acted as ushers at the [illegible] founder's program at Syracuse [illegible] versity and seated the honorary [illegible] in the back of the auditorium [illegible] the student body and left [illegible] in the front of the auditorium [illegible] aside for the honored guests.

Tennis Team Returns Monday After Bagging 3 Consecutive Losses

Tufts 5, Vermont 2; Boston University 6, Vermont 1; Worcester Tech 7, Vermont 0

The University of Vermont tennis team returned defeated in all three games. However, as the team was hard hit by a variety of misfortunes, [illegible] was expected Freddy Pepper, Vermont's captain won several matches, and Beer doubling with him, showed up unexpectedly well.

Tufts defeated Vermont [illegible] at Medford Saturday:

Singles

Tupper, U. V. M. defeated MacLaren, 6-0, 6-1; Walker, Tufts, defeated Bisson, 6-0, 6-2; Ingraham, T, d. Woodward, 6-0, 6-1; Howard, T, d. Beer, 6-2, 6-3; Hathaway, T, d. Albert, 4-6, 7-5, 6-3.

Doubles

Tupper and Beer defeated Howard and MacLaren, 8-6, 6-4; Ingraham and Walker d. Woodward and Bisson 6-1, 6-...

Boston University won by a 6-1 score Boston Friday. The summary was:

Singles—

Lombardo, B. U. defeated Tupper 6-... 6-...; Hudson, B. U. defeated Bisson, 6-2, 6-1; Bannister, B. U. d. Woodward, 6-0, 6-1; Whitmore, B. U. d. Beer, 6-1, 6-...; Livingston, B. U. d. Albert, 6-0, 6-1.

Doubles

Whitmore and Bannister d. Tupper and Beer, 9-8, 4-6, 7-5; Woodward and Bisson d. Lombard and Fernandez, 6-2, 3-6, 6-1.

Worcester Tech defeated the U. V. M. boys, 7-0, at Worcester on Thursday in the opening engagement for both teams. Only one match went to an extra set. R. Cousins and E. Collins of Worcester Tech defeating Tupper and Beer of Vermont, 7-5, 4-6, 8-6.

That is Life

(A tragedy after the manner of Edgar Allen Poe)

It was "Prom" night. The dancing had been simply divine. The *Collegian* had come out and not a copy had been sold. There had been just enough stinger in the punch to put the chaperons to sleep. And now, now the loveliest girl in the world was walking beside him down the shaded walk while in the dim distance the faint sounds of music and revelry added enchantment to the situation.

"The dew fell in showers from the passion flowers
And the blush rose bent on her stalk."

Everything was perfect. Darling!" he whispered leaning closer. Suddenly she drew back with a little gasp. What was wrong? Had he not, perhaps, tied his cravat a la mode? Had he, perhaps, B.O. or H-l-t-sis? Maybe the fraternity brothers had not, after all, told him everything a young boy should know.

Just then a ray of moonlight fell on the face of the sweet young thing at his side. Good h-v-ns! Too late the horror stricken young man realized the awful truth. It was his *own* Prom" girl!" —*Mass Pentroon*

In a recent slumber contest held between 140 Colgate students and 136 Skidmore girls, the fair co-eds won in a sleepaway. The fair sex attributed their success to a rich carbo-hydrate diet. Evidently popularity isn't measured by the waist line at Skidmore.

A recent survey conducted at Southern Methodist University shows that it costs 58 cents to cut a class and that more than half a million dollars has been wasted by students in this manner since the inauguration of the university sixteen years ago.

Delta Psi 6, Kappa Sigma 3

In the opening game of the second round of League I on Tuesday afternoon, Delta Psi eked out eight to seven runs to edge a close game by the Kappa Sigs by a 6-3 score. The game was one of the best played in the series so far. Talbert for the winners kept up his fine work by fanning his opponents to three hits and retiring nine by the strikeout route. Corbin led the victors at bat with three runs to his credit while Newcomb the losing hurler had the longest hit of the game when he poked out a triple with one on in the fourth inning.

Delta Psi	0	2	0	0	3	6
Kappa Sigma	0	0	1	2	0	3

Batteries: Delta Psi Talbert and Reed; LeWitt, Kappa Sigma Newcomb and Herd.

Sigma Nu Wins

Monday afternoon Sigma Nu defeated Sigma Delta by a 13-6 score on the latter's campus diamond. The game proved to be a comedy of errors and all attempts to record them were abandoned by the official scorer Kennedy after the first inning. Both pitchers for the winners St. Denis and Benway hurled good ball as did Kibby for the losers, but the winners backed up their pitchers somewhat better by steadier fielding and daring base running especially on the part of Bedell. The feature play of the game occurred in the third inning when three men scored for Sigma Nu on [illegible] Dana infield roller and when the dust had cleared away he was found to be resting safely and securely on second base.

CIVIL AND MILITARY TAILORS FOR 31 YEARS

Review Shows One-third of Men Students in Extra-Curricula Work

Varsity Athletic Sports Claim Most of Men's Time, With Debating and Editorial Work on the Cynic a Close Second

[illegible] Professor [illegible] and A. M. Redfern '31 heads and manager of baseball stated that prospects for the baseball team this year look very good. The team [illegible] practice the team should improve greatly as there are seven veterans returning from last year's team. The tennis team started its Easting trip [illegible] April 30 at Worcester Boston University May 1 at Boston and Tufts College May 2 at Medford.

In reviewing the work of the men's varsity debating team Coach M. D. Powers declared that

"This season has been the most successful in the history of the University of Vermont. A most extensive schedule has been carried out with good results from a standpoint of winning contests and advertising the University to the thirty interscholastic debates played on our school list.

Varsity debates were held in six states with teams coming from each. The delegates are the State of Florida and the Dominion of Canada.

Prom Car Regulations

Driving permission for the Junior Prom week-end begins Thursday noon and ends Sunday noon. Students having permission will not be allowed to drive outside of the city after 7.00 p.m. Only upperclassmen who have girls and have signed up at the Dean's office, and have been approved by the Junior Prom Committee will be allowed to drive cars.

Cheer up, Vermont men, this is only at Amherst!

NOTICE

The Cynic would greatly appreciate the immediate return of the two typewriters which were recently borrowed from the office.

There will be a hike to Red Rocks Sunday afternoon, May 10 under the direction of the Y. W. C. A. All those who wish to go will meet in front of the University gymnasium at 2.30.

The Senior Canes have arrived and may be secured at Hayes and Carney.

WANTED

Sophomore scrubs for Wig and Buskin. Report to J. W. Marvin at the Delta Psi House.

LOST

From the shelves of the Billings Library: Encyclopedia Americana, Volumes 4 and 23. International Encyclopedia, Volume 5. Stevenson—Home book of verse, 6th edition. Stevenson—Home book of modern verse.

Anyone knowing the whereabouts of these volumes will please return them to the Library immediately as they are much needed. They are expensive books and in the case of the Encyclopedia it is absolutely impossible to replace separate volumes.

Helen B. Shattuck,
Librarian.

CANES

The Senior Canes have arrived and must be obtained at Hayes and Carney's Store.

W. E. Craig,
Chairman of the Cane Committee.

WANTED

Men to scrub the assistant editorship of the Freshman Handbook. See Fraser Drew at the Owl House.

Senior reports must be handed in to the English department before May 16 in order to assure eligibility to receive a diploma.

Sigma Phi's Winning stunt on the 1931 Kake Walk

What If—

It isn't often that a college professor calls down one of his students, but when it does happen the student gives him to himself as though the professor was at fault.

On the other hand, football coaches spend much of their time finding fault with their players in a certain manner all their own. What if coaches were professors? It they were, perhaps the classroom dialogue would sound thus:

What's the matter with you bunch of hobos? I want you to put some pep into the recitation this morning. You, re not at any pink tea. All you've done this year is stall around, and I'm one of the guys that won't stand for it see? Yeah, I mean you Porteus and you too Aronov.

There's one thing that I don't like about you Hart and that is you are too d cocky. Can you recite the lines of Shakespeare that I assigned for today? You can't do it? That's about the class work you've been doing all year.

"Hey, you dizzy blonde in the front row, can you come out of the coma and give it? All right, that's not too bad. You're showing better form of late Blondie.

"Wake up, Smith, and tell me where Shakespeare was born. What! Why you half-wit, you dumb cluck, go over to the showers. I mean it, don't stand there with that far-away look in your eyes, git.

"I don't know what you'll do when you meet the semester exams. I can't drill any knowledge through your phony domes. I give up. Get out of here now and don't show up again until you study your lessons."—*The Daily Iowan.*

The V. C. A. held a banquet last Sunday evening at the Wildewood tea room in Charlotte. Plans were discussed for the coming year.

When the candles are out all women are fair.—*Plutarch.*

COUNCIL DECIDES ABOUT PLAN FOR FALL RUSHING

J. W. Marvin, '32, to be President of Interfrat Council

Rushing nights for next fall, and a new system whereby it is hoped that all of the incoming class will visit all of the fraternity houses instead of only a few, were decided upon at the interfraternity council held last Wednesday in the Old Mill Chapel. Dates for the rushing nights were set ahead one day so that the members of the football squad can be in better condition for the game at the end of the week and they come out October 24, 26, 27 and 28. This means that the bids will be given out October 22, and that the bids will appear on Thursday, October 29.

There are to be five open house nights preceding the rushing parties, and under the new system certain groups of freshmen will be assigned to visit certain houses on the first two or three nights, permitting them to go where they want to the last two evenings.

J. W. Marvin, '32, Delta Psi will be president of the council for the coming year due to the fact that the officers automatically rotate among the fraternities represented. The secretary will be a member of Sigma Alpha Epsilon fraternity.

FRATERNITY DANCES TO FURNISH ENTERTAINMENT FOR SOCIALLY ACTIVE

Thirteen fraternity dances will entertain the multitudes of ambitious social and eager fraternity men next week-end in one of the best Junior Week schedules of the history of the University of Vermont.

Delta Psi will hold its Junior Week dance at its home on Summit Street. Music will be furnished by Bostwick's orchestra of St. Albans. Robert Jenks is dance chairman and the chaperones will be Dr. and Mrs. P. K. French and Professor and Mrs. A. L. Crouter.

Kappa Sigma will hold its dance at the house on Pearl Street and music will be furnished by MacDougal's orchestra from Barre.

Joe Minotti's orchestra will play for the Lambda Iota dance, which will be held at the house. W. J. Patton is chairman and the chaperones will be Doctor and Mrs. Lyon and Professor and Mrs. Dean.

Sigma Alpha Epsilon will hold its dance at the house on Summit Street. Chet Hall's orchestra will play and Professor and Mrs. Adams will be chaperones.

Sigma Delta will hold a semi-formal dance at the house and music will be furnished by Roger Albee and his orchestra. R. A. Hyde is chairman and the chaperones will be Professor and Mrs. Tupper and Prof. K. J. Sheldon.

Tau Epsilon Phi will hold its dance at the Country Club. Max Bergman and his orchestra will furnish the music and the chaperones will be Prof. C. L. Stinneford Daniel Rothchild, and Doctor Levin. Bob Maisien is chairman.

Zeta Chi will hold a formal dinner dance at Oak Ledge Manor. Music will be furnished by Camp Grimes and his nine-piece orchestra from Rutland. The chaperones will be Prof. and Mrs. H. G. Millington, Prof. P. H. Ewert, and Miss Frances Frost. Max Valliquette is chairman.

Alpha Tau Omega, Sigma Nu, Sigma Phi Phi Delta Theta, Phi Mu Delta and Phi Sigma Delta are also making plans for their dances which will be held next Saturday night.

JUNIOR PROM CHAIRMEN PROMISE EVENING OF UNPRECEDENTED GAIETY

Presentation of Junior Week Queen to Follow Announcement of Three Most Beautiful Women

Four hours of unprecedented gaiety with dancing on the deck of a fully-rigged patriotic-colored yacht with syncopation from Dan Murphy's Musical Skippers, and the announcement of the three fairest co-eds and the Queen of Junior Week at the University awaits the purchaser of a ticket to the annual formal Junior Prom.

It will be held Friday evening, May 15, at 9 o'clock in the Memorial Auditorium. Tickets are $6.00 and include the price of favors. They are on sale now at the Bookstore. The tables are $1.50.

Committee heads affirm that this Prom will be the most colorful and most enjoyable of any yet held at Vermont. The surprise announcement of the three women voted the most beautiful by two student polls and the judges' announcement and presentation of the Queen of Junior Week will make a delightful evening of dance.

The chaperones have not yet been announced.

The committees in charge of the Prom are: E. L. Meehan, general chairman; Programs: M. B. Morrill, chairman, M. E. Dober, R. A. Livingstone, Edna Herridon, Roberta Powers; Favors: C. L. Morse, chairman, E. J. Fitzgerald, S. Pelofsky, Carolyn Beggs, Olive Fields; Decorations: Paul Westin, chairman, M. Cohen, C. B. Cross, H. W. Davis, C. L. Topping, F. Varrichione, Lois Harrington, Katherine Kingstone, Katrina Munn, Hope Ranslow, Marie Tucker; Music: M. H. Grower, chairman, J. H. Marvin, M. Tomassetti, H. C. Torrey, Christine Bliss; Refreshments: Lillian Mount, chairman, H. L. Varney, E. M. Winant, Alice Brooks, Dorothy Sweeney.

"LADIES NIGHT" HELD AT FACULTY CLUB MEETING

"Ladies Night" was observed by the Faculty Club in its last meeting of the year held at the Klifa Club, Saturday evening, May 9. Ladies night is an annual feature of the Faculty Club meetings.

Governor Wilson spoke on the "Legislative Session of 1931."

Y. W. C. A. sponsored a hike to Red Rocks Sunday afternoon, May 10.

Y. W. C. A. Council meeting was held Monday at 1:30 p.m.

Elizabeth Mandigo, '32, has been elected editor of the Student Union space in the 1935 *Women's Handbook*.

Prof. John T. Metcalf, coach of the Junior Week play.

Skilled Cast to Present To Have the Honor

Roberta Powers and Harvey Butterfield to Lead Entire Cast in Assumpton of Leading Rôles

An unusually fine social comedy will greet the audience attending A. A. Milne's "To Have the Honor" which will be presented under the direction of Prof. J. T. Metcalf by a cast of talented student actors Thursday evening at 8 o'clock at the Strong Theater.

Vouchers are $1.50, $1.00, 75c and 50c, and may be obtained at the Bookstore and exchanged for reserved tickets at the Strong Theater box office.

The leading rôles are being played by Roberta Powers, '32, as *Jennifer*, and Harvey Butterfield, '31, as *Prince Michael*.

The rest of the cast in order of appearance is:

Simon Battersby.....Robert Aiken
Angela.....Dorothy Murphy
Emily Holt.....Elizabeth Eckhard
Robert Holt.....Sam Barker
Mrs. Faithful.....Sylvia Boyd
Imogen.....Dorothy Edwards
Doctor Anstie.....Robert Jenks
Oliver.....Fred Householder

Roberta Powers has had leading rôles in "Holiday" and the Queen's Husband" and is a member of Masque and Sandal, the women's honorary dramatic society.

Butterfield has taken leading parts in "Lady Windemere's Fan," "Adam and Eva," "Dear Brutus," the Queen's Husband and belongs to Wig and Buskin, men's dramatic club.

Aiken, who plays *Mr. Battersby* was played in "Summer Time," "Dear Brutus," "Holiday," the "Queen's Husband."

Dorothy Murphy, '33, has acted in "Many Happy Returns of the Day," the class play.

Elizabeth Eckhard plays *Emily the Maid* and is a member of the University Orchestra.

Sam Barker, as *Captain Holt*, has been active in the Thespian activities. He has taken rôles in "Dear Brutus," "Holiday," and Queen's Husband."

Sylvia Boyd, playing *Mrs. Faithful* has been in the class play "Many Happy Returns of the Day."

Dorotha Edwards, '33, as *Imogen*, has acted in the 1933 class play.

Robert Jenks has played rôles in the "Devil's Disciple" and "Dear Brutus." He plays *Doctor Anstie* in the Junior Week play.

Fred Householder, '32, *Oliver* in "To Have the Honor," played in the "Devil's Disciple," and "Summertime" the year before last.

Hope N. Ranslow, '32, as *Ethel Holt* is a member of Masque and Sandal the women's honorary society.

BREAKFAST ENTERTAINS MORTAR BOARD JUNIORS

The senior members of Mortar Board entertained the newly elected junior members at a breakfast Saturday morning, May 2, at Hotel Vermont private dining room.

There are no Exchange Clubs in Scotland.

Profs. Dean, Lautsch and Ladd Will Meet Ten Most Beautiful Co-eds Wednesday

The ten women [illegible] ... [illegible] ... The judges' board will be composed [illegible] ... Professor Lautsch, and Ladd. [illegible] ... of the board. The other men on the [illegible] ... the committee arranging [illegible] ... the Physical Education Department.

AMERICAN SILK IMPORT KEEPS JAPANESE ALIVE SAYS COLONEL BURNET

Fort Officer Discusses Need for Social Service in Japan

Japan is kept alive by the women of America who gradually [illegible] ... Colonel Burnet at Fort Ethan Allen, speaking on "Present Day Japan," before the International Relations Club last Friday evening.

So dependent are the Japanese people on their silk export that a boycott would otherwise result in a revolution.

Japan's greatest problem, he pointed out, is overpopulation and the only practical and necessary solution advocated by social workers is birth control. Marriage even [illegible] ... civil contract with [illegible] ... arranged by the parents of both bride and groom. This is the only answer to the statement that there is an eight hundred to a million increase annually.

Factory conditions are bad and there is great need for social service. Strife and economic unrest and unemployment are all fertile soil for the seeds of communism.

In a discussion of student life the speaker depicted the terrible physique and the evils of segregation, emphasizing the need for associations between both sexes during all the educational years. The status of woman is such that during her lifetime she knows three obediences: (1) as a girl to her father, (2) as a wife in marriage to her husband, (3) to her eldest son as a widow.

Of particular interest to the audience of faculty members and students was Colonel Burnet's description of the politeness of the Japanese people. Through their dignity and self respect ingrained in the feudal age all Japanese insist upon what is due them. It is of a traditional nature and widely practiced.

The pictorial art lacquer and coloring which was highly developed in the peninsula is now practically a lost art.

The clothing of the women at home will doubtless remain the double ward robe with kimonos being worn for reading and eating. It is by reason of its comfort and looseness adapted to the houses of Japan.

Police officers play a high position in the life of the time and are held in reverent respect, awe and devotion.

The people are stolid converts to the Christian faith but, on the other hand, are extremely reticent and express few of their emotional reactions.

PROF. DYKHUIZEN NOW HONORARY MEMBER OF NAT. CLASSICAL SOCIETY

Professor Dykhuizen, of the psychology department, was elected an honorary member of Eta Sigma Phi, at its meeting Tuesday evening, May 12, held in 34 South College.

There was also held the regular business meeting at which a committee was appointed to nominate officers for the [illegible] ... will be elected at the [illegible] ... meeting, May 19.

The second part of Aristophanes' comedy, "The Clouds" was presented by members of the society. Those taking part were Herrick Macomber, Chester Bush, Charles Knapp, Fraser Drew, and Leah Green.

Charles Knapp, delegate to the national convention at Cincinnati, read his report of the convention at the regular business meeting.

Prof. E. Y. Lindsey, of the Latin department, spoke on "Plautus."

Prof. [illegible] ... Mr. [illegible] ... Hour Play.

JUNIOR WEEK PEERADE WILL BE LONG, UNIQUE

Twenty-Eight Organizations Will Try for Dramatic Societies' Cups

Twenty-eight fraternities, sororities and dormitories will enter floats in the Junior Week Peerade which transpires tomorrow afternoon as advertisement of the Junior Week play, "To Have the Honor."

The artistic contraptions will start from the Ira Allen Chapel, will proceed over University Place to Main Street down Main Street to Church Street, up Church Street to Pearl Street down Pearl Street to St. Paul Street down St. Paul Street to College Street and up College Street to the Campus again.

This procession is to be preceded by the R. O. T. C. band under the leadership of Joseph P. Lechnyr.

The judges of the parade will be Honorable Mayor Jackson of the City of Burlington, Mrs. Isabelle Mills head of the University art department, Prof. P. H. Ewert of the psychology department and Prof. P. H. Evans head of the history department.

Last year the winners in the peerade were Sigma Alpha Epsilon and Kappa Alpha Theta for the men's and women's fraternity entries respectively.

The cups given are three in number and are awarded by Wig and Buskin men's honorary dramatic society and Mask and Sandal, women's honorary dramatic society. One each will go to the fraternity, sorority and dormitory entering the best float.

The order of places in peerade is as follows:

1 [illegible] Theta 2 Wade Hall 3 Kappa Kappa Gamma 4 Kappa Alpha Theta 5 Alpha Chi Omega 6 Kappa Sigma 7 Delta Psi 8 Red Cross 9 Ruggles Hall 10 Sigma N... 11 Robinson Hall 12 Gressmount 13 Lambda Iota 14 Pi Beta Phi 15 Zeta Chi 16 Alpha Xi Delta 17 Sigma Phi 18 Pond House 19 Sigma Alpha Epsilon 20 Delta Delta Delta 21 Campus House 22 Tau Epsilon Phi 23 Sigma Delta 24 [illegible] Gamma 25 Allen House 26 Phi Sigma Delta 27. Kappa Delta 28. Phi Mu Delta.

SCABBARD AND BLADE TAKES EIGHT SENIORS

Eight seniors in the advanced course of the R. O. T. C. were initiated into scabbard and blade military society. They are H. H. Barker, C. K. Bush, P. F. Evans, H. W. Davis, A. O. Eaton, F. J. Mercier, D. K. Parker and P. R. Westin.

Mrs. Charles P. Jones of the Boston University Institute of Homemaking tells us that the college girl of today needs at least a pint of milk a day to do her work properly. She didn't specify just what kind of milk.

TO HAVE THE HONOR!

[illegible] attraction of Junior Week takes place Thursday evening when "To Have the Honor" will be in the saddle. If an excellent cast [illegible] an excellent audience, then the Strong Theatre will be packed to the rafters.

Coached by Professor Metcalf, the *dramatis personae* have acquired a certain technique and polish which augurs well for a highly commendable performance. However, we do not forget that it is from an appreciative audience that our young Thespians will draw their chief inspiration. Notwithstanding other attractive features of Junior Week we are not unmindful of the enjoyable and worth-while play which is an integral part of Junior Week activities.

Visitors will do well to consider the cast, noting especially that it will be the concluding appearance as seniors for several of the versatile members. It is an interesting fact that whenever a well-balanced cast appears together, a smoothness or emergent quality appears which adheres to the cast as a whole. Yet it is not unfair to single out individuals who have year-in and year-out contributed to the dramatic reputation of the University.

We regret the departure from our undergraduate dramatic activities of Robert Aikens, '31. In numerous plays "Bob" has time and again showed the versatility of his talent. As *Simon Battersby*, Thursday evening he will undoubtedly have opportunity to be at his best.

Harvey Butterfield, '31 is another accomplished and talented member of "To Have the Honor" who will graduate this June. As *Prince Michael*, a difficult rôle demanding the highest of his ability in the interpretation of his character's mood, Harvey is bringing to a close a brilliant series of successful rôles in undergraduate dramatics.

Of other important rôles in "To Have the Honor;" that of Dorothy Murphy as *Angela*, that of Roberta Powers as *Jennifer;* that of Dorotha Edwards as *Imogen* deserve to be singled out. We feel that students who have given their time and talent so willingly should especially be encouraged in such worth-while activities.

And it would be an injustice not to mention Hope Ranslow and Sam Barker in their respective roles as *Lethe* and *Robert Holt*. They will undoubtedly be fully appreciated in their excellent interpretations of minor characters. Fred Householder as *Oliver;* Sylvia Boyd as *Mrs. Faithful;* Elizabeth Eckhard as *Emily;* and Robert Jenks as *Justice Jinnie* complete the excellent Junior Week cast of "To Have the Honor."

And now we must give due honor to the one who so coaches undergraduate players that his skill is a by-word, his name inspires confidence, and his casts are always examples of dramatic genius.

We bestow our unqualified admiration on the faculty member who Thursday evening will present as his casts and his own contribution to Junior Week activities—A. A. Milne"s three-act play "To Have the Honor."

All Honor to Prof. John T. Metcalf!
All Honor to his excellent cast!
All Honor to the appreciative audience!

IN THE GOOD OLD DAYS

Two new baseball nines have been organized in the U V M sophomore class, the La-Las and the La-Las, consisting of men who have never played ball before. They will play a series of championship games shortly and baseball enthusiasts would do well to be present and enjoy a treat. The La-Las are W. H. Burt, C. S. VanPatten, Carlton Howe, P. P. Johnson, L. C. Dodds, A. F. Lowell, R. W. Taft, H. H. Walker, Wm. Russell, while the La-Las pan out thus: W. B. Leavens, John Torrey, Clifton Howe, S. W. Hamilton, C. E. Noyes, R. C. Wilson, W. T. Mott, E. N. Lovewell and F. H. Larrabee.

"Your husband is a poor sailor, isn't he?" asked the kind old lady passenger.

"I'll have you know," retorted Mrs. Goldenbuck haughtily, "that my husband is a rich banker!"

ALPHA XI DELTA

Upsilon of Alpha Xi Delta announces the pledging of Frances Thomas, '33, of Jeffersonville and Helen Crandall, '33, of Essex Junction on Saturday, May 9.

A victrola dance was held at the rooms on Saturday, May 9.

KAPPA ALPHA THETA

Kappa Alpha Theta announces the initiation of Marion Fairbanks, '33, of Brattleboro on Thursday, May 7 at the chapter house. After the ceremonies, dinner was served at the Golden Pheasant.

DELTA DELTA DELTA

The junior class gave a party in honor of the seniors after the regular meeting on Wednesday, May 6.

The following officers were installed for the ensuing year: President, Roberta Powers, '32; vice-president, Helen Cunningham, '32; secretary, Crystal Lawes, '32; chaplain, Louise Manson, '32; treasurer, Betty Smith, '32; marshal, Cherolyn Barber, '32.

KAPPA DELTA

Alpha Theta of Kappa Delta announces the initiation on Saturday, May 9, of Anna Green, '34, of North Pomfret; Ellinor Bean, '34, of Brooklyn, N. Y., and Betty Page, '32, of Hinesburg. The initiation banquet was held Saturday evening at the Hotel Vermont Roof Garden with Alice Crowe as toastmistress. The patronesses and following alumnae were present: Helen Lynch, '28; Irene Marcotte, '30; Doris Duprat, '30; Alice Wright, '26; Kathryn Wright, '28; Helen Allbee, '30; Rosena Allen, '30; Fannie Pierce, '24.

Alpha Theta of Kappa Delta announces the pledging of Mabel Farquhar, '34, of Bethel, and Geneva Wilcox, '34, of Randolph Center on Saturday afternoon, May 9.

Our Edison Test

Q. On what does the erg thrive and for what are its horns used?

Q. Define plumber, kilowatt and penguin and show why there is little difference.

Q. Why are n. s. e's.?

Q. Suppose you were marooned on a desert isle with no weapons when nine asymptotes suddenly pounced upon you. Would you

1. Vanquish them by the four peg method?
2. Derive the equation for the sub-tangent to a circle,
   A (Eh+2Eh'+3Eh"+4Eh"')

   4.27
3. Nonchalantly light a butt?

—*R. P. I.*

THE MUSE CONVERSES

For the Fair

Clothes again! Another prize for one of the three most fair at our halls of learning. This time it's an afternoon costume from the Fashion Shop. The other two you know are an evening costume and a sports dress from Abernethy's and Currier's respectively. Boy ain't that something! Above all there is a beautiful mug that will be presented to the winner by Bero's.

Maybe you've noticed the difference in the appearance of our fair sisters since this contest started. But how could you help noticing it. Sitting around the "Sci" steps; the library steps; the Old Mill staircase you couldn't help noticing the pastel shades of the dresses, the suntan complexion, the kissproof lipstick, the blond, brunette, or titian haired armfuls that have been infesting our campus lately. Infesting is hardly the the word -rather gracing, we should say.

Said we to the friend t'other day, "Say is it not too bad that we had to wait all winter to see the butterflys unwind from their cocoons!" Get his reply. It's the answer to a puzzling question.

"Well, I don't know. Some people think it's spring fever that keeps us from studying. But I think it is the spring co-eds that keep us from studying. After all you don't much think of investigating the country side with your fraternity brother these warm, balmy evenings, swinging down the lane holding hands (they still do that) stopping every now and then to look at the stars, wondering if the moon could possibly be made of green cheese—then gazing into each others eyes—wondering if perhaps acquaintances couldn't be more than friends—Oh, well what's the use—butterflys should remain worms."

All of which leads us to the theory that the girl the fellow voted for in the contest is the girl the fellow would most like to roam the country side with. But don't get swell headed girls. It happens every spring and it isn't your fault. It's just emergent evolution. Furthermore we refuse to tell the name of the co-ed who got our vote.

By the time you read this the three highest will be announced. May we offer our congratulations? May we also say that is a most enjoyable affair and freer from all politics than any contest has been in the past. Which just goes to prove our contention that the student body can be interested in something wholeheartedly and unselfishly.

Auf wiedersehen im ¾ takt.

S. Z. P.

A very emphatic "NO" was received in reply to inquiries made to students at Baylor University as to whether or not they would marry a co-ed. Among the reasons given for their answers were: "A co-ed is too expensive" and she "gadded" about too much.

At the University of North Carolina, when a student cuts a class he is fined fifty cents. We know some professors who would gladly give fifty cents to have some students stay away.

Author's Arena

The Waltz

A mid-winter night's dance. The college gym and replete with light and hours of unabated [illegible] passed. The chairs are have been empty, save for where the chaperones Now there is a brief hesitation ers move willingly toward Somewhat apart sit HE: SHE, trying to regain [illegible] piration; HE, nervously forehead. Then, soon starts up.

She: Bunny, it's a first one this evening miss a step of it!...No can sit out the *next* dance you. Please...you have rest of them from now ...Hurry!....Forgotten Don't be silly....There like your own good self.

Isn't it wonderful Bunny der why they don't play waltzes at our dances Mother says....they were ....in her day. Think people are missing some having more of the waltzes...I wonder whether right....just a little the waltz rests me. I night....and not get tired .....There's a certain thing it....that leaves me with ....a sense of harmony ....when I'm through. say I get that often.... trot....much as I like the

Bunny, you're doing

He: Not so bad, at that

She: Do you remember noon at Eagles Mere two ....when they brought Ted to the conference....what about dancing....the kind ....And then, the way he his dances....out under the He said that he had into one of his public dancing rather blue....almost times....and that he always of them....better....that something in dancing....of the kind....that did that son....

He: Yeah, but he wasn't about waltzing, then.

She: No....but he wasn't about fox-trotting....either might have been talking about ing....as far as I am concerned What he said....*could* be said think....about the waltz

He: It's the change, that's the difference....The waltz is ....that's why it....gives you a of rest....You'd soon get tired it....

She: Maybe....Yet, there's ference....Waltzing isn't jazz know....and....Walter Damrosch ....one night on the radio jazz....appeals to the senses ....the other kind....of music appeals to....the soul....

He: Wherever that is—

collegiate Periscope.

... summary:

...: Tarbox, Teachers, d. Wood... 6-3; Levinstein, Teachers, d. ... 6-3, 6-0; Chmielewski, Teach... Beer, 6-4, 6-3; and Tupper, Ver... Sroka, 6-0, 6-1.

...les: Tarbox and Levinstein, d. ... and Beer, 6-4, 6-2; Woodward ... sson, d. Saroff and Chmielewski, ...

First Victory for Vermont

... the local courts Friday afternoon ... niversity of Vermont team won ... st victory of the season by de... St. Lawrence University 4 to 3. Vermont won three of the singles ... and broke even in the ... affairs. Tupper played es... well in winning from Adler, ... visitors' ace, after two arduous ... both of which went to deuce, and ... again spectacular in pairing with ... Wheeler, a novice to the net team, to ... their doubles match. Calder ... up strongest for the losers.

... summary:

Singles: Captain Tupper, Vermont, ... Adler, 6-3, 6-0; Woodward, Vermont, ... Edgett, 6-3, 4-6, 6-4; Bisson, Ver... d. Richards, 6-3, 3-6, 6-3; Capt. ... St. Lawrence, d. Wheeler, 6-1, 7-5; and Collins, St. Lawrence, d. Beer, 6-3, 6-1.

Doubles: Tupper and Wheeler, d. Edgett and Adler, 7-5, 9-7; Calder and Richards, d. Woodward and Bisson, 6-2, 6-1.

Chet Rutkowski, who held Middlebury to four scattered hits in the shutout last Thursday.

INDEPENDENTS WALLOP SIGMA PHI TEAM 28-2

By defeating the Sigma Phi's 28-2, Thursday afternoon on the back campus, the Independents advanced to the finals in League I and will meet Delta Psi for the championship of their league.

The game was very loosely played, especially by the losers who had little in the way of competition and the game after the first inning developed into sort of an endurance contest between the Independent batters and the losers outfield, with the former usually coming out ahead.

Griffith, pitching his first game of the season did a very good job, striking out eight men in four innings and allowing but two clean hits. None of the losers pitchers proved to be much of a puzzle to the winners batsmen, who with the aid of the Sigma Phi's fielding enjoyed a field day.

Score by innings:

Innings	1	2	3	4	5—R
Independents	4	8	6	10	x—28
Sigma Phi	0	1	0	1	0—2

Batteries: Independents—Griffith, Zambou and Drown. Sigma Phi—Busch, Thompson, Boyden and Dunn.

COLBY TRACK TEAM OUTPOINTS VERMONT AT CENTENNIAL FIELD

Visitors Win Meet, 99⅓ to 35⅔—Park and Meehan Take First Places for Vermont

CAPTAIN PARK SHATTERS STATE SHOT PUT RECORD

A well balanced Colby College team defeated a lifeless University of Vermont track by the score of 99⅓ to 35⅔ at Centennial Field, Saturday afternoon. Two records were broken in the course of the meet.

Captain Park of Vermont shattered the shot put record, created by Simpson in 1927, by a heave of 42 feet, 4 inches, bettering Simpson's mark by nearly a foot. Sprague of Colby proceeded to break the hammer throw record established by his teammate at Middlebury on Friday. Sprague's throw of 151 feet, 6½ inches, is nearly two feet better than the old Centennial Field record.

The mile run proved very interesting when Bevin of Colby made a last minute spurt to defeat both Brooks and Hadley of U. V. M. The two mile was won when Christie saved a reserve and defeated the tired Hadley.

Meehan of Vermont fought hard for his first place in the pole vault and eventually got it with a vault of 11 feet, 2 inches. He nosed out Treworgy of Colby by two inches. It was a pretty sight to see three Colby men flashing down the stretch with two Vermont men a half step behind them from start to finish.

Robinson was the high point man of the meet, taking first places in the high and broad jump, second in the high hurdles, and third in the shot put. Captain Park led the losers with a first in the shot put and a second in the discus and hammer throws.

The summary:

100-yd dash—Hayde, Colby; Martin, Colby; Flaherty, Colby. Time, 10 3 seconds.

220-yd. dash—Martin, Colby; Hayde, Colby; Wright, U. V. M. Time 23 seconds.

440-yd dash—Williams, Colby; Hodkiewicz, Colby; Huey, U. V. M. Time, 51⅘.

380-yd. run—Caddoo, Colby; Huey, U. V. M.; Brooks, U. V. M. Time, 2:05⅕.

Mile run—Bevin, Colby; Brooks, U. V. M.; Hadley, U. V. M. Time, 4:46.

2 mile—Christie, Colby; Hadley, U. V. M.; Cabana, Colby. Time, 10:27⅕.

220-yd. low hurdles—Wheeler, Colby; Williams, Colby; Cohen, U. V. M. Time, 25⅕.

120-yd. high hurdles—Wheeler, Colby; Robinson, Colby; Phillips, U. V. M. Time, 15⅘.

High jump—Robinson, Colby, 5 ft., 8 in.; tie for second among Kimball, Colby; Glazier, Colby; and Franceschi, U. V. M., 5 ft., 6 in.

Broad jump—Robinson, Colby, 21 ft., 4½ in.; Child, U. V. M., 20 ft., 3 in.; Glazier, Colby, 23 ft., 1 in.

Pole vault—Meehan, U. V. M., 11 ft., 2 in.; Treworgy, Colby, 11 feet; Stinchfield, Colby, 10 ft., 9 in.

Javelin—Treworgy, Colby, 175 ft., 6 in.; Stinchfield, Colby, 159 ft., 7 in.; Williamson, Colby, 153 ft., 9 in.

Discus—Pollard, Colby, 120 ft., 7 in.; Park, U. V. M., 120 ft. 2 in.; Perkins, Colby, 17 ft., 11 in.

Shot put—Park, U. V. M., 42 ft., 4 in.; Pollard, Colby, 40 ft., 3⅝ in.; Robinson, Colby, 39 ft., 8 in.

The hyphen in the word co-ed is supposed to indicate the distance which is kept between any man and woman on a college campus. It is quite significant therefore that men and women are very chummy at the University of Maryland for they have shortened the word to "Coed."

Cats Score Two Shutouts In State League Games

Rutkowski and Cummings Are Winning Pitchers in Middlebury and St. Michael's Victories, Thursday and Saturday

Behind the fine twirling of Rutkowski the University of Vermont baseball team whitewashed the Middlebury nine at Middlebury Thursday afternoon by the score of [illegible] Up until the top half of Vermont's [illegible] Middlebury batters [illegible] Rutkowski [illegible] a single but [illegible] the trip to [illegible] The other time he rolled weakly to second base, but Murphy let the ball roll between his legs and the slim, tow headed Vermonter landed safely on first.

However, with the exception of Jay the Catamounts had little luck at hitting Stefaniak's offerings and the game might have developed into a great pitchers' battle had it not been for the power of Jay's bat. Both of his home runs went over the right field fence and his third drive missed it by inches.

Chet Rutkowski, who has been on the Vermont sick list for a time was back on the mound and held the Panthers to four scattered hits, two of them by Duke Nelson.

Struck out by Rutkowski 7, Stefaniak 3.
Double plays—Macomber to Pires to Winant; Rutkowski to Macomber to Winant.
Umpire—Hayden, Rutland.

In the second game with St. Michael's, Vermont shut out the rivals 5 to 0, on Centennial Field Saturday afternoon. Charlie Cummings kept the Purple's six hits well scattered and although the Catamounts got the same number they were made to count.

Vermont started its work in Burke in the first inning and pounded out three hits and as many runs before two were out. Dupuis then took the mound and checked the bombardment of the Green and Gold. Cummings, Vermont's portsider, struck out nine men and allowed only one pass.

Again Jay starred for Vermont by leading the team at bat with two hits and a sacrifice. He also made a nice catch of Burke's smash to left center in the fourth inning.

When Vermont came to bat in the first inning Jay led off with a single and Pires walked. Winant beat out a bunt towards Burke, who made a bad peg to first, and the ball rolled away letting Jay score. Cummings hit through the pitcher's box, scoring Pires. Dinniman sent out a long fly to Dupuis and Winant beat the peg in scoring the third run. After walking Baker, Burke was relieved by Dupuis.

WORRELL TO BE 1931 PERMANENT PRESIDENT

Tie in Vote Causes Alumni Representative to be Chosen at Class Day Meeting

[illegible] was elected permanent president of the class of 1931 at a meeting held in Billings chapel last week. The meeting was held for the purpose of electing the permanent class officers rendered necessary by the [illegible] Worrell being elected temporary president. [illegible] was elected permanent secretary-treasurer. The permanent organization of the class was left to the permanent officers with the exception of the election of the alumni representative. The vote for this office resulted in a tie between [illegible] and Worrell. It was decided that the matter should be settled by the class as a whole at the class day meeting. Worrell was a member of the [illegible] basketball team and baseball team. He was also a member of the [illegible] and Beacon. He is a member of Sigma Nu and Beacon. He is a member of the Cynic board of editors and has been on the business staff of the Ariel. He is a member of Kake Walk and has played varsity football for three years.

Edgar R. Wright, who belongs to Pi Beta Phi fraternity, was elected permanent vice-president. He is a member of Hypsilonians and the Dramatic Club and sophomore class secretary and manager athletic editor of the Cynic and the Ariel. Miss Wright has also been on both the hockey and rifle teams.

The treasurer, George R. Brush, is a member of Lambda Iota fraternity and was class president his junior year. He was a member of both Gold Key and Key and Serpent, as well as Phi Sigma Phi and Pi Delta Rho. He has also served as editor-in-chief of the Ariel and as managing editor of the Cynic.

Janice Davis, the woman's secretary, belongs to Alpha Xi Delta sorority, and has been very active among the women's organizations. She is a member of Mortar Board, has served as grand editor of the Ariel Ensemble and Pan Hellenic representative and has been active in several dance committees and Junior Week committees.

R. L. Mayers, who was elected treasurer, is a Sigma Nu man and has been a member of all three of the University's honorary societies. He was business manager of Kake Walk and has played varsity football for the past three seasons.

His marshal, Robert Huey, is also a member of Sigma Nu fraternity. He has served on several committees and has been on both the varsity football and track teams as well as being an advance student in the R. O. T. C.

LIBBY TO BE PRESIDENT GOLD KEY NEXT YEAR

C. J. Libby was elected president of Gold Key, honorary sophomore society, at the initiation banquet held at the Ethan Allen Club last Thursday evening. Other officers chosen are as follows: Vice-president, W. W. Brislin; secretary, R. Powell and treasurer, M. H. Myers. All the officers chosen belong to fraternities.

Libbey was active in junior varsity debating and is a member of the Cynic sports department. He is an S. A. E.

Powell and Booth are [illegible] members of Alpha Tau Omega. Brislin is an assistant news editor of the Cynic.

Myers is on the freshman tennis team and a member of Zeta Chi.

Following the initiation of the new members and election of officers, F. J. Massucco retiring president of the society explained that Gold Key would probably have to make a thorough revision of its constitution as its functions would be entirely different from those of previous years. He stated that the [illegible] would be the entertainment of visiting teams for which a financial allowance will be made from the student activity fee.

The new members are: John L. Buckley, Great Neck, L. I., N. Y.; William Brislin, Rutland; A. H. Cass, Essex Junction; William Colton, Burlington; Thomas Cogswell, Warner, N. H.; Gordon L. Davis, Springfield; Clarence Dobson, East Templeton, Mass.; Clarence Drown, Burlington; Chester Eaton, Worcester, Mass.; William Gilbert, Burlington; Douglass Green, Albany, N. Y.; C. J. Libby, [illegible] Hill, N. Y.; Norman Myers, Burlington; Bernard Mulcahy, Barre; Richard Powell, Island Pond; Herbert Smith, Jamaica Plain, Mass.; Arden Spicer, Essex Junction; William Stetson, New Haven, Conn.; Edward Sylvester, Hanover, Mass.

SEVEN BOULDER NOVITES HEAR THREE LOCAL MEN

President Bailey, Deans [illegible] Knift and Hills, and John L. South [illegible] the Junior Prom spoke [illegible] week.

The incoming officers for next year [illegible] Eaton president, J. W. Marvin [illegible] R. W. Cook secretary [illegible]

[illegible] Markham, G. F. Wright and E. M. [illegible]

DEAN, LAATSCH AND LADD TO JUDGE FAIR CO-EDS

(Continued from page 1)

[illegible] will appear before the judges' [illegible] during chapel hour. Mila Anderson, Ruth Burroughs, Jane Corwin, Janice [illegible], Marjorie Keel, Charlotte Odell, [illegible], Tate, Isabel Torrens, Marie [illegible] and Helen Willard.

The judges will meet together some time before Friday morning and announce the three highest. They will also announce the names of the girls who were named Deans by the women.

In the Crescent at Cornell

. . . as in 42 other leading colleges, there is one *favorite* smoking tobacco

ENGINEERS walking across campus to a lab in Sibley . . . arts students gathered on the porch of Goldwin Smith . . . lawyers on the steps of Boardman. Not much time between classes . . . but enough for a pull on a pipe of good old Edgeworth!

Cornell men know their smoking tobacco. And they're not alone in their choice. Harvard, Yale, Illinois, Michigan, Stanford, Dartmouth, Bowdoin—all report Edgeworth far in the lead. In 42 out of 54 leading colleges and universities Edgeworth is the favorite pipe tobacco.

Cool, slow-burning burleys give this smoke the character that college men like. Try a tin of Edgeworth yourself—pack it into your pipe, light up, and taste the rich natural savor of fine burleys, enhanced by Edgeworth's distinctive eleventh process.

At all tobacco stores—15¢ the tin. Or, for generous free sample, write to Larus & Bro. Co., 105 S. 22d St., Richmond, Va.

EDGEWORTH
SMOKING TOBACCO

Edgeworth is a blend of fine old burleys, with its natural savor enhanced by Edgeworth's distinctive eleventh process. Buy Edgeworth anywhere in two forms—"Ready-Rubbed" and "Plug Slice." All sizes, 15¢ pocket package to pound humidor tin.

FRESHMAN TENNIS TEAM DEFEATS RUTLAND 4-2

Saturday afternoon the University of Vermont freshman tennis team defeated the Rutland High school team on the University courts, 4 to 2, winning three singles and one double matches. The summary: Seeley, (R) [illegible] defeated [illegible] (U. V. M.) 6-0, 2-6, 6-4; Moore, (U. V. M.) defeated Gel[illegible] (R.) 6-4, 6-4; Powell (U. V. M.) defeated Allen, (R.) 6-4, 6-4; Mulcahy, (U. V. M.) defeated Dick, (R.) 6-4, 9-7; Wilson and Myers defeated Seeley and Quigley 6-4, 9-7; Appel and Dick defeated Powell and Mulcahy, 6-4, 6-2.

The frosh team expects to play Rutland in a return match this week and the [illegible] High School June [illegible].

FROSH WOMEN DEFEAT MIDDLEBURY IN DEBATE

The freshman women's debating team defeated the Middlebury College freshman women's team 2 to 1 in a decision debate last Wednesday afternoon at Middlebury. "Resolved that the installment plan of buying is a menace to future prosperity," was the subject for discussion. Vermont upheld the affirmative.

The debaters for Vermont were Ruth Irwin, of Bellows Falls, Rebecca Camp of Morrisville and Helen Cooke of Bennington. The oxford style of debate was used with fifteen minute speeches. The first affirmative speaker Ruth Irwin divided her time ten minutes for constructive argument and five minutes for rebuttal.

The management of women's debating also announced recently that the long awaited freshman-sophomore women's debate for the Carleton cup will be held in a few days.

Dear
Mr., Miss or Mrs.
Try a fresh Cigarette!

THAT LITTLE STING way down in the throat when you inhale a cigarette is caused by parched dry tobacco. You never feel it when you smoke fresh, prime Camels. The Humidor Pack keeps Camels from drying out or going stale. That's why they are always so cool and mild, so throat-easy. Blended from choicest Turkish and mellowest Domestic tobaccos and kept in tip-top prime condition by an air-tight wrapping of moisture-proof Cellophane, Camels are mighty hard to leave once you have tried them. If you don't believe it, switch to Camels for one whole day, then quit them, if you can.

R. J. REYNOLDS TOBACCO CO.
Winston-Salem, N. C.

CAMELS

Smoke a fresh cigarette

Factory-fresh CAMELS are air-sealed in the new Sanitary Package which keeps the dust and germs out and keeps the flavor in.

Council Decrees Voluntary Student Customs

S. S. U. V. M. Sails Tonight With Merrymakers Aboard

Junior Prom, to be Held at Yacht-rigged Auditorium, Starts at 9:00 p.m.—Queen of Junior Week and Two Others to be Announced for Prizes

FOURTEEN FRATERNITIES ENTERTAIN SAT. NIGHT

[illegible] aboard the S. S. U. V. M., which [illegible] evening at 9 into the seas [illegible]ness, with gay Dan Murphy, [illegible] his Musical Skippers, at the [illegible] on deck you will hear an[illegible] Vermont's three fairest co-eds, [illegible] which one will be chosen the [illegible] of Junior Week; you will be [illegible] by the joyous streamers, [illegible] and colorful riggings that [illegible] everywhere above; and you are [illegible] to be desirous of trying out the [illegible] little life-boats that go to com[illegible] the nautical effect.

This year's Junior Prom, heralded [illegible] committee chairmen as one of un[illegible]precedented gaiety, is to be held at [illegible] Memorial Auditorium, which is [illegible]ooked as mentioned. It will be one [illegible] unusual features as this is the first [illegible] in Vermont's long history that a [illegible]eauty queen will reign over the fes[illegible]ivities.

Tickets, costing $5.00, include the [illegible] of the favor; while tables, which [illegible] be reserved are $1.50. The [illegible] chaperones will be Professor and Mrs. Carroll and Professor and Mrs. Evans.

The committees in charge of the [illegible]m are: E. L. Meehan, general chairman. Programs: M. B. Morrill, chairman M. E. Dober, R. A. Livingstone, Edna Herridon, Roberta Powers; Favors: C. L. Morse, chairman, E. J. Fitzgerald, S. Pelofsky, Carolyn Beggs, [illegible] Fields; Decorations: Paul Westin chairman, M. Cohen, C. B. [illegible]ess, H. W. Davis, C. L. Topping, F. [illegible]Carrichione, Lois Harrington, Katherine Kingstone, Katrina Munn, Hope [illegible]anslow, Marie Tucker; Music: M. H. [illegible]Grower, chairman, J. H. Marvin, M. [illegible]Tomassetti, H. C. Torrey, Christine [illegible]ess. Refreshments: Lillian Mount, [illegible]airman, H. L. Varney, E. M. Wi[illegible]ant, Alice Brooks, Dorothy Sweeney.

Fraternity Dances

Fourteen Vermont fraternities will [illegible] dances tomorrow evening, six [illegible] formal, four semi-formal and [illegible]informal.

Sigma Phi holds a formal dance in [illegible]onjunction with an elaborate house [illegible]arty.

The Black Panthers of Middlebury [illegible]play for the dance. Professor and [illegible]rs. L. S. Hartwell will be the chap[illegible]ons for the dance and Mrs. Fritz [illegible]Swedberson and Mrs. P. D. Clark for [illegible] house party.

[illegible]r. and Mrs. Brown and Professor [illegible] Mrs. Dean will chaperone the for[illegible]l dance to be given by the members [illegible] Lambda Iota at their house on [illegible]ond street. The music will be fur[illegible]ed by Bob Minotti's Orchestra.

[illegible]ne Lodge Manor will be the scene [illegible] the formal dinner dance given by [illegible]a Chi. Professor and Mrs. H. G. [illegible]ston, Professor P. E. Ewert and [illegible] Frances M. Frost will act as [illegible]ge ones. Camp Groves and his or[illegible]ra from Rutland will furnish the [illegible]sic.

[illegible]he Epsilon Phi will hold a formal [illegible]ce at the Country Club. The chap[illegible]ons will be Professor and Mrs. [illegible]Stanford and Mr. and Mrs. Frank. [illegible]The music will be furnished by Max [illegible]Berman and his orchestra.

[illegible]he Middleburians will furnish the [illegible]sic for the formal dance to be given [illegible] Psi Mu Delta at the house on Col[illegible]ge street. Professor and Mrs. Met[illegible]alf and Mr. and Mrs. Sinclair will act [illegible] chaperones.

[illegible]Colonel and Mrs. Black, James [illegible] and Miss Mary Murphy will [illegible]haperone Alpha Tau Omega's formal [illegible]ance which will be given at the [illegible] Edward's Orchestra from Mid[illegible]ebury will furnish the music.

[illegible]Delta Psi will give a semi-formal [illegible]ce at the fraternity house on Sum[illegible]er Street. Bostwick's Orchestra of [illegible] Albans will play. The chaperones [illegible]re Dr. and Mrs. P. K. French and [illegible] and Mrs. A. L. E. Crouter.

[illegible]Professor and Mrs. Carpenter, Mr [illegible] and Miss Alice Walbridge will [illegible]haperone the semi-formal dance to be [illegible]en by Phi Sigma Delta at the Van [illegible] Roof Garden. The guests will be [illegible]ertained by the Serenaders of Mid[illegible]ebury.

DELTA PSI LANDSLIDE IS FEATURE OF YEAR'S MILITARY INSPECTION

Bolles, Palmer, Parker, Delta Psi Squad, Company D Win Awards

Delta Psi fraternity starred in drill squad competition, individual drill competition and individual awards at the annual federal inspection held last Tuesday and Wednesday.

Francis A. Bolles, cadet major, received the award for the senior who has shown himself most proficient in military science. The award was a saber, to be presented at graduation by the Military Order of the Loyal Legion, Burlington. George M. Howe, commander of the Military Order of the Loyal Legion, presented the notification of the award in the absence of Colonel Robert McCuen, who had planned to attend but was unable to do so.

Delta Psi Wins Cup

The Reserve Officers' cup given annually by Colonel Robert W. McCuen and local reserve officers to the fraternity squad demonstrating the greatest proficiency in squad drill was awarded to Delta Psi. The members of the winning squad were: L. Palmer, '33, corporal, L. Reed, '33, R. B. Talbert, '33, W. G. MacDonald, '33, J. L. Beckley, '34, S. Pierce, '34; M. L. Powell, '34, R. T. Van Dyke, '34. F. A. Bolles was the squad commander. This is the third consecutive year that Delta Psi has won the cup.

The officers that did the judging of the squads were: Major J. P. Edgerly, instructor of the Vermont National Guard, stationed at Burlington, and M. C. Carleton, second lieutenant, 13th Infantry, Fort Ethan Allen.

Five fraternities entered the competition, namely, Sigma Phi, Sigma Nu, Delta Psi, Phi Mu Delta, Phi Delta Theta. Sigma Phi was placed second and Sigma Nu third. The Vermont Rifles also put on a very excellent exhibition of platoon drill.

Palmer, Parker Star

The cups presented by Scabbard and Blade, one to the freshman and another to the sophomore showing the greater ability and proficiency in the manual of arms, were awarded to L. H. Palmer, sophomore, and M. H. Parker, freshman. The winners were chosen by the elimination method. Captain R. Maynes, president of Scabbard and Blade, made the presentation.

A shield and flag were presented by the Burlington Post, No. 2, to the company which has proved itself to be the most proficient in military matters throughout the year. This was again awarded to Company D. Captain R. W. Worrell has command of this company. The ratings of the company are: D.; A.; C. Professor Butterfield, commander of the Sons of American Revolution, Vermont, presented the award.

Summary

Federal inspection began Tuesday morning at 7:30 when the four companies formed in the cage for an hour of review work of the past year's activities. The companies then formed on the back campus where it passed in review before the inspecting officers, Vermont staff unit, and several guests. Inspection of individuals for uniforms, cleanliness of guns, general appearance and knowledge of parts of rifle immediately followed the review. After the inspection several companies carried on company platoon and section drill. An hour of examination in practical matters completed the forenoon's activities. Inspecting officers were Major R. H. Barrett of Headquarters of the First Corps Area at Boston and Major Jacob E. Bechtold of the 13th Infantry at Fort Ethan Allen. At 1 o'clock the battalion formed for an hour examination of

1932 ARIEL WILL BE OUT SATURDAY

The *Ariel* will be ready Saturday according to a report received here by the editor-in-chief, Raymond Cobb, from the printer, Hammer Smith Kortmeyer and Company of Milwaukee. Work on the *Ariel* has progressed rapidly this year making it possible to get the yearbook out at such an early date.

Copies of the *Ariel* will be attainable at the University Book-store for $4.50. No junior will be allowed his or her copy until they have paid the six dollar fee required from the members of the class of '32.

The make-up of the year's *Ariel* is approximately the same as that of preceding years with the exception of a few new features. Excluding the advertisements the book will contain four hundred and eighteen pages and with the advertisements there will be about four hundred and forty pages.

The opening section of twelve pages was designed by the printer of Hammer Smith Kortmeyer and Company. The next section also twelve pages in length presents familiar campus pictures photographed by the Warren K. Vantine Studio. Following this comes the faculty section, then class sections including their group photographs taken earlier in school year.

In the junior section individual photographs will be much larger than in previous *Ariels*. The Medic section and then the athletic department follow. The latter department has been newly designed.

Contrary to custom women's societies have been consolidated into same sections with the men's societies. Following the above section come in order men's fraternities, women's societies, pictures, Kake Walk, military, snapshots and [illegible]. The book closes with a section of advertisements including many jokes.

Members of the [illegible] board on the men's staff are: Editor-in-chief, R. W. Cobb; associate editor, I. W. Marcus; managing editor, M. H. Flagg; athletic editor, A. A. Marsden; asst. athletic editor, F. Tupper; art editor, A. A. Scharbius; photographic editor, R. Moore; feature editor, P. E. Westin; humor editor, F. W. Householder; Kake Walk editor, A. G. Eaton; grind editor, O. W. Jay; asst. grind editors, H. M. Alpert, P. B. Berger, F. B. Bachl, E. J. Fitzgerald, E. G. Hurlburt, V. A. Kazlauskas, R. W. Masten, C. Rutkowski, H. C. Torrey, H. I. Varney, F. I. Varrichione, H. Whittredge, S. L. Wright.

Business manager, E. G. Wilder; advertising manager, B. Barker; circulation manager, R. S. Lenk; asst. business managers, P. Billings, P. Gorman, E. L. Meehan.

Medic editor, W. S. Hall; asst. Lorraine Austin, F. Crum; C. B. Foster. Of the women's staff, women's editor, Roberta Powers; asst. Marion Berry and Lois Harrington, business manager, Margaret Martin; asst. business manager, Katherine Kingston; photographic editor, Emily Mosher; asst. photographic editor, Elizabeth Mosher; athletic editor, Lillian Mount; asst. athletic editor, Lillian Mount; grind editor, Helen Elizabeth Mandigo; grind editor, Helen Ledgard; art editor, Helen Crockett Hall; asst. grind editor, Verna Carham; asst. grind editor, Virginia Barrier, Mildred Gile, and Dorothy Sweeney.

Faculty-Student Group Votes To Abolish Compulsory Rules

Action Follows Work of Intercollegiate Investigation After Growing Controversy Concerning Position of Freshmen—Sanctions Wearing of Cap and Makes Paddling Illegal

[illegible] of the intercollegiate investigation [illegible] the Faculty-Student Council at the conference of President Davis [illegible] lowing protests from the freshman class against the traditional freshman rules and practices, [illegible] by a committee of Vermont will henceforth be voluntary, [illegible] a list of old customs.

In departure from the time-worn methods of dealing with freshmen, no corporal punishment will henceforth be allowed. The freshman cap will be worn until Founder's Day and [illegible] after which time freshmen [illegible] be recognized by students.

Western, Amherst, Massachusetts, Middlebury, New Hampshire, Bates, Bowdoin, McGill and Williams were visited by the following men: Francis Bolles, '31, Richard Cowles, '31, Fred Householder, '32, Orson Jay, '32, Hugh Matteson, '31, Francis McBride, '31, Stanley Smith, '31, and Paul Weston, '31.

The members of the Faculty-Student Council: Professors Bullard, Carroll, Committee, Grout, Mower, Swift, Miss Cummings, and Dean Whiting; 1931, F. A. Bolles, R. I. Maynes, K. M. Stevenson, Ruth Fields, Jean Wappler; 1932, W. M. Alberti, P. E. Westin, M. B. Morrill, Hope Ranslow, Lillian Mount; 1933, W. C. Perry, Margaret Stimpson; 1934, J. L. Morgan.

Customs of the University

The following are recognized as the student customs of the University of Vermont:

1. *The freshman cap is to be worn until Founder's Day on all days except Sundays and holidays when that is some other freshman is present.*
2. *It is customary for freshmen when walking on College Street to use only the south side.*
3. *Upon meeting the president of the University or the Dean of the [illegible] freshmen should touch their caps.*
4. *A cheery 'Hello' is the customary greeting among freshmen.*
5. *It is the duty of freshmen to learn the Vermont songs and [illegible] upon request at College [illegible] freshmen should not wear [illegible] colors [illegible].*

Suggestions to Freshmen

Freshmen should remember that they are just beginning their College career and entering the student life of the University. They are here to seek knowledge. They should loyally uphold the standards and customs of the University.

Loyal Vermont students attend all smokers, student meetings, and intercollegiate athletic contests held in Burlington as these constitute one phase of College life.

Recommendations

The Faculty-Student Council recommends that:

A. The above customs and suggestions be published in the *Freshman Handbook*.

B. Dean Swift and a senior selected by Boulder explain to the freshmen during the so-called Freshman Week the significance of the customs and that they give such other information concerning their observance as seems proper, this to be a part of the usual address to the freshmen.

C. Personal punishment is not used in the enforcement of University customs.

D. The administration consider a system of council-junior circle.

R. H. Cowles, chairman of the investigation committee, when interviewed concerning the adoption of the new list of freshman customs stated:

"I am entirely pleased and gratified with the careful consideration that the Faculty-Student Council has given to the report of the investigating committee and I am even the more pleased with the recommendations, customs and suggestions that it has finally adopted. It is my hope now that the spirit of co-operation which the council has manifested will result in the [illegible] important procedure, particularly among the colleges that the committee visited upon the recommendations contained and in fact for the perfection of these would be to the best interests of the council. I am

Office of Publication, Free Press Printing Co., Burlington, Vt.

Vol. 49 May 15, 1931 No. 56

[illegible] The new advertising campaign of the prohibition enforcement bureau [illegible] Student Council [illegible] freshman-sophomore relations [illegible] that the Faculty-Student body should lower itself to the level of urging [illegible] which savors of the dishonest. Why does the Faculty-Student Council recommend that the administration consider a system of signed pledges [illegible]? It is a blackmail scheme to compel freshmen [illegible] upperclassmen. By freshmen signing pledges agreeing to [illegible] sophomores, they are signing a death warrant for themselves. In the pledges the Cynic sees an instrument which can at any moment be used against our first year men. The Cynic does not believe for one moment that freshmen next year or [illegible] will tolerate such a blackmailing scheme as the recommended [illegible]. For this reason the Cynic will fight the pledge. The Cynic [illegible] unreservedly and determinantly against any attempt to reduce [illegible] freshman to the moron level.

The pledge is also useless. Professor Bullard declared that "public opinion alone will enforce the rules." With this contention, the Cynic agrees. No system of signed pledges is necessary to enforce the customs that have been laid for next year's frosh.

Gold Key is also useless and why measures were not taken to abolish the society is more than the Cynic can understand. Indeed, the society grew in size instead of vanishing out of sight completely. The campus must still put up with a bunch of men who think they are Campus Czars or Second Napoleons or other high dignitaries. As long as the campus is kept [illegible] the presence of these important [illegible] will prove very annoying. The Cynic would like to remind the [illegible] remembering that Householder, a member of the committee to investigate the freshman-sophomore relations in other colleges, contends that "Gold Key shouldn't exist."

Signed pledges and Gold Key make a wonderful mixture. The [illegible] fancy that schools never a prominent characteristic of the sophomore society, is very likely not to be manifest by this group of self important people next year. In fact, the altruism that some enlightened people see developing in Gold Key might become anyone of a number of other "isms" that might prove very objectionable.

The set of frosh rules that has been drawn up for next year does show that complete information concerning what other colleges are doing will given freshmen is very apt to lead to quite sensible action on the part of the well informed. The Cynic heartily endorses the rule that freshmen be expected to greet Vermont with a cheery Hello. The Cynic realizes, of course that when the freshmen grow up to be upperclassmen that the hard coat of sophistication will prevent them from being so democratic and friendly. But for one year of their career, at least, Vermont men should greet each other, even if it is a hard and fast rule that they should.

That freshmen learn the Vermont songs and yells, and that they attend classes their preparatory assigned seem reasonable enough. But it does seem unnecessary that freshmen should be told to show signs of respect to the President of the University or the Deans of the [illegible] Colleges. The rule requiring them to do so is not entirely out of place however.

The Faculty-Student Council makes a slight error in thinking that "it is customary for freshmen when walking on College Street to use only the south side." This was true only up to this year and before this year, it was only partly true. The Cynic expects that this custom will share the fate of the rest of Vermont time-honored nonsense through disuse. It appears that the Faculty-Student Council does not see the difference between "committee-made customs" and "actual customs"; perhaps it may take another year for the Council to see more clearly along this line.

The crazy rule of all is that the frosh cap or toque is to be "worn until Founder's Day, on all days except Sundays and holidays, when [illegible] some other headgear is worn." The Cynic suspects that this rule is the pet of the Faculty-Student Council. This is the one rule [illegible], which all freshmen will be expected to stumble because freshmen always have. How this rule will keep Gold Key busy! How convenient those pledges will become, if those pledges are adopted! But the Cynic does not worry. Like the rule keeping frosh off the north side of College Street the regulation requiring freshmen to wear caps that can't resist the wind and which will shrink after showers, which do get lost, and toques which freshmen don't buy, will die a natural death. It would seem however that the Faculty-Student Council would have made it easier for the sophomores and Gold Key to save their faces if instead of Founder's Day, the day set for the Cane Rush or the Christmas holidays had been designated as the time limit for wearing the freshman headgear. The Cynic announces that it will not support this rule. It is too ridiculous. But again, the Cynic does not worry. There won't be any rules to speak of next year. The Cynic only asks the student body to consider the fact that Orson Jay and Fred Householder, of the investigating committee, both objected to this rule.

Perhaps the most noteworthy accomplishment of the Faculty-Student Council is its recommendation that "corporal punishment be not used in the enforcement of University customs." The Cynic feels that it is right that freshmen should be treated like men, like true sons of Vermont, not babies. The suggestion of the Faculty-Student Council that paddling be abolished is at once the most desirable and the most significant step that could ever have been taken by such a governing body. And it is only logical that the step taken by the other colleges should be taken here too. The Cynic is certain that the barbaric days of paddling delinquent freshmen are at an end.

The Cynic appreciates the amount of attention which the Faculty-Student Council and its investigation committee have put upon the question of the freshman-sophomore relations. The Cynic acknowledges particularly the fine work of Richard Cowles. The Cynic hopes now that all the efforts of the Council and the investigating committee will not be vitiated by a disinterested student body.

The Cynic cooperates with the Faculty-Student Council only insofar as the Faculty-Student Council is reasonable. The Cynic is certain that the administration and all those concerned in the freshman-sophomore relations will work with the best interests of Vermont at heart.

The Mystic Pen

stray sambics

[illegible]
another poet wouln have said it.
other poets lie and rave
other poets tantalize the eye, the ear
other poets lie in wait to snare emotion
but i'm not that way, my dear.
i'm not a poet and i find it hard to say

when there's something in the way...
it's over now
perhaps i feel relieved
i know that's how we wanted it.
we once believed
in love and brightness and filling little

that's all gone now
the thrill of arms and pulsing heart
so warm and unreserved in trustfulness
gone, all gone.
i'm not a poet but i've sensed your pain
thru all this time.
[illegible]
i'm free, what's my singeing, to you?
your broken heart ..
yes, your broken heart
calls.
sometimes i think we two might try again.
but no—
i might say,
a wife and seven children
are
in the way.

Scrumptious Squelchers for Morbid Movements

It's been a lovely day, hasn't it?
Ans.: Do you *really* think so?

Why haven't you your shoes shined?
Ans: Well, you see, kernell, I'm about to become a father.

I'm sorry, young man, but we'll have to put you on pro.
Ans.: Who cares.

Darling, I love you, I need you, I'd die for you!!
Ans: I'm from Missouri.

Well boys, you did very good wolk today. There are a few pernts that have to be cleared up. But it's very good wolk.

Co-ed Notes

This year the tennis varsity is to be selected in the following way: Those eligible for the varsity, as decided by the judges, will meet the day after the spring rally and play. The judges will be present and select the varsity team at that time.

The constitution of the Athletic Association is undergoing revision.

The tennis tournament will be held tomorrow, May 16, at which time the frosh will play the sophomores and the juniors the seniors.

The following girls are in charge of the Home Management House this week: Janice Davis, '31, Dorothy Emery, '31, Mailla Putnam, '32, Helen LeBaron '32, Helen Crandall, '33, and Dorothy Thomas, '34.

Twelve Women Secure Positions on Secondary School Teaching Staff

Education Department Places Nine in Vermont, Three in Connecticut for 1931-32—One to be Principal—One Research Student at Wellesley

Indicative of the extent of the services of the Department of Education in placing students in the teaching vocation is the fact that twelve senior women have received positions in Vermont and Connecticut high schools as [illegible] teachers of French, [illegible] History, mathematics, and sciences. One will do research work at Wellesley College. All are from the literary scientific, classical and teacher training curricula.

The women: Alberta Berry, Ruth [illegible], Elizabeth Cory, Grace Crofton, Ruth Houghton, Yvonne Hutchins, Erline Littel, Dorothy Nash, Justine Rogers, Winona Spencer, Winifred Stone, Katherine Tracy and [illegible] Willis.

Alberta Berry, Livermore Falls, Me., enrolled in the classical course, will teach French at the Chapman Technical High School, New London, Conn.

Ruth Burroughs, Charlotte, Vt., who is enrolled in the literary scientific curriculum will serve as principal of Shoreham High School, Shoreham, Vt.

Elizabeth Cory, Montclair, N. J., enrolled in the literary scientific course, will teach French, Latin and English at Chapman Technical High School, New London, Conn.

Grace Crofton, Concord, Vt., classical course, will serve on the teaching staff of Littlefield, Conn.

Ruth Houghton, Burlington, Vt., literary scientific, will teach general subjects at Danville, Vt., High School.

Yvonne Hutchins, Benson, Vt., will be at Waitsfield teaching history and English.

Erline Littel, Barre, Vt., teachers' training, will teach history and French at Peacham, Vt.

Dorothy Nash, Concord, N. H., classical, will teach French and Latin at Randolph High School.

Justine Rogers, Shoreham, Vt., teachers' training, enters Wellesley College as a research student.

Winona Spencer, Barre, Vt., literary scientific, will teach French, Latin and English at Jeffersonville, Vt., High School.

Winifred Stone, Winooski, Vt., is to teach French in Winooski High School.

Katherine Tracy, Shelburne, Vt., literary scientific, will teach English and French in Shelburne, Vt. High School.

Pauline Willis, Waterbury, Vt., literary scientific, will teach English at Bristol, Vt., High School.

Smiling kindly at the reporter who was rather shy at asking questions concerning education work, Professor Wallace told him that students desiring teaching positions in Vermont must go through a threefold registry. First, with the Department of Education; second, with the Teachers' Registering Bureau; and, finally, with the State Board of Education at Montpelier.

Professor Wallace reminded the reporter of his "Bulletin" when he asked about student teaching in secondary schools and, following the suggestion, the reporter found that page 132 of the "Catalogue" states that the subject is one where the students are observed and supervised in the junior and senior high schools of Burlington and vicinity. The course is open to a limited number of seniors who successfully complete [illegible] and who can satisfy [illegible] ments.

Following [illegible] Wallace asserted, students given aid and personal [illegible] arranged for them with principals and officials [illegible] obtaining them positions.

The reporter learned [illegible] cation Department fosters [illegible] ties, namely Epsilon Sigma [illegible] silon Tau Alpha, to create the teacher training [illegible]

Epsilon Sigma

This society was organized to promote the general [illegible] teacher training students [illegible] versity of Vermont. Its interests are scholarship, [illegible] social activities and [illegible] aims to assist new students [illegible] up their work and encourage their endeavors. Members [illegible] faculty are interested in the [illegible] ment of this organization [illegible] in its activities. Members [illegible] invitation and is conditioned [illegible] proficiency in scholarship [illegible] personal qualities.

Upsilon Tau Alpha

Upsilon Tau Alpha is a [illegible] society organized during the [illegible] 1925. Membership is open [illegible] dents in the department [illegible] object of the society is to develop spirit of service among [illegible] teachers. The society [illegible] fosters high standards of [illegible] a true professional attitude [illegible] social welfare of its members.

KAPPA ALPHA THETA

Dorothy Strong, '29, spent the [illegible] end at the Theta House.

Marion Fairbanks, '33, of [illegible] boro, was initiated Thursday [illegible]

ALPHA XI DELTA

Frances Thomas, '33, of [illegible] ville, Helen Crandall, '33, [illegible] Junction and Helen Robert[illegible] Burlington were pledged [illegible] May 9.

A victrola dance was [illegible] rooms Saturday night, May [illegible]

ALPHA CHI OMEGA

A tea was held in honor [illegible] Hagar, as new patroness, [illegible] afternoon, May 10, at the [illegible] house.

SIGMA GAMMA

Senator Consuelo Northrop moved her office from the [illegible] County Court House to [illegible] Street.

Ruby Blaine, '27, Elizabeth [illegible] '29, and Lucene Little, [illegible] town over the week-end.

KAPPA DELTA

Elinor Beane, '34, of [illegible] Y., Anna Greene, '34, of [illegible] fret, and Elizabeth Page, [illegible] burg were initiated Saturday [illegible] noon, May 9. Following the [illegible] Mabel Farquhar, '34, of [illegible] Geneva Wilcox, '34, of Rut[illegible] ter were pledged.

Alice Crowe was toastmistress [illegible] the banquet held at the [illegible] mont Roof Garden at 6 [illegible] present were Helen Allen [illegible] Allen, Katherine Wright, [illegible] las, Fannie Pierce, Betty [illegible] Alice Wright.

EPSILON SIGMA

A formal banquet was held [illegible] Hotel Sherwood Roof Garden [illegible] May 12, with Martha [illegible] toastmistress.

Mrs. Guy Birchard, [illegible] trude Bump, '28, were [illegible] cently.

A rummage sale was held [illegible] Star Hose House Saturday [illegible]

K. E. L.

The final business meeting [illegible] year was held Sunday, May [illegible] home of Gertrude Levin. [illegible] lowing officers were elected [illegible] stalled: President, Esther [illegible] '33; secretary, Ida Saine[illegible] urer, Augusta Cohen, '34.

FRESHMAN TRACK TEAM BEATS BURLINGTON HIGH BY SCORE OF 70 2-3–46 1-3

Kittens Capture Nine First Places to Losers' Four—Are Superior in Field Events

By a score of 70⅔ to 46⅓ the University of Vermont freshmen defeated Burlington High School in the track meet at Centennial Field Tuesday afternoon In the 13 events the frosh captured nine first places to the losers' four but the high school team gave the victors a close run.

Daigle was the meet's high point scorer with two firsts and a second in field events, while Smith also of the frosh, and Connor of Burlington, were next. Ken Smith made the 100-yard dash in 10.2 seconds but showed better class in the 220 which he covered in 24 flat ten yards ahead of his nearest competitor.

The meet was close until the field events started and it was in this phase that the Kittens showed their superiority. The track was very soft from the recent rains.

The summary:

100-yard dash—Won by Smith, V.; Lamson, B.; Busch, V. Time, 10.2 seconds.

220-yard dash Won by Smith, V.; Lamson, B.; Merriam, B. Time, 24 seconds

440-yard dash- Won by Delfausse, V.; Heath, B.; Wesoly, V. Time, 55 seconds.

880-yard run—Won by Woodruff, V.; Heath, B.; Williams, B. Time, two minutes, 22⅕ seconds.

Mile run Won by Woodruff, V.; Mitchell, B.; Harwood, V. Time, four minutes, 57 seconds.

120-yard high hurdles—Won by Connor, B.; Walters, V.; Heath, B. Time, 17.4 seconds.

220-yard low hurdles—Won by Connor, B.; Walters, V.; Dodds, B. Time, 30 seconds.

Broad jump—Won by Drown, V.; Delfausse, V.; Wesoly, V. Distance, 19 feet, 5 inches.

High jump—Won by Busch, V.; tie for second among Boynton, B.; Adams, V.; and Delfausse, V.

Pole vault—Won by Cleveland, B.; Adams, V.; Myers, B. Nine feet, 6 inches.

Shot put—Won by Daigle, V.; White, V.; Washburn, B. Distance, 42 feet, 5½ inches.

Discus—Won by Daigle, V.; Washburn, B.; White, V. Distance, 102 feet.

Javelin—Won by Washburn, B.; Daigle, V.; Dodds, B. Distance, 128 feet.

The division of points:

	Freshmen	Burlington
High hurdles ...	3	6
Mile run	6	3
100-yard dash...	6	3
440-yard dash....	6	3
Pole vault	3	6
Low hurdles.....	3	6
High jump	7⅔	1⅓
Shot put	8	1
Discus	6	3
Javelin	3	6
220-yard dash ...	5	4
880-yard run	5	4
Broad jump	9	0
Totals	70⅔	46⅓

Vermont Nine Rallies to Defeat Dartmouth By Score of 8 to 5

Cats, Trailing 5 to 4, Tally Four Times in Eighth, Driving Thompson Out of Box

RUTKOWSKI IS PITCHER IN CATAMOUNT VICTORY

Overcoming a 5 to 4 disadvantage by staging a four-run rally in the eighth inning, the fighting Catamounts with Chet Rutkowski in the box, set Dartmouth's league-leading team down by an 8 to 5 count, at Hanover Tuesday afternoon In so doing the Green and Gold team extended its winning streak to four straight and broke the Big Green string of consecutive victories which had reached eight

The Indians made a rather auspicious start by scoring three times in the initial inning and once in the second to secure a 4 to 0 advantage. Vermont came back strong in the fourth, when Way Thompson, Dartmouth's starting hurler, was touched for four runs by virtue of two hits, three walks, an error and a passed ball. The Big Green came back in the sixth for one run, due to two singles and a fielder's choice.

Going into the eighth with a one-run deficit, Chet Rutkowski flied out to Harvey in deep center field. Dinniman connected for a single, but Baker, next up, forced him at second. Stroh walked Bob Macomber, a most timely hitter for the Green and Gold this season, singled over second, scoring Baker with the tying run. Tom Collins singled between second and third, scoring Stroh with what proved to be the winning run At this point Jeff Tesreau, the Indians' coach, yanked Thompson, and injected Art Boisseau, the sensational sophomore hurler, who has turned in consecutive shut-outs over Yale and Harvard. "Orrie" Jay, the Green and Gold's best long distance hitter, again proved his worth by connecting with one of Boisseau's shorts for a long triple over Harvey's head to score Macomber and Collins. Pires, next up, was an easy out, ending Vermont's scoring for the day.

Both teams played loose ball, Vermont slipping up four times in the field, while Dartmouth was guilty of three miscues. Dinniman, Macomber and Collins all collected two hits apiece, while the latter played a sensational game in right field with six put-outs, including a spectacular catch off the bat of Tami Myllykangus.

Eta Sigma Phi, Active at Vermont, Has Gained 40 Chapters in 7 Years

Iota Chapter, Founded at the University in 1926 through Efforts of Professor Bassett, is Outgrowth of Local Classical Sociey

History of Eta Sigma Phi

[illegible] Roman culture and opening out be[illegible]

Eta Sigma Phi elects officers at the end of each semester who shall carry [illegible] the following semester. In the absence of [illegible] the vice-president presides, and has the same spirit of leadership [illegible] in promoting it to its present [illegible] position among the societies on the campus:

Presidents of Iota chapter of Eta Sigma Phi

Second semester, 1925-26—Josephine Hazel.

First semester, 1926-27—Thelma Matteson.

Second semester, 1926-27—Elizabeth Howe.

First semester, 1926-27—Elizabeth Howe.

Second semester, 1926-27—Pauline Sullivan.

First semester, 1927-28—Herbert Crandall.

Second semester, 1927-28—Elizabeth White.

First semester, 1928-29—Gladys Kone.

Second semester, 1928-29—Genevieve Hack.

First semester, 1929-30—Henry Powell.

Second semester, 1929-30—Herrick Macomber.

First semester, 1930-31—Charles Knapp, Jr.

Second semester, 1930-31—Chester Rush.

[illegible] Roman culture and opening out be[illegible] Eta Sigma Phi was [illegible] January 1925 about a year after the nationalization of Eta Sigma Phi of which the Eranos was later to become Iota chapter. There were seventeen charter members of the Eranos and others elected because of their high scholarship and interest in the classics were admitted that year. Several meetings with programs of interest to students and members of the Eranos were held before June.

The following fall for the first time the question of uniting with the national society Eta Sigma Phi was raised. Formal application was made in December, and in March, following the "Eranos" received the happy news that their petition had been granted. Professor Bassett of the Greek department of the University of Vermont, who had been very actively interested in the life of the Eranos and influential in obtaining the Eta Sigma Phi charter, conducted the installation of the Eranos as Iota chapter of Eta Sigma Phi, June 1, 1926. Twenty-six charter members were initiated. Professors Bassett and Prindle were made honorary members.

In October 1926, Professor Bassett presented to Iota Chapter a song in Greek which he had written and which is now the official song of the organization. A year later plans were made for giving a play, Iphigenia in Tauris, which was presented at the University gymnasium in January, 1928. Professor Bennett directed the music, Professor Metcalf coached, and Miss Patrick had charge of costumes.

In May 1928 Charles W. Knapp, Jr., '31 was sent as delegate of Iota Chapter to the national convention of Eta Sigma Phi at Philadelphia. He returned with an interesting account of his trip and an office in the Grand Council. This year he served as assistant editor of the Yearbook. He has just returned from the 1931 convention at Cincinnati.

Iota Chapter now has a roll of thirty-two active members and nine honorary members including Professors Bassett, Prindle, Kibbey, Perley, Metcalf, Livingston, Miss Elizabeth Wise, Miss Mary Maud Patrick and Professor Lindsey who comes from Alpha Epsilon chapter at Lehigh University.

Iota Chapter of Eta Sigma Phi is a living and growing organization, and an active factor in the student life of the University, making its influence felt in the lives of its members and through them in the lives of students and others, interesting them in the study and appreciation of Greek and Roman culture and opening out before them [illegible] of that glorious age of accomplishment and achievement.

Eta Sigma Phi elects officers at the end of each semester who shall carry [illegible] the following semester. In the absence of [illegible] the vice-president presides, and has the same spirit of leadership [illegible] in promoting it to its present [illegible] position among the societies on the campus:

Presidents of Iota chapter of Eta Sigma Phi

Second semester, 1925-26—Josephine Hazel.

First semester, 1926-27—Thelma Matteson.

FACULTY-STUDENT GROUP ABOLISHES RULES

(Continued from page 1)

[illegible] drawn up, for they are the result of a careful survey of Freshman Rules and [illegible] together with [illegible] by a representative group from our own student and faculty body."

[illegible] the following [illegible] obtained for the [illegible] and were [illegible] by the [illegible] and [illegible] by the faculty and students.

Harken to the illustrious and well-organized doctrine of the all powerful and ever-watchful class of 1930 [illegible] the choicest possibility of ever [illegible] to fond parents arms is available to those hopefuls of our [illegible] preparatory schools of learning, who with undying perseverance propel their useless carcasses along the narrow path.

1. Heterogeneous growths upon thy upper lips are in utter discord with soft pink skin of thy youth, and under no consideration let them appear lest public harvest be necessary.

2. It is a privilege to greet a Vermont man; therefore always greet one with a cheery "Hello."

3. Misery loves company; therefore ye misfits attend every class meeting. Never be missing at a roll call at any smoker or inter-collegiate activity, for not only will your education be multiplied indefinitely but an absence causes undreamt tortures to be inflicted.

4. Never permit thy scraggly and unkempt locks to get out from under the light green token of ignorance that all frosh must wear.

5. Yea, verily, ye dumb imbecilic Catamount pups, let not your clumsy pons perambulate upon the north side of College Street, unless accompanied by an upperclassman or sophomore man, or on the verdant grass of our beloved campus, nor by any mischance through the western portals of the Old Mill.

6. Nicotine is harmful to all but men. Therefore, let no form of the nefarious weed protrude from your lips on the campus or in the halls of any University buildings. Have in your possession at all times a bountiful supply of matches.

7. Never be detected in the company of the fair sex at any intercollegiate contest, but always plant thy ignoble being in the cheering section with thy miserable brethren.

8. Let not the following articles be displayed upon thy gawky form: socks other than those of the blackest hue, golf hose, bow ties, corduroy or white trousers, white sweaters or galoshes unbuckled. Such articles of apparel would not conform with thy lowly estate and are, through necessity prohibited. The omnipotent and deadly arm of Gold Key will descend mercilessly upon the unfortunate wearer of prep school insignia.

9. At all times stand ready to uncover thy empty cranium when you encounter any member of the faculty. Most awful will be the fate of any freshman who enters any University building without first removing his cap.

"To Have The Honor" Sees Butterfield, Powers Star

Metcalf Coached Play, One of Fine Character Revelation, Marks Final Appearance of Butterfield and Aiken on College Stage

PROF. MYRICK PRAISES ALL PLAYERS IN REVIEW

Harvey Butterfield, '31, as Michael, and Roberta Powers, Jennifer, playing the leading roles, "To Have the Honor" is one of the outstanding features of a unique Junior Week.

The play was one of fine character revelation, and depended on its plot for that purpose. It was coached by Prof. John T. Metcalf of the Psychology department of the University and successfully directed many student attempts.

Harvey Butterfield, '31, prince of the mythical country of Neo-Slavonia, and Robert Aiken, '31, who took the role of Simon Battersby, are both seniors making this their last appearance in University dramatics.

The first act of the play served mainly to introduce the characters, and the strange situation in which they are encircles them is, again, only for the purpose of furthering this character revelation. The author skillfully handled several delicate complications to the delight of all.

The complete cast of characters, in the order of their appearance is as follows:

Simon Battersby	Robert Aiken
Maria	Dorothy Murphy
Jennifer	Roberta Powers
Emily Holt	Elizabeth Eckhard
Lionel Holt	Sam Barker
Mrs. Faithful	Sylvia Boyd
Jessica	Dorotha Edwards
Sir Ainslie	Robert Jenks
Prince Michael	Harvey Butterfield
Orlov	Fred Householder

Prof. Arthur B. Myrick head of the romance language department has masterfully reviewed "To Have the Honor" in the *Free Press:*

A gay and delightful comedy in the best vein of A. A. Milne, full of a sophistication, skirting closely now and again upon a gentle cynicism, but always retreating with its author's well known easy grace. Such was "To Have the Honour,'" presented by the University Players at the Strong Theater last evening.

Jennifer, played by Miss Roberta Powers, is another revelation of the versatility and distinction of her actress. Her excellence in this rôle is all the more noteworthy because it did not give her the opportunity lent by the gamut of shifting gayety, sadness and emotion of "Holiday." Miss Powers contributed the same ease and assurance, the same excellence of diction and voice that marked her appearance in "Holiday," and "The Queen's Husband." One of the most delightful scenes was the delicately played telephone reconciliation with the erstwhile Prince Michael. Her acting is marked by vigorous and definite placed accent, charm and grace of poise, in short a remarkably fine piece of work.

Harvey Butterfield, in his rôle, played an exacting part with finish and a delightful sense of humor, fine distinction of manner and a vividly human grace. A difficult part to play for it is much like a double rôle. Mr. Butterfield contrived a delightful convincing ruler of Neo-Slavonia. In a part of this sort it's so easy to step out of character, but our "inventor" was consistent to the end. We shall all regret his absence next year from the ranks of the University Players. Miss Powers and Mr. Butterfield were the dominant figures on the stage.

A new comer in college casts, Miss Maloney, acquitted herself well indeed in the part of Angela, a very modern young woman with all the easy nonchalance of her kind. Easy, clear voiced and well poised, she promises well for future productions.

Her father, Simon, was played by Robert Aiken with all his former dry humor. Aiken has furnished a number of striking character parts in past performances, and in his rendition last evening lived well up to his reputation. He has a neat trick of outlining his characters with voice and gesture. This was another admirable interpretation among the many.

The two sharply contrasted parts of Emily Holt and Ethel Holt were admirably played by two well trained members of former casts. The latter was played vividly and with color by Hope Bigelow. Her spontaneous gayety and

(Continued on page 6)

REDSTONE BACK CAMPUS WILL BE SCENE OF LILAC DAY, THURSDAY, MAY 21

Colorful Event is Given in Commemoration of Late Dean Wasson

Lilac Day, sponsored by Mortar Board with the aid of Mrs. Dallas Pollard and Miss Annis Baldwin, is to be held on Redstone's back campus, Thursday, May 21, or in case of rain, Friday, May 22. No college in the country has a more beautiful setting for a pageant and the effect this year is expected to be charming as usual. The profusion of sweet scented lilacs surrounding the spot, and in the background, the towering heights of Camel's Hump and Mansfield lend an air of grandeur as well as of loveliness to the spot.

The tradition of Lilac Day was established in 1921 by Pearl Randall Wasson, beloved dean of women at Vermont at that time. In 1922 Dean Wasson passed away, and since then the pageant has been given by the women of Vermont in her memory, for a time every year, and later, every other year.

The first pageant was written by Florence Smith, a student at the University and the same general outline has been followed in each succeeding presentation; this year the effect has been worked out with especially graceful and delicately tinted costumes.

Miss Baldwin, in charge of the dancing, has created several fascinating groups of figures, typifying the various phases of the pageant.

The characters are as follows: Reader, Hope Ranslow, '32. The King, Janice Davis, '31; The Queen, Elizabeth Cory, '31; The Seeker, Caroline Taft, '33; The King's Maidens, Laughter, Dorothy Emery, '31. Love, Janet Miller, '32. Beauty, Marjorie Bracken, '31; Contentment, Marjorie Elsenwinter, '31. The King's Men, Honor, Eleanor Koenig, '31; Chivalry, Olive Fields, '32; Courage, Pauline Willis, '31; Truth, Lillian Mount, '32; The Herald, Hildur Wilde, '32.

PHI DELTA THETA AND KAPPA ALPHA THETA WIN JUNIOR PEERADE CUPS

Gorgeous Floats, Massive and Ingenious Feature Long Line

Kappa Alpha Theta sorority and Phi Delta Theta fraternity won the cups offered for the best floats in the annual Junior Week Peerade, held for the purpose of advertising the Junior Week Play, "To Have the Honor," which was presented at the Strong Theatre last Thursday evening. Slade Hall, women's dormitory took second place along with Kappa Sigma from the men's fraternities.

The cups three in number were awarded by Wig and Buskin, and Mask and Sandal men's and women's honorary dramatic societies.

The peerade started at the Ira Allen Chapel, proceeded from University Place to Main Street, down Main to Church Street, up Church to Pearl St., down Pearl to St. Paul Street, down St. Paul to College Street and up College, back to the Campus where it disbanded.

On the march the peerade was led by the R. O. T. C. Band under the direction of Drum-major E. G. Hurlburt, '32. Behind the band came a diversified collection depicting the various groups conception of the play. Most of the floats were based on the title "To Have the Honor," but a few including the winning women's floats were original and different.

The Kappa Alpha Theta's float showed the three stages of "buffers," since the play was about Neo-Slavonia,

SIGMA PHI HOUSE PARTY YIELDS ENTERTAINMENT FOR GROUP OF WOMEN

First of Its Kind Since 1924, Party Proves Great Success

FRAT MEN MOVE OUT; LADIES LIVE IN STYLE

[illegible] Sigma Phi Society [illegible] Saturday night [illegible] Sunday evening.

The girls were the guests of the active chapter and with them attended all the events of Junior Week end *musse* including the Play and the Prom. The group held a dinner and dance Saturday night and Sunday went on the annual fraternity picnic to be held near Cedar Beach.

All regular occupants of the house packed their luggage and disappeared from the house when the women arrived but returned frequently for some reason or another.

All meals were served for the women at the house and the men joined them at lunch and dinner. No men were allowed in the house until 9.30 a.m. P. was decreed but they were privileged to stay from that hour until after the evening event.

The chaperons for the house party were Mrs. F. W. Shepardson of 101 Ledge Road and Mrs. P. D. Clark of 21 South Willard Street while Mr. and Mrs. L. S. Hartwell were guests at the dinner and dance on Saturday evening. The girls who were guests at the house for the party were: Miss Vivian Sargent, Granteville, Mass.; Miss Mildred Denny, Hartford, Conn.; Miss Patricia Clark, Westmount, Quebec, Canada; Miss Edith Gorman, Auburn, N. Y. and the following University students: the Misses Hope E. Ranslow, Montpelier; Marjorie Elsenwinter, Barre; Helen Taylor, Montclair, N. J.; Ruth E. Field, North Easton, Mass.; Charlotte Odell, Brewsterville, N. Y.; Margaret Crane, Stamford, Conn.; Marjorie Hayden, Winchester, Mass.; and Alleene McNall, Burlington.

Anything legal always takes five times as long as any other talk.—*Freeman F. Gosden.*

Janice Davis Is Proclaimed Junior Week Queen at Prom

Receives Cynic Cup and Abernethy Evening Ensemble as Most Beautiful U. V. M. Co-ed—Charlotte Odell and Caroline Taft are Runners-up in Student Ballot

NAUTICAL AIR PERVADES PROM HELD IN AUDITORIUM

[illegible] Wallingford, were named runners up by reason of having attained positions as two of the three most beautiful women at the University of Vermont by the second student vote.

[illegible] Miss Davis in the first poll received more votes than the total of Miss Odell and Miss Taft in the second poll. More than the sum of these cast in the contest for Miss Odell and Miss Taft.

The board of judges which rendered its decision last Wednesday [illegible] a review of all ten women candidates in the second ballot comprised Professors Leon W. Dean, Morgan H. Lambeth and Benjamin F. Wald.

Miss Davis is a retiring member of Mortar Board, the senior women's honor society, who has been a member of the Glee Club since [illegible] the Dramatic Club, and an editor of the 1931 *Ariel*, Pan Hellenic representative and Alpha Xi Delta sorority. She is enrolled in the Home Economics curriculum.

Miss Odell who is pursuing the Literary-Scientific course, was active president at the freshman class, and has been especially active in dramatic lines having taken a leading role in the "Pirates of Penzance" and being a member of the University choir. She is a member of Kappa Alpha Theta sorority.

Miss Taft, like Miss Davis is from Wallingford and reading the Home Economics course. She has participated in several debating meets and belongs to Delta Delta Delta.

JANICE E. DAVIS, '31, *voted by the student body the most beautiful woman at the University of Vermont*

Formal Prom

In the shipshape-decked Memorial Auditorium about 150 formally attired men and women danced to the rhythm of Dan Morrison's Musical Steppers.

The entire decorative scheme was developed with a nautical atmosphere. Life buoys, life boats, sails, flags of all nationalities and waitresses in marine costume were part of the decoration plan.

Leather bordered traveling clocks engraved with the Vermont seal and the junior class numerals were the dance favors.

In the receiving line were Professor and Mrs. E. C. Brown and Professor and Mrs. D. B. Carroll chaperones and Margaret Elsenwinter, Isabel Warhurst, Allen O. Eaton and Edward J. Meehan.

MEN'S FRATERNITIES HOLD OPEN HOUSES

Thirteen men's fraternities held open house informal or formal dances for the entire student body last Saturday evening.

With music by Bob Minoffo's orchestra, Lambda Iota held a formal dance at its chapter house. Dr. and Mrs. C. E. Brown and Mr. and Mrs. L. W. Dean were the chaperones.

Sigma Phi in conjunction with its house party held a formal dinner dance with the Black Panthers playing. Mr. and Mrs. L. S. Hartwell were guests with Mr. and Mrs. F. W. Shepardson and Dr. and Mrs. P. D. Clark as chaperones.

Bostaph's orchestra of St. Albans played at the semi-formal dance held at the Delta Psi house on Summit Street. The chaperones were Dr. and Mrs. P. K. French and Mr. and Mrs. L. E. Crozier.

Phi Delta Theta held an informal dance at the chapter house with Freddy Lynch's orchestra furnishing the music. The chaperones were Major and Mrs. O. H. [illegible].

Colonel and Mrs. F. E. Buck, [illegible] Berry and Miss Mary Morrison [illegible] attended the formal dance at the Alpha Tau Omega house. Edwards orchestra from Rutland played.

Maclea and orchestra played for the informal dance at the Kappa Sigma house. Professor and Mrs. Douglass and Professor and Mrs. [illegible] were the chaperones.

(Continued on page 4)

COMMITTEE NOMINATES FUTURE 1932 OFFICERS

A nominating committee met at 1 o'clock Friday afternoon to nominate officers of the class of '32. The following were nominated: For president, Walter Jay Manning and [illegible]; vice president, Hope E. Ranslow, Roberta F. Powers and Lillian E. Mount; treasurer, Gertrude Weston, Lapper; secretary, Charlotte W. Kidder, Janet E. Miller and Beatrice G. Parker.

The nominations for Faculty Student Council were as follows: Engineer, Peggy Parks and Wheeler Ayer; Arts and Sciences, Albert and James Ayer; Ag, Ruth Parks, Leach and Beatrice [illegible]; at large, Kenneth Rand, Lois Hastings and Mildred Gile.

There will be a class meeting next Friday afternoon at 4 o'clock and further nominations will be in order at that time. Place of meeting will be announced.

Vol. 49 — May 20, 1931 — No. 57

That seniors who will be graduated this year from the University have found a difficult to obtain positions as teachers in Vermont and other state secondary schools is evidenced by the fact that only twelve out of nearly sixty seeking that profession have signed contracts for next year.

In addition there is noted a considerable decrease in salaries due not only to the general business depression, but to the unprecedented increase in the supply of teachers. In many instances students have failed to properly prepare themselves for the educational field by not enrolling in courses in the educational department which are offered to satisfy Agency requirements. This, coupled with the fact that the enrollment in the practice teaching course is limited to few students, will continue to make it impossible for many to meet teaching requirements in some states. Nevertheless, the department of education is to be commended for its work in assisting seniors to obtain teaching situations.

We fail to see any justification for the existence of the two-year teacher training as a part of the University program. To satisfactorily prepare for teaching we advise either a general four-year academic course with major and minors in one's chosen subject or the four-year educational course. We therefore recommend the abolition of the two-year course and its placement back in the institutes and normal schools where it rightfully belongs. In this we have the hearty support of the administration and the faculty.

In a review of the replies to a questionnaire sent out by the National Student Federation to a great number of key industrial organizations the following statements seem characteristic.

In reviewing the replies to the questionnaire, Chester S. Williams, executive secretary of the National Student Federation, pointed out one of the statements of the situation as characteristic: "The reason lies in the fact that economic conditions have rendered it impossible for us to place on permanent positions our last year's class as rapidly as under normal conditions. Our basic policy in handling this relationship is to take care first of those whom we have here on our rolls, and not to bring in a new class until that has been accomplished. This accounts for the fact that our number is small this year.

The one dissenting note in the replies was as follows: "Of the number thirty-four (college men employed in 1930), only nine are still with us, so you see the plan of employing men right from college has not worked out so successfully in our organization. Our greatest success with the college men has been with those who have been out of school for one or two years. They have had an opportunity during that time to receive a few hard knocks and to settle down to some definite life work."

Only one company of those replying to a form letter addressed to personnel directors of fifty large corporations reported that it would employ the same number of college graduates in 1931 as in 1929 and 1930.

One of the nation's leading employers of college and university graduates will reduce the number engaged this year by more than 90 per cent of the number hired in 1930, and about 93 per cent of the number in 1929. An important industrial plant will employ fifty, as against 450 in each of the two previous years. One of the largest chemical concerns of the country reports a 30 per cent reduction, and a leading utility which employed seventy college graduates in 1929 engaged none during 1930 and will not recruit any additional material this year. One of the principal corporations in the oil industry will employ eleven this year as compared to thirty-seven in 1929 and sixty-seven in 1930.

In every reply except one where a curtailment of an expansion program was deemed necessary the chief reason for the reduction in the number of college graduates to be employed was not the failure of those men hired in the past to meet expectations, but solely economic conditions.

No lack of ambition has been evinced by those chairmen of the Junior Week events who have so successfully managed their duties. Especial praise goes to Prof. John T. Metcalf and the entire student cast of "To Have the Honor" for their skilled presentation of that delightful social comedy. It was a fine piece of work.

VAMPIRE

(A fragment from an old Germanic Mss. found in the keep of a ruined castle in the Hartz mountains. 1228.)

so you woke me from my sleep
to tell me this.
must i die, fair vision!
must my blood be yours, and
must my corpse grow cold!
how warm you are!
how lovingly you seem to hover o'er
me . . .
your body's sweet.
how can so foul a soul,
such criminal intent,
within reside!
is there no price? look: i am strong;
and rich.
six hundred maidens wait without
in yonder court, or village round about,
my favor to implore—i am a man!
and i can give you love, fair one,
which you have never known
but not my Blood! ! ! o vision, come
to me,
and yet again . . .
when once my blood has filled your
want
i'll die—is This not lasting! can't
you see—oh fiend! she-devil! foul Un-
Dead!
you've tricked me, made me weak, my
head
is whirling, whirling,
stay your hands—oh god! my throat. . .

—mp—

"Poetry should be read aloud, should be sung. True poetry is not a mechanical arrangement, even tho its form may suggest it. Thot dominates, emphasised and guided, gently or forcefully, by the beauty and swing of sound. One can't say much for the poetry which does not give some picture, which does not arouse some emotion. I tell all my pupils, that I don't care how uneven stresses emphasise discord, and how unbalanced the length of line. If the poet's idea is well expressed, the visualisation comes, the emotion is aroused, and he has produced a thing of beauty."—*une qui vu!*

Last Week in the Noos

Beauty Contest lures the Eye.
New Frosh Rules; Big Shots try

Campus Comment

[illegible] Class of 1931.

Many of you have already experienced the uncertainties and anxieties [illegible] the earning of one's own living, let alone livings for self plus l. [illegible] more. You may have learned to spring out of bed a dozen or more times a night to attend ailing progeny. Part of course, you have been doing all these things as undergraduates with the atmosphere of college close about you. When you shall have been graduated and dispersed to your several callings experiences like those may deter you from fraternizing jubilantly with alumni who are still comparatively strangers to you. I am writing this letter to say a few things about that.

I assume that those of you who pay any attention at all to this letter are looking forward to pleasant experiences as alumni. You will find alumni problems. Not money problems, at first because nobody except undergraduates any longer expects new alumni to have any money. The curious fact, however, is, that you youngest alumni will have it in your power to solve our most difficult alumni problem for us, namely the problem of establishing contact with each new class as it is graduated from the University. We want you. We know that you will make good financially and every other way. They do. We have faith built on years of observation. Our ticklish problem is to reach the new men when they are having their difficult readjustments. Some of them seem not to realize that we have all gone through it ourselves, know what it is like, and are ready to be helpful. We have that faith.

Speaking for Boston and vicinity, I wish to say that the strong, vigorous alumni sentiment here at the end of the very pleasant season just passed is now definitely addressed to the problem of reaching the new members both for your good and for our own. For the immediate future the way in which you can best help the University is for each of you to establish contact as an alumnus with the secretary of the associated alumni wherever you happen to be. The secretaries try to reach you. You can make the effort 100 percent successful. We are hoping to have at least one inexpensive assembly early in the coming fall, just for the sake of greeting all new men. Let the secretaries know how to reach you so that you may be notified.

I am asking the Secretary of the Alumni Council to give you names and addresses of all secretaries, and I personally shall hope to hear from many of you before September 1.

With heartiest congratulations and best wishes for Commencement, I am

Yours truly,
PHILIP R. JOHNSON, '18,
Secretary Central New England Alumni Association.

ODDS AND ENDS

"Dear Lord," prayed the Ko-Ed, "it ain't for me, but please send my mother a son-in-law."—*Utah Chrony.*

By the time the average college boy of today succeeds in accumulating the horsehide, the pigskin, the coonskin, and finally the sheepskin, poor father hasn't much hide left either.—*Cal. Aggie.*

"Mother, do they have electric plants in heaven?"

"No, my dear, it requires engineers to build electric plants."

The *Stute*, weekly of Stevens Institute of Technology, recently announced the results of the senior ballots for the most handsomest, etc., of the class. Not to be outdone the Flue Gas column of that paper published its vote in the next issue. Some of the questions and answers were:

Most typical Stevens man—Unemployed.
Biggest drag—College tractor.
Most popular—Anyone with a cigarette.
Most reliable—Ex-lax.
Hardest course—Cocktails.
Favorite magazine—Paris night.
Done most for Stevens—Mrs. Stevens.

The Mystic Pen writes, and having wrote, throws it in the basket.

Ten Timely T[illegible]

TABS TASTERS

Undoubtedly the [illegible] pressive victory in the [illegible] tion of the Faculty-S[illegible] what lately were known as Rules. The outstanding [illegible] those who fought the [illegible] of freshman offenders [illegible] by the outright [illegible] forms of corporal punishment rules were whittled down to a sufficiently few to [illegible] tone of the Investigating activities. To cap the [illegible] element of compulsion [illegible] moved by the substitution [illegible] customs for compulsory [illegible]

The wording of the [illegible] least as important as their [illegible] longer will freshman be [illegible] spirit and solidarity by [illegible] that they are insignificant [illegible] humanity or scum of the [illegible] shall fear the vengeance [illegible] if they presume to violate [illegible] The customs are worded [illegible] out a shadow of a threat [illegible] which admonish the freshman [illegible] sue knowledge rather than [illegible] his conduct by fear of penalties, give promise of more [illegible] contribution of college life.

There is, however, some [illegible] tion for the tone of the C[illegible] which followed on the publication the Council's report. It is unfortunate that the Council have seen fit to recommend the [illegible] of compulsory pledges; such as employed at Middlebury, binding men to observe the customs of having had something [illegible] them, however, will undoubtedly to ally the freshmen with [illegible] will force such a custom [illegible] tude.

Some of those who read the *Press* report of the Council's mendations must have received [illegible] siderable jolt from its contrast sympathies of the local [illegible] paper have always been with ponents of Cynic policy, whose tion previous to this [illegible] taken the form of [illegible] against the alleged use of [illegible] comment in news stories. The *Press* article in question, like stories it has published on [illegible] during the past year, is [illegible] actly the manner condemned by latter's critics. Could anything demonstrate the fatuousness of accusations?

It is to be regretted that, [illegible] question of Freshman Rules [illegible] the way, the Faculty-Student [illegible] will, in all probability, be [illegible] give any considerable time to [illegible] vising of a cut system. Because ever shortening time left [illegible] lege term, consideration of [illegible] probably have to be made [illegible] business for next year.

"Lost," and then, for many issues of the Cynic, there have [illegible] in the notices column, a list of used reference works now [illegible] from the Library for some [illegible] Nothing more undesirable can in a college community. It is hoped that the incident will [illegible] without results.

Yale, in abandoning Latin as quirement for the A.B. degree step further than did Vermont last year adopted similar [illegible] respect to the Ph.B. degree. Be less of whatever value Latin [illegible] its study is proving as inadequate with the needs and tastes of dents that the liberalization tion of Latin requirements where meeting with favor.

In spite of the unusual [illegible] quired by certain students which ended in victory, the [illegible] teresting of all to date [illegible] at Ohio State, against the military training system. The strike has elicited more [illegible] terest all over the country any other.

The men and women who behind the scenes in the [illegible] ment of those events which successes can never receive praise for what, although apparent, is not infrequently portant—or even the chief tion to the success. Such ple, are the chairman of Week Peerade, the coach and of the Junior Week Play committees and the contributors of the Cynic who engineered beauty contest. They, too, parade their activities, at the praise of the newspapers.

One week more. Two weeks of academic routine come and will have gone.

Down at Princeton, spring are in full swing; the [illegible] playing marbles and the [illegible] spinning their tops. We [illegible] some mention of this in the *Negie Report.*

WINDSOR HIGH SCHOOL WINS DEBATING CROWN

...larships to the University of ... of $300 each were awarded ... debaters of Windsor High ... as a result of the final Vermont ...olastic debate between that ... and Bellows Falls High School. ...larships of $150 each were ... to the losing team. The ...nts of the scholarships are, ... Norma Piper, Richard Ashton, ...th Ross, and Frank Hale, al... of Windsor High School and ... Levin, John Robinson, Kath... Kelly, and Thomas Curtin, al... of Bellows Falls High School. ...question used for the debate was ...well-known and popular question, ...ved: "That the Chain Store is ...mental to the best interests of ... American Public."

...e debate was held under the au... of the University of Vermont. ...e eighteen or nineteen schools en... the contest at the beginning of ... year, district contests were held ... the semi-finals were run off only ... week.

The judges of the evening were from ... Vermont faculty, Prof. Leon W. ... of the English department, Prof. ...neth J. Sheldon of the agricultural ...ation department, and Prof. Lloyd ... Woodward of the department of ...sics. Chairman of the debate was ... Merrill D. Powers of the Univer...

The affirmative team from Windsor ...ed its argument upon three major ...tentions. First the chains consti... a menace. Secondly, that the ...entralization of wealth in the ...nds of a few was dangerous and ...ly that they had a better plan ... that of the chain store, namely, ... independent buying alliances, ...ch have all the good qualities of the ...n store but is not bound up with ... idea of centralized powers. Frank ... alternate spoke first in the re...tal in place of Miss Piper.

The negative team of Bellows Falls ...h defended the chain system upon ... grounds that they were economically sound, that they provide ...ater efficiency and stabilize busi... and lastly that the chain fills a ...d in modern life with all its cen...lization.

The rebuttal was full of pep and ...ther team seemed to allow the other ... put anything over them. The af...mative were afraid of centralization ... wealth and power and the negative ...m seemed sure that centralized buy...g and selling power was the need ... the people and was for the best ...erests of the public. Miss Ross, ...st speaker for Windsor High spoke ...hemently against the detriments of ...e chain system.

LOST

From the shelves of the Billings Library: Encyclopedia Americana, Volumes 4 and 23. International Encyclopedia, Volume 5. Stevenson—Home book of verse. 6th edition. Stevenson—Home book of modern verse.

Anyone knowing the whereabouts of these volumes will please return them to the Library immediately as they are much needed. They are expensive books and in the case of the Encyclopedia it is absolutely impossible to replace separate volumes.

KAPPA ALPHA THETA

Miss Eleanor C...b, of Burlington is visiting at the Theta house this week.

DELTA DELTA DELTA

The local chapter will hold a cake sale at the Star Rose House Saturday, May ...

ALPHA XI DELTA

Janice Davis, '31, passed chocolates Wednesday evening, May 1, to announce her engagement to Charles Blair, '31, who belongs to Vermont chapter of Phi Delta Theta.

SIGMA GAMMA

Dorothy Claflin, '29, recently announced her engagement to Frank McCall, '28.

Harriet Howard, '30, was in town over the week-end.

K. E. L.

A luncheon was held Sunday, May 17, at the Hotel Vermont, in honor of Gertrude Levin and Gladys Press, senior members.

EPSILON SIGMA

The chapter held its annual spring banquet at the Hotel Sherwood Roof Garden, Tuesday evening, May 12. Faculty members who spoke were Misses Colburn, Patrick and Wheeler. Sylvia McKinney and Rosamond Dotey spoke for the actives.

PROFESSOR EWERT ADDRESSES DEWEY CLUB

Prof. P. H. Ewert, of the department of psychology, spoke before the newly organized John Dewey Club on the "Effect of Verbal Instruction Upon Overt and Covert Behavior" at 8 o'clock last night at the Vermonters' Club House on Summit Street.

At the meeting a form of initiation suitable for use by the society was adopted. The new John Dewey pins were presented to the charter members and all others who have paid their dues and $3.00 for pins. Other business was the question of eligibility of seniors and the acceptance of students who present theses for membership.

All the members listed in a previous issue were invited to attend. Those not fulfilling the scholastic requirements for membership may submit theses for consideration by the charter members at this meeting.

The publication at the University of Toronto has recently been suspended for printing an editorial on atheism.

STEPPING INTO A MODERN WORLD

"THE THINKER"
. . . *a telephone version*

The name Electrical Thinker might be applied to one unit of telephone apparatus. Technically it is known as a Sender and is brought into action each time a call is made in a panel dial central office. By means of electrical mechanism, it records or "remembers" the dialed number and routes the call to the proper line.

The steady expansion of the Bell System — in volume of calls, number of telephones and miles of wire — cannot be taken care of merely by an enlarged use of existing types of apparatus.

To serve the continually growing telephone needs of the nation, it will always be the task of Bell System men to devise, refine, perfect and manufacture new kinds of equipment such as The Thinker.

Intercollegiate News

Faculties of two of the largest land grant colleges, Cornell University and Ohio State University, voted this week in favor of making military drill elective and their recommendations now go to their Boards of Trustees for final action. The University of Wisconsin was the first land grant college to drop military compulsion, which was done by act of the legislature in 1914.

One of the largest faculty meetings ever held on the Cornell campus voted eighty-one to thirty-eight in favor of [illegible] with the college year, 1932-33, and such recommendation will be presented to the Board of Trustees at its meeting in June.

Ohio State has the fifth college R. O. T. C. unit in the country. Here the War Department spent $157,838.12 during the fiscal year 1928 to last June 30, 1929, and two men detailed for military instruction. A twenty-three page report on compulsory military training at Cornell was made last winter by an unofficial committee of students which stated that "compulsory drill in college is an unwarranted conscription of a few. It is inconsistent with the spirit of a country which has refused to permit conscription training for all its citizens."

Ohio State University had the largest R. O. T. C. unit in the country last September with 3,380 men in compulsory courses and 256 in the optional advanced courses. For such training $[illegible] was spent during the fiscal year 1929 including $141,738.04 for pay of army personnel for the fifty-two instructors detailed to the War department.

The faculty at Ohio State University, Thursday, by a vote of eighty three to seventy nine, voted to recommend that military drill be made optional. Protests and petitions at Ohio State have been frequent since 1927 when the editor of the *Ohio State Lantern* wrote an editorial on "A Conscript Army in Time of Peace." A threatened strike this week was called off when the president said he would expel the student leaders. A student mass meeting held under the auspices of the Optional Drill League Tuesday night voted that "it is inconsistent with the spirit of the Kellogg Pact for our State University to compel students to think and train for war." After citing the action of the University of Cincinnati and other schools in making drill optional or abolishing it entirely, their petition concluded.

Within the last five years twenty-five important educational institutions have either abolished all military drill or abolished its compulsory feature.

We believe that with the approach of the World Disarmament Conference the time has come for Ohio State University to join the ranks of those clear sighted Universities and schools which are advancing the movement for world disarmament and peace by beginning with disarmament in education.

Since the whole problem of national defense has been vastly altered by an age of science which has enlarged the destructiveness of armaments but intensified the inter-dependence of nations, we urge that we be allowed to prepare ourselves for national service by choosing such subjects as the International Farm Problem, the International Unemployment Problem, and the Causes and Prevention of War.

At the University of California, Los Angeles branch, more than 2,000 signatures have already been secured for a student petition to make drill optional.

A faculty committee of seven was appointed to make recommendations on military drill to a general faculty meeting June 2 at the University of Washington.

A bill to make military drill elective at Iowa State College and at the State University of Iowa was defeated by a vote of sixty-three to forty-two in the House of Representatives of the Iowa legislature after a seven-hour debate. But advocates of optional drill in the state have announced their intention of keeping up the campaign until compulsion is dropped either by the State Board of Education or the legislature.

The half of the world doesn't know how the other half lives—but they are hard enough to find out.

That half of the world would like to know how to knock the other half down from its money.

That any fellow who wears both belt and suspenders is the world's prize pessimist.

That girls used to kiss and make up but now they are afraid to kiss if they are made up.

That there's no percentage in being dead right. The cemeteries prove it.

That a bird in the hand is worth two in the bush, unless the two in the shrubbery can't fly.

That a revolving door is nothing but a row of phone booths on wheels.

That the hero of the following tale is the world's champ salesman: He met a Scotchman, took his hat off, and sold it to him, and in the deal, short changed him.—*Holy Cross Tomahawk*

PERSONAL INTERVIEW TO BE MEDIC REQUIREMENT

A new plan of admission to College of Medicine will go into effect immediately involving, among other things, a personal interview with the Committee on Admission to the Medical College. These interviews will be held every afternoon except Saturday this week, May 15-20 inclusive by appointment. Every Pre-medical student who has applied or who intends to apply for admission to the College of Medicine this fall should Room 14, Medical Building, phone [illegible] W for the purpose of making an appointment for an interview with the committee. It is necessary for each student to have such an interview prior to the consideration of, and the decision on his application for admission.

MEN'S FRATERNITIES HOLD OPEN HOUSES

(Continued from page 1)

Sigma Nu's informal dance was at the chapter house. Syncopation was furnished by Billy Murray's band from Barre while Professor and Mrs. J. A. Bullard chaperoned.

The Middleburians furnished the music for the formal given by Phi Mu Delta at the house on College Street. Professor and Mrs. J. T. Metcalf and Mr. and Mrs. H. K. Sinclair were the chaperones.

Tau Epsilon Phi held a formal dance at the Country Club. The chaperones were Professor and Mrs. C. L. Stineford and Mr. and Mrs. Frank, while the music was furnished by Max Bergman and his orchestra.

Joe Lechvar's Vermonters played for Sigma Alpha Epsilon's semi-formal dance held at the chapter house on Summit Street. The chaperones were Professor and Mrs. B. H. Wallace, and Professor and Mrs. Adams.

Oak Ledge Manor was the scene of the formal dance given by Zeta Chi. Professor and Mrs. H. G. Millington, Frances M. Frost, and Prof. P. E. Ewert were the chaperones, while Camp Groves and his orchestra from Rutland furnished the music.

The semi-formal dance given by Sigma Delta at the house was chaperoned by Professor and Mrs. F. Tupper, and Prof. K. J. Sheldon. Roger Albee's orchestra played.

Professor and Mrs. F. D. Carpenter, Mr. Bold and Miss Alice Walbridge chaperoned the semi-formal dance given by Phi Sigma Delta at the Van Ness roof garden. The dancers were entertained by the Serenaders of Middlebury.

PHI DELTA THETA AND KAPPA ALPHA THETA WIN

(Continued from page 1)

a buffer state. There were two boxers buffeting about an especially small person, a darky buffing a pair of shoes, and very pretty manicurist buffing a person's finger nails.

The Phi Delta Theta's winning stunt was a distinguished looking officer riding in state in an ancient carriage. The Kappa Sigmas float depicted the doctors operating upon his majesty the King of Siam. The float of Slade Hall had two women blindfolded who were being chosen as those to have the honor of being Queen of Junior Week.

Delta Psi Fraternity presented a float entitled "Laying the Cornerstone of the Old Mill," with Lafayette and a gowned student, spade in hand.

An evergreen covered float depicting Queen Elizabeth's time costumes with a bespectacled Sir Walter Raleigh, wearing a sword was entered by Alpha Chi Omega.

Ruggles Hall showed "The Queen of Junior Week" and the costumes presented by the local merchants flaunted by mocking placards.

Rand House contributed a float depicting the story through the ages of the dubbing of a lesser character by a greater and the crowning of a beauty queen. Placards originally designed completed the float.

Grassmount was represented by a walking float with flashing posters of mock-name-Greek letter organizations.

Zeta Chi showed a "Fresh Air Taxi" with slogan, "To Have the Honor of Taking the Most Beautiful Coed." The float was gaily decked with ribbons and flowers.

Lambda Iota displayed a float listing the numbers one to ten and declaring that "Ready or Not I'm Coming to the Play."

Other floats showed a full flush of cards, with players who had the honor and other slogans relative to the play.

The judges of the peerade were the Hon. Mayor Jackson of Burlington, Mrs. Isabelle Mills, head of the art department, Prof. P. H. Ewert of the psychology department, and Prof. P. H. Evans, head of the history department.

VERMONT RIFLES DRILLS FOR INSPECTION STAFF

The Vermont Rifles, freshman section, put on a special drill for the benefit of the inspecting staff at the annual Federal Inspection last Wednesday, under the leadership of Robert W. Ogle, '34. At the end of this drill Ogle was complimented by Lieutenant-Colonel Black, Professor of Military Science and Tactics, for the snappy performance shown. Marking the near approach of examinations and the close of school, this was the last drill of the year for the organization.

A committee of three was appointed by Lieutenant Tomlinson to draw up suitable by-laws for a permanent organization next year, the three men being H. J. Selib, '34, Robert Inman, '34, and George H. Burrows, '34. It will become a permanent honorary military fraternity for freshmen and sophomores, modeled somewhat after the fashion of Scabbard and Blade, the senior society. This year's members will vote on the admission of freshmen who have shown by their outstanding military performance that they are worthy of the honor, at midyears next year.

The names of those who were present at Inspection drill, and who are therefore members in good standing for next year, are as follows: Bailey, Brown, W. A., Jr., Brown, L. F., Burrows, Busch, F. R., Cogswell, Donahue, Hebb, Germann, D., Silverstein, Russ, Ross, W. A., Johnson, K., Kearney, Murray, R. R., Ogle, (commanding), Pierce, S., Saba, Selib, (guide), Shippee, VanDyke, Wegner, White, P., Woodruff, McGrath, H., McGrath, J. J., Inman, (guide), and Iselin.

Ellen Palmer, co-ed beauty and Ray Bliss, were suspended from Akron University while authorities investigated an alleged attempt to stuff the ballot box in the election of a May Queen.

Fifty cents is the fee charged to all students for cuts at the University of North Carolina.

NIGHT AND A FAST TRACK!

A TRACK man will tell you that records are broken when the track is fast. Think of this setting—a cool evening, the stands overflowing, the whole spectacle brilliantly lighted with G-E floodlights, *and* a fast track—a record simply couldn't stand the "gaff."

Nighttime, when people naturally turn to diversion, is the logical time for a track meet. Lack of support will be a thing of the past. And just watch the athletic fund grow.

G-E floodlighting projectors, largely the development of college-trained men, are easily adapted to any occasion whether football, track, tennis, commencement, receptions, or plays. Efficient G-E illumination promotes athletics and builds school spirit.

SPORTING NEWS

Springfield Pitcher Holds Cats to Three Sole Hits

Gymnasts Win Game Here by Score of 3 to 1—Winant Leads Catamounts at Bat and Tallies Vermont's Only Run—Conn. Aggie Game Called Off

SARGENT HIT FREELY BUT FANS 11 BATTERS

By holding the Catamounts to three hits Springfield College came off with a 3 to 1 victory at Centennial Field this afternoon. Sargent was on the mound for Vermont and although he was hit rather freely he pulled himself out of hole after hole by fanning eleven Gymnasts.

Winant was the first Vermonter to get busy when he whaled out a double to centerfield. In this frame the Green and Gold took a temporary lead on Winant's run which was the first score of the game. Dinniman fouled out and Baker popped over second base. Centerfielder Davison came in fast to handle the ball, but muffed it, and threw it wild in deep second base territory, while Winant went to third. Pitcher Johnson then became rattled, walking Macomber to fill the bags, and hitting Kendall to send in the run.

In the following inning Davidson mixed things up for Springfield when, after a scratch hit, he reached second on a foul fly catch by Kendall and scored on Yarrington's Texas leaguer. In the seventh, Springfield took the lead when Meyer's tallied. Again in the ninth the Gymnasts scored, when Graham was given a triple and came in on Meyer's long fly.

The game scheduled Saturday afternoon with the Conn. Aggies on Centennial Field was called off on account of rain. However the freshmen played two innings with Vermont Academy at which time the Kittens were trailing 8 to 2.

BLACK PANTHER WINS STATE TENNIS TITLE

Retains Championship by Defeating Vermont Team 4 to 2.

After a series of hard-fought matches the Middlebury College tennis team retained its state championship by defeating Vermont 4-2 on the back campus courts Friday afternoon. Many of the matches required three sets.

Captain Freddy Tupper worked hard to defeat Flagg in the first singles bout. Captain Sloper of Middlebury staged another spectacular match with Wheeler but the Panther leader finally emerged with a win after dropping the first long-drawn-out set.

In the singles Captain Tupper (V) defeated Flagg (M) 6-2, 7-5; Captain Sloper (M) defeated Wheeler (V) 8-10, 6-1, 6-4; Jennings (M) defeated Woodward (V) 6-3, 6-3; Volkmar (M) defeated Bisson (V) 6-4, 6-4.

In the doubles Tupper and Wheeler (V) defeated Allen and Robert (M) 4-6, 7-5, 6-4; and Flagg and Jennings (M) defeated Bisson and Woodward (V) 6-2, 6-2.

But Once a Year

The public school kid's happy
When Lincoln's birthday comes.
He gets a holiday from school,
And leaves his books and sums.

The children in parochial schools
Get scrubbed and clean and tidy
And walk with their mamas to church
The morning of Good Friday.

But here at Vassar, bless its heart,
Through holidays we flounder
Immersed in books, our only break,
The birthday of the Founder.

FRESHMAN TENNIS TEAM IN TIE WITH RUTLAND

In the return match with Rutland High School at Rutland Friday the Vermont freshman tennis team came out even each team winning three sets.

Singles: Seeley (R) defeated Myers (V) 6-3, 6-0. Wilson (V) downed Attel (R) 6-0, 6-0; Mulcahy (V) beat Dick (R) 5-7, 6-4, 6-1 and Powell (V) lost to Chalmers (R) 6-0, 6-2.

Doubles: Myers and Wilson (V) lost to Seeley and Chalmers (R) 6-7, 6-4, and Mulcahy and Powell (V) defeated Attel and Dick (R) 6-1, 6-2.

BAND WILL HAVE NEW UNIFORMS NEXT YEAR

The members of the R. O. T. C. Band will wear, next year, as part of their uniforms, green capes lined with gold, and tall green and gold hats with gold pom-poms in true West Point style. Finals details are being completed by Capt. W. E. Lauer, of the military department, and J. E. Lechnyr, band leader, so that it may be expected that, on the opening of the next College year, the musical unit of the Vermont R. O. T. C. will present an imposing and colorful appearance and will take its place as a leader in that respect as it has already done in consideration of the quality of its musical production.

Few students realize the important part which the R. O. T. C. Band, under the direction of Mr. Lechnyr, plays in the athletic and social life at the University of Vermont. At the games, pep rallies, Founder's Day and Memorial Day ceremonies, and at the Annual Kake Walk, the band adds much to the interest and is an important factor in their success.

The band has played in a highly commendable manner at two recent events, the annual federal R. O. T. C. inspection May 12 and 13, and the Junior Week Peerade May 14. Following the latter demonstration several letters of praise were received by Captain Lauer and Mr. Lechnyr from residents of Burlington and vicinity.

The R. O. T. C. Band will give a concert and dance May 22. Scabbard and Blade, honorary military society will cooperate in making it a colorful and pleasing event.

President Bailey will give a banquet at Hotel Vermont, May 23, to the members of the band. At this time sixteen men who have played on the band through two seasons including the Kake Walks, and who have regularly attended rehearsals, will be presented by President Bailey with charms in recognition of this work.

COLLEGE HUMOR

What We Learned at College

Freshman Year

1. We are just women working together.
2. How to tack banners on the walls.
3. How to get an education.
4. Cream is 99$\frac{99}{100}$% fat.
5. It's hard to take a week-end and keep up your work.
6. Religion is the opiate of the people.
7. Babies do not come from cabbages.

Sophomore Year

1. How to take banners off the wall.
2. Cream is 99$\frac{99}{100}$% fattening.
3. It is broadening to take a week-end now and then.
4. War is hell.
5. The human body is 90% water.
6. Pretty girls do not make the Daisy Chain.
7. College food is quite good off campus.

Junior Year

1. There has been no real art since the Renaissance.
2. The first three men you invite to Prom will come with your roommates.
3. *Liebestraum* is a luscious swoon.
4. A coonskin is better than a sheepskin.
5. The food off campus is very good.

Senior Year

1. Independent study is lonely.
2. How to feel at home in another girl's bath.
3. Fruit flies do so have genetics.
4. A sheepskin in hand is worth two on the hoof.—*Vassar Chat.*

Stude: Dad, you're a lucky man!
Father: How's that, son?
Stude: You won't have to buy any books this year. I'm taking all of last year's course over again.

Students at the University of Idaho have just found out that the reason that the co-eds take so long to dress is that they are forced to go slow around the curves.

Montreal A. A. A. Track Team Defeats Vermont

Score Is 76½ to 58½—Captain Park Gathers 16 Points for Green and Gold by Winning Discus, Shot and Hammer and Placing Third in Javelin

CATS TAKE ONLY FIVE FIRST IN 15 EVENTS

Before a small Junior Week crowd Saturday afternoon, Montreal A. A. A. with its usual flock of excellent runners succeeded in outscoring the Green and Gold tracksters by a [illegible] count. The track and field was [illegible] reasonably slow due to the heavy [illegible] showers and consequently did not permit the contestants to work to their best advantages. Barclay of the Canadians showed perhaps the best work of the afternoon when he won the mile run in 4.45⅘ on the slow track.

"Chick" Grant earned his letter in the meet by taking second place in both the 100- and 220-yard dashes, and did "Don" Child who placed second in both the broad jump and the hammer, and Gardner who took first in the javelin throw.

Captain "Peep" Parks for the Green and Gold secured 16 points by taking firsts in shot, discus and hammer events placing third in the javelin.

The summary:

100-yard dash—Middlemiss (M), first; Grand (V), second; Young (V), third. Time, 11 seconds.

220-yard dash—Middlemiss (M), first; Grand (V), second; Diplock (M), third. Time, 22⅘ seconds.

440-yard dash—Huey (V), first; Wade (M), second; Bedell (V), third. Time, 52⅗ seconds.

880-yard dash—Wade (M), first; Bourne (M), second; Huey (V), third. Time, 2 minutes, ⅘ seconds.

Mile run—Barclay (M), first; Brooks (V), second; Hadley (V), third. Time, 4 minutes, 45⅗ seconds.

2-mile run—Frankton (M), first; Forth (M), second; Hadley (V), third. Time, 10 minutes, 9 seconds.

220-yard low hurdles—Montabone (M), first; Hutchins (M), second; Proctor (V), third. Time, 26⅘ seconds.

120-yard high hurdles—Hutchins (M), first; Montabone (M), second; Cohen (V), third. Time, 16⅗ seconds.

Shot put—Park (V), first, 41 feet 6½ inches; Painter (M), second, 37 feet 6½ inches; Riani (V), third, 34 feet 9½ inches.

Discus—Park (V), first, 120 feet 2 inches; McLaughlin (M), second, 10 feet 2 inches; Painter (M), third, 96 feet 8 inches.

Javelin—Gardner (V), first, 36 feet 5 inches; Philips (V), second, 132 feet 9 inches; Park (V), third, 129 feet 6 inches.

Hammer—Park (V), first, 124 feet 1 inch; Child (V), second, 86 feet 3 inches; McLaughlin (M), third, 82 feet 10 inches.

Broad jump—Horn (M), first, 20 feet ¼ inch; Child (V), second, 19 feet 7 inches; Maynes (V) and Barton (M), tie for third place, 19 feet 3 inches.

High jump—Horn (M), first, 5 feet 8 inches; Franceschi (V), second, 5 feet 6 inches; Les Mesurier (M), third, 5 feet 4 inches.

Pole vault—Logan (M), first, 11 feet 3 inches; Meehan (V), second, 10 feet 9 inches; Doyle (M), third, 10 feet 6 inches.

The distribution of points in each event:

	Montreal	V
100-yard dash	5	4
220-yard dash	6	3
440-yard dash	[illegible]	[illegible]
880-yard dash	[illegible]	1
Mile run	[illegible]	4
2-mile run	[illegible]	[illegible]
220-yard low hurdles	[illegible]	1
120-yard high hurdles	[illegible]	[illegible]
Shot put	[illegible]	[illegible]
Discus	6	[illegible]
Javelin	6	3
Hammer	1	[illegible]
Broad jump	[illegible]	[illegible]
High jump	[illegible]	[illegible]
Pole vault	[illegible]	[illegible]
Totals	76½	58½

Starter—H. A. Prentice.
Judges—Col. F. F. Black, Profs. L. W. Dean and C. L. Stiniford.

NORWICH NINE HERE FOR RETURN BATTLE

Vermont Has Won All Four State Series Contests to Date

This afternoon the Norwich base baseball team will be at Centennial Field for a return game after being defeated once this season by the Catamounts, 15 to 5. Vermont has won all four of the state series contests played to date and has high hopes of winning tomorrow. Norwich has victories over the other two state college nines but Vermont appears to be in no serious danger of losing the state title this year, although the game Friday with Springfield has put a damper to the team's spirit. On this same day Norwich defeated the Connecticut Aggies 7 to 4.

The possible line-up:

Vermont	Norwich
Jay, c.f.	r.f., Clark
Pires, s.s.	s.s., Hartford
Winant, 1b.	1b., Delvecchio
Dinniman, l.f.	l.f., Coane
Baker, 3b.	2b., Gale
Macomber, 2b.	3b., Whitesides
Kendall, c.	c., Katon
Collins, r.f.	c.f., Sipsey
Cummings, p.	p., Johnson

Lacrosse at Springfield

Oh' lookit Mabel here they come. Why they can't use those snowshoes. It hasn't rained for weeks. Oh' they're throwing around a tennis ball. GEE' don't they look funny in their long underwear? I bet that the fellow with the red ones on don't know that winter is over. Hey Viola, look they are lining up in the center maybe they're going to march. Now the captain is inspecting them. They must look all right he didn't say anything. That fellow in the cage must be fierce they won't let him out. He looks like such a nice young man too. Oh' isn't the referee nice? He's letting the little short fellow take a rest. Gee' this certainly is a refined game. Swing on him you big Ham! Swing.—*Springfield Hurdle.*

NEWS IN BRIEF

Two student recitals will be given each week commencing on Professor Ben Read's first a piano and vocal recital, and on Thursday at 4:30 p.m. the second an organ recital by the pupils of Professor Read's class.

Students under eighteen years of age are not allowed out on the streets after 9 p.m. at the University of Omaha.

Steve Filipowicz, star halfback at Dartmouth, doesn't confine all his efforts to the gridiron for along with his scholastic duties he finds time to act as chief of the local fire department.

COHEN TO BE MANAGER OF FRESHMAN HANDBOOK

Paid to Winners of

CAMEL CONTEST!

R. J. Reynolds Tobacco Company takes pleasure in announcing that the decisions of Judges CHARLES DANA GIBSON, ROY W. HOWARD and RAY LONG in the $50,000 Camel Prize Contest have been reached and that prizes accordingly have been awarded as follows:

First Prize, $25,000

JAMES THOMAS SHARKEY, 101 Train Street, Dorchester, Mass.

Second Prize, $10,000

MRS. WALTER SWEET, Navy Yard, Brooklyn, N. Y.

Third Prize, $5,000

JULIUS M. NOLTE, Glen Avon, Duluth, Minn.

5 Prizes of $1,000 each

A. B. FRANKLIN, III, 52 Kirkland St., Cambridge, Mass.
JOHN R. McCARTHY, 721 Main St., Willimantic, Conn.
FREDERICK E. ROBINSON, Coronado Beach, Calif.
WM. A. SCHRADER, Brent Apts., New Albany, Ind.
DR. D. H. SOPER, 523 E. Brown, Iowa City, Iowa.

5 Prizes of $500 each

F. CARTWRIGHT, Transp't'n Bldg., Washington, D. C.
EDITH COCHRANE, Glenvale Ave., Darien, Conn.
BARBARA LAWLESS, Ardmore, Pa.
JANE PARSONS, 325 E. 79th St., New York, N. Y.
RICHARD W. VOGT, Green Bay Road, Waukegan, Ill.

25 Prizes of $100 each

MARIE ALBERTS, 6252 So. Spaulding Ave., Chicago
W. B. BARKER, JR., 420 N. Spruce, Winston-Salem, N.C.
EUGENE BARTON, 3625 La Luz St., El Paso, Texas
MRS. EDW. F. DALY, 1133 Louisville St., St. Louis, Mo.
WM. G. ERBACHER, 308 N. Front St., Conway, Ark.
LEROY FAIRMAN, 69 Dartmouth St., Forest Hills, N. Y.
KATHRYN R. FRANCIS, 448 E. 22d St., Baltimore, Md.
MRS. ALEXIS GODILLOT, 191 Waverly Pl., New York
C. W. GRANGE, 2316 Central St., Evanston, Ill.

EMERY HERBERT YOUNG, Painted Post, N. Y.

IN congratulating the winners in the great Camel contest we want at the same time to thank most cordially the approximately million men and women who displayed their friendly interest by sending in an entry.

We wish also to thank the millions of smokers throughout the country for the appreciation they are showing for our new Humidor Pack as is evidenced by the notable increase in the sale of Camel cigarettes.

By means of this dust-proof, germ-proof, moisture-proof Cellophane wrapping the rich aroma and full flavor of choice Turkish and mellow Domestic tobaccos have been air-sealed in Camels for your enjoyment.

If you have not tried Camels in the Humidor Pack all we ask is that you switch over to this brand for one day.

After you have learned how much milder, how much cooler, how much more enjoyable it is to smoke a perfectly conditioned fresh cigarette, go back to the harsh hotness of stale cigarettes if you can.

VOLUME 49 | BURLINGTON, VERMONT, FRIDAY, MAY 22, 1931 | NUMBER 58

Professor J. Bullard Elected President of Research Club Tues.

Professors Holmes and Adams Will Also Lead Club Work

CLUB HEARS GRADUATES STUDENTS DISSERTATIONS

Twelve Research Students Read Theses in Long Programs

Prof. J. A. Bullard of the engineering department was elected president of the University Research Club at its annual meeting Tuesday night at Morrill Hall. Prof. A. M. Holmes of the history department was elected vice-president and Prof. W. R. Adams of the botany and forestry department, secretary and treasurer.

Under the direction of Prof. G. P. Burns of the botany department twelve research students applying for higher degrees read their thesis. Each dissertation was ten minutes in length. The research students and their speeches were as follows: Mable Freeman—George Washington in a new light; Shirley Andrews Rémy de Gourmont, Canon of literary criticism. Miss Cook—Rowland Evans Robinson, Portrayer of Vermont background and character; Lilian Cohen—Boyles theatre with special reference to M. Romain Rolland; Winona Stone—The origin, development, and significance of chloroplasts in potatoes; Kenneth Wiss—Exodus in Greek Tragedy; D. Doten—The philosophy of Ethan Allen; J. Berry—The Irish land problem of the 19th century; F. O. Bundy—The effect of stress on the "Barkhousen effect" in magnetic materials; O. E. Pottala—Phosphatic Fertilizers; Philip Andrews—The Wilson mission to France.

Prof. N. Jones, retiring president, presided at the meeting. Refreshments consisting of ice cream and cake were served at the end of the meeting.

HOUSEHOLDER TO HEAD ETA SIGMA PHI 1931-32

Fred W. Householder, Jr., '32, was elected president of Eta Sigma Phi, honorary classical society which met last Tuesday evening in 34 South Williams.

Doris Brennan, '32, was elected vice-president, Verna Carrier, '32, was elected secretary and Fraser B. Drew, '33, became treasurer.

Cecelia Baylies, '32, was elected press reporter. Hugh Wilson, '34, typewriter and Sylvia Boyd, '32, song leader.

The nominating committee consisting of C. W. Knapp, Jr., chairman, Miss Carrier, and Sylvia Boyd presented the above slate of officers for the next semester which was accepted in its entirety.

This year the society will hold fortnightly meetings instead of monthly as has been the procedure during the past year. A play will be presented by the members the first semester of next year.

The retiring officers: C. K. Bush, '31, president; Dorothy Nash, '31, vice-president; Doris Brennan, '32, secretary, F. B. Drew, '33, treasurer, and Verna Edwards, '33, reporter.

WOMEN WILL COMPETE IN ARCHERY TOURNAMENT

The eight highest archery scores made by any girls are to be sent in to compete in the National Archery Tournament. Twenty-four arrows are to be shot at each 50, 40 and 30 yards. The range will be open to those wishing to use it any afternoon after 4, each week. Pins with archery tassels will be awarded to all who make over the main score.

The Waubanakee Golf Club has made very reasonable rates for students. Any girls wishing to play should hand their names to Miss Cummings. Physical examinations and health conferences are being given to all the more women this week.

ENGINEERING SCHOOL TO OFFER SPECIAL COURSE FOR ELECTRIC METERMEN

Members of Electrical Engineering Faculty to Give Instruction, June 17-20

The University engineering department in cooperation with the National Electric Light Association will offer its fifth annual special course for electric metermen this year from June 17 to June 20, inclusive.

This course in common with similar courses at other universities is designed to be of help to the electric meterman in solving problems which may occur in connection with his daily work.

Instruction will be given by members of the faculty of the department of electrical engineering assisted by representatives of the National Electric Light Association and by experts from various manufacturing companies. Included in the list of faculty members who will have charge of the courses are Leonard P. Dickinson, professor of electrical engineering, Roy O. Buchanan, associate professor of electrical engineering and Harold I. Williams, assistant professor of electrical engineering.

Starts June 17

Those who wish to attend the course should report for registration at Room 1, Williams Science Hall on Wednesday, June 17, at 9:00 a.m.

The fee for the course will be $15.00 payable at the time of registration. Equipment for each student will include pliers and screw drivers, suitable for meter work and copies of "The Handbook for Electric Metermen."

Information will be given upon application in regard to available rooms and hotel accommodations in Burlington. A room may be obtained for the entire course at from $4.00 to $6.00. Table board and restaurant service may be secured at $1.50 to $2.00 per day according to individual taste. Prof. L. P. Dickinson will receive all other correspondence relative to the course.

New Material Offered

In order that the course may be of benefit to those who have been in attendance in previous years, the present one has been planned so as to offer practically new material throughout.

(Continued on page 4)

FROSH HANDBOOK NEEDS RESULTS OF ELECTIONS

Lists of Organization Changes and Team Schedules Must Reach Editor Drew Immediately

Every society and organization on the hill positively must present a list of its officers and changes in its organization and activities to F. B. Drew editor-in-chief of the 1935 *Freshman Handbook* before May 27.

Editors of publications must hand in lists of their staffs and information concerning publication and scrubbing for positions on their editorial and business boards.

All major and minor sports captains must prepare information concerning present teams, result of contests during 1930-1931 and prospects for next year, together with notes on material needed. A complete schedule of football, basketball, and baseball must be in the hands of the editor.

The Vermont Christian Association publicity director will prepare news stories on all the association's activities for next year. The committee on preliminary freshman days will have information concerning enrollment, the new orientation program and faculty counsellor system. President Bailey will have a greeting to the incoming men.

The Interfraternity Conference will indicate changes in the rushing rules and regulations.

William Cohen, the business manager, states "I will soon secure a contract for the publication of the *Handbook* and will start securing advertising immediately. We intend to put out a first class publication for the 1935 men."

1932 Ariel Is Dedicated To Progress Ideal

Spirit of Annual Typified by Vermont Alumni Who Know Victory of Striving

JUNIOR QUESTIONNAIRE REVEALS CLASS LEADERS

Names Include Winant, Eaton, Jay, Cobb, and Barker; Also Mount, Holmes, Tewksbury, Berry, Mower and Powers

Published on time and looked forward to as one of the best *Ariels* produced, the 1932 *Ariel* is a memorial of three years spent at College by the class of 1932. In a very novel and modern way the class has dedicated their classbook to, "The Spirit of Progress as it is typified by the Alumni, sons and daughters of Vermont, old and young, exalted and humble, who know the victory of striving."

The theme of progress is present, showing its first steps in the building of the University to its present condition, within the frontispiece of the book. Previous to views of the campus is the introduction of a sonnet written by John Edward Colburn, '96, as a class poem for the class of, '96.

The photographs of the members of the class are very neatly arranged, two on a page, and are much larger than have been previously used in *Ariels*.

Toward the end of the book, long past the selections which concern themselves with the campus, the faculty heads, the University, the classes, the medics, athletics, and activities, is an interesting "Introduction" where are pictured some of the many Vermont alumni who have distinguished themselves since leaving College. Among those introduced are: John H. Dennison, '77, John Dewey '79, Eugene N. Foss; Horace K. Tenney, '80; Darwin P. Kingsley, '81; George B. Lane, '83; Charles W. Waterman, '85; Henry Wallace Clark, '97; P. Orman Ray, '98; and Dr. John M. Wheeler, '05.

At the end of the book, previous to the ads, there is a section that includes the answers by their classmates to questions concerning the relative merits of the members of the class of 1932.

It was learned that the most popular among the men of the class were: Winant, Eaton, and Jay, while Mount, Holmes and Tewksbury held a similar place among the women. The most all-round were found to be Winant, Eaton and Jay for the men and Mount, Holmes and Tewksbury for the women.

(Continued on page 4)

CHAPEL BOUND PROF. LAYS LIBRARY LAWN

Dean Doddles Down Dainty Dandelions

Students on their way to Chapel the past week found their way obstructed by crowds of other students who were assisting Prof. Leon W. Dean to manicure the Library Lawn. The Good Samaritan, seeing Mr. Sheepish in his friendly mowing down dandelions on a day when all should have been serene and undisturbed by the sound of the fiendish contraption, relieved him of his burden. Scorning to discard the professorial briefcase, Professor Dean pushed the lawn mower hither and yon with all the abandon of a dryad.

Amused at the sight of what seemed some strange method of scientific investigation, the eds and coeds gathered round. At times the professor closed his eyes and seemed absorbed in profound meditation, or perhaps it was the sun. At others he scanned the lawn with his piercing eye and it was decided by the innocent bystanders that he had lost a dime, or his radio voice or something.

Apprehension was felt by close friends of the Professor should his wife discover the sudden burst of ambition and desire it transferred to her own lawn, rugs *et cetera*. Ideals were shattered and illusions killed when the genial gentleman remarked, "Say, Grandma, how do you turn this thing, to the left, or to the right?"

SENIOR WEEK FEATURES WILL CLOSE YEAR WITH 140TH COMMENCEMENT

Class Day, Prom, Reception, Alumni Day, Baccalaureate and Boatride Add to Attractiveness

Commencement is less than a month distant and as time progresses active plans are being carried out with a view of a successful Senior Week. The climax will be the presentation of the long sought-after sheep skin symbolizing four years' achievement.

Senior Week opens Thursday, June 11, with an event not primarily a senior function, Kingsley Prize Speaking of recent years a Junior Week event, has been transferred back to its ancient dignified place on the Senior Week calender.

Class Day formally opens Senior Week on June 12, Friday. On this day the Class Walk occurs when the outgoing graduates visit the Deans of the several colleges for a final word of parting. The sad task makes Vermont more dear to the hearts of the seniors.

The class president makes his last address to a University body on Class Day. The Class History and the Class Poem make their appearance before the close of the day. The orations include the Boulder, the Campus, the Ivy and the Pipe. Also in the course of the day's transpiration come the addresses to Ira Allen and to the undergraduates. A baseball game with St. Lawrence University concludes the day.

In the evening of Class Day President Bailey will give his annual reception to the graduating men and women. The Billings Library, three hundred sixty four days of the year, the much used hall of study and research opens its loving doors for the president's reception on this night in June. The seniors, the alumni and their guests cast a last glance at their cherished meeting house of study.

To the music of Lechnyr's Vermonters the Senior Prom makes itself clearly felt to all seniors. After the reception the floors of the Library are cleared for dancing.

Saturday, June 14, is Alumni Day. At this time all the old graduates return to grace the halls of the Alma Mater. The Robert Hull Fleming Museum, the result of more than a year's earnest toil will be dedicated on Alumni Day. Those of the old rivers who played baseball will endeavor to force the present team to a retiring place.

Baccalaureate Day comes on June [illegible] when the annual baccalaureate sermon will inspire all present.

Commencement Day concludes the events of Senior Week. Following the usual formal activities, the graduating class go on their last voyage together. The Senior Boatride will begin at 4:30 p.m., June 16. The exact destination is as yet a secret but somewhere out [illegible] the opening of Senior Week. Lake Champlain, the ocean, and [illegible] and speed the [illegible] to [illegible]. Returning to Burlington [illegible] the boys will [illegible] the last complete meeting of the Class of 19[illegible].

REV. CLARK SPEAKS ON DIVINE GUIDANCE WED.

That we receive two forms of divine guidance in our journey of life, one, through an impulse from within or from a mystical intuition and second, by the direction of [illegible] was the theme of the sermon of Rev. [illegible] Clark of South Hero Wednesday morning, May 20. Do not be in too much of a hurry in choosing your vocation, and do not major your interests entirely in one subject constituted his [illegible]. Many great men have fitted themselves for one career but achieved renown in another way due to circumstances which altered their course. In most cases perseverence is a virtue, but persistence may become a sin.

P. H. Ewert Discusses Twin Identification at Dewey Club Meeting

Psychology Prof. Throws Some Light on Problem of Maturation vs. Learning

ELIZABETH CZERNA, '31 IS ACCEPTED AS MEMBER

Senior is Admitted to Philosophy Club on Basis of Manuscript on Color Patterns at Semester's Last Gathering

"Besides throwing light on the problem of [illegible], a study on motor and mental activity in twins may throw light on the problem of maturation vs learning, and consequently on the general problem of the genetic development of human behavior," declared Prof. P. H. Ewert, of the psychology department of the University, in a talk on the study of motor activity in three pairs of identical twins at the semester's last meeting of the John Dewey Club, Wednesday evening.

It was also pointed out that a study of twins furnishes a fine means of observing the true effects of heredity and environment. It is believed that one individual has split into two. The method of identification used in this study is a combination of criteria developed by several famous scientists that have to do with a comparison of eyes, ears, nose, mouth, teeth, hair, palm, sole and finger prints, use of hands, sex, and general history. Professor Ewert also showed that it is very possible to have mirror imaging in identical twins, which means that the right hand of one would be like the left hand of the other, or that if one were right handed the other probably would be left handed.

In experimenting, it was noted that the intelligence quotient for the twins were always very nearly the same and that the tests resulted in similar mental and motor activity as shown by the different reaction patterns. Thus it was proved that twins profit by experience in much the same way, and if the results of this experiments [illegible] are correct for identical twins in general, they strongly suggest that certain motor tests are valuable for twin identification.

At this meeting Elizabeth Czerna '31, read a manuscript pertaining to color patterns, for the purpose of her [illegible] to the club. It was announced by Miss Burroughs that the club pins are in and those members desiring them should see her. Refreshments were served and a social hour was enjoyed at the meeting's conclusion.

FRENCH CLUB TO DANCE AT YEAR'S LAST MEETING

Saturday evening at 7:30 at the Vermonters Club House the French Club will hold a dance following the business meeting for election of officers.

As this is the final meeting of the [illegible] all members are urged to attend. Professor and Mrs. [illegible] will be present. Refreshments will be served following the dance.

The list of retiring officers for 1930-31 are as follows: President Paul [illegible], secretary [illegible], Mandigo '31 treasurer, Lillian [illegible] '32 and chairman of entertainment [illegible].

MILITARY SOCIETY TO SPONSOR DANCE TONIGHT

[illegible] dance at the Memorial Auditorium from 9 p.m. to 12 p.m.

From 8 o'clock to 9 o'clock a band concert by the University band will [illegible]. The price of admission is $1.00 per couple and tickets may be obtained from members of Scabbard and Blade. Roy Worrell, '31, is the dance chairman.

Office of Publication, Free Press Printing Co., Burlington, Vt.

Vol. [illegible] May [illegible], 1931 No. 59

[illegible] the most progressive and also the most radical [illegible] in any progress in the advancement that Gold Key has [illegible] to [illegible] with the demands of the students [illegible] expressed through the recent decision of the Faculty [illegible]

It would have been a service to us if the present excitement [illegible] Gold Key should have done otherwise. For three years [illegible] at the first class smoker and formally rebelled against the old system of Freshman Rules and paddling which were [illegible]

Gold Key recognizes the power of campus opinion, aroused against its anachronistic practices during the past two years and it [illegible] that it had not received all the support and sanction that was [illegible] for its continuance as a policemen vigilance group. It had [illegible] during its earlier function as a sickening society and discovered [illegible] to the verge of its own destruction that college students will not long tolerate oppression and subservience imposed by a group of [illegible] classmates.

We are pleased to note that Gold Key is determined "to justify its existence." We always contended that its most beneficial activity would be to entertain a visiting team and usher at athletic contests. We would also recommend that teams of intercollegiate debaters be also included on the list of those who would be entertained.

The greatest advancement in undergraduate problems in the history of the University is the system of voluntary customs replacing the mandatory rules which are being abandoned for effective orientation programs and freshman camps.

With the revision of the Gold Key constitution there exists no group which can legitimately or unhesitatingly attempt to enforce the customs. Public opinion will effect their enforcement, while Gold Key goes about its business as a stealthy social welfare group. The society has our sincerest commendation for its action and the assurance of our future support for its new and wholesome determination.

With the campus already overburdened with honorary societies, not a few of which have little justification for existence other than to provide copy for class annuals, we are startled to learn that a group of students seeks to organize a new military society. Scabbard and Blade exists to promote interest in things military and we doubt that an infant society could long survive in the face of the competition this active group offers.

Gentlemanly consideration is that virtue which lives and makes itself felt by an ever present joy in seeking to have others share in the pleasures that these same others have conceived and made possible.

LOST

One copy of Graves' "Social Problems In Education," and a notebook of philosophy and psychology notes. Reward offered to finder.

J. C. Carter, '32.

NOTICE

LOST

From the shelves of the Billings Library: Encyclopedia Americana, Volumes 4 and 23. International Encyclopedia, Volume 5. Stevenson—Home book of verse. 6th edition. Stevenson—Home book of modern verse.

Anyone knowing the whereabouts of these volumes will please return them to the Library immediately as they are much needed. They are expensive books and in the case of the Encyclopedia it is absolutely impossible to replace separate volumes.

Helen B. Shattuck,
Librarian.

1932 Ariels are at the University Store ready for distribution.

G. E. Wilder,
Business Manager.

Campus Comment

[illegible] the Editor of the Cynic:

Knowing the good work Gold Key has been the cause of in the past, we commend and praise [illegible] for the recent action and stand of the campus at large. It is [illegible] that we [illegible] with the [illegible] of [illegible] We are [illegible] that [illegible] in person with [illegible] and which we call [illegible] and [illegible] a second Napoleons or other high [illegible]

Our constitution has been revised [illegible] with the new ruling of the Faculty Student Council, we have adopted a hands-off policy regarding [illegible] rules or customs; we are performing our function of usherettes at athletic contests, and we stand in readiness to perform our duties when the occasion arises.

All we ask of the Cynic and the student body in general is a fair deal, a [illegible] open-minded outlook which we have a chance to prove our value as a campus organization. We are confident that we can do this.

We thank the Cynic for allowing us this opportunity to express our views to the student body.

The Gold Key Society,
C. J. Libby, President.

R. Powell,
Norman Myers,
Chester Eaton,
Executive Committee.

Intercollegiate News

A recent statement of President Lowell of Harvard: "The object of the college is not vocational, but cultural; not to train specialists -that comes later- but men whose minds are open to ideas of many kinds, and while to develop power some one subject must be studied thoroughly, it should be done in contact with men having a diversity of interests."

Indications are that a general training, primarily following one's natural inclinations, is the best possible preparation for any vocation. The five hundred replies of the alumni were principally from men in ten vocations, namely: advertising, banking, business in general, college teaching, engineering, law, the ministry, medicine, salesmanship, and secondary school teaching; and their decision is singularly agreed that "the best preparation for any vocation is a general course of study." Advertising men advise sciences, liberal and fine arts for a background, and especially suggest that one should follow his inclinations more than his sense of duty. These and the men in banking and sales activities recommend economics, psychology, English, history and government, and art, but all stress the need of a balanced, liberal education. Engineers suggest a well-rounded course at Wesleyan with two years of specialization afterwards in an engineering school as far superior to and more useful than a four year technical course. Ministers advise substantially the same thing: liberal education here and specialization at graduate school; and their warning is reiterated by college professors (in general), who wish to remind us that there is plenty of opportunity 'for narrowing one's field, but none for broadening out at graduate school. Though admitting the advisability in majoring in biology as a preparation for a medical career, one doctor radically suggests that the Romance languages, English, and German are important filler subjects.

In all the professions, the alumni and faculty agree that students should not consider the financial advisability of any course for any vocation, but should follow congenial subjects. If they have no preferences, they should not be in college.

On Vocational Guidance

The report committee modestly admits that there are certain weaknesses in the questionnaire and the resultant report, chiefly that it is a study of opinion, not of fact, that the opinions of the alumni of the last ten years may be too immature to be valuable, and that naming departments may be misleading since different courses are classified in single departments; but it seems to them and to those who have read this anthology that, despite all its possible fallacies, it affords valuable food for thought for all undergraduates.

WOMEN'S SPRING RALLY NEXT MONDAY AFTERNOON

The Spring Rally, at which the finals in tennis, baseball, and archery will be played off, will take place Monday afternoon, May 25 at 4 o'clock. The baseball and tennis games will be at the athletic field and the archery contest at Redstone. At this time W. A. A. awards will also be presented.

ALPHA CHI OMEGA

Monday evening, May 18, the chapter room in the Alpha Chi Omega house was dedicated to Marjorie Perrin who founded Pi Alpha Alpha at the University of Vermont in 1919, which became a chapter of Alpha Chi Omega in 1921 upon petitioning the national. Miss Perrin who still has an active interest in the chapter, acts as alumni advisor.

Alpha Chi Omega pendants were presented to the senior members as gifts from the active chapter.

SIGMA GAMMA

Susan Howard, '30, is spending a week at her home from Radcliff.

Sigma Gamma will hold its house party at Starr Farm Beach over the week end of May 23-24.

K. E. L.

Sunday morning, May 17, a Brunch was given the seniors by the active chapter at the Hotel Vermont. Esther Fishman and Pearl Canon were in charge of the program; Irene Hall presented the seniors with electric copper candle sticks as gifts from the chapter.

W. H. CROCKETT EDITS VERMONT PAMPHLET

"There is something more than alliteration in the natural association of the words Vermont and vacation. The State offers a great variety of scenic attractions, but the central feature literally is the Green Mountains, one of the great attractions of New England. These mountains are more than an incidental feature. They fill the State with their presence and are everywhere in evidence." Thus states Walter H. Crockett, editor of a new pamphlet published by the Vermont Publicity Bureau.

"The popularity of the mountains is no passing fancy. In the morning of history the high places were chosen for worship. The hill country always has attracted those who appreciate the beauty of Nature, and enjoy the extensive outlook which a mountain top affords. Beauty, comfort and health are the attractions which the Green Mountains offer. They have been described for the benefit of those hiking the Long Trail, as a range of mountains six hours wide and six weeks long.

"So ardent a lover and so faithful an interpreter of Nature as Henry D. Thoreau has declared that 'a lake is the landscape's most beautiful and expressive feature.' Accepting this as just estimate, then no region in this or any other country possesses a beauty more alluring, or expresses the grace of the fashion of Nature's charm more eloquently, than Vermont. For the Green Mountain State has lakes in abundance, great and small, ranging from Champlain, upon whose ample bosom the navies of the Seven Seas might sail, to the little pools which hide themselves in the seclusion of the forest, like shy and dainty wild flowers, concealed from the gaze of those who travel only the familiar highway. Here, to the ever-changing beauty of a lake region, is added the strength and the majesty of the mountains.

"Nowhere in Vermont can one get away from the lakes or the mountains. There are in the State approximately four hundred lakes and ponds large enough to receive names and to appear on maps; and at least one thousand mountain peaks exceeding two thousand feet in height. The proximity of lake and mountain and river valley adds a peculiar charm and a pleasant variety to the Vermont landscape, and affords frequent recurrence of most delightful scenic surprises. A natural habitat for fish and game, the whole region is noted as being a 'sportsman's delight.'" the last pages of this booklet are devoted to Fishing in Vermont. It may be obtained from the Secretary of State at Montpelier.

The annual Spring Field Day will be held on the athletic field on Monday, May 25 if the weather permits; if not it will be the following day. The interclass finals in archery will be shot and those in tennis and baseball played. A supper will probably be served at Robinson Hall. Margaret Crane, '33, is in charge.

Just a Little Slip

Since fashion has decreed
That skirts shall cover knees,
Man's viewpoint now depends
Upon sun instead of breeze.
With the light behind a subject
Who's assumed the proper stance
The plumb of underpinning
May be measured
At a glance.

From having female profiles
So plainly in view,
The modern man is learning
More than he ever knew
He has, at least, decided
That for the ladies fair
A slip's a tragic thing to make
But a darn good thing
To wear.

—*Montana Kaimin*

WELL, WELL, WELL!

There is the tale from Boston [illegible] Bish, with the cry of a wounded animal reached for his hat. Hunger he reached for her. His lips found hers. "Bish, your exams!" she cried and pushed him to the door. The kissed once again. "Don't worry, dearest; I know you'll pass that math tomorrow," she said, encouragingly.

Bish reached the gate and slowly retraced his steps to the house. "Jane!" he cried, fracturedly. "I have a confession to make. I couldn't live without telling you." She clutched the sheet, white as a table cloth.

"Jane," he began, "I fooled you. I [illegible] the professor of mathematics. I [illegible] you because I was afraid you would hate me. I posed as a student to win your love."

"Then who—who is the man to whom I have bestowed so many favors so that he would pass you in mathematics final, if you can't do mathematics professor?" And Jane threw open the door of the closet. Bish stood at the cringing figure crouched there. "That is the Dean of Men," he said slowly.

Co-eds at Antioch College are [illegible] matters into their own hands. They say that it is time to turn the tables and now it is the co-ed who [illegible] the dates, takes the men to [illegible] PAYS THE BILLS and even [illegible] the car. Shades of the Emancipated Woman.

SPORTING NEWS

Cats Defeat Norwich On Centennial Field By Score of 7 to 5

Game Loosely Played—Vermont Now Sure of State Championship Title

CUMMINGS HITS HOMER WITH WINANT ON BASE

In a loosely played contest the Catamounts won their fifth straight league series game by defeating Norwich 7 to 5, on Centennial Field, Tuesday. A feature of the game was Charlie Cummings' home run to deep center field, scoring Winant ahead of him in the second inning. Other features were the several costly errors on the part of the losers and the ejection of Hayden's banishment of Cap Whitesides of Norwich in the tor eighth inning.

By this victory Vermont is practically sure of the state championship for there is only Middlebury to play. Even a loss to the Panthers would not take the title away because the Catamounts would still be ahead in the percentage of games lost.

The game by innings:

First inning: Norwich—Clark struck out. Hartford walked. Del Vecchio was out on a fielder's choice. Coane fouled out to Winant.

Vermont—Jay grounded out to first. Pires struck out. Winant was safe on Hartford's wide peg to first, and stole second. Cummings hit a homer over deep center field scoring Winant. Macomber struck out. Two runs.

Second inning: Norwich—Gale hit a grounder over Cummings' head, while Whitesides singled to center field. Eaton hit into double play, Macomber to Winant. Sipsey grounded out to first.

Vermont—Baker hit a double to left field, going to third on Coane's error. Macomber grounded out to Stuffle-bean. Baker scored on a wild throw over third base by Eaton. Kendall and Collins both struck out. One run. Vermont 3, Norwich 0.

Third inning: Norwich—Stuffiebean, Clark and Hartford all hit safely. Del Vecchio was out on an infield fly. Coane flied out to Dinniman. Gale out to right scoring Stuffiebean and Clark. Whitesides walked. Eaton hit to third scoring Hartford. Sipsey grounded out to Macomber. Three runs.

Vermont—Jay was safe on Whitesides' error and stole second. Pires struck out. Winant grounded to second, Jay going to third, and scored on a wild pitch. Dinniman doubled over third base, advancing Cummings who had walked. Baker struck out. One run. Vermont 4, Norwich 3.

Fourth inning: Norwich—Stuffiebean hit past third. Clark hit to Macomber who threw wild to Pires, advancing the runner to third. Hartford hit to Pires who threw Stuffiebean out at the plate. Del Vecchio flied out to Winant. Coane flied out to Dinniman.

Vermont—Macomber and Kendall hit to center. Collins bunted and Stuffiebean threw past third, both runners scoring, Collins going to third. Jay walked. Pires hit a sacrifice fly to Clark, scoring Collins. Winant fouled out to Del Vecchio who threw to first for a double play. Three runs. Score—Vermont 7, Norwich 3.

Fifth inning: Norwich—Gale and Whitesides struck out. Eaton grounded out, short to first.

Vermont—Cummings hit to right. Dinniman hit into a double play. Baker flied out to center.

Sixth inning: Norwich—Sipsey and Stuffiebean both hit to right field, Sipsey being out at second. Clark hit to Macomber forcing Stuffiebean. Hartford flied out to Macomber.

Vermont—Macomber flied out. Kendall was safe on Hartford's wide peg to first. Collins hit to pitcher who threw wild over second, advancing both runners. Jay flied out to third. Pires walked. Winant struck out.

Seventh inning: Norwich—Del Vecchio walked. Coane flied out to left. Del Vecchio went to third on a passed ball. Gale struck out. Whitesides hit to center scoring Del Vecchio. Eaton grounded out, third to first.

Vermont—Cummings flied out to Coane. Dinniman grounded out short to first. Baker grounded out to Pitcher.

Eighth inning: Norwich—Sipsey hit between first and second. Reardon batting for Clark hit through third. Stuffiebean banged one past third scoring Sipsey. Hartford fouled out to Kendall. Del Vecchio hit to Cummings who threw Stuffiebean out at the plate. Coane fouled out to Winant. One run.

Vermont—Macomber reached first when pitcher failed to cover first base. Kendall sacrificed. Collins fouled out to Eaton. Jay grounded out to second.

Ninth inning: Norwich—Gale walked. Sargent replaced Cummings. Johnson grounded out to first, Gale advancing to second. Eaton's grounder bounded off Sargent to Pires who threw to Baker, who made a nice play and tagged Gale. Stevens batting for Sipsey was out, Baker to Winant. Final score—Vermont 7, Norwich 5.

VERMONT NETMEN BEAT ST. MICHAEL'S, 4 TO 2

Vermont's tennis team defeated St. Michael's on the back campus courts Tuesday afternoon by a 4 to 2 count, taking both doubles events. Contrary to expectations, play was rather dull and featureless, and every match was a straight set. The last two matches of the unfinished engagement between the two teams was played off Monday. Bisson of Vermont defeated McEnany 6-1, 6-1, and Woodward of Vermont nosed out Fitzsimmons 6-4, 2-6, 6-2. Vermont led in the match at Winooski Park by 3-1 when rain interrupted the hostilities.

Tomorrow afternoon Worcester Polytech Institute is scheduled to meet the Catamounts on the back campus courts. This will be the last match of the season.

CATAMOUNT NINE WILL TACKLE N. H. AND TUFTS

Varsity Will Play on Centennial Field, While Frosh End Season Away from Home

As the College year begins to draw toward the end, the athletic teams are busy finishing out their schedules. Today and tomorrow the Vermont baseball team will be seen in action on Centennial Field and at the same time the freshman squad will be completing its season away from home.

This afternoon at 4 o'clock the New Hampshire team will cross bats with the Catamounts, while tomorrow afternoon the Vermonters will have to face the Tufts nine. Rutkowski will be on the mound against the Wildcats and probably Sargent will twirl to the Tufts batsmen.

The freshman baseball team is scheduled to meet Vermont Academy this afternoon at Saxtons River. Last Saturday the Kittens were on the tail end of an 8-2 score at the end of five innings when rain stopped the game with the Academy on Centennial Field.

Tomorrow afternoon the Kittens will journey along to Poultney to play another return engagement with Troy Conference Academy. This will be the last game of the season. In the first contest the yearlings defeated T. C. A. 12 to 10.

RURAL THOUGHT NEEDED IN NATIONAL LIFE, HALL

"Rural thought is as much needed in national life as that of the Cities," said Prof. R. A. Hall of the English department speaking before the Burlington Lions Club, at the Hotel Vermont last Monday.

The city, he stressed, has contributed altogether too much toward national ideals, principally because the main channels of communication, the big newspapers for instance, are in the city. This is unfortunate. The city, with its struggle between capital and labor builds its political philosophy on money, and the result is a false, sordid materialism, according to Mr. Hall's theory.

Not so, he pointed out, with the rural district. Unlike the urban citizen, who deals mainly with men and money, and who, in fact, is helpless without money, the farmer works with nature. It has a tremendous influence over his life. Every day, the farmer sees the power of nature, and realizes that it is greater than money.

But there are identities, Mr. Hall said, in city and rural interests, and these should be recognized. The nation should turn to the farmer, and heed now what he has to say, he emphasized.

French Club election of officers and dance at Vermonters' Club House Saturday evening at 7:30. Members will come, others interested in French invited.

INDEPENDENTS, SIGMA NU FRAT BASEBALL WINNERS

In a baseball game Monday afternoon the A. T. O. baseball team became the winners of the intramural games played on the previous day the Independents defeated the winners of Group I by beating Delta Psi, 10 to 4. Yesterday the two league winners were scheduled to play off for the championship on Centennial Field but the result of the game is not known as the Cynic goes to press.

On Monday the Vermont Independents pounced on Ray Talbert, the Delta Psi pitcher, mixing perfect a shower of extra base hits and won by a 10-4 score. Talbert put the Delts ahead 3 to 2 in the first inning with a home run clout when two were on. However, the non-frat men came back and found him for many hits, including homers by Griffith and Riant, and two triples by Zambon. Griffith yielded only one safety after relieving Joslin in the first frame.

Score by innings	1	2	3	4	5	R
Independents	2	5	1	0	2	10
Delta Psi	3	0	0	0	1	4

Batteries—Joslin, Griffith and Brown; Talbert and DeWitt.

Before a large crowd Tuesday afternoon the Alpha Tau Omega nine downed Sigma Nu 5 to 3. Much of this victory was due to Baldwin's superb twirling as he pitched himself out of some tight holes.

V. C. A. SECRETARY TO FIND STUDENTS WORK

Following the policy of former years the V. C. A. office is ready to receive the names of students wishing summer employment. Due to present conditions of unemployment chances are none too promising that positions will be obtained for all applicants but the association will do its best to see that as many students as possible are given positions.

Vermont, Norwich and Middlebury in Annual Track Meet Tomorrow

Will Be Held at Middlebury—Vermont Is Strongest in Weight Events

KEENER COMPETITION THAN USUAL EXPECTED

[illegible] will be held on Centennial Field this afternoon [illegible] Vermont, Norwich and Middlebury [illegible] Meet with an entry of 40 [illegible] Green and Gold team by [illegible] Vermont [illegible] Meet [illegible]

[illegible] Norwich has a good team [illegible] the track and [illegible] meet. Hayden should have a close battle with MacLean of Middlebury in the [illegible] Hughes of the Green and Gold may [illegible] MacLean, present N. U. [illegible] in the field.

Captain Park of Vermont is practically certain of firsts in the hammer, shot and discus and will probably place in the javelin. Lovell is a formidable hurdler for Middlebury and will give some competition in the low hurdles. Hayes of the Green and Gold is the pick in 880 yard and two-mile events. Meehan of Middlebury and Wright of Vermont are to battle in the quarter mile. A. A. A. U. [illegible] Saturday may be [illegible] Brown of Middlebury, but the latter has several times been defeated [illegible].

The Centennial team has been in two meets this season and has lost them both. Colby and Montreal A. A. A. have defeated Vermont on successive Saturdays on Centennial Field this year. Tomorrow's meet should be most interesting with keener competition than ever before. With the points divided it will be the seconds and thirds that will determine the winner.

The Green and Gold team will be picked from the following list of trackmen:

100 yard dash: Meehan, Grant, Young, Crockett.

220 yard dash: Wright, Grant, Crockett, Young, Bedell.

Quarter mile: Huey, Bedell.

Half mile: Colburn, Huey, Brooks, Hadley.

Mile run: Hadley, Brooks, Bradish.

Two mile run: Varney, Wilder, Leech, Hadley.

High jump: Fraser, Child.

Broad jump: Magnus, Wright, Child, Tupper, Bedell.

Pole vault: Meehan.

Shot put: Park, Riant.

Discus: Park, Riant, Gardner, Phillips.

Hammer: Park.

Javelin: Phillips, Gardner, Riant, Park.

JUNIOR CLASS ELECTS THIS AFTERNOON AT 4

The Junior class will hold its annual election this afternoon at 4:00 p.m. in Williams Science Hall to elect officers for the coming year.

The following names have been nominated: G E Wilder, G W Jacobs, Eleanor S H Manning, R W [illegible], Hope Ranslow, Rosella Powers, Lillian Mount, vice president, F R Gorman, P K Westin, [illegible] Sargent, Jr. treasurer, Charlotte [illegible], Janet Mower, Beatrice Parkhill, secretary.

Chemical Engineering, G E Flagg, D F Parker, C H Wheeler; agriculture, K E Boyden, H J Leach, C L Parker, C W Tilly; arts and sciences, H M Allaert, H W Davis; women, Katherine Rauh, Lois Harrington, Mildred Gile.

Members of the baseball squad and managers of baseball may vote by proxy by seeing the president, A. O Eaton at the Sigma Phi place.

'32 ARIEL IS DEDICATED TO IDEAL OF PROGRESS

(Continued from page 1)

Berry and Mower for the women. The hardest workers among the men were Cobb, Barker and Eaton, and Powers, Mount, and LeHaron for the women. The most apt to succeed among the men were Cobb, Eaton and Barker; and Powers, LeHaron and Mount for the women.

On the whole the book is well arranged and neatly presented. The cover is light blue and gold. The class of 1932 and those who cooperated in the completion and work in producing the 1932 classbook deserves much credit and should be congratulated. They have set a fine example in timely accomplishment and smooth working

Last year she gave the 4-H clubs 200 bulbs, which were distributed as awards in five counties. Most of them were set out in community gardens as a 4-H contribution to community improvement.

ELECTRICAL LABORATORY TO BE IN SCIENCE HALL

The stock of the "Radio Shack" has been transferred to the basement of the Williams Science Hall thus bringing all electrical machinery under one building.

According to Prof. L. P. Dickinson, acting dean of the College of Engineering, the electrical laboratory will be entirely rearranged for purpose of making the department more effective with greater efficiency in the use of apparatus.

Last week the seniors enrolled in the electrical engineering course made their inspection trip to several of the power plants about the State. Professor Dickinson states that the department hopes to make the inspection an annual event.

MUSIC DEPARTMENT TO GIVE THREE RECITALS

Free Student Vocal and Piano Programs Scheduled for May 26, 28, and 31

The department of music announces three student recitals: On Tuesday evening, May 26, at 8 p.m. in the music building, a recital by students of piano and singing, including Dorothy Fowler, Carlotta Grimm, Judith Moody, Katrina Munn, Emmaline Perrault, Mailla Putnam, Katherine Skinner, and Roger Allbee.

On Thursday evening, May 28, at 8 p.m. in the music building, a recital by Judith Moody, soprano.

On Sunday, May 31, at 4 p.m., in the Ira Allen Chapel, a recital by Katherine Eesley, organist, assisted by Dorothy Fowler, soprano, and Mailla Putnam, soprano. The recitals are free and open to the public.

FEEL *the difference*
HEAR *the difference*
TASTE THE DIFFERENCE!

Like an oasis in the dusty desert of dried tobacco, the new Camel Humidor Pack brings you the delight of fine quality cigarettes in factory-fresh, mild condition.

Now, wherever you go, you can always be sure of getting a *fresh*, throat-easy cigarette when you demand Camels.

It's easy to tell the difference. Your sense of touch detects it as you roll a cigarette between your fingers. Dry tobacco is stiff and crumbly. Camels are full bodied and pliant.

Even your ear can tell the difference. For a dried-out cigarette crackles when you roll it.

But the real test is *taste* and taste is causing a great nation-wide switch of men and women alike to Camels in the scientific new Humidor Pack. As you draw in that fragrant, mild, cool smoke, redolent with the joy of choicest Turkish and mellow Domestic tobacco, only then do you realize the full importance of this new Humidor Pack.

For scorched or dried tobacco is brash and tasteless and its smoke is unkindly hot to the tongue and throat.

If you are already a Camel smoker you have noticed the improvement in this your favorite cigarette.

If you don't smoke Camels, try them for just one day to see how much you're missing. After you've known the mildness and delight of a really *fresh* cigarette, switch back if you can.

It is the mark of a considerate host[ess] by means of the Humidor [illegible] "Serve a fresh cigarette." Buy Camels by the carton—this cigarette [will] main fresh in your home and [office]

VOLUME 49 | BURLINGTON, VERMONT, WEDNESDAY, MAY 27, 1931 | NUMBER 59

Events To Figure In 127th Commencement Week Are Numerous

Program to Open With Kingsley Contest June 11 and Close With Graduation June 15

TO DEDICATE ROBERT HULL FLEMING MUSEUM

Senior Prom, St. Lawrence Game, Reunions, Receptions, Baccalaureate, Banquets, and Boatride also to Feature Last Unit Gathering of Class of 1931

Depending upon the whims of the weather-man for details pertaining to the scene of the festivities, the campus will this year see students, faculty, alumni and guests usher in the University's 127th Commencement starting with Senior Week on Thursday, June 11. Roy Worrell, the Senior Week chairman, has issued final details for the program.

This year the Kingsley prize speaking contest will open the program. The Rev. Lloyd C. Douglas will give the baccalaureate sermon and Dr. Edmund E. Day will be commencement orator.

A larger number of alumni are expected to attend the graduation exercises this year because of the new features added to the Alumni Day program in the dedicatory exercises of the new Robert Hull Fleming Museum, Saturday, June 13, at 10:30 in the morning. A tea will be given later the same afternoon in the Fleming Room by Miss Katherine Wolcott of Chicago, who is the co-donor of the new building.

At 9 o'clock Friday the Senior Class pilgrimage, the first event scheduled, will take place. This includes the planting of the statues of Ira Allen and Lafayette. George Brush is chairman of the gowning committee. Ernest Gedding will deliver the address to Ira Allen and Harvey Butterfield the address to Lafayette. The class walk with seniors in caps and gowns will follow.

An hour later President Bailey will submit his annual report to the trustees at their meeting in the Wilbur Room of the Fleming Museum.

Phi Beta Kappa to Elect

Newly-elected members to Phi Beta Kappa will meet for the first time with the society in 23 South College at 2:30 p. m. Pres. J. E. Colburn, '96, states that a meeting will soon be called to consider candidates for election.

At noon Mortar Board will hold a reunion at the Hotel Vermont and at 1:30 the University trustees will dine at Robinson Hall.

Class Day

If the weather permits, class day exercises will start at 2 p. m. on the college green. The class will march to their campus platform led by class marshal, Robert Huey. The committee in charge includes R. J. Maynes, chairman, R. M. Huey, W. S. Heaton, E. A. Germain, Lorraine Guillet, Dorothy Nash and Rebecca Seaver.

The program will be as follows:

Music.....Lechnyr's Orchestra
President's Address.....Roy Worrell
Class History.....Margaret Stanley
Campus Oration.....George Brush
Builder Oration.....Francis McBride
Music.....Lechnyr's Orchestra
Pipe Oration.....Hugh Mattison
Class Poem.....Mary Woolson
Address to Undergraduates,
Robert Huey
Ivy Oration.....Janice Davis

St. Lawrence—Senior Prom

The Vermont varsity baseball team will play St. Lawrence University at 4 o'clock on Centennial Field. At 6 o'clock the fraternity receptions will take place at the various houses. In the evening President Bailey's reception to the graduating class which introduces the Senior Prom will be held in the Billings Library.

Alumni Day

Alumni Day begins with the Boulder Junction breakfast at the Ethan Allen Club at 8 o'clock Saturday morning. At 9 the alumni council will meet in the president's office. Following the Museum exercises, at 11:30, the alumni luncheon will be served in the baseball cage of the gymnasium to the alumni and their families.

PAGEANT OF LILAC DAY IS HELD AT REDSTONE

Nearly Sixty Women Assume Allegorical Rôles on Scenic Campus

Lilac Day, a pageant inaugurated by Pearl Randall Wasson, a former dean of women, in 1921, and continued in her memory since then, was held at Redstone back campus on Thursday, May 21, at 4:30 o'clock. Due to the efforts of Mortar Board, assisted by Mrs. Dallas Pollard and Miss Annis Baldwin, the pageant was declared to be as beautiful as preceding years. In the setting of brilliant sunlight, blue sky, and hazy mountains, the effect was most charming, and, indeed, quite fairylike. Lilacs were in bloom everywhere along the outskirts of the lawn, and trimmed the throne setting of the pageant.

The pageant opened with the procession of the King and Queen, with the Court Ladies and the King's men, who advanced to the throne, preceded by the Heralder, to hold court. The tale was that of a Seeker, who had come into the kingdom of the good Monarchs searching for something which she could not find. The King and Queen, wishing to help her, presented to her all that they had of the beautiful and the charming. These were in a series of dances,—dances of the Snowflakes, Silver Moonlight, Golden Sunshine, Spring Blossoms, Summer Zephyrs, Autumn Leaves, Joy and Happiness, and Youth and Friendship. But these could not satisfy the Seeker. She set off on her quest once more, but as she was leaving, little children came bringing lilacs to the Queen. Then they realized what it was that she was seeking—unselfish service and love. They called her back and rejoiced with her that she had found the desire of her heart. The procession moved from the scene singing "Champlain." The following song was the central inspiration:

"Vision to see the right our world demands,
Enthusiasm not content with dreams,
Reserve to guard foundation with firm hands,
Mentality to judge beteen extremes,
Opportunity for those who do not shirk,
Normality to guide real, honest work,
Tradition,—all you mean to us —"

VERMONT

The cast of the pageant was as follows: *The Chronicler*, Hope Ranslow, '32; *The King*, Janice Davis, '31; *The Queen*, Elizabeth Cory, '31; *The Court Ladies, Love*, Janet Miller, '32; *Laughter*, Dorothy Emery, '31; *Beauty*, Marjorie Bracken, '31; *Contentment*, Marjorie Eisenwinter, '31; *The King's Men, Chivalry*, Olive Fields, '32; *Honor*, Eleanor Koenig, '31; *Courage*, Pauline Willis, '31; *Truth*, Lillian Mount, '32; *The Seeker*, Carolyn Taft, '33; *The Heralder*, Hildah Wilde; *The Children*, Gratia Pearl, Harriet Pearl, and Janice Preston.

Those taking part in the *Snowflake dance* were Mildred Akins, '32; Velma Purinton, '34; Joyce Young, '34; Eola Goodrich, '34; Ruth Erwin, '34; Julia Scoboria, '34; Laura Tracy, '34; Barbara Belcher, '34; Dorothy Harwood, '34, Theta Lampher, '33; Katherine Donahue, '34; Alice Fairchild, '33, Esther Beardsley, '33; Ursula Tully, '34; Elvira Farnham, '34.

In *Silver Moonlight* were Helen Taylor, '31; Roberta Powers, '32; Marion Lynch, '33; and Dorothy Murphy, '33. The *Golden Sunshine dance* was a solo dance by Roberta Powers, '32. The *Spring Blossoms* were Isabelle War-

TAKES ONE FIRST, TWO SECONDS, TIES THIRD IN LITERARY COMPETITION

Frances Frost Wins First In Poetry, Constance Stone and Margaret Rice Gain Second In Short Story and Essay Respectively—Fitzgerald Ties With Frost For Third In Short Story

One first, two seconds, and a tie for third brought the University of Vermont sufficient points to win the Tri-State Literary Contest this year. Frances Frost, a senior, took first place in poetry with *These Acres* and was tied for third place with E. J. Fitzgerald of Vermont in the short story contest with *Thundering Hill*. Fitzgerald, a junior, tied for third place with *Promise of Heaven*. Constance Stone, a senior, took second in the short-story contest with *Retreat*. Margaret Rice, also a senior, placed second in the essay contest with *Memories of a New England Childhood*.

The University of Maine placed first in the short-story contest with New Hampshire, tied for third place. George Abbe of New Hampshire took first with *Quest* in the essay contest and tied for third with Maine's entrant in the short-story contest. However, Vermont took first in the verse contest with Maine second and New Hampshire third.

The judges of the short story chosen by New Hampshire were Elizabeth W. Manwaring, Wellesley College; Arthur S. Pier, St. Paul's School, Concord, N. H.; and Walter D. Edmunds, Clinton, N. Y.

Miss Stone of Vermont was rated with 19 points as against 21 for the Maine entrant. Three students, one each from Maine, New Hampshire and Vermont were tied with 18 points each for third place. The total points in placings were: University of Maine 5, Vermont 4½, and New Hampshire 2½ points.

Judges of the essay as chosen by Maine were, Messrs. Perrin, Quimby, and Little, who gave Miss Rice 21 points as against 22 for Abbe of New Hampshire and a tie of 19 each between New Hampshire and Maine. The total score was New Hampshire 5½, Vermont 3, and Maine ½.

The verse judges chosen by the University of Vermont, who gave Miss Frost first with 28 points, were Profes-

Winnowings Staff Calls For Support

Rice Calls for More Subscriptions as Final Issue Nears Publication

Commenting upon the success of the *Winnowings* this year and the prospect for next year, Margaret Rice editor-in-chief stated, "We need more planned subscriptions next year. It is a student literary publication and should be supported by more men and women. Splendid support has been evinced by the faculty by their long subscription list. Next year we want more students to write for the *Winnowings*."

Featuring a review of *Blue Harvest* Frances Frost's latest anthology by Prof. W. E. Aikens of the English department, the final issue of the *Winnowings* will appear June 1, with a number of essays, poems and short stories by student authors.

Constance Stone, '31, who won second place in the Tri-state Literary Contest this year with the short story, has in this issue another short story, *Best Laid Plans*.

Beauty is the title of an essay by Marguerite Dunsmore, '33. Robert Aiken '31, has a poem entitled, *J'ai voulu ce matin que rapporter des roses*.

A poem entitled *Silent Episode* by Gladys La Flamme, '33; there is a short story, *Old Jim*, written by Mary Woolson, '31; and Hope Ranslow, '32, newly elected editor, presents an informal essay.

Edmund A. Germain, '31, *Retiring President of the International Relations Club and Grey Friars*

JAY ELECTED PRESIDENT OF NEXT YEAR'S SENIORS

Roberta Powers to Be Vice-President; Beatrice Parkhill, Secretary, and F. R. Gorman, Treasurer

Orson Jay was elected president of the class of 1932 at a business meeting held Friday in 27 Williams Science Hall. Roberta Powers was chosen vice-president, Beatrice Parkhill, secretary, and Francis Gorman, treasurer.

The selections for Faculty Student Council were as follows. Men College of Engineering, E. J. Mercier, college of agriculture, C. W. Fiske, college of arts and sciences, H. M. Albert. Women elected at large, Lois Harrington and Olive Fields.

The meeting was characterized by numerous withdrawals and nominations from the floor. S. B. Barker, S. H. Manning, and G. E. Wilder withdrew from the race for the presidency while E. J. Mercier was nominated for faculty student council from the college of engineering, and Olive Field and Katherine Kingston were nominated for the representatives of the women at large.

MUSIC STUDENTS WILL PRESENT THREE PIANO AND VOCAL PROGRAMS

The first of a series of three recitals, by students of piano and singing associated by Miriam Morrison, Mrs. Paul A. Meader and Madame Elizabeth Bradish Thursday evening at 8 o'clock in the Music Building. The program

Caprice on a theme from Gluck's "Alceste"
Katrina Munn
Willows Song ..... *English*
Elizabeth Cory
Charmant Papillon ..... *Campra*
Emmaline Perrault
[illegible]
Katherine [illegible]
On Wings of Song ..... *Mendelssohn*
Roger Allen
Etude in D Flat Major (On request) ..... *Liszt*
Carlotta Grimm
My Johann ..... *Grieg*
Dorothy Fowler
Gebet der Elisabeth, from "Tannhauser" ..... *Wagner*
Judith Moody
Il Bacio ..... *Arditi*
Malila Putnam
Two Etudes ..... *Chopin*
Op. 25 No. 6 (Study in Thirds)
Op. 10 No. 12 (Revolutionary)
Katrina Munn

Judith Moody, soprano soloist will present a program of classical and operatic numbers, played by Madame Elizabeth Bradish Thursday evening at 8 o'clock in the Music Building. The program

Auf Fluegeln des Gesanges ..... *Mendelssohn*
Du bist die Ruh' ..... *Schubert*
Wohin ..... *Schubert*

(Continued on page 4)

Juniors Attain Office of Presidents of Two Intellectual Societies

International Relations Names LaCrosse Head—Householder to Lead Grey Friars

PROFESSOR CARPENTER ATTENDS CANADA SUPPER

Discusses Tendencies In Contemporary German Literature at Grey Friars Chicken Banquet in Phillipsburg, Quebec

[illegible] attained the presidencies of both the International Relations Club and Grey Friars which met last Thursday afternoon.

The former society named Paul J. LaCrosse, '32, president, Selwyn Boyd, '33, vice-president, Gordon Davis, '33 secretary, and Stanley Carter, '32, treasurer.

F. W. Householder, '32 was elected president of Grey Friars, men's literary society. Samuel Barker became president, Joseph Carter was named secretary, Paul LaCrosse was elected treasurer, and Samuel Pelofsky attained the position of chairman of the entertainment committee.

Students and faculty have evinced much interest in the clubs activities during the past year.

Over four hundred students and visitors heard Pierre Janet discuss "Our International Ethics" October 24, which was the date of the year's first meeting.

Last month Quaker student Volunteer Movement secretary, on Armistice Day, talked on the "Situation in India." He discussed the power and spirit of Mahatma Gandhi, the Nationalist leader in India.

The Fundamental Causes of the Latin American Revolutions" was the subject of an informal talk given by L. S. Hartwell, of the history department, December 15.

January 8, Prof. P. D. Evans treated the "Rise of the Fascist Party in the Italian State."

[illegible] head of the department of political science, discussed the Functions of the United States in Relation to the World Court."

"Conditions in Japan" were depicted by Colonel Hurlbut a staff officer from Fort Ethan Allen, at the May 4 meeting.

Grey Friars

Grey Friars Society has had a year of unusual interest, although it had admitted only three new members, Bartlett, Barnard and Carlson.

A University [illegible] was sponsored by Grey Friars and [illegible] in honor of the poet, Mary Isabel Cornhorn, Sunday afternoon, October 26.

Two men, Rev. Harry [illegible] of Milton, and Adrian [illegible] gave interesting talks [illegible].

A banquet at Mount Tom House was the program of the January 7 meeting. At this [illegible] Prof. P. F. LaCrosse, F. W. Householder, '32, and a discussion of newspaper [illegible] with the Cynic as the [illegible].

Prof. P. [illegible] the Grey Friars Society at the May 21 meeting.

Other meetings have been devoted to readings and discussion of many [illegible] with [illegible] of wood [illegible] and [illegible].

Professors Pepper and Lord of the English department, head the [illegible] list of members. S. B. Barker '31, A. E. Bessette, '31, H. R. Bessette '31, J. C. Carter, '32, E. A. Germain '31, F. W. Householder, '32, H. Hyde, '32, P. J. LaCrosse, '32, L. Lehman, '31, W. M. McDonald, '33, and S. Z. Pelofsky, '32.

Quebec—German?

Prof. P. D. Carpenter spoke on the general subject of tendencies in contemporary German literature, stressing the expressionistic and impressionistic aspects at a chicken banquet held last Saturday evening at Phillipsburg, Quebec, Dominion of Canada.

Scabbard and Blade sponsored an informal dance following a concert by the U. V. M. band last Friday night at the Memorial Auditorium. Lechnyr's Vermonters played for the dance.

The Thoughtful Freshman having seen a multitude of women with looks of the deepest despair on their faces has concluded that they are seniors who are not engaged.—*Daily Kansan*

FOR BANNERS HIGH

Colleges are [illegible] the University of Vermont is not winning the Inter-State Contest with one first place, two seconds and a tie for third. Five years over the Universities of Maine and New Hampshire is the result of the unusual interest and talent of four students, Edward Fitzgerald, Frances Frost, Margaret Rice and Constance Stone.

Literary activity at Vermont within the last year has been greater than it has been during the past three years. Since 1924, the year of the origin of the Inter-State Contest U. V. M. has gained prizes in poetry, the short story and the essay.

With two potential poetic geniuses, Frances Frost and Edward Fitzgerald, head of whom have within the last two years earned first place in competition with students of two other institutions, Vermont ranks first in prominence. Frances Frost in this contest earned nearly as many points as were possible under the system used by the judges.

To the quartet, who alone brought Vermont to the heights of victory by their poise, we offer our congratulations and thanks. For they have truly placed Vermont students on a par with other literati.

Literary achievement has never received the popular applause that comes with a touchdown or a home run. Notwithstanding, leadership in such a field carries with it a more significant and worthy honor. May Vermont continue her increasing prestige in the world of letters and win the varsity again in the next Inter-State Contest!

At the same time that students and faculty shower praise and honor on those who gave the University first place in the contest, we hear the cries of the *Winnowings From the Mill* pleading for increased interest in the publication. Student subscriptions have seldom equalled hoped support and only slightly greater than last year has been the expression of student literary ability in its pages.

With each new year of activity the *Winnowings* finds itself forced to draw from the contributions of a minority of student writers. But this fact we do not deplore. Such has always been the case with such talent. It is not of the multitude. It is a rare quality that is possessed only by the few, yet is always looked upon as one of the greatest achievements of intellectual activity in a student body.

Such organizations as the Inter-State Contest, Grey Friars, Blue-stockings and the Press Club have not only sustained but promoted writing which it has been as always hindered by the apathy of those students who see no pleasure in it.

In the interest of the University literary life we earnestly urge a greater manifestation of keen student support by not only subscriptions to the *Winnowings* but by more creative writing.

What a treasure trove there is among those whom we know are capable of doing work which will not only find its way to the student publications but which will earn for its author membership either on boards of these, or in the literary societies, we would hope for even greater glories for literary Vermont.

LILAC DAY

To those who witnessed the beautiful pageant, held on Redstone back campus last Thursday afternoon it is apparent that not all traditions should die. Lilac Day was established in 1921 by Pearl Randall Wasson, the beloved Dean of Women at Vermont at that time. In 1922 Dean Wasson passed away, and since then the pageant has been given in her memory until it has become a tradition. Formerly, a yearly event it is now a biennial feature.

This year's presentation especially deserves mention. With a cast of over fifty women of the University taking part in this pageant, which brings back to each student the memory of the one who was formerly so loved by all, the spirit of Lilac Day was more than ever apparent.

No college in the country has a more beautiful setting for a pageant than our own campus back of Redstone, a vast expanse of green lawn interspersed with a profusion of sweet scented lilacs and stately trees, while in the distance loom the heights of Camel's Hump and Mansfield, making an admirable background to lend an air of grandeur as well as of loveliness to the spot.

To the audience the characters and dancers, as they appeared in the distance, in costumes especially graceful and delicately tinted in rainbow-colors, seemed to blend nicely with the delicate hues of the natural setting.

Thanks are due to Miss Annis Baldwin, to Mrs. Dallas Pollard and to the Mortar Board women who gave their time willingly that Lilac Day might be a big success this year and that this tradition, so beautiful, dear and meaningful should not die.

EDUCATION DEPARTMENT PLACES SEVEN WOMEN IN TEACHING POSITIONS

Seven more teaching positions have been secured through the efforts of the Department of Education for women graduating from the University this spring. This makes eight that have secured jobs this year already, one more than was placed in the Cynic is by no means complete. The courses to be taught in various High Schools throughout Vermont and Connecticut by these seven graduates include French, Latin, History, English, Mathematics and Physical Education. The women are:

Edith Abbott, Franklin, Mass., enrolled in the classical course, will teach French and Latin at Wrentham, Mass.

Dorothy Brown, Winchester, Mass., enrolled in the classical course, will teach Latin and Physical Education at Waterbury High School, Waterbury, Vt.

Marjorie Eisenwinter, Barre, Vt., enrolled in the literary scientific course, will teach History and English at Proctor High School, Proctor, Vt.

Ruth Field, North Eaton, Mass., classical, will teach French and Mathematics in Bloomfield, Conn.

Edith Lamson, Williamstown, Vt., a literary scientific student, will teach French and Latin at Woodbury High School, Woodbury, Vt.

Esther Mandigo, Richford, Vt., classical, will teach Latin at Hyde Park High School, Hyde Park, Vt.

Nellie Maxham, Montpelier, Vt., classical, will teach Latin at Vergennes High School, Vergennes, Vt.

Campus Comment

To the Student Body

Because of lack of finances, only four numbers of *Winnowings from the Mill* can be published this year.

This situation can be laid entirely at the door of the student body because of its lack of interest and support. Over one-half of the scant funds which *Winnowings* is able to raise, comes from faculty, alumni and other friends.

Do the students of U. V. M. want a literary magazine? The retort will probably be, "Yes, if we can have a good one." The only way for a university to have good publications is for the students to want good publications. Don't stand on the sidelines and say, "I could do better than that." Get to work and prove it if you can. Support our literary staff with your contributions and our business staff with your subscriptions and we will promise you your money's worth in return.

MARGARET RICE, '31
Editor of Winnowings, 1930-31
HOPP RANSTROM, '32
Editor of Winnowings, 1931-32

DREW BECOMES HEAD OF CERCLE LAFAYETTE

F. B. Drew, '33, of Randolph was elected president of Le Cercle Lafayette for the coming year at a meeting of the society held last Saturday night at the Vermonters' Club House.

Esther Beardsley, '33, of West Hartford, Conn., will serve as vice-president; S. K. Carter, '33, of East Corinth as secretary; Lillian Mount, '32, of Burlington as treasurer; and Helen Estelionis, '32, of Shirley, Mass., as social chairman.

The retiring officers of the club are P. J. LaCrosse, '32, president; Elisabeth Mandigo, '32, secretary; Lillian Mount, '32, treasurer; and F. B. Drew, '33, social chairman.

DEBATING GROUP ELECTS ROBERTA POWERS HEAD

Roberta Powers, '32, became president of Tau Kappa Alpha, honorary debating society at the initiatory meeting at which six members were formally admitted.

R. P. Donaghy, '33, is vice-president, and Caroline Taft, '33, secretary-treasurer. The initiates are: J. E. Bigelow, '33, F. A. Bolles, '31, E. M. Codding, '31, R. P. Donaghy, '33, P. J. LaCrosse, '32, and Caroline Taft, '32.

The retiring officers are L. Lisman, president; Lena Cochran, vice-president; Roberta Powers, secretary-treasurer. F. A. Bolles, Lena Cochran, E. M. Codding, Louis Lisman, George Nelson, and Edith Thomas will leave the society in June by graduation.

Delt: It's so quiet in here you can hear a pin drop.

K. A. T.: I say now, it's terribly noisy though.

Delt: I mean an S. A. E. pin.

CINEMA COLUMN

AT THE STATE:

Wednesday and Thursday, May 27 and 28

Swanee River" might have been a great picture. It has all the ingredients for suspense, beauty, and pathos, but they are mixed improperly. Thelma Todd and Grant Withers are an attractive couple and lend charm to the love theme. A typical melodrama with a few good sequences and some thrilling photography. The locale is southern.

Friday and Saturday, May 29 and 30

Here's another gangster story which includes a fire, a chase in a storm and a lot of guns. There's supposed to be some good clean fun and you may laugh. The cast includes Walter Byron, Miriam Seegar, and Carmel Myers and Charles Gerrard. The latter gives an excellent performance as one of the crooks that is the high-point of the film.

Monday and Tuesday, June 1 and 2

Here's a spectacular talking picture that's also a moving picture. "Beau Ideal" is the sequel to the old silent thriller "Beau Geste" and is based on that same powerful theme of a great self-sacrificing love between men. It tells about the same characters—using in some cases even the same actors who played in "Beau Geste." It is set in the same soul-blistering locale—the desert Africa of the Foreign Legion—and now it lives with voice.

Brenon, the brilliant director of the film, gives us battle scenes that are superior in their field to anything that's been done before. The desert scenes are marvels of photography and direction. Lester Vail makes a splendid début as a screen hero. Loretta Young is magnificent in a short rôle and Ralph Forbes, Don Alvarado, and Otto Matiessen stand out from an excellent cast. Don't miss "Beau Ideal."

AT THE FLYNN:

May 25, 26 and 27

Constance Bennett in "The Easiest Way"—a beautifully directed, modern, and sophisticated story with some good acting by Miss Bennett, Bob Montgomery, Adolphe Menjou, Anita Page, and Marjorie Rambeau.

May 28, 29 and 30

Ramon Novarro as the student prince again in "Daybreak." Helen Chandler is appealing and charming opposite Novarro.

AT THE MAJESTIC:

May 27 and 28

Don't miss Marlene Dietrich in "The Blue Angel." The picture is sombre but Dietrich is as gorgeous as ever. Also present is Emil Jannings.

May 29 and 30

Dick Arlen, Bill Boyd, and Mary Brian in "Gun Smoke." Recommended for children. A western, of course.

AT THE STRONG:

May 27 and 28

Eddie Horton is rather good in this comedy with a touch of pathos called "Once a Gentleman."

May 29 and 30

"Fourth Alarm" with Nick Stuart, Ann Christy, and Tom Santchi—don't bother with it.

F. B. D.

CARLOTTE GRIMM GIVES CLASSIC PIANO RECITAL

Classical selections figured in a piano recital given by Carlotta Grimm, '31, Friday evening at the Klifa Club rooms.

Miss Grimm is a pupil of Miss Miriam Marston of the department of music. The program:

Les Cloches de las Palmas — *Saint-Saens*
Bouree Fantasque — *Chabrier*
Herentans — *MacDowell*
Warum — *Schumann*
Scherzo in C sharp minor — *Chopin*

SEVEN ORATORS TO TRY FOR HIGHEST HONORS IN ANNUAL KINGSLEY TEST

Once again the Kingsley Speaking Contest open for [illegible] of the lower classes takes [illegible] importance in the Commencement Week program, with four [illegible] and three sophomores, each [illegible] spoke in last year's event [illegible] ing. The contest takes place [illegible] and promises to be of unusual competition, as the following [illegible] oratorical talent discloses.

R. P. Donaghy, '33, who won prize last year, and who now [illegible] sity debater, will use as his "The Radiant Christ." William Donald, '33, will deliver "Br[illegible] dress at the Washington Anniversary of 1920," which he [illegible] year. James E. Bigelow [illegible] editor of the Cynic, and [illegible] sity debater will deliver, "Re[illegible] the Carthaginians." A. A. A[illegible] "My Country, My Mother, and God," by James P. McTeer. R[illegible] Dyke, '34, "Thomas Jefferson's Inaugural Address." B. J. Mal[illegible] "The Origin of Our Constitution," composition of his own which [illegible] in high school public speaking [illegible] McCuin, '34, "The Martyr Pre[illegible] by Henry Ward Beecher.

Entrants will be required to [illegible] in dress suits. The place of the test or the judges have not yet been decided.

Russell Coburn, '33, was last year's winner and Robert Jenks [illegible] second prize. Coburn's speech was "The Perfect Tribute" by Mark Edmond Andrews, while Jenks delivered "Speech on Clay's Compromise of 1850."

I got home late, removed my hat
And played a sneaking game
Up the front stairs. But lo! what
My wife was doing the same.

In every college town there is one *outstanding* smoking tobacco

At Illinois it's

ALONG Green Street, where campus leaders stroll . . . in the great slate-roofed fraternity houses of Champaign . . . there is one pipe tobacco which always rolls up the biggest vote. At Illinois it's Edgeworth, every time.

A pipe—Edgeworth. That is the smoking combination which has won the college man. Harvard, Cornell, Michigan, Stanford, Dartmouth — all agree with Illinois. Natural merit has made Edgeworth the favorite tobacco in American leading colleges and universities.

College men everywhere respond to the appeal of pipes—packed with cool, slow-burning Edgeworth. Be guided by their verdict: try Edgeworth yourself. Find it at your nearest tobacco shop—15¢ the tin. Or, for generous free sample, address: Larus & Bro. Co., 105 S. 22d St., Richmond, Va.

EDGEWORTH
SMOKING TOBACCO

Edgeworth is a blend of fine old burleys, with its natural savor enhanced by Edgeworth's distinctive "eleventh process." Buy Edgeworth anywhere in two forms—"Ready-Rubbed" and "Plug Slice." All sizes, 15¢ pocket package to pound humidor tin.

SPORTING NEWS

NEW HAMPSHIRE TEAM BEATS VERMONT 6 TO 4 IN NINTH INNING RALLY

Visitors Win in Final Frame After Cats Have Kept 4-Run Lead Through Most of Game

New Hampshire's fighting ball team was too much for the University of Vermont when they won a hard-fought game by a rally in the ninth inning to win with a 6-4 score.

After Vermont's maintaining a 4 to 0 lead from the first inning, the four-run rally in the ninth inning came as a surprise to everyone. New Hampshire's triple threat outfield of Hanna, Hanna and Smith played a big part in the victory.

It looked as though Vermont had the game safely tucked away in their bat bags until the sixth inning. In that inning Sargent walked Chase. The next man up smashed a clean single. Casey then knocked out a bingle to left field to score the men on bases for two runs.

Jay Jay turned in his usual creditable performance with two hits in two times at bat; the other three times he glared at the pitcher and drew a base in each case. Winant made a brilliant play when not content with catching a hard, low, twisting infield fly he ran back to first base and completed an unassisted double play.

In the hectic ninth inning Lane, a pinch hitter, hit one to Pires, who threw wild to Winant. Sargent walked to first, the next man up. E. Hanna hit a clean home with a single. With none out the other Hanna brother smacked a single to left field and scored two more runs. Gibbons flied out to Pires and Smith grounded to Winant, who fumbled the ball, but left the sack open and Smith reached first. E. Hanna trying to score was thrown out on this play. Smith stole second and reached third there to home on a wild pitch by Sargent.

The box score:

NEW HAMPSHIRE

EDUCATIONAL SOCIETY ELECTS JAY AS HEAD

Orson W Jay, '32, was elected president of Kappa Phi Kappa, the national professional education society at the final meeting of the organization held in the education office last Tuesday night. Other officers elected were M B. Morrill, '32, of the agricultural college, vice-president; K E Boyden '32, also of the agricultural college treasurer; F. J. Proctor, '32, of the college of arts and sciences, recording secretary; C. E. Wright, '32, of the agricultural college, corresponding secretary; and Prof. B. C. Douglass faculty advisor

Mr A K Jenney, principal of the Essex Junction High School, W. H Martin, '31, and G. H Gates, '31, were initiated into the society

A banquet under the direction of D. C. Pierce, '31, was held before the initiation

The retiring officers are: D. C Pierce, '31, president; E. M. Codding, '31, vice-president; K. M. Stevens, '31 secretary; and M. H. Kendall '31, treasurer

WESOLY MADE CAPTAIN OF FROSH BASEBALL

Andrew S. Wesoly of New Britain, Conn., has been made captain of the University of Vermont freshman baseball team, according to an announcement by Graduate Manager of Athletics S. C. Abell. At the same time, fencing letters were announced as awarded to Capt. Julius S. Perelman, '31, of this city, Elmer E. Wadsworth, '33, of Milton, Mass.; J. T. Musgrove, '31, of Pittsfield, Mass.; G. Basilicato, '31, of Brooklyn, N. Y.; R. B. Aiken, '32, of this city; and Manager H. Shuman '32, of Fitchburg, Mass. Wadsworth and Shuman are the only men expected to return next year.

Name Student Managers For Frat Sports

Fleury and Janke Are Appointed to Take Charge of Intra-mural Athletics Next Year

ASSISTANTS PROMOTED ON COMPETITIVE BASIS

Next year interfraternity athletics at Vermont will be managed by members of the student body, according to an announcement from the department of physical education This decision was reached some time ago and the plan was put into definite form by the recent appointment of the student intra-mural managers for the college year 1931 1932 Two juniors will be in charge next year one for each semester and it is expected this will arouse greater interest in intra mural athletics. C O Fleury, '33, of Burlington has been appointed to serve as the manager for the first semester while C. W. Janke, '33, also of this city will act as manager during the second semester.

The work of these student managers will be to organize and supervise the intra mural athletic program for the year. Each manager will hold office for one semester and for each term there will be three assistants, one of whom will become manager for a semester the following year. The position will be competitive and promotion will be made purely on a basis of merit.

This is considered as a progressive step toward the more efficient handling of intra-mural athletics. Formerly it was a function of the Key and Serpent society to run this phase of interfraternity activity Later this was taken over by the physical education department under one head. As intramural athletics became better organized and offered more chances for student activity, it was decided that the affairs should be handled by the students themselves.

C. O. Fleury is a member of the track squad and during the past winter was a student instructor in tumbling in the physical education department. He is an Independent.

C. W. Janke is an assistant business manager of the CYNIC and belongs to Sigma Alpha Epsilon fraternity.

Irish?

Eight bushels of potatoes are consumed by the students at every meal at Holy Cross.

MIDDLEBURY TRACK TEAM WINNER OF STATE TITLE

Middlebury College retained the Green Mountain Conference track title [illegible] in the annual meet held Saturday afternoon at Centennial Field The meet was scheduled to be held at Middlebury but the field was so badly flooded that it was decided to transfer the events to Burlington.

Middlebury scored 87½ points, Norwich 29, and Vermont 25. The teams finishing in the same positions as last year.

Capt N. Paul Park took the only first place for Vermont and was the meet's high scorer. He broke the shot put record of 41 feet 2⅝ inches established by Flanders of Norwich in 1922 with a heave of 42 2 feet.

Summaries:

INDEPENDENTS TAKE INTERFRAT BASEBALL CHAMPIONSHIP TITLE

Defeat Alpha Tau Omega by Score of 3 to 1 in Title Play-off on Centennial Field

Before a small crowd Thursday afternoon the Independents won the 1931 interfraternity baseball championship by defeating Alpha Tau Omega 3 to 1 in a seven-inning game on Centennial Field. The game was very interesting well played and efficiently handled by Umpires Rapuano and Levine The feature play of the entire series occurred in the [illegible] game when with A T O runners on second and third, Wetmore hit a hot liner into Zaninovich's hands who quickly threw to Johnson at third and the latter snapped the ball to Riani at second to complete a well executed triple play.

Griffith, the winners' pitcher continued his good work, which he has displayed in previous games, by striking out 11 men in the seven innings [illegible] himself in the first and driving home runs in the third with a long double.

[illegible] got a double for the Independents in the fourth, while Riani with two hits and two runs to his credit was the heavy slugger for the winners.

Baldwin, the losers' twirler, pitched a good game and received better support in the field than his opponent but was not backed up with such timely

[illegible] baseball game with the Alumni at 2.

A supper will be served by the students of the several colleges the dormitories at the Basement Dining Room. The engineers at the Dana restaurant and the Agricultural students at the Home Economics [illegible] Fraternities and Sororities will [illegible] at 5 p. m.

Baccalaureate

Baccalaureate Day on Sunday will start with the annual breakfast on the Students' Union steps at 10 o'clock.

The alumni will see the varsity baseball game at 2:30 and at 4 the Rev. Lloyd C. Douglas will preach a sermon in the Ira Allen Chapel.

At 5 o'clock the faculty will hold open house and the day's program will conclude with the students sing on the college green to the music of the Burlington Military Band.

Commencement

Commencement Day opens on Saturday with the last week's program will be started by the trustees meeting in the Music Room of the Billings Library. The meeting will be followed by the usual academic procession on University Place at 9 a. m.

At 10 o'clock the climax of Senior Week will arrive with the commencement exercises in the gymnasium and [illegible] will be awarded to the [illegible] year class and Dr. Edmund Day of New York City will deliver the commencement oration.

Dr. Day has an A.M. degree from Dartmouth and a Ph.D. from Harvard. He is recognized as a leading economist, having held positions as professor and dean of the School of Business Administration of Michigan University. From 1927-28 he was connected with the Laura Spellman Rockefeller Memorial and has served as a director of the Rockefeller Foundation since 1928. He is a member of Phi Beta Kappa and Theta Delta Chi, and is the author of several books relating to economics. Among his works are "Statistical Analysis" and "The Growth of Manufactories," published in collaboration with W. Thomas in 1928.

Boatride—Banquet—Dance

At 1 p. m. there will be a luncheon for trustees and invited guests at Billings Hall.

The annual boatride, banquet and dance sponsored by the Senior Class and open to all, will start in the afternoon when the Steamer Ticonderoga sails at 4:30 from the King Street dock for Trembleau Hall, Port Kent, N. Y. The Black Pirates Orchestra will play for the dance, and tickets will go on sale around June 1.

Did you go to a school for stammerers? No, no; I-I-I picked it up myself.

U. V. M. WINS TRI-STATE LITERARY COMPETITION

(Continued from page 1)

[illegible] Professor [illegible] of Wells College and Professor [illegible] of Queen's University. The final [illegible] by John L. Cutler of Maine, placed second with 21 points and *Spring Harvest*, by Ruth Dodge of New Hampshire, with 20 points. Miss Frost was way ahead for Vermont in this contest. The total score was: Vermont 5, Maine 3, New Hampshire 2.

Last year's winners for Vermont which placed second in the entire contest were: Lewis Gaudrich '30 who received first in short story with *A Brave Woman* and second in poetry with *On a River Bank* and Fitzgerald, who took first in poetry with *Fog*.

The system of rating as regards [illegible] which was used in the contest [illegible] points for first place, three points for second place, and two points for third place when no tie is [illegible]. This modify the rating proportionally. The point system used in [illegible] of selection is for the convenience of judges primarily.

Started in 1926

The contests were started in 1926, at the suggestion of the University of Maine, and all three short-story prizes that year were won by Vermonters. Florence Smith, Bertrand Chapman and Elizabeth Warner Morrill.

In 1927 Pauline Sullivan and Merta E. Munro of Vermont took first and third in the short stories. Lewis Leary and Janice Goodrich took second and third in the essays and Miss Goodrich tied for second in verse.

In 1928 Merta E. Munro won the short-story contest. Ann K. Perkins won the essay contest and Wilmond S. Parker won the poetry contest, giving U. V. M. three first place.

In 1929 University students took three thirds, Mary Turner in short stories, Marjorie Rice in essays, and Janice Goodrich in verse.

The prizes are $25 for first place, $15 for second place, and $10 for third place.

Student (at book store): Gimme a map of New York State.

Clerk: All we have are maps of New Jersey.

Student: O.K. That's close enough.

—*Syracuse Orange Peel*

MUSIC STUDENTS WILL GIVE THREE RECITALS

Smoke a FRESH Cigarette

JUST as the proof of the pudding is the eating, so is the proof of a cigarette in the smoking.

And millions of men and women are now discovering a brand new enjoyment since Camels adopted the new Humidor Pack.

The mildness and the flavor of fine tobacco vanish when scorching or evaporation steals the natural moisture out of a cigarette.

Now, thanks to the new Humidor Pack, which keeps the dust and germs out and keeps the flavor in, Camels, wherever you find them, are always *factory-fresh* and in perfect mild condition.

Air-sealed in Camel's moisture-proof Cellophane is all the goodness of finest Turkish and mellow Domestic tobacco expertly blended.

No harsh, dried tobacco to burn the throat. No peppery dust to sting delicate membrane — just the cool mild aroma of fine tobacco, properly conditioned.

Camel smokers have already discovered that their favorite cigarette is better now than ever before.

If you haven't smoked a Camel recently, switch over for just one day, then quit them, if you can.

CAMELS

● *It is the mark of a considerate hostess, by means of the Humidor Pack, to "Serve a fresh cigarette." Buy Camels by the carton—this cigarette will remain fresh in your home and office*

Elaborate Ceremonies at Dedication of New Museum

Dean Perkins Gives History and Professor Tupper Describes Construction of Edifice—R. L. Patrick Presents Keys to President Bailey—Curator of American Museum Depicts Function

AFTERNOON TEA FOLLOWS EXERCISES AT MUSEUM

As the denouement of the dream of Dean George H. Perkins of the Arts and Sciences College, the formal dedication of the new Robert Hull Fleming Museum was held last Saturday morning with nearly 300 guests present.

Pres. Guy W. Bailey introduced Dean Perkins, who briefly and eloquently told of his sixty-two years' connection with the museum. He said:

"More than sixty years have come and gone since President Angell asked me, a few days after I first saw Burlington, to go to the museum with him. The new building was very plain, just a brick box, recently built to house on the first floor the natural history collection and on the second floor the library. I saw as we entered a small but good collection of birds, a few mammals, shells and Indian relics, more minerals, and a very few geological specimens. A short time previously all these had been located in one not large room in the Old College Building. As a museum it was not very important nor attractive, but it was to be my museum. I soon grew to love it and I soon began to dream about a better and larger place for the collections, for even then I found very valuable objects that could not be replaced should the building be destroyed by fire. Today my dream of many years has more than come true.

"A few years after I came here, Mr. Park of Bennington added the mansard roof-third story, and started the art gallery. When the Billings Library was erected the second story of the old building was made available for the museum.

"While the former library was often cold in winter, the lower story was even less adequately heated.

"For thirty years the building stood where now is the Science Hall, but in 1895 it was moved to its present location and turned a quarter way around. Then the east wing was added and in 1898 by means of a legacy from Henry LeGrand Cannon the addition on the west side was built to contain the splendid collection of mainly East Indian objects which he had left us.

"During all these years the collections have grown to what you see here. While the former curator has gladly done what he could to increase the collections in size and value, the credit

SEVEN HUNDRED PRESENT AT ALUMNI LUNCHEON

Program Is One Round of Gaiety and Color With Reuning Classes and Speakers

Nearly 700 alumni and seniors were present at the alumni luncheon held Saturday morning at 11.30.

The reunion classes were a lively crowd this year, particularly those in costume. The class of 1906, which won the cup for the best costume, had a particularly effective combination. The attire included multi-colored robes, wigs of very realistic character, fans, mustaches and all the other make-up of the Chinese gentlemen and ladies of high degree. And the actions of the members of 1906 were most convincingly "in character." They received a "big hand" when they paraded during the dinner.

The classes of 1925 and 1928 were cited for honorable mention by the costume cup award committee.

The class of 1925 were attired in striking jockey costumes of red coats and white riding breeches, with black jockey caps, making a very striking color effect. They also received considerable applause when they marched around the annex to the tune of "All the King's Horses and All the King's Men," and also when they mounted the stairs leading to the gymnasium supper and sang a Vermont song.

Of equal brilliance, perhaps more so, was the costume of the class of 1928, appearing as gypsies. This class, the youngest of the reuning classes, exhibited its youthful spirit by dancing blithely around the tables on several occasions, once to the tune of "My Little Gypsy Sweetheart," shaking tambourines and shouting like the carefree children of the great out-of-doors whom they typified.

These were the principal costumes at the dinner, although the members of the graduating class appeared in paper hats of various colors and entered completely into the holiday spirit of the occasion. Their cheering was particularly effective.

To all of this gala occasion, Lechnyr's orchestra, under the direction of Joseph F. Lechnyr, was a great asset. The orchestra had a busy time during the dinner, being called upon to play almost continually for one thing or another. And it was remarked that they did a very good job of it.

James D. Brennan of Boston, chairman of the Alumni Council, called the gathering to order before the luncheon and grace was offered by the Rev William Hazen of Sholopur, India, class of 1893.

Following the luncheon, the usual speaking program was carried out, giving each reunion class representative five minutes.

Before calling upon these speakers, however, Mr. Brennan introduced Hamilton S. Peck of this city, class of 1875 as the oldest alumnus present. Other "old-timers" whose presence was noted included Dr. W. Scott Nay Vanderhill, 1873, Louis Shaw, 1874, and Henry M. McFarland, 1878, of Burlington Park.

Speakers

The first speaker for the reunion classes was Darwin P. Kingsley, 1881, recently retired as president of the New York Life Insurance Company. Mr. Kingsley spoke of some of the members of the class of 1881 who had made unusual records in various fields of endeavor. He said that the average of his class was not often surpassed. He commented the tendency of the college of today to let down in the requirements for graduation, particularly in eliminating Latin and Greek from the required curriculum. He favored the continuance of the so-called cultural subjects.

"These great individuals who are receiving received their college training at the University of Vermont, said Mr. Kingsley. He referred to Dr. John Dewey, philosopher, Grace Goodhue Coolidge and Dr. John M

(*Continued on page 8*)

ANNIVERSARIES OBSERVED BY RETURNING ALUMNI

In celebration of the fortieth anniversary of their graduation about a dozen members of the class of 1891 dined Friday evening at the Hotel Vermont.

Thomas C. Cheney of Morrisville was reelected president; Miss Helen Bosworth of Bristol was elected vice-president, and Mrs. Hattie K. Forbes of this city was elected representative on the alumni council.

Class of 1906

The class of 1906, celebrating its twenty-fifth year since graduation, held its reunion luncheon at Oak Ledge Manor with forty-seven present including members and their families. The class also held a get-together breakfast Saturday morning at which thirty-three were present. Charles F. Black of Burlington, retiring president, was toastmaster at the luncheon. Officers elected were: President, Dr. F. Elmore Hubbard, Montclair, N. J.; vice-president, Ray B. Skinner, St. Johnsbury; secretary-treasurer, Mrs. Ruth Bond Gray, Burlington; medic secretary, Dr. John A. MacFadyen, Worcester, Mass.; committee on thirtieth reunion, H. Morton Hill, Boston, chairman, Dr. Donald Miner, Jersey City; Mrs. Gertrude Whittemore FitLondon, Hudson, Mass.; Ray B. Skinner, St. Johnsbury; and Mrs. Ruth Bond Gray, Burlington. Ray B. Skinner was elected alumni council representative. Dr. Sidney

Bigelow to Manage '33 Ariel; Margaret Tower to be Women's Editor

Spiller Will Edit Sports Department—C. Taylor Is Associate Editor, Fischer, Photographer

C. BROWN; FLEMING HEAD BUSINESS DEPARTMENT

James E. Bigelow was appointed managing editor and Margaret Tower, women's editor of the 1933 *Ariel* Friday, May 22, according to announcements made recently by Russell Colburn, editor-in-chief of the publication.

S. Nathan Spiller will edit the sports department and C. A. Taylor will act as associate editor and H. I. Shoor and J. F. Farwell, assistant sports editors; Paul Fischer, photographic editor.

Other appointments included William McDonald, feature editor; R. P. Donaghy, humor editor; W. Doane, medic editor, F. B. Drew, Kake Walk editor; and F. Massucco, grind editor.

The following will act as assistant grind editors: S. K. Carter, M. Brown, L. Reed, W. Dunham, B. A. Cohen, M. Benton, A. Young, M. Bergman, and R. Cross.

According to statement by Business Manager G. M. McKenzie the following assistant business managers will serve: D. W. Webster, W. J. Burke, and C. Grant; circulation manager, C. Brown, and advertising manager, H. Fleming.

Women's Board

Members of the women's board are: Laura Johnson, associate editor; Ara Armstrong, athletic editor, Mary Petras, assistant athletic editor; Esther Leary, humor editor; Priscilla Perry, grind editor; Greta Boardman, art editor; Gladys LaFlamme, poetry editor. Elizabeth Eckhard, Dorothy Jackman and Nancy Capron, photographic editors; Dorothy Edwards, Norma Carder, Katherine Tolman, Leah Gowen, Hazel Daniels, Pearle Cannon, Betty Curran, Thelma Appell and Mary Pratt, assistant grind editors. The business manager is Sylvia Boyd and the assistant business manager is Ruth Conant.

Bigelow plays football, is news editor of the CYNIC, belongs to Tau Kappa Alpha, honorary debating society, is a varsity debater and is manager of the junior varsity debating team. He is a member of Zeta Chi.

Spiller is treasurer of the John Dewey Philosophy Club, a CYNIC news editor, and belongs to Phi Sigma Delta. In his freshman year he played football and later served as assistant editor of the 1934 *Freshman Handbook*.

Margaret Tower, woman's editor, has earned her numerals in the W. A. A., is an assistant editor of the CYNIC and a member of Alpha Chi Omega.

Drew is the editor-in-chief of the 1935 freshman handbook and was sec

DONAGHY WINS FIRST IN KINGSLEY CONTEST

Celebrating the fiftieth anniversary of his graduation from U. V. M., Darwin P. Kingsley '81 trustee of the University of Vermont, awarded the first prize of $25 to R. P. Donaghy, '33, in the 52nd annual freshman-sophomore prize speaking contest named in the honor of the donor.

The contest was held in the Ira Allen Chapel June 11, being restored to its former place as a feature on the regular commencement program.

The winning oration was entitled, "The Radiant Christ," being the tale of a redemption of lost faith in a soldier in the trenches during the World War.

Second prize, $15, went to Robert Van Dyke, '34, for delivery of "Thomas Jefferson's Inaugural Address." "Regulus' Speech to the Carthaginians" earned for James E. Bigelow, '33, the third award of $10.

Delivery of "The Martyr President" of H. W. Beecher, by Realtrus McCuin, '34, eliminated him from the award of prizes.

The judges were Professors Lester Prindle, Lloyd Woodward, and Benjamin Wainwright.

Professor Bennett played several organ selections during the consultation of the judges.

Vermont Confers Degrees on 225 at 127th Graduation

205 Receive Bachelors' Degrees In Course, 15 Awarded Masters' Degrees, 34 Get Commissions While 31 are Granted Doctorates in Medicine and Teaching Diplomas go to 24

FIVE DISTINGUISHED MEN GET HONORARY DEGREES

Two hundred five bachelors degrees in course, fifteen masters' degrees, five honorary degrees, thirty-four commissions and thirty-one degrees in medicine besides twenty-five teacher training diplomas were conferred at the 127th Commencement exercises of the University of Vermont held last Monday morning in the gymnasium annex.

The honorary degrees were conferred as follows:

Doctor of Science, H. W. Mitchell. Doctor of Divinity, L. C. Douglas. Doctors of Laws, J. D. Brennan, P. O. Ray, and E. E. Day.

The Degrees in Course

Of the degrees conferred in course, Bachelors of Philosophy numbered 49, Bachelors of Science 38, Bachelors of Arts 21, Bachelors of Science in education 20, in commerce and economics 32; in chemistry 5, in civil engineering 6, in mechanical engineering 5, in home economics 17, in agriculture 6. Diplomas were granted to 24 graduates in the two-year teacher training courses. Thirteen graduates in medicine received first lieutenants' commissions and 19 academic seniors received second lieutenants' commissions in the officers reserve corps.

Recipients of advanced degrees are:

Masters of Science

Botany: Harold Charles Bold, A.B., Columbia, 1929. *Thesis:* Life History and Cell Structure of Chlorococcum Infusionum (Schrank) Menegh.

Chemistry: Amos Bush Wilmarth, A.B., Middlebury, 1900; A.M., Harvard, 1901; B.S., Vermont, 1918. *Thesis:* Analysis of Ice Cream for Sugar Content.

Psychology: John Ford Lambert, B.Sc., Massachusetts State College, 1926. *Thesis:* A Study of The Relative Effectiveness of Different Types of Instructions in Two Learning Problems.

Masters of Arts

Economics: Kingsland Deming Weed, B.S., Harvard, 1927. *Thesis:* Rubber and the Stevenson Scheme.

Education: Joseph Edward Carrigan, B.S., Vermont, 1914. *Thesis:* The Effect of Extension Education on the Seasonal Surplus Milk Problem in Addison County, Vermont. Arthur Sands Bibbins, B.S., Wesleyan University, 1920. *Thesis:* The Relationship Between Scholastic Achievements and General Intelligence as Measured in The Classes of 1930 and 1931 of the Darien, Connecticut, High School.

English: Genevra Mae Cook, A.B., Mount Holyoke, 1927. *Thesis:* Rowland Evans Robinson: Portrayer of Vermont Background and Character. Dana Morton Doten, A.B., Harvard, 1929. *Thesis:* The Philosophy of Ethan Allen. Mary Rose Parkman, Ph.B., University of Chicago, 1910. *Thesis:* Emerson and Walt Whitman. A Study in Contrast.

Greek: Elizabeth Wise, A.B. Smith, 1929. *Thesis:* The Exodus in Greek Tragedy: Its Characteristic Action.

(*Continued on page 7*)

PHI BETA KAPPA TAKES ONLY EIGHT CANDIDATES

Phi Beta Kappa, in addition to four members of the class of 1925 took a total of only eight seniors this year.

Four members of the class of 1926, who were nominated last December, were elected at the recent meeting. They are: Irene Allen, J. M. Colton, Gertrude Sunderland Hodgdon, and Wallace E. White.

Three members of the class of 1931 elected to membership are: Robert B. Aiken, Burlington; Eugene J. Desautels, Burlington; Gordon B. Hanson, North Craftsbury; W. H. Martin, Wolcott, and Ruth E. Small, Brooklyn, N. Y.

Three others were elected at the December meeting: C. W. Knapp, Jr., L. Lisman, and Esther Mandigo.

FORTY-THREE RECOGNIZED BY HONORS AND PRIZES

University Awards Prizes, Honors and Degrees In Honoris Causa

Five seniors this spring in contrast to sixteen last Commencement were elected to Phi Beta Kappa.

Three seniors took special honors, one in French and one in German.

The honor of *cum laude* was given to five medical students and four were recipients of prizes in medicine.

The department of military science and tactics officially recognized four students prizes and scholastic honors.

Ten miscellaneous prizes were awarded to fourteen students. The class of 1906 was the winner of the McCullough cup.

Three doctor's degrees in honoris causa were conferred, one in divinity, one in science and three in laws.

MAGNA CUM LAUDE

Charles William Knapp, Jr.

CUM LAUDE

Robert Bascom Aiken, Eugene Joseph Desautels, Gordon Babcock Hanson, Linda Lisman, Esther Curtis Mandigo, William Howard Martin, Ruth Ellen Small.

Special Honors

English - Robert Bascom Aiken. *Thesis:* The War Drama in English. *French & German* Robert Bunch. *Thesis:* Romantic Traits in Michelet. Winifred Anna May Stone, *Thesis:* Social Conditions in the Plays of Augier. Sara Learoyd Wescott. *Thesis:* Mérimée et Stendhal, Précurseurs de l'Ecole Réaliste en France au XIXe siecle.

German Elizabeth Clark. *Thesis:* An Analysis of the Drama of Heinrich von Kleist.

Honors in Medicine

CUM LAUDE

Nehemiah Alvarado Towne, Urho Robert Merikanmas, Irving Rudolph Charles Joel Hage, Stanton Seely Eddy, Jr.

CARBEE PRIZE

In memory of Moses Dyer Carbee, M.D. '73

For greatest proficiency in the subject of Obstetrics

Stanton Seely Eddy, Jr., Samuel William Howard.

WOODBURY PRIZES IN MEDICINE

For greatest proficiency in Clinical Work in senior year

Urho Robert Merikangas

To sophomore having the highest knowledge on first years of Medical Work

Paul Charles Thomas Bacon

Department of Military Science and Tactics

HONOR GRADUATES

Francis Almon Bolles, George Malcolm Donaldson.

THE LOYAL LEGION SABER

Francis Almon Bolles

THE SURGEON GENERAL'S PRIZE

Urho Robert Merikangas

AWARDED INTERNESHIPS AT WATER REED GENERAL HOSPITAL, WASHINGTON, D. C.

Roger Hubbard Allbee, Urho Robert Merikangas

Prizes

THE FRED T. KIDDER MEDAL

Awarded for Character and Leadership

Richard Henry Cowles

THE ENGLISH PRIZE

Robert Bascom Aiken

PHI BETA KAPPA BENNETT PRIZE

Louis Lisman.

WHAT COMMENCEMENT MEANS

Commencement! What thoughts ring through our minds as we contemplate the significance of this honorable yet nevertheless somewhat vague word?

For each group in society—for every individual, it holds forth a different connotation. To the entering freshmen in the collegiate world it means a complete adjustment to a new social group with history, traditions, and customs similar—yet on the contrary totally different from that which they call their own group.

To the sophomores who have seen just a little of the new situation become oriented and felt perhaps a little of the sting of defeat as well as the thrill and joy of clean victory it holds forth a richer meaning.

To the junior, all-wise, the traditional protagonist of dignity, the mediator between those who look to life in its fullest and those who would seek a higher goal ahead it means an ever growing feeling of achievement, a moulding of character, a sharpening of wits, and a strengthening of rich and beautiful friendships.

Of greater import is commencement to the senior, who steeped in the heritage and ideals of the social group he finds himself (or loses himself) in, and who is the victim as well as the thankful recipient of much oratorical advice, sees himself after four years of academic preparation bewildered with that "key to every door in life"—his diploma.

Through four years he has absorbed the ideals of his institution as well as learned the necessary facts in curricula to pass an imposed test. Yet possessing all the optimism that he enters his university with he soon finds that the world could do very well without him unless he proves to it that he is a necesary part of its being. He is bucked against the formidable wall of economic depression and unemployment; he is faced with a problem of choosing a specific line of work in which he cannot only earn a living but by means of which he can live in joy and with comfort. He is faced with tremendous moral and religious challenges.

His own place in the social situation is relatively small, yet it is through his influence as an individual that civilization has progressed and its problems been settled.

Business, science and the professions all seek the cultured, educated men and women, the ones from the top of their classes. Last year the Vermont chapter of Phi Beta Kappa took twenty men and women, this year only eight. *Viola le différence!*

The graduating man or woman of today sees themselves facing several vital issues. He sees the world entirely unlike what it was ten years ago. There is, first of all, and most directly felt, the economic disorder. It is with this that he must cope immediately. There is a greater need than ever before for social planning and an evidence of intelligent attention to the social, political, moral and economic forces that will work to obviate the present unhealthy condition.

Youth has a spirit of zest, adventure and humor, a critical keenness, a love of experiment, a thirst for the new and the better way. It will tolerate no steadfast adherence to already long outmoded systems of regulation. It has seen the failures of a binding traditionalism. On the other hand it needs the steadying influence of experienced heads to conserve its healthy vigor and direct it into progressive channels. It is through the influence of the activities, both academic and extra scholastic of the college student that the world looks to the college, as to no other stratum of society for its leadership and its vision.

Graduates, success is in your hands. The world depends upon you for the solution of its problems. It looks to you for new vision without which all life perishes. It needs you, and will reward you a thousand fold.

Commencement means not simply a new beginning—a casting aside of old ideas and habits—it means a formation of new habits as well as a strengthening of those virtuous ones. It means an inner growth and utilization of resources untried—an enriching of friendships and a consecration—a commitment to a way of life that is for the development of a life that will be of society yet out of it—a liberal leader. To you we say in the name of a progressive Vermont—in the ideals of your fathers and the founders of this institution: Follow through! After it! Follow it! Follow the Gleam!

Society Notes

KAPPA ALPHA THETA

The active chapter held its annual house party at Lockwood's Camp on Cedars Island June 7 to 11.

The following alumnæ were present at June spread held at the chapter house Saturday June 13. Jean Christie Bain, Dorothy Howe Barnkow, Anna Ward Boardman, Jessie Wright Brown, Emma White Chandler, Margaret Corbin, Lucy Beane Frend, Frances Hazen, Dorothy Heffron, Helen Hodge, Mrs. H. Morrow, Elizabeth Skinner Moore, Virginia Noyes, Ruth T. Parker, Mary C. Root, Rachel Skinner, Helen Stoddard, Dorothy Strong, and Elizabeth White.

DELTA DELTA DELTA

The annual Tri-Delt house party was held at the Grace Webb Camp, Cedars Island June 10, 11, and 12. The visitors were entertained by the rest of the chapter at dinner Friday June 12.

The June spread was held at the Athena Club Saturday, June 13.

PI BETA PHI

The active chapter held a picnic at the Sand Dunes, Thursday, June 11.

June spread was held at Oakledge Manor Saturday, June 13.

ALPHA XI DELTA

Alpha Xi Delta held its house party Wednesday and Thursday, June 10 and 11, by the lake.

Marian Way's house on South Prospect Street, was the scene of the June spread Saturday, June 13. The following alumnæ were present: Dorothy Barrett, Georgia Bostwick, Helen Merrit, Louise Morgan, Eleanor Phateen, Joyce Richardson, Anna Smith, Margaret Stackpole, Marion Way, Marjorie Way, Helen Wilson.

ALPHA CHI OMEGA

Open house was held at the chapter house Friday, June 12, from 4 to 6 o'clock. Among those in the receiving line were: Professor and Mrs. S. E. Bassett, Dean and Mrs. Swift, Mr. and Mrs. W. R. Adams, and Mr. and Mrs. J. E. Pooley. Mrs. D. B. Carroll, Mrs. C. E. Braun, Mrs. H. H. Hagar, and Miss Charlotte deVolt poured.

June spread, in celebration of the tenth anniversary of Alpha Iota Chapter, was held Saturday night, June 13, at the Alpha Chi Omega House; buffet supper was served. Florence Smith, '27, acted as toastmistress.

Chocolates were passed announcing the engagement of Hazel I. Stanhope, '26, to Edwin J. Austin of Bennington, and of Marian Baldwin, '29, to Raymond Tryon, U. V. M., '30.

Gifts of money, silver and linen were presented to the chapter at this time.

The attending alumnæ were: Lenore Aldinger, Marian Baldwin, Alma Cowles, Margaret Cullinam, Dorothy Dailey, Genette Davis, Flora Emerson, Lois Fisk, Lois Fortune, Doris Harbour, Allene Hill, Marian Hinsdale, Olufa Jones, Ruth Jones, Martha Leighton, Margaret Merrill, Mabel Miles, Lucy Morgan, Lois Palmer, Helen Peabody, Marjorie Perrin, Lois Robinson, Annis Mack Ross, Carlotta Raine, Zeta Chapter, Florence Smith, Jeannette Strong, Florence Whitcomb, and Fanny Wood.

SIGMA GAMMA

Pledging service was held at the chapter rooms May 26, for Lydia Curler, '34, of Richmond.

June Spread was held at "The Wildwood" in Charlotte, Saturday, June 13, at 6.30. Alumnae present were: Eloise Ballard, '28, Burlington; Edith Starr Barnes, '27, Chicago, Ill.; Elizabeth Brown, '29, Burlington; Dona Chamberlain Cady, '26, Rutland; Dorothy Claflin, '29, Boston, Mass.; Florence Cochran, '30, Stowe; Velma Cochran, '27, Stowe; Dorothy Dickinson, '30, Burlington; Katherine Eckley, '28, Burlington; Harriet Howard, '30, Burlington; Bertha Little Larrabee, '23, Enosburg; Katherine Knickerbocker, '25, Lucine Little, '29, Marian Little, '24, Christie McLeod, '30, Consuelo Northrup, '23, Fredericka Northrup, '26, Elizabeth Pingree, M '31, all of Burlington; Minerva Risdon, '29, Montpelier; Marian Sylvester, '24, Essex Junction; Mary Northrup Wallace, '25, Princeton, N. J.

KAPPA DELTA

North Shore was the scene of a beach party held by the active chapter Saturday afternoon, June 7.

The biennial convention to be held at Washington, D. C., June 29-July 5, will be attended by the following girls from Alpha Theta Chapter: Rosena Allen, '30; Katherine Courtney, '27; Dorothy Davis, '24; Evelyn DeBrune, '32; Emma Douglas, '30; Carlotta Grimm, '31; Katherine Kingston, '31; Fannie Pierce, '24; Hilda Smith, '31; Betty Upton, '29; Hildur Wilde, '32.

The annual June Spread was held at Hotel Vermont Saturday, June 13. The following alumnae were present: Katherine Courtney, '27, Alice Crowe, '27, Agnes Doyle, '23, Doris Duprat, '30, Jeane Lawrence Ferrier, '30, Mabel Donahue Lawrence, '27, all of Burlington; Helen Lynch, '28, St. Albans; Pauline Lynch, '28, New York City; Irene Marcott, '30, Winooski; Theodora Mascott, '29, Burlington; Billie Stillwell Miles, '29, Flushing, L. I., N. Y.; Fannie Pierce, '27, Burlington; Betty Upton, '29, Burlington; Alice Wright, '27, and Katherine Wright, '28, of Burlington.

EPSILON SIGMA

The following officers were installed May 25 for the coming year: Georgia Nichols, '33, president; Martha Bates, vice-president; Bettie Curran, treasurer; Rosemonde Doty, recording secretary; Laura Towne, corresponding secretary.

The active chapter was entertained at a supper party, May 19, by the patronesses at the home of Prof. and Mrs. B. C. Douglas.

NINE FRATERNITIES HOLD RECEPTIONS FOR LARGE NUMBER OF RETURNERS

Nine fraternities held receptions at their respective houses at 4.00 o'clock last Saturday with large numbers of alumni reuning.

Lambda Iota

A large gathering of alumni was present for the annual reunion of Lambda Iota. In addition to Burlington alumni, those present from out-of-town were: Edward H. Deavitt, '93, Montpelier; C. S. Wright, '99, and C. J. Wright, '99, Williston; A. M. Taylor, '99, Montclair, N. J.; J. D. Brennan, '03, Boston; R. L. Whipple, '06, Worcester, Mass.; E. P. Hendrick, '99, Newtonville, Mass.; E. N. Brush, '25, Orono, Me.; W. M. Wilbur, '26, Barre; R. I. Lamson, '26, Northfield; Charles Stafford, '27, Stowe; G. E. Baldwin, Jr., '28, Cranford, N. J.; G. S. Rand, 29, St. Albans; D. W. Weitzmann, '29, Ithaca, N. Y.; T. H. Morton, '29, Niagara Falls, N. Y.; H. C. Dalrymple, '30, West Orange, N. J.

Sigma Phi

The 87th June reunion of the Alpha of Vermont of the Sigma Phi fraternity was held at the chapter house on College Street with an attendance of forty-five. Louis F. Dow of Burlington presided at the banquet and the orator was James S. Bixby of Poughkeepsie, N. Y. Short speeches were made by many other members of the fraternity. Those present included Dr. John C. Torrey of Yonkers, N. Y., Paul de N. Burrows of Englewood, N. J., James S. Bixby of Poughkeepsie, N. Y., Chandler S. Gates of Cambridge, Mass., Allen C. Clifford of Brandon, George C. Martin of Jacksonville, Fla., Francis J. Lillie of Montpelier, John T. Conway of New Bedford, Mass., Charles H. Mace, Jr., of West Springfield, Mass., Robert P. Billings of New Haven, Conn., Arthur B. Hillegas of New York City, besides the Burlington members of the fraternity and the under graduates.

Phi Delta Theta

Fifty-four alumni, half of them from out-of-town, attended the reunion of Phi Delta Theta at its chapter house. Oout-of-town alumni, included: Leonard S. Doten, Washington, D. C.; H. M. Dean, Providence, R. I.; Charles F. Blair, Buffalo, N. Y.; P. Orman Ray, Berkeley, Calif.; Chauncey H. Hayden, Riverside; A. H. Kehoe, Rutherford, N. J.; Thomas C. Cheney, Morrisville; Dr. F. H. Clapp, North Grafton, Mass.; M. D. Howe, Adams, Mass.; J. B. McLeod, Barre; E. J. Grant, Stamford, Conn.; Frank A. Conlin, Saranac Lake, N. Y.; H. A. Mayforth, Barre; T. M. Webster, Shelburne; M. H. Grower, Jr., Arlington, Mass.; F. W. Mould, Morrisville; W. P. Mould, Johnson; W. B. Clapp, North Grafton, Mass.; E. L. Waterman, Iowa City, Iowa; R. A. Marble, Fitchburg, Mass.; F. S. Grow, Maplewood, N. J.; M. A. Howe, Pleasantville, N. Y.; J. C. Morgan, Stowe; Olney W. Hill, Youngstown, O.; D. M. Johnson, Jr., Indianapolis, Ind.; Emory C. Mower, Cambridge, Mass.; and Robert Costine, North Adams, Mass.

Sigma Nu

Alumni returning for the annual reunion at Sigma Nu Lodge included: R. C. Wheeler, '09, Albany; Guy Whitcomb, '07, Rutland; Irving Cobb, '05, Bennington; Harold Huey, '04, Saylesville, R. I.; Arthur Kingman, '06, Maplewood, N. J.; Harold French, '08, Montpelier; W. W. Hayes, '10, Wellesley, Mass.; M. E. Woodward, '02, Hartford, Ct.; Asa Bloomer, '13, Rutland; George Talcott, '28, Williston; Robert Whitcomb, '28, Essex Junction; John Miller, '28, New York City; Earl Chevalier, '25, Springfield, Mass.; Vincent Carney, '25, New Haven, Ct.; William Cogswell, '28, Warner, Mass.; John Pike, '29, Springfield, Mass.; Nelson Duba, '23, Johnson.

Alpha Tau Omega

President Guy W. Bailey, and Professors A. D. Butterfield and Hovey Jordan of the faculty were among the alumni present at the Alpha Tau Omega reunion, which was held in the chapter's new house on Williams Street. Edmund E. Day, Rockefeller Orator Urges Growth in Social Intelligence

Commencement Speaker Stresses Need For Social Planning In Present Complex Order

Edmund Ezra Day, Director of Social Service of the Rockefeller Foundation speaking at the Commencement exercises said in a discussion of Social Intelligence:

Each year at this season the institutions of higher learning throughout the country pour a great stream of fresh blood into the body of our economic, political and social life. The accessions of sheer vigor, untrammeled enthusiasm, and fine idealism which come from this infusion are one of our surest guarantees of persistent social progress. But the immediate significance of the infusion does not depend entirely upon the character and purpose of the young men and women who, through such occasions as this, step out to take their places in the world of practical affairs. Manifestly external conditions vary greatly from year to year. The classes of 1917 faced one situation, the classes of 1927 quite another. The initial experience of the graduates of these two years only a brief decade apart could hardly have been more radically different. The graduates of 1917 took their places in a world wracked by war, those of 1927 in a country riding on a tide of widespread prosperity. The contrast of these two years but puts in accentuated form the differences of condition which the oncoming generations meet in undertaking to make their contributions to their times. Small wonder then that the graduating classes each year scan the social horizon with deepest interest. As this class of 1931 looks out, what is the prospect?

That the present conditions are difficult is known to all. At no period in recent times have the people been more bewildered, nor the leaders more perplexed. The old complacency is gone. Doubts now prevail where there was once complete assurance. Even the Great War did not, in some ways, go so deeply. War, after all, was a familiar phase of the upward struggle of mankind. Violent outbreaks of the sort had occurred from time immemorial, and were hardly to be regarded as break-downs of the social order. On the contrary, wars had their place in the normal course of events, and presumably were inevitable so long as the fit sought to overpower the less fit. Were not great organizations kept at a high pitch of efficiency with a view to the conduct of war—defensive or offensive as the case might be? Moreover, once war was on, national objectives became sharply defined and unified as they could rarely be in times of peace. Progress toward specific objectives could be measured, and what appeared to be final success, unhesitatingly acclaimed. In times of such armed conflict the national waters might be dark and the passage stormy, but the points of compass stood fixed and happily were always ascertainable. War might be full of suffering and terror, but fortunately it was manageable.

The present world-wide upheaval is of a different order. It is manifestly more complex. In the midst of unexampled plenty, individual and family want and deterioration assume frightful proportions. With surplus stocks of wheat, corn, sugar, cotton, copper, silver, rubber—to mention only a few of the more important basic materials—with millions of workers willing and competent to fabricate these materials into useful articles of consumption, the wheels of industry turn but slowly when they move at all, and hosts of unemployed workers find themselves unable to supply their daily needs without resort to public relief or private charity. The accumulation of vast funds seeking investment leaves industrial enterprise curiously unmoved. Great international debts bear down upon the adjustments of post-war trade. Rampant nationalism raising prohibitive tariff barriers blocks the accustomed channels of peaceful commerce. National jealousies and suspicions poison attempts at compromise and conciliation and block the way to constructive action. In every quarter and on every hand the individualistic system of modern capitalism is in distress if not actually on the way to collapse.

The means by which this situation is to be rectified are by no means now apparent. This is one reason why the experience has so shaken our morale. It is one thing to fight disease when its nature is recognized and the means for its cure at hand; it is quite another thing to wage the fight when the causes are obscure and the remedies unknown. The present situation is frightfully unsettling. In the present state of our knowledge it is baffling. We do not know enough to deal wisely with the forces wrecking such havoc in this world of ours. We are essentially unprepared. No situation of this generation has made so clear our lack of genuine social intelligence.

The meaning and significance of social intelligence doubtless requires explanation. We are all familiar enough with the concept of intelligence in the individual. It connotes mental acuteness, an ability to penetrate below the surface of things, good sense or sound judgment, insights that make possible the effective employment of means to ends, downright understanding. Among the traditional virtues individual intelligence rates in contemporary civilization, even among the younger generation. There are few deficiencies more stoutly denied than that of stupidity, there are few qualities more readily acknowledged than that of intelligence. In the individual intelligence is a virtue of universal prestige.

In Society

But what of intelligence in society? The concept itself involves difficulties. What do we mean by society? In the present connection it is unnecessary to engage in philosophic abstractions. Whether there is a social mind apart from the minds of the individuals of which society is composed need not concern us. It is enough to think in terms of the problems which are peculiar to social life. Individual intelligence connotes understanding and mastery in dealing with the problems that confront the individual, similarly social intelligence connotes understanding and mastery in dealing with the problems that confront society. What are the means by which social intelligence, in this sense of understanding and mastery, is to be attained?

In the philosophy of the nineteenth century, social inteligence was regarded as an inevitable by-product of the exercise of individual intelligence. Society's interest derived spontaneously from the untrammeled pursuit of individual interests. True, government might have to impose certain general rules for the game, might have to restrict under the police power in the interest of order and decency the free play of selfish impulses, but in general, the well-being of mankind was best fostered by giving the adult individual the widest liberty within the limits prescribed by considerations of health and morality. Thus, so far as political economy was concerned, all that was asked of the government was the preservation of security—"security for wealth created, security for the exercise of ingenuity and industry in creating more, security for enforcing the performance of contracts." "The 'natural' action of private self-interest," according to this belief, "leads to the most perfect organization of social and economic relations and to the highest welfare of all." From this point of view, society had no need of understanding and mastery in dealing with social problems. Enlightened individualism resolved all issues in the public interest.

This doctrine, extreme and unreal as it now seems, played an important rôle in its time. As a principle under which to do battle with the older forces of special privilege, arbitrary restraint, autocratic interference, and anti-social monopoly, individualism marked a great force for improvement. The achievements of modern civilization would hardly have been possible had not relatively unrestrained individual initiative had its day.

Old Policy Inadequate

But whatever the value in its time of the policy of unrestricted individualism, its inadequacy under present conditions is all too apparent. Of course it is to be admitted that some of the prevailing difficulties arise from interferences of the very sort most vigorously condemned by the advocates of the freer competitive system. Such, for example, are the disruptions of trade resulting from the arbitrary restrictions imposed during the post-war period by governments excited by nationalism. But the most serious phases of the present sickness of acquisitive society derive from the very exercise of individual initiative upon which the older school placed such store.

Recurrent excess capacity in industry, for instance, is the predictable consequence of the unrestrained endeavors of individual large-scale producers to secure as large a share as possible of their respective markets. Again, technological and managerial improvements introduced under the spur of manifest self-interest account in considerable measure for the chronic state of unemployment which now afflicts the principal industrial countries. No, the cure for our current social distress is not to be found in a return to nineteenth century political prescriptions. On the contrary, there has been ample demonstration that those prescriptions will no longer serve. What is needed now is a positive and vigorous development of social intelligence the understanding and control of social institutions and social processes in the solution of pressing social problems. Effective planning must take the place of the present aimlessness.

Social Planning Needed

Social planning is not entirely unknown even as matters stand now. Thus, certain American cities have had their institutions and habits subjected to thoughtful and detached analysis by groups of trained observers as in the Pittsburgh and Springfield Surveys, and in the Lynds account of Middletown. Recently a great American foundation has presented to New York a comprehensive Regional Plan of New York and its environs representing a protracted study of the layout of that great metropolitan area. Within the next two or three days a conference is to be held here in Burlington to consider the findings of a two-year state-wide examination of rural life in Vermont. Surveys of this sort deal with such matters as the climate and natural resources of the region, the composition of its population, its health, its schools and churches, its industry and commerce, its government, its provision for art, music and recreation, its traditions and customs, in brief its social life in all its ramifications. An understanding of these matters is a prerequisite to intelligent social planning.

But perhaps the most effective social planning in these days is done in large-scale business enterprise. Manufacturers with large output must find broad markets. Inevitably they come to deal with great masses of people. Modern advertising is the force they ordinarily employ. They employ it on the basis of plans made after careful measurement of the known elements in the consumer situation. The extent to which they have created and exploited certain social influences is striking. They are gradually acquiring insights into mass psychology which will give them even greater power. The individual business has learned that it must plan its dealings with society.

The Five-Year Plan

But the outstanding example of social planning thus far is of course the Five Year Plan of Soviet Russia. Here are the vast resources of a great peo

(Continued on page 6)

OFFER FOUR NEW EC. COURSES FOR SUMMER

The following courses in addition to those announced in the bulletin will be offered by Associate Professor Huebner of the Department of Economics of the University of Vermont in the summer session if sufficient students enroll to justify organizing a class. Students enrolled for the Master's Degree may take the courses for graduate credit; those enrolled for the Bachelor's Degree may take the courses for undergraduate credit; and those not interested in receiving credit may enroll to audit the courses. Classes will meet from July 6 to August 14, Monday and Friday inclusive.

Economics 7. Corporation Finance. 8 a. m.

The corporation will be examined from the viewpoints of the investor and the management. Common and preferred stocks and the various types of bonds will be described, tests of the investment strength of securities will be formulated, and the corporation will be compared with the partnership and other forms of business organization. The course is designed for those interested in corporation organization and finance. Two semester hours credit. Tuition fee $18.00.

Economics 8. Principles of Credit. 9:00 a. m.

The problems in extending credit to consumers by retail merchants will be treated. Instalment selling, the use and abuse of charge accounts by consumers, records of consumers paying habits, the work of the Credit Bureau, and other problems of the department store will receive especial attention. An effort will be made to show the peculiarities of consumers and their credit problems. Two semester hours credit. Tuition fee $18.00.

Economics 9. Principles of Advertising. 10:30 a. m.

The field of advertising will be studied from the viewpoints of the advertiser and consumer. The topics discussed will include newspapers and magazines, advertising campaigns, tests of advertising efficiency, consumer analysis, and the preparation of advertising. The class will write a series of advertisements and will attempt to apply the principles of advertising in a practical way. Two semester hours credit. Tuition fee $18.00.

Economics 10. Principles of Merchandising. 11:30 a. m.

The principles and problems of retailing merchandise will be studied by the class. The history and organization of the department store, the chain store, the mail order house and other retailer will be treated, and the problems of buying, selling, advertising, etc., will also be analyzed. An attempt will be made to formulate the consumer's appraisal of retailing. Two semester hours credit. Tuition fee $18.00.

Note—In the above courses lectures, discussions and textbooks will be employed.

Baccalaureate Preacher Sounds Keynote of Faith in Graduating Class

Reverend Douglas In Delightful Vein Admonishes Seniors To Retain Their Grip on the Silver Cord Which Leads to the Golden Bowl

In a vein of delightful humor and revealing a keynote of supreme optimistic faith in the continued progress of society in spite of the complex problems of civilization, and an admonition to the graduating class to make the most use of their inner resources, the Rev. Dr. Lloyd C. Douglas of Montreal delivered the baccalaureate sermon, "The Golden Bowl."

He said in part:

If the current journals of opinion and the cloth-bound literature of despair are to be taken as face value, you members of the class of 1931 are about to identify yourselves actively with a social order that has become erratic, erotic, traumatic, slavish, anarchistic, atheistic, hedonistic, faithless, hopeless, I-cannot-care-and-broke.

Yet even the sketchiest knowledge of history should assure you that the social, political and economic wilderments of the hour are not to be compared either in extent, duration or severity with similar problems experienced again and again on humanity's age-long trek toward greener grazing grounds.

Whatever startling observations may be made concerning the psychopathic intoxication of inconceivable individuals who live in the belief that the universe had simply marked time until their own arrival gave it reality and significance, there is no self-confessedness preventive to the corporate egotism of an era.

This mark of obsession is not how ever the egotism of Narcissus. It does not arise from self-concern but self-unconcern.

Each generation upon reaching maturity, sees the world rapidly going to the dogs, lacking nothing to make the disaster cataclysmic and complete but to hand civilization over to the oncoming generation, whose wilful indifference to the fundamental imperatives of social safety guarantees the final smash-up probably within its own lifetime.

In the oldest known syllabic manuscript dating from 1300 B. C. the author devotes his essay to a bewailing of the utter depletion of the moral character of the young people and forecasting dire consequences unless they should be converted reborn and that right early, to the dandelion standards of their fathers.

In 1000 B. C. the greatest of the Jewish prophets remarked to Jehovah, "The children of Israel have forsaken thy covenant, thrown down thine altars, slain thy prophets. I only am left and they seek my life."

In 1,850 A. D. the General Assembly of the Presbyterians in America passed the following resolution:

We desire to direct attention toward that burning storm which threatens to sweep before it the institutions and morals of our people. We perceive with pain and fearful apprehension the destruction of religious principles and the rise of an abounding infidelity.

Impressions of a Graduate

Thirty-one years ago today the graduating class of which I was an unlettered member learned that we were about to engage with the world at a period of its life when it was being dealt with graver problems than any previous generation had been asked to solve.

I do not know how this tragic utterance struck my classmates, for we did not large afterwards to take any action on the matter.

As for myself, perhaps some vestigial race memory or smack apathy comforted me.

For even while the good old fellow pertinacity pounded the Book of Deuteronomy with eloquent fist, continued thumping it to buckle on our sword, take up our best weather hole, and go forth to slay the dragons and valorously ring our encamped and sorry civilization up and out to higher ground, I sat there challenged only by the disturbing fact that I had but a dollar and a half in my pocket and had promised to take my girl for a buggy ride that afternoon.

As I recall it now, I did not even have the grace to feel ashamed of my own lackadaisical in the face of the whole matter from foreboding.

Had not the doctrine of the Anglo-Saxon already set in? Was not all western culture on the rocks? Was not the world's faith tracking down? Was not the whole social order in peril? Could any of our cherished institutions survive?

"And what was of more immediate importance could I take a rubber-tired vehicle anywhere in town for a dollar and fifty cents, and even supposing that I could would that negotiation not leave me penniless with a hungry young woman on my hands?"

"Now, unless I am extremely mistaken about you, beloved, your present apprehensions about the perilous plight of civilization in this bewildered age is no more painful than was mine at twenty-one.

"I find something very heartening in the fact that you are so tranquil as you confront the future threatening woes.

Urge to Tranquility

"It pleases me to observe of you that though you have learned that the race is becoming old and wrinkled through careless breeding, that at the present rate of population increase the world is soon to be in the grip of starvation due to an inadequate food supply, that 15 percent of our people are quite definitely feeble-minded, with a second section of 30 percent missing that I. Q. by a narrow margin, that the exhaustion of solar energy must sooner or later affect all vegetation, that four out three out of eleven have cancer, that of every five brave preachers that six out of ten have lost their patriotism, and seven out of nine have lost their religion, it pleases me to observe that you have not yet outgrown the blessed instinct that makes you confident and joyous in a universe which you believe to be on your side.

"And my errand with you today is not to try to talk you out of your youthful trust in the integrity of this world, but to express the hope that you may not succumb, if in this heartbreaking age when a myriad apostles of as many brands of social salvation are exploiting their phobias on every street and economists, social engineers and political scientists are seeing ghosts behind every tree not yet cut down to make paper for the circulation of fresh anxieties.

Civilization Continues

"Let the bare fact that huge blocks of humanity composed of so many as five or six consecutive generations have continued to carry on through every conceivable form of tragic circumstance meantime living their lives with a measure of simple joy finding satisfactions even in the grind of poverty, the persecutions of war, floods and famines, pillage and pestilence still able to compose ballads of ineffable sweetness and hymns of undaunted faith and art forms of divine beauty, assure me that there are resident in the human heart, and accessible in time of great emergency, hidden springs of valor and fortitude whose depths no one of us has ever been asked upon to explore.

"After perusing some of the trials of Mr. and Mrs. Samuel Pepys, as recorded in his famous diary, and the way he endured them, the speaker discovered the presence of a philosophical Englishman in the Lees of the Colonial revolution and continued:

"Sure, he must have felt the world was coming to an end, and so it was in a sense. One kind of a world was coming to an end while another kind of world was in the making.

"Has it not ever been so? And after a newer world has been constructed over the ruins of the old, has there not ever arisen with heart reasons to return to the things that had been down to make room for newer progress?"

Readjustment

We find ourselves today to another period of readjustment, having our economic compass reappraising all our political preconceptions, revealing our faith in the unseen forces which we trust, hope are forging us forward toward some stupendous dawn.

"The active years of your lives will be spent in the most exciting period the modern world has known for at least two centuries and a half.

"You have it all to say whether you are going to live it in a constant state of apprehension over those inevitable changes that are coming to pass in every phase of human interest, or whether you are going to take your part in every project of hope that at length and as usual these maladjustments will make for the larger freedom and progress of mankind.

"It is to arouse and compelling you to go forth triumphant resignation that I crave off to sit under a mesquite or fig and a loaf and a flask of wine and a book of verse that from lonely plateau of its fears and plans come.

"Am I suggesting that you view this hectic scene in the mood of the Eastern sannyasin who merely turns a cynic at the focal points of disturbance and wants his film back to the Himalayas and goes home to dinner?

"I am most eager to be in and of the contest not just as spectators, statisticians, bookmakers or journalists but participant in its affairs and concerned about its problems.

"Let no adversity unnerve you however to keep your present confidence in the potentiality of the evolutionary forces of our world. The universe is friendly. It will not let you down. And nothing that can possibly occur

SPORTING NEWS

Baseball Team Wins Final College Game; Loses to Grads

ALUMNI WIN TEN-INNING THRILLER FROM VARSITY

Vermont's Alumni beat the varsity 4-3 in the tenth on a double steal by Jack Conway and Bunny Prentice at Centennial Field last Saturday after [illegible] before a large Commencement week crowd witnessing one of the season's best baseball games.

[illegible] and collected [illegible] for the Varsity, [illegible] into centerfield, and advanced when Prentice laid down a beautiful bunt. Prentice getting safe as Cummings connected with the ball. Upon which the Varsity [illegible] the Alumni at the Plate. [illegible] Conway, who scored on Prentice's long fly to Jones, who came in very fast from the Center, and zinged back to Carney. It looked like Stroh had [illegible] but he was good most of the way.

Pitching Wonder of the Vermont half was the task [illegible] Jim Kendricks had [illegible] over the mound assignment in the eighth. Eddie was [illegible] to second by Charlie Cummings making the second out, and [illegible] third, but died there as Dinniman popped to Jim Smith.

It was a glorious victory for a fast fighting, clever horde of ex-players who turned in some remarkable fielding feats all over the field.

The winners scored one in third on hits by Randall and Newton, and a strange play engineered by Nel Duba's bat.

However, Dew weakened in the lower half letting Sargent triple after singles by Pires and Winant, and Sarge scored himself a moment later on a wild pitch.

The old grads whittled at the 3-1 lead, cutting it to 3-2 in the fifth when Randall dropped a Texas leaguer over second, reached third on Macomber's muff of Newton's grounder, and scored on Duba's long out to Dinniman, who turned in a nice last field ing performance. Here Sargent, who had given five hits, and Newton, who allowed seven, were relieved. It was Sarge's last game, and he did a fine job of it. Taylor twirled the next two innings, giving no hits.

Meanwhile the oldsters tied it at 3-3 in the seventh when Smith walked, stole second, and scored on Conway's first smash.

Winchenbach clouted a terrific blow beyond centerfield in the ninth after one out, negotiating third on what Tom Collins would have stretched to at least three home runs. Cal Macomber had reached second in the eighth, but nothing came of it. It was also a good-bye contest for Stroh and Cummings.

Winant, who had made four bingles, hit his triple in the first inning, but Sargent was walked and Dinniman fanned.

At the insistence of the crowd, Larry Gardner, who had just signed another three-year contract to coach the Vermont team, was lugged out to third base to play the last two innings. However, he had no chances at bat or in the field. The box score:

Wild pitch: Newton.

Time: Two hours, 25 minutes.

Umpires: Hayden and Seymour.

VERMONT DEFEATS ST. LAWRENCE 4-3

Chet Rutkowski won his own game in the ninth inning with two on when his long fly hit over shortstop sent Captain-elect Orrie Jay across the plate with the run that made it 4-3 for Vermont over St. Lawrence at Centennial Field Friday afternoon, June 3.

Chet was the big star of the game, getting four of Vermont's seven hits and turning in some good plays. He drove in the first run, scored the second, and then followed Winant's [illegible] scoring the tying run with the end smash. It was his fourth straight victory.

The game gave no sign of developing into a thriller as Jay scored the first run. He reached first because Furlong failed to cover the initial sack. Pires sacrificed him to second where he stayed while Winant grounded to third. Then Rutkowski hit to short, who was too late with the throw to catch the batter. Then Killeen heaved one wild over third base to catch Orrie, and Jay came home.

In the second inning, Harry Baker doubled but died there, Pencheff making a spectacular running catch and fall on Macomber's would-be Texas Leaguer. So the situation continued, with plenty of scoring possibilities but no consumations of the threats.

Suddenly Hades busted loose in the sixth. The St. Lawrence hurler Furlong, was walked, Thompson running for him. Pencheff fouled out to Baker whose leg showed temperament after the Dartmouth spiking.

Then Macomber bobbled Kunz's lift, and Holland lined one by the keystone. Baker deflecting and nearly stopping it for a possible double killing. No such luck, however; the bases were full, and one down, as "Boob" Ketchum stepped up after two previous safeties. The visitors' clean-up man did it again, smashing one out into rightfield, and Tom Collins let it rail between his legs and out deep into rightfield, all three base runners scoring, and the batter going to third. He was the last man to reach first safely for St. Lawrence.

Vermont retaliated somewhat in its half after Chet singled and advanced as Dinniman reached first on an error. Baker walked here, jamming the sacks with none away. Macomber fanned. Stroh hit a bad hopper to Pencheff whose body deflected the ball to Holland, who tagged Sargent out, Chet scoring on the play.

A couple of cracking clouts by Jay and Pires went for putouts because of nice fielding by Walthart and Kunz in the seventh.

Stroh flied out to left field in the last of the ninth, when the story was 3-2 against Vermont. Cummings pinched hit for Collins. Charlie singled sharply by first base, a grounder. After a tedious count, Jay walked. Pires, over-eager, breezed at two and then flied out to right field, Charlie advancing to third on the sacrifice. Jay went down to second on the next pitch, a ball. Another ball, and then Eddie Winant slapped a slow roller toward short. It looked positively like the last out at first, but Winant went tearing down the path to first like a rocket, and beat the hesitant throw by a substantial hair. Meanwhile, Cummings scored of course, making it 3-2. Then came Chet's conclusive hit.

What Price Glory

About the first of March each year the students at Coe College, Iowa, give a big party called the "Flunkers Frolic." As the name implies, this party is held for the benefit of those students who have flunked out, at the end of the first semester. The chairman and the queen of the occasion are elected because of their distinction in not passing a single course while in college.

ORSON W. JAY TO BE CAPTAIN OF BASEBALL TEAM FOR NEXT SEASON

Eddie Meehan of Fitchburg, Mass., Will Heat Track Team; Watson Morgan, Jr., to Manage Baseball

Orson W. Jay of St. Albans was elected captain of the University of Vermont baseball team for 1932 after three years of stellar performances in center field. It was announced by Graduate Manager of Athletics Sabin C. Abell. He succeeds E. L. Traynor Jr., deceased, as captain. E. M. Winant acted as leader this year.

Eddie L. Meehan of Fitchburg, Mass., pole vaulter, has been elected to succeed N. Paul Park as track captain, and L. L. Woodward of Richford succeeds Frederick J. Tupper, Jr., as tennis captain.

Watson E. Morgan, Jr., of Burlington, was elected varsity baseball manager, while R. W. Cobb of Bennington is to be freshman manager. L. N. Brock of South Newbury, C. S. Brown of Newport, and D. W. Webster of Burlington are to be the assistant diamond managers.

J. W. Marvin, Jr., of East Norwalk, Conn., becomes track manager and C. H. Wheeler of Haydenville, Mass., will be the cross-country manager, while the assistant managers, who will share the duties of freshman track manager, will be F. P. Kenyon of Burlington, C. J. Kilburn, Jr., of Collinsville, Conn., and G. M. MacKenzie of Williamstown.

M. E. Dober of Bridgeport, Conn., was chosen manager of tennis, while the assistant managerships went to P. D. Fischer of Great Neck, L. I., and N. H. Press of St. Albans.

The women's rifle team, Vermont's only women team, and the most successful of all sports teams last year, will lose eight regulars by graduation, retaining but seven regulars from the group which lost but one match.

The graduating girls are Captain Georgiana Hubert of West Hartford, Conn.; Life Captain Edith G. Pritchard of Pawlet; Manager Evelyn Slayton of Lake Placid Club, N. Y.; Nellie M. Chase of Bolton; Elizabeth Clark of Providence, R. I.; Alice C. Dodge of Barre; Emily Murray of West Hartford, Conn.; and Dorothy D. Nash of Concord, N. H.

The other girls, to whom crossed rifles will be awarded, are Ethel C. Bishop of Springfield; Marguerite Dunsmore of Swanton; Clara A. Hersom of LaJunta, Colo.; Daisy M. Putnam of Springfield; Frances E. Thomas of Jeffersonville; and Lenda Walker of Chelsea.

Miss Pritchard shot perfect scores in every match.

ALL AGGIE GRADUATES TO TEACH IN VERMONT

All of the six boys who graduated from the College of Agriculture of the University of Vermont this month will take positions teaching agriculture in Vermont High Schools next fall. Three of them will inaugurate agricultural courses in schools where they were not given previously.

The graduates are: F. E. Blanchard, Readsboro; G. H. Gates, Cambridge; W. H. Martin, *cum laude*, Wolcott; J. A. Peters, Bradford; D. C. Pierce, Burlington and K. M. Stevens, West Glover.

Intercollegiate News

The Lie Detector Works

Five valuable books disappeared from the library at the University of Chicago recently, so in class the students were told that unless the books were returned within twenty-four hours, each would be subjected to a lie detector test. The next day not only were those five books back where they belonged, but also five others, missing from the previous semester.

Over in England

The Colgate Maroon tells of athletics as they are at Oxford. Sports are substantially intra-mural. There are no paid coaches. A player participates only if he wishes; he is not urged to play. Little time is spent in compulsory practice. There is none of the "rah-rah" spirit common in American colleges. The important question is "Did you have a good game?" not "Who won?"

PRENTICE ASKS COURSE IN PERSONAL HYGIENE

Physical Education Director Advocates Short Course for Freshman Men

With reference to a new required course for freshmen, the following letter by Mr. H. A. Prentice of the Physical Education Department was sent recently to the Committee on Curricula.

"To the Committee on Curricula, University of Vermont, Dr. S. E. Bassett, chairman.

"Mr. Chairman and members of the Committee:

"I am submitting this letter to you, in order to present a subject, over which there has been considerable discussion here at the University of Vermont. It has been my hope to establish a course in 'Personal Hygiene' for freshman men. I am firmly convinced that such a course is essential and vitally important to their health. With this thought in mind, I have reached a solution, which in a brief form is this:

"A course to be given freshman men once a week for eight weeks, followed by an examination. For the present—deduct the necessary eight hours from their physical education program—and make a requirement that the freshman must pass the course before credit for his physical education will be given him. This will not add to the 'scholastic burden' or total hours of the freshman. It will be an entering wedge for a more detailed course in hygiene for the future and it will not be necessary to give academic credit for it.

"Dr. F. S. Kent has volunteered to conduct the course at no expense to the University. He is intensely interested in personal hygiene as related to college students and at present gives a course in this subject to the freshman women.

"Col. F. F. Black is much in favor of this plan—and would like to have it coordinated with the short course in 'Military Hygiene,' given to the freshman men. With this coopera tion a total of fifteen hours could be devoted to hygiene with no further hours added to the freshman curricular.

"This is a plan to build up a full course in hygiene as a part of our health service. I shall be very glad to answer any questions or explain any part of this plan to the committee at any time.

Respectfully submitted,
H. A. PRENTICE."

'31 SEASON ALMOST AS GOOD AS '30

Team Wins Twelve, Loses Ten But Scores 101 Runs as Aainst Opponents' 94

Winning 12 of 22 games, the University of Vermont nine completed Saturday another season almost as successful as that of 1930, when of 25 contests were won. This year Vermont swept the Green Mountain league series and defeated Dartmouth twice, although the string of consecutive victories at Centennial Field was stopped by Springfield. After the home season began Vermont won 9 of 12 contests.

Vermont loses catchers Stroh, Kendall, pitchers Sargent and Cummings, Dinniman, left fielder, and Heaton, utility infielder. However several valuable additions are expected from the freshman class.

Owing to the death of Captain Traynor, and the departure from college of "Dutch" McKay, the 1931 team was slightly weaker than had been expected, as no men were graduated in 1930. However, the play of most of the individuals also slipped somewhat, the improvements in batting [illegible] with Winant, Pires, Kendall and Sargent. Winant, acting captain most of the year, led the team in most [illegible] for a second year. Jay, captain for 1932, was not quite up to the 1930 performance, but is expected to come back for his last year in fine style.

The season record:

VERMONT		OPPONENTS
1	U. S. Marines, there	8
3	Mt. St. Mary's, thehe	8
6	Temple, there	12

Our museum ... not large, but it has a value which should make its friends proud.

"Time does not permit me to speak as I should like to do of certain of our choicest possessions, nor can I adequately express my own satisfaction. But let me say that today is ...filled, yes, more than fulfilled, my ...eam, cherished so many years.

"I am glad."

Prof. Tupper Tells of Plans

Prof. Frederick Tupper was then called on to give the story of the inception of the project for the new building, an account of friends of the University planning together to bring about the most fitting structure to hold the University's scientific, historical and art treasures. He said:

"To our generous patron, James B Wilbur, biographer of Ira Allen, seeking at the University of Allen's foundation a permanent home for his Vermont books, there came with dramatic opportuneness a letter from a great librarian, also very near the end of a life of large usefulness, John Cotton Dana of Newark, eagerly suggesting the housing, under one roof, of a library and a museum. 'Books and specimens or pictures,' he wrote, 'supplement or complement each other. The curiosity aroused by one can be still further stimulated by the other. A book about India may answer questions raised in the mind by looking at a tiger-claw dagger and an eleventh century halbard adds realism to Scott's "Ivanhoe." Library-museums can be of greater service to schools and colleges than the two institutions separately.'

"The wisdom of Mr. Dana's suggestion is attested by many notable instances. The largest of the world's libraries dwells within the walls of the British Museum, close to the Elgin Marbles, the mausoleum and the newly found treasures of the Chaldees.

"I cannot forbear to quote a sentence of my colleague, Dr. Harry Perkins, corollary to the Dana Letter: 'As the museum tries to show by means of the objects displayed in its cases the progressive changes in the geological, biological and cultural histories of rocks, prehistoric animals and early man, your library of early Vermont manuscripts, maps and books would add a much-needed chapter to the story and would be in a logical and appropriate setting.'

"Not only the fitness but the fineness of the setting is in the thoughts of us all. Mr. Dana's imagination conceived a museum-library, blending convenience and beauty. This ideal has been happily realized in large and in little through the gracious giving of not one friend but of several. In intent a workshop of wise spirits, in aspect a 'mansion royal, rich and wide,' this structure springs from a fellowship of hearts and heads. The very form and feature of the Vermont alumnus and trustee whose name this Robert Hull Fleming Museum bears, are revealed in the portrait by his niece, Miss Katherine Wolcott, the gracious benefactor who loftily designed our spacious entrance hall. What more fitting symbol of the eternal battle of truth with the dragon of ignorance than the heroic figure on the stairway, Donatello's St. George, firm and defiant, as if facing a deadly enemy.

With a notable collection of Vermont books the story of our museum began. Of him who gathered these with keen judgment and treasured them with loving care, may one who knew the man among his shelves say but a few words of the many that happy memories suggest? How keenly he rejoiced in the capture of George Washington's presentation copy of the first American comedy, 'The Contrast,' by Royal Tyler—the autograph of the President on the title page, the red and green morocco of the cover exquisitely tooled and ornamented. How boyishly proud he was of the possession of the Resolutions of the Manchester Convention of January, 1775, with Ethan Allen's manuscript additions or of the earliest penny pamphlet of a sermon preached at Valley Forge. But for the mere world hunter he evinced disdain. He

"Charley" Cummings, southpaw hurler, who received his sheepskin at this year's commencement.

valued books for their contents rather than for their covers; and was always at home among bookmen His acquaintance with scholars and members of learned societies was wide, his contacts close and his hospitality unfailing. Mr. Wilbur had what one may call 'the feel of books'—that faculty usually acquired only after long academic training, which enables the investigator to discover and digest material, distinguishing the essential from the irrelevant, the false from the true. He rejected second-hand information and sought knowledge at its fountain head through original documents themselves, or accurate reproductions. Photostats of manuscripts in the British Museum, in French libraries, and in various American archives were constantly before him as he wrought on his 'Life of Ira Allen' hence its large value as a source book of early Vermont history. Lively enthusiasm for his subject lightened the labor of research, and often challenged the claims of health. Nor did he lay pen aside and take his rest until his work was done."

R. L. Patrick Makes Presentation

Roy L. Patrick, University alumnus and trustee, who enjoyed an intimate acquaintance with Robert Hull Fleming, represented the donors of the museum in making formal presentation of the building to the University. He said:

"At this very moment in this country there are more than 600,000 youth in various institutions of higher learning who are demanding more and more service and who possess an honest craving for added culture The construction by our universities of such buildings as this one we now dedicate, is very positive evidence of the effort which is being made to satisfy that honest craving of the youth of our land.

"From the management of educational institutions profits never accrue. Whatever may be said regarding the gradually increasing construction programs of the colleges and universities of this country, we must not forget the fact that nearly all are made possible only by the generosity of those who are willing to provide the necessary funds.

The Donors

"The funds required to construct this dignified building came from six donors:

"Miss Katherine Wolcott of Chicago, in memory of her uncle, Robert Hull Fleming.

"Mr. James B. Wilbur, who during his last years gave unsparingly of his time and money to this University.

"John E. Andrus, Yonkers, N. Y., through the Surdna Foundation, a most successful manufacturing chemist.

"Mason S. Stone, graduate and friend of this University and a noted organizer of educational systems.

"Oliver Cabana, Buffalo, N. Y., banker and a man of many business interests.

"The sixth donor I am not permitted to name.

Fleming A World Traveler

"It has been said that museums are largely the result of travel. The exhibits in this museum record the fact that someone has gone beyond the ordinary circle of daily life. It was my happy privilege to know Mr. Robert Fleming intimately, and it seems peculiarly appropriate that a building of this character should bear the name of Robert Hull Fleming, for he was, indeed, a world traveler.

"In 1880 he began his travels, and during the many years following, he crossed the ocean more than thirty times, traveling in all foreign countries. Twice he circled the globe. Most of the exhibits now in the Fleming room were collected by Mr. Fleming on his early trips to Europe and to the Orient and represent only a small part of the collections which he acquired during his fifty years of travel.

"It is interesting to note that Mr Fleming's father, Archibald, came from Scotland in 1818 and the trip across at that time required sixty-two days in a sailing ship. Mr. Fleming's father settled in Burlington, attended the University of Vermont and was graduated in the class of 1828. Father and son were both loyal alumni of the University, and so it may be said that the Fleming room holds a double significance.

Was Oldest Living Alumnus

"Mr. Robert Fleming was graduated from this college in the class of 1862 and lived to celebrate the sixty-fifth anniversary of his graduation At that time he was the oldest living alumnus of this institution For many years he was a grain broker in Chicago and he made a business success of his life in rather a shorter period than is usual He always held a deep affection for the University of Vermont, the State of Vermont and particularly for Burlington. Generous, refined and dignified he possessed all the qualities of a cultured gentleman. May the Fleming room and this museum become a permanent shrine to his memory.

"Mr. President, you have every reason to be proud of your ownership of this museum and in presenting the building to you and to your associates in this University, there is entrusted a very definite stewardship It is a responsibility which you assume, that this museum may be kept for what it was intended, and that it will be used rightly and justly

"And so, on behalf of the generous donors who have made this splendid museum a reality, and who, by their willingness to give, have made a long cherished dream come true, it becomes my privilege and an honor to present to you, and through you, to the University of Vermont, the key to this beautiful building."

President Bailey Accepts

President Bailey rose and took the key presented by Mr Patrick, and in accepting it, as symbol of the building, in behalf of the University, said

"Mr. Patrick, in behalf of the Board of Trustees of the University, it gives me especial pleasure to receive this key, the symbol of possession of this beautiful as well as utilitarian building, and in so doing it is my desire that you accept in behalf of the donors our heartfelt thanks for their generosity.

"By this acceptance we pledge you that this museum will be administered as a real temple of the muses, a place where curiosities or works of art may be housed and treated with deserved respect. May the donors never regret their beneficent act and may each passing year bring to them added recompense because of this substantial manifestation of their kindly interest in youth and the University of Vermont.

"In behalf of the University, I extend to you and through you to the donors, our grateful appreciation and gratitude."

Modern Function of Museum

President Bailey then introduced Dr Clyde G. Fisher, curator of education, American Museum of Natural History, New York City, to "fashion a perspective of the future of our new museum."

Doctor Fisher, who extended the greetings and best wishes of the American Museum of Natural History, spoke contrasting the old museum with the new. A museum, he said was formerly thought of as a storehouse for curios; now it must be an educational institution. A museum is especially fitted for its part in education, he added, because it is a means of visual instruction, furnishing life models, pictures, motion pictures and apparatus to supplement books in teaching science or art or history. He expressed the hope that the Robert Hull Fleming Museum would extend its usefulness into the classrooms of the University, and beyond them, to the schools of the city.

The exercises were brought to a close with the dedicatory prayer by Prof. Evan Thomas, chaplain of the day, who read the scripture and gave the invocation at the opening.

Many Guests at Tea

The University and Miss Katherine Wolcott gave a tea in the afternoon for those wishing to look through the museum more thoroughly, and

Valuable Art Objects Shown

In the picture hall on the third floor of the museum there was a special exhibit Through Joseph Winterbotham of this city, two works by French painters, valued at many thousands of dollars, were loaned by two New York art galleries "Nymphs in the Wood," by Corot, was loaned by the Reinhardt galleries and Monet's painting of his garden, by the Durand-Ruel galleries Bellecourt's Sentinel was loaned by Miss Wolcott Mr Winterbotham loaned from his own collection, a sculpture of Desplau, who is considered by many the greatest sculptor now living Shown with this piece was "Le Bourgeois de Calais" by Rodin, greatest of all moderns It was loaned by Mrs K S Simpson of East Craftsbury

There were also an exhibit of the photographs of Miss Clara E Sipprell of New York City and Thetford Hill, Vt, who recently gave a showing of her work at the Klifa Club On the south wall were five mural designs, the work of seven students in Miss Elizabeth V. Colburn's advanced art class

Among those present at the dedicatory exercises were Mr Taylor, vice-president of the Continental Illinois Bank, Chicago, and Mr Lowell of the trust department of that bank, and Mrs. Tuttle, representing the New York Natural History Association.

1906 Wins Cup

Winning by the class of 1906, here for 25th reunion, of the costume cup, awarded to the class appearing in the best costume at the alumni luncheon. The members of 1906 appeared in a decidedly original costume attired as Chinese men and women in gayest colors.

The Telfer Loan Fund has been increased from $20,000 to $30,000 by the addition of a recent bequest it was announced recently.

CIVIL AND MILITARY TAILORS FOR OVER 60 YEARS

Edmund Day Urges Growth

(Continued from page 5)

gle marshalled in one coordinated national program. The natural resources of the entire country are being reconnoissed, factories of enormous capacity, equipped with the most improved machinery, are being constructed and placed in operation, power plants are being developed at strategic points on a regional scheme, cities are being rebuilt or built anew, agriculture is being reorganized so as to secure to the utmost the advantages of up-to-date farm machinery, necessary financing is being provided through the appropriate government offices. In brief, the forces of the entire nation are being organized and applied in a gigantic effort to attain national objectives specifically set. Whatever may be our expectations with regard to the success or failure of the venture, and however strongly we may condemn the tyranny and loss of personal liberty that mark the methods adopted in furthering the program, we cannot but acknowledge the extraordinary significance of the undertaking. Here is social planning on an unprecedented scale. The importance of the challenge which this puts to the established capitalistic order cannot be exaggerated.

In thinking of such an experiment as Russia's Five Year Plan, many are prone to assume an attitude of aloofness. Such undertakings are held to belong to communism and to have no place in a society such as ours in which the gains from unrestrained individual initiative have been too long demonstrated to be lightly cast aside. But what of the lessons of the Great War? Not one of the principal contestants in that great conflict failed to marshall its resources in what was virtually a national plan. In a recent issue of *Harper's Magazine*, Mr. Stuart Chase gives a dramatic account of the organization of the war effort of the United States under the War Industries Board. Let me quote briefly: Writing of 1917-1918, Mr. Chase says —"The Board stopped the whole pandemonium with clearance orders. Then it started an orderly process moving with priority orders. It found out from the army, the navy, the allies what their requirements were; it inventoried industry to determine how far those requirements could be met. It transformed specific industries to help meet them; it silenced non-essential production; crippled the luxury trades; made secret processes common property if they stimulated output anywhere, and set up a regional form of industrial planning to prevent one section from becoming over-congested or over prosperous. It made enormous technical improvements in output through simplification and standardization ('the 'can'ts' of business were found to be 'had not been tried'"), it reallocated skilled and unskilled labor; and forecast, if you please, the exact day of the Armistice by virtue of its study of raw material absorption in Germany.

What the War Industries Board really did was to allow one-third of the productive man power of the country to be lifted from the map and turned into soldiers and munitions makers, to stimulate millions of tons of new sorts of materials for their equipment and for the annihilation of Germans, and to keep the domestic population fully and purposefully employed at a higher standard of living than it had ever before enjoyed. In brief, it so organized the nation that two men did the work of three, and did it better. This is the kind of thing a master plan can do if it has a chance to function." Modern war released forces which capitalism could meet only through the adoption of the principle of national planning. Recent developments indicate that modern economic, political, and social forces make similar demands even in times of peace.

Complex Problems

Social planning in a civilization as complex as that of modern times involves, however, problems which must be clearly envisaged and squarely faced. In the first place, the notion of planning must itself find acceptance. We can plan only when we will to plan. It is not enough that our leaders catch the vision of purposeful action in social affairs; the rank and file must come to see what planning means and its necessity in the further promotion of the general welfare. What is needed here is a new attitude. The approach must be predominantly scientific. There must be faith that there is an effective means to every social end, and that the means is necessary to that end. Procedures must become less opportunistic, more systematic. The place of strategy in the peaceful progress of society must achieve general recognition.

Given an acceptance of the idea, the next essential is a deeper understanding of social institutions and social forces. Science has penetrated far into the ways of the world of nature; it still stands on the frontier of the world of man. Objective, realistic, farsighted studies of social phenomena are indispensable if we are to gain the insights which planning requires. Such studies require extremely competent personnel of a sort now largely lacking; they require much more extensive records than are now ordinarily available; they require sympathetic approval by those directly involved in the inquires. The social sciences so-called are still in an early stage of development and have as yet made few convincing demonstrations of their effectiveness, but their importance in the wide adoption of social planning can hardly be over-emphasized.

Definition of Objectives

Another prerequisite of planning in human affairs is the clear definition of objectives. In this respect, war has its obvious advantages over peace. Whatever may be the professed aims with which a nation takes up arms, once the declaration of war has been made the direct objective of national policy becomes the application of every available force to break the resistance of the enemy. Unity of purpose is much more easily attained on the Western front than at Versailles. It has been even more difficult to achieve at Geneva. Just as clearly it was more in evidence in Washington in 1918 than in 1928. The task of defining worthy peace time objectives is the responsibility of the statesman, the publicist, the journalist, the educator, the preacher, the philosopher. No task will try more searchingly the capacities of contemporary civilization. The issues of the future lie here more than in any other field of human thought and aspiration. Social planning without adequate objectives will never save the present social order.

Follow Through

Finally, social planning, conceived as social intelligence in operation, will never yield the desired results unless there is the willingness to follow through. Plans have their ultimate significance in the actions to which they give rise. Social intelligence implies that, given a suitable plan, social action will follow appropriately. But what of the capacity of modern society for this sort of concerted and disciplined action? Under what auspices are to be found the necessary courage, contempt for softness, and surrender of private interests. Bolshevism and fascism are giving the world demonstrations, but are there no more acceptable alternatives? William James in 1910, in an essay entitled "The Moral Equivalent of War," made illuminating comments on this point. He said, in part—

Moral Equivalent

"A permanently successful peace economy cannot be a simple pleasure economy. . . . We must make new energies and hardihoods continue the manliness to which the military mind so faithfully clings. . . . The war party is assuredly right in affirming and reaffirming that the martial virtues, although originally gained by the race through war, are absolute and permanent human goods. Patriotic pride and ambition in their military form are, after all, only specifications of a more general competitive passion. They are its first form, but that is no reason for supposing them to be its last form. Men now are proud of belonging to a conquering nation, and without a murmur they lay down their persons and their wealth, if by so doing they may fend off subjection. But who can be sure that *other aspects of one's country* may not, with time and education and suggestion enough, come to be regarded with similarly effective feelings of pride and shame? Why should men not some day feel that it is worth a blood tax to belong to a collectivity superior in *any* ideal respect? Why should they not blush with indignant shame if the community that owns them is vile in any way whatsoever? Individuals, daily more numerous, now feel this civic passion. It is only a question of blowing on the spark till the whole population gets incandescent, and on the ruins of the old morals of military honor, a stable system of morals of civic honor builds itself up. What the whole community comes to believe in grasps the individuals as in a vise. The war function has grasped us so far; but constructive interests may some day seem no less imperative, and impose on the individual a hardly lighter burden." Intelligence in society, as in the individual, involves character as well as mind. Readiness to serve in a common case, trustworthiness, capacity for sustained endeavor, fortitude, appreciation of the ultimate ends, these are all demanded in the individual if society is to move intelligently forward.

To conclude, the prospect before this class of 1931 appears at the same time difficult and alluring. That many major problems lie in the path of their generation seems to me all too apparent. But that their generation will be tremendously important seems to be equally clear. After all, what more can youth ask of life than that its opportunities be large? There is a challenge to these next few decades such as society has rarely faced. May these young men and women prove worthy of their times.

BILLINGS LIBRARY SCENE OF 1931 SENIOR PROM

Friday evening, June 12, at 8.30 p. m. the annual president's reception to seniors, alumni, faculty, undergraduates and friends of the University took place. In the receiving line were President and Mrs. Guy W. Bailey, Dean J. N. Jenne, Dean Isabel Whiting, Dean and Mrs. Elijah Swift, Roy W. Worrell, '31, of Providence, R. I., Miss Hannah Leslie, Watson E. Morgan, '32, of Bristol, Miss Helen Taylor, '31, of Montclair, N. J.; F. A. Bolles, '31, of Bellows Falls, and Miss Harriet Platt, '32, of Poughkeepsie, N. Y. The great hall of the library was decorated with many flowers.

Following the reception, the senior prom was held with music by Lachayr's Vermonters. Professor and Mrs. S. E. Braun, and Professor and Mrs. C. L. Stineford were chaperons. F. A. Bolles was chairman of the prom committee, which included Miss Marjorie Bracken of Woodside, N. Y.; Charles Crockett of Burlington; Miss Alice Dodge of Barre; and Miss Margaret Rice of Brattleboro.

COMMENCEMENT NOTES

Guests Luncheon

Following the commencement exercises a luncheon was held at Robinson Hall at which the recipients of honorary degrees, Miss Katherine Wolcott, one of the donors of the Robert Hull Fleming Museum; trustees of the University and faculty members were guests.

Class of '81 Wins Cup

Monday afternoon it was announced by Miss Margaret A. Patten, alumni secretary, that the class of 1881, celebrating its 50th reunion with seven of its twenty-six living members present, was winner of the Governor McCullough cup. Its percentage of members present was 26.92. Honorable mention went to the class of 1928, having 72 of its 352 members registered, or 20.45 percent. The class of 1928 is the largest ever to be graduated from the University.

Gordon E. Hanson of North Craftsbury, Vt., newly elected member of Phi Beta Kappa.

J. E. CARRIGAN BECOMES ACTING EXTENSION HEAD

Joseph Edward Carrigan, who has served as assistant county agent leader in the University of Vermont Extension Service since the fall of 1917, was elected by the Board of Trustees of the University as acting director of the Extension Service, to succeed the late Thomas Bradlee, for the period of one year, beginning July 1.

Mr. Carrigan was graduated from the University of Vermont, with the degree of bachelor of science, in the class of 1914. He immediately joined the Extension staff, with the title of county agent at large. That was in the early days of the Extension Service at the University.

After serving for about ten months as county agent at large, he received the appointment as county agent in Addison County and filled that position for about two and a half years. He then came to Burlington and joined the headquarters staff of the Extension Service as assistant county agent leader, in the fall of 1917, and has held that position since.

Mr. Carrigan has been working for an advanced degree at the University also, and this degree was awarded to him at the commencement exercises Monday. He received the degree of Master of Arts in Education. The title of his thesis was "The Effect of Extension Education on the Seasonal Surplus Milk Problem in Addison County, Vermont." He has done a large amount of work on the problem of milk marketing in Vermont.

Baccalaureate Sounds Key-note

(Continued from page 3)

to you, in the course of your life, will crumple you, if you keep hold on that conviction."

The speaker quoted here from the writings of King Solomon in the book of Ecclesiastes, which gave his philosophy of life and his advice to youth. Picturing a jaded life that had sucked the world dry, the king compared it to a palace once astir with activity, but long since "the street doors have been shut to muffle the footfalls of the passing funeral processions. The whole institution has fallen under a consuming drought."

The Golden Bowl

"The elixir of life had failed—not that it was no longer resident in the deeps of the soul; but because it could not any more be reached.

"Youth had no trouble in reaching it. It was as if youth drew up its vital energy from its own inner spring by a silver cord attached to a golden bowl.

"Solomon pleads: 'Or over the silver cord slip through your fingers, remember the source, the plexus, the core, the essence of your life—for if ever that silver cord be loosed—and the golden bowl be broken — never again can you draw up, from your own inner spirit, the resources that make life worth the cost of living it.'

"Our civilization today is suffering because so very many people, who might otherwise help sustain the public courage and hopefulness, have broken their golden bowls.

"Desperately, they seek to find their satisfactions outside themselves. No longer able to draw up happiness from their own spirits they hurry to the fountain where they find the rest of their social caste endeavoring to catch up the elixir of life in a communal pitcher.

"Presently even that poor expedient fails to satisfy. . . . . One day the pitcher is found broken at the fountain.

"At length, there is nothing left but to go to the public cistern, and wait one's turn along with the rest who stand in line, dull enough business at best. And then—one day—to their utter despair—they find the wheel broken at the cistern.

"Solomon says: 'If you would keep your hold on the silver cord, and thus insure the safety of your golden bowl, remember your Creator.'

"'Remember thy Creator!' Remember where you came from. Remember the long tramp across the ages! Remember the cloud of witnesses, encompassing you about, wondering if by your resilient faith you will justify their investments of virtue and valor, toil and tears."

"Don't Cut Your Act"

A short time ago, the speaker said, he found in a theatre dressing-room a big placard reading: "Don't cut your act! The people in the audience have paid their good money to see your show, and the management expects you to give them the best you've got."

The speaker said he liked to hear young men and women talk about their aspirations. But he wondered how long it would take to dull those aspirations and start them slipping when things got hard.

He said there was not so much danger of slipping back in the teaching or military professions, because it was necessary to study constantly in order to win promotion. "But in almost every other profession, the majority take to the toboggan [illegible] they're half way up the hill.

"In most cases a bit of encouragement, applauded by the neighbors, is sufficient to ruin a career."

Approaching the close of his address, Doctor Douglas talked directly to the members of the graduating class. He said:

Keep Enthusiasm

"Keep your youthful enthusiasm. Your experiments and impetuosity will lead you into committing a blunder, but it is due to the blunders that most of our discoveries and inventions have been made.

"The danger point in life has been reached after all the impetuous, expectant, adventurous experimenting has stopped. . . . Keep your expectation! . . . . Don't let the conservative oldsters talk to you about the virtue of prudence! Prudence is an old man's disease. There's no room for it in this century for prudence.

"Make yourself at home in the world. Adjust yourself to the universe. Don't quarrel with it. Remember your Creator! Consider yourself a part of the creative process. Dignify your living! Rejoice in it. A man can make horticulture or potato-hoeing, if he approaches it in the right mood.

"Perhaps the most startling commentary ever offered on the futility of a materialism that believes only in cold facts and foot pounds and KW's and HP's and BTU's, bank clearances and volume production, and things that moth and rust and thieves can destroy—is to be found at this hour, when Big Business, Big Commerce, Big Industry, stand aghast and speechless in the presence of the situation which they produced and for which they have no remedy.

"Our social salvation will be arrived at by a deeper scientific understanding of electrons and protozoans, or a better technique of manufacture and merchandising and the overcoming of sales resistance. It will come when our political, economic and moral leadership restores the public faith in the supremacy of the human spirit over any and all physical obstacles and perplexing circumstances.

"I implore you to retain your grip on the silver cord that is still in your hands, and do not let your golden bowl be broken.

"You have no guarantee that your technique of living will make you rich in this world's goods, or eminent in this world's esteem; but it will help you contrive to conserve your basic belief that life is worth all the while you can invest in it—the other rewards do not matter much."

Dean J. L. Hills of the College of Agriculture received the honorary degree of Doctor of Science from Massachusetts Agricultural College at the fiftieth reunion of his class held at Amherst, June 15.

Degrees in courses were given as follows:

Bachelors of Science in Agriculture

Fred Eugene Blanchard, Readsboro; ...lon Horatio Gates, Cambridge; ...liam Howard Martin, cum laude, ...ecott; Joseph Arthur Peters, Brad...; Donald Chester Pierce, Burling...; Kenneth Merle Stevens, West Glover.

Bachelors of Science in Home Economics

Lillian Andrews, Richmond; Panice Evelyn Davis, Wallingford; Dorothy Emery, Englewood, N. J.; Frances Eloise French, Proctor; Charlotte Electa Gilmore, Bristol; Nathalie Arline Hawley, Jeffersonville; Harriet Ida Johnstone, Morrisville; Barbara Elaine LeBaron, Morrisville; Edith Grace Pritchard, Pawlet; Helen Daniels Robinson, Morrisville; Bertha Ann Safford, Jeffersonville; Agnes Ruth Shaw, South Peacham; Ruth Ellen Small, *cum laude*, Brooklyn, N. Y.; Helen Frances Taylor, Montclair, N. J.; Carolyn Zeruah Whitney, Essex Junction; Eleanor May Wood, Waitsfield; Harriet Ellen Wright, Essex Junction.

Bachelors of Science in Electrical Engineering

Robert Frederick Bigwood, Winooski; Robert Alexander Dailey, Derby; Austin Lucius Howard, Montpelier; Merton Leroy Joslin, Waitsfield; Luther Yvon Spear, Jericho; Philip Henry Thomas, Burlington.

Bachelors of Science in Mechanical Engineering

Robert Wade Allerton, South Orange, N. J.; Edson Paine Bigelow, Shrewsbury, Mass.; Charles Francis Blair, Jr., Buffalo, N. Y.; Francis Arthur McBride, New York City; Nelson Paul Park, South Ryegate.

Bachelors of Science in Civil Engineering

Rogers Brown Adams, Burlington; Richard Moore Blakely, Ticonderoga, N. Y.; George Malcolm Donaldson, Fort F. E. Warren, Wyo.; Gordon Babcock Hanson, *cum laude*, Craftsbury; Roderic John Maynes, Woodstock; Frank Leslie Tucker, Lebanon, N. H.

Bachelors of Science in Chemistry

Alvin Caldwin, St. Johnsbury; Catherine Cecelia Corcoran, North Bennington; Robert Marshall Huey, Saxtonsville, R. I.; John Orson Percival, Pike, N. H.; John Belden Vander, East Longmeadow, Mass.

Bachelors of Science in Commerce and Economics

Arnold Oscar Aronson, Proctor; Elson Francis Barter, Essex Junction; Francis Edward Beer, Fitchburg, Mass.; Francis Almon Bolles, Bellows Falls; John Alonzo Bradish, St. Albans; Winston Crosby Brasor, Brattleboro; Warren Holden Burr, Barre; Charles Williams Capron, Bellows Falls; Howard Leslie Cook, Barton; William Emerson Craig, Chicopee, Mass.; Charles Newton Crockett, Burlington; Charles Eugene Cummings, St. Albans; Lynford Maurice Foster, Orleans; Amy Lorraine Guillett, Winooski; Lewis L. Jones, Jr., Poultney; *Paul William Kinney, White River Junction; Hugh Read Mattison, Bennington; George Robert Nelson, Stamford, Conn.; Gordon W. Pierce, Cuttingsville; Helen Marie Prouty, Burlington; Frederick Johonnott Reed, Burlington; Redmond Joseph Roche, Burlington; Francis Joseph St. Denis, Eel's Head, N. Y.; Walter Merrill Sargent, Jr., Morrisville; Rebecca Rosette Silver, Burlington; Frederick Stanley Smith, Adams, Mass.; Margaret Gifford Stanley, Waterbury; Douglas LeRoy Stewart, Bennington; *Ralph James Stone, White River Junction; Charles Stroh, West Hartford, Conn.; Allen Barnes Wheeler, Hoyloke, Mass.; Roy Westcott Worrell, Providence, R. I.

*As of 1930.

Bachelors of Science in Education

Clarence Fran Amsden, Greensboro Bend; *Ariel Anna Benway, Richmond; **George Kelton Bicknell, Jericho Center; *Jerome Quincy Bullis, Oelwein, Iowa; Nellie Maretta Chase, Bolton; Ernest Melvin Codding, Bellows Falls; Helen Elizabeth Don Leavy, Rutland; Cora Alice Hutchins, South Burlington; Yvonne Alberta Hutchins, Benson; Gertrude Rea Levin, Burlington; Erlene Clara Littel, Barre; Dorothy Elizabeth Myette, Burlington; Mabel Hilah Owen, Huntington; Myrtle Alverette Owen, Huntington; Justine Rogers, Shoreham; Elizabeth Corrette Samson, Burlington; Marion Louise Samson, Burlington; Mae Adelaide Tinkham, North Bennington; *Leah Hulda White, Burlington; Pauline Chase Willis, Waterbury.

*As of 1930. **As of 1929.

Bachelors of Science

Richard Allison Backus, Jr., South Orange, N. J.; Gennaro Bastiicato, Brooklyn, N. Y.; Leonard Macy Berry, Plainville, Conn.; Vera Iola Chadburn, Barton; Donald Ellsworth Coburn, Hardwick; John Lee Cogland, Burke, N. Y., Stuart Starnes Corbin, Burlington; Eugene Joseph Desautels, *cum laude*, Burlington; Reginald Fuller DeWitt, Shoreham; *Solomon Freedman, Roxbury, Mass.; Doris R Gillette, Wethersfield, Conn.; Thomas Joseph Halligan, Montpelier; William Stearns Heaton, Montpelier; Robert Woods Hendrick, Newtonville, Mass.; Georgina Hubert, West Hartford, Conn.; Harlan Eugene Karr, Northfield; Dorothy Beatrice Keith, Auburn, N. Y.; Margaret Ursula Kiley, Adams, Mass.; Eugene Harvey Luck, Burlington; John Frederic Lynch, Jr., Burlington; Christie Ellen McLeod, Barre; ***Willard Jackson Morse, Middletown, Conn.; James Trotter Musgrove, Pittsfield, Mass.; Thor Olson, Brattleboro; Wilbert John Patton, Burlington; Julius Samuel Perelman, Burlington; Ernest Benjamin Rand (in education), Albany; James Joseph Reedy, Rutland; Flora Marie Remillard, Saco, Me.; Abraham Harry Roller, Jersey City, N. J.; John Louis Saia, Barre; Cora Mabel Sargent, East Thetford; Karl Fader Searles, St. Johnsbury; Leo Segal, Dorchester, Mass.; Solam Segel, Gardner, Mass.; Arthur Bradford Sharples, New Bedford, Mass.; Alex Solomon, Burlington; **Harvey Brookins Whiting, Burlington.

*As of 1930. **As of 1929. ***As of 1928.

Bachelors of Philosophy

Robert Bascom Aiken, *cum laude*, Burlington; Benjamin Baker, Roxbury, Mass.; Jean Belden, Bradstreet, Mass.; Marjorie Agnes Bracken, Woodside, N. Y.; Ruth Alice Burroughs (in education), Charlotte; Elizabeth Clark, Providence, R. I.; Jane Corwin, Brooklyn, N. Y.; Elizabeth Mabel Cory, Montclair, N. J.; Richard Hovey Cowles, Burlington; Alice Claire Dodge, Barre; Barbara Heald Douglass, Winchester, N. H.; Marjorie Eisenwinter (in education), Barre; Frances Frost, Burlington; Edmour Alfred Roger Germain, Burlington; Carlotta Grimm, Windsor, Conn.; Ruth Janet Hasseltine (in education), Bristol; Alice Carrie Hines, Hardwick; Ruth Helen Houghton (in education), Burlington; Eleanor Lydia Hubbard (in education), Rutland; Waver Sylvia Keeler (in education), Orleans; Maxwell Thomas Kendall, Newport; Katherine Viola Kingston, Burlington; Eleanor Kay Koenig (in education), Rutherford, N. J.; Edith May Lamson (in education), Williamstown; Ruth Lamson, Brooklyn, N. Y.; Louis Lisman, *cum laude*, Burlington; Cynthia Washburn Lynch, Brookline, Mass.; Caroline McGennis, Lyndonville; Frances McKean, Montclair, N. J.; Emily Murray, West Hartford, Conn.; Verna Elizabeth Parker, Springfield; Evelyn Cora Pierce, Burlington; Gladys Julia Press, St. Albans; *Joseph Donald Richards, Newton, Mass.; Grace Lucia Ross, Wallingford; Jack Schwartz, Brideport, Conn.; Evelyn Ina Slayton (in education), Lake Placid Club, N. Y.; George Horace Smead, Rochester; Eleanor Edwards Smith, Suffield, Conn.; Hilda Scott Smith, Easthampton, Mass.; Winona Rachel Spencer, Barre; Constance Elizabeth Stone, Essex Junction; Winifred Anna May Stone, Winooski; Edith May Thomas (in education), Ludlow; Katherine Read Tracy (in education), Burlington; Sara Learoyd Wescott, Burlington; Esther Doris Wheeler, Waterbury; William Johnston Willetts, West Hartford, Conn.; Mary Helen Woolson, Springfield.

*As of 1930.

Bachelors of Arts

Edith Sara Abbott, Franklin, Mass.; Alberta Grace Berry, Livermore Falls, Me.; Dorothy Mae Brown, Montpelier; George Robert Brush, Jr., Arlington; Harvey Dean Butterfield, Burlington; Lena Elmera Cochran, Stowe; Mary Elizabeth Colpitts (in education) Wallingford; Grace Emma Crofton, Concord; John Charles Cunningham, Richmond; Elizabeth Czerna, Litchfield, N. H.; Ruth Eldora Field, North Easton, Mass.; Ruth Annette Hoag, Burlington; Charles William Knapp, Jr., *magna cum laude*, Freeport, L. I., N. Y.; Esther Curtis Mandigo, *cum laude*, Richford; Nellie Rena Matham (in education), Montpelier; Dorothy Deborah Nash, Concord, N. H.; Margaret Skinner Rice, Brattleboro; Robert Edward Tobin, Eastmans, Mass.; Jean Wappler (in education), Rutherford, N. J.; Truman Morton Webster, Shelburne.

Doctors of Medicine

Roger Hubbard Allbee, B.S. Springfield; Roland Sigard Aronson, B.S., Rutland; Clyde Lynwood Chaffee, B.S., Richford; William Bailey Clapp, B.S., North Grafton, Mass.; John Joseph Curran, B.S., Northampton, Mass.; Lyman Chandler Duryea, Burlington; Stanton Seely Eddy, Jr., B.S., *cum laude*, Middlebury; Arthur Gladstone, B.S., Burlington; George Vaughn Goodwin, B.S., Montpelier; Francis Leach Herrick, B.S., Pawlet; Carlisle Tyson Hewes, Groton, Conn.; Samuel William Howard, Rutland; Richard Milton Ireland, B.S., Burlington; Leo James Kennedy, A.B., Burlington; Paul Joseph Lawrence, Burlington; Urho Robert Merikangas, B.S., *cum laude*, Arlington; Willard Jackson Morse, Middletown, Conn.; John Richard Pavia, Newark, N. J.; Elizabeth Gertrude Pingree, B.S., White River Junction; Clifford Winfield Quad, B.S., West Orange, N. J.; Joseph Charles Quatrano, New Haven, Conn.; Irving Rudolph, B.S., *cum laude*, New York, N. Y.; Charles Joel Sage, A.M., *cum laude*, New York, N. Y.; Francis Harry Clark Schurman, B.S., Springville, N. Y.; Richard Henry Taft, B.S., Ticonderoga, N. Y.; Nehemiah Alvarado Towne, B.S., *cum laude*, Swanton; Keith Frank Truax, B.S., Burlington; George Chandler Tully, B.S., Orange, N. J.; Arthur Charles Unsworth, B.S., Burlington; Philip Harold Waldman, New York, N. Y.; Francis Alton Winchenbach, Framingham, Mass.

Commissions

As First Lieutenants, Medical Reserve, United States Army: Roger Hubbard Allbee, Springfield; Clyde Lynwood Chaffee, Richford; Lyman Chandler Duryea, Burlington; George Vaughn Goodwin, Montpelier, Francis Leach Herrick, Pawlet, Samuel William Howard, Rutland; Leo James Kennedy, Burlington; Paul Joseph Lawrence, Burlington; Urho Robert Merikangas, Arlington; Clifford Winfield Quad, West Orange N. J.; Harry Clarke Schurman, Springville, N. Y.; Keith Frank Truax, Burlington; Arthur Charles Unsworth, Burlington.

Willard Jackson Morse, Middletown, Conn., will receive commission at Carlisle Barracks, Pa., July 23, 1931. Francis Alton Winchenbach, Farmingham, Mass., will receive commission at Carlisle Barracks, Pa., July 23, 1931.

As Second Lieutenants, Infantry Reserve, United States Army: Robert Wade Allerton, South Orange, N. J.; Arnold Oscar Aronson, Proctor; Richard Moore Blakely, Ticonderoga, N. Y.; Francis Almon Bolles, Bellows Falls; John Alonzo Bradish, Burlington; Winston Crosby Brasor, Brattleboro; Stuart Starnes Corbin, Burlington; Edward Jackson Grant, Stamford, Conn.; Robert Marshall Huey, Saxtonsville, R. I.; Merton Leroy Joslin, Waitsfield; Francis Arthur McBride, New York City; N. Y.; Roderick John Maynes, Woodstock; Nelson Paul Park, South Ryegate; Roy Westcott Worrell, Providence, R. I.

As Second Lieutenant, Signal Corps Reserve, United States Army: Philip Henry Thomas, Burlington.

As Second Lieutenant, Chemical Warfare Service Reserve, United States Army: Alvin Caldwell, St. Johnsbury.

As Second Lieutenants, Infantry Reserve United States Army: George Malcolm Donaldson, Fort F. E. Warren, Wyo. will receive commission upon reaching legal age June 9, 1931.

Rogers Brown Adams, Burlington will receive commission at Camp Devens, Mass., June 9, 1931. Samuel Perelman, Burlington, will receive commission at Camp Devens, Mass., July 26, 1931.

Teacher Training

Diplomas for the two years course awarded by the State Board of Education as follows: Rhenna Cora Barnes, Saxtons River; Pearl Irene Denton, Morrisville; Dorothy Coolman Ellis, Barre; Mary Leola Hitchcock, Burlington; Doris Rebekah Farnsworth, Waitsfield; Leona Margaret Gover, Sheldon; Love Ernestine Hayward, Randolph; Dorothy Elizabeth Hemenway, Sheldon; Helen Kneeland Holmes, Burlington; Myrtle Mae Isham, Barre; Frances Martha Ladd, Grand Isle; Dorothy Mary Metcalfe, Burlington; Marion Frances O'Brien, Winooski; Freda Page, East Corinth; †Florence Evelyn Penn, Charlotte; Emma Louise Rock, Ludlow; Ruth Louise Savage, White River Junction; Maxine Elliott Schmidt, Burlington; Frances Alberta Scott, Westborough, Mass.; Adele Fern Souther, Westfield; *Evelyn Permelia Start, Cambridge; †Lois Helene Whitney, Burlington; Frances Martha Whitford, Burlington; Elinor Giles Willey, Essex Junction.

*Second year taken in Summer School.

†As of 1928

RICKERT WINS CATTLE JUDGING COMPETITION

Lyman Rickert of South Royalton won individual first place in the 4-H Cattle Judging Contest held at the University Farm Tuesday. May 12. Irving Bullard of South Royalton was second and Luke Dodds of Westfield was third. Thirty-two 4-H Club boys were on hand to compete in the results of county contests throughout Orange County made county team on the judging.

Next fall the same boys will be called to Burlington again and the group will be narrowed down on the basis of the two contests for a final judging in the spring when demonstrations will also be held. From this final contest three boys will be selected to represent the Vermont 4-H Clubs at the National Dairy Show in 1932.

Other high standing boys in the recent contest were Norton Moody, Brookfield, fourth; Robert Bassett, Little Coal Bin, Stewart Newton, St. Albans and Van Barrow, West Rutland tied for sixth; Victor Vaughan, South Vernon seventh; Avery Palmer, Chelsea, eighth; Herbert King, Randolph, ninth; Howard Webster, Bradford, tenth; Howard Stafford, Waitsfield eleventh; Donald Stafford, Waitsfield twelfth; Glendon Anderson, Glover thirteenth.

FOUR NEW COURSES TO ENVEIGLE HOME ECERS.

The catalogue soon to be issued for 19[illegible] will outline four semester courses of three credit hours each which will be offered next year as electives to students in the college of arts and sciences. These may be taken separately or together as a minor elective. In the first semester the courses given will be one in Nutrition without lab oratory and one on The Family. In the second semester the courses offered will be in the principles of and selection of Clothing and one in Home Management.

From California to New Haven

... the FAVORITE pipe tobacco of college men is—

WHEREVER college men pause to load their pipes you'll see the familiar blue tin of Edgeworth!

At California, at Yale, at Williams and Cornell . . . in America's leading colleges and universities you will find Edgeworth the favorite smoking tobacco of the college man.

College men everywhere respond to the appeal of pipes packed with cool, slow-burning Edgeworth. Be guided by their choice. Try Edgeworth yourself. Taste its rich natural savor that is enhanced immeasurably by Edgeworth's distinctive eleventh process.

You will find Edgeworth at your nearest tobacco shop. 15¢ the tin. Or, for generous free sample, address Larus & Bro. Co., 105 S. 22d St., Richmond, Va.

EDGEWORTH

SMOKING TOBACCO

Edgeworth is a blend of fine old burleys, with its natural aroma enhanced by Edgeworth's distinctive eleventh process. Buy Edgeworth anywhere in two forms—Plug Slice and Ready-Rubbed. All sizes, the perfect package to pack in your tobacco pouch.

SEVEN HUNDRED PRESENT AT ALUMNI LUNCHEON

(Continued from page 1)

Wheeler who operated recently on the King of Siam.

The chief purpose of the University is to help the individual to emerge, and in that purpose the University of Vermont has been very successful. He gave the name of one that had answered much on the field of scholarship.

[illegible] were located in Holyoke, where [illegible] he mentioned Hugo for the [illegible] game, he was allowed to speak next, speaking in a humorous vein, he cited the glories of the past of 1931 and brought much applause.

Howard Prentice, [illegible] baseball team, was called upon next to speak for the class of 1931. He took this brief and to the point dealing with loyalty to the University as the best asset to develop more by [illegible] graduated and become connected with the coaching department of the university.

Dr. James M. Hackett of Leonia, N. J., speaking for the class of 1906 said that organized baseball at the University began in 1905 and he assisted in writing the rules and regulations under which it was started. He was also a member on the team [illegible] pitcher and catching the best pitcher who ever pitched a ball here.

Max L. Powell for the class of 1906 spoke briefly as a [illegible] mood, but was serious long enough to praise President Bailey for his work for the institution.

Thomas C. Cheney of Morrisville, for the class of 1881 said the College campus in forty years had undergone as many changes as Rip Van Winkle saw after his years of sleep. Then the faculty had only thirteen members, though those members were of the best. There were only five buildings on the campus then. Mr. Cheney told of some of the achievements of members of 1881, notably of Marcellus W. Farman, blind chaplain of the Vermont State Senate for some years.

Dr. Sidney M. Hunker of Waverley, Mass., looking like Pooh-Bah in "The Mikado," with his Oriental costume, spoke for the class of 1906. He said he was the minister plenipotentiary, etc., from the Land of the Rising Sun, and that he represented a class which was still rising. It graduated about 100 souls and now numbers over 700. "See how our seed has multiplied," he proudly cried. He maintained that a close check had brought the information that the total weight of the class is 50 tons, the total height half a mile, and the lung capacity if all loosed at once, to blow out all the windows in the gymnasium annex. He said all this power of the class of 1906 was at the service of President Bailey and the University.

Thomas J. Mulcare of Cambridge, Mass., once the king of all cheer leaders, led the honors for the class of 1909. He shouted the success of his class and maintained it never suffered defeat while on the campus.

Neil Tolman of Nashua, N. H., class of 1926, told of the happy hours spent together on the campus and explained why his class did not wear special costumes, namely, because the president married the vice-president and they couldn't agree on a costume.

Emory Mower of Cambridge, Mass., made some pointed and timely remarks for the class of 1927. He said his class had not yet struck its stride "out in the world" but advised the other alumni to watch our dust in years to come.

During the course of the luncheon several Vermont songs were sung by the entire assembly, led by Prof. H. Holmes Wallace. After H. Morton Hill, '06, of Boston, had explained about the plans for the alumni contests to Centennial Field, the luncheon closed with the singing of Alumni.

ALUMNI ELECT WELCH NEW U. V. M. TRUSTEE

Arthur D. Welch, assistant vice-president of the New York Telephone Company, was elected a trustee of the University of Vermont to succeed Charles F. Blair of Buffalo whose term has expired.

Arthur Day Welch was born in Strafford, Vt., April 21, 1878. He received the degree of bachelor of science in electrical engineering from the University of Vermont with the class of 1902. He went immediately with the New York Telephone Company and has been with that organization ever since, as a member of the engineering staff, then general commercial engineer, then general commercial manager and now as vice-president. He is married and has one daughter.

Permanent 1931 Class Officers

The class of 1931 elected R. W. Worrell as permanent class president; Harriet E. Wright, vice-president; Janice E. Davis, as women's secretary and G. R. Brush, Jr., as treasurer.

MONTPELIER H. S. RECORD WINS $175 SCHOLARSHIP

The Montpelier High School Record won first prize of $175 in the preparatory school editorial contest annually backed by the University of Vermont.

Hartford High School's publication, *The Ledger*, published at White River Junction, was awarded honorable mention in this class.

In class two, made up of medium sized schools, *The Blue and White*, published by Vergennes High School, was given first place by the judges, while *The Slate* of Fair Haven High School received honorable mention.

In class three, including the smaller [illegible] High School's *Hoops* was given first place, while *The [illegible]* High School received honorable mention.

The winner of first place in each class becomes a scholarship at the University of Vermont for its editor or business manager depending upon which one plans to come to the University. If neither intends to enter the University some other member of the staff of the school paper may do it. The scholarships are as follows: $175 for the winner in class one; $150 for the winner in class two; and $125 for the winner in class three.

In addition to these awards, the judges, Lewis P. Thayer of Morrisville, Charles R. Cummings of White River Junction and E. F. Crane of Bennington gave special mention to *The Lone Leaf Clover*, a school publication combining the efforts of the pupils in Cabot, Marshfield, Plainfield and Woodbury High Schools.

In order to encourage other small schools to combine their efforts in such a publication, the judges recommended that a fourth class be created for such combination publications and that a scholarship of $100 be offered to the winner in this class. It was announced following the decision of the judges, that the University would adopt this recommendation and offer the $100 scholarship in this fourth class next year.

Former Winners Out

There is an established rule that any publication which has won in its class during the past two years is disqualified from competing. Under that rule, the following papers were not considered in awarding honors this year: *The Dial* of Brattleboro High School, *The Headpicker* of Hardwick Academy, *R. H. S. Chips* of Richmond High School, *The Catamount* of Bennington High School, *Orange and Black* of Barton High School and the *Danby High School News*.

The following fraternities held receptions, Friday, June 12: Lambda Iota, Sigma Phi, Delta Psi, Chi Delta Theta, Sigma Nu, Chi Mu Delta, Kappa Alpha Theta, Alpha Chi Omega.

H. I. Varney, president of the Vermont Christian Association, and David Carrington, are attending the Northfield Student Conference at Deerfield, Mass.

COMMENCEMENT NOTES

The University of Vermont Agricultural College Alumni Association met on the roof garden of the Sherwood Hotel Saturday evening for their annual reunion banquet. About forty members were present.

About sixty members were present at the annual banquet of the College Engineering Alumni Association, held on the roof garden of the Hotel Vermont Saturday evening.

Roy Worrell, chairman of Senior Week, announces that about ninety-five persons went on the annual senior boatride to Trembleau Hall, Port Kent, N. Y., last Monday.

More than 1,000 alumni, students and townspeople flocked to the College Green Sunday evening for the annual concert given there by the Burlington Military Band. Every available parking space within earshot along Pearl and South Prospect Streets and University Place was filled with autos holding listeners, and the lawn of the Green held the largest crowd that has packed it for many months.

The band played popular march and dance tunes an overture, some ballet music, and two groups of University of Vermont songs.

Attending the reunion of the class of 1881, which celebrated its 50th anniversary with five of its eleven living members present were Darwin P. Kingsley of New York, Prof. Walter R. Newton of New Brunswick, N. J., D. Temple Torrey of Providence, R. I., Smith B. White of Hyde Park, and Mr. Gates.

Collegiate Politics

The Sheaf at the University of Saskatchewan carries advertisements of students campaigning for office. Substantial sized ads accompanied by pictures have all the zip and "the man for the job" attitude that one usually finds in municipal elections.

CAMELS can go 8 days without water

If you are a regular Camel smoker you already have noticed a big improvement in your favorite cigarette.

If you're not a Camel smoker we ask you to switch to this brand for just one day, then leave them if you can.

Thanks to the new Humidor Pack even a rancher on the Great American Desert can now revel in the fragrant luxury of expertly blended choicest Turkish and Domestic tobaccos in fresh mild condition.

As fast as they come out of the cigarette making machine, Camels now are wrapped in moisture-proof Cellophane and air-sealed.

That means they retain their *mildness*, *freshness*, and *natural moisture* until they come to you.

It is peppery dust and parched-dry tobacco that are harsh and unkind to a smoker's throat.

If you want the proof of that, try Camels in the new Humidor Pack today, and switch back tomorrow, if you can.

WELCOME! NEW STUDENTS!

Incoming Students Attend Freshman Camp Programs

Undergraduate and Faculty Leaders Discussions of University Life at Christian Association Orientation Conferences

ABNAKI SEES LARGEST NUMBER OF FRESHMEN

[illegible] freshman men, the largest [illegible] years, attended the orien[illegible] camp held under the auspices of the Vermont Christian Association under the direction of Stanley K. Carter, '33, September 11 to 14 at Abnaki, the state Y. M. C. A. camp at North Hero Island. Twenty-six student and faculty speakers addressed the incoming men on various phases of university life and activities. The men arrived Friday evening and remained until Monday, using the facilities at Camp Abnaki which are offered each year for the purpose.

Friday evening the address of welcome was given by M. D. Powers, general secretary of the Vermont Christian Association, S. K. Carter, director of the camp, outlined the purposes of the program, and H. I. Varney, as president of the men's cabinet, told of the work of the Association. Dean Elijah Swift of the Arts and Sciences College, in the address given to him last spring by the Freshman Student Council, told the new men of the failure of the former hazing rule to assist the freshmen in making the adjustment to their college course and explained the customs which will be observed voluntarily this year by the freshman men. He advised them to give a reasonable amount of time to the study of their lessons and to pursue some extra curricular activity during their life at the University. Greetings from Camp Abnaki were given by George Merriam, state Y. M. C. A. secretary.

Wilmer J. Kitchen, student secretary of the New England Christian Association Movement, leading the devotional program in the out-of-door chapel Saturday morning, emphasized the importance of an interest in world affairs and the solution of the major political, economic and moral problems which face the college student.

Lester Woodward, director of church relations on the cabinet of the student association, discussed scholarship. A discussion of the college fraternity from an unbiased viewpoint was given by Wilmer Kitchen, a graduate of Pennsylvania State College.

A Winner

Franklin Wright, a member of the entering class, was awarded the prize as the winner of the tennis tournament. Other speakers of the evening included Paul Lefrosse, a member of the varsity rowing team and president of the International Relations Club; F. B. Drew on extra-curricular activities; Coach Benham, who strongly advised the freshmen to maintain a high grade of scholarship saying that Vermont has suffered a great loss from the team of players lost to their academic work. Coach Benham, new mentor of freshman football and basketball, discussed the outlook for the year and urged the freshmen to enter the branch of athletics.

An innovation to camp programs, Councilholder, D. E. Bennett, F. B. Drew and E. P. Donaghy entertained around the council fire with a bit of humor interspersed with collegiate lore.

Rev. Richard Leonard, formerly but now of Burlington, speaking at the Sunday morning devotional program in the out-of-door chapel, stressed the importance of selecting one's course of study for the benefit it will give in one's career rather than for its ease and fame alone. Later morning talks were given by J. C. Carter, editor-in-chief of the Vermont Cynic and president of the John Dewey Club, J. D. Hall, a member of Gold Key society, and W. Webster, who presented the opportunities which Burlington offers as a city to the incoming man. As a conclusion to the program Sunday evening, Wilmer Kitchen discussed the biological and social aspects of relations between men and women; Householder explained the opportunities in dramatics; C. Drown, '34, discussed the Vermont Independents, and Hewitt Varney outlined the program for the discussion of disarmament which is being conducted on a nation-wide scale among the collegiate Christian associations.

TWENTY-NINE WOMEN AT CAMP HOCHELAGA

Twenty-nine freshman women attended the second annual women's camp held by the Y. W. C. A. at Camp Hochelaga, South Hero, on Lake Champlain during last week-end. Nearly twenty upperclass women and faculty members addressed the freshmen on college life. Miss Florence Maddocks of the state Christian Association council and Rev. G. E. Robbins, secretary of young peoples' work in the Congregational Conference, emphasized the importance of connecting student work with a program of service and worship. Both speakers discussed the changes in personality and ideals which can be expected when a student makes the transition from high school to university life.

On Activities

The program, planned by Mildred Gile, '32, director of freshman camp, included short talks on campus activities the following representative upperclassmen: Mildred Aikens, '32, spoke on W. A. A. and Newman Club; Lillian Mount, '32, Student Union; Sylvia Boyd, '33, the Purpose and Aim of Y. W. C. A.; Agnes Parsons, '32, the Right Spirit and Glee Club; Verna Carrier, '32, Press Club, the *Ariel*, Caroline Taft, '33, Debating; Doris Brennan, '32, Sports and Their Value; Elisabeth Mandigo, '32, Le Cercle Lafayette; Helen LeBaron, '32, Handbook, Activities; Marguerite Dunsmore, '33, Dramatics; Hope Ranslow, '32, Masque and

SORORITIES LEAD ALL MEN'S GROUPS IN LATEST SCHOLARSHIP RANKING

Lambda Iota Leads Men's Fraternities—Sigma Gamma Tops All Groups

Scholastic honors among the societies on the hill during the last semester of last year were conceded to two locals, Sigma Gamma sorority which has maintained a consistent lead during the past few years and Lambda Iota which rose from ninth place to first.

The women's sororities in every case topped the fraternities in scholastic average while no great difference is noted in national or local societies in general. Notable among those which advanced in relative standing are Tau Epsilon Phi which rose from tenth to second place and Phi Sigma Delta, formerly in fifth position, which ranks third among the men's groups. Alpha Xi Delta advances from fourth to third position. Phi Delta Theta last semester in thirteenth place, trailing the list, has advanced to tenth place.

The women's sororities ranked as follows:

Sigma Gamma, Alpha Chi Omega, Alpha Xi Delta, K. E. L., Delta Delta Delta, Pi Beta Phi, Kappa Alpha Theta, Kappa Delta.

The men's fraternities ranked as follows:

Lambda Iota, Tau Epsilon Phi, Phi Sigma Delta, Sigma Phi, Phi Mu Delta, Kappa Sigma, Delta Psi, Alpha Tau Omega, Sigma Delta, Phi Delta Theta, Sigma Nu, Zeta Chi, Sigma Alpha Epsilon.

J. W. Votey Dies At Seventy-one

Prof. Evan Thomas Officiates at Simple Funeral of Honored Engineering Dean

Several hundred students, faculty representatives, friends and relatives were present at the devotional service held for Dean Votey Saturday morning in the Ira Allen Chapel. Prof. Evan Thomas was the officiating chaplain. Rev. Clifford H. Smith, brother-in-law of Dean Votey, officiated at a simple prayer service held at the home preceding the funeral. Madame Elizabeth Bradish rendered three solos, accompanied at the organ by Prof. H. G. Bennett. The following six seniors from the College of Engineering were the active bearers: R. W. Cobb, D. E. Child, B. J. Dimon, G. F. Flagg, P. E. Westin and C. H. Wheeler. Among the honorary bearers were Pres. G. W. Bailey, Deans George H. Perkins, J. L. Hills, J. N. Jenne, and E. Swift, Profs G. F. Eckhard and A. D. Butterfield, Dr. C. F. Dalton, F. W. Ward and F. H. Shepardson. Burial was in the Lakeview Cemetery.

Josiah William Votey, dean of the College of Engineering, University of Vermont, died at his home on Main Street early last Wednesday morning. He had been failing in health for some time but up to within a few days of his death strong hopes had been entertained of at least partial recovery.

Dean Votey was born in Ovid, N. Y., July 23, 1860, the son of the Rev. C. A. and Mrs. Fanny Anderson Votey. His father was the pastor of the local Baptist Church. Later he held several pastorates in Vermont, where the son's earlier years were spent and in whose schools he received his elementary education. He prepared for college at Saxton's River Academy, of which he was later to become a widely known alumnus.

When preparing for college his vacations were spent very profitably and very enjoyably in the Estey Organ Works in Brattleboro. Here he came under the influence of that masterful personality, Deacon Jacob Estey, who built up the business. Here, too, he developed a liking for mechanical pursuits, which had much to do in forming the decision to take an engineering course.

In 1881 he entered the University of Vermont, and received the degree of C.E. with the class of 1884. Though he finished the course in three years, at graduation he received Phi Beta Kappa honors. Among his classmates were the eminent Latin scholar, the late Kirby Smith, for several years head of the department of Latin at Johns Hopkins, and the gifted writer, Jessie Elvira Smith, now Mrs. G. H. Whitcomb.

Dean of Engineering

Immediately after graduation he was appointed instructor in civil engineering in the University. He entered enthusiastically upon his duties and his promotions were rapid. In 1895 he was made full professor and in 1901, upon the death of Dean V. G. Barbour, he succeeded to the deanship of the College of Engineering.

In 1886 he married Emma Luella Lane of Jericho. She died in Avon Park, Fla., February 14, 1930. There were four children, all living. Florence, now Mrs. Earl Waterman of Iowa City, Iowa; Ruth, now Mrs. David Sternbergh of Reading, Pa.; Dorothy of Burlington, and Constance of Reading, Pa. He is also survived by several grandchildren, also by a brother, Dr. Frank A. Votey of Grand Rapids, Mich.; and two sisters, Mrs. C. H. Smith and Miss Clara Votey of Proctor.

Dean Votey was preeminently a teacher. It was the work of his choice. From the first he was successful in the classroom. He was interested in the students and understood their limitations, was patient with the slow of understanding and tireless in his efforts to help them over hard places. He understood his subjects well and had a natural gift for clear exposition. He brought into the classroom an enthusiasm that was contagious and well calculated to arouse and sustain interest in the subjects. To teach well so many subjects as fell to him, especially in the early years of his

Blaze New Trails, Advises Pres. Bailey to Freshmen

Administration Head Stresses Need for Students to Do Clear Thinking in Pressing World Problems

BOULDER WEEK OPENS TONIGHT WITH BATTLE AT FOUNTAIN ON CAMPUS

Underclass Scraps, Smoker, Parade, and Dance Feature Week

Boulder Week is here. Every year the members of Boulder Society direct a week of underclass rivalry and instruction in tradition, containing the following events. The fountain fight, the water fight, the parade to Centennial Field to see the last practice before the Union game Saturday, the smoker and mixer, the cane rush, the first home game, and the Boulder dance.

Tonight at 7.30 these activities will commence with the traditional fountain fight, under the direction of James W. Marvin, Boulder representative. The sophomores will arrange themselves around the fountain to meet the onrush of a large freshman delegation. Many an impromptu bath will be received and given during the few minutes of the fight's duration.

Thursday afternoon at four, if circumstances are favorable, the annual hose fight will be held south of the gymnasium. R. I. Meehan is handling this scrap for Boulder. The fight is run off in three heats, and new teams may be used for each heat. The winner of two heats wins the contest.

Friday afternoon, on the eve of the first home game, the traditional parade from the Old Mill to Centennial Field will be held under the direction of Marvin and Ray W. Cobb. The students will form in a body at the Old College building at 4 p.m. and march to the field, headed by Joe Lechner and the R. O. T. C. band. This parade for the last practice before the first home game is one of Vermont's old traditions, and a large crowd is expected.

That evening the freshman smoker and mixer will be held in the gymnasium. Freshmen should not be absent. Allen O. Eaton and Everett Wilder will direct this meeting.

Saturday afternoon, between the halves of the Union game, comes the cane rush. Freshmen will get canes at Havos and Carney's and gathering in a body at the Old Mill Saturday at 1.30 will then march downtown. A section will be reserved for them in the bleachers.

Rules of the cane rush:

1. The scrap shall be of seven minutes' duration.

2. The canes will be placed halfway between the classes, who will be forty yards apart, with the crooks of the canes as they happen to fall.

3. On a signal, both classes should rush for the canes and struggle for possession of them.

4. There shall be only as many freshmen as there are sophomore men enrolled in college.

5. No men shall wear any other than rubber-soled shoes or moccasins.

6. A warning whistle will be given one minute before the end of the rush. A pistol shot at the end will close the struggle.

7. Canes in the hands of men of both classes shall be given to one class or to the other upon decisions of Boulder according to the number of hands nearest the crook.

8. The crook of a cane with a foot or more stub shall count one point. A whole cane shall count two points.

9. At the close of the match each class will file past a designated number from Boulder for the computation of scores.

R. W. Cobb is directing the cane rush.

Saturday evening will come the first college dance, the Boulder dance. Further information will be published soon.

EXTOLS BEAUTIES OF NATURE AS LIFE SYMBOL

"The world of scholarship confers its awards upon those who, leaving the beaten paths, discover new avenues of progress dreamed of and sought for, by many generations," declared President Guy W. Bailey addressing the faculty and students in Ira Allen Chapel Wednesday at the opening exercises of the 141st year of the University.

His discussion was focused on life as a trail with its end as the goal to be achieved. In extolling the beauties of nature he urged the entering class to tread at first the well established paths but added that we should not always follow the old trails. Progress has been realized by the refusal of the pioneers to become discouraged in their endeavors.

Student Problems

The members of the class of 1935 enter the University full of hope and aspiration. At no time within our recollection has the necessity for calm, judicious thinking been so manifest as at present. Serious problems of world wide significance, all interwoven with the economic situation, press in on every side. In their solution some of you may be able to play a part, conceivably a major part.

The real objective of a college education is the utilization of all existing worthwhile knowledge as a basis for continued progress based upon critical and self-sacrificing investigation, the assimilation of the known in order that the search for the unknown may the better be prosecuted. The names that live through the ages are those of pioneers who blazed new trails where others had not dared to enter.

In his topic, "The End of the Trail," President Bailey said in part:

"Nature has been kind to Vermont. She has provided our state with assets that money could not purchase nor human hands fashion—its lakes and rivers, its hills and valleys, its woods and meadows.

"The most fascinating trail leads from lake to lake, through dense forests to the open spaces, perhaps over corduroy roads long disused and now neglected, through marshy places and over pathways made resilient by pine needles. Such a trail especially appeals because it reminds one of life.

"The first time that we attempted the trip over such a trail, we lost time by following the wrong branch. Instead of heeding the instructions to take the right hand path, we concluded that our informant was wrong and took the other path which showed greater usage. It led to and stopped at a spring and we had to retrace our steps and make a new start.

"Life is like this, a series of starts and restarts. The success of our mutual endeavors depends largely upon our willingness to heed the advice of those who are better informed and who by their years and experience are entitled to advise us. There are only two ways which one may follow, the right way and the wrong way. One must have faith in those who are competent to advise until such time as one's own experience gives one the confidence to follow the proven paths.

The Trail of Life

"The call of the trail will always be welcome to one who has followed it. Each journey will reveal new aspects of nature that serve to interest and to charm. One often pauses in the busy affairs of life and longs for the time when cares may be set aside and one may again be permitted to follow the old trail and search for the new.

"May we not look forward to the day when the world will lessen the intensity of its unrelenting contest, when to a greater extent than is now possible men

Someone has said that a true scholar is one who sits by the stove with his feet on the fender and reads Plato. It is this everyday familiarity with the best that has been written that is commendable. Not the sitting alone nor the formal reading alone but both in a general attitude of enjoyment, an attitude that is not unworthy of a scholar in the best sense of the word. One could easily imagine Justice Holmes of the United States Supreme Court doing this. In all likelihood he has! Plain living and high thinking has its own rewards for its devotees. This is one field which is not overcrowded today.

SPORTING NEWS

Physical Education Dept. Offers Wide Variety Sports

Prentice Announces Competitive Golf and Tennis—Holds Swimming Test for Sigma Delta Psi

PHYSICAL EDUCATION TO START NEXT MONDAY

[illegible] direction of Howard Prentice, the physical education department will offer a wide variety of sports this year [illegible] to appeal to all students. Due to the ever-increasing number of golf enthusiasts, competition is arranged for privilege tickets [illegible] course. Students and faculty members desiring these tickets should make arrangements at the gymnasium. The second annual golf tournament, the winner of which claims the golf championship, is open for entry.

[illegible] opening of the tennis tournament [illegible] for the first week in October. Contestants must sign up on the gymnasium bulletin board before September 28. A trophy is to be awarded to the winner of the tournament. A few of the expected entrants are Captain [illegible] of the spring tennis team, ex-Captain Capper, Bisson, Albert, Meyers, Hunter and "Eddie" Sutton, a Dartmouth man and four times winner of the Waterbury, Conn., city championship.

Students wishing to gain membership in Sigma Delta Psi had their last opportunity to pass the swimming test Monday. Membership to this honorary athletic society is open to all students and graduates of the University. The [illegible] requirements may be satisfied during the college year.

Physical education classes will start Monday, September 28. Class assignments will be posted on the bulletin board Saturday, September 26. Men reporting for freshman football are excused from physical training *after* October 1 upon recommendation of the freshman coach, John Burke. Freshmen are required to take a course in hygiene. Through the courtesy of Doctor Kent, the men will be given a series of lectures to be followed by an examination. A passing grade in personal hygiene is necessary to secure physical education credit.

The Inter-fraternity football league will get under way soon. Many of last year's stars have returned to the various organizations and within a few weeks everyone will be throwing and catching passes.

TOURNAMENTS IN TENNIS AND GOLF START SOON

Through the special efforts of the Physical Education Department and the courtesy of the Waubanakee Golf Club, a golf tournament will be held, the starting date of which is yet undetermined. However entries must be in by September 26. Special rates have been provided for the players. Information can be obtained from the Physical Education Office. The winner of this tournament will be awarded a miniature golf watch charm and the runner-up will be presented with a medal.

This contest is open for both members of the academic and medical colleges.

The tennis tournament will get under way soon with the usual procedure of seeding players until the finals will be reached. Entries for this contest must also be made before September 26. Last year's champion was Larry Palmer '33.

FRESHMAN FOOTBALL HOLDS LIGHT WORKOUT

New Mentor Assures Development of Champions

Freshman football started off its practice for the coming season on Monday with a light workout, after the equipment had been distributed to the candidates last Thursday and Friday. The prospects of a championship team seems assured by the wealth of prep and high school material. Johnnie Burke, the new coach, has complete charge of many of his old men from Vermont Academy, which has many representatives here this year.

These men are Holly, Hurley, Nerulis, DeBellis and Schnarr. From St Anselm's Prep are Schwartz, Mara and O'Connell. Two former stars from Hartford, Conn., are showing up very well in the persons of Giardi and Caracciola. "Red" Cook is a husky tackle from Cushing and makes fair bid to that position. Burns from St. John's Prep, Hamilton from Cooper Union, and Delfausse of Rockville Center, L. I., are among the many other players who have shown up well and who reveal a fighting spirit which will make any position on the team a bitterly contested place.

In his talk at the frosh camp this year, Coach Burke stated: "We have brawn; we have the brain in this school; what we need is a happy medium between the two. I expect many men will come out, and the fellows who really want a position on the team must fight for it and stick. I won't do any cutting of the squad because, if a man is good he will prove himself. I know I can give you a championship team this year, but you men who are out for the team must help me by keeping your marks up."

The schedule:

October 3, St. Michael's, here.
October 17, Troy Conference Academy, there.
October 24, St. Lawrence, there.
October 31, Norwich, here.
November 6, Middlebury, there.

SCRIBNER'S MAGAZINE TO HAVE $5,000 LIT CONTEST

Scribner's Magazine announces a new $5,000 contest for the best long story of between 15,000 and 30,000 words submitted before February 1, 1932. The contest is open to American authors (United States and Canada) and is for original work. There are no restrictions either as to subject-matter or style.

The magazine, as in the last contest, will purchase all stories of the required length which meet with its approval. From these the prize winner will be selected. The prize winner will be offered book publication by Charles Scribner's Sons, on royalty terms acceptable to the author. Manuscripts will be read as promptly as possible and stories either be purchased or returned at once.

Prof: "When you fellows stop making fools of yourselves, then I'll begin."

JOHN H. BURKE, NEW KITTEN FOOTBALL COACH OPENS FALL PRACTICE

New Mentor Has Fine Record at Vermont Academy

PRODUCED GOOD TEAMS IN THE THREE SPORTS

John H. Burke, former Vermont Academy coach during the past five years, who has been engaged by the Athletic Council to be the new mentor of freshman football, began last Wednesday his workout with the team on Centennial Field. He will also assist in coaching varsity basketball and will be a member of the physical Education staff.

Burke's record at Vermont Academy has been little short of phenomenal. His football teams have won 20 out of the last 27 games played. His basketball teams have been increasingly better every year and in 1931 went undefeated until the National Prep School Championship play-offs at the University of Wisconsin at Madison, where the Wild Cats were edged by Oak Park Military Academy, the second place team, 25 to 21. The baseball record of Coach Burke's teams is nearly as good. Last spring, among others, the Yale Junior Varsity was defeated 11 to 5.

John H. Burke is an excellent hammerer of men, very popular among students and his team candidates. He is married and the father of two children. He is thirty years old.

Although not a great football player, he attended the Springfield College Mentors' Training School and later took up higher athletic education under the late Knute Rockne. In his high school days he was quarterback on the New Jersey High School team for which George Tully, former freshman coach, began his career.

Burke attended Colby College in Maine for two and a half years and will continue to study for his degree at this University. While at Colby he excelled as a basketball man, and this sport is his strong point. Chick Meehan, mentor at N. Y. U., thinks so much of the Burke trained men that he acquired an even dozen of them two years ago who are now the nuclei of his teams.

TWENTY-FIVE FACULTY COUNSELORS ASSIGNED TO FRESHMAN STUDENTS

Each Will Meet Groups of Twelve Every Month for Conferences

Twenty-five faculty members under the direction of Professors Swift, Nulty and Kidder have been assigned to meet with the freshman men and women, about twelve being assigned tentatively to each counselor. This is a continuation of the new system started last year under which all incoming students will be required to meet with their counselor for advice concerning studies and activities. Soon reassignments will be made and dates given out for conferences at least once each month. The list of counselors each of which has his own list of students follows:

Mrs. Adams, Professor Aiken, Miss Blanchard, Professor Braun, Miss Brown, Professor Buehler, Professor Burrows, Mr. Carleton, Professor Carpenter, Miss Cummings, Miss Davis, Professor Donahue, Professor Douglass, Professor Evans, Mr. Hall, Miss Holbrook, Professor Kidder, Professor Lindsay, Professor Meredith, Miss Morgan, Miss Nulty, Mr. Pooley, Professor Stineford, Mr. Wainwright, Professor Wallace.

AGGIES TO COMPETE AT SPRINGFIELD EXPOSITION

Four seniors in the College of Agriculture are representing the University of Vermont at the Eastern States Exposition which is being held this week at Springfield, Mass. The team, consisting of H. J. Leach, M. B. Morrill, C. L. Park, Jr., and C. E. Wright, will compete with groups from several other universities in judging dairy cattle and dairy products. Professor Campbell has been training the men in cattle judging while Professors Smith and Newlander have been training them in the judging of dairy products. Mr. Camburn of the Extension Service is coaching them while on the trip.

Varsity to Meet Union Here Saturday in Season's Opener

Dunn Giving Men Regular Scrimmages in Preparation for First Game of Year

TEAM HANDICAPPED BY DEPARTURE OF REGULARS

With the opening game of the 1931 season a little over a week away, Coach Dave Dunn gave his varsity candidates their first scrimmage Thursday afternoon in preparation for the Union contest which will be held next Saturday afternoon on Centennial Field.

Handicapped by lack of experienced candidates and also by such a small turnout, Coach Dunn is facing a fairly difficult schedule, with far below average material, especially in the line of reserves. Scarcely twenty-five men have so far answered the call.

On team A in Thursday's scrimmage, Capt. Ed Winant called signals, with Skip Bedell and Rap Rapuano at the half back berths and Stew Manning at fullback. With the exception of Rapuano, who is out for the first time since his freshman year, the backfield is composed of veterans.

In the first string line, Jimmy Wood at end and Hip Davis at center are veterans, while the rest which included Ricker at the end position, Morgan and Wagner tackles and Denhoff and McGrath at the guard posts, are all sophomores.

Team B consisted of Wesoly at quarter, Kibby and Concannon at the halves and Dober at full as a backfield and a line consisting of Bowers at center, Douglas and Powell at end, Delfausse and Rust tackles, and Farmer and Press at guard. With the exception of Kibby and Fainer, this line up presented no men with previous varsity experience.

Tom Collins, a veteran of last year, who has been laid up with a bad neck, has not been out for several days. Ed Sowka, the defensive and punting luminary of last year's frosh eleven, has not yet reported for work, nor has Orrie Jay, the speedy ball carrier of the last two seasons. Ed Saba, the frosh star captain of last year, is out and will no doubt gain a varsity position. Paul White, sub center on last year's frosh eleven, has also reported, bringing the total to twenty four.

The schedule for this season:

September 26, Union, here.
October 3, St. John's (Brooklyn), there.
October 10, Providence, there.
October 17, Colby, here.
October 24, New Hampshire, here.
October 31, Norwich, there.
November 7, Rensselaer, there.
November 14, Middlebury, here.
November 21, Springfield, there.

TWO NEW MEN TO SERVE ON R. O. T. C. UNIT STAFF

Capt. Malcolm E. Craig, former infantry officer in the United States Army in the Panama Canal Zone, has been appointed to replace Capt. Walter Lauer who has been transferred to Fort Warren, Wyo., after four years on the department staff of the R. O. T. C. unit here.

Major Chester R. Haig, assistant professor of military tactics of Philadelphia, will replace Major O. H. Stanley of the College of Medicine who has been transferred to the infantry post at Hawaii.

VOLUME 50 — BURLINGTON, VERMONT, FRIDAY, SEPTEMBER 25, 1931 — NUMBER 2

BOULDER WEEK

Freshman Class Adds 321 Students to Four Colleges

Commerce and Economics Leads Individually But Pre-Med-General Science Outranks All With Others Trailing

MEN AND WOMEN SHOW ALMOST EQUAL NUMBERS

[illegible] the University with a total [illegible] of 321 according to latest [illegible], the class of 1935 presents [illegible] most evenly divided lineup of men [illegible] women in recent years. One hundred and six men enrolled in the freshman class and 105 women. This is an average number for an entering class at this University. Two years ago enrollment was 315 and last year 367.

Arranging the men as to courses the Commerce and Economics courses leads with 27 and Pre-medical is a near second with 26. Next in line are General Science with 19; Education, 15; Chemistry, 9; Social Science, 7; Literary Scientific, 7; Agriculture, 5; Classical, 5; unclassified 12.

Arranging the women according to courses, we find Education leading with 47; Home Economics, 26; Literary Scientific, 25; Social Science, 23; Commerce and Economics Secretarial, 15; General Science, 4; Classical, 7; Pre-medical, 2; unclassified, 14.

In the Engineering College sixteen men are enrolled in the Civil Engineering course. Electrical Engineering has eleven; Mechanical Engineering, eight.

Viewing the class and courses analytically we find large groups in Civil and Electrical Engineering, Pre-medical, Education and Chemistry but there is a falling off in such courses as Literary Scientific, Classical and Social Science.

The women on the other hand still are most numerous in Education as has been the case in previous years. Home Economics is also popular as is the Literary scientific course. The Social Science curriculum which was offered first last year is making great inroads on other courses among the women.

The names, courses and addresses of the class:

VERMONT CAMPUS HAS NEW CHAPTER HOUSES FOR TWO FRATERNITIES

Kappa Sigma Already Located in New Headquarters—Pi Beta Phi Awaits Completion of Prospect Street Home

Two of the fraternities at Vermont have new chapter houses either completed or under construction at the present time. Kappa Sigma fraternity last week moved into its new house on Summit Street and Pi Beta Phi sorority which formerly had rented rooms for its meeting will change its location to its headquarters on the corner of Cliff and S. Prospect Streets.

Kappa Sigma has purchased the brick and stucco residence of Henry T. Way a member of the local chapter among the alumni. Twenty-one men will be given rooming facilities here this year as the building is of two floors with modern conveniences throughout.

On the first floor are a large living room with beam ceiling, a dining room, den, breakfast room, kitchen, two large clothes cupboards and a two car garage, connected directly with the house. The rooms are all in a natural gumwood finish.

On the second floor in the main part of the house are two large bedrooms with private baths, and two bedrooms having one bath for both. Over the garage are two more bedrooms and a bath. In the basement are a card room, laundry and storage cellar. The house is heated by a modern vapor-steam heating plant.

The new home for Vermont Beta of Pi Beta Phi, located on the northwest corner of Cliff and S. Prospect Streets, will be ready for occupancy about October 15, if present plans are carried out.

The exterior of the chapter house will be of dark red brick, carefully selected for this particular job, and it will be laid in gray mortar.

The English design has been followed throughout the house. The sills to the windows will be of the same red brick, thus eliminating trimming stone. The stucco gables will be of gray.

The lumber in the half-timbered work will be given a stain to produce a weathered effect and thus creating the impression that the house has been standing there a long time. Such trimming stone as will be used in the exposed chimney and arched entrance will be of the dark red, unfading color.

The roof will be covered with weathering green slate harmonizing witt the subdued tone of the entire building.

Entrance to the first floor will be under a stone arch. There will be a stone-flagged porch. The main entrance will lead to the old English hallway. Under the window will be seats. Gumwood is to be used in the interior decorations because it takes a stain simulating old timber work.

From the hall, one enters the living room and lounge through a large arch. In this room will be a big fireplace with seats built around each side of it.

Opening from the living room and the large hall will be the dining room. Spacious arches connecting these three rooms, and the waxed oak floors will allow dancing throughout these rooms.

North of the dining room will be a large kitchen, equipped with electric range and all the modern conveniences for serving meals.

Connecting with the kitchen will be the rear stairway and the matron's chamber with private bath.

Opening from the large hall will be the room for alumnae. During entertainments, and when not in use by the alumnae, this room will be hands for a coat room.

An open stairway leads from the first floor hall to the basement hall, which is directly under the hall on the first floor. From the basement hall there is the en-

(Continued on page 4)

COLLEGE OF ARTS AND SCIENCES NOTES MANY CHANGES IN FACULTY

Professors Bassett and Myrick on Sabbatical Leave While Professors Householder and Kidder Return

CHANGES ALSO INCLUDE NINE NEW INSTRUCTORS

Students returning to the University will find several changes in the faculty in the various departments of the College of Arts and Sciences. Two professors will be absent on sabbatical leave and several others, including instructors and fellows, have left to study and do research work at other colleges. Also a new women's dean, Miss Freda Harris, has been appointed to assist Miss Elizabeth Whiting, Dean of Women.

Prof. F. W. Householder of the Mathematics Department has returned from his sabbatical leave, which he spent visiting institutions in Texas and Southern California.

Mr. W. H. Sears of the same department has left for Harvard University, where he will do graduate work.

In the Chemistry Department Mr. G. Van Note has been added to the teaching staff as instructor of freshman chemistry. Mr. Van Note comes from McGill University at Montreal, where he spent last year studying and instructing. He is a graduate with a B.S. degree from Rensselaer Polytechnic Institute.

Mr. E. E. Lincken, head of freshman chemistry, is studying at the University of Iowa this year.

In the History Department, Professor Putnam will take Mr. L. S. Hartwell's place as assistant professor. Mr. Hartwell has resigned and is now engaged in business with headquarters in Burlington.

Professor Putnam is a graduate of the University of Minnesota, where he received his A.B. and M.A. degrees. He later did graduate work at Cornell, where he received his Ph.D. degree in 1930.

Professor Briggs has also been added to the history staff. He is a graduate of Johns Hopkins University, from which he received his A.B. degree in 1924. In 1929 he received his Ph.D. degree and later taught at Goucher College at Baltimore, Md., and at Coker College at Hartsville, S. C.

In the English Department, Mr. D. M. Doten, who was a research fellow last year, will take the place of Prof. K. H. Storms, who will not teach because of illness.

The Zoology Department has Miss Cornelia Collier of Mt. Holyoke College and Robert Aiken '31 as new instructors this year. Mrs. Van Dyke, assistant professor of zoology and embryology, has left the department along with Miss Flavia Richardson. Mrs. Van Dyke will study in New York and Miss Richardson at Johns Hopkins University at Baltimore, Md.

The Latin Department has added Mr. R. P. Johnson as instructor and Miss Elizabeth Knight as research fellow.

Professor Kidder has returned from Chicago, where he has been the last year to take [illegible] S. E. Bassett's place in the Greek Department. Professor Bassett on sabbatical leave this year was planning to attend the Classical School at Athens, Greece, but will be unable to go because of illness.

Mr. A. N. Colton has been added to the French Department faculty as instructor.

Pro. J. B. DeForrest will act as head of the French Department this year as Professor Myrick is taking his sabbatical leave.

PROFESSOR HALL WILL MEET BIBLE CLASS MON.

Prof. R. A. Hall, pastor of the Congregational Church at Charlotte, will meet his class in Biblical literature Monday afternoons at 2 o'clock in 2 North College.

The Bible and other collateral readings will be used in the conduct of the course, the main purpose of which is to awaken interest in the Bible as English literature and promote general intelligence about the Book.

"FROSH AN ELECT CLASS," SAYS PROF. EVAN THOMAS

"You are of an elect class," said Prof. Evans Thomas (Professor Emeritus) at the first Ira Allen Chapel service of the year held every Wednesday morning to addressing the student body, made up largely of freshmen. Reading a selection from Apostle Peter who was speaking to the elect, Professor Thomas said, "Likewise you as a student body are an elect group when considering the thousands who are not in college who have not the social and economic advantages of which such a group is familiar, an elect class striving toward the higher activities in getting an education.

"We, of the faculty, cannot give you an education, but it is rather a cooperative affair between faculty and students. Education is a process that leads to an active and vigorous life."

Reverend Thomas gave three reasons for coming to college. First for association with others; second for economic and social advantages and third for an education.

Reverend Thomas concluded with the thought that education is something more than merely gaining knowledge. The importance of education is to retain for future use all that one has gleamed from his college career.

997 STUDENTS ENROLL IN VARIOUS COURSES AT U. V. M. SUMMER SESSION

24 States, Including Japan, Represented—New Studies and Outside Activities Prove Interesting

The 1931 Summer Session of the University of Vermont, held from July 6 to August 14, which had a total enrollment of 997, a number larger than in any previous year, offered a program containing new courses and varied activities of interest. Distribution of students as compiled in the office of Prof. B. C. Douglas, shows that nearly two-thirds of the students enrolled came from Vermont, chiefly outside of Burlington, other states represented in order of their numbers were: New York, Massachusetts, Connecticut, Pennsylvania, New Jersey, New Hampshire, Maine, Ohio, Maryland, Virginia, Rhode Island, Michigan, Washington, D. C., Delaware, Kentucky, Wisconsin, Kansas, Indiana, Illinois, Colorado, North Carolina, South Dakota, and Japan. This would seem to indicate a very widespread interest in Vermont.

The fraternity and sorority houses as well as the college dormitories were utilized for housing.

Among the new courses offered were a general physics course taught by Prof. Floyd A. Woodward, and several courses in economics under the instruction of Prof. A. G. Buchler.

The extra curricular program included a summer school magazine, *The Campus*, published daily with Prof. L. W. Dean as editor, a victorious baseball team coached by H. D. Dunnman '31, a tennis tournament directed by Frederick Tupper, Jr. '32, a graduate club composed of all students who were graduates from a collegiate institution, the annual singing contest in which ten people took part, which was won by Miss Melba Abbott of Essex Junction, who received a course of lessons under Mr. W. Warren Shaw, vocal instructor, a recital given by the pupils of Mr. Charles Lee Tracy of New York City, piano instructor at the Summer session, presentation of "A Sports Morning" by some members of the Burlington Theater Club, presentation of the opera "Faust" by members of Mr. W. Warren Shaw's class in vocal music; and a concert by the New York String Quartette.

Of benefit to rural school teachers was the inspection tour of rural schools in Addison and Chittenden counties. An elementary demonstration school was conducted at the Ira Allen School building on Colchester Avenue.

Excursions to Ausable Chasm, to Fort Ticonderoga, to Fort Frederick, historic forts on Lake Champlain, and to Montreal were popular diversions as was Mountain Day—the climb up Mt. Mansfield—Vermont's Back Campus and the annual Summer Session picnic held at North Beach.

In review, the 1931 Summer School at the University of Vermont not only reached its maximum enrollment but also offered better courses and a better all round good time than previously.

DANCES, SMOKER, PARADE, CANE RUSH TO CONCLUDE BOULDER WEEK EVENTS

Men and Women of All Classes May Enjoy and Participate in Traditional Activities Closing Rivalry Between Lower Classes

SOPHOMORES GIVE FROSH BAD WETTING IN FIGHT

Two dances, a smoker, student parade to Centennial Field, and the lower class cane rush will bring to a close the events of the annual Boulder Week at the University. Led by the R. O. T. C. band under the direction of Joseph Lechnyr the student body will form at the Old Mill at 4 o'clock this afternoon and march in a body to Centennial Field where the final practice of the varsity team before the Union game tomorrow will be witnessed. The parade is directed by J. W. Marvin and R. W. Cobb.

College Mixer

Preceding the college mixer in the gymnasium tonight which is free for members of all four classes, will be held the Boulder smoker and pep rally. Under the direction of G. E. Wilder '32 and A. O. Eaton '32, there will be a program of songs, cheers, and talks by the coaches and student leaders starting at 7:30 o'clock.

Cane Rush

Between the halves of the football game with Union College tomorrow afternoon the cane rush between the freshmen and sophomores will take place on Centennial Field gridiron.

Freshmen will gather at the Old Mill at 1:30 o'clock, and march to Hayes and Carney's on Church Street in a body to receive their canes. The rules governing the cane rush are:

1. The scrap shall be of seven minutes' duration.

2. The canes will be placed halfway between the classes, who will be forty yards apart, with the crooks of the canes as they happen to fall.

3. On a signal both classes should rush for the canes and struggle for possession of them.

4. There shall be only as many freshmen as there are sophomore men enrolled in college.

5. No men shall wear any other than rubber soled shoes or moccasins.

6. A warning whistle will be given one minute before the end of the rush. A pistol shot at the end will close the struggle.

7. Canes in the hands of men of both classes shall be given to one class or to the other upon decision of Boulder according to the number of hands nearest the crook.

8. The crook of a cane with a foot or more stub shall count one point. A whole cane shall count two points.

9. At the close of the match each class will file past a designated number from Boulder for the computation of scores.

R. W. Cobb is directing the cane rush.

First Regular Dance

The dance sponsored by Boulder the senior honorary society, tomorrow evening will be the first regularly scheduled social event of the year. It will start at 8:30 o'clock in the University Gymnasium the floor of which has recently been replaced with a new hardwood material making an excellent dancing surface. The Black Pirates orchestra will furnish music and the chaperones are to be Professor and Mrs. C. E. Braun and Mr. and Mrs. Leon W. Dean. Admission is $1 per couple.

Seniors Win Hose Fight

Violating radically the traditional form of the hose fight between the two lower classes, two Boulder men, one other senior and two sophomores joined forces in wetting down a seven man freshman team at 4:30 o'clock last night on the back campus. When only one sopho-

The Mystic Pen

UNDER THE COVER

Football Murder Detectives are especially fitting to this season year. And what could be more than a new novel combining all seasons. Seventy thousand people are here murdered on the gridiron during and the way back in the blea one can't see him fall dead as he the winning touchdown. The next papers, of course, carry the sto sensational detective work finally the villains to book. This is a fine to sandwich into those short sessions tween study stints. You know thirty-five minutes, relax five m Although some educators hold that four minutes is sufficient. In whic you can read six minutes. The *Guide to Recovery*, by Cortland Fitzsimmons (Robert McBride, Pub., $2.)

mp

Those who are about to plunge Psych I will find *Dr. Joseph Jastrow's* new book on Freudianism just the to help you attain a revaluation of ideas on the doctrines of the great ma of his science. If you have no ideas will find the book exceedingly help and perhaps provocative. Doctor Jastrow has the knack and the reputation of discussing his subject in a clear and forward manner. And while you struggle with axons and dendrites you can keep pace with them in parallel direction with increased benefit. The doctor partially discusses the soundness of some of the Freudian pronouncements and tries to show how much of his doctrine is immediately applicable to the ordinary normal individual. The book: *The Story That Freud Built*, by Dr. Joseph Jastrow (Greenberg, Pub., $2.)

mp

Comes now a gentleman, bearing the historic name of *Alexander*, and offers us gentle reader, for a mere pittance, the panacea, the solution, the slide rule which will end the worry of studying, of bill-of exams, of cutting classes. The *Freshman Handbook* told you how to study, but our friend Mr. Alexander teaches us how to control our thoughts, and that is a mean job, with some of us. His little book will show you how to master your mind, your self. That being done, what goal can remain unattainable? Your high school principal told you that long ago and often. Mr. Alexander will get you into such a state that you will be able to get rid of unimportant and unnecessary thoughts, and regulate the *entry* of thoughts into the mind, or consciousness. A little application and you won't be troubled if there's a draft on your back, the wastebasket spilled all over the room, a fly crawling down the wall and Mr. Powers' cry of *"Wait! Wait!!! Wait for this young man!"* The book: *Mastering Your Own Mind*, by James Alexander. (Funk & Wagnalls, Pub., $0.75.)

mp

Lowell Thomas, that old dependable Radio Voice of a well-known weekly, has turned out to be a first-class liar. No, I don't think he'll sue us. All his biggest whoppers have been collected and are just off the press in a volume containing the most preposterous tales imaginable outMunchausening Munchausen, if one may coin a word. Of course you must have heard his compelling voice broadcasting through your loud-speaker some evening about seven o'clock, all with "Well, folks, here I am. Just got out of Mr. X's new monoplane in which I made a fast trip in from Boston. Man what a trip, and what a ship I can still hear the motor roaring in my ears!" And then, if you remember, you might have turned the set onto a western network two hours later: ". . . . Yop. And I can still hear that old motor roaring in my ears!" I guess that was the sort of thing that started people from all over the country sending in those whoppers. Every tall story that Lowell tells seems to bring down a flock of them on his curly head. He put them in his radio book also. This is a fine collection for lazy evenings round the supper table or for the omnipresent bull session. The book: *Tall Stories*, by Lowell Thomas. (Funk & Wagnalls, Pub., $1.50.)

SPORTING NEWS

Middlebury will meet Columbia and Norwich will meet Dartmouth this year. It appears that both these schools are still dazzled by the big guarantees. Another conclusion is that only U. V. M. was progressive enough to adopt the small team schedule. Maybe both the Panthers and Horsemen imagine they are in the same class as their opponents. That's an answer we didn't arrive at.

At any rate both Middlebury and Norwich feel confident of victory over the Green and Gold in their coming battles. As in all things Time will tell.

Will you be at either of these games? Will you be at any one football game this year; or do you prefer pink teas?

Time Out

You may have smiled at that saying "I could die for dear old Rutgers," but this was actually said in a game by a player with a broken leg. Nobody expects you to die for dear old U. V. M., but, if you think that football is worth while at all why not show it by a little interest. We'll bet you don't even know your own classmates on the squad. If you're at the smoker tonight you'll meet them.

—time out—

An unusually small squad reported for practice this fall. We wonder what happened to the rest of the promising material that plugged away all last season. We know that not even a small portion of them are ineligible. Maybe they are downhearted or maybe the game isn't worth the candle.

—time out—

Down at St. Mikes Coach Carr is still drilling on fundamentals, blocking, tackling, etc. Reports have it that the spirit is so strong down Winooski way that the coach warned them to take it easy for fear of crippling his men in practice.

—time out—

The frosh have an unusually strong aggregation this fall—in size. They look like championship material and Coach Burke is the man who turns out champs. But we're not predicting victories today. We are predicting FAILURES—SCHOLASTIC failures. How many yearlings will play varisity ball next year? Better still, how many will be able to report for practice next season? The job of keeping them eligible is up to the eligibility managers.

Perry Boye is the smallest man on the team and "Tiny" Davis is the largest. Perry weighs about 140 while "Tiny" scales an even 205. Perry is fast and packs enough fight for a platoon of Marines. If you were hit by Davis you would probably die bouncing.

—time out—

The sophomores on this year's squad think that they are going to restore Vermont's lost prestige on the athletic field. If they continue with that idea we feel certain that the long lost prestige will come back. Such spirit plus fight is what puts a team on the winning end of a score. Let's go men of Vermont.

—time out—

Don't forget the Boulder Smoker Tonight. Captain Winant and Coach Dunn will be there with the pep talk. Alumni and friends will be there with support, and Boulder will be there with smokes, doughnuts and cider (soft), and YOU be there with a smooth-running larynx ready to cheer 'till your adam's apple hits your back molars.

As every position on the team is still being fought for by the respective candidates and as Coach Dunn is still uncertain as to the eligibility of others he declined to name a tentative lineup for the Saturday game with Union. Nevertheless it is felt that the men listed below will enter the fray as the first whistle shrills.

End	Tackle	Guard	Center	Guard	Tackle	End
Rust	Morgan	Farmer	Davis	Powell	Bowers	Delfausse
167	189	164	205	173	186	175

Quarter	Half	Full	Half
Winant	Saba	Manning	Rapuano
163	178	175	171

PHYSICAL EDUCATION DEPARTMENT OPENS NEW REGIME IN GYM SPORTS

Touch Football, Wrestling, Boxing, Indoor Track and Basketball to Interest Classes

The Physical Education Department has ushered a new régime in sports. Prior to a few years ago athletics were for athletes and gymnasicism for those who could not participate in varsity sports. Now the department offers a diversified list of activities which non team members may enter.

First of all touch football will occupy the time of the members of that class. The annual touch football tournament between the different fraternities and the group of Independents will soon take place. Last year Sigma Phi won the tournament with some hard-fought victories. The games are played off on the back campus under the supervision of "Bunny" Prentice and "Archie" Post. When the games are played a great deal of enthusiasm is manifest by the various reactions. When the weather gets colder and interest is aroused in indoor sports in which everyone participates, basketball, indoor track, wrestling and boxing take the place of football. The yearly basketball tournament is run off by representative teams from each of the classes. Last year's winners, the seniors, now out of competition, will give the other classes a chance to fight it out for the championship.

Wrestling and boxing are coached by the Honorable "Bumps" Levine, who has the knack of making fighters of members of the classes. The wide variety of sports makes it possible for everyone to participate and not become lazy and inactive.

For those who are inclined to take to outdoor work, horse-back riding is to be recommended. There is a small charge for this sport.

Later on in the year, interfraternity track occupies the time of the participants. Relay events of two miles, one mile, four hundred and forty yards, two hundred and twenty yards, and the dashes, feature the running races. In the field activities are the shot-put, pole vault and the discus. Last year the Sigma Nu fraternity copped the title.

Coach Gardner wishes that all candidates for baseball would report every afternoon at 4 o'clock on Centennial Field for fall practice until further notice.

SOPHOMORE

All men wishing to scrub the editorial side of the 1933 Ariel are asked to meet with the editor, R. F. Colburn, at the Sigma Alpha Epsilon House at seven o'clock next Tuesday evening.

One black fountain pen with gold bands. Inquire at Cynic office.

COACH DUNN

TENNIS TOURNAMENT TO SEE LARGE NUMBER OF CHAMPIONSHIP ASPIRANTS

Twenty-six Sign Up for Play Including Wilson, Myers, Mulcahy, of Last Year's Frosh Team

Contrary to the response to the tennis tournament last year, a large number of aspirants to the cup have already signed up for the play. The matches will begin next week when spectators will have the opportunity to view some hard-fought battles. Last year's winner will not be on the competitive field, but the competition will be just as strong as it was when Larry Palmer copped the cup. As yet the seeding has not been arranged, but among the top-notch players are Wilson, Myers, Mulcahy from last year's freshman team.

After the seeding has been arranged, the matches will be played off to the convenience of the candidates. The following men have signed up so far: DeBellis MacDonald, Libby, Myers, Wilson, Bennett, Winant, Casely, Wescott, Morse, Johnson, Reis, Eastman, Cass, Mulcahy, Wells, Beckley, Fienberg, Guare, Hall, Stratton, Eastman, Damery, Holbrook, Sussman and Wolk.

CANDIDATES OUT FOR CROSS-COUNTRY TUESDAY

Cross-country received its initial impetus last Tuesday when the squad reported to Coach Post and Captain Hewitt Varney. There are only two veterans of last year's harriers returning to the grind this year. These men are Captain Varney and "Ev" Wilder. The squad augmented by a few of last year's yearlings went through light setting up and stretching exercises followed by a few laps around the oval. Coach Post anticipates a fairly successful season and has arranged for five meets as scheduled below.

Oct. 10. Amherst—Here.
Oct. 17. Conn. Aggies—There.
Oct. 31. Open.
Nov. 1. R. P. I.—There.
Nov. 14. Middlebury—Here.

VARSITY LINEUP WHICH MEETS UNION VETERANS TOMORROW IS SECRET

Final Selection of Catamounts From Teams A and B Will Be Met by Strong Albany Eleven

Intensive practice directed toward the opening game of the season at Centennial Field tomorrow has given Coach Dunn a difficult problem of picking the starting lineup. The coaching staff entertains a degree of silence, because of the few veterans with which to work with and the inexperience of many of the candidates.

Scrimmages have been held for the past week between team A and team B. The men showed that they are profiting from the passing, punting and general offensive drill held for the three previous days.

All of last year's lettermen still on the team will have an opportunity to play against the Union eleven, which sent the Catamounts back to Burlington defeated by a 19 to 7 score last year. Despite the fact that injuries may keep out a few tried men in the opener, the squad feels optimistic as to the outcome tomorrow.

Union will come to the Vermont field with a veteran team. Most of the men who sent the Cats into defeat last year have returned to the gridiron this fall. However, the Vermont team has more pep and spirit and fight than it has had for several years.

Because of a lack of veteran linesmen, it will be quite impossible to give a lineup which will start against the foe from Albany. At center, Davis or Bowers may draw the start. With the number of untried sophomores the rest of the line shapes up tentatively as: Farmer right guard; Powell or Press left guard; Morgan and Delfausse at one of the tackles, with Jimmy Wood at the other; at end Dente and Kibby appear strong. Denhoff may be seen in action at either tackle or guard.

The backfield presents a much brighter outlook. Saba, a versatile back, probably will lead the team at quarter. Captain Winant and Rapuano at the halfback posts, with Manning playing full.

Defensively Rappie will play full in the backfield with Press or Powell playing roving center in the line.

Wesoly and Dober are sure to see action tomorrow in the backfield, and Wagner may work in at end.

L. N. Brock, C. Brown and D. W. Webster desire to meet all sophomores who wish to scrub the managerial side of baseball.
Watson Morgan.

Freshman men desiring to do reportorial work on the "Cynic" will meet the editor at 4 p.m., Friday, September 25, in the office in the north end of the Old Mill.
J. C. Carter.

U.V.M. Tops Union In Opener

CHEDULE ADOPTED BY INTERFRATERNITY BODY FOR OPEN HOUSE DATES

Will Divide Freshman Class Into Eleven Sections for Three of Five Open Nights

TO ENABLE MEN TO VISIT ALL FRATERNITY GROUPS

[illegible] order that all the freshmen may visit [illegible] fraternity houses during the open [illegible] on [illegible] this year, the class by the [illegible] of a by-law adopted last [illegible] will be divided alphabetically into [illegible] groups which shall visit the houses [illegible] to a definite schedule.

[illegible]es Marvin, president of the Inter-[illegible] Conference, when interviewed, stated that the new system was inaugurated when it was found over a period of [illegible] years that the new men often go [illegible] a few houses. Thus they are not able to meet the men in all the houses, whereas the men meet all of the incoming [illegible]. This unfortunate situation will be remedied or at least mitigated under the new compulsory attendance system. The men will be required to attend during only the hours stated in a schedule drawn up for the purpose by the conference acting under the advice of its retiring president, Richard Cowles '31, who had secured much data about rushing from the colleges he visited last spring while on the student trip for the investigation of fraternity relations.

Freshmen will be allowed to enter the fourteen fraternities on five dates designated by the conference: October 7, 9, 13 15 and 20. Succeeding these evenings there will be four rushing parties given on October 24, 26, 27 and 28. The bids for the new men will be issued the following day.

(Continued on page 3)

MOUNTAIN DAY OCTOBER 10

Mountain Day will be held Saturday, October 10, and all classes will be dismissed on account of the State Teachers' Convention which is being held in this city October 8 to 12. The annual student hike to the back campus of the University of Vermont, Mt. Mansfield, will be sponsored by the Vermont Christian Association under the direction of David W. Webster '33, in the capacity of director of student service. More details about transportation and the course of the hike will appear later in these columns.

PUBLIC TO BENEFIT BY FREE SONATA RECITAL GIVEN BY MUSIC DEPT.

Miss Charlotte de Volt and Prof. H. G. Bennett to Present Program Thursday Evening at Gym

A sonata recital, free to the public, will be given by Miss Charlotte de Volt,, violinist, and Prof. Howard G. Bennett, pianist, at 8 o'clock, Thursday evening, October 1, in the University gymnasium. The program:

Sonata in D Minor Op. 108.....*Brahms*
- Allegro (Moderato)
- Adagio
- Un poco presto e con sentimento
- Presto agitato

Sonata in F Major Op. 24 *L. van Beethoven*
- Allegro
- Adagio molto espressivo
- Scherzo—Allegro molto
- Rondo—Allegro ma non troppo

Sonata in A Major.....*Franck*
- Allegretto ben moderato
- Allegro
- Recitativo-Fantasia—ben moderato
- Allegretto poco mosso

FRESHMAN MEMBERS UNIVERSITY R. O. T. C. WILL PARADE IN BLUE

War Department Approves 200 New Uniforms Which Will Be Worn by New Men

WILL MAKE LOCAL UNIT APPEAR MORE SNAPPY

Two hundred new regulation uniforms, approved by the War Department, consisting of dark blue wool jacket and cap with trousers of a lighter blue material have been ordered for the first-year men in the basic course of the R. O. T. C unit here. This is the second change in the costume of the privates in the battalion since Vermont has been under the commutation system. Two years ago the old style short visor caps worn by the members of the freshman and sophomore classes was replaced by the Pershing style cap

Olive Drab Unpopular

"This move was made on the part of the local unit," stated Col. F. F. Black the commandant, "to improve the appearance of the battalion on parade. The new uniforms will certainly make a very fine display and be much more snappy than the old olive drab suits which the sophomores will still wear this year. Next year we hope to replace all the cadets with the new blue uniforms. The University ordered them after it had inspected several different styles, finding this one the most suited to give a smart colorful appearance to the boys on parade. They have complained quite a bit during the past few years about the untidyness and discomfort of the old "monkey suits."

Snappy Appearance

Pres. G. W. Bailey, when interviewed, declared that the new uniform had been selected for the men to wear while on parade because of the snappy appearance it gave to the men. "The instigation came from the student officers and the military department," he added, "because they felt that the improved style would make the local R. O. T. C. unit distinctive from that of any other institution and make Vermont stand out. It is also different from that worn by the regular army men and since this unit here is more academic, the men will like it a great deal better. When we get the entire group of men dressed alike they will present a mighty fine appearance."

Cheaper in Blue

An ordinary silk or broadcloth shirt is to be worn with the new outfit instead of the heavy khaki woolen one of last year Regulation low black shoes will be worn along with black tie and white cotton belt. The blue trousers have a wide white stripe down the outer seam and the jacket is decorated with small R. O. T. C rifle insignia of the U. V. M. infantry unit. The price of the new uniform is $26.40, nearly $4 cheaper than the cost of those used by the second-year men They have been purchased by the students since the commutation plan of returning $10 each year has been in effect

It is planned by the department of military science and tactics to divide the battalion parades this fall into four companies, each of which will drill in uniform one day of the week, Monday, Tuesday, Thursday and Friday, instead of simultaneously on the latter day. This is contemplated, Colonel Black explained, to enable the men to drill more effectively and to give more room to each company.

The R. O. T. C. Band has already appeared garbed in new green and gold capes, with tall pom-pom cavalier caps

MORTAR BOARD HOLDS ANNUAL PICNIC TODAY

Mortar Board, national honorary society for senior women, sponsors its annual picnic this afternoon September 29, at 5.00 o'clock at the Burlington Municipal Bathing Beach, which may be reached by busses which leave the City Hall Park on the hour and on every following twenty minutes for North Beach. Busses also leave North Beach on the hour and on every following twenty minutes. Upperclasswomen are asked to come and bring their little sisters

After the outdoor picnic supper each class will present a competitive stunt and there will be singing of Vermont songs

Green and Gold Triumphant In Battle With Union, 7 to 0

Captain Winant Scores Winning Touchdown in Fourth Quarter of Game Played at Rain-soaked Centennial Field—Recalls Tom Keady Era

CATAMOUNTS APPEAR AN IMPROVED AGGREGATION

Vermont's football season got away to an auspicious start on Centennial Field, Saturday afternoon when the Green and Gold triumphed over a veteran Union team, on a rain-soaked field by a 7-0 score. Incidentally this victory in the opening game of the season marks one of the few times that this trick has been accomplished since the era of Tom Keady

Cats Improved

From all appearances the Catamounts have a decidedly improved team over last year and if they continue to improve as the season ages, the Green and Gold should have a winning combination. The backfield as a unit as well as individually showed up well, although the line appeared weak in some spots

First Half

First quarter

Union kicked off, Saba receiving and returning the ball to his own 35-yard line. Vermont failed to gain and Saba placed a beautiful punt which Union returned to their own 35-yard line. Neither team was able to gain much and the play for most of the quarter was between the 40-yard lines. The quarter ended with Vermont in possession on Union's 35 yard line

Second quarter

As the teams exchanged goals, Referee O'Brien failed to place the ball on Union's 35-yard line, simply moving the ball to the other side of the field, Vermont thereby losing 30 yards. Vermont failed to gain, Saba punting to Union's 40-yard line, Union retiring to their own 35-yard line. On a series of line plays Union carried the ball to the Catamounts' 15-yard line. Here Wagner replaced Bowers at right tackle, who retired with an injured arm. Vermont recovered a Union fumble on the 5-yard line. Saba fumbled and on the next play punted from behind his own goal line to his 35 yard line. Taft entered the Vermont lineup, replacing Manning at fullback Taft intercepted a Union pass on his own 27-yard line and ran it back 8 yards to his own 35

On an exchange of punts, Vermont came into possession of ball on their own 5-yard line

The half ended with Vermont in possession on their own 5-yard line.

Second Half

Third quarter:

Saba kicked off, Union retiring ball to own 40-yard line. Union pass is completed for 20-yard gain On an exchange of punts Union comes into possession of ball on Vermont's 40-yard line. Rapuano intercepted a Union pass on his own 25 yard line. Saba punted to Union's 30 yard line. Union punted to Vermont's 40-yard line. Here the Vermont attack strengthened. Taft and Winant combined to make it a first down on the 50 yard line. Rapuano made a beautiful run to Union's 37-yard line. Winant passed to Taft who was stopped in his own 21-yard line as the quarter ended.

Fourth quarter:

Saba gained 5 yards in two attempts through the line. Vermont received a 15-yard penalty when Winant grounded the ball on a bad pass from center. Winant then heaved a pass to Saba who was stopped on Union's 7-yard line. In three attempts Saba carried the ball through the line to the Union's 6-inch marker. Winant broke through the right side for a touchdown. Saba added the extra point with a placement

Saba kicked off, Union retiring ball to their own 45-yard line. Wood recovered a Union fumble on his own 40-yard line

Saba gained 5 yards through line, Winant 3 yards. Taft failed to gain Saba punted to Union's 25-yard line

Union here began a live attack which brought the ball to the Vermont's 19-yard line where it was lost on downs White replaced Davis at center, and Manning replaced Rapuano at halfback

Saba ran 20 yards through the Union line.

Saba's kick went outside on 50 yard line. Union completed two forward passes to bring ball down to 25-yard line as the game ended

Line-ups:

VERMONT 7		UNION 0
Wood	r.e.	Savage
Morgan	r.t.	Halkyard
Farmer	r.g.	Adams
Davis	c.	Barnett
Powell	l.g.	J. Taft
Bowers	l.t.	Prather
Delfausse	l.e.	Anella
Saba	q.b.	Murray
Winant	r.h.b.	Norris
Rapuano	l.h.b.	Mitchell
Manning	f.b.	Lippitt

Touchdown — Winant. Point after touchdown Saba (placement).

Substitutions — Vermont: Wagner, White, Taft. Union: Panlisi, Whelan, Fox, Hoffman, Acheson, Guinac, Iverson

Referee—O'Brien.

Umpire—Hausner

FRESHMEN-SOPHOMORES TIE IN MUDDY CANE RUSH FOLLOWING UNION GAME

Boulder Week Closes With Two Dances and Pep Rally for Union Game

After one of the most hectic afternoons in University history with rain, mud and free bus transportation, Vermont freshmen battled their upperclass rivals, the sophomores, to a standstill to gain a draw verdict in the Cane Rush, Saturday afternoon, following the Union game. Thus Boulder Week passed out as it did with parade, mixer, rally and dance.

It was raining furiously as the militant freshmen marched downtown from the University Gymnasium to the music of the R. O. T. C. Band, which in turn was gaily clothed in new green and gold capes. Hayes and Carney, donors of the canes which caused all the trouble, next sent the band and frosh off to Centennial Field in two giant busses, one of them the "Queen of Vermont."

Sloppy Weather

The Cane Rush itself was held following the game, due to the sloppy condition of the field. At the pistol shot, the frosh from one 30-yard line and the sophomores from the other, rushed for the canes which the freshmen had deposited on the 50-yard line. For seven minutes they tugged, hauled and slugged and then without allowing members of the Boulder Society to make a count, scattered with the cherished canes. Estimates of Boulder men, however, represented the numbers of captured canes as about even. Raymand Cobb officiated for the Boulder Society.

Boulder Dance

The Boulder dance entertained approximately 350 couples at the Gym, Saturday evening. Music was furnished by Black Pirates Orchestra for dancing, which lasted from 8.30 until 12. The chaperones were Prof. and Mrs. L. W. Dean and Dr. and Mrs. C. E. Braun. Samuel Barker was chairman.

Rally Exciting

The Boulder rally and mixer proved exciting and popular. The Gymnasium was crowded with men and women from all the classes. They listened attentively to speakers, including Captain Winant, Coach Dunn and Dr. M. McMahon as they were introduced by the presiding Boulder man, Allen O. Eaton, manager of football. They were cheered lustily and sang cheerfully to the leadership of R. P. Donaghey.

Following the rally, dancing was enjoyed until eleven o'clock to the strains played by Joe Lechnyr's Vermonters. All freshman women present were identified by green and gold ribbons about their necks. During the intermission cider and doughnuts were served in the Cage The chaperones were Dean and Mrs.

University of Vermont to Sponsor Nine Lectures in Coming Semester

Art, Economics, and International Peace Will Be Subjects of Series of Discussions Given by Men Prominent in World Affairs

A series of nine lectures featuring art, economics, and international peace, sponsored by the University of Vermont, will be conducted again this year as has been the case since 1926. Prof. A. R. Gifford, Chairman of the University Lecture Committee, has given out a list of the series to be given by internationally prominent men.

The program is not wholly completed as yet but the committee feels that this year's program will keep up the high standard which the series has had in the past. There will be no admission charge and the public is invited as well as the students of the University. The committee hopes that the attendance will be as good as it has been at lectures in former years.

Florentine Sculptor

Clarence Kennedy will deliver the first lecture on Wednesday, October 21, and his topic will be "A Florentine Sculptor's Workshop in the 15th Century." Mr. Kennedy has been doing research in Italy and he is well qualified to discuss the subject.

[illegible] Leaves, official photographer for the Pinchot Expedition to the Galapagos Islands in 1929, will appear on Tuesday, November 3, showing motion pictures of the wild life on those islands.

[illegible] Denison Ross, professor of [illegible] at the University of London, [illegible] and a world authority on [illegible] will speak here Thursday, [illegible]

International Peace

[illegible] December 10, James T. [illegible] director of the division of Economic History of the Carnegie Endowment for International Peace, will [illegible] the University. Mr. Shotwell [illegible] ing the international situation this summer and his topic [illegible] pertained on his return.

[illegible] months of January and February [illegible] tures are yet to be arranged [illegible] Lawes, warden of Sing Sing, [illegible] on March 17. He will speak on some phase of the social aspects of crime, and his lecture will precede the state teachers' conference in order that the teachers may have an opportunity to hear him.

A lecture in commemoration of the centenary of Goethe's death in 1832 will be held after mid-years and plans are being made for one other lecture to complete the University series.

FRESHMAN WOMEN ARE TO LEARN OF ACTIVITIES

Women's Student Union will formally begin its year's program Thursday evening, October 1, when a Women's Mass Meeting will be held in the University gymnasium. After a short business meeting, to be conducted by Lillian Mount '32, president, Miss Alice Blanchard will explain, for the benefit of freshman women and transfers, the purpose and meaning of fraternities.

The program will include short talks on campus activities by the following upperlassmen: Elisabeth Mandigo, Eta Sigma Phi, Le Cercle Français; Hope Ranslow '32, CYNIC, *Winnowings From the Mill*, the Tri-State Literary Contest; Beatrice Parkhill '32, Dramatics, Bluestockings; Roberta Powers '32, *Ariel*, Debating; Katrina Munn '32, Choir, Women's Glee Club, Orchestra; and Katherine Rauh '32, Class Spirit. Social dancing and refreshments will conclude the meeting.

ARGUMENTATION HAS NEW TEXT THIS YEAR

English 8, Argumentation, will inaugurate an entirely new policy this year in the use of a textbook. The work will consist of actual debate practice. Each student debating at least twice during the year. Ten classes must be attended each semester. M. D. Powers is the instructor.

VERMONT VICTORIOUS

[illegible] victorious over the local rooters at the bleachers we [illegible] much emotional stimulation was [illegible] Yet [illegible] 600 students who sat on the bleachers not a little [illegible] [illegible] at [illegible]

THE BLUES HAVE IT

[illegible] battalion [illegible] a big way toward developing in those who [illegible] a more favorable attitude toward the subject of [illegible] [illegible] will without doubt, we believe, obviate much of the popular protest against the former system with which the War Department has attempted to popularize [illegible].

The effectiveness of [illegible] cannot be denied. In fact it is recognized by nearly [illegible] and administrative authorities in every institution. The cadet officers must shine in their uniforms on parades and at [illegible] inspection day.

The national defense system has thrown tradition to the winds in its preparation for future wars. And it is well, for who would not exchange the spectacle of [illegible] in lace for the blood thirsty, rough and ready Maps of yesterday? Every man because of this should develop [illegible] initiative and leadership. To develop the correct [illegible] attitude, a certain [illegible] of necessity be popular. And Major General [illegible] retired chief of staff of the United States army [illegible] recognized this fact when he stated: "We feel that a proper uniform will go further than any other thing toward popularizing the R. O. T. C."

[illegible] military drill is compulsory at Vermont we fail to see how the new trappings will increase attendance but they will without doubt prevent much of the opposition to the course on the account of the [illegible] It is time to be suggested that the entire battalion cannot acquire [illegible] like. The deal is dead.

NEW WAY TO RUSH

The results of the Intercollegiate Investigation conducted last spring by a group of Vermont men [illegible] to raise themselves felt in [illegible] most [illegible] Most significant since the abolition of freshman rules is the announcement that the Interfraternity Conference has changed its rushing rules to [illegible] with the need for more careful regulation of rushing [illegible] Under the new system introduced by Colgate [illegible] chapters of the sixty group last spring neither fraternity or freshman [illegible] gain [illegible] from acts of common acquaintance. The schedule although it does not assure the attendance of all the men at all the houses nevertheless [illegible] their time each evening so that the [illegible] visits will be facilitated. It is splendid achievement on the part of the Conference and we hope to see it effect the desired ends.

[illegible] evening was a success on the part of many of the freshman men [illegible] women at the College Street [illegible] Friday evening. But it we observed [illegible] had all participated in the dance there would have been a [illegible] and [illegible] began.

[illegible] are two forms of religion [illegible] which is intellectually shoddy and morally [illegible] the [illegible] based on a mere unfolding of thought. [illegible] are one [illegible] of reality [illegible] and [illegible] on [illegible] of human satisfaction and those who live in [illegible] of this creed. [illegible] such religion is met in an [illegible] with high [illegible] of [illegible] necessity is [illegible] [illegible] [illegible].

The Mystic Pen

[illegible] group of the more significant writers and [illegible] contemporary literature, on their own works, their "credo" or [illegible] latest book, which, in most cases, is on [illegible]

We hope, by this form of presentation, to give you some idea of what is going [illegible] ture; of what sort of expression the contemporaries are striving for. We hope to give you an accurate picture of modern trends in the treatment of diverse [illegible] What will be the conclusion of the psychological approach? What will be the fate of free verse? To what extent is the newer knowledge of sex and its effects coloring modern fiction and [illegible]

We offer, as the first in this series of articles, a review, by the author, of her [illegible] the third part of a trilogy of which each succeeding work has shown remarkable development in power over [illegible] The formidable title [illegible] and so is no clue to the content or significance of the [illegible] published by Cape & Smith New [illegible] The [illegible] to show us, in a delightfully detached style, just how she has developed, and how her newer perspective has affected her theme.

"A Calendar of Sin"

The early novels of this writer were static in character. The situations selected for treatment were not of the sort that [illegible] social drama. There was an [illegible] view which denied extensive evocations. From beginning to end of *The Narrow House*, her first novel, almost nothing happened. In leaning far back from the obvious effects of melodrama Miss Scott was handling herself with a convention and, if she had kept on in the same way, she might have [illegible] the significance of her work in a fashion contradictory of her own æsthetic credo. Time-space conceptions have an emotional evocativeness for which there is no substitute.

Miss Scott had written three of her [illegible] but two of them had been [illegible] *Escapade* came out. The [illegible] matter of *Escapade* sets it apart from her other work. But the [illegible] dramatic and even melodramatic [illegible] had no need to exceed the [illegible] to emphasize the extreme contrasts [illegible] struggle associated with a [illegible] effect. This was educational to herself. Though not having read him, she was under the spell of an attitude of mind at which Jesus is the perfect and [illegible] the final example. Miss Scott [illegible] *The Narrow House*. Narrow [illegible] and a volume of [illegible] *Idiots* behind she [illegible] toward inward space and extended her previously limited objectivity to relate people and stars.

Escapade was the first of a trilogy which embraces *The Wave* and concludes with *A Calendar of Sin*. From considering unbroken [illegible] and the "fate" in character this author moved to an emphasis on the fatality in events. The Civil War and war reduces to mere [illegible] impressive unimportance existence as being [illegible] contemplative approaches to "the truth" become almost absurd.

The Wave was an utterance on war expressionistic in conception and realistic in the execution of detail. *A Calendar of Sin* is a book which isolates from other history the sex histories of two American families that become united through a marriage. Here we have destiny represented by no precipitation of external crises, as in the situation of citizens at nations at war. And it is not an individual destiny, either. The sexual instinct takes as little account of the apparently rational intentions of individual actions as does the [illegible] of modern [illegible] The moving impulse is of man's own nature, but it is as it impersonal, just as hunger is impersonal.

In eighteen sixty seven, Cadwallader Sconce, a married man, elopes with a [illegible] teacher. Cadwallader's [illegible] wife becomes an embittered [illegible] His daughter marries to escape her home, but the Puritan obsessions spoil her marriage [illegible] she is finally discovered actually in love with a lust for cleanliness. There are reveal of the depressing incidents of the book, but there is exaltation, joy and, in the last gesture of Iolo Judas, heroism. The sense of sin which is in the minds of so many people in the novel is not always suggested by relations. More fundamentally, it is the apology which the individual makes to society for his [illegible] behavior under a sex urge [illegible] against which [illegible] and [illegible] can only in the measure in which the mind is allowed free function. Interesting that comes struggle in the mind is here. The author makes this conclusion [illegible] but morally. Lawyers and Judges are not [illegible] according to their formal virtues but according to their honesty, their will to recognize their own motives and the degree of intelligence with which they combat [illegible] of [illegible] [illegible] of the books was [illegible] but with the minimum [illegible] of a sleeping [illegible]

THE MUSE CONVERSES

Perhaps the following words of Sacco to his little son Dante will be of interest [illegible] as they were written [illegible] as sincere and [illegible] but as sincere and [illegible] [illegible]

What here I am going to tell you will [illegible] your feelings but don't cry, Dante, because many tears have been wasted, [illegible] tears have been wasted for seven years, and never did any good. So, [illegible] instead of crying be strong, so as to be able to comfort your mother, and when you want to distract your mother [illegible] the distressing sadness I will tell you what I used to do. To take her for a long walk in the quiet country, gathering wild flowers here and there, resting under the shade of trees, between the harmony of the vivid stream and the gentle tranquillity of the mother nature, and I am sure that she will enjoy this very much, as you surely would be happy for it. But remember, always, Dante, in the [illegible] of happiness, don't you use all for yourself only, but down yourself just one step, at your side and help the weak ones that cry for help, help the persecuted and the victim because they are your better friends, they are the comrades that fight and fall. In this struggle of life you will find more love and you will be loved. . .

* * * *

There is a paragraph also at the end of the apology of Plato which exhibits the true humanity of another genuine philanthropist concerning whom one may repeat "that of all the men of his time he was the wisest and just and best." Socrates knew men and yet he loved them. Sacco knew men and yet he loved them. Romain Rolland knows men and yet he loves them. To view humanity *sub specie aeternelates;* is that a clue to their magnanimity? Read Socrates' concluding words to his judges:

* * * *

Still I have a favour to ask of you. When my sons are grown up, I would ask you, my friends, to punish them, and I would have you trouble them; as I have troubled you, if they seem to care about riches, or anything, more than about virtue; or if they pretend to be something when they really are nothing—then reprove them, as I have reproved you, for not caring about that for which they ought to care and thinking they are something when they are really nothing. And if you do this, both I and my sons will have received justice at your hands. The hour of departure has arrived, and we go our ways—I to die, and you to live. Which is better God alone knows.

* * * *

I would append here the *raison d'être* of the above written paragraphs. Gilbert Murry in his essay "Religio Grammatici" seems to indicate better than the author of "On the Sublime" why literature lives.

* * * *

Not only the great things are there, seeming to stand out the greater because of their loneliness; there is room also for many that were once in themselves quite little, but now have acquired a magic poignancy, echoes of old tenderness or striving or laughter beckoning across gulfs of death and change; the watchwords that our dead leaders and forefathers loved *viva adhuc et desiderio pulchriora.*

'Living still and more beautiful because of our longing.' PAUL J. LACROSS '32.

NEW GREEN AND GOLD CAPES BEDECK INITIAL PERFORMANCE OF BAND

Colorful Regalia Puts Band in Center of Stage at First Football Game

dressed in the new bright id capes, and decked out in caps, fifty successful candi- ms year's R. O. T. C. band on the Centennial Field give the student body one of easant surprises in years. k of intensive rehearsal the an excellent performance, al- ority of the men are frosh. ed repertoire of the band in- popular "NC-4" and the Post March." The old vercargill" played an impor- the afternoon's offering. The major promises to be one of ful and efficient of the last

The members of the band are:
Carsley, Wells, Jardine, Benton, Carleton, Douglas, Bullard, Eastman, Pearson; clarinets: Householder, Peck, Whitney, Weissmann, Terry, Cross, Murray, Williams, Preston, Reeves, Rogers; soprano sax: Arnold; alto sax: Rees, Powell Bristol, Wilcox; tenor sax: Denhoff, Miller; baritone sax: Goss; flutes: Baldwin, Whipple, Whiting; R. Jenks; baritones: R. S. Wright, Cameron; trombones: Greenberg, Tomasetti, Morrisette, R. P. Davison; bass: Cammell, Hutchins, C. A. Rogers; bass drum: D. Jenks; snare drum: Congdon, Davis, Damery, Westcott, Loudon.

The executive committee of the John Dewey Club will meet at 7.30 this evening in room 34, South College.

The first touch football game will be held on Monday, October 5. The schedule and rules of the Interfraternity Football League will be published in Friday's "Cynic."

FROSH CROSS-COUNTRY HAS NEED OF MATERIAL

This year's freshman cross-country team has not been received with the enthusiasm that it was received last year. Last year saw a large squad of nearly thirty harriers taking daily workouts on the back campus in the preliminary training and later the full three mile course. No schedule has been arranged as yet for the Kitten runners, but it is probable that meets will be arranged with both the Middlebury and Norwich freshman teams. Coach Post has demonstrated the ease with which he can develop fine runners out of practically green material. Practically no experience is required. In the sports' questionnaire, seventy-five men checked off the fact that they were interested in track. All men, no matter whether they are cross-country men or not, who are interested in track should not fail to see "Archie" Post at once and report ready for practice. The following men are out for cross-country and automatically excused from classes in Gym: LaMere, White, Wescott, Merchant, Cass and Syme.

TENNIS TOURNAMENT IS UNDER WAY TOMORROW

The tennis tournament starts tomorrow afternoon at three o'clock, weather permitting on the University of Vermont courts. The deadline for entries has been changed till tonight to allow any freshmen to sign up. Matches should be played off as soon as possible so that the tournament can be run off completely before cold weather sets in. The probable seeded men will be F. Tupper '32, ex captain and number one man on the team last year; L. Woodward '33, this year's captain; N. Myers '34 and H. Wilson '34, both of the 1934 freshman team. Since last week the additional entries to the tournament include Tupper, Patch, Kellan, Ryan, Wright, Fiske, Douglas, Stiles, Alberts, Myers, Spear.

"How did they treat you in Scotland?"
"Reluctantly."—*Cornell Widow.*

What's Wrong With Football

College Students Offered $400 to Answer the Problem

Is football a glorious sport or are there grave dangers in the way the majority of the colleges are handling the football program? Must something be done? Must gate receipts be abolished in order to remove the "price" from players? Is interest in the game on the increase or is it waning? Does football tend to encourage brutality and the war spirit? Can the objectionable features of the game be eliminated and the glorious part retained.

These and other matters of concern about the great American game will be answered by undergraduates in the colleges and universities of the United States in a contest conducted by the *Psychology Magazine* which is offering prizes of $250, $100, and $50 for the best solutions.

Must the sport be scrapped by the colleges or can it be handled beneficially, the question is asked. Ed Dooley, all American star of Dartmouth in 1924 has drawn a vivid picture of the thrill that comes to the team as it plows down the field amid cheers from thousands of spectators.

The judges in the competition are Dr Thomas M. Putnam, dean of undergraduates, University of California; Heywood Broun, columnist Scripps Howard newspapers; and Robert C. Zuppke, athletic coach, University of Illinois.

The manuscripts must not exceed one thousand words in length and are to be postmarked not later than December 15. Inquiries are to be addressed to the football editor, *Psychology Magazine*, 101 West 31st Street, New York City.

RUSHING RULES

(Continued from page 1)

The following are the rules adopted by the Conference for the season of 1931-32.

1. Beginning with the first day of football camp, no fraternity or fraternity man shall entertain, discuss fraternity matters with, or extend invitation to membership to any freshman or new student, until the end of the neutral period after regular bidding time, except at open house nights or rushing parties as explained below. (The word entertain is interpreted as meaning, accompanying at movies, dinner engagements, out-of-town athletic contests, etc.)

2. No freshman or new student shall be allowed in any fraternity house between aforesaid dates, excepting open house nights and rushing parties.

3. The Interfraternity Council will designate five evenings in October when fraternities may welcome freshmen to their houses or rooms. Entertainment shall be limited to "smokes" and no fraternity matters shall be discussed at these meetings. Personal invitations may supplement the general invitation to all students.

The freshman class shall be divided into eleven groups which shall visit the fraternities according to the following schedule. The last two nights visiting shall be optional.

	1st NIGHT				2nd NIGHT				3rd NIGHT		
GROUP	A	B	C	D	E	F	G	H	I	J	K
TIME	••	••	••	••	••	••	••	••	••	••	••
Σ Δ Ε	A	K	J	I	H	G	F	E	D	C	B
Δ ♦	B	A	K	J	I	H	G	F	E	D	C
Σ Δ	C	B	A	K	J	I	H	G	F	E	D
♦ M Δ	D	C	B	A	K	J	I	H	G	F	E
♦ Δ ∞	E	D	C	B	A	K	J	I	H	G	F
Σ ♦	F	E	D	C	B	A	K	J	I	H	G
Σ Φ	G	F	E	D	C	B	A	K	J	I	H
∩ Γ Ω	H	G	F	E	D	C	B	A	K	J	I
K Σ	I	H	G	F	E	D	C	B	A	K	J
Σ Σ	K	J	I	H	G	F	E	D	C	B	A

4. On the Thursday, October 22, following the last of the open house nights, freshmen shall assemble at 4 p.m. in the chapel in the Old Mill to receive date cards from representatives of different fraternities, filling out same as has been customary. A member of the faculty who is a disinterested party and yet competent shall be designated by the Conference to meet the freshmen as a body and to make such explanations to them as are necessary before they go through the line.

5. Rushing dates, four in number, will be held on Saturday, Monday, Tuesday and Wednesday evenings. Evening dates will last from 6-12 p.m. No fraternity shall make more than *one* date with any one freshman.

6. From 12 p.m. Wednesday, after the last rushing date, until 6 p.m. Sunday shall be a strictly neutral period, during which time no active or associate member of an organization belonging to the Conference shall hold any communication whatsoever, with new students.

7. At 2 p.m. on the Thursday, October 29, following the last rushing date the members of the Conference shall meet and bring all their invitations in sealed and addressed envelopes, said meeting to be held in the room in the Old Mill designated by the President of the Conference. Within each envelope shall be only the printed form of the invitations properly filled out and an unsealed envelope with the address of the inviting fraternity upon it. The invitations shall then be delivered by the respective representatives of the different fraternities in conference assembled to the freshmen presenting themselves before said Conference. In a room adjoining the Conference room each freshman shall fill out the blanks, "I accept," or "I do not accept your invitation to membership"; and shall then put each invitation in the envelope addressed to the inviting fraternity and return same to the Conference room.

On the day of pledging, when the invitations are being given out, fraternity men will remain in their houses.

Every invitation shall be in writing, and upon printed forms furnished by the secretary of the Conference; invitations not accepted shall be returned. This does not apply after pledging day.

8. Every pledge shall be valid for a period of seven months unless rescinded by the pledging fraternity.

Any fraternity directly concerned with a person who is pledged at another college, but before being initiated transfers to Vermont, must ratify or disclaim such pledge within ten days after the arrival of said pledgee. The fraternity may ratify or disclaim such pledge by reporting same to the President of the Conference.

9. All pledges shall wear buttons, unless pledging shall be declared irregular by the Faculty Council, they shall be strictly honored by all fraternities. It is herewith expressly ruled that the Faculty Council alone shall have power to declare a pledge irregular or unlawful.

10. Penalties for the infraction of the Rushing Rules will be administered by a Faculty Council, comprised of five members of the faculty who are members of fraternities which do not have chapters here.

In dealing with a violation the Faculty Council shall sit as a court with the offending fraternity as the defendant and the President of the Council (Faculty) as a judge. All the evidence shall be presented to the court by both defending and prosecuting fraternities, and then a decision will be made by the court alone in secret session. A majority vote of the court will convict. The names of persons bringing charges will be withheld.

11. The punishment for infraction of these Rushing Rules shall be the denial of the right to pledge men during the remainder of the school year and prohibition from all interfraternity contests. These shall include all interfraternity athletics and kake walks. In cases of minor infraction the length of the sentence will be determined by the Faculty Council. Subsequent infraction of these rules or evasion of the penalty during the period in which the fraternity is being penalized for infraction of the rules shall be subject to punishment by the University Council. If a fraternity is found guilty by the Faculty Council of infraction of these rules the knowledge of such and the reasons shall be distributed to the freshmen of the next year through the Freshman Handbook and it shall be published in the CYNIC. Any freshman or new student involved in an infraction of the rules may be suspended, *i.e.*, prohibited from accepting a bid from any fraternity even in the conference for a period of not less than half a year or greater than one year from time infraction was committed.

12. Any fraternity found guilty of asking freshmen their preference of rushing dates before the cards are regularly given out will be causing a minor infraction of these rules and the matter shall be dealt with as specified in rule 11.

And now, one word of advice to the freshmen: "Don't take any advice."—*Black and Blue Jay.*

JUNIOR VARSITY DEBATE TRYOUT TO BE TOMORROW

Wednesday afternoon at 4 o'clock in the Old Mill Chapel, the junior varsity debating society will hold its first organization meeting. Freshmen and upperclassmen who are interested in debating frequently are urged to attend this preliminary meeting. Last year numerous junior varsity debates were held before a host of Grange meetings, business club luncheons, etc.

James E. Bigelow '33, R. P. Donaghy '33 and P. J. LaCross '32, captain and manager of the varsity debating team will direct the official organization of the society and will speak about the purpose, function, and benefits to be derived from a sincere participation in the societies' activities.

LARGE NUMBER OUT FOR FALL TRACK PRACTICE

Coach "Archie" Post has a championship cross-country team in the making this year. The call for runners was answered with a large number of candidates, including a wealth of old material and several new prospects. However, there are a great many men in college who should be out for fall track practice, and who should be hardening up muscles which have become softened by summer sports. Preliminary training takes up most of the time now, mingled with slow jogs around the short course. This year's schedule comprises many fine teams and it is necessary to have more men out than there are now to assure a successful season.

Capt. Hugh Varney '32 and ex-Capt. Ev Wilder '32 led the men who are out. Other members of the squad are Grant '32, Meehan '32, Flagg '32, Leach '32, Young '33, Hadley '33, Brooks '33, Millet '33, Riani '32, Woodruff '34, Baldwin '34, Harwood '34, Gardner '33 and Lunn '34. Coach Post would like the following men to stop in the Physical Education office at their earliest convenience in regards to spring track: Phillips, Proctor, Blakely, Brown, Hutchinson, Green, Ken Smith, Morse, Mulcahy, Walters, Wells, Arkin and Wright.

VERMONT TEAMS GAIN CUP AND SECOND PLACE AWARDS AT CAMP DEVENS

Fifteen Men Attend R. O. T. C. Summer Camp in Preparations for Year's Duties

DAVIS, PRIMPAS, WESTIN SHOOT AT CAMP PERRY

While in attendance at Camp Devens R. O. T. C. encampment the rifle and pistol teams representing the University of Vermont unit were awarded a large cup in recognition of their winning second places in both competitions.

Vermont was represented by fifteen men all of whom are cadet officers. The Vermont unit also sent two men to Camp Dix for the signal corps encampment. Three members of the Vermont contingent at Camp Devens also were chosen to attend the National Rifle Matches at Camp Perry, Ohio, later in the summer.

The men attending Camp Devens were: Rogers B. Adams, Samuel B. Barker, Perry E. Bove, Chester K. Bush, Howard V. Davis, Allen O. Eaton, Mason H. Grower, Cedric S. Macutchan, Edwin J. Mercier, Charles L. Park, Daniel K. Parker, Julius S. Perelman, Constantine V. Primpas, Frank J. Varricchione, and Paul E. Westin.

Davis, Primpas and Westin were selected to go to Camp Perry.

The Vermont men at Camp Dix were Elgin V. Kibby and Robert A. Hyde.

Here's a Break, Fellows

We carried over into fall quite a few light in color four piece suits.

Plenty of sizes from 35 to 39.

They sold up to $45.

We know why men smoke PIPES

WOMEN don't smoke pipes. They're not the style for women. But pipes *are* the style for men, and more than that, a pipe and good tobacco gives a man greater smoking pleasure than tobacco in any other form.

A pipe is not for girls

In 42 out of 54 American colleges and universities Edgeworth is the favorite pipe tobacco. Cool slow-burning burleys give this fine tobacco exactly the character that college men like best of all.

A pipe is a real man's smoke

Try a tin of Edgeworth yourself! You can buy Edgeworth wherever good tobacco is sold. Or if you prefer, you can get a special sample packet free: write to Larus & Bro. Co., 105 S. 22d St., Richmond, Va., and ask for it.

EDGEWORTH
SMOKING TOBACCO

Edgeworth is a blend of fine old burleys, with its natural savor enhanced by Edgeworth a distinctive and exclusive elsworth process. Buy Edgeworth anywhere in two forms — Edgeworth Ready-Rubbed and Edgeworth Plug Slice. Also either, the pocket package to the pound humidor tin

Students!
You'll get the Surprise of Your Life
If you stop at any pen counter

You'll find the Parker Duofold Jr. and Lady Duofold at $5 (size 2½% and 6½% greater ink capacity than some pens priced $7 and $8 give). You find these Lucky Duofolds guaranteed for Life at $5, the same as the Senior sizes at $7 and $8. You won't find another with Parker's streamlined pens, jewel-tipped pen gold and unbreakable Lucite barrels. Nor in as many smart, exciting colors. Choose one (or be surprised by both) and see Parker's smart, new Burgundy Red and Black at $5 and $7

Parker Duofold
PEN GUARANTEED FOR LIFE

Sweet running ... this engine in your Lifetime° Pen

The ONLY genuine Lifetime° guarantee is Sheaffer's; do not be deceived! Other pens may be guaranteed against defect, but Sheaffer's Lifetime° is guaranteed against everything excepting loss for your lifetime. Sheaffer's Lifetime° pens from $7; Sheaffer's Lifetime° 14-karat solid gold-band Autograph pens suitable for duplicate of your actual signature (serving for identification) from $12.75. Autograph pencils from $9. Other Sheaffer pens from $3.

JUST touch this point to paper—it's like a self-starter for your thoughts, with the smooth, free power to flash them into words. It takes 26 operations for each Lifetime° point. And it costs three times as much to apply the specially pure iridium Sheaffer's way—in one solid piece, so that no scratchy gold pockets can possibly form on the writing surface.

Back of the point Sheaffer's streamline Balance° chassis conforms itself restfully to your hand—assures relaxed writing ease for your fingers no matter how long the theme. If you like your freedom, you'll choose a Sheaffer and enjoy it always through the White Dot Lifetime° guarantee.

SAFETY SKRIP. SKRIP ... 50c. Carry indestructible Safety Skrip in your pocket or bag to close — protects clothes, linens, furniture ... keeps fluid fresh, making all pens write better

A survey made by a disinterested organization shows Sheaffer first in fountain pen sales in 73 of the 119 leading American colleges having a registration of 1700 or more. Documents on this investigation available to anyone.

SOPHOMORES TO ELECT CLASS OFFICERS TODAY

The first sophomore class meeting for the election of officers will be held in 27 Williams Science Hall at four o'clock this afternoon. Jack Morgan, president of last year's freshman class, will preside.

Next week the freshmen will be given an opportunity to choose their officers for the coming year at a first class meeting which Boulder will later arrange.

Unless some special business arises, the two upper classes will not meet for some time. The first junior meeting, to choose the officers for Junior Week, will probably be early in December.

PROF. BENNETT ISSUES LIST OF MEMBERS FOR GLEE CLUBS AND CHOIR

Musical Organizations Participate in Several Concerts and Contests Throughout Year

Results of the try-outs for the University choir and men's and women's glee clubs were announced Monday by Prof. H. G. Bennett, head of the department of music.

The University choir, limited to approximately thirty men and women, sings once a week for the Wednesday morning chapel service, at the Sunday afternoon service once a month, and rehearses every Tuesday and Friday evening from 7 to 8 p.m. In addition to the regular services the group gives a Christmas and Lenten Easter concert.

The successful candidates for this organization are: Sopranos—Eleanor Eggleston '33, Alice Gay '32, Charlotte Odell '33, Evelyn Perry '35, Velma Purinton '34, Mailla Putnam '32, Dorothy Sweeney '32 and Betty Wallace '33. Altos—Madeline Ansboro '35, Esther Beardsley '33, Rebecca Camp '34, Norma Carder '33, Elizabeth Mandigo '32, Priscilla Perry '33, Elsie Roosa '33, Katherine Skinner '32. Tenors—L. P. Brush '35, D. C. Hazen '32, J. H. Jardine '34, M. B. Jenks, R. S. Jenks M. '35, F. J. Massucco M. '35, S. Pierce, Jr. '34, J. G. Southworth '35, R. H. Westcott, Jr., '35, A. R. Wilcox '35. Basses—H. H. Allen '35, G. H. Burrows, II, '34, N. E. Daigle '34, G. I. Davis '34, A. O. Eaton '32, C. B. Harwood '34, R. F. Holbrook '32, D. W. Jenks '34, L. Lamere '35, G. M. MacKenzie '33, E. B. Rand '31, A. A. Scharbius, Jr., '32, A. Williams '35, R. S. Wright.

The men's glee club, consisting of about fifteen members, competes in the annual contest of the New England Col-

(Continued on page 4)

BIG SISTER MOVEMENT PREVALENT ON CAMPUS

The upperclasswomen who were assigned little sisters among the freshman class have, this fall, carried out the motive of the Big Sister movement, prevalent in practically all colleges, by helping the newcomers to adjust themselves to campus life, by answering questions which necessarily arise in the minds of freshmen, and in showing that spirit of friendliness for which Vermont's students are known.

The rules of the Big Sister Code are:

1. These rules apply to the period beginning at the start of the school year and ending with rushing.

2. Fraternity and non-fraternity women shall unite to make every freshman and new student feel the warm welcome, the friendly helpfulness and the sincere interest which await her at Vermont.

3. No money shall be spent by any fraternity woman or group of fraternity women on any eligible new student, nor shall any eligible new student expend anything on any fraternity woman or group of fraternity women.

4. There shall be no mention of fraternity in any way whatsoever between freshmen or eligible transfers and any fraternity women.

5. No freshman or eligible transfers shall be entertained by a fraternity woman or group of fraternity women or alumnæ or mothers and no fraternity woman shall be entertained by any freshman or eligible transfer or their mothers, said entertainment to be construed as parties, bridge, teas or the like.

6. Every woman student shall feel it her duty and privilege to keep the spirit as well as the letter of these rules.

Intensive Survey Indicates That Vermont Has Too Many Fraternities On Campus Now

Percentage of Members From All Classes is Now 70.4 When It Should Not Be Over 50 Percent Declares National Investigator in Study of Local Situation

FINDS HIGH FRESHMAN MORTALITY ANNUALLY

Vermont has too many fraternities on the campus now since its percentage of members from all the classes is 70.4 when it should not be over 50 percent at the most, is the conclusion of an extensive survey conducted here last spring by Walter M. Walden national secretary-treasurer of the Alpha Chi Rho social fraternity. It is part of a nation-wide survey conducted by his committee.

Mr. Walden, working with Chandler Griggs '32 of Dartmouth interviewed the president of the Interfraternity Conference, the editor-in-chief of the Cynic and prominent campus leaders in an effort to determine the situation existing among the social groups here and to correlate it with enrollment, scholarship, and undergraduate activities. The study of the fraternities was on the social basis only, omitting all honorary and professional organizations. All enrollment statistics were in every case obtained from the University authorities and the results were submitted to them for an opportunity to inspect them and to comment upon them.

The results of the extensive survey indicate that fraternity freshman mortality is very high, being practically 30 percent for the freshman year in the class of 1931. The conclusion is that the fraternities are taking in members from the three upper classes in order to alleviate this condition.

In the senior year, discounting the medical students who have transferred to the College of Medicine, the fraternity class membership takes in almost every man on the campus. Vermont has no place for any more fraternities although a local could go national without disturbing the existing conditions in the least.

Continuing the account of the investigation conducted here, Mr. Walden says: "It is evident that there must have been a concentrated drive for fraternity membership back in 1914-15 when it suddenly reached about 85 percent. The present percentage is not due to undue work on the part of the fraternities but to the decreased enrollment of the male students while the fraternity membership remains constant. Until the enrollment started to decrease, the fraternity membership was only 58 percent. It is apparent that the University or the Interfraternity Council has endeavored to keep the number of organizations in check considering that there have been only four institutions added during the last sixteen years."

In a detailed analysis it is shown that the average membership has remained practically constant since the World War, when Vermont added a large number of enlisted men from among the students. As the classes advance there is an increase in the percentage of fraternity membership. Likewise there has been an increase of 200 percent in the membership of each of the four classes during the past eighteen years while there has been simultaneously the same increase in men in the senior class.

During the war enrollment was curtailed about 25 percent and immediately following this period steadily rose until it reached its peak in 1928 which had the largest number of students of any previous year.

While the number of students from 1913 to 1931 has risen from 361 to 564.

THREE HUNDRED WOMEN ATTEND MORTAR BOARD PICNIC AT NORTH SHORE

Women's Honorary Society Lends Freshman Women Opportunity to Further Acquaintances

JUNIOR CLASS WINS IN STUNTS COMPETITION

One of the most successful picnics ever sponsored by Mortar Board, national honorary society for senior women, was held Tuesday, September 29, at North Shore, in honor of the entering class, with over three hundred present. This picnic, given each year, has for its purpose the further acquaintance with freshmen, for the promotion of which each upperclasswoman was asked to bring her little sister.

Supper, consisting of potato salad, hot dogs, rolls, pickles, cake, apples, pears and coffee, was served at five o'clock. Miss Helen Nichols, dietitian, was in charge.

Group Songs

Several college songs under the leadership of "Charlie" Odell '33 and "Connie" Taft '33 were sung by the group before the real entertainment of the evening began. This was the interclass stunt competition, won by the juniors, with honorable mention given to the freshmen. The judges were Lillian Mount, Margaret Mower, Janet Miller and Mildred Akins, all members of Mortar Board.

The winning stunt, explained by Norma Carder and acted by Esther Beardsley, Leah Gowen, Ethelda Miller, Ara Armstrong, Sylvia Boyd and Priscilla Perry, presented, in several scenes, some of the college activities. The annual fountain fight between sophomores and freshmen was considered to be won by the upper class, when several of them succeeded in ducking one solitary frosh, who "didn't want to go in the water." "Walkin' fo' de Kake," a graceful Lilac Day dance, and an inspired Founder's Day orator were other attractions.

The freshman stunt, presented by Helen Mount, Fanny Hosley, Wilma Hurd, Dorothy Kennedy, Frances Hiscox, and Thelma Frumkin, under the direction of Dorothy Miles, showed the remarkable Dr. Evercure of Burlington, who makes fat people slim, and short people tall.

Virtue Triumphant

Roberta Powers directed the senior stunt, "Virtue Triumphant." Those who took part were Helen LeBaron, Carolyn Beggs, Katherine Rauh, Beatrice Freeman, Sylvia Holden, Alice Gay, Lois Harrington, and Elizabeth Hollis.

A "Tragedy in Ah" was given by the sophomores, with Ella Downe, Daisy Putnam, Gladys Harmon and Jean Kinloch taking part.

Following the awarding of the prize, a mortar board, to the juniors, everyone joined hands and circled the bonfire, to sing more Vermont songs and give more cheers. The picnic closed with the singing of "Champlain."

LE CERCLE LAFAYETTE TO MEET SEMI-MONTHLY

Le Cercle Lafayette, the French Club of the University of Vermont, will continue its usual programs this year. The meetings will be held twice a month, the first meeting being announced in a later issue of the Cynic. All students interested in French are eligible to belong to Le Cercle Lafayette. It is not required that the student be taking a French course to become a member.

The programs will consist of French plays, talks by students, faculty members and special guests. A social hour of refreshments and dancing will follow each meeting.

The officers of Le Cercle Lafayette are: Fraser B. Drew '33, president; Esther Beardsley '33, vice-president; Stanley K. Carter '33, secretary; Lillian Mount '32 treasurer. The patrons and patronesses are: Prof. R. F. Doane, Mrs. P. D. Evans, and Mrs. F. D. Carpenter.

D. E. CHILD TALKS ON MICHAEL FARADAY'S LIFE AT ENGINEERS' MEETING

Profs. Dickinson and Buchanan Discuss Membership in A. I. E. E. At Year's First Conference

Donald F. Child presented a paper on the life, discoveries and inventions of Michael Faraday last Monday afternoon at the first student engineers' conference of 1931-32 held at Williams Science Hall. Professors Dickinson and Buchanan then gave short talks on the value of membership in the American Institute of Electrical Engineers.

Twenty students composed of seniors, juniors and sophomores enrolled in the Engineering College and two members of the engineering faculty were present at the opening session. By attending these conferences the students receive credit for a term's work. After a short period of open discussion the topic of the conference was delivered.

In brief, Mr. Child's talk was as follows: Michael Faraday was born in a suburb of London in 1791, the son of a poor blacksmith. He first served an apprenticeship as a bookbinder, later beginning his scientific work as an assistant to Sir Humphrey Davy in the Royal Institution. Here he spent the remainder of his life as an assistant director and professor. This lifetime of intensive work produced results of enormous value to science. Faraday's most important work was along electrical lines. He caused a current-bearing wire to rotate continuously around a magnet. This is the principle of a motor. He predicted and proved the production of currents by induction. This is the generator and transformer principle. He next set forth the laws of electrolysis and forecast the electromagnetic theory of light. At first Faraday commercialized his work but after he had made a large amount of money he expended all his time and money in research work and died in 1867 a poor man.

Electrical Journals

Professor Dickinson suggested to the students that they subscribe to some electrical journal. "Even though the journals can be found in our library, I suggest that each one of you have one of your own, to read at your convenience," he said. He next explained the value of a U. V. M. branch of the American Institute of Electrical Engineers: "By establishing such a branch you are placing this University on a par with eighty or ninety other engineering colleges throughout the country. The headquarters of the A. I. E. E. is in New York City. He stated that next May there would be a national convention held in Providence, R. I., and that if a branch were started at U. V. M. a delegation to the convention would be sent from here also. Expenses would practically all be borne by headquarters. Student membership in this national society would be the beginning of an association with older engineers who are in a position to help new members in their work. At the convention papers would be submitted and prizes of considerable amounts would be awarded for the best ones. The dues for membership in the U. V. M. branch of the A. I. E. E. are fifty cents per year while student members of the A. I. E. E. itself pay three dollars per year dues.

Program Committee

Professor Buchanan suggested electing a program committee for the planning of the conference programs. The motion met approval and the committee elected consists of Donald Child, Stanley Flagg and George Cross.

These conference meetings are held every other week on Monday afternoons at three o'clock in Williams Science Hall. All students interested in engineering are free to attend.

Instruction in bridge is regularly given at the College of the City of New York.

MOUNTAIN DAY PLANS CRYSTALIZE RAPIDLY

Plans for Mountain Day, October 10 have progressed rapidly under the direction of D. W. Webster '33 following the announcement of the date last Tuesday by the administration. The hike will begin Saturday morning when buses will leave the Old Mill at 7, 7:30, 8 and 8:30 o'clock. Returning they will leave the Half Way House in Underhill at 4, 4:30, 5 and 5:30 in the afternoon. Tickets priced at $1 each including fare both ways are obtainable at the University Store, the Y. C. A. office and from members of the Vermont Christian Association cabinet. Last year's turnout was approximately 200 students and members of the Y. C. A. cabinet have expressed the hope that at least an equal number will decide to go this year.

SURVEY INDICATES TOO MANY FRATERNITIES HERE

(Continued from page 1)

[illegible] 1934 [illegible] 1935 [illegible]

[illegible] This room was formerly occupied by a chemist. He painted a nice [illegible]

Inquisitive Investigator. I suppose those spots on the wall are results of his experiments?

Landlord. Well, indirectly, yes; you see those are the chemist. *Penn State Collegian*

Campus Comment

[illegible] to his interest in [illegible] letes, either just entering college or already in college who are looking around for jobs?

[illegible] department should get a correct list of open jobs before they promise any. [illegible] with the department as much as to give preference to the athletes who [illegible] the difficulty of losing many good men [illegible] of finances will be avoided.

[illegible] no constructive criticism [illegible] letter but I appeal to the Administration, to the V. C. A., to the athletic department and the tradespeople [illegible] to help the college athletic financial help.

CHARLES J. LIBBY '34.

Within the last few days there has been a marked decline in the number of fresh caps bobbing here and there [illegible] campus. The sophomore class [illegible] is going through college pretty [illegible]. It would not be surprising if a lot of these frosh who have gone sophomore [illegible] should be graduated [illegible] about mid-year. Be this [illegible] that the abolishment of the rules [illegible] a complete letdown from the [illegible] old traditions. Or perhaps, in deep [illegible] way, the are ashamed to be [illegible] would know that they are members [illegible] at least one of the largest the [illegible] and it all probably the best [illegible] to come to the college.

[illegible] '35

Are the Tendencies of the Nation to Leave Us Gasping in Their Wake?

It seems that there is a tendency at [illegible] to bare watching. Was that [illegible] that most personal expression [illegible] the house which the editor [illegible] hope ever to execute, should fall [illegible] the ground? Do we the students [illegible] up-to-date necessity wish to be [illegible] Does one not realize [illegible] writing has been received in the last few months throughout the country. If we let these unfortunate circumstances stand unrectified. Let the [illegible] orchestra add new numbers to their records repertoires and keep in step with the times. As for those among us [illegible] who are not capable of overcoming this date in 1,2,3 of our great grandparents, let them be gracious and allow their more fevered brethren [illegible] fifteen or even jam waltzes during the evening of dancing.

CHESTER V. HALE '35.

DEAN PATTERSON GIVES TEA FOR FROSH WOMEN

[illegible] one hundred students and [illegible] members attended the tea given [illegible] of the freshman women by Miss Marion Patterson, dean of women, at Recitation Saturday afternoon, September [illegible] from 4 to 5 p.m. In the receiving line with Dean Patterson was Miss Leona Harris, new assistant dean of women.

BABIES—CLOTHES

Pressing clothes and tending babies, shoveling coal and mending lawns are [illegible] boosted producers of revenue for poor but earnest students. To this [illegible] list has been added in recent years the seemingly popular pastime of giving one's blood. The current rate, I am told, is $50 per pint for liquid of the desired quality and type, and there seems to be no dearth of applicants. Possibly, in this day even Shylock might have found some way of overcoming the little obstacle which prevented him from collecting that honest debt of his.

STUDENTS VOTE

In Mexico, the *McGill Daily* informs us, the students at the National University have a real voice and vote in the University administration. "They help control expenditures, they appoint teachers and they discharge them. In extreme cases the student body turns out in a grand strike to accomplish their purpose."

Soon after the Washington and Jefferson episode referred to above, students of a small New York State High School walked out because the Board of Education was trying to oust their principal. Mexican methods seem to have contagion.

Oberlin has two college bands—one made up of the women students, the other of men.

Being Collegiate

Dunking the Sophomores

[illegible] regard for the best traditions [illegible] have been among us [illegible] between a pleasure and [illegible] by antique precedents.

Character and Intellect

At 9 a.m. today the superior [illegible] and moral character of 200 [illegible] over fifty sophomores was demonstrated conclusively when the former [illegible] known as freshies, or frosh [illegible] immersed or dunked ten [illegible] struggling second-year men in the [illegible] of Learning. The fountain [illegible] on the esplanade to the south of [illegible] gravely domed and imperturbable [illegible] brary.

Hundreds of non-combatant [illegible] and seniors witnessed the edifying [illegible] tacle from the neutral ground of [illegible] Street, which bisects the university [illegible] Broadway eastward to Morning [illegible] Heights. A bevy of fair co-eds [illegible] other colleges of the university [illegible] bia College is exclusively masculine [illegible] observed the brawl of the future statesmen, scientists, etc., until the triumphant freshmen hauled their nude captives [illegible] ward the fountain. The girls broke [illegible] ran.

Oh, Well Played, Sir!

Workmen on the new $4,000,000 Harkness Library, hardy fellows [illegible] blessed by the academic laurel, pondered the privilege of treading [illegible] laved groves of learning, laid down [illegible] picks, halted their steam shovels, [illegible] gave themselves up to unrestrained enjoyment of the scene. They cheered [illegible] rowdily, noting the disappearance [illegible] sweaters, pants and underwear with [illegible] broad and hearty comment.

[illegible] tackles an annual item on [illegible] inaugural program of the school year [illegible] started at 8.45 a.m. when fifty [illegible] mates, picked men, brawny, brave [illegible] enlightened, marched on South Field [illegible] in sweaters and shorts. Athirst for [illegible] that they formed into battle array [illegible] meet the onward thrust of the 200 [illegible] pents of the freshmen, huskiest of the [illegible] newcomers. The freshmen were [illegible] slow to charge.

For Deah Old '35

In a trice, South Field was a welter [illegible] flying fists and boots, of surges, [illegible] pummelings, heaves, shoulderings. [illegible] future scholars of the metropolis shouted, screamed, expostulated and cried out [illegible] sudden pain.

Profound issues rested with the [illegible] come. Were the frosh of this year [illegible] Class of 1935, spiritless dubs or [illegible] there be men fit for crew, team and [illegible] laboureate.

On they fought, slugging, hot-[illegible] locking, lusting. Eyes were [illegible] noses streamed vermilion on [illegible] bruises, welts, abrasions and cuts [illegible] faced the champions as cheers [illegible] the college windows. At length superior numbers told. First one, then the second, then three up to ten sophomores [illegible] marked as at birth, were borne to [illegible] jolly tantam.

"It is the huskiest entering class [illegible] years," a middle-aged spectator [illegible] served with dancing eyes. "It looks [illegible] for the team." *New York World-Telegram.*

Bits of Bunk

The college man who contracted to ride in the lion's cage in a circus parade last spring had his difficulties. He was plainly frightened.

"But," said the canvasman, "all you do is pretend you're not one bit afraid."

"Say fellow," returned the future bank executive, "you let me out of here. Mother taught me to tell the truth."

Rumor has it that Prexy is diminishing in size. At least the following story came forth from his office last week.

The president's secretary had politely shooed an ambitious newsman well out of the waiting room with the words:

"I'm sorry, Sir, but the President cannot be seen."

"Can't be seen," muttered Oscar, "By Mansfield's hoary brow, has he got as small as all that?"

Two Scots presented themselves at the Golden Gate and St. Peter was worried. He searched through his books, but he had no instructions with regard to these two Scotchmen.

He therefore asked them to wait a few minutes while he went to look up their case. When he returned the Scots had gone—so had the Golden Gate!

U. V. M. Men Qualified For Athletic Frat

Phi Beta Kappa of Sports World Open to Male Students Not Scholastically Delinquent

SIGMA DELTA PSI IS ON CAMPUS ONLY ONE YEAR

[illegible] ment of the new students [illegible] sity, the athletic officials [illegible] the organization and [illegible] Sigma Delta Psi, the Na[illegible] Honorary Society.

"Bunny" Prentice Instrumental

[illegible] sistent efforts of "Bunny" [illegible] Delta Psi, commonly [illegible] Beta Kappa in athletics, [illegible] charter on May 12, 1930. [illegible] at this organization is to [illegible] moral physical and men[illegible] and training among col[illegible]s.

[illegible] ctive members of the society [illegible] the president of the Univer[illegible] W. Bailey, H. A. Prentice, [illegible] professor and director of the [illegible] ication department for men, [illegible] other members of the faculty. [illegible] are D. B. Carroll, faculty [illegible] Dr. F. S. Kent, Professor [illegible] Prof. M. H. Aldrich. This [illegible] group also constitutes the Com[illegible] on Certification.

[illegible] resent F. Tupper, Jr., and L. S. [illegible] are its only members. There [illegible] two prospects in the field, J. J. Del[illegible] and S. O. Ricker, both of whom [illegible] passed the swimming test. The [illegible] is handicapped at present [illegible] to the lack of a swimming tank. However, when this is remedied very rapid progress is expected.

All male students in the college are eligible to membership. No candidate, however, shall be admitted to membership who is found by the faculty to be delinquent in scholarship. For admission to full membership a student must pass certain tests in the presence of at least one faculty member or the authorized director of the certification committee.

The Tests

The Sigma Delta Psi tests given are:
100 yard dash, 11⅗ sec.
120 low hurdles, 16 sec.
Running high jump, 5 ft.
Running broad jump, 17 ft.
Shot put. Shot put requirement for men over 160 lbs. is 30 ft. Less than that weight proportion is

160 / ——— = 30
candidate's weight x

Rope climb, 20 ft., 12 sec.
Pole vault, 8 ft. 6 in.
Discus throw, 250 ft.
Javelin throw, 130 ft.
Passing football, 120 ft.
100 yd. swim, 1 min. 45 sec.
Mile run, 6 min.
Tumbling
a. Front hand spring.
b. Hand stand, 10 sec.
c. Fence vault—light at chest—body not touching and free from bar).
Posture, erect.

Tests taken by summer school students are considered official. The director of physical education certifies to the physical fitness of a candidate allowed to attempt any of the tests. A candidate is permitted to attempt only three tests on any one day. A candidate may attempt them in Sigma Delta Psi any time as a student or as an alumnus from the institution.

A student who has won a varsity letter in any sport may substitute this letter for any one requirement in Sigma Delta Psi except swimming. This privilege is limited to the official varsity major sports. In order to recognize intramural sports a substitution will be allowed for the intramural campus championship in basketball, handball, squash, boxing, wrestling or fencing, providing a minimum of twenty-four men are entered. All substitutions can only be handled by H. A. Prentice, director of physical education.

The fee of full membership is $10 which includes the gold insignia key and certificate of membership.

U. V. M. 46th Chapter

The fraternity organization already has forty-five chapters at the present time, Yale being the forty-sixth. In the east it is the third chapter, Yale and Amherst being the other two.

CUT THE TAPE

The "*college*" arrangement at the University of Minnesota is a step in developing the needs of the individual of exceptional ability. There is some cohesion to his work as it is possible for a student to cut the red tape of requirements of the university departments and take a dozen courses in as many colleges in Minnesota.

V. C. A. EMPLOYMENT AGENCY IS HARD HIT BY BUSINESS SLUMP

The present unemployment situation is being felt all the way [illegible] throughout the United States, but the University employment agency is hard put these days to find jobs for over seventy-five applicants who have applied. At present, the Christian Association office, which handles the employment in school has on file over one hundred names of students who would work by the hour. Of these [illegible] about eighteen have been placed.

He don't want to be considered an agency. Mr. M. D. Powers, of the Y office has done all that is possible to secure positions for those who need them. Over 300 letters have been sent to individuals and business concerns. The following is the letter sent:

VERMONT CHRISTIAN ASSOCIATION
of the
UNIVERSITY OF VERMONT
Burlington, Vt.

Telephone 198-W Office Mail Building
Rooming and Employment Department
August 14 1931

Dear Sir

To be brief and to the point, I have a little of your time as possible is my aim. Please read this letter through.

Is there, in your business establishment or in your home, an opportunity for a college boy to earn his board and room, or his board only, or his room only, or to work by the hour for cash?

Already there are on file the names of more than fifty Vermont boys who want to go to college this next year but will not be able to do so unless they can find some means of earning a portion of their expenses. During the next three weeks this list will certainly reach the one hundred mark.

Many of these boys have been to Burlington for an interview and all have filed full information and references. We want the most deserving and needy ones to secure the opportunities for self-help.

Will you please answer the questions at the bottom of this page and return the sheet to this office. This will save you time in that we will not be sending boys to talk with you if you can give them no encouragement and it will save the boys from making "wild goose chases." But *please* use your imagination to the limit and if you can possibly make use of a boy kindly let me know

Very truly yours,
M. D. Powers, *Secretary*.

1. Can you use a boy to earn his room?
2. Can you use a boy to earn his board?
3. Can you use a boy to earn his board and room?
4. Can you use a boy to work by the hour for cash?
5. If any of the above are answered in the affirmative where should the boy call to find you?
6. When should he call?
7. Whom should he ask to see?

Signed

8. If you cannot use a boy at the opening of college (September 15) may we get in touch with you later in the fall?
9. Please give below the name and address of some one who might need the services of a boy. Thanks.

Besides the letters to the business concerns, letters were sent to the Burlington Rotary Club and to the Lions Club, asking for aid for students. The *Burlington Rotascope* in its issue of August 21 had an article which read:

OPPORTUNITY FOR SERVICE

About fifty boys and girls have written to the University of Vermont Employment Bureau stating that they cannot enter college unless they are able to get employment of some kind to help in paying for board and room. If Rotarians or their friends can assist any of these boys and girls they are asked to confer with the University Employment Bureau between 9 and 12 a.m. Phone 198-W. This is a worthy cause along the lines of Rotary Service and should have our earnest consideration. Boys' Work Committee take note.

Aside from aiding unemployment, the "Y" office has placed 150-175 students in rooms.

V. C. A. ANNOUNCES NEW SERIES OF GATHERINGS

As the outcome of a meeting of the members of the Cabinet with several freshman men, held Sunday afternoon, the Vermont Christian Association will start next Sunday afternoon a series of interest meetings for consideration of topics of interest to men and women students.

The gatherings will be informal in nature and refreshments will be served. The place will be announced later in these columns.

At the meeting yesterday detailed plans were laid for the annual Mountain Day, to be held Saturday, October 3. Tickets have been ordered and will be on sale at the office of the Vermont Christian Association, as well as at the University Book Store. Members of both the men's and women's cabinets will also distribute the tickets, which will include transportation charges to and from Mount Mansfield and hot coffee which will be served at the hotel.

WOMAN'S STUDENT UNION NAMES DORMITORY HEADS FOR COMING SEMESTERS

Campus Leaders Receive Responsible Positions Among Women at Vermont

At [illegible] elected as [illegible] of the Women's Student Union, the [illegible] met yesterday [illegible] to [illegible] action [illegible] At Redstone [illegible] Hall the house president is Esther [illegible] '32 house committee Helena Appell '33 Daisy Putnam '34, Marie McGuire '3 fire captain, Mabel Farquar '34.

At Redstone, Elizabeth Moshe [illegible] house president aided by a house committee [illegible] Beulah Marshall '33, Elvira Farman '34 [illegible] '35; fire captain Selma [illegible] '33.

[illegible] Howard '32 [illegible] of Slade Hall. The house committee [illegible] Margaret Crane '33 Betty Baker '33, Edith Tarleton '34 Dorothy Strowbridge '35; fire captain Priscilla Perry '33.

[illegible] house president at Converse is Rose Hockey '32 with a house committee of Ruth Cass '32 Eleanor Hulett '33 Ruth Reynolds '34, Marian McKee '35, and fire captain, Mary Kiley '32.

At Campus House, Emily Maslen '32 is house president. On the house committee are Sylvia Holden '32, Elsie Roosa '33, Alice Hoyt '34, Dorothy Miles '35 Doris Humphreys '33, fire captain.

Helen Esielionis '32 is house president at Alpha Chi Omega House. Gladys La Flamme '33, Ethel Bishop '33, Pearl Jennings '32, Marie Maddocks '32, compose the house committee; Katherine Woodward is fire captain.

At Allen House, Edna Herridon '32 is house president; Winifred Graham '32 Dorine Lee '33, Emiline Perrault '34 Elizabeth Beckvold '35, are on the house committee; Eleanor Saxie '35 is fire captain.

Florice Murch '32 is house president at Rand Hall; Gwen Schaefer '32, Helen Hyde '34, Jean Cady '35, house committee; Edith Place '32, fire captain.

Co-ed Notes

Miss Ella Cummings has charge of the physical examinations this year; medical examinations are under the direction of Dr. Estelle Foote of Middlebury.

Miss Alice Blanchard is, again, supervisor of sports.

Miss Annis Baldwin is coaching intermediate and advanced classes in tennis and is directing the student tennis coaches.

Mrs. Florence Hard is coaching the two-year teacher training students in soccer (a course of four lessons) for use in graded schools.

Horseback riding is going to be a popular sport this fall. More girls have signed up for it than in previous years.

FRIENDSHIP

The unofficial ambassadors of more than one hundred countries are studying in our colleges this year. According to figures recently published by the Committee on Friendly Relations Among Foreign Students, we have a total of 10,478 guest students in this year of depression. This is an increase of almost half a thousand over last year. Canada, China, and Japan have sent more representatives than any others. The majority of the men are taking up engineering, commerce, and political science; most of the women are studying the arts and sciences. New York, California, Illinois, and Massachusetts have more than the other states, but they are scattered over the entire nation.

CLOGGING

The Equinox Orchestra and five Princeton undergraduates recently furnished a musical, clogging, and specialty program for the inmates of the New Jersey State Home for Boys, at Jamesburg. This may develop into a series of monthly entertainments.

Recent Dilalect changes hereabouts remind us of the stout Jewish gentleman who eased himself into the presence of the dean of men in a certain college not so long ago to make the request that his son at present a student at that institution be cured of seemingly hopeless Jewish accent.

The dean assured the visitor that everything would turn out for the best; that the accent would be removed, even at the expense of his personal labor, saying, "I'll attend to the matter myself."

Two months later the ancient Jew returned to learn the result of his mission.

"Well," he murmured apologetically, huss my poy gettink along?"

The dean swung round cordially and waved a deprecatory hand. "Dun't esk," he said, "the poy speeks Anglish polfect."

There Is Music In Those Hills Says Editor of Ballad Volumee

There is music in those hills was not an assertion made by Prof. Arthur Wallace Peach scholar and writer of Norwich University, two years ago when there was some talk of investigating the subject at Vermont folk songs. But no believer Professor Peach has ever heard of Vermont folk-songs and ballads. No one knew that in the state there existed a great wealth of material in these old songs, no one, that is except the old people who had heard them sung as children and now [illegible] Many months have been spent in research and now the amazing result is known in the new book, "Vermont Folk Songs and Ballads," one of the Green Mountain series to be published the first of June by the Stephen Daye Press and [illegible] by the Vermont Commission on Country Life and Dean Hazelton Professor Peach.

What are the folk-songs? This question has been asked by many who perhaps have sung these very songs with [illegible] that have been sung from father to daughter and perhaps [illegible] from mother to daughter and perhaps [illegible] but never realized the [illegible] of many folk-songs in Vermont.

They [illegible] in the memories [illegible] no one knows. Words and tunes have come down through the generations. They are not written songs, composed by one person but in the real meaning of the word they are songs which started from the people, the folk, and were kept alive by the people, the farmers, the workers, the everyday folk, not the musicians. In fact the musicians seemed to know very little about folk-songs in Vermont. Folk songs are really of the people, for the people and by the people.

Whence Came Folk Songs

Have you ever sung an old song you heard from someone else? Ask this person and he will tell you he heard it too from someone else. Folk-songs are hard to trace. Since the first gallant adventurers appeared in what is now Vermont these old songs and ditties, some funny, some sad, have been sung around the camp fires, in the fields, before the fireplaces; by people at work and at play. Some of them originated in Vermont, some go back to the days of Queen Elizabeth in England. Such songs were sung in the lumber camps, by farmers in the fields, by merrymakers on festive days by mothers to their children, by soldiers on the march. Some of them are exciting songs, some are deadly [illegible] some are very amusing, some are pathetic, some are [illegible] stories in verse form.

How these songs were collected for this book is an interesting story in itself. The editors, Mrs Flanders and George Brown, spent many months going from community to community interviewing many people who remembered old songs. Mrs Flanders would copy down the words as they were sung and Mr Brown, an expert musician, would write down the music. Many Vermonters have been contributed to this new book, among them, Josiah Kennison, Townsend, F. C. Beers, Springfield; Mrs. Ella Colburn Mattison, Windsor, Mrs E W Wrenn Westminster; Mrs Anna Dole, Danville, George Howe, Grafton; Paul [illegible] Manchester, Leon Peckham Bellows Falls, Mrs H R Farmer, Rutland, Mrs. Nellie Richardson, Springfield; Mr John Stuart, Dorset; Mrs George Tatro, Springfield, Mrs Fannie Hawkins, Windsor, Fred Ballard, Jamaica, Mr Almon Robinson, West Wardsboro, Ida B Morgan, Jeffersonville, Mrs. Ralph Harrington, Bennington; Mrs Josepha Cobb, London derry, Mr H L Twitchell, Shaftsbury, Mr Budd D Hawkins, Reading; Mrs. Chan Pierce, East Calais, Mr A J Harding, Lowell; Mrs Walter Coates, North Montpelier, Mrs. Dorothy Canfield Fisher, Arlington, Lucinda Wheeler, Whittingham.

125 Songs—65 Tunes

In this book, "Vermont Folk-songs and Ballads," are some 125 songs and accompanying them are about 65 tunes or bars of music showing you how to sing the songs. In tapping the source material widespread interest has been started. Everybody who hears about this interesting work wants to help and hundreds of people have written the editors and are still writing them, sending in songs and ballads that they recall. The best of this collected material will appear in the fourth volume of the Green Mountain Series. In no other state, and this work of research has been going on in other states, has the response been so instantaneous and so gratifying. Vermont now leads the other states in the great number discovered in the shortest time of the so-called Child Ballads, (ballads attributed to Child, an early investigator who traced their sources) for the research has not been going on half as long in Vermont as it has elsewhere. The editors and members of the committee are confident that they have uncovered a new phase in Vermont life in these wonderful old songs, a phase which can be studied and enjoyed in this new volume of the Green Mountain Series.

These all Vermont books are a result of the enthusiastic and unselfish work of the committee on Vermont Traditions and Ideals headed by Prof. Arthur Wallace Peach of Norwich University and composed of some of Vermont's leading authors. This distinguished group of public-spirited men and women worked for many months doing research for and arranging the four volumes of the Green Mountain Series. These books will, they hope, serve as interesting byways from Vermont's past into Vermont's present. They throw definite light as reflected from verse, prose, folk-lore and the lives of notable Vermonters, on the attitudes of mind and heart, faiths, beliefs and loyalties that woven together through the years, have formed those traditional characteristics so generally associated with Vermont and its people.

The other three of the Series are: "Vermonters: A Book of Biographies" edited by Walter Crockett (Vermont's foremost historian); "Vermont Prose: A Miscellany," edited by Arthur Wallace Peach (Vermont's foremost literary historian) and Harold Rugg (Librarian at Dartmouth and Vermontiana Authority); "Vermont Verse: An Anthology," edited by Walter John Coates (editor of *Driftwind*) and Frederick Tupper (professor of English in University of Vermont).

MAILLA PUTNAM, W. M. LOUDON WIN AUDITION

Miss Mailla Putnam and Wm M. Loudon won the women's and men's audition in the local competition for the right to enter the state audition of the Atwater Kent radio last Friday night at the Athena Club. These young people will represent Burlington in the state audition to be held in October and to be broadcast over the radio. Miss Putnam's selection was "El Broccio" by Nodetti, while Loudon sang the baritone aria from "In a Persian Garden" by Lehmann. The judges were Mrs. Lucille Jenks, Mrs. Mavette Marston and William P. Walker.

The winners of the state audition will compete in one of the five district contests. The district winners will divide prizes totaling $25,000. The grand prize for the best man and woman singers in the United States between the ages of eighteen and twenty-five is $5,000 and two years' instruction in a leading musical school. The local contest has been under the direction of Mrs. E. G. Wilson of 74 Clarke Street.

S. A. X.

An avalanche of soap rained down upon the home of the Dean of Mateo Junior College (California) one Sunday night. A note attached to one of the cakes threatened a wholesale strike should Fred West, student body president and leader of the uprising, be expelled by the faculty. The note described Freddie as the only boy on the campus with "it" and was signed, "Ten Co-eds."

The Stanford student organ takes the occasion of this incident to criticize the junior college movement as a hybrid misfit. It closes with the warning that "the time has come for junior colleges to clean house."

We wonder what happened to Freddie.

Librarian: Please don't put [illegible] on the desk while studying.
Freshman: Oh, I'm sorry. [illegible]

EXTENSION SERVICE WILL GIVE CANNING CIRCULAR

a canning circular has been issued by Extension Service of the University of Vermont and State Agricultural College. The bulletin, dealing with fruits and vegetables, has 32 pages and was prepared by Vermont extension workers. Copies may be obtained free of charge by addressing a request to Extension Service, Morrill Hall, Burlington. The order number is Circular No. 44.

Miss Anderson says "With the growing season for fruits and vegetables as short as it is in Vermont, housewives who do not have easy access to the green markets find that they can provide more interesting and healthful diet by canning and storing a variety of the foods."

The circular discusses what proves a well-balanced vegetable and fruit garden for a family and what to plant and when to order the program to be carried out. Other points treated in the circular are food spoilage, equipment, methods of canning, steps in canning, blanching, packing, processing. The canning of different kinds of vegetables is discussed, as is the canning of different kinds of fruit, and also different kinds of meats.

Claribel Morris '34 has recently been elected chairman of the publicity committee of the Y. W. C. A. for the ensuing year.

Y. W. C. A. will cooperate with Y. C. A. in managing the frosh mixer and Mountain Day programs.

TENNIS TOURNAMENT TO SWING INTO ACTION IN FIRST ROUND MATCHES

Tupper, Woodward, Wilson, Myers Lead Seeding as Fifty-six Entries Come Out

GOLF TOURNEY BEGINS WED. AT WAUBANAKEE

With the courts entirely rejuvenated, the tennis tournament for the singles championship of the University of Vermont is now in full swing. Those who are paired in the first round should make sure their matches are played off by October 8, weather permitting. Entrants should not fail to pay the entrance fee to either Intermural Manager Fleury or Archie Post. This year's field makes up a record field of fifty-six entries, which is the largest field ever assembled in the history of tennis tournaments in the college. The tournaments were started back in the eighties when the game was not as popular as it is today. Nevertheless, despite the lack of interest a doubles tournament as well as a singles tournament was held.

Tupper, Woodward, Wilson and Myers have been seeded numbers one,

THE FORUM

672 Planes

Tuesday afternoon 672 airplanes of the United States army will parade over Boston. next week 672 planes will flaunt the strength of the United States air forces to hundreds of thousands of spectators, while maneuvers prove that any city can be captured or heavily damaged by raids from above.

One of the grandest spectacles ever witnessed is to take place in the air; papers will round out a week of sweeping headlines, as the etheral swarm completes its tour of the middle and eastern United States. Few can realize the tremendous details of organization; even less will consider that this grand stunt is costing millions of the taxpayers' dollars, in a time of greatest depression.

Peace societies the country over have justly protested the whole affair; it is defended only for being an important military experiment. Yet even the military need of such maneuvers can be questioned, when similar but smaller attacks at Hartford, London, and continental cities have convincingly proved that there is no adequate defense against attack from above. Aside from that, the psychology of the demonstration can have only the worst effects. Such shows of militarism are among the greatest existent creators of false patriotism and war-mindedness; in a few months, years of tedious labor by conferences and Leagues of Nations can be nullified. Never will there be a "war to end war," while nations devote their hours of peace to planning and exhibiting newer and more potent instruments of death.—*Harvard Crimson.*

How About a Church

Princeton and the University of California at Los Angeles have made experiments with student churches. And lately, students of Oklahoma A. and M have made persistent efforts to establish a student church. "Critics noted for their ill opinion of college youth should be softened by such demonstrations," says the Oklahoma editor. The proposed A. and M. church would be devoid of dogma or creed and would provide a channel through which the student could express his views. The fact that the project is meeting with bitter verbal attacks from the local ministerial alliance seems to be spurring on the leaders.

The Old One

A questionnaire recently distributed to students in an ethics class at Theil College read like this. "Suppose you were in a party of eight crossing the desert when it was found that due to lack of water only three could be allowed to live. What three would you save, if the group included two guides, a wife, a husband, their son, two scientists, one who was your friend?" 36 members of the class would have the friend, 23 would let the son live; 7 in the class would save themselves first; and none would allow the live to live.

KITTENS SHOW TERRIFIC ATTACK IN SCRIMMAGE AGAINST VARSITY TEAM

Freshman Team Displays Shifty Backfield and Sturdy Line in Play

COOK, CARACCIOLA STAR WITH LANIHAN AND MORI

...row. Slam! And the Kitten line get... through the varsity line for another gain. Last Tuesday's scrimmage showed neither one nor that the freshman team was exceptionally good or that the varsity was very poor. However, if the freshmen become overwhelmed with their power, and become peppered with touchdowns from a peppy St. Michael's Jayvee team, they will be in a fighting trim to take on and defeat any team during the coming season.

Coach Burke has demonstrated his ability to make a powerful team. The frosh team with its light and shifty backfield should be able to spring a surprise on any team. No definite line has been planned for tomorrow's game. For ends, Schmarr, former V. A. man, and Nevulus also from V. A. have shown up very well. "Red" Cook of Cushing and "Scratch" Caracciola of Hartford High School are right in the fight for the positions of right and left tackles. Holly and DeBellis, more Vermont Academy men, are pretty certain of their positions at guard. Hamilton from Cooper Union is in a very fair way to make first string center on the team. In the backfield Lanihan, Kingsland, Reynolds, Mori, and Guarch will play a big part in the success of the team.

LOIS HARRINGTON NAMED CAMPUS TENNIS MANAGER

At the W. A. A. Council meeting held Monday, September 28 Lois Harrington '32 was elected campus manager of tennis. Ara Armstrong '33 campus manager of hockey and Mildred Aikens '32 campus manager of volley ball.

WAITING

College is just one long wait.

From the time the collegian enrolls until the day of his graduation he has put in more hours of concentrated waiting than fifty elderly spinsters. He waits so much that by the time he does graduate, he will wait some more for someone to offer him a job.

This deplorable condition, however, is not entirely the student's fault. For four years he is subjected to red tape, red tape, and more red tape.

Enrolling, for instance, is an endless process until the later years of college life, and by the time that stage is reached it takes more time to look for pipe courses.

Then, suppose the Dean calls on us. You have to wait long fantastic hours before you get into the sanctum sanctorum. Suppose you go to the campus hangout for a coke. You must wait for a place to sit down.

But to draw a more lurid picture, suppose you get a date. It is there that you put in some good licks at the time old art of waiting. In the long hours of discussing the weather with the landlady, the energetic swain becomes an inert mass of lifeless clay by the time his date finally arrives.

And the sad part about all of this is that we still wait, and wait, and wait.—*Daily Kansan.*

Winning Cats To Encounter St. Johns Line

Tomorrow Will See Vermont Gridsters Up Against Formidable Aggregation

STARTING ELEVEN OF UNION GAME STARTS

With the 7-0 victory over Union last Saturday as a starter, Coach Dunn is giving his charges plenty of hard work in preparation for the St. John's tilt scheduled tomorrow afternoon on Dexter Field in Brooklyn.

From all indications the Green and Gold will have their hands full, as St. John's is represented by a veteran team this year.

With a line-up including several of the stars from last year's eleven which dropped only one game, and that to the strong St. Thomas College team, the Indians impressively opened their season with a 22-0 victory over Long Island University last Friday at Dexter Field.

From all reports, the victors presented a powerful attack built around Capt. Albert Pace at right halfback, Reinhardt at fullback, Neary, right end, with Shepard at quarter.

Although the Indians scored all their points in the second quarter, the losers were constantly being threatened by the powerful St. John's attack.

Just how the Green and Gold will line up is uncertain but it is expected that the starting eleven will include the same men as that which took the field against Union.

Probable starting line-ups:

Vermont		St. John's
Delfausse	l.e.	Neary
Bowers	l.t.	Moloney
Powell	l.g.	Mazzola
Davis	c.	Halleran
Farmer	r.g.	Karukas
Morgan	r.t.	Dalfalco
Wood	r.e.	Gallo
Saba	q.b.	Shappard
Winant (Capt.)	l.h.	Stephens
Reguano	r.h.	Pace (Capt.)
Manning	f.b.	Reinhardt

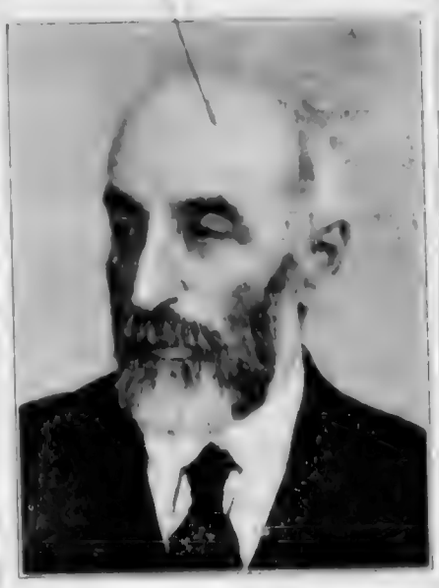
VOLUME 50 — BURLINGTON, VERMONT, TUESDAY, OCTOBER 6, 1931 — NUMBER 5

Swift Becomes Dean of Arts and Sciences College

SUCCEEDS G. H. PERKINS WHO RETIRES AFTER 33 YEARS IN THAT OFFICE

Swift Has Been Acting Dean for Nine Years and Head of Mathematics Department Since 1914

WAS GRADUATED FROM HARVARD COLLEGE, 1903



New Dean Has Traveled Extensively, Serving on Princeton Faculty and Receiving Advanced Degrees From Gottingen, Germany

After seventeen years as head of the department of mathematics, and during the past nine years acting dean of the College of Arts and Sciences, Elijah Swift was elected last week to the office of dean by the University Council. He succeeds Dr. George H. Perkins who resigned after serving in that capacity for thirty-three years and being on the faculty of the University for more than sixty years.

Dean Swift is a native of Buffalo, where he was born October 23, 1882. He prepared for college at Heathcote School, Buffalo, after attending high school in Massachusetts. He received his degree of Bachelor of Arts from Harvard in 1903, his Master of Arts degree from the same institution in 1904, and degrees of Master of Arts and Doctor of Philosophy three years later from Gottingen University, Germany.

Professor Swift was an instructor in mathematics at Princeton, 1907 to 1909 inclusive, assistant professor there 1909 to 1914 and came in that year to this University as Williams professor of mathematics. He has traveled abroad extensively, visiting Italy, France, Switzerland, Germany and England in 1895, and the same countries in 1901. Several other countries were toured from 1904 to 1907.

Dean Swift's duties will be the same as under the capacity of acting dean.

George H. Perkins, Ph.D., Litt.D., LL.D., who retires from the office of Dean of the College of Arts and Sciences which he has held for the past thirty-three years.

FRATERNITIES TO START DRIVE FOR MEMBERS ON WEDNESDAY, OCTOBER 7

Under the provisions of the [illegible] arrangement the men will be asked [illegible] the houses after being entertained for one hour.

On Thursday, October 22, following the [illegible] of the open house nights, freshmen [illegible] assemble at four o'clock in the Old

(Continued on page 6)

RHODES SCHOLARSHIPS TO BE AWARDED SOON

The 1931 state elections for Rhodes Scholarships will be held December 5 and district committees will meet to pick candidates a few days later. Students at the University of Vermont seeking the scholarship should file a notice of application with President Guy W. Bailey, not later than October 7 as colleges and universities will select their candidates before October 10. Rhodes Scholars elected in December, 1931, will enter residence in October, 1932.

$2,000 Given

The award of a Rhodes Scholar is [illegible] $2000 a year and no restriction [illegible] upon his choice of studies. A candidate to be eligible for a scholarship must be a male citizen of the United States and unmarried; b, be between [illegible] and twenty-five; c, have completed at least his sophomore year in college.

Candidates may apply either in the state where he resides or in the one in which he received at least two years of college education.

The following qualities will be considered in making the selection:

[illegible] and scholastic ability and [illegible]

[illegible] of manhood, truth, courage, devotion to duty, sympathy, kindliness, unselfishness, and fellowship.

[illegible] of moral force of character and instincts to lead and to take [illegible] his schoolmates.

[illegible] physical vigor as shown by interest in athletic sports or in other ways.

U. S. Competition

There will be a competition for the Rhodes scholarships this year in every state in the union; the forty-eight states [illegible] divided into eight districts of six states each. The state committees will be allowed to nominate two men to appear before the district committee; district committees will select from the twelve candidates appearing before them the best [illegible] to represent their states at Oxford. Application blanks may also be obtained from Hon. John H. Sherman, Randolph

REPORTING POSITIONS NOW OPEN ON CYNIC

Positions for men and women reporters on the staff of the Cynic are now open to members of the freshman class who are interested in news writing. Aspirants to such positions should meet with the editor-in-chief at four o'clock Tuesday afternoon in 1 North College. Freshman women will meet with the women's editor at the same time in 3 North College.

After a period of writing the candidates will be given positions on the board as reporters on the competitive basis, and according to their writing ability and interest in journalism. The Cynic offers excellent opportunity for experience in elementary newspaper work for those who will faithfully try out for it. It has nothing to offer to mere seekers of office.

WOMEN'S STUDENT UNION HAS SUCCESSFUL MEET

University Gymnasium Scene of Annual Gathering for Enlightenment of Freshman Women

Women's Student Union Mass meeting held in the University Gymnasium Friday night, October 2, which featured short talks by outstanding upperclasswomen and faculty members for the enlightenment of the freshman women, group singing and social dancing, had an attendance of over three hundred and fifty, which was much larger than in previous years.

Following the freshman roll call conducted by Charlotte Odell '33, Lillian Mount '32, presiding, stressed the importance of the student government rules reading, "Any student who intends to leave town or the house in which she lives over night must register with the House director who shall file the card with the Dean of Women. These permissions are limited to four a month in the city."

"Any student planning to be out of town during the day for a period of five hours or more should register her arrangements on a card provided for this purpose to enable information to be given to possible out-of-town callers."

Agnes Parsons '32 was given a rising welcome as newly elected chief justice of Student Union.

Following Miss Alice Blanchard's talk on fraternities, in which she stressed to the freshman women the importance of going out for activities in order to meet as many students as possible, and of working for good grades since eligibility to fraternities depends upon a 75 percent average and upon a satisfactory adjustment to college life, the following upperclasswomen spoke briefly on the nature of the campus organizations: Helen LeBaron '32, *Winnowings from the Mill*, Bluestockings, Tri-State Literary Contest; Beatrice Parkhill '32, Press Club, Dramatic Club, Masque and Sandal; Katrina Munn '32, Glee Club, Orchestra, Choir; Roberta Powers '32, *Ariel*, Debating; Elisabeth Mandigo '32, The French Club, Eta Sigma Phi; Sylvia Boyd '33, Mountain Day; and Katherine Rauh '32, Class Spirit.

Agnes Parsons '32 urged the students to observe the following rules which are to be strictly enforced this year. All women students must be chaperoned when automobiling after 8 o'clock except going to or returning from some place within the city limits, for which registration has been made. College women shall not smoke in college buildings or houses serving for residences of college women, or in public places. Undergraduate women of the University are not to appear at a fraternity house, men's club house or dance without an approved chaperone present at said function.

Group singing of college songs directed by Charlotte Odell '33, followed by social dancing until 10 o'clock concluded the evening's program.

Writers of college texts should take pity on students during this depression and refrain from writing new texts and from rewriting old ones in order that students might take advantage of the availability of second-hand texts.

Noted Speaker Will Lecture Here Tonight

A. G. Alley to Discuss "America's Position Among the Nations" at New Museum

GIFFORD LAUDS SPEAKER IN CYNIC INTERVIEW

"The League of Nations is sending a man regarded by [illegible] as one of the most eloquent lecturers and also one of the best informed speakers on the problems in the international field," declared Professor Gifford in speaking about tonight's lecturer, Prof. A. G. Alley of Dana College. "America's Present Position Among Nations" is the topic of Professor Alley who will speak at the new auditorium of the Robert Fleming Museum at 8 o'clock tonight, in the first of a series of lectures sponsored by the University of Vermont.

"Further," stated Professor Gifford, chairman of the University Lecture Committee, "Mr. Alley is professor of history at Dana College New Jersey, and has travelled extensively throughout the European countries. He has had opportunity to confer with judges of the World Court and leading statesmen at international assemblies. Professor Allen, who has spent the last ten summers in Europe, is just returning this week and, coming directly to Burlington, will bring impressions of the league affairs which are right up to the very minute."

The League of Nations Association of New York City is sponsoring this lecture, which is the first of the annual University series. Collaborating with the League Association in presenting Professor Alley are the local branch of the League of Nations and the International Relations Club. The lecture is to be free of charge, with faculty, students, and townspeople invited to attend.

"It is hoped," said Professor Gifford, "that the League will be able to fill out a four day tour for Professor Alley in Vermont, and it is expected that he will speak October 8 at Rutland. However, during his stay at the University, he will be entertained by Prof. E. C. Mower, professor of Political Science at Vermont."

Professor Alley is a native of Massachusetts, he was educated in the public schools, and received from Harvard College degrees of A.B. and A.M. and has for years been a teacher as well as a student of international affairs.

The lecturer has also travelled extensively in Europe before the World War, and in 1918-19 he served as lieutenant in the United States Infantry. Since then Mr. Alley has made many trips and has visited practically all parts of western and central Europe, and has at first hand all important internationally known problems and affairs. He has made a wide study of the sessions of the World Court, besides conferring personally with the judges and league leaders.

DEWEY CLUB SCHEDULES MEETINGS FOR 1931-32

Eight meetings during the present college year were scheduled by the executive board of the John Dewey honorary philosophy and psychology club which met last Thursday afternoon. The first open meeting will be held Tuesday evening, October 27, at a place to be announced at a later date.

Membership in the organization which meets once each month is open by invitation to those students who have received a grade of A or B in at least one semester of a psychology or philosophy course. Failing to satisfy this requirement, a thesis based upon original research or experimental work may be submitted for the approval of the society. All meetings of the society are open to the general public except those at which new members are admitted, officers elected or constitutional changes affected.

The officers of the John Dewey Club are, president, J. C. Carter '32; vice-president, Clara M. Kellogg '32; secretary, Pearl Jennings '32; and treasurer, S. N. Spiller '33. The other members of the executive committee which also includes the four officers are: P. J. LaCrosse '32, chairman; Esther Beardsley '33; C. K. Bush '32; and Norma Carder '33.

MARY MCCLURE SPEAKS ON CUSTOMS OF CHINA

Missionary to Orient Gives Informal Talk Under Auspices of Y. W. C. A.

Miss Mary McClure, missionary from China, who under the auspices of the Y. W. C. A. gave an informal talk last Wednesday afternoon, September 30, in the Old Mill Chapel on "China and her Customs," left with her audience a clear conception of the Chinese people and their problems. Her lecture was illustrated by water color pictures painted on silk over four hundred years old.

Superstitions

Miss McClure told of some of the interesting Chinese superstitions. The Fenchon Walls in the Shanci Province in North China she explained are from forty to sixty feet high, very narrow at the top like a paved street and about three miles long. There are four gates with a temple over each gate to keep the evil spirits out. Streets are also crooked to foil the spirits. The tale of the birth of the dragon informs us that some fish succeeded in going over the falls up the river and were changed into dragons; thus the dragon, because of his courage and bravery, is a symbol of achievement of scholarship, and of honor to the Chinese.

When Miss McClure first arrived in China there were no schools in the villages. The boys memorized books full of characters, but there was no education for the girls. In a search for girls to send to a school in Fenchon, one slave girl was sent with new clothes, a toothbrush and $100. This $100 was sufficient to enable the girl to have eight years of education, making her the outstanding girl in her class.

No Mountain Doctors

No doctors were found in the mountainous sections. A young boy working in Miss McClure's office went to college and decided to practice medicine in the mountain sections for the rest of his life.

10,000 Flies for Pencil

The lecturer said she spent five years in the Women's Bible Training School, an institution for young married women who had never received any education, where most work is done on hygienic lines. A fly-swatting campaign was one of the projects. This taught the women that common flies are a disease-promoting menace. A pencil was offered as a prize to anyone who would kill ten thousand flies during the summer and bring them back to school. The next fall flies were brought to the school in bushel baskets.

Traveling is done in China chiefly by donkeys and mule carts. There is one main highway for auto travel. The Chinese homes were aptly described by the speaker. One interesting feature was the sleeping arrangement, which resembles somewhat our camp bunk, being broader and longer. The whole family sleep, on this shelf-like place, rolled up in individual blankets.

The Y. W. C. A. hopes that the University students will take a broader interest in the special lectures and will show their appreciation by availing themselves of the opportunity to attend.

SCENIC BEAUTIES WILL GREET MOUNTAINEERS

When the students of the University of Vermont climb Mount Mansfield, Saturday, they will be observing an occasion which has always been popular with lovers of the beauties of nature. Last year over two hundred men and women enthusiastic hikers made the ascent either by hitch-hiking or by taking cars or busses.

This year Mountain Day has been decreed by the University Council administration committee governing body for the benefit of those students who wish to learn of the back campus at the University of Vermont. Plans under the direction of David W. Webster '33 have gone forward rapidly since Mountain Day was placed officially on the social calendar a week ago. Tickets are being sold by members of both the men's and women's Christian Association cabinets and through the medium of the College Book Store and the office of the Vermont Christian Association.

Busses furnished by the Vermont Rapid Transit Company will leave the Old Mill at 7, 7:30, 8 and 8:30 o'clock Saturday morning and tickets are $1 each, including fare both ways. There will be four busses leaving the Half Way House on Underhill, Saturday afternoon at 4, 4:30, 5 and 5:30 o'clock for Burlington.

Those making the trip in busses will hike by means of map directions from the Half Way House up the mountain by either the old Half Way House trail or by means of the Sunset Ridge trail. Coffee will be served free at both the Mansfield Hotel and at Taft Lodge by members of the Christian Association cabinets.

Points of scenic interest on the mountain include the Nose, Cave of the Winds, Wall Street, Chin, Lake of the Clouds, Bear Pond, and other points. From the Chin, which is 4,393 feet above sea level, may be seen Mt. Marcy in the Adirondacks, Mt. Washington in the White Mountains, Mt. Royal in Montreal, Camel's Hump and Jay's Peak in the Green Mountains, and Lake Champlain.

Catamount Gridsters Bow To St. John's Aggregation

Brooklyn Team Outclasses Opponents 38-7 After Leading 19 Points in First Half—Green and Gold Evinces Weakness in Tackling

VERMONT USES EVERY MAN IN VAIN EFFORT

A nicely balanced, aggressive St. John's college eleven kept going at top speed Saturday and ran off with a 38 to 7 victory over a plucky, outclassed Catamount eleven. Neither the heat nor the Vermont defence had much effect on the Red men's passing game.

The Brooklyn team managed those touchdowns in the second period, one in the third and two more in the fourth.

The Vermont boys evidently felt the heat more than the Red team for after a stubborn first period, in which they protected their goal line stoutly, they went to pieces. The Catamount defence faltered after this first period, and offensively the team never showed much outside of a few passes, one of which was nullified after a gain of some thirty yards when Saba fumbled. The Red team opened the second half with a 19 to 0 lead and went to work piling up another nineteen points.

Toward the end of the game, Bove, sub-quarter for Vermont, galloped 55 yards in two plays to St. John's 7-yard line.

Three attempts at the line proved fruitless, and thirty seconds before the end of the game Saba plunged through for the lone touchdown.

Vermont showed clear weakness in the tackle positions, for time after time Red men would break through to stop the Catamount line offence in its tracks, and defensively; the Catamount tackles were swept away allowing big holes for the St. John's backfield to walk through.

Powell, Press, Farmer, and Bowers protected the center of the line well. Every Vermont man was used in the game.

JUNIOR WEEK OFFICIALS TO BE ELECTED IN DEC.

The chairman and financial manager of Junior Week will be elected at a junior class meeting to be called sometime during the first week in December.

Junior Week, an annual social event occurring in mid-May, is one of the events standing out in the college year. It includes the Junior Prom, the Junior Play, inter-fraternity dances, and the renowned Junior Week Peerade.

COLLEGE HUMOR

Walking into the sumptuous fraternity house, the auctioneer's son looked about. "Do I hear any bids?" he murmured—*Rammer-Jammer.*

Little Sandy: Hey, pa, let's go to the Centennial Pageant, it's only a dollar.

Sandy: Next time, laddie, next time.—*Virginia Reel.*

Lancelot: Tell me, Knave—why are seven humorous men like a loaf of bread?

Galahad: With ease thou buffoon—they are the staff of "Life."—*Belle Hop.*

"Well, if the World War was fought to save the World for Democracy, what was the Napoleonic War fought for?"

"To save the world for Napoleon."

"But what about the future wars?"

"They'll be fought to save the world for the future!"—*Pitt Panther.*

The umpire at the Norwich game probably felt like this:

Three cross-eyed thieves (no offence) were brought before a judge.

"What's your name?" he asked the first. "Smith," was the answer, but it came from thief number 2.

"You keep out of this," growled the law.

"I didn't say a word," cried the third thief.

ATHLETIC HEAVEN

A college without athletics or activities would seem like a miniature picture of heaven to some tired football managers we know. When there seems to be an endless list of details to be attended to in so short a time that there is never a chance to get a decent night's sleep, almost any activities hound feels ready to call for the sponge. "The Institute of Advanced Study," according to the N. S. F. A. *News Service*, will begin its existence with a five million dollar endowment. Extra-curricular activities, athletics, and similar elements of college will be barred from the campus of the new university. Faculty members will cooperate in the management of the school and occupy positions on the board of trustees.

POLITICS

The Daily Princetonian is already waging a fight for the right of Princeton men to vote in the presidential election of 1932. In a nation where most college students are indifferent to political questions this struggle for the right to vote has a strange sound. The *Princetonian* is wise in starting thus far ahead, judging from their experience in 1928, when local politicians at the last moment prevented the Princeton student body from voting.

OPEN MIND

This editorial published in a Boston daily of sixty-one years ago, is a strong argument for what has been called the "open mind":

"A man has been arrested for attempting to extort funds from ignorant and superstitious people by exhibiting a device which he says will convey the human voice any distance over metallic wires so that it will be heard by a listener at the other end. . . . Well informed people know that this is impossible of accomplishment, and even if possible, that it would be of no practical value. The authorities who apprehended this criminal are to be congratulated and it is to be hoped that his punishment may serve as an example to other conscienceless schemers who enrich themselves at the expense of their fellow creatures."

NEW YORK STUDIO TO TAKE '33 ARIEL PHOTOS

A representative of the Arthur Studios, Inc., of New York will arrive in Burlington, November 2 to take all photographs for the 1933 *Ariel*. The sittings will be held at the Vermonters' Club House on Summit Street. Appointments for sittings of individual and group pictures may be made at the *Ariel* desk in the hallway of the Old Mill.

GERMAN CLUB TO HOLD SEMI-MONTHLY MEETING

The German Club which is composed of students interested in this field will meet about every two weeks at which time short, informal talks and plays in German will be given. As yet plans for this year have not been definitely made but it is assumed that the club will be similar to last year's.

No officers have been elected in this organization for the past few years and so members of the department conduct the meetings. Mary Klough who is the most advanced student in this department at present will also be affiliated with the club. She attended Middlebury Summer School this past season, having taken courses in German there.

SCOTCH

International debaters are now moving through the American colleges. Two teams from England, one from Scotland and one from Germany are scheduled for a hundred engagements by the National Student Federation of America. One member of the Scottish team assured his social success by appearing in kilts, which he intends to wear throughout his tour. The first debate was held on October 21, with Bates College, over the National Broadcasting Company. The Scottish team attacked the proposition that "Thrift is not a virtue."

Prof. Martin Sprengling of the University of Chicago believes that a Bedouin foreman of a mine, working for the Egyptians in the half-century between 1850-1800 B. C., first used the characters which have developed into the modern alphabet.

Frosh Top Purple Juniors 32-0 In Spectacular Fray

Yearlings Show Remarkable Offensive and Execution After Slow Start, in Season's Opener at Centennial Field—Strongest Frosh Team Since 1928

FIVE TOUCHDOWNS ASSURE VICTORY FOR KITTENS

Before a large and well satisfied crowd, the Kittens impressively opened their football season Saturday afternoon on Centennial Field by trouncing St. Michael's J. V. 32 to 0. Featuring straight football, Coach Burke's charges, after a slow unsteady start, picked up rapidly after a scoreless first quarter, scored six points in the second quarter, twenty in the third and six in the final, leaving no doubt in the minds of the spectators that this present aggregation of yearlings is the strongest since the great frosh eleven of 1928 when "Ghost" Mitchell, Harry Slate, "Bump" Levine and several others were together.

Johnny Reynolds scored the initial touchdown of the Kittens' season in the middle of the second quarter when he cavorted over from the 5 yard marker.

Kingsley, the clever little quarterback of the pony backfield which started the second half, scored the second, on a pretty run around the Purple right end for 35 yards.

Henry Schmarr scored the third in the same period when he made a pretty catch of Reynolds' pass in the end zone. Vic DeBellis drop-kicked the extra point.

From 25-yard Line

Fred Lanahan added the fourth on a personally conducted tour around right end and down the side lines from the loser's 25 yard line. Again DeBellis added the extra point.

Reynolds terminated the scoring for the afternoon by scoring his second touchdown of the game, on three successive trys from the Purple 15 yard line.

Both of the Kitten backfields functioned well, both individually and as a unit. Lanahan, Reynolds and Mori did exceptionally fine work.

The line, although rather spotty at times, did well as a whole, and showed a wealth of power.

Red Cook, the giant tackle, got off three beautiful punts which averaged all of 55 yards before retiring with a wrenched knee in the second quarter. DeBellis who then took up the assignment also got off a couple of beauties.

For the Michaelmen, Tierney, Maynes and McKenzie did exceptional work in the line. The backs never had a chance to show anything. The fighting spirit of the losers is to be commended as they put up a valiant stand against their heavier and more experienced rivals.

VERMONT TO OBSERVE FIRE PREVENTION WEEK

J. G. Weir of the Extension Service of the University of Vermont and State Agricultural College is responsible for the statement that last year one of the forest fires in Vermont was started by a hunter trying to smoke a squirrel out of a tree.

"He succeeded so well," says Mr. Weir, "that squirrels will not be found in that part of the woods for a number of years.

This spring a farmer and another man were out looking at the farmer's wood lot. While they were talking over the farmer's problems, the farmer lighted his pipe and tossed the match to one side. Suddenly the other man heard a snapping and crackling noise at his feet. Looking down, he saw a spot of grass burning briskly. He nudged the farmer in the side and pointed at the fire. While they were busy putting out the fire, he told the farmer that the grass was very dry.

"Yea," said the farmer, "I was just telling my boy about that yesterday."

Mr. Weir suggests that hunters will soon be heading into the woods in search of game. They should remember that the forests furnish the game with food and a home. The forest is also some man's property. He may be dependent on the forest for a living. The thoughtful hunter will be careful with fire and will not deprive the man of a living or the game of a home. The hunter who is careless with fire this year may have to find some other place to hunt next year.

UNIVERSITY WOMEN TO SELECT CLASS PLAYS

Evelyn De Brune '32, Mildred Gile '32, Ara Armstrong '33, and Priscilla Perry '33 have been appointed as a committee to select the plays which will be presented by the three lower classes this fall. Each fall the class plays are presented under the direction of Women's Dramatic Club.

EDUCATIONAL SOCIETY WILL HOLD LUNCHEON

According to President Orson W. Jay, Kappa Phi Kappa, senior honorary educational society, will hold a luncheon and banquet at the Sherwood Hotel, Friday, October 9, for the benefit of its active members and alumni. The speakers for this occasion have not yet been decided upon.

Officers of Kappa Phi Kappa are as follows: President, Orson W. Jay; treasurer, Kenneth E. Boyden; corresponding secretary, Carlton E. Wright; and recording secretary, Fletcher J. Proctor.

LIBBY BECOMES HEAD OF SOPHOMORE CLASS

After numerous withdrawals of candidates from among three major fraternity coalitions, C. J. Libby was elected president of the sophomore class at its meeting held in Science Hall last Thursday afternoon. At the same meeting, at which all officers were elected on separate ballots, Catherine E. Durick was named vice president, W. T. Gilbert was elected treasurer; and Ruth Reynolds became secretary.

Can Ya Beat It

"With regard to that patient you wrote of who swallowed the thermometer," writes J. G. B., "have you ever heard this one?"

"Good morning, Mrs. Kelly," said the doctor, "did you take your husband's temperature, as I told you?"

"Yes, doctor, I borrowed a barometer and placed it on his chest; it said 'very dry' so I bought him a pint o' beer an' he's gone back to work."

"Ah, ha, Daniel! at last the worm will turn."

"Who cares? It's the same on both sides."—*Cornell Widow.*

Junior: I invited two girls to the Junior Prom.

Soph: Gosh! How did you get away with it?

Junior: Neither accepted.—*Beanpot.*

The latest campus racket which offers an energetic fellow a chance to clean up at B. U. is the idea practiced at a certain western college. Students take out insurance policies against being called upon to recite in class, and for a down payment of 25 cents you stand a chance of collecting five smackers if the nasty old prof calls your name. Who said college men were resourceful?—*B. U. News.*

And speaking of football, we notice that the Brown eleven includes a Tom Sawyer, and Yale boasts a Carl Sandburg; but the winning numbah goes to Vermont with a Tom Collins on the team. If you don't know your Tom Collins, ask Dad—he knows.—*B. U. Walrus.*

Ohio leads all the states in the number of colleges. It has forty-one. New York has forty, Pennsylvania thirty eight and Illinois twenty-three.

SENIORS FORGET

The average senior fared rather badly when the college freshman he was last tested this past summer by the Carnegie Foundation for the Advancement of Teaching.

According to the report, based on [illegible] given more than 10,000 college [illegible] in Pennsylvania colleges and universities the "ravages of forgetting" caused the senior to lose, even before getting his sheepskin, much of the knowledge he acquired during four years at school.

"The college senior recognizes only [illegible] out of 100 words in familiar use by educated persons," the report said. "The effect of college on the word supply of the ordinary student appears to be almost negligible and in some cases possibly injurious."

"The school and college curriculum," the report added, "consists of little bits but isolated packages of specific [illegible] segregated for the time being in self-contained courses, elected semester by semester and cut off by examinations and grades from any other living conditions. The sacredness of such systems of credits and [illegible] age dominates both teacher and pupil.

"The raw information which the courses had presented and which received proper treatment, might have contributed to a fine body of intellectual equipment, was dumped outright at the close of successive terms, and when the student came out of college his effective knowledge amounted to little more than when as a freshman he entered the institution."

"You remind me of a Packard motor."
"Because I am so strong and silent."
"No, because you idle so easily."

No wonder men smoke PIPES!

EVERY PIPE SMOKER has the satisfaction of knowing he has one masculine right that the women won't take away from him. They do leave our pipes alone.

The favorite smoke of college men

And though the girls may not know it, they're leaving us one of the finest smokes a man can have. There's something calm and soothing about a pipe and good tobacco. It leads to clear-headed thinking. Perhaps that's why the leaders—the real men of the world—are pipe smokers.

A pipe is not the smoke for girls

College men like a pipe—packed with cool, slow-burning Edgeworth, the favorite pipe tobacco in 42 out of 54 colleges. It's cut especially for pipes, to give a cooler, drier smoke. You can buy Edgeworth wherever good tobacco is sold. Or for a special sample packet, write to Larus & Bro. Co., 105 S. 22d St., Richmond, Va.

EDGEWORTH
SMOKING TOBACCO

Edgeworth is a blend of fine old burleys, with its natural savor enhanced by Edgeworth's distinctive and exclusive eleventh process. Buy Edgeworth anywhere in two forms—Edgeworth Ready-Rubbed and Edgeworth Plug Slice. All sizes, 15¢ pocket package to $1.50 pound humidor tin.

Local Press Describes Scarcity of Players and Interest in Football

Burlington Free Press

WHY VARSITY FOOTBALL?

Judging by reports, interest in football has reached a low ebb at the University of Vermont. When a college which numbers at least 500 men gets not more than twenty-five out for football practice, one of two things must be true. Either there is very little football material in the college or there is very little interest in having a football team, or both.

In either of these cases, the only solution would seem to be to drop varsity football at the end of this college year and confine activities in this sport to interclass games until such time as enough interest is awakened to make it worth while to put out a team representing the University.

Certainly it is not fair to ask a score of men to bear the whole burden of the football season. It is true that the schedule this year will not be as difficult as has been that of the past few years. But, even with the lighter schedule, we do not know of a college on the schedule which will not have a larger squad to draw on than that which Coach Dunn has at the present time.

Neither is it good for the University to send out a team which cannot hold its own with teams from colleges of its own size.

Of course, winning games is not all there is to football. It is good training for building men, provided they go at it in the right spirit. But that training can be made just as valuable in interclass and interfraternity football as in intercollegiate contests.

Let it be plainly understood that the Free Press is not opposed to intercollegiate football. Far from it. But unless the students of a college are sufficiently interested in intercollegiate football to come out in large numbers and help build a team, it would be better to give up the varsity team and start at the bottom to build up such an interest.

Good football teams do not result from a few stars. They are the outgrowth of developing football men year after year from men who are willing, yes anxious, to learn the game and play it. No college can expect to have a strong football team until a good percentage of the available men are trying out for the team.

And until such time arrives, it would be better for the college to develop the game within its own campus.

At the National Air Races in Cleveland this summer Lieut. Al Williams stunted his plane as directed by the audience through a radio hook-up. Another stunter waltzed his plane in time with dance music broadcast from the ground.

One of a group of five famous American portraits on exhibition at the Metropolitan Museum is one by Samuel Morse, inventor of the telegraph, who was an artist before he took up invention.

The Atlas of the Great Elector of Brandenburg, Germany, said to be the largest book in the world, has been restored to its former beauty. The book is sixty-six inches high, thirty-nine inches wide and weighs 275 pounds.

Dr. H. L. Donovan, president of the Eastern Kentucky State Teachers' College has charged that selling of teaching appointments and giving them to relatives exists on a large scale in the state.

A Sydney specialist has predicted that because of the amount of time Australians spend in their surfs, the nation is due to become a darker race.

After collecting about 1,000 small bugs, carefully indexing them and placing them in a suit case on a six-weeks' tour, Prof. John S. Dolley, entomologist at the University of Illinois had them stolen from his auto, parked on a Chicago street.

Star Gazing Class Meets At Chapel

Last Wednesday night at 7:15 about fifteen members of the class in physiography and geology congregated at the Ira Allen Chapel for the first star-viewing expedition of the year. Professor Jacobs head of the geology and mineralogy department pointed out some of the stars from the ground. Later Professor Jacobs took the class up into the chapel tower.

Some of the constellations pointed out were those were Aries, Square of Pegasus, the Northern Cross, Cassiopeia, Great Triangle, Cephus, Andromeda, Great Bear and Little Bear, also the stars Vega and Polarus, and the Planet Saturn.

Professor Jacobs hopes to take his class out on a daylight expedition not only with the sole idea of star gazing but also to study the "Great Outdoors."

Seven men at the University of Kansas who took the physical examination test for new students meet the requirement for 100 percent men physically according to standards set by Dr. James A. Naismith, professor of physical education and originator of basketball.

At the University of Colorado, when a member of a class goes to sleep during a lecture, the entire class moves to another classroom, leaving the sleeping member undisturbed. The class is thus spared an annoyance, the sleeper gets his nap; but the sad part of it all is that he also is given a cut when the roll is taken at the end of the hour.

Hotel Clerk: I beg your pardon, but what is your name?

Girl: Name? Don't you see my signature there on the register?

H. C.: Yes, that's what aroused my curiosity. *Sour Owl.*

Must Build A Hall of Peace Says Lecturer

Prof. A. G. Alley Stresses Need of a Set of International Institutions at Museum Tuesday

UNITED STATES WORKING FOR ECONOMIC BOYCOTT

Popular Sentiment in This Country Is Leaning Toward This Weapon As a Means of Checking a Belligerent Nation's Attack

"We must have a set of international institutions to be used as tools in building a temple of peace among the nations," declared Prof. Alden G. Alley speaking on the topic, "America amongst the nations," last Tuesday evening in the auditorium of the Robert Hull Fleming museum.

Prof. A. R. Gifford, chairman of the University lecture series introduced the speaker to the audience as a student of international affairs.

Speaking of efforts for international peace following the world war, Professor Alley said that the nations at present are trying to develop three institutions, namely, the system of conferences, the assembly of the League of Nations and the agreement of economic boycott in case any nation attacked an innocent nation.

"The economic boycott is the strong arm which the nations propose to use to subdue any country which tries to start another war," the speaker declared. The United States has not agreed to join such a boycott because of the fear that this country might get drawn into another European war against its will.

However, Professor Alley said he thought the United States, although not agreeing to join in economic boycott, might soon reach an agreement with other nations not to oppose such a boycott providing it was established against any nation which had voluntarily approved that method of preserving the peace.

To Promote Peace

The speaker said he believed it would greatly promote the peace of the world if the United States would enter into such an agreement. France would be more willing to consider disarmanent if

MOWER SPEAKS BEFORE ROTARY CLUB ON LEAGUE

Prof. E. C. Mower, head of the political science department addressed the Burlington Rotary Club Monday on the subject of the relations of United States with the League of Nations.

"The United States has recently given co-operation to the league assembly," stated Professor Mower, "also Secretary of State, Stimson communicates directly with the Council of the League regarding the dispute between Japan and China."

The three divisions of the league, the secretariat, administrative body; the council, executive body; the assembly, the legislative and most democratic body, completed the substance of the address.

PAUL R. MILLER HEADS AGRONOMY DEPARTMENT

Former Michigan State College Instructor Appointed Successor of Doctor Van Alstine

Paul R. Miller, recently a member of the Extension Service and teaching staffs of Michigan State College, has been appointed professor of agronomy and Extension Agronomist at the University of Vermont and State Agricultural College, succeeding Dr. Ernest Van Alstine, who has joined the teaching force at Cornell.

Professor Miller is a graduate of Iowa State College, with a master's degree from Michigan State. While a student in Iowa State he was assistant to the state seed commissioner. He joined the staff at Michigan immediately after receiving his master's degree from that institution in 1924. His special work while there was the supervising of inspection activities of the Michigan Crop Improvement Association, and he played one of the leading parts in building up the alfalfa seed activity of the state, a state crop which in the last seven years has increased from 74,000 to 600,000 acres.

Another new member of the Extension Service staff of the University, just appointed, is Richard D. Aplin, former county agent in Addison County, who has returned to the force as county agent at large. He graduated from the University of Vermont, from which institution he later received his master's degree, and has been engaged in school work, research work, Extension Service work and farming.

TOTAL ENROLLMENT AT UNIVERSITY, NOW 1,271

The total enrollment at the University of Vermont and State Agricultural College as of October 1 was 1,271. The enrollment in the University of Vermont or College of Arts and Sciences was 798. The enrollment in the College of Engineering was 130. The enrollment in the College of Agriculture was 112 and the enrollment in the College of Medicine was 154.

In addition to the foregoing the enrollment in the two-year teacher training group was 77. These students are not candidates for degrees. The total number of men in the University of Vermont and the State Agricultural College is 732 and the number of women 539.

The total enrollment during the last college year in the University of Vermont or College of Arts and Sciences was 756, and the total enrollment in the University of Vermont and State Agricultural College was 1,266.

FENCING

Will all those interested in fencing please meet Wednesday at four in the wrestling room of the gymnasium. Fine opportunity for new men.

CYNIC EDITORIAL BOARD ADOPTS BY-LAW CODE

Departments Classified by Concurrent Action of Boards—Elections Announced

The adoption of a set of written by-laws for the regulation of the editorial staff, the election of ten men, and the reclassification of both men's and women's department is announced as a result of a meeting held Wednesday afternoon.

Some of the by-laws adopted require that a candidate for membership be elected first to position of reporter and only after fulfilling standard requirements, that a man removed by action of the board is ineligible for re-election. No freshman or upperclassman, who has not done reportorial work for at least one year, shall have the right to vote in board elections. A member of the board who has been removed by action of the dean of his college for being under warning may be automatically reinstated in his office upon notification of the removal of his condition provided the office is not above that of reporter.

The following elections and promotions are announced: S. Z. Pelofsky '32, elected to sports editorship; H. M. Albert '32, elected to position of sports news editor; J. F. Farwell '33, promoted to sports news editor; P. J. LaCross '32, promoted to office of intercollegiate editor; F. I. Taylor '33, promoted to position of feature editor; R. Weissman, made columnist; S. K. Carter '33, promoted to feature editorship; B. S. Birnbaum '34, R. A. Cross '33, G. L. Davis '34, elected to office of staff reporters.

As the result of the concurrent action of the men's and women's boards, several changes were made to correspond with journalism terminology. Three departments were created by unanimous board action: news editors, feature department, and reportorial staff. Titles of all other staff offices have been abolished.

GOLD KEY WILL HOLD DANCE TOMORROW NIGHT

Gold Key, sophomore honorary society, will hold its first dance of the year tomorrow evening at the gymnasium. Lechnyr's Vermonters will play for dancing between 8.30 and 12. The chaperones are Prof. and Mrs. L. W. Dean and Dr. and Mrs. C. E. Braun.

HIGH SCHOOL EDITORS TO CONVENE NOVEMBER 7

Annual Convention of State Journalists Will Meet For Discussion in New Museum

Editors of Vermont high school papers and magazines, and members of high school teaching staffs who are interested in journalistic work, will convene Saturday morning, November 7, at 10.15 in the auditorium of the Robert Fleming museum.

Walter H. Crockett, editor of University publications, will preside at all the group meetings.

Conventions of this sort have been sponsored by the University of Vermont for over a decade.

The list of speakers for the morning session will include Prof. F. H. Tupper and Prof. I. W. Dean, of the English department, who will talk on topics relating to high school papers.

At 12.30 the group will adjourn to the Hotel Vermont, where it will be entertained at a luncheon.

After lunch there will be an address by a high school teacher of English, who will discuss the ways in which English departments may cooperate with students in issuing a school paper.

Following the morning and afternoon addresses, discussions of editorial and business problems will be held, with the student editors being given an opportunity to exchange opinions, relate experiences, and ask questions.

The entire afternoon program will be held in the luncheon room.

According to Mr. Crockett there has been an increased number of high school publications in the State of Vermont during the last ten or twelve years. This has warranted a larger representation at the annual conventions.

MUSIC DEPARTMENTS TO SPONSOR TWO CONCERTS

Two concerts similar to the piano recital given by Myra Hess last year will be given by nationally known artists under the auspices of the department of music of the University. On February 4, Stewart Wilson, an English tenor, will give the first of these concerts. The other will be a recital by the Liège String Quartet from Belgium on March 9. Students will be able to obtain free tickets to these concerts on application at the University Store.

Several recitals by members of the faculty and by student musicians on piano, organ, and violin, as well as voice recitals are also scheduled. The first of these will be given by Elizabeth Bradish, dramatic soprano, and Miriam Natilee Marston, pianist and accompanist, either the last of this month or early in November.

Women's Glee Club

Other musical events scheduled are a concert by the Women's Glee Club on November 20, the Christmas concert by the University Choir and Orchestra on December 20, and also a Lenten-Easter concert in March. The annual opera sung by the members of the Men's and Women's Glee Clubs, is scheduled for April 14.

Announcement of the university bureau of health: Students are not allowed to be sick in their rooms.—*Yale Record*

HEAVY THUNDER STORM GREETS OPENING NIGHT OF FRATERNITY SEASON

First Two Open Houses See Nearly One-half Class Visiting Greeks

A thunder shower with steady and heavy downpour of rain lasting nearly half the evening greeted the first open house night as about one half the freshman class made visits to the thirteen Greek-letter fraternities under the new system Wednesday evening. At the second open house held last night practically the same number were conducted among the societies.

A rather complete census of the various fraternity houses indicated a fine spirit of co-operation existing among the organizations. The freshmen appeared to a better advantage with the installation of the new scheduled plan for open house nights.

The freshmen grouped alphabetically congregated at the first fraternity on their schedule, remained there one hour and then proceeded in a group to the next house designated on their schedule until eleven o'clock.

Freshmen are cautioned, by the Interfraternity Conference to proceed in the group to which they are assigned and to follow the revised schedule.

Certain of the fraternities sent escorts along with the groups to conduct them to the next house, this being recommended by the Interfraternity Council.

BLUESTOCKINGS HOLD FIRST MEETING OF YEAR

At the first meeting of Bluestockings, the Women's honorary literary society, held Monday afternoon, October 5, at the Kappa Alpha Theta house at 4 o'clock, the program for the year was planned and the arrangements for tryouts for new membership made. Manuscripts will be accepted until Thanksgiving.

All poetry contributions will be handled by Gladys Laflamme '33, essay contributions by Marian Kiel '33, and short story contributions by Hope Ranslow '32. If the work to be contributed does not seem to fall under any of these classifications it may be handed in to the president, Hope Ranslow '32, and will be duly accredited.

VERMONT 4-H TEAMS TIE FOR FIRST PLACE

Vermont, Delaware and Virginia headed the list of 4-H ribbon winners in judging at the Eastern States Exposition, Springfield, Mass., this year. Each took 19 ribbons. Of these Vermont won the most first-place ribbons, six, and the most second-place ribbons, eleven, which really gave her the highest rating of any state. Only two third places contributed to her 19 points, while Delaware had eight thirds and Virginia nine. New York, Rhode Island, Pennsylvania, West Virginia, Massachusetts, New Hampshire and Maryland were the other contenders. New York took 17 ribbons and Rhode Island 16.

Last year Vermont clubs were fourth with 14 ribbons. In 1929 they were third with 11 ribbons. In 1928, second with 14 ribbons. In 1927, first with 16 ribbons.

The Vermont clubs had 12 representatives at the Exposition this year. They judged in dairy cattle, potatoes, corn, clothing, foods, canning and other contests.

An effort to find a picture of the Empress Eugenie wearing the hat which has captured her to have at first proved discouraging for the J. B. Lippincott Company, who are publishing a new biography of this much discussed queen. When they cabled Paris Mr. Aubry, the author, sent word that neither he nor the late Empress' official photographer knew of any picture showing the Empress wearing an Eugenie hat. And it was only after considerable further research that a small photograph was found in which this beautiful woman is pictured wearing the well-known "bibi" hat. "Eugenie Empress of the French," by Octave Aubry will be published by Lippincott's this fall.

Pome of Love

(new style in interlocked rhyme)

in convention where student feet
meet tournaments out there is a street
entrance to me where sylvia walks
I must she's sweet sometimes she talks
at times me but then i know
she's fooling and i want her so!!

Campus Comment

[illegible] the Editor of the Cynic:

Realizing that we all are offered equal opportunities; realizing that we may further our opportunities by simple effort; realizing that each person naturally develops along different lines; realizing, too, that we are each entitled to the opportunities of obtaining, and deriving benefits from, a college education, I would like to challenge the statements made by one of my classmates concerning "Athletic Labor."

U. V. M. was established, according to historians, primarily to promote and further education and not for the production of a fast track or football team. Youth to develop into proper manhood must plane off and polish the three sides of his prismatic nature. One of these sides, mental, physical or social, will develop to a greater extent than the other two but the different development of each individual will dovetail into an ideal student body.

Athletics should be promoted by class sports and required four-year physical education but not by artificially offered help. Sports according to the common college conception means the development of a few but not the whole—the skill of the selected and the yells and cheers of the mob. It is well and fine to develop the few and the select but when a suggestion is offered to give work to the athlete, in preference to and at the cost of the remaining student body, then something is radically wrong. To solve the student athlete's problem let me also appeal to the administration with the following suggestions:

1. Admit only high school or prep letter men.
2. Build factory to employ college athletes (of course articles manufactured would be sport goods).
3. Eliminate semester examinations or, in fact, all courses in the curriculum.
4. Have entrance examinations consisting of football plays, track positions and basketball rules.
5. Establish athletics as the criterion of each student's value to the school.

Each department and each activity is just as important to the obtaining of an education as any other department or activity. Each person if in need and of athletics can find employment to help defray his college expenses. Positions or jobs are available to all in need but success depends, not on drag nor pull, but rather on one's ability to be just a jump ahead of the other fellow. Jobs should be awarded not as my classmate wants them to be—"on gold-plated service"—but rather to all those people that have the initiative, the mental aptitude and physical ability to work.

R. T. Van Dyke '34.

Author's Arena

COOLIDGE'S "PROPOSE"

Some people are never satisfied. Mr. Coolidge said "I do not choose to run," and thousands refused to believe that "choose" is a decisive word in the Green Mountain State.

Now Mr. Coolidge sits in his Vermont home and writes an article explaining why a man in his position must support the President in office and declares that is the course I propose to take.

And the last ditchers rise up to cry "Propose?" 'Propose?' We wonder doesn't say he won't!"

Cautious Grammarians Ask

The political sleuths had a grand time with "I do not choose to run," and allowed their enthusiasm to carry them to the very doors of the Republican convention, with a "droft Colidge" slogan. The plan failed to come off, for the very excellent reason that Calvin Coolidge meant what he said in the first place, though it was considered political foolishness to believe it.

There is another reason for the stand of the last ditches. If Mr. Coolidge had gone to Harvard instead of to Amherst he would not have been permitted to employ the word "propose" in the sense in which it appears in his statement, according to some more rigorous persons who recall their chagrin of student days when their themes came back blue pencilled.

"That is the course I propose to pursue," writes Mr. Coolidge. "What does he mean" inquire the cautious grammarians "intend" or when one wishes to convey an even stronger idea of determination. "Propose" means to "put forth, to hold forth, or to present to view" some thing or someone one wishes to exhibit as worth acceptance; but "propose" does not mean sturdy and definite decision to take it or leave it.

Quae cum ita sint—as the saying goes—perhaps it might be helpful to Mr. Coolidge to offer a suggestion as to the form and wording of any statement rejecting Presidential nomination he may desire hereinafter to issue.

The phraseology, which would indicate stubborn and ruthless determination to remain a private citizen, might be drawn up as follows:

Can They Understand This?

"I won't, sha'nt, don't propose to and under no circumstances can be persuaded to, run. I refuse to run. I never did run. I'm through running. I refuse the suggestion that I run. I decline peremptorily, point blank, flatly, once and for all, now and forever, in toto *saecularum*, to run. I decline to run.

"I protest against the suggestion that I run. I rebuff the proposal that I run. I have only a deaf ear to the hint that I should run. I have set my face against running, turned my back on the notion of running, washed my hands of the subject of running, discountenanced the thought of running.

"I abjure running, forswear running, stand aloof from the nomination, renounce the intimation that I ever will run. I disavow, card, rescind, disclaim, repudiate, recall, recant from, revoke and abrogate the proposition that I run. Nothing, nobody, shall induce me run.

"I have relinquished all dreams of running. I deprecate the talk about my running. I expostulate against it. I protest it. I beg, beseech, implore, pray, entreat, request, solicit, invite, crave, sue and release from the misconception have anything to do with the utterly groundless supposition that I ever be persuaded to run.

"I execrate running. I detest running. I decry running. I loathe and hate running. I'll be darned if I'll run. If necessary, I'll post a bond to guarantee my not running. In short, I have some common sense."—*Boston Globe.*

COLLEGE HUMOR

A young lawyer, pleading his first case, had been retained by a farmer to prosecute a railway company for killing twenty-four hogs. He wanted to impress the jury with the magnitude of the loss.

"Twenty-four hogs, gentlemen! Twenty-four hogs, gentlemen. Twenty-four hogs—twice the number in the jury box!"—*Scream.*

Arriving a bit late at a banquet the worthy professor did not want to interrupt the course of the dinner.

But the waiter approached and placed a bowl of soup before him. The professor replied that he did not wish any and suggested that he might serve the chicken with which the rest were struggling.

Another waiter, observing the professor's soupless state, placed a soup bowl before him. The professor again stated his disinterest in soup.

As luck would have it, a third waiter, noting the prof's mouth watering and seeing no soup before him responded to the emergency with touching promptness.

"What," exclaimed the professor, "is this soup compulsory?"

"No," answered the waiter. "Ingatawny."—*Green Bowl.*

Second round: Wilson-Westin, 6-2, 6-0; Myers-Winant default; Ranslow-Buxton, 5-7, 6-1, 6-3.

Olympic Games July 30 to August 14 at Coliseum Stadium, Los Angeles

Opening of America's First World Athletic Contest to be Featured by Parade of Nations and Elaborate Opening Ceremonies Plus Official Recognition by President Hoover

Of unusual interest to Vermont athletes is the first announcement of the final and complete official program of the games of the Tenth Olympiad to be held in Los Angeles from July 30 to August 14, inclusive, 1932, was made by the Los Angeles Organizing Committee, following receipt of a cable of confirmation from Count de Baillet-Latour, president of the International Olympic Committee, from Lausanne, Switzerland.

The program will open in Olympic Stadium (Coliseum) on Saturday afternoon, July 30, with the historic Opening Ceremony, a part of which will be the impressive Parade of Nations, in which 2,000 sons and daughters of 35 nations, led by their respective national flags, will participate in the march past the Tribune of Honor.

One athlete will then step from the drawn-up ranks to take the Olympic oath for all the teams of the participating athletes. As the oath is administered the Olympic flag will be raised; the Olympic torch will blaze forth atop the massive peristyle of the Stadium and in the presence of representatives of foreign countries, world wide Olympic organizations, and officials of state, the games of the Tenth Olympiad will be declared officially opened. Many other beautiful features of pageantry will mark the Opening Ceremony.

Great Gathering

The Olympic Games will bring to Los Angeles the greatest gathering of dignitaries ever to assemble on the Pacific Coast. Members of royal houses from all parts of the world will attend the Opening Ceremony as will official delegations from their governments. In accordance with Olympic traditions that the ruling head of the nation pronounce the games opened, President Hoover will be officially invited to open the games of the Tenth Olympiad.

Something of the magnitude of the program is suggested by the fact that during the 16 days the games are in progress, more than 135 distinct programs of competitions from 15 branches of sports will be held mornings, afternoons and evenings at nine or more stadiums, auditoriums or water courses.

World-wide Sports

Competitions will be held in the following world-wide sports: Track and field athletics, boxing, cycling, equestrian sports, fencing, field hockey, gymnastics, modern pentathlon, shooting, rowing, swimming, diving and water polo, weightlifting, wrestling, yachting, national demonstration, international demonstration and fine arts.

Olympic Stadium (Coliseum) in Olympic Park (Exposition Park) with a seating capacity for 105,000 persons, will be the center of Olympic activity. In it will be held, in addition to the opening and closing ceremonies, the track and field athletics, gymnastics, field hockey semi-finals and finals, equestrian jumping events and the demonstrations of national and international sports.

In addition to these competitions the first and official announcements of the final results of all Olympic events, regardless of where they are held, followed by the historic ceremony honoring the countries represented by the victorious athletes, will occur several times daily in Olympic Stadium.

Variety of Sports

Track and field, boxing, wrestling, swimming, diving and water polo and rowing are the most popular sports on the official program.

Beginning July 31 and lasting for eight days, Olympic Stadium will be the scene of one of the world's greatest programs of track and field athletics, with champion performers of every country participating.

Trials and finals will be held in the men's 400-meter hurdles, high jump, shot put, 100-meter race, 800-meter race, 10,000-meter race, hammer throw, 3,000-meter steeplechase, 110-meter hurdles, broad jump, 200-meter race, 5,000-meter race, pole vault, discus throw, 1,500-meter race, 400-meter race, javelin throw, hop, step and jump, 4 x 100-meter relay, 4 x 400-meter relay, decathlon events and the marathon.

Women's Sports

Events for women in Olympic Stadium during the same period will include javelin throw, 100-meter dash, discus throw, 80-meter hurdles, high jump and 4 x 100-meter relay.

Olympic Auditorium with seating capacity for 10,400 persons will be the scene of boxing, wrestling and weightlifting events which will start August 9 and continue afternoons and evenings until the closing day.

The ancient Olympic sport of wrestling holds a ranking place on the official program. Parts of seven days will be devoted to the staging of 12 separate programs of Greco-Roman and free style events.

World famous men and women athletes will occupy the limelight in the swimming, diving and water polo events to be held in the swimming stadium to be constructed in Olympic Park.

Swimming

Swimming events for men include the 100-meter free style, spring-board diving, 4 x 200-meter relay, 100-meter back stroke, 400-meter free style, 1,500-meter free style, 200-meter breast stroke, high diving, 200-meter breast stroke, and 1,500-meter free style and water polo.

The aquatic events for women will include 200-meter breast stroke, 100-meter free style, 100-meter breast stroke, spring-board diving, 4 x 100-meter relay race, 100-meter back stroke, 400-meter free style, and high diving.

All rowing events will take place in Long Beach Marine Stadium, which forms a part of Alamitos Bay. The Olympic yachting course will be at Los Angeles Harbor and is ideally adapted to this form of sport. The dates for the rowing are August 8, 10, 11, 12 and 13, while those for the yacht races are August 5, 6, 7, 8, 9, 10, 11 and 12.

Other sports in which athletes of the world will compete during the games are weightlifting at Olympic Auditorium, fencing at the Armory in Olympic Park, track cycling at Pasadena Rose Bowl, equestrian events at Riviera Country Club, field hockey at Olympic Stadium and elsewhere, gymnastics at Olympic Stadium, rifle and pistol shooting at the rifle range, and national and international demonstrations in Olympic Stadium.

Time Out

. . . as Vermont . . . Not so bad but nothing to get discouraged about. If the boys lose every game but the Norwich and Middlebury contests it will be a great team and better than we have seen for a few years.

—time out—

The boys are tired and weary after their trip to New York. But it won't be due to tea dancing or chorus ogling. They are tired from having played a hard game and having given their utmost for the dear old Alma Mater. Lame words sentiment perhaps, but what have you done thus far . . . you overstuffed sofa ornament.

—time out—

There is a rumor that some of our frosh gridsters are leaving us soon. It seems that these several young men desired an education very much and were also short of money very much. Whereupon some of our zealous alumni offered them the opportunity of glorifying U. V. M. Very much on the gridiron in return for which they were to be given an opportunity to earn their board, tuition and incidentals thus acquiring an education very much. The boys are doing their end of the job very much, to wit last Saturday's game, but the jobs have not been forthcoming very much. Whereupon the young men are packing their respective bags very much in preparation for going home to break a hamburg sandwich diet very much.

—time out—

It seems to us that there ought to be better cooperation between an alumnus desire to do well by his University and his ability to do so. We don't know who is at fault or whether anybody is at fault, but obviously something is wrong and needs correction. There is a snag somewhere between the alumni and the school.

—time out—

Our opponents last Saturday:

Springfield 33	*Colby* 0
Williams 35	*R. P. I.* 13
Holy Cross 26	*Providence* 6
New Hampshire 6	Boston U. 0
Lowell Textile 14	*Middlebury* 7

—time out—

Roach a freshman medic from Notre Dame played on the frosh team last Saturday. His number is 21. He is an end weighing in at 160 before a shower. He hails from Erie, Penn. which means that by the time he plays his last game he will be on call at the M. F. for ob. or something like that.

—time out—

Although it's still early in the season we'll bet Navy, Notre Dame and Yale against the field. In spite of the fact that Navy only beat William and Mary 13-6, Yale beat Maine 19-0 and Notre Dame beat Indiana 25-0. Imagine little Washington and Jefferson beating Carnegie Tech. 10-7.

VARSITY GETS MIGHTY WORKOUTS IN PREPARING FOR PROVIDENCE GAME

Coach Dunn Tries to Overcome Last Saturday's Ragged Play by Hard Work

BOVE, PROBABLE CHOICE TO START AT QUARTER

Admittedly disappointed with the ragged showing of his charges in the St. John's game, Coach Dunn is working hard with them all this week in an attempt to whip them into shape for tomorrow's tilt with Providence College in the Rhode Island capital.

Although dropping their first two games of the season to Rutgers and Holy Cross respectively, the Greens are not to be underestimated, as both of these teams are of high calibre especially the veteran Holy Cross team which tackles Dartmouth at Hanover tomorrow.

Bove at Quarter

A few changes are expected in the Catamount line-up as a result of Saturday's game. In the backfield it is expected that Coach Dunn will make room for Perry Bove, the pocket quarterback, whose aggressive play was one of the few bright spots of the Green and Gold attack.

The line play also was not up to standard, especially during the last three quarters but line coach Levine is seriously handicapped by a dearth of capable reserves.

Probable starting line-ups: Vermont Delfausse, l.e., Morgan, l.t., Powell, l.g., Bowers, c., Farmer, r.g., Wagner, r.t., Wood, r.e., Bove, q.b., Saba, l.h.b., Winant, r.h.b., Manning, f.b. Providence Roberge, l.e., Callahan, l.t., Matthews, l.g., Nawrocki, c., Kutniewski, r.g., Boyle, r.t., Iorn, r.e., Brady, q.b., Foster, l.h.b., Wright, r.h.b., O'Keefe, f.b.

An Exceptional Suit of Clothes Must Have Something Which Makes It Exceptional

Braeburn University Clothes enjoy this distinction—because of certain positive inherent Braeburn qualities. For Braeburn University Clothes have lived—and have been places—and have seen things—and so they are appreciated most, by the young men who know what it's all about.

STUDENT SENATE WILL HOLD ELECTIONS SOON

REPORTING POSITIONS NOW OPEN ON CYNIC

Positions for men reporters on the staff of the Cynic are now open to members of the freshman class who are interested in news writing. Aspirants to such positions should meet with the editor-in-chief at four o'clock Tuesday afternoon in 1 North College.

After a period of writing the candidates will be given positions on the board as reporters on the competitive basis, and according to their writing ability and interest in journalism. The Cynic offers excellent opportunity for experience in elementary newspaper work for those who will faithfully try out for it. It has nothing to offer to mere seekers of office.

BRIGHT PROSPECTS FOR COMING RIFLE SEASON

ST. JOHNSBURY PASTOR TALKS ON HIGH IDEALS

"High Ideals or Else" was the subject of the inspirational talk by Rev. W [illegible] of St. Johnsbury, who spoke in the Wednesday morning chapel service, October 7. In passing through the doorway of life we cast a shadow the character of the shadow cast depends upon the light behind each one of us. We should see as bright as the source within ourselves, to perpetuate shadows which are true and worthwhile, it is necessary to keep high the light of our ideals.

A rural guest at the Hotel New Yorker, after a long study of the sign "Flowers Sent by Telegraph," went to the flower shop bought two dozen roses, had them wrapped, took them across the lobby to the telegraph office and said, "I wish you would send these for me to — Ohio."

The clerk tactfully accepted the flowers. After the guest had gone he returned the roses to the flower shop and wired the order to Ohio. The guest is probably still scratching his head over the trick of these smart city fellers.

"Have you gotten any reports about your guns that escaped last week?"

"No guns yet."—*Siren.*

must then for them to go to if they want to. The court has now in less than ten years handled over thirty international disputes. It has done so well that over forty nations have voluntarily promised to take to the court all legal disputes they can't settle by discussion.

"The United States is coming to take an increasingly active part in the system of international conferences. We have not joined the League of Nations, but we participate more and more frequently in its activities. Indeed, we work with the league now to such a degree that the office of the American Consulate at Geneva has been moved from the business part of the town up to the neighborhood of the league headquarters and the staff of the consulate has had to be much increased.

"President Hoover has urged us to join the World Court. President Coolidge and President Harding made the same recommendation. Join the court means not that we promise to take all our disputes there but that we promise to help pay the expenses and elect the judges. This we would do in order to help keep the court alive, so that if we have a dispute with another nation and want to go to a court, we shall have one to go to. It is probable that within six months the Senate will follow the President's advice and bring about American membership in the World Court."

FIRST OF SIX VESPER SERVICES TO BE NOV. 1

Dr. Lloyd C. Douglas Will Be Speaker—University Lecture Series Gets Under Way Oct. 21

The Rev. Lloyd C. Douglas of [illegible], who preached the Baccalaureate sermon at the University last June, will inaugurate, on November 1, the series of vesper services held in the Allen Chapel.

As in the past there are to be six vesper services, one each month, November thru April. The date speakers, as announced by President W. Bailey, are: December 6, Dr. Josiah, professor in charge of the department of comparative religion and philosophy at Dartmouth; January, Dr. Allan P. Shatford of Maine; February 21, Dr. R. W. McLaughlin, Newagen, Me.; March 6, Bishop J. [illegible] Dallas, Concord, N. H.; April 17, Charles R. Brown of Yale.

These speakers have all, in past years, spoken at the University.

Eight Lectures in Series

The annual University lecture series which begins on October 21 when Clarence Kennedy presents "A Flemish Sculptor's Workshop in the Fifteenth Century," will bring to the campuus eight men who are all eminent lecturers in their fields of art and science, as announced recently by Prof. A. R. Gifford, chairman of the University lecture committee. The speakers who have already been scheduled are, besides Kennedy, Howard Cleaves who will present moving pictures of wild life on the Galapagos Island; Sir E. Dennison Ross, professor of Persian at the University of London and James T. Shotwell, director of the division of economics and history of the Carnegie Endowment for International Peace. Arrangements have not yet been completed for the January and February lectures, one of which will be on Goethe in observance of the centenary of his death.

Louis E. Lawes, warden of Sing Sing Prison, Ossining, N. Y., will speak on some phase of the social aspects of crime at the lecture scheduled for March 13, at which time the annual conference of Vermont teachers with the University of Vermont will be held. This is to be the concluding lecture of the series, all of which are open to the public without charge.

GEM

We've given up this idea of getting an education until after our degree work is off.—*Cavalier.*

And—nothing is more enthusiastic, spontaneous and unhampered by conventions than a tube of toothpaste erupting at the wrong end.

NOTICE

Coach Gardner wishes that all candidates for baseball would report every afternoon at 4 o'clock on Centennial Field for fall practice until further notice.

SOPHOMORE

All men wishing to scrub the editorial side of the 1933 Ariel are asked to meet with the editor, R. F. Colburn, at the Sigma Alpha Epsilon House at seven o'clock Tuesday evening.

CYNIC TRYOUTS

Freshman candidates for positions as Cynic reporters will meet with the editor-in-chief at four o'clock Tuesday afternoon, October 13, in 1 North College.

Bluestockings announces its annual tryouts for new membership. Short stories, poetry, essays and other contributions should be left at the Theta house or given to a member of the organization. The tryouts close at Thanksgiving.

JUNIORS!

Appointments for photos for the 1933 Ariel must be made at the Old Mill between Monday, October 12, and Friday, October 16. A staff representative of the Ariel will be in the north hallway on first floor to make the appointments.

DEBATERS

All freshman and sophomore debaters desirous of trying out for the Bailey cup debate between frosh and sophomores must meet at the Old Mill Chapel Monday afternoon at four o'clock.

SURVEY INDICATES THAT AVERAGE GRADE IS C

(Continued from page 1)

On the graph of the situation prepared by Wilbur Walden, national secretary of Alpha Chi Rho, who made a comprehensive study of the student body here last spring, it is noted that at certain periods from 1915 to 1931 there were noticeable changes in the scholarship curve.

During the year 1915 to 1916 all averages rose approximately an average of 4 percent. In the year 1917 to 1918, the years of the participation of the World War, there was a sudden drop in all scholastic grades of about 11.5 percent, average grade. It immediately rose around 9 percent. Yet in the years 1925-26 and 1928-29 there was also noticeable declines. No scholastic averages for the entire men's colleges were available for the year 1921-22

Robert Hull Fleming Museum Has Eight New Collections Donated

Several interesting collections including specimens of art, architecture, industry, topography, coins, shells, minerals and mammals have recently been added to the Robert Hull Fleming Museum.

The most recent of these is a collection of twelve fans, representing the exquisite handiwork of artists in half a dozen nations, presented by Mrs. W. Seward Webb of Shelburne Farms. Only two of the fans are as yet mounted and on display. One is Italian, fashioned of painted parchment over mother of pearl finely designed. The mirror behind the fan brings out the delicate colors of the translucent mother of pearl. The other is Moorish, of equally fine workmanship. A Japanese fan in the collection is of parchment on gold and black lacquer. The heads of the figures on the parchment are of painted ivory. Fans of Spain, Mexico and France are also in the collection which is soon to be on display.

Another collection recently received is that of architectural fragments from Rome, Athens and Sicily, presented by Miss Josephine A. Rohrer of this city. The fragments were salvaged from the Roman forum, the Athenian acropolis and other places rich in archeological treasures, at a time when the governments had no regard for their value. Fragments of statuettes, carved marble and porphyry and other objects make up the collection.

A third recent gift is that of a collection of tools, weapons and other articles used by natives of Katanga Province, Belgian Congo. The donors are Mr. and Mrs. Ray L. Smalley of Morrisville, University of Vermont graduates, and missionaries in Katanga Province. Iron axes, iron-tipped arrows, a "fly-switch" made from a buffalo's tail, an interesting musical instrument based on the principles of the tuning fork, with a sound box, are contained in this interesting collection. A number of mammal skins from the Congo were also presented by Mr. and Mrs. Smalley.

The other five new collections, donated this summer and fall, are the relief map of Vermont, presented by the Vermont Commission on Country Life; the collection of coins from many nations, given by Dr. J. W. Jackson of Barre; a collection of shells, one section of Florida shells given by Dr. A. H. Gilbert; the other, containing 130 specimens, given by Miss Martha W. Atkinson of Newbury; the collection of minerals and mammal heads from Peru, given by Charles H. Colburn of Londonderry; the collection of 26 facsimile color prints of paintings by French masters, given by Joseph Winterbotham, Jr., of this city and exhibited for the first time this week. These last five gifts have been previously announced.

Enterprising young man graduates Commerce School and sets up shoe-shining place. Makes much business by hanging out sign:

"One Shoe Shined Free."—*Purple Parrot.*

ODDS AND ENDS

"Were you one of the many fooling with the stock market?"

"Not me. I was serious; the market did the fooling." *Green Griffin.*

Education used to be a hard old grind for four years, but now they've done away with that. They have colleges.—*Utah Humbug.*

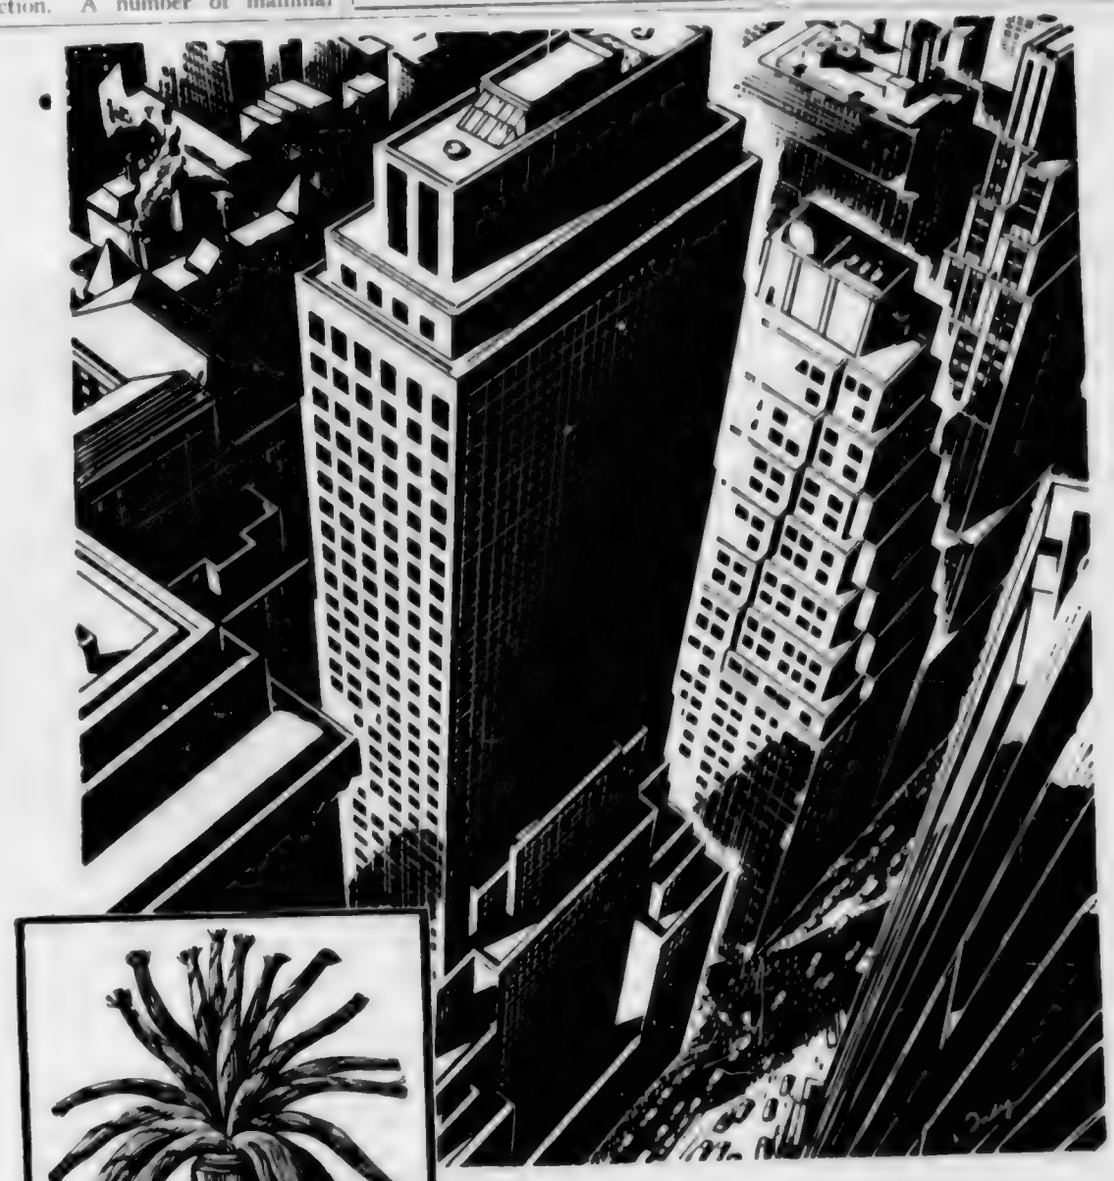
Hamman: The football captain will have a bed eight feet long.

Egg: Gosh, that's a lot of bunk.—*Campus Humor.*

First Stude: What'll we do tonight?

Second Stude: I'll flip a coin. If it's heads we go to the dance, tails we go to the show, and if it stands on edge we'll study.—*The Lawrentian.*

Campus Cop: Move that car along.



Coed: Don't get fresh, I'm a Delta.

Aforementioned Officer: I don't care if you are a whole Peninsula. Move that wreck.—*Sun Dial.*

A nerve system for energetic skyscrapers

Long before the huge bulk of a new skyscraper looms up, Bell System men have planned its nerve system—the maze of telephone cables and wires so vital to its business activities.

From the inception of a building design, telephone engineers work hand in hand with the architects. They determine the telephone needs of thousands of future tenants. Then they plan cable shafts rising from cellar to roof and the grid of under-floor ducts that will put telephones within easy reach of every occupant.

There's a real thrill in working out these plans, for without telephones the immense structures of today would hardly be practicable.

"That bully old slogan hits me just right—

. . . no bamboozlin' about that!"

SURE! When a word fits, you know it! "Satisfy" just *fits* CHESTERFIELD. A smoker picks up a package, and he likes its neat appearance — no heavy inks or odors from ink. *That* satisfies him.

Then he examines a Chesterfield. It is well-filled; it is neat in appearance; the paper is pure white. And that satisfies him.

He lights up. At the very first puff he likes the flavor and the rich aroma. He decides that it *tastes better*—neither raw nor over-sweet; just pleasing and satisfying.

Then he learns it is milder. That's another way of saying that there is nothing irritating about it. And again he's *satisfied!*

Satisfy — they've *got* to satisfy! The right tobaccos, the CHESTERFIELD kind, cured and aged, blended and cross-blended, to a *taste* that's right. Everything that goes into CHESTERFIELD is the best that money can buy and that science knows about. CHESTERFIELDS do a *complete* job of it. They *Satisfy!*

GREY FRIARS, CLASSIC SOCIETY AIM TOWARDS SUCCESSFUL SEASONS

Two Organizations Have Special Requirements For Membership

Grey Friars, and Eta Sigma Phi, the literary and classical societies respectively, are making plans for a successful year and meetings of the societies will be held soon. Eta Sigma Phi is for the interests of both men and women while membership to Grey Friars is limited to men only.

Grey Friars

Grey Friars was established in the spring of 1928 for the promotion of fellowship and interest in literature and writing. Members of the group must present evidence of their desire and ability to write and to know and appreciate good literature, writing and intellectual movements of this sort.

Requirements of membership are somewhat rigid because of the fact that the number of active men is limited to sixteen men from the whole student body. Any man interested is asked to submit two manuscripts in different fields of literature, to be read at the first meeting following presentation of the manuscripts, and criticized by those present. Subjects may be anything in the field of poetry, essays, short stories, or sketches. A combination of two of these gives the most desirable basis for judging the literary ability of the man interested in Grey Friars. Because of the exclusive nature of the organization only those who show interest enough to be of some value to the club are accepted. Banquets are held twice a year at some local hotel. Men and women from the faculty speak, authors and prominent people from this and other states give addresses on literary and intellectual movements of the present time. There are also suppers held once a month at a local restaurant at which there is a speaker from some one of the departments of the University.

Eta Sigma Phi

Eta Sigma Phi was founded for the promotion of fellowship among classical students in the maintaining of a lively interest in the classics. It is a national organization and Vermont's chapter is the Iota Chapter. It is an honorary fraternity only for those who have attained an average of not less than B in Greek.

The Vermont chapter is under the faculty leadership of Prof. George V. Kidder, who is taking the place of Prof. S. E. Bassett who is now on sabbatical leave. Meetings will be held once a month on Tuesday, and the programs will include talks and papers, on subjects pertinent to the classics, by students and members of the faculty. The society hopes that it will be able to present a Greek play and plans have been made for the reading of short plays, a social hour, and refreshments.

"BEYOND KNOWLEDGE" TO BE SUBJECT AT CHAPEL

"Beyond Knowledge" will be the subject of an address by Rev. Skillman Myers at the chapel exercises next Wednesday. Reverend Myers is the pastor of the Unitarian Church of this city. He has recently returned from an extensive tour of southern England, France and Italy where he visited several famous cathedrals. The pastor plans to make a similar trip next summer with the Sherwood Eddy Expedition, a seminar group of welfare workers, whose purpose is the study of the economic conditions of Europe.

FROSH WOMEN ATTEND DEBATE MEETING WED.

Roberta Powers, Professor Carlton, Explain Work to Would-be Forensicists

A small group of freshman women met at the English office last Wednesday at 4.00 p.m., to formulate plans for the year's activity in freshman debate. Roberta Powers '32, captain of the varsity team provided, and Prof. P. D. Carleton, coach of women's debate, explained the methods employed in college debating. This year the freshman group plans to carry out a more ambitious program than has been attempted in past years. A tournament is to be held in the near future where all the freshmen interested will have the opportunity to participate in one or more debates. Debates are also now being arranged with freshman teams of other colleges. They are to be conducted in an informal manner, and lively subjects, of interest to all students, will form the debate topics. The serious and formal tone of debate is to be definitely forsaken this year for the wittier and more informal.

The next meeting of the freshman group is to be held in the auditorium of the Robert Hull Fleming Museum, Wednesday, October 14, at 4 o'clock. At this time all freshman women will be prepared for a discussion on the honor system of examinations.

Art Exhibit of Aid to Teachers

Schools and Preparatory Institutions May Avail Themselves of French Collection

The Robert Hull Fleming Museum has had on exhibition this week a group of twenty-six facsimile color prints by German artists of masterpieces of French painters of the Impressionistic School. This exhibit was largely attended by the State teachers during their convention.

The prints are very fine copies of the originals, which hang in French galleries, are in private collections and reproduce the color, line and texture, as no photograph can. Their especial value lies in the fact that comparatively few people can see the originals, and good reproductions are rare.

Winterbotham Collection

The collection was donated originally by Joseph Winterbotham, Jr., of this city, for the pleasure and profit of the University of Vermont and the people of Burlington, but this scope has been broadened to include all of Vermont and any school or society wishing to borrow a part or all of the collection has only to provide transportation.

Artists

The artists represented are: Paul Cezanne, "Still Life," "Women Before the Tent," "L'Estaque," "House in the Mountains"; Edgar Degas, "The Ballerina," "Ballet Girls," "At the Races," Paul Gaugin, "Ta Matete," "Arearea," "Scene in Tahiti," "Still Life." Edouard Manet, "The Fife," "Portrait of a Woman," "Olympia," "The Boat." Claude Monet, "Vetheuil of the Seine," "Poppies in Bloom," "The Dog's Palace." August Renior, "The Luncheon," "Still Life with Flowers" (two pictures), "The Strand at Pornic." Vincent Van Gogh, "Boats of St. Mary's." "Portrait of Doctor Gachet." "Rowboats," "Grainfield with Cypresses."

(Continued on page 6)

Vermont Students Outrank Extra State Competitors

Vermonters Lead Other Students In B Averages and Have Fewer Dropped

PERCENTAGE DROPPED HAS SMALL VARIATION

Vermont students of entering classes rank higher in scholastic standing than those from out of the state, according to recent figures released from the office of the dean of the College of Arts and Sciences. Moreover, there is a striking similarity in the scholastic standing of the last four freshman classes.

Vermont's Best

In the class of 1934 the number of Vermont students was higher in B average students than out of state students. Out of 137 Vermont students sixteen or 11.6 percent attained a B average, whereas from 107 out of state students only six or 5.6 percent attained a B average. There is not much difference in the number of Vermont and out of state students dropped. Percentage does not vary a great deal from either point of loss or of B average. The number under warning in February last year was rather low when compared with other years.

Not including four year teacher-training students the percentage dropped from the class of 1934 is 17 percent, as compared with 18 percent for the class of 1933, while the year previous 16 percent were dropped. However, the 1931 class dropped only 15 percent and the two previous classes dropped 16 and 17 percent respectively. It is evident these figures vary very little, the highest being eighteen and lowest fifteen percent. The number of B average students was smaller in the class of 1934 with 9 percent than in the class of 1933 which had 11 percent.

Statistics

Class of 1934 as freshmen: Number in class (not including four-year Teacher Training), 244—100 percent; number four-year Teacher Training, 37 not compiled, total number of students, 281; students dropped (not including Teacher Training), 43—17 percent; students left college, 18—7 percent; total students lost, 61—25 percent; students under warning in February, 63—25 percent; students under warning in June, 43—17 percent; total students with unsatisfactory records or out of college, 104—42 percent; students with B average, 22—9 percent.

Out of ninety-three women eleven had a B average while out of 151 men students eleven held a B average. There were no out of state women receiving a B average but six out of state men received a B average.

Class of 1933 as freshmen: Total students not including four year Teacher Training, 213—100 percent; total dropped, 38—18 percent; total left college, 10—5 percent; students lost, 48—23 per-

(Continued on page 6)

OPEN HOUSE LAST NIGHT FOR THE THIRD TIME IN ONE WEEK'S INTERVAL

From Seven to Ten Yesterday Brothers Fraternal Welcomed Frosh in Last Regulated Period

The third Open House Night under the new system terminated last night at ten. Fraternity men have great praise for and few objections to the new system of conducting the open nights. The objections, however, are purely mechanical.

The objections were raised by individual fraternities mainly. The fraternities located far from the beaten path of College Street suffered from lack of freshmen at the beginning of the hours and those close to College Street or adjacent to another house suffered from a dangerous grouping of freshmen at the beginning and end of each hour which caused some slight degree of confusion. Several of the fraternities sent representatives with each group to the next house in an effort to alleviate matters.

The following figures represent with some slight degree of accuracy the number of freshmen entertained at a few of the houses allowing of course for errors and the fact that time did not allow the CYNIC reporter to visit all houses.

Alpha Tau Omega reported thirty-three freshmen this year the first night and thirty-one the second as compared with sixteen and twenty-four last year. A. J. Baldwin '32 of the Interfraternity Council spoke for A. T. O.

Phi Delta Theta had thirty-six frosh present Wednesday and thirty-nine Thursday as compared with forty-nine and twenty-four last open house season. James E. Wood '33 explained matters for the Phi Delts.

James Marvin '31, Delta Psi, president of the Interfraternity Council praised the system unflinchingly with the words "It looks O. K. to me. I'm wholeheartedly for it. The difficulties will soon be ironed out."

FAMOUS WRITER TALKS ON PARENTAL EDUCATION

"Parental Education" was the subject discussed by Dorothy Canfield Fisher, prominent writer, at the annual meeting of the Vermont Children's Aid Society, of which Prof. A. R. Gifford of the philosophy and psychology department is the head, last Tuesday afternoon at the Fleming Museum auditorium.

Mrs. Fisher pointed out that a great deal has been done through the discussion of the subject of "Parental Education" and many books have been written in an effort to further broaden the understanding of the subject.

Fundamental Laws

The speaker stated that there are many fundamental laws which parents must learn in order for a child to acquire proper conditioning in his youth. The speaker went on pointing out various laws, giving many illustrations of her points. She stated that children should not be blamed for mischievousness. If anything goes wrong there is always some reason behind it, and the parent should search for the cause as it is a responsibility of parenthood.

Child's Need

"Children need certain fundamental things," maintains the well known writer, "in order to develop in the right way." The country is much healthier for the children than the hustle and bustle of city life. Those things which may seem beneficial to a parent may not be so for the child. A child does not need the conveniences of museums, libraries, theatres, art galleries, and the like.

In concluding, Mrs. Fisher warned the parents against too much curbing the child's will. Saying that, the children should develop more initiative and that everything the parents learned from children could be applied to themselves.

STUDENT UNION NAMES MILDRED AKINS, TEACHER

Student Union Council, at its weekly meeting held in the Old Mill Chapel Tuesday noon, October 6, elected members to serve on the Joint Conference Committee, fixed the date for the freshman women's examination and augmented the duties of the secretary.

Lillian Mount '32 president of Student Union and Agnes Parsons '32, chief justice, automatically, Sylvia Boyd '33, Rose Harlow '32 and Elisabeth Mandigo '32, by election, will represent the women's student body on the Faculty Student Council, which meets in joint conference at homes of faculty members each month for the year 1931-1932.

Mildred Akins '32, was elected to take charge of the Student Union examination required of all freshman women which will be given on Friday, October 16, at 7.30 p.m. in Room 27 of the William Science Hall. The frosh co-eds will be required to know the Vermont Pledge, Student Union rules and regulations, all of which are in the *Women's Hand Book*. Mortar Board women will proctor at the exam.

Priscilla Perry '33, secretary of Student Union Council, was elected to act as editor of the Student Union section in the 1932 *Women's Hand Book*, which duty will henceforth go to each council secretary.

Students on Their Own at Foreign Universities Says Miss Howard '32

J. V. M. Senior and Katherine Rauh '32, Both of Whom Studied at the Sorbonne, Tell of the Courses, People, and Atmosphere at Foreign College

By DORINE LEE

...esting facts concerning the ...rd, the people met, and the ...osphere at a foreign in- ...igher learning were un- ...the result of a recent CYNIC ... Caroline Howard '32, and ...auh '32, both of whom ... Sorbonne, Paris, last year. ... special course for foreign- ...ward told the reporter. "It ...on course of the regular ... was started after the World ...ble the foreign soldiers to ... and is called the Course of French Civilization and includes the study of the literature produced in all the centuries, art, history, philosophy, geography of France, and a study of the French family. There is also included a course called the 'History of Ideas,' which deals with the so-called 'Great Thinkers' of France."

"In what respects does the University atmosphere differ from that in American universities?" Miss Howard was asked. "The students are much more independent, that is, one is much more on one's own," was the enlightening

THE HIGHGATE HARROWS

$40

With Two Trousers

IT takes its name from an old English school . . but it's a brand new idea in suits for the young American gentleman. Twill weaves have always been the favorite of the university man. The Harrows are brilliant new ideas in stunning darker shade twills especially designed by Highgate for well dressed young men.

TUCKS Burlington Vt.

PRENTICE INAUGURATES RIDING CLASSES IN P. T.

Riding classes for men have begun in the physical education department with fifteen members signed up and Howard Prentice, director of physical education, is in charge of the class which meets twice weekly. Much progress is reported in this phase of sport, although the sale of pillows to college students seems to be on an upward trend. The large number of dirt roads among the wooded sections around Burlington make conditions ideal

NETMEN AND GOLFERS APPROACH SEMIFINALS

Fall Frosts Bring Snap to Some Players While Others Are Harvested by Defeat

Fall weather brought a snap and vigor in the golf tournament. The list of contestants has been cut down since the first pairing and those who remain are right in the fight for a fast and spirited finish. Perhaps the best match of the whole tournament so far was the fight for supremacy between John Woodruff '34 and Bernie Mulcahy '34, both Barre boys, in which the former emerged victorious from the fray by a hair. Woodruff had defeated Francischi four and three and Mulcahy had received a bye, before they played their match. The first nine holes were played on even terms. When it came to the second nine both boys played hard and came in with the same scores. On the twentieth hole Mulcahy topped a drive and lost out by one hole, being eliminated from further competition. Austin defeated Waterman, four and three in the first round and was then eliminated in the second round by Bacon five and four. Abbott conquered Sussman by one stroke in a close match Tupper, Dunn and Spiller won their matches by default. Bristol succumbed to Hardin five and four. Boynton outplayed Burke four and two.

The first round of the annual tennis tournament has been played off resulting in victories for all the seeded players and other outstanding players on the campus. The record number in the tournament has sifted down to half of the fifty-six who entered this fall.

Patch, a freshman from Windsor, had no trouble in defeating Keelar, a classmate 6-3, 6-2. K. Johnson took over Rees in easy fashion to the tune of 6-3, 6-2. J. Beckley '39 defeated N. Wells '34 on the Delta Psi court in a fast and well played match by the scores 6-4, 6-1 I. Bent '35 defeated C. Howe '35, in quick time 6-0, 6-1. Sessions won his match from Dammery 6-4, 6-3. In a second round match. J. McDonald '35 from Vermont Academy defeated C. J. Libby '34 in a windy match. The match as indicated by the score 7-5, 6-4 was close

CYNIC WILL PUBLISH NEW HUMOR SUPPLEMENT

As a new departure from the conventional idea of collegiate entertainment and as an attempt to increase the scope and interest of the Cynic, the humor department announces its intention of publishing a monthly humor supplement to the Cynic. This supplement is to be known as the Picador. The student-body is urgently requested to turn in all jokes, sketches, columns, art work, and poetry of an undeniably original and humorous nature to the Cynic office.

Members of the faculty will be asked to contribute interesting anecdotes and it is expected that columnists of former days will enrich the Picador with their efforts. An early response will greatly expedite the appearance of the first issue.

ODDS AND ENDS

FIRST THINGS FIRST

Coach (to star player): What's this I hear about your studying? Ain't I told you not to break trainin'? Don't let me catch you doin' it again. *Temple Owl*

First Frosh: Wonder what time it is. Second hopeless: It can't be eight o'clock yet because I'm due at the house for phone duty at eight o'clock and I'm not there.—*Cornell Widow*

A divinity student named Tweedle,
Once wouldn't accept his degree.
'Cause it's tough enough being called Tweedle,
Without being Tweedle, D.D.

Record

SPORTS SYMPOSIUM

WON BY DECISION

President Lowell's refusal to permit Harvard athletes to become commercial gole-subsidizers by the transfer of the Army-Harvard football game to the Yankee Stadium is the only answer to an unwelcome proposal. Nor would the president have been able to justify allowing the Harvard football team to take the chance of becoming a political power even at the center of the universe.

The financial effect on the Harvard Athletic Association aside, for it has been logically explained, there is no reason which can justify the complete commercialization of a college football team and game. And especially when the efficiency of municipal government charity and its administration is debatable.

The president has vigorously refused an invitation the acceptance of which would have been in even worse taste than its issuance.

The Army-Harvard football game will not be played at the Yankee Stadium for the benefit of the unemployed of New York and Boston, it became known last week following a meeting between President Lowell and Mayor James M. Curley of Boston. At the same time President Lowell declined to have contributions made towards unemployment relief from the proceeds of the Harvard-Dartmouth or Harvard-Yale games.

The mayor's visit, it is understood, was an entirely friendly one. In refusing cooperation with the local and New York authorities President Lowell emphasized that it is against the policy of the university to allow Harvard athletes to play in a public stadium. The proceeds of the games played in the stadium in Cambridge go to the support of university athletics. The proposed game at the Yankee Stadium, it was pointed out, would tend to commercialize college football. While in sympathy with the movement to relieve the unemployed, officials of the Athletic Association felt that nothing could be spared from the proceeds of this season's games, since the association feels "it would be fortunate to avoid a deficit for the year."

The Mayor, in his visit to President Lowell's office at 10 o'clock, was acting in behalf of New York authorities. Mayor James J. Walker of New York City, and F. J. Taylor, chairman of the Mayor's Committee on Unemployment sent a telegram to Mayor Curley on September 29, requesting his cooperation in negotiations with university authorities.

In his telegram, proposing that the game be played in the Yankee Stadium on October 17 with the balance of the guarantee fund to be distributed evenly to the unemployed of Boston and New York, Mayor Walker said, "Army officials at West Point have indicated their sympathetic cooperation, and therefore Harvard's consent only is needed."

The refusal of Mayor Walker's suggestion was not unexpected. Last fall a proposal for a post season game in the stadium, with Harvard participating the proceeds to be devoted to charity was declined by President Lowell.

The coeds of Boston University won a football victory last week at Nickerson Field, Riverside. Not only did they score a decisive win on the field of battle, but they did it against boys—the B. U. second varsity eleven.

Eleven brawny girls traipsed out on the Weston sward and lined up against Boston University's he men and emerged victorious after one minute and thirty seconds of play. There wasn't any doubt about their success in upsetting their male opponents. Here's how it happened.

For the education and entertainment of several students from Boston University's Sargent School of Physical Education, the Terrier second team was scheduled to play the freshmen in an exhibition game. The female element arrived on time to witness the contest, and the delegation from Cambridge sat down at the edge of the field and waited for the boys to get started.

Five minutes went by, and out trooped the valiant second teamsters. They lined up on one end of the field and started traveling towards the other in a very instructive but exceedingly boring signal drill. The coeds fidgeted—they wanted action and this wasn't action in any sense of the word.

Step In as Opponents

Ten minutes passed and the second team was still engaged in signal practice. They had made two trips up and down the field, the quarterback calling signals, the center snapping the ball back, and the whole team rushing forward—with nobody to stop them.

Nervously the girls began to squirm around. They came out here to watch a football game and all they saw was eleven men marching up and down the field. Somebody got up and gathered a few of her girl friends around her. Before anyone knew what happened eleven enterprising females were trooping onto the field of battle, and another minute saw them lined up against Coach Hilary Mahaney's seconds.

Freshmen as Subs

The coeds wanted action, and if they couldn't see it, they were going to supply it for themselves. The male quarterback looked nervously around at his teammates and wondered what to do. And then Roger Washburn, freshman coach, came to the rescue. The yearling mentor got his eleven together and trotted the boys out to the field.

Eleven brawny coeds gravely marched back to their posts at the side of the field. They wanted action. They got it. "We have met the enemy and they are ours." Incidentally, the second varsity won the game and the girls went home satisfied.

Vermont Bows to Providence Gridsters by 27-13 Score

Behind 27 to 0 at End of Third Quarter, Catamount Team Stages Dramatic Last Minute Rally to Tune of Two Touchdowns and Beginnings of a Third

SABA MAKES LONG RUN FOR FIRST TOUCHDOWN

Making perhaps their best showing of the season, Vermont took a 27 to 13 defeat from the Providence College Dominicans at Providence. Apparently weak and dazed in the first half, in the last period the Vermont gridsters started a rally that brought two touchdowns, one by a seventy-yard run from scrimmage, and was on the way toward producing a third score when the final whistle blew.

The Game By Periods

First Quarter

Providence kicked off and Winant ran it back for a short gain. After being thrown for a loss Vermont kicked with both teams offside on the play. Manning nearly intercepted a pass from O'Keefe but the ball slipped from his grasp. Vermont fought and held until the Friars punted. Vermont was showing a bit of fight. Bove took a lateral and ran through four players for a first down. Providence held but Winant's fine kick to the Providence 25-yard line put the ball out of danger. On the exchange of punts Vermont fumbled and Birdge recovered for Providence on Vermont's 30-yard line. A lateral and first down for Providence. In three successive plays Captain Foster, who was the high-light for the Friars, raced for a touchdown. O'Keeke kicked the extra point. Providence 7, Vermont 0.

The fumble and subsequent touchdown proved the damper which hung over Vermont until the brilliant fourth quarter.

Manning ran the kickoff back to the 25-yard line. Bove fumbled but recovered with a loss of 10-yards. The kick went outside on the Vermont 46-yard line. Wright dashed around left end for 15-yards. Foster, around left end for 23-yards and first down. On the fourth down Foster went around left end for a touchdown. Captain protested that Foster had gone outside on the 5-yard mark but Referee Mahoney didn't agree. O'Keefe's kick failed. Score Providence 13, Vermont 0. Quarter.

Second Quarter

Bove took the kickoff from the shadow of the Vermont goal and squirmed to the 36-yard line. Winant made a beautiful pass to Wood for a gain of 11-yards and first down. Vermont fumbled and the Friars recovered. On the next play Providence was penalized 15-yards for holding. A pass far over the scrimmage line failed. Bove caught the kick but was stopped dead. Wesoly replaced Taft at left half. Winant passed to Bove for 7-yards. Bleiler fumbled Vermont's punt but recovered. Providence made 25 yards around right end. Foster made another end run to put the ball on Vermont's 31-yard line. Time was called as an entirely new Providence line was substituted. A pass, Bleiler to Wright netted 10-yards. A triple pass, Bleiler to O'Keefe to Foster, put the ball on Vermont's one foot mark. The Vermont team seemed stunned. O'Keefe plunged through the line for a touchdown. The placement kick was good. Score, 20-0, Providence.

On the kickoff Vermont ran the ball back to the 20-yard strip. Saba replaced Bove who got a big hand from both Providence and Vermont fans. Saba went off tackle for 8 yards. Winant fumbled on Vermont's 29-yard line and Providence recovered. Providence was penalized 15 yards for holding and punted to Saba on his 11-yard line. Saba gained 2 yards through center. Rapuano went through center for 20 yards and a good first down. Rapuano took the ball, this time around right end for 5 yards. Saba went around right end for 4½ yards. Rapuano plunged 4 yards through center for another first down. Vermont was beginning to show some pep but the half ended as Rapuano went outside on the Friars' 38-yard line. Score: Providence 20, Vermont 0.

Third Quarter

Wright took Vermont's kickoff on his own fifteen yead line but advanced the ball to the 40-yard line before he was downed. Foster galloped 45 yards around right end behind good interference. O'Keefe went 5 yards around right end. Vermont bucked up and held with slight loss. The Friars punted to the Vermont 20-yard line. Saba gained 2 yards through tackle. Rapuano went through the line for 4 yards. Bowers was carried off the field with a fractured nose and split lip. Larry had been doing some nice defensive work. Saba booted a great kick for 52 yards. Plays through the line netted Providence 8 yards. Morgan's wind was knocked out. Foster took a lateral around left end for 20 yards. Katznelson went around end again for 10 yards. O'Keefe went around left end, for the third time, for 12 yards. Providence fumbled but recovered. Winant batted down a long pass to Foster. A pass, Wright to O'Keefe put the ball on Vermont's 12-yard line. Vermont stiffened and held for downs. Saba kicked 33 yards from behind his own goal line. Foster rolled through three men for a first down. On the next play Foster took the ball wide around left end for a touchdown. The kick was good. Score, Providence 27, Vermont 0.

Saba ran the kickoff back to the 30 yard line. Plays through the line failed. Vermont kicked to the Friars' 35-yard line. A play around end gained 5 yards.

W. A. A. WILL CONTINUE AWARDS ON POINT BASES

This year as usual, W. A. A. is continuing its point system. Any student obtaining 400 points in one year or 600 in two years shall receive her numerals if she has been on one first team. For 300 points and membership on two first teams, a sophomore or upperclass woman shall receive a U. V. M. emblem. A junior or senior getting 1,200 points shall receive a green blazer if she has been on one varsity team

Senior: Young man, what is that beneath the seat of thy pants?

Frosh: "Shh! Dynamite! I'm waiting for some sophomore to tell me to bend over. Then when he smacks me it will blow his hand off!

"Spike" had been to college for the first time.

"Well darling, and what did you learn?" asked his mother on his return

"Nothin'," sighed "Spike" hopelessly "I've got to go back tomorrow."—*Rutland Red and White*

Hop Hostler: What are you doing now, Bummy?

Bummy Lamb: I'm a coffee corner blacksmith.

Hop: What do you mean?

Bummy: I shoo flies.

ETA SIGMA PHI WILL CONVENE IN NOVEMBER

Eta Sigma Phi, honorary classical society will probably hold its next meeting in the first week of November. At this meeting invitations to membership will be extended to several who are now eligible.

To be eligible to Eta Sigma Phi, a mark of A for one semester of Greek, or of B for two semesters, is necessary. Membership is honorary and is by invitation. Officers are elected by a plurality vote of the members. Fred Householder '32 is president of the organization and Fraser Drew '33, treasurer.

PRACTICE HOUSE HAS SEVEN GIRLS WEEKLY

The home management house, operated each year by the home economics students, who live there in groups of seven for a week at a time, opened last week. The girls in charge were: Vivian Hubbard '32, hostess; Alice Brooks '32, assistant hostess; Laura Johnson '33, cook; Alice Gay '32, house manager; Virginia Drew '34, waitress; Margaret Burnat '35 and Elizabeth Crockett '35, second girls.

HEALTH COUNCIL PLANS COLLEGE HEALTH WEEK

Health Council is making extensive plans for an active year. One of the outstanding features will be College Health Week, to begin November 16.

FRATERNITY SEPTETS STRUGGLE FOR LEAD

(*Continued from page 3*)

son starred on the Delt team and accounted for three touchdowns.

Tomassetti Runs Wild

Tomassetti kept the Delta Psi team out of breath in the second half when he ran back and forth around the field when he was carrying the ball. Beckley played a good game but he couldn't stop Mercier's dashes, snappy dodging and passing. The second half was a track meet more or less when the Sigma Alpha Epsilons ran away from their opponents.

Line up: Sigma Alpha Epsilon: Mercier, Tomassetti, Calcagni, Valerio, Wells, Gladding, Massucco. Delta Psi: Wilson, Reed, Talbert, Beck, Marvin, Wood, Maco, Cobb (sub). Touchdowns: Massucco 3, Wilson 3, Calcagni 1, Wells 2.

Summer Changes Renovate U. V. M. Buildings With Floors And Paints

Gymnasium Gets New Floor, Converse Renovated; Old Mill Pepped Up; Radio Shack Dismantled and Old Museum Revamped as University Cleans House

Summer time brought several changes and repairs to the ...ege buildings about the University campus, including changes to the gymnasium, Old Mill, Converse Hall and the dismantling of the Radio Shack.

The gymnasium received a new hardwood floor to replace the one used formerly which had many times wrought casualties to Vermont students and visiting athletic teams.

Converse Hall

Converse Hall, men's dormitory was completely renovated or the inside. Stairways in the middle and north sections were painted and varnished. Walls were plastered and painted while South Converse has been closed pending further alterations in the coming year.

The Old Mill and other buildings used for classroom instruction also received their annual coats of paint and other phases of summer cleaning.

Radio Shack Gone

The building southeast of the Williams Science Hall, commonly called the Radio Shack was removed from the campus because of its ugly appearance. According to Registrar F. W. Kehoe this is the first opportunity the University has had to accomplish this work since the war ended. Last year the radio station WCAX was suspended and transferred to the *Burlington Daily News*.

Classes Elsewhere

Classes of the engineering college held in the Radio Shack are now conducted on the first floor of the old museum building in the room formerly occupied by the Cannon Oriental collection

The military department, which for the past several years have used the Shack for classroom demonstrations and examinations are now holding away over 45 Middle College which formerly was used for English recitations and political science lectures. The room now echoes with the lectures on military science by officers in charge of the R. O. T. C. classes conducted there

EDUCATIONAL SOCIETY HOLDS FIRST MEETING

Upsilon Tau Sigma, society for education students, held its first meeting of the year at the Vermonters' Club house, Thursday evening, October 8. Catherine Clarke was elected president, Elizabeth Crow, vice-president and Evelyn Chamberlain, secretary and treasurer. Following the business meeting, games, dancing and refreshments of cider and doughnuts were enjoyed

HOME ECONOMICS CLUB TO HOLD MEETING SOON

Miss Bertha M. Terrill, head of the home economics department states that the home economics club has not been organized as yet. However, a meeting is planned for the near future and the date will be announced later.

MISS BALDWIN TO OPEN SOCIAL DANCING CLASS

A class in social dancing will be held Tuesday, Wednesday or Thursday evenings. Miss Baldwin requests that all women interested in such a class submit their names and the night preferred to the gymnasium office. The cost is to be one dollar for four lessons. The place will be decided later

Just after the Williams game we spoke to trainer Joe Gilmore, who assured us that Boston University outplayed the opponents in every way—witness our ten first downs to Williams' three. Right now we'll give odds on the New Hampshire game next Saturday.—*B. U. Wal...*

"I'm going to double my salary," said Ethan Allen, Jr., as he folded a five dollar bill *Rutland Red and White*.

TETHER BOARD POLES ARE PLACED AT DORMS

...two tether board poles are located at ...dstone and Robinson Hall. A demonstra... of the game will be given this ...and it is hoped the poles will be ...used more frequently thereafter.

Quoits have been placed on the grounds ...several of the women's dormitories and ...may be used at anytime.

...Whalen was elected president of ...freshman class Thursday afternoon ...Old Mill Chapel at 4 o'clock in ...session held under the auspices of the ...Society. Marie McGuire was ...vice-president; Helen Miller, ...and William Cass, treasurer. ...elections were made by plurality vot... and were conducted by Sam Barker

MANY WOMEN OUT FOR 'WINNOWINGS' THIS YEAR

A large group of women composed from the freshman, sophomore and junior classes interested in scrubbing for *Winnowings*, Vermont's literary magazine, met last Thursday at 1.30 p.m., in 3 North College. Hope Ranslow '32, editor-in-chief of *Winnowings* explained the method of scrubbing for the literary side of the magazine, while Roberta Powers '32, business manager, explained the details of the advertising and circulating departments. The scrubs are to begin active work immediately, and their work will be judged on a keen basis of competition.

B. G. (young and enthusiastic): Have you ever met a man whose very touch seemed to thrill every fibre of your body?

A. H.: Oh yes.

B.: Oh, who was he?

A.: My dentist.

DYNAMIC

GIRLS
Do Not
Smoke Pipes

THE GIRLS haven't left us many of our masculine rights. They fly our airplanes, drive our cars, smoke our cigarettes—but they don't smoke our pipes! They've left us this one manly right, anyway.

You'll never see her smoking a pipe.

A man almost *has* to smoke a pipe nowadays. A *pleasant* necessity! For a pipe filled with good tobacco is just about the best smoke a man could want.

For men only—the joys of a pipe.

And if you're troubled about selecting a tobacco, remember that Edgeworth is the popular favorite in 42 out of 54 colleges. It somehow seems to fit the college man's taste. Edgeworth is cut especially for pipes, it burns slowly, it gives a cool smoke. You can buy Edgeworth wherever good tobacco is sold. Or, for a special sample packet, write to Larus & Bro. Co., 100 S. 22d St., Richmond, Va.

EDGEWORTH
SMOKING TOBACCO

Edgeworth is a blend of fine old burleys, with its natural savor enhanced by Edgeworth's distinctive and exclusive eleventh process. Buy Edgeworth anywhere in two forms—Edgeworth Ready-Rubbed and Edgeworth Plug Slice. All sizes, 15¢ pocket package to $1.50 pound humidor tin.

NOTICE

FENCING

Will all those interested in fencing please meet Wednesday at four in the wrestling room of the gymnasium. Fine opportunity for new men.

Coach Gardner wishes that all candidates for baseball would report every afternoon at 4 o'clock on Centennial Field for fall practice until further notice.

Manuscript appearing in an annual transit for new membership. Short stories, poetry, essays and other contributions should be left at the Theta house or given to a member of the organization. The transit closes at Thanksgiving.

JUNIORS

Appointments for photos for the 1933 Ariel must be made at the Old Mill between Monday, October 12, and Friday, October 16. A staff representative of the Ariel will be in the north hallway on first floor to make the appointments.

Tryout for accompanist for the orchestra and also for the Women's Glee Club, Wednesday at 4 p.m. in the Music Building. Candidates should play some piece they have studied if possible.

Tryouts for accompanist for the University Women's Glee Club and Orchestra will be held at the music building on Wednesday, October 14, at four o'clock.

FIELD DAY HEAD TO BE ELECTED NEXT MONDAY

CHEMISTRY DEPARTMENT OFFERS NEW COURSE

PRESS CLUB TO HEAR PROFESSOR LEON DEAN

"Beautiful Young Idiots"

Honorary Society Plans Fall Dance

There will be a short meeting of Grey Friars Thursday afternoon, October fifteenth at four o'clock in Room 1, North College to make plans for the coming semester and to decide upon a program for the first meeting of the year. All members are requested to be present at this meeting.

NEW ORGANIZATION IN MILITARY DEPARTMENT

Tomlinson Going

A change in the personnel in the military department will be effected soon as Lt. C. M. Tomlinson, who has been transferred to Camp Devens, Mass., will be replaced by Capt. P. S. Campbell formerly of Fort Wayne, Michigan.

The new freshman military uniforms are expected about November 1 and the freshmen will drill in uniform after their arrival.

W. A. A. POINTS

Some misunderstanding has arisen regarding the earning of points for W. A. A. awards. Those wishing to count outdoor exercise for credit must note that walking around town only counts as exercise for health cards, and not for points towards insignia. Regular hikes are necessary for points.

HOSPITAL WILL BENEFIT FROM PROCEEDS OF PLAY

Many Happy Returns of the Day To be Presented at Memorial Auditorium Tonight

"Many Happy Returns of the Day," a one-act play by Florence Clay Knox, which won the Dean Cup in the class competition of November 14, 1930, will be re-presented this evening at the Memorial Auditorium, under the auspices of the Women's Dramatic Club, for the benefit of the Mary Fletcher Hospital.

The cast of characters is:

Margaret Haswell, Dorothy Murphy '33
Edith Baxter—her friend,
Elizabeth Eckhard '33
Louise—a maid .....Dorinne Lee '33
Three birthday ghosts
Margaret Elizabeth—Margaret at 10
Dorotha Edwards '33
Miss Jenks—Margaret at 20
Marguerite Dunsmore
Mrs. Haswell—Margaret at 30
Sylvia Boyd '33

The scene of the play is in the living room of a small but very smart New York apartment. The time is the present.

Another Chance

Margaret Haswell, on her forty-fifth birthday, finds herself restless and discontented, in spite of the fact that she is an independent woman. She reviews her life as it has been at various stages, and analyzes herself critically for the first time. The result of this introspection is a cablegram to her former husband, not only granting him another chance but requesting one for herself.

Casts Record

Dorothy Murphy '33, a member of the Dramatic Club and Masque and Sandal, played in "To Have the Honor," last year's Junior Week production.

Elizabeth Eckhard '33 is a member of Kappa Alpha Theta fraternity, Dramatic Club and Y. W. C. A.

Dorinne Lee '33 is a member of Kappa Delta fraternity, Dramatic Club, Women's Cynic board and House Committee.

Dorotha Edwards '33 belongs to Kappa Delta fraternity, and Masque and Sandal. She played a rôle in "To Have the Honor."

Marguerite Dunsmore '33 is a member of Dramatic Club, Women's Rifle Team, and is short-story editor of *Winnowings from the Mill*.

Sylvia Boyd '33 belongs to Alpha Xi Delta, Masque and Sandal, Eta Sigma Phi, is vice-president of Student Union, president of Y. W. C. A. and played in "To Have the Honor."

Y. W. C. A. MEMBERSHIP TO INCLUDE ALL WOMEN

The Y. W. C. A. has adopted a new plan of membership in preference to the usual campaign by which each student, contributing one dollar, became a standing member of the organization. This year every woman in college is considered a member of Y. W. C. A. This change has been brought about by the action of the Advisory Board of the Vermont Christian Association.

Following the custom of the V. C. A. and in cooperation with it the Y. W. will conduct a financial mail canvass among the parents of all the students. By this means the Y. W. C. A. hopes to be of greater service to the women's student body. The winter's program will include several different features of varying interest to groups on the campus. The policy of the Y. W. Council this year is to establish an ideal of service and vital interest on the campus. All particularly interested in the activities of the Christian Association will be given, in a short time, an opportunity to participate in them.

ALPHA CHI OMEGA TO ENTERTAIN THREE-DAY NATIONAL CONVENTION

Delegate of Seven Chapters Will Meet This Week-end for Annual Assembly

NATIONAL OFFICERS TO BE PRESENT AS GUESTS

Alpha Iota Chapter of Alpha Chi Omega is to be hostess at a province convention of the national fraternity, to be held October 16, 17 and 18 at the local chapter house on Main Street. Six other chapters will send delegates to the convention. Delta at Allegheny College, Meadsville, Pa.; Eta at Bucknell University, Lewisburg, Pa.; Zeta at New England Conservatory of Music, Boston, Mass.; Lambda at Syracuse University, Syracuse, N. Y.; Alpha Epsilon at University of Pennsylvania, Philadelphia, Pa.; Alpha Tau at University of New Hampshire, Durham, N. H.

The guests of honor are to be: Mrs G. L. Van Auken, national president; Mrs. P. Wemyss-Smith, national inspector; Mrs. H. Dalghist, Atlantic province president; Mrs. G. L. Graff, ex-national president; and Mrs. H. Haley.

Local guests will be: Pres. Guy Bailey, Dean Marion Patterson, Misses Ella Cummings, Alice Blanchard, Bertha Terrill, Freda Harris and Charlotte De Volt; Mrs. W. R. Adams, Mrs. C. F. Braun, Mrs. D. B. Carroll and Mrs. S. Hagar.

The program of the convention, Friday, October 16: A.M.: 9-10.30, registration; 10.30-11.15, open session; 11.15-12, business session. P.M.: 12.15-1, luncheon; 1.30-4, closed session; 4-5.30, alumnæ round table; 6.30, dinner; 8.15-9.15, musicale; 9.15-11, bridge.

Saturday, October 17. A.M.: 7.30, breakfast; 8.45-12, business session. P.M.: 12.15-1, luncheon; 1.15-4, business session; 4.30-5.30, Panhellenic tea; 8, formal banquet.

Sunday, October 18. Drive to Smugglers' Notch. Dinner at "Twist o' Hill" Lodge.

REPEAL OF PROHIBITION SUBJECT OF FROSH-SOPH DEBATE TRYOUT TONIGHT

Tryouts for positions on the freshman sophomore debating teams will be held tonight in the Old Mill Chapel at 7.30. The subject for debate will be: Resolved, that the Eighteenth Amendment Should be Repealed. The constructive argument will last five minutes with three minute rebuttals. Each affirmative speaker will oppose a negative one in a series of two man debates.

Thus far five sophomores and five freshmen with a possibility of a sixth, have signified their intention to enter the tryouts.

The freshmen are W. H. Myers of Burlington, who captained the Burlington High School debating team in 1931; George Ranslow of Montpelier High School with no previous experience; Nathaniel Gould of Barre, captain of Spaulding High School in 1931; Stewart Wright of Burlington, who was on the Burlington High School team during the years 1929, 1930. Ephege Lalumiere of Milton, with no previous experience.

The sophomore candidates are: José Monte, C. J. Libby, Realtus McCuin, Robert Van Dyke and George H. Burrows. All of whom had experience in junior varsity debating last year.

PI BETA PHI'S NEW HOME TO BE COMPLETED SOON

Work on the new house for Vermont Beta of Pi Beta Phi is advancing rapidly and gives promise of completion by the middle of November in time for Thanksgiving and the fall dance.

The house is situated on the northwest corner of South Prospect and Cliff Streets, the outer construction is practically completed. The heating, which is entirely from an oil furance, was turned on for the first time October 12 to dry out the cement work. All the mouldings and the tiletex floor of the chapter room are finished. The wiring will be done in a few days.

The Home Economics Club, sponsored by Prof. Bertha Terrill, will begin holding regular meetings very soon. All home economics girls are expected to join the club.

WE SEEK KNOWLEDGE SAYS REVEREND MYERS

"We are creatures of adventure, restless in our search for knowledge," thus ran the theme of Rev. Skillman Myers sermon, Wednesday morning, in Ira Allen Chapel. We are never satisfied with having discovered facts about certain mysteries, but must always search for more to learn. In spite of our constant search for knowledge we still remain a people of faith, rather than of knowledge.

The choir, which has been under the direction of Prof. H. G. Bennett sang "The Heavens are Telling," by Beethoven.

CONCERT ASSOCIATION IN MEMBERSHIP DRIVE

Local Organization Offers Reduced Rates for Students in Enrollment Campaign

Featuring special rates for University students, the Community Concert Association will open a one-week membership campaign at a six-thirty dinner for workers and invited guests at the Hotel Vermont, next Monday evening. The drive will close Saturday night at nine o'clock.

The association, a division of the Columbia Broadcasting Company, proposes to make musical concerts possible on a basis which will eliminate all financial risk upon the part of any group or organization. At the end of the campaign membership will be closed and no one will be able to join for another year.

Mr. H. K. Hooks, Jr., the organization director, is sponsoring the movement in Burlington, with Mr. Robert H. Ferguson in active charge of the membership drive.

The movement is nation-wide, and has spread through one hundred fifty cities and college towns in all parts of the country. An association membership card entitles the bearer to attendance at any concert staged in one of the foregoing cities.

Membership cards may be secured at Bailey's Music Rooms any time next week for the price of five dollars per year. University students will be enrolled at the reduced rate of three dollars.

Payment of dues entitles each member to attend all concerts presented by the association during the season without any additional expense. A large enough membership must be secured during the week of campaign to make possible a minimum of three major concerts or the association will not function.

Officers in charge of the local organization include Mr. Harlie E. Wilson.

(Continued on page 4)

MAGNETISM SUBJECT OF ENGINEERS' DISCUSSION

G. S. Flagg '32 gave an interesting talk on "Magnetism" last Monday afternoon at the second student engineers' conference of 1931-32, held at Williams Science Hall, under the auspices of the local A. I. E. E.

Fifteen students and faculty members were present.

Mr. Flagg illustrated his talk as he progressed with the aid of numerous electrical contrivances. He demonstrated the manner in which the Leyden jar or condenser was accidently discovered by a Dutch scientist while performing an electrical experiment. With the aid of a Topler-Holtz induction machine he accomplished several surprising experiments in static and magnetic power.

Professor Buchanan called attention to an interesting commercial film, "The Single Ridge." This film is of an educational type depicting the manufacture of rubber insulation. He explained that it had been presented here several times before, but as no one present had previously seen the film it was decided to leave the matter of obtaining it to the program committeee.

74 Students Average Not Lower Than B For College Year 1930-31

Dean Swift Issues Honor List Which Considers A as 95 Percent and B as 85 Percent

CLASS OF 1932 LEADS WITH 29 MAKING GRADE

Juniors Have Highest Number of A Averages While Classical Curriculum Tops All Others With Eleven Honor Students

Seventy-four men and women from the three upper classes earned positions on the honor list issued by Dean Elijah Swift of the arts and sciences college, for having attained last year a scholastic average of not lower than B. In making out the list an A is counted as 95 percent and a B as 85 percent. A means all A's, ½A, an average of 90 percent; *No* average below 85 percent.

The class of 1932 leads with twenty-nine students on the high average list. The junior class leads with the highest number of A averages while among the ten curricula the classical tops all others with eleven honor students.

Statistics according to classes and curricula

	A	½A	B	Total
1932	1	10	18	29
1933	2	4	17	23
1934	1	6	15	22

	G.S.	Cl.	L.S.	S.S.	H.E.	SEC. C and E	T.T.	CH.
1932	5	11	7	0	0	1 3	1	1
1933	5	6	3	3	1	4		*Medicine* 1
1934	2	2	8	1		3 6		

In the following list the averages are given after the names, *viz.*, first half, second half, and year. Names starred had short card.

WOMEN'S OUTING CLUB NOW BEING ORGANIZED

A Women's Outing Club is being organized as a feature of W. A. A. with Alice Hoyt '34 as president. Plans are materializing for an overnight trip to Camel's Hump for the week-end of October 24. All women interested in joining the club should see Alice Hoyt at Campus House.

Poultry Study Is Circular Subject

A special circular, entitled, "A Study of the Poultry Enterprise on 53 Vermont Farms," has just been issued by the Extension Service of the State Agricultural College. The circular is by C. W. Gilbert, extension economist, and A. W. Lohman, extension poultryman. It may be had free of charge by addressing a post-card request to Extension Service, Morrill Hall, Burlington, Vermont.

Poultry is kept as a sideline on most Vermont farms, primarily for the purpose of supplying eggs and chickens for the farm family. On many dairy farms, however, the amount of hay and pasture land available limits the size of the dairy that can be kept and farmers are developing the poultry enterprise as a means of increasing the income from the farm. A few have gone a step further and have developed poultry keeping as a special business.

The circular discusses the findings from a survey on fifty-three of these farms, as made in 1928-29, when conditions were a little different from the present, but the fundamental considerations of the poultry business the same. The circular, basing its statements on the result of the study on the fifty-three farms, considers size of farms and flocks, capital investment for poultry, receipts and expenses, costs and returns in producing eggs, costs of growing pullets, and factors affecting profits, such as size of business, production and flocks management process.

All junior photos to be published in the 1933 Ariel must be taken by the official Ariel photographer in order to fill the terms of the Ariel contract. Any difficulty in this matter should be reported immediately to R. F. Colburn, editor-in-chief of the publication.

Time Out

So Union beat Amherst 7-6 and U. V. M. beat Union 7-0. If you remember correctly Amherst beat Vermont by 41 to no last season

—time out—

Last Saturday's 27-13 score proves one thing at any rate. Vermont has a team that can score. So far this season the Green and Gold have not failed to score at least once in every game.

—time out—

Bove displaced Saba at quarter and piloted the team neatly all the way down the stretch. When Saba was finally given a chance he romped 65 yards for a touchdown. It is good psychology to show a player that he is not indispensable, but it is better football to hold the light men back until the opposition have somewhat tired.

—time out—

Says Bill Cunningham in *The Boston Post* "How About the Gate Receipts?"

So long as Boston University or any other football-playing institution charges an admission price to see its team perform, it's in commercialized athletics and it owes its paying public the best brand of goods it can deliver. If its conscience is rebelling at what seems to be the hypocrisy of it all, that conscience can't be salved by keeping the cashier and chasing the coach.

Although intercollegiate football is classed as an amateur sport since the players aren't, or aren't supposed to be, paid, it is really as highly commercialized as professional baseball, and the customer is charged anywhere from twice to five times big league baseball prices to see a game played. For that money, the customer is entitled to a return. Returns are obtained by skillful coaching and expert handling in action. The customer is cheated if he's offered any less.

The college should give him his money's worth or let him in free. The English ideal is all right, but after all this isn't England, and intercollegiate football isn't an English article in any sense of the word. B. U.'s move, viewed from the cold-blooded commercial standpoint, is a weakening of her product at no reduction in prices. At least, there's no mention of a reduction in her new spokesman's pronouncement.

—time out—

Our Opponents Saturday Last

Colby	0	Tufts	21
New Hampshire	0	Harvard	39
Norwich	0	Bates	34
R. P. I.	7	Clarkson	13
Middlebury	6	Mass. State	32
Springfield	0	Rutgers	26

—time out—

We will predict for tomorrow one of the hardest fought battles Centennial has witnessed. While we predict in this optimistic vein may we be pardoned for predicting that *Vermont will win.* Middlebury will win and Norwich will loose in this week's thrillers.

Look Out, Instructor!

"I got the copper residue in Ex. 7 and guess how much it weighed?"
"Five grams?"
"No."
"Seven grams?"
"No."
"Ten grams?"
"No."
"Well, how much, then?"
"I don't know, I didn't weigh it."—*Northwestern Purple Parrot.*

HEALTH WEEK WILL BE SPONSORED IN NOVEMBER

Health Council will sponsor a Health Week to be observed from November 16-20, in carrying out its code, "to promote the adoption of a health concept by all college women with the hope of realizing actual improvements in the habits of living."

During that week each member of the council will choose and develop a "healthful" subject; individual ideas will be worked out on posters which will be placed on a bulletin board on campus. Some of the subjects to be treated are the proper kind of shoes, breakfasts, sleep, exercise, air and posture.

CINEMA COLUMN

At the Flynn

Wednesday and Thursday, October 21 and 22

"Alexander Hamilton" is based on the play "Hamilton" written by George Arliss and Mary Hamlin which was a stage success several years ago. The play deals with a dramatic episode in the life of the great statesman, when the wiles of a pretty adventuress temporarily held him in her power, and caused a scandal which only his outspoken confession of his infatuation for the woman cleared up. Arliss is starred and gives his usual smooth performance. June Collyer plays the adventuress. Others are Doris Kenyon, Dudley Digges and Montague Love Good.

Friday and Saturday, October 23 and 24

Lewis Ayres in "The Spirit of Notre Dame."

Another football movie. The New Hampshire game on the same day will be much better, but we won't guarantee the happy ending.

At the Majestic

Monday and Tuesday, October 19 and 20

"Wicked." Heavy dramatic fare about a bank robber and his wife who go to jail. Eventually they get out and go to Australia. The story is dumb but Elissa Landi, Victor McLaglen and Theodore Von Eltz are good. The direction is excellent.

* * *

Wednesday and Thursday, October 21 and 22

"The Road to Reno." What price divorce? and so forth. Lilyan Tashman is swell as the habitual divorcée who fumbles her last divorce. The rest of the cast is fair, too. Charles Rogers, Peggy Shannon, William Boyd, Skeets Gallagher, Irving Pichel and Wynne Gibson.

At the State

Monday and Tuesday, October 19 and 20

"The Reckless Hour." Dorothy Mackaill and Conrad Nagel are good in a trite story.

Wednesday and Thursday, October 21 and 22

"College Lovers." Old stuff with a new angle—the hero doesn't make a last minute touchdown. Jack Whiting and Marion Nixon are the lovers.

Friday and Saturday, October 23 and 24

"The Gorilla." Not as good as the play. You won't be thrilled at all. Joe Frisco, Lila Lee and Harry Gribbon are lousy.

Improved Play Makes Catamounts' Prospects Good For Colby Game

Showing in Providence Game Gives Vermont Fine Chance to Win

MANNING AND BACKFIELD MEN EXPECTED TO STAR

With the St. John's and Providence games past, Coach Dunn is pointing his Catamounts for their second home victory when they meet Colby tomorrow afternoon on Centennial Field.

Little is known regarding the comparative strength of the two teams. Colby dropped a 21-0 game to Tufts last Saturday at Medford and as Tufts is rated high among the New England small colleges this year, it is expected that the Catamounts will have their work cut out for them if they take the Mules into camp.

Cheery Outlook

The followers of the Green and Gold possess a more cheery outlook as a result of the improved showing made by the team against Providence last Saturday. The fighting spirit was exemplified when two touchdowns were pushed over in the last quarter, and the *Boston Herald* write up of the game mentioned a hard-fighting Vermont team.

A review of Saturday's game shows that the all-around play of the Green and Gold was decidedly improved. The inability to stop O'Keefe, the Friars' fullback, spelled defeat for Vermont.

Backfield Stars

In the backfield George Rapuano and Ed Saba scored a touchdown apiece while Ed Winant and Perry Bove did fine work. The line play also was decidedly improved over the previous Saturday's showing. The outstanding weak points being the tackles and ends. Stew Manning certainly filled one tackle berth to perfection when he was switched from his backfield position, and it would seem a wise move to keep him there regularly. However, it is uncertain just what changes will be made before the team takes the field tomorrow.

NOTICE

Bluestockings announces its annual tryouts for new membership. Short stories, poetry, essays and other contributions should be left at the Theta house or given to a member of the organization. The tryouts close at Thanksgiving.

HANDBOOKS

Freshman men not possessing a copy of the 1935 Handbook may obtain one at the V. C. A. office.

FRESHMAN WOMEN

The Student Union examination required of all freshman women, will be held tonight, Friday, October 16, at 7.15, in Room 27 of Williams Science Hall.

GOOD. . . they've got to be good!

Each brings out the best in the other!

The Dodge Sisters are a perfect team—each brings out the best in the other.

The exclusive Chesterfield Cross-Blend is like that. It does much more than merely mix together a few tobaccos, as in ordinary blending. It actually *unites* the best qualities of one type of tobacco with the best qualities of other types.

Each brings out the best in the other—creating extra mildness, natural sweetness, and far better taste.

Chesterfield holds everlastingly to higher standards—

BETTER TOBACCOS, the mildest and ripest tobaccos that can be bought.

BETTER PAPER, pure, odorless, tasteless—the finest made.

BETTER MANUFACTURE, every step made safe by the highest scientific standards.

Nobody smokes a better cigarette than Chesterfield. And nobody ever will.

The Dodge Sisters—internationally famous Vaudeville Team

MOWER TO ADDRESS INTERNATIONAL CLUB

Prof. E. C. Mower, head of the political science department, will address the International Relations Club at the New Museum Auditorium, Thursday evening, October 22 at 8 p.m. His topic will deal with the modern background of international politics

Students enrolled in the social science curriculum and others interested are urged to attend the monthly meeting of the International Club. A short business meeting will take place prior to the address at 7.30 o'clock.

REPRESENTATIVES FROM SEVEN ALPHA CHI OMEGA CHAPTERS MEET HERE

Forty-nine Delegates From National Sorority Groups Convene for Three Days

Forty-nine representatives from visiting chapters attended the Atlantic province convention of Alpha Chi Omega Fraternity at which Alpha Iota Chapter was hostess, October 16, 17 and 18.

Delta Chapter at Allegheny College, Meadville, Pa., was represented by two delegates; Eta at Bucknell University, Lewisburg, Pa., by one; Zeta at New England Conservatory of Music, Boston, Mass., by four; Lambda at Syracuse University, Syracuse, N. Y., by seven; Alpha Epsilon at University of Pennsylvania, Philadelphia, Pa., by three; Alpha Tau at University of New Hampshire, Durham, N. H., by ten; and Beta Iota, at University of Toronto, Canada, by seven. Six of the alumnae chapters were represented: Gamma Gamma, one; Zeta Zeta, four; Pi Pi, two; Upsilon Upsilon, one; Phi Phi, one; Toronto Club, two.

National Officers

National officers present were Mrs. Elizabeth Rhodes Dalgliesh, Atlantic province president; Mrs. Peyton Wemyss-Smith, national inspector; and Mrs. Ethel Mead Van Auken, national president.

Local guests present were Pres. G. W. Bailey, Dean Marian Patterson, Misses Ella Cummings, Alice Blanchard, Bertha Terrill, Freda Harris, Charlotte deVolt, Mrs. Nelle Adams, Mrs. C. E. Braun, Mrs. D. B. Carroll and Mrs. S. Hagar.

The opening session, which was held Friday morning, October 16, from 10.30-11.15 following the registration from 9.00-10.30, was officially presided over by Mrs. Elizabeth Rhodes Dalgliesh, president of the Atlantic Province of Alpha Chi Omega. After the opening with the Lord's prayer and singing of the "Hearth Song," Lillian Mount '32, Alpha Iota, extended a welcome to the visitors and guests which was responded to by Mrs. Peyton Weymos Smith, national inspector. The local chapter then sang "Champlain."

President's Welcome

Pres. G. W. Bailey officially welcomed the guests for the University of Vermont. He spoke of Ira Allen who chose Bur

(Continued on page 4)

WOMEN OF UNIVERSITY TO URGE DISARMAMENT

Women from the College of Arts and Sciences in the University of Vermont are signing a petition for disarmament which is being circulated this week among the sororities, dormitories and organizations, by the Women's Christian Association as part of a nationwide movement to demonstrate to the International Disarmament Conference which meets in February in Geneva, the desire of the world for disarmament.

The petition has been received by Sylvia Boyd '33, who is president of the Christian Association and vice-president of the International Relations Club, the two groups of the campus which are cooperating in the execution of the petition. The local Young Women's Christian Association is one of ten groups of women which are members of the National Committee on the Cause and Cure of War which is sponsoring the concerted drive to make public opinion among the women felt by the members of the conference which meets to consider the problem of disarmament this winter. The petition will be sent to the national headquarters with its signatories.

The following letter has been received by Prof. E. C. Mower, head of the political science department and faculty

(Continued on page 3)

Is the Coffee Corner Doomed? Registrar Kehoe Says It May be

Popularity of Campus Eating Place Apparently on the Wane—Management, Seeking to Air Problem, Invites Constructive Criticism

By S. Nathan Spiller

"When the Coffee Corner was first started, in 1925, it was felt by the administration that it would meet a definite demand of the student body and faculty," declared Registrar F. W. Kehoe in a recent interview for the CYNIC, at which time the possibility that that enterprise might be discontinued and the space utilized for other purposes was brought to light.

The Coffee Corner was instituted when the University discontinued the dining service, and it was learned from Mr. Kehoe that it steadily grew in popularity until last year, when it was operated at a slight loss.

"It appears," said Mr. Kehoe, "that for some reason or other it is ceasing to be a necessity to the students, and if this is found to be a fact it will be discontinued."

The Registrar further pointed out that although the service was established solely for the convenience of those connected with the University it must justify its existence financially. This year indicates that there is even less necessity for the "Corner" than last year, and therein lies the reason for the administration's serious consideration of closing it up.

As for the money involved in running the Coffee Corner, Mr. Kehoe explained that profit is not the primary object. He clearly showed that it is considered as a business proposition merely as a means to an end beneficial to the students. The overhead necessary for its operation is, of course, known to the administration, and the merchandise is marked up deliberately in excess of that amount, just as an insurance company charges more for its policies than statistics prove will be needed, in order that the surplus may be returned to its policy holders in the form of premiums. It is on this principle that all the University stores work, making a profit to justify their existence, and then turning that profit over to some needy student organization for use

Criticism Invited

In view of all this, the administration has concluded that the declining use of the Coffee Corner is due to some fault, not yet understood, with the service rendered. It is realized, too, that the conditions of financial depression throughout the country may have affected even the spending power of University students. If, however, it is the first conclusion, any suggestions from the students or the faculty, for improvement, would be greatly appreciated, so that the store could once again become an intimate part of student life

MORTAR BOARD TO HAVE CONVENTION AT VERMONT

Representatives of Swarthmore, Cornell, Penn State and Middlebury to Meet With Vermont Chapters

Akraia Chapter of Mortar Board, the senior women's honorary society, met with two of their advisors, Dean Marion Patterson and Miss Eleanor Cummings, Thursday evening, October 15, at the Kappa Alpha Theta House to arrange a service program for the year and plan the details of the New England Sectional Convention, which is to be held here November 7 and 8. Representatives from Swarthmore, Cornell, Penn State, and Middlebury will be present. The delegates will stay at the Alpha Chi Omega and the Kappa Alpha Theta Houses.

Guests of Honor

Mrs. W. S. Howell of Cambridge, Mass., national Mortar Board treasurer, and Mrs. F. W. Coffin of Syracuse, N. Y., sectional president, will be the guests of honor at convention. Mrs. W. S. Howell will be entertained at the home of Miss Marion Way; Mrs. Coffin will be the guest of Mrs. E. C. Mower. Meals for all the delegates will be served at Robinson Hall.

The conference will open officially Saturday, November 7, 9 a.m., at Redstone, and will continue throughout the day. In the evening, Dean Patterson will give her annual Mortar Board dinner at 7.00 o'clock in Robinson Hall. The active Akraia members, the Burlington alumnae and the convention guests are invited. Dean Ross of Middlebury College will be the principal speaker and the guest of honor; Dean Patterson will open the speeches with a word of welcome. A quartet in charge of Mailla Putnam '32 will furnish music during the dinner.

Mortar Board will hold a tea for the convention delegates Sunday, November 8, at the Practice House.

Lilac Day

It was decided to make Lilac Day, held in memory of Dean Pearl Randall Wasson, an annual event. A senior girl will have charge of the festival, assisted by an associate junior girl.

Mortar Board plans to give a tea for the junior women next spring, also to present a cup at the end of the year to the junior girl, working her way through college, who has maintained the highest scholastic standing during the year.

Through the courtesy of Dean Patterson and F. W. Kehoe, registrar, the University has presented Mortar Board with a room at Grassmount to hold meetings in.

PAN-HELLENIC REVISES WOMEN'S RUSHING RULES

Concise Code, Motivated by Improper Interpretation, Will Define Controversial Terms

Motivated by misunderstandings and improper interpretation of rules which have constantly arisen in the past, the Pan-Hellenic Association, made up of representatives from each women's fraternity on the campus, has revised and hereby publishes the code of rushing rules to be observed by all University women. Heretofore there has been no complete copy of rushing rules except in the Pan Hellenic secretaries' books. Amendments made by the organization have been misplaced and not obeyed. To rectify this, a copy of the revised rules will be sent to each of the women's fraternities and one will be posted in the "Y" room for the freshman women.

The revised rules are more concise and they define terms which have been questioned much in the past such as "last rushing party," "grades," "entertainment," etc. Provision is also made for amendments to the rules which now read as follows:

These rules shall govern the local chapters of the six national Greek letter women's fraternities and the one local; namely: Kappa Alpha Theta, Delta Delta Delta, Pi Beta Phi, Alpha Xi Delta, Alpha Chi Omega, Sigma Gamma, and Kappa Delta.

(Continued on page 6)

PROFESSORS BASSETT, MYRICK ON SABBATICAL

Professors Samuel Eliot Bassett, Ph.D., professor of the Greek language and literature, and Arthur B. Myrick, Ph.D., professor of the Romance languages and literatures, are absent from the University on their sabbatical leave this year. Professor Bassett, due to illness, has not gone abroad to study in Greece as had been his previous intention, and he is now convalescing at the Brownell Farm in Williston. He will return to Burlington within two weeks to continue his research in the field of Greek literature.

Professor Myrick is now traveling through Italy prior to his spending the winter at Rome studying early Italian literature. In the spring he will go to Paris to study, returning to Burlington in the fall of 1933.

Faculty members on leave of absence are L. L. Briggs, associate professor of economics, M. H. Campbell, professor of dairy production, Dr. F. E. Clark, assistant professor of pathology, and E. F. Lineken, instructor in chemistry

Rushing Dates to be Presented Thursday by Interfraternity Body

Freshmen to Receive Invitations in Old Chapel Following Address by Professor Carroll

EVENT TO MARK CLOSE OF OPEN HOUSE SEASON

After tonight, which is the fifth and last open house night of the current rushing season, the prospective "brothers" are to enter the second phase of their search for proper fraternal affiliations, namely, that of rushing parties.

On Thursday afternoon, October 22, the freshmen will assemble in the Old Mill Chapel, at which time they are to be addressed by Professor Carroll, faculty advisor to the Interfraternity Conference, who is to advise them about choosing the group to which they would belong. They will then, after Professor Carroll's talk, pass before the Interfraternity Council and receive their dates. October 24, 26, 27, and 28 have been selected as the nights for the parties, with regard, as in the past, for the football men, who should not be kept out late Friday night.

The new system, inaugurated this year by the Interfraternity Conference, divided the freshmen into alphabetical groups, with each group visiting four fraternities on the first two nights and three on the third night. On the fourth and fifth nights the freshmen, who have thus had a chance to see each house, go only to those fraternities which impressed them most favorably.

A survey made by the CYNIC regarding representative campus opinion of the new code resulted in the disclosure of certain opposing views. Several prominent fraternity men did not consider the new system more advantageous to either the freshmen or the fraternities, because, as they said, the freshmen received only a hazy impression of all the fraternities instead of a clear-cut idea of a few. The exponents of the system, on the other hand, were of the opinion that the freshmen did have enough chance to see each house, and were, therefore, enabled to make a better examination of the whole campus. Then again some argued that the fraternities had more responsibility last year and they relied upon themselves in having the men come around to visit them. Opponents to this viewpoint, however, countered by saying that the longer visiting hours, and the entertaining of more men, resulting from this year's method, caused the fraternities the greater effort.

MUSIC DEPARTMENT TO HAVE TRYOUTS, PRACTICE AND CONCERTS SOON

Vermont's music department will be kept occupied during the next few days with tryouts, rehearsals and a concert. The first of the series of events will be the tryouts for the men's glee club double quartet which will be held in the Music Building Wednesday, October 21, at 7.30 p.m. The trials will be preceded by a rehearsal of the men's glee club, the basses coming at 7.00 and the tenors at 7.15 p.m.

Candidates for the double quartet will be tried out on the music used for the general rehearsal and those wishing to obtain copies of this music for study purposes may borrow them from Professor Bennett.

Women's Glee Club

The women's glee club will give its annual concert on November 2 for which rehearsals are being held twice each week on Tuesdays and Thursdays with extra rehearsals soon to follow. The glee club consists of a large number of University women and has aroused considerable interest of late.

Accompanists

As a result of the recent tryouts, the following candidates have been selected as accompanists of the organizations named: Orchestra: Hildur Wilde '32. Women's Glee Club: Ruth Barrett '35, and Helen Bellows '35. An unusually large number of able candidates tried out.

Yes, Algeron, Chaucer must have had a stenographer. Just look at that spelling.—*Notre Dame Juggler*

WE WANT THE COFFEE CORNER

[illegible]

However, it so happened that the income curve for last year took a second drop and those interested anxiously groped around for reasons. When a similar decline was also noted to have occurred for the first few weeks of this college year the administration wondered if the days of the Coffee Corner as a necessity on the campus were not numbered.

There are, not unnaturally, two sides to consider before drawing any definite conclusion as to whether or not we want to see office rooms occupying the present site of Coffee Corner in the Old Mill.

Let us, in the first place, consider the position of the administration. In quoting Registrar F. W. Kehoe on the matter we find that the Coffee Corner is "[illegible] a student proposition that will be continued if they support it, otherwise the space can be more advantageously utilized by the University."

Certainly this sounds like a most mercenary attitude for the registrar to assume, but a further study reveals information quite to the contrary. We learn that of necessity the "Corner" is operated to make money, and that the resultant net profits are used to finance some University organization, such as the rifle team or an honorary society, which have no external methods of meeting expenses. Thus it can easily be seen that profit is not the primary object in running such an enterprise. It may even be added that constructive criticism regarding the management of the Coffee Corner is earnestly invited from anyone who deems himself interested.

Now arises the question, why have the students and faculty been losing interest in the Coffee Corner? And from one standpoint there are several possible solutions. First of all, let us ask, is the "Corner" adequately meeting off-campus competition? The answer is at once "no," as in some instances its prices are too high and, at certain hours, its service is not fast enough to handle the rush. Then again there has been a difficulty, most troublesome this year in particular, in dealing with the overabundance of flies. Nothing seems to discourage these pests, as many attempts have been made to rid the Old Mill of them.

The question, however, still remains; do we, or do we not, want the Coffee Corner? In the past it has been greatly appreciated, and its service has been of real benefit to those on the hill. Its convenience as a place to purchase one's breakfast, and to obtain odd snatches to eat, is undeniable.

Speaking again of the prices charged at the Coffee Corner, it might be suggested that the administration lower the prices on all foodstuffs, abolish all profits, and give the students the immediate advantage that buying there would entail. This, on the other hand, is dangerous ground to tread. Any business man will agree that an establishment in just meeting its overhead, in the long run loses money; and under the present method, although each student is not reimbursed personally, some particular extra-curricular activity on the campus, as has been said before, benefits.

Consider also, for a moment, a bit of criticism from a different slant, one that is entirely for the benefit of those who seek the service offered by the Coffee Corner. Why do you not, after being served, graciously step to the rear (even though it cause you a bit of inconvenience), in order that another equally hungry individual may break his fast before dashing off to class?

Now were the Coffee Corner to be closed, a substitute would, of necessity, have to be located either on the campus, or in the immediate vicinity; and why substitute when all that is required are a few minor changes?

We are of the opinion that the Coffee Corner not only is needed, but is wanted, by an overwhelming majority of the student body.

—S. NATHAN SPILLER.

COLLEGE HUMOR

One of Booth Tarkington's favorite stories: There was once a man who had exceptionally strong faith in the goodness of the Almighty. Each time an unfortunate occurrence came to him the man bent humbly to his knees and offered up thanks to the Lord that h chad been delivered from a worse fate. His wife deserted him. He had two children, one of whom died in childhood and the other grew up and went to spend his life behind the bars. The man's farm was mortgaged. A flood came and destroyed his crops. His cattle died of some mysterious disease. His teeth fell out. His house burned down. Yet, at each disaster, the man knelt and offered thanks that a worse fate had not befallen him.

One day the man was plowing in his field when a sudden thunderstorm came up and at the height of its fury a bolt of lightning came hurtling down. It ripped the yoke from his oxen, melted the plowshare, singed off his whiskers, shredded the shirt from his back, burned off both trouser legs, and sent him headlong through a board fence to land with a thud against the hen house.

Slowly the old man picked himself up and, looking toward the sky, remarked wearily, "Lord, this is gettin' plumb ridiculous!"—*Springfield Hurdle.*

In Spain they call bull-throwers Señors; here they call them Senators.—*Pennsylvania Punch Bowl.*

Maybe the reason the police do better in England is that the people they work for aren't the same ones they work against.—*Cornell Countryman.*

The Mystic Pen

Vamp Till Ready

(With apologies to Eric Mawson where necessary, to Ogden Nash)

Lucius Lucifer Lawrence O Butts
was nuts
He would chase after women of all [illegible]
and sizes.
Consequently,
His life was full of surprises
A patron of literature
and other things arty,
some party,
was Butts
Nuts.
He claimed to have gone to a Northwestern College.
He had knowledge.
He used it.
He abused it.
As LaCroix says, in the last analysis
he refused it.
Butts was fond
of a blond.
She wasn't particularly interested in being
a blond.
They say her bones
are relaxed on the stones
of a pond.
Egad!
Not bad.
Tho her face can't be seen
I'll venture it's green
by now.
And how!
He doesn't look
like a crook
but one day last summer he took
a cook
from her husband,
the importance of which, of course, is
a minor detail. Her husband's resources
were small.
Not at all
like Butts'.
Nuts.
He was lazy.
Crazy.
And always dressed up like a daisy
And reaching this terminal part of the
stanza
I beg to remark that Butts was a
danza.
He could do a quadrille
and balance a pill
on his nose.
Some pose.
But it wasn't unusual.
He'd never refusue. Although it was known
that Butts
was nuts.
He was asked to a ball.
He came but all
that he wore was a tall
silk hat, and a *kopie el lobby.*

WOMEN OF UNIVERSITY TO URGE DISARMAMENT

(Continued from page 1)

member of the International Relations Club, and turned over to the student groups:

New York City,
September 12, 1931.

Prof. Edmund C. Mower,
Burlington, Vt.

My dear Professor Mower:

When the National Committee on the Cause and Cure of War met in Washington last January it was felt to be imperative that the young people of this country should take an active interest in the movement to bring about world peace and cooperate as far as possible in the work being done.

As you know, the International Disarmament Conference meets in Geneva in February, 1932. If this conference fails, the work must all be done again. It is therefore of the most vital importance that the women of the world make known to those taking part in this conference their desire for disarmament.

Organizations throughout the world are mobilizing to make the petition for disarmament as large as possible. The women of Great Britain have already secured more than one million signatures, the women of Holland have secured more than two and one-half million.

I am sending you herewith a petition which is being circulated among the women of the United States with the hope that there may be among your students a group sufficiently interested to take up this work. It is impossible for us to send a speaker to every college in the country but whenever possible we shall be glad to do so.

May I again ask for your own helpful interest. We shall be glad to cooperate with any group formed in your college.

Sincerely yours,
MRS. ALBERT LYTLE DEANE,
Vice-Chairman of the National Committee on the Cause and Cure of War.

Clubsters Setting Out Daffodil Bulbs Now

4-H Clubsters of Vermont are busy setting out daffodil bulbs. Fifteen hundred of these bulbs have been supplied by Mrs. Mary E. Leighton of Wells River, whose Rainbow Garden is well known in that section of the state. Last year and this year Mrs. Leighton has given generously to the clubs of the state from her garden.

One thousand bulbs this fall have gone into nine counties, something over 100 bulbs to a county, for community beautification work. They are now being set out on village commons and in other public places. The counties handling the bulbs are: Addison, Bennington, Caledonia, Chittenden, Orange, Orleans, Washington, Windham and Windsor.

Five hundred more bulbs, offered by Mrs. Leighton early in the summer, have gone as prizes to 4-H Club members in various counties who have done outstanding home beautification work. These bulbs are being set out by the individuals who have won them. They have gone into Addison, Bennington, Caledonia, Orange, Orleans, Windham and Windsor counties.

R. O. T. C.: Dad, buy me a drum.

Dad: But, son, if I get you a drum you'll disturb me very much.

R. O. T. C.: No, I won't. I'll drum only when you are asleep.—*Drexel Drexerd.*

THREE TOUCH FOOTBALL CONTESTS PLAYED LAST WEEK ON BACK CAMPUS

A. T. O.'s, Sigs, and Owls Win Out Over Phi Sigs, Kappa Sigs and Zetas

Alpha Tau Omega defeated Phi Sigma Delta 12-0 last Monday afternoon in a hotly contested game. It consisted almost entirely of short passes with the exception of a long run by Spiller of the Phi Sigs who broke away on a short pass from Fineburg. The A. T. O.'s crossed the goal line in the first and third quarters. In the first quarter a pass from Burke to Brislin resulted in a tally to be followed by another in the third from Bussey to Shele.

The Phi Sigs put up an excellent offensive while the A. T. O.'s relied mainly in a stubborn defensive game. Bussey of the A. T. O.'s executed some excellent long passes.

Sigma Phi routed the Kappa Sigs 30-0, in a fast game on Wednesday afternoon. The first half saw some rapid scoring on the part of Sigma Phi who put the ball over in a series of smooth, snappy attacks. The game was interspered with running and long passes. Sigma Phi got off with a flying start in the first part of the game and jumped to a lead which Kappa Sigma was unable to overcome.

Tupper of Sigma Phi accounted for one of the four goals secured in the first half by a long run of over a third of the length of the field. The fast team defense of Sigma Phi and the wonderful timing of their passes featured in the game. The short passes from Tupper to Bush were deadly accurate.

In the second half the Kappa Sigs led by Pires tightened up their defense and allowed Sigma Phi but one goal. The Sigma Phi team put up one of the smoothest attacks witnessed thus far in the tournament.

Lambda Iota nosed out Zeta Chi 6-0 last Thursday afternoon in the playoff of their previous 12-12 tie game. The match was featured by long passes and good defensive work. The first half saw the ball travel up and down the field with neither goal seriously threatened. Both teams relied on passing with Zeta Chi having an edge on broken field running. In the first of the third quarter Zeta Chi had the ball on their opponents' 8-yard line but failed to put it across in three downs.

The last quarter opened up with a long run by Logan of Zeta Chi who lost the ball on a short lateral. The Owls then began a rapid advance up the field with a short pass from Bennett to Hoyt scoring.

Time Out

Colby 6—Vermont 0 was the final score of Saturday's thriller. It should have been the reverse if anything but the scoring punch was lacking. No alibis, we were licked by a better team.

—time out—

The frosh—in case you don't look at the downtown scoreboard—won from T. C. A. (Troy Conference Academy) by one lone touchdown. Which reminds us of that little ditty:

THE VERMONT KITTENS

The Vermont Kittens go over the top,
Parley-voo.
The Vermont Kittens go over the top,
Parley-voo;
The U. V. M. Kittens are over the top,
To win the games the Varsity drop,
Hinky-dinky parley-voo!

—time out—

Our opponents—those left:

New Hampshire 13.....	Maine 7
**Norwich* 6	Mass. State 33
**Middlebury* 15....	Coast Guard Acad. 0
R. P. I. 13.....	C. C. N. Y. 3

—time out—

Too bad Saba wasn't in there when weight and determination could have slapped over a touchdown.

—time out—

Yale went Stagg at Chicago and celebrated by a big score. Harvard played tag with Army. Dartmouth bowed to Columbia and if you'll lend us two bits for a cup of coffee we'll be much obliged—moral: Editors may predict but shouldn't wager.

BALLROOM DANCERS TO BE INSTRUCTED HERE

The first class in social dancing which is being conducted by Miss Annis Baldwin, will be held at the Vermonters' Club House next Tuesday evening, October 20, at seven o'clock. Classes will be held each Tuesday for four weeks. Eleven women have signed up for the class. It is hoped that as many more as possible will enroll so that ballroom dancing will submit their names at the registration office before the next meeting of the class. No more will be taken after this fall every woman interested should avail herself of this opportunity to take a six lesson course for the small sum of one dollar. This is one of the best bargains

Schmarr Scores on Pass From Linehan in Last Quarter of Game, With DeBellis Dropkicking the Point After Touchdown

WOMEN'S CLASS DEBATE WILL BE NOVEMBER 6

The first competition for the Carleton cup will take place on Friday afternoon at four o'clock, November 6, in the auditorium of the Robert Hull Fleming Museum when the sophomores and juniors meet to debate the proposition, Resolved, that the Honor System of Examinations be adopted at the University of Vermont.

This topic was selected at a meeting held Monday, October 12 at 3:00 p.m., when the sophomore and junior women interested in debate, met with Prof. P. D. Carleton to formulate plans for a season of active debating.

The junior team composed of Antoinette Hubbard, Sophie Levin, and Carolyn Taft, will uphold the affirmative side of the question, while the sophomore team, composed of Helen Cook, Elvira Farman and Dorothy Harwood, will debate for the negative. The Oxford style of debate is to be used, with affirmative speeches 8-11-11-3, and negative speeches 11-11-11. Of these two teams only Helen Cook of the sophomore team and Caroline Taft of the junior team, have done active debating at the University. Last year Miss Cook was a member of the freshman team which debated the Middlebury freshmen on the question of installment plan buying, while Miss Taft was a member of last year's varsity.

CLASS GAMES WILL BE HELD OCTOBER 23 TO 27

Women's preliminary class games will be played off October 23 to 27, beginning with the hockey games, which are scheduled for October 23, and followed by volley ball, coming the twenty-sixth or twenty-seventh. On Field Day, the twenty-eighth, the final games will be played.

On account of bad weather, the tennis tryouts scheduled for October 15 were postponed until the sixteenth.

SOCIETY NOTES

ALPHA XI DELTA

Mrs. Marian Scherer of New York City, the province president is to be here this week.

KAPPA DELTA

Alpha Theta of Kappa Delta announces the pledging of Helen Allen '33, Esther Smith '33 and Dorothy Davis '32 on Monday, October 12.

K. E. L.

A tea was held at the home of Augusta Cohen on Sunday, October 11.

Gertrude Levin '31 was in town over the week-end.

REYNOLDS, STELLAR BACK, OUT FOR REST OF SEASON

The University of Vermont freshman team won a hard fought game from Troy Conference Academy by a score to nothing score on a wet and slippery field. Reynolds, who played halfback for the freshmen, suffered the only major injury of the game when he broke his collarbone and will be lost to the team for the remainder of the season. Troy Conference Academy has this season one of the strongest teams it has ever had and was expected to give the freshmen a licking.

Vermont received the kick-off in the first quarter and ran it down the field, but finally DeBellis had to kick to T. C. A. No progress was made by either team, when with about three minutes of the quarter to go T. C. A.'s kick was blocked, but one of their backs dropped on the ball. On the next play the water-soaked pigskin eluded the quarterback's hand and was recovered by a Vermont player on T. C. A.'s 30 yard line.

It was in the second quarter that Reynolds cracked his collarbone. However, notwithstanding his injury, he remained in the game and continued to play stellar football, until, upon tackling a T. C. A. ball carrier, the bone snapped right off, and he had to cease playing for medical treatment. Just before the half ended, Vermont completed a long forward pass from Linehan to Schmarr, which threatened the T. C. A. goal, but failed to tally.

In the third quarter Vermont started off with a brand of play that looked as if it would result in a touchdown when Linehan ran back the kick off 80 yards to T. C. A.'s 10 yard line. Again the ball was in Troy's territory most of the quarter although Vermont was unable to score.

The frosh team, however, played its ace of trump with but a few minutes to go when Schmarr snared a very difficult pass from Linehan from T. C. A.'s 10 yard line over the goal line. DeBellis then kicked to make the extra point for Vermont. Troy Conference Academy tried to take the ball back up the field, but were unable to make any headway against Vermont's line.

Vermont's line-up: Right end, Schmarr; right tackle, Cook; right guard, DeBellis; center, Hamilton; left tackle, Holley; left guard, Beardsley; full back, Reynolds; left half-back, Linehan; right halfback, Giardi; quarterback, MacDonald.

Substitutes: Delfausse for Cook, Cook for Delfausse, Passerini for Reynolds, Ramon for Giardi, and Cariccicla for Beardsley.

ARA ARMSTRONG WILL DIRECT WOMEN'S HOCKEY

Ara Armstrong '33 has been elected campus manager of hockey. Class managers of hockey recently elected are Mildred Aikens '32, Mary Petras '33, Marie Horak '34 and Ruth White '35.

"Spaniards are very hospitable—we were graciously received by those smiling faces and flashing teeth, even though we expressed ourselves awkwardly because of our ignorance of their language.

On French Riviera

"Then we returned to France and indulged in a delightful trip along the French Riviera, where we stopped at Arles, which was founded by the Romans. There are located Roman ruins, which are most notable. We glimpse a huge Roman arena quite well preserved, and the Roman tombs which had been dug up by research workers.

"From Arles we motored to Nice, the famous summer resort of France. At Monte Carlo we entered the Casino and watched proceedings—most interesting of all was the crowd—people of all nationalities invaded the famous Casino.

"At Nancy," said Miss Rauh, speaking once again of college life, "we were initiated into a very new and unaccustomed environment. Of course we were introduced to 'Madame' and 'Monsieur,' of the private house at which we stayed. And incidentally," she continued, "life in a French family affords such a 'swell' opportunity to learn the French ways, customs, and language."

"In Paris, too," Miss Rauh concluded, "we enjoyed the French atmosphere, and the French food. All in all, French life is most fascinating."

CLARENCE KENNEDY TO LECTURE HERE TOMORROW

(*Continued from page 1*)

statuary have been widely used as illustrations by other writers. Professor Prindle, head of the Latin department of the University and a personal friend of Professor Kennedy, says, "He is probably one of the two or three greatest photographers of sculpture in the world today."

Since Professor Kennedy's lecture is illustrated by lantern-slide views, students will be able to see some of his masterly photographic studies as well as to hear a modern discussion on the art of the Renaissance.

Like all of the University lectures, this lecture is free and the general public as well as the student body is cordially invited.

Chicago was settled in 1833 and at rare intervals since then.—*Notre Dame Juggler.*

Then there was the aviator who wouldn't wear a crash suit in the summer time.—*Temple Owl.*

FOUR SOPHOMORE MEN TO BATTLE FOR CLASS IN BAILEY CUP DEBATE

Charles J. Libby, Realtus McCum, Robert Van Dyke, and George Burrows were chosen to represent the sophomore class in the Bailey Cup Debate one week from tomorrow, at the try-outs held in the Old Mill Chapel, last Friday evening. Burrows will probably act as alternate and Libby in rebuttal. The subject used was "Resolved, That the Eighteenth Amendment be Repealed."

The freshman try-outs were postponed until this afternoon at four o'clock in the Old Mill Chapel. The same question will be used as in the sophomore try-outs.

Judges last Friday were M. D. Powers, coach of varsity debate, Paul J. LaCross '32, R. Peardon Donaghy '33, and James E. Bigelow '33, and members of Tau Kappa Alpha.

Van Dyke, favoring prohibition repeal, opened the first debate with Libby upholding the negative. Blaming the after-results of the war for the creation of the eighteenth amendment, Van Dyke said, "It is better to have liquor than to have the social structure of this country undermined."

Libby, attacking Van Dyke's statement, declared that the Supreme Court would be bound to call any attempt at repeal unconstitutional.

Burrows, rallying for the affirmative, told the audience that prohibition served only as an open door to crime. Quoting statistics to prove his statement, he asserted that a straw vote taken by the *Literary Digest* and the resolution recently adopted by the American Legion convention tended to point out that public opinion was against prohibition.

McCuin, speaking for prohibition because of its economic benefits, maintained that there was nothing unusual in prohibition as a feature compared to other laws regulating traffic in narcotics and drugs.

Five minutes was allowed for construction and three minutes given for rebuttal.

Records

All members of the sophomore team belong to fraternities and are active upon the campus.

Burrows, debating for the second year, belongs to Sigma Phi and is a member of the CYNIC business board.

Libby is an S. A. E., is president of Gold Key, president of the sophomore class and a sports reporter on the CYNIC.

McCuin, a junior varsity debater, is a member of Zeta Chi and is also on the CYNIC in capacity of news reporter.

Van Dyke, who debated with the junior varsity, belongs to Delta Psi.

Freshmen, who to date have signified their interest in the try-outs this afternoon, include W. H. Myers of Burlington, who captained the Burlington High School debating team in 1931; George Ranslow of Montpelier High School with no previous experience; Nathaniel Gould of Barre, captain of Spaulding High School in 1931; Stewart Wright of Burlington, who was on the Burlington High School team during the years 1929 and 1930; and Ephege Lalumiere of Milton with no previous experience; Charles Patnode, Brandon High debater; George Patterson, formerly of Vergennes High School; and Carl Rogers of the 1929 state championship Wallingford team.

HUNDREDS OF 4-H GIRLS IN CLOTHING PROGRAM

Fifteen hundred 4-H Club girls in the State engaged in clothing work with a program covering seven years of work for these girls and others who will be in the work later are directed by Miss Martha Leighton, Assistant State Club Leader of the Extension Service of the University of Vermont and State Agricultural College.

The object of the program is to help the 4-H Club clothing members improve their health and personal appearance, save money and be better dressed, through more careful planning, selecting and making of clothing for themselves and other members of their family, also to help the 4-H Club clothing members to develop an appreciation for the economic situation within their homes and to assume their share in its solution by learning to care for their clothes, to use materials at hand and to make careful selection of new materials.

The first year's work is in the nature of home service, making of articles, care of clothes and improvement of health. The work for the second year follows the same order under an advanced program. The third year marks another advance with emphasis on work connected with school life, then follow programs designed for four years of even more progressive work, entitled, "The Thrifty Maid," "At Home or Abroad," "4-H Club Outfit," and "Little Tots."

A blessed event is announced for the Gamma Phi Beta house next Wednesday. There will be dessert for the first time this year.—*Vanderbilt Masquerader.*

REV. YUTAKA MINAKUCHI PREACHES AT CHAPEL

Rev. Yutaka Minakuchi of Peacham will give the address at the Wednesday morning chapel service, October 21.

HEALTH POSTERS NOW ON DISPLAY AT Y ROOM

The Health Council has secured a number of very interesting and attractive health posters from the Vermont Tuberculosis Association, which are on display in the "Y" room on the Health Council board.

MORTAR BOARD WILL SERVE COFFEE WEEKLY

With the aid of Miss Helen E. Nichols, dietitian, Mortar Board plans to have after-dinner coffee served at Grassmount and Robinson once or twice a week for the purpose of discussion hour among women students.

Plans are also under way to cooperate with Student Union in securing vocational speakers at the University teas this year.

RIDING CLASS MEETS ON TUESDAY AND THURSDAY

The riding class under the direction of H. A. Prentice, director of physical education for men commenced October 6 and assembles at 4 o'clock every Tuesday and Thursday afternoon at the Perkins Stables on King Street. Each class lasts two hours and the instruction consists of proper seat in saddle, aids in gait trot, canter and gallop bearing rein, lead rein and formation tactics.

The members of the class are: I. A. Bannon, M. H. Carlson, E. Doten, H. S. Farr, C. V. Hale, M. B. Hall, R. A. Martin, S. Pierce, Jr., W. A. Ross, F. E. Sessions, G. W. Starbuck, C. A. Taylor, A. A. Marslin and T. C. Damery.

'Tis better to have loved and lost than never to have attended college at all.—*Kansas State Chief.*

College-trained engineers revisit the athletic field

Night photograph of Temple Stadium, Philadelphia, Pennsylvania, floodlighted with G-E projectors

ON more than a hundred floodlighted fields, football is being played and practiced in the evening hours, before larger audiences than ever before—with fewer injuries and in better conformity with classroom duties.

This constructive revolution in athletics is largely the work of college-trained engineers—young men personally familiar with the needs of college and school. They are dedicating the technical experience gained in the General Electric Test Department to the practical service of undergraduate athletics—designing and installing floodlighting equipment for virtually every sport—football, baseball, hockey, tennis, and track.

Other college men in the General Electric organization have specialized in street-lighting and floodlighting projects, or in the electrical equipment of industries and mines or of immense power stations; some are designing and applying electric apparatus to propel ocean liners and locomotives. All are engaged in the planning, production, or distribution of G-E products and so are performing a work of national betterment and creating for themselves recognized spheres of personal influence.

You will be interested in Bulletin GEA-1206, "The Light that Started Sports at Night." Write for it to the nearest G-E office or to Lighting Division, General Electric Company, Schenectady, New York

"Give me Lucky Strike Every Time"

"My throat is all important to me. No harsh irritants for yours truly. Give me Lucky Strike every time. And pat yourself on the back for your new Cellophane wrapper with that tab which makes the package so easy to open."
Dorothy Mackaill

Dorothy Mackaill is the same fascinating, rollicking personality in real life as the parts she plays. Watch for Dorothy in her next First National Picture, "Safe in Hell." There is never a dull moment in any of First National's pictures starring that Mackaill girl.

* * * * * *

That LUCKY tab! Moisture-Proof Cellophane. Sealed tight—Ever right. The Unique Humidor Package. Zip—And it's open! See the new notched tab on the top of the package. Hold down one half with your thumb. Tear off the other half. Simple. Quick. Zip! That's all. Unique! Wrapped in dust-proof, moisture-proof, germ-proof Cellophane. Clean, protected, neat, FRESH!—what could be more modern than LUCKIES' improved Humidor package—so easy to open! Ladies—the LUCKY TAB is—your finger nail protection.

"It's toasted"
Your Throat Protection—against irritation—against cough

And Moisture-Proof Cellophane Keeps that "Toasted" Flavor Ever Fresh

TUNE IN—The Lucky Strike Dance Orchestra, every Tuesday, Thursday and Saturday evening over N.B.C. networks.

★ Is Miss Mackaill's Statement Paid For?

You may be interested in knowing that not one cent was paid to Miss Mackaill to make the above statement. Miss Mackaill has been a smoker of LUCKY STRIKE cigarettes for 6 years. We hope the publicity herewith given will be as beneficial to her and to First National, her producers, as her endorsement of LUCKIES is to you and to us.

LUCKY STRIKE "IT'S TOASTED" CIGARETTES

Copr., 1931, The American Tobacco Co.

Made of the finest tobaccos—the Cream of many Crops—LUCKY STRIKE alone offers the throat protection of the exclusive "TOASTING" Process which includes the use of modern Ultra Violet Rays—the process that expels certain harsh, biting irritants naturally present in every tobacco leaf. These expelled irritants are not present in your LUCKY STRIKE. "They're out—so they can't be in!" No wonder LUCKIES are always kind to your throat.

"French Life is Fascinating" Says Miss Rauh After Year in France

ands are very hospitable—

we were graciously received by those smiling faces and flashing teeth, even though we expressed ourselves awkwardly because of our ignorance of their language.

On French Riviera

"Then we returned to France and indulged in a delightful trip along the French Riviera, where we stopped at Arles, which was founded by the Romans. There are located Roman ruins, which are most notable. We glimpse a huge Roman arena quite well preserved, and the Roman tombs which had been dug up by research workers.

"From Arles we motored to Nice, the famous summer resort of France. At Monte Carlo we entered the Casino and watched proceedings—most interesting of all was the crowd—people of all nationalities invaded the famous Casino.

"At Nancy," said Miss Rauh, speaking once again of college life, "we were initiated into a very new and unaccustomed environment. Of course we were introduced to 'Madame' and 'Monsieur,' of the private house at which we stayed. And incidentally," she continued, "life in a French family affords such a 'swell' opportunity to learn the French ways, customs, and language."

"In Paris, too," Miss Rauh concluded, "we enjoyed the French atmosphere, and the French food. All in all, French life is most fascinating."

statuary have been widely used as illustrations by other writers. Professor Prindle, head of the Latin department of the University and a personal friend of Professor Kennedy, says, "He is probably one of the two or three greatest photographers of sculpture in the world today."

Since Professor Kennedy's lecture is illustrated by lantern-slide views, students will be able to see some of his masterly photographic studies as well as to hear a modern discussion on the art of the Renaissance.

Like all of the University lectures, this lecture is free and the general public as well as the student body is cordially invited.

FOUR SOPHOMORE MEN TO BATTLE FOR CLASS IN BAILEY CUP DEBATE

Charles J. Libby, Realtus McCuin, Robert Van Dyke, and George Burrows were chosen to represent the sophomore class in the Bailey Cup Debate one week from tomorrow, at the try-outs held in the Old Mill Chapel, last Friday evening. Burrows will probably act as alternate and Libby in rebuttal. The subject used was "Resolved, That the Eighteenth Amendment be Repealed."

The freshman try-outs were postponed until this afternoon at four o'clock in the Old Mill Chapel. The same question will be used as in the sophomore try-outs.

Judges last Friday were M. D. Powers, coach of varsity debate, Paul J. LaCross '32, R. Peardon Donaghy '33, and James E. Bigelow '33, and members of Tau Kappa Alpha.

Van Dyke, favoring prohibition repeal, opened the first debate with Libby upholding the negative. Blaming the after-results of the war for the creation of the eighteenth amendment, Van Dyke said, "It is better to have liquor than to have the social structure of this country undermined."

Libby, attacking Van Dyke's statement, declared that the Supreme Court would be bound to call any attempt at repeal unconstitutional.

Burrows, rallying for the affirmative, told the audience that prohibition served only as an open door to crime. Quoting statistics to prove his statement, he asserted that a straw vote taken by the *Literary Digest* and the resolution recently adopted by the American Legion convention tended to point out that public opinion was against prohibition.

McCuin, speaking for prohibition because of its economic benefits, maintained that there was nothing unusual in prohibition as a feature compared to other laws regulating traffic in narcotics and drugs.

Five minutes was allowed for construction and three minutes given for rebuttal.

Records

All members of the sophomore team belong to fraternities and are active upon the campus.

Burrows, debating for the second year, belongs to Sigma Phi and is a member of the CYNIC business board.

Libby is an S. A. E., is president of Gold Key, president of the sophomore class and a sports reporter on the CYNIC.

McCuin, a junior varsity debater, is a member of Zeta Chi and is also on the CYNIC in capacity of news reporter.

HUNDREDS OF 4-H GIRLS IN CLOTHING PROGRAM

Eleven hundred 4-H Club girls in the State engaged in clothing work with a program covering seven years of work for these girls and others who will be in the work later are directed by Miss Martha Leighton, Assistant State Club Leader of the Extension Service of the University of Vermont and State Agricultural College.

The object of the program is to help the 4-H Club clothing members improve their health and personal appearance, save money and be better dressed, through more careful planning, selecting and making of clothing for themselves and other members of their family, also to help the 4-H Club clothing members to develop an appreciation for the economic situation within their homes and to assume their share in its solution by learning to care for their clothes, to use materials at hand and to make careful selection of new materials.

The first year's work is in the nature of home service, making of articles, care of clothes and improvement of health. The work for the second year follows the same order under an advanced program. The third year marks another advance with emphasis on work connected with school life, then follow programs designed for four years of even more progressive work, entitled, "The Thrifty Maid," "At Home or Abroad," "4-H Club Outfit," and "Little Tots."

A blessed event is announced for the Gamma Phi Beta house next Wednesday. There will be dessert for the first time this year.—*Vanderbilt Masquerader.*

Van Dyke, who debated with the junior varsity, belongs to Delta Psi.

Freshmen, who to date have signified their interest in the try-outs this afternoon, include W. H. Myers of Burlington, who captained the Burlington High School debating team in 1931; George Ranslow of Montpelier High School with no previous experience; Nathaniel Gould of Barre, captain of Spaulding High School in 1931; Stewart Wright of Burlington, who was on the Burlington High School team during the years 1929 and 1930; and Ephege Lalumiere of Milton, with no previous experience; Charles Patnode, Brandon High debater; George Patterson, formerly of Vergennes High School; and Carl Rogers of the 1929 state championship Wallingford team.

HEALTH POSTERS NOW ON DISPLAY AT Y ROOM

The Health Council has secured a number of very interesting and attractive health posters from the Vermont Tuberculosis Association, which are on display in the "Y" room on the Health Council board.

MORTAR BOARD WILL SERVE COFFEE WEEKLY

With the aid of Miss Helen E. Nichols, dietitian, Mortar Board plans to have after-dinner coffee served at Grassmount and Robinson once or twice a week for the purpose of discussion hour among women students.

Plans are also under way to cooperate with Student Union in securing vocational speakers at the University teas this year.

RIDING CLASS MEETS ON TUESDAY AND THURSDAY

The riding class under the direction of H. A. Prentice, director of physical education for men commenced October 6 and assembles at 4 o'clock every Tuesday and Thursday afternoon at the Perkins Stables on King Street. Each class lasts two hours and the instruction consists of proper seat in saddle, aids in gait trot, canter and gallop bearing reins, lead reins and formation tactics.

The members of the class are: J. A. Bannon, M. H. Carlson, E. Doten, H. S. Farr, C. V. Hale, M. B. Hall, R. A. Martin, S. Pierce, Jr., W. A. Ross, F. E. Sessions, G. W. Starbuck, C. A. Taylor, A. A. Maislin and T. C. Damery.

College-trained engineers revisit the athletic field

Night photograph of Temple Stadium, Philadelphia, Pennsylvania, floodlighted with G-E projectors

ON more than a hundred floodlighted fields, football is being played and practiced in the evening hours, before larger audiences than ever before—with fewer injuries and in better conformity with classroom duties.

This constructive revolution in athletics is largely the work of college-trained engineers—young men personally familiar with the needs of college and school. They are dedicating the technical experience gained in the General Electric Test Department to the practical service of undergraduate athletics—designing and installing floodlighting equipment for virtually every sport—football, baseball, hockey, tennis, and track.

Other college men in the General Electric organization have specialized in street-lighting and floodlighting projects, or in the electrical equipment of industries and mines or of immense power stations; some are designing and applying electric apparatus to propel ocean liners and locomotives. All are engaged in the planning, production, or distribution of G-E products and so are performing a work of national betterment and creating for themselves recognized spheres of personal influence.

You will be interested in Bulletin GEA-1206, "The Light that Started Sports at Night." Write for it to the nearest G-E office or to Lighting Division, General Electric Company, Schenectady, New York

Vermont Meets Bates College in Debate on Unemployment Subject

Bigelow, Donaghy, LaCross Argue Against Maine Team in Oregon Style

UNIVERSITY DEBATERS UPHOLD POSITIVE SIDE

Unemployment insurance found itself on the mat when the U. V. M. forensicists met a rival team from Bates College in a no decision Oregon style debate, held last Monday evening in the Old Mill Chapel. Vermont upheld the affirmative side of the question, "Resolved, that the several states adopt a policy of compulsory unemployment insurance." Prof. Leon W. Dean presided.

J. E. Bigelow '33, R. P. Donaghy '33, and P. J. LaCross '32 represented the Green and Gold with I. J. Seaman, W. H. Durham, and H. C. Greenleaf speaking for Bates.

Introductory speeches of fifteen minutes' duration, and a cross-examination period of twelve minutes for each team were followed by ten-minute summaries presented by both the affirmative and negative speakers.

Donaghy, presenting the case for Vermont, welcomed the visitors to the platform and proceeded to advocate a policy of individual state unemployment insurance which should be developed along lines best suited for particular sections of the country. Telling of the many countries who have adopted unemployment insurance, he declared that the United States pays out more money than England although it has not adopted the dole system. Seaman, opening for Bates, introduced the question of the seasonal laborers, who, he explained, is the basis for the downfall of all insurance plans. Stressing administrative difficulties which, he said, would only lead to forty-eight enemies all attempting to carry out different ideas. "As soon as large sums of money are linked with politics we have the beginnings of graft," he declared.

In the second period, Donaghy in the witness chair was cross-examined by Durham of Bates in a rather argumentative way. Bigelow of Vermont next cross-examined Seaman in a similar manner, attempting to make the Bates speaker admit the practicality of compulsory unemployment insurance. The summary for Bates was given by Greenleaf, the Maine college's third speaker. He declared that seasonal industries would not be benefited by compulsory unemployment insurance. LaCross, concluding for Vermont, told the audience that the United States must prepare for future unemployment situations. "Seasonal industries, like building and farming," he stated, "are self-protected, either by a scale of higher wages, which help to tide the worker for a sufficient means of livelihood over periods of unemployment.

STUDENT UNION RULES DISCUSSED AT MEETING

The Joint Conference committee met Tuesday evening, October 13, at the home of Dean Marian Patterson to discuss student government rules and their enforcement. It was decided to ask the fraternities to cooperate in enforcing the rules. The rules which were discussed chiefly pertained to smoking, light cuts, telephone calls and quiet hours. All the houses are asked to observe this ruling.

The Joint Conference committee is composed of Dean Marian Patterson, Miss Catherine Nulty, Miss Freda Harriss, Mrs. Nelle Alexander, Lillian Mount '32, Agnes Parsons '32, Sylvia Boyd '33, Rose Harlow '32, and Elisabeth Mandigo '32.

Three Foreign Debate Teams Now Making Tour of American Colleges

About Thirty Institutions, All Over Country, to be Visited in Approximately Seven Weeks by Orators From Turkey and Great Britain

The 1931 international collegiate debating season opens on October 21 when the English universities team, one of the three brought to this country this year by the National Student Federation, debates a Hamilton College team at Clinton, N. Y., on whether or not "the dole provides a better method of solving the unemployment than does the charity system," with the English team taking the affirmative.

The N. S. F. A. has been handling all of the international debating in the United States for the past three years. Four teams, representing Germany, Scotland, the English National Union of Students and Cambridge University, were brought over last fall, and the experiment of sponsoring an English-speaking continental team (the German one) was so successful that it was decided to repeat it this year. The Turkish team has been brought over in cooperation with the American Friends of Turkey, the Turkish Embassy in Washington, and Robert College in Constantinople. A Dutch team was arranged for as well, but was obliged to cancel its tour at the last moment.

Turky vs. Iowa

The Turkish team will debate first on Monday, October 26, at the State University of Iowa, Iowa City, on the resolution that "compulsory unemployment insurance should be adopted by the sovereign states as public protection against the vicissitudes of the Machine Age," with the Turks in the affirmative.

The third team brought over this year, which represents Oxford University, will have as opening broadside a tentative engagement with Pembroke College, Brown University, at Providence. On November 2, they will attempt to convince the University of Indiana debaters that "the press is Democracy's greatest danger."

Each of the teams has two members, and each will visit about thirty colleges and universities here on a tour of approximately seven weeks. In order to provide the opportunity of meeting these students to as many American colleges as possible, the teams' itineraries have been distributed fairly evenly over the country—the Turkish team traveling through the Far Western States, the Oxford team through the Middle West and the South, and the English Universities students through the East.

Five questions have been submitted for debate by each group, the American colleges in each case being permitted to name their preference. Almost all of the topics bear on the international issues and many of them on international relations. Both the Turkish and the English Universities teams submit for debate "That the world has more to fear from Fascism than from Bolshevism," the Turkish team taking the affirmative, and the English team splitting on it, requiring the Americans to split as well.

Of the five questions submitted by the Turks, the majority of American universities have selected the foregoing one, and the fourth, namely, "That the United States should recognize the government of the U. S. S. R.," on which Turkey takes the affirmative.

The Oxford team's topics are the pep periest of the three, nearly all of them being in the nature of a small red rag to be waved sternly at Uncle Sam. We quote: "1. That the Statue of Liberty is not a signpost, but a gravestone." (Ox...

Eminent French Educator Will Inaugurate Series of Lectures Sponsored by French Society

Monsieur Auguste V. Desclos, an eminent French educator, is to inaugurate a series of eight lectures sponsored by the Alliance Française and the University of Vermont, when he delivers an illustrated lecture on "The Master Painter of Yesterday—Paul Cezanne" at the new Fleming Museum auditorium tonight at eight o'clock. Season tickets for students, good for the entire series, are $1.00, others are $2.00; while juniors and seniors who are majoring in French can obtain the tickets free from Professor DeForest.

The first lecturer, Monsieur Desclos, an assistant director of higher education in France, was for many years in charge of the educational exchanges between England and France. In 1926 he became the director of the exchanges between France and the United States. Monsieur Desclos has visited the United States as a member of a commission of four appointed by the French Minister of Education, to study student housing and student unions at American universities as possible models for the new development at the University of Paris. Monsieur Desclos is a connoisseur of French art and is an able and delightful lecturer upon art subjects. His lecture on Friday will be illustrated with slides.

"The Alliance Française," said Mrs. Paul D. Evans, "hopes that a great many students will avail themselves of the opportunity of hearing all the famous Frenchmen who are coming to our city."

Winnowings Out About November 1

Material for Literary Magazine Beginning to Take Form Now

The first issue of *Winnowings From the Mill*, the University literary organ, will be ready for print by November 1. The new editorial board is planning some changes in the form of the magazine this year which should better the arrangement.

The actual material for the first issue is still in the embryonic stage. One of the features to be included is an open letter by Leonard Hastings Nason, prominent short story writer for *Saturday Evening Post* and other current magazines. Mr. Nason, a graduate of Norwich University, now lives in the Basque country, but maintains an active interest in Vermont.

The active *Winnowings* board is: Hope Ranslow '32, editor-in-chief; Marguerite Dunsmore '33, short story editor; Gladys LaFlamme '33, poetry editor; Katherine Tolman '33, circulation manager; Eleanor Gates '33, advertising manager; Roberta Powers '32, business manager; Prof. I. W. Dean, faculty advisor.

VERMONT SORELY NEEDS NEW COLLEGE ANTHEMS SAYS MUSIC DIRECTOR

"The University of Vermont needs new college songs," declared Prof. H. C. Bennett in discussion of the college Glee Club and songs. "The songs now used by the Glee Club are totally unsuited for the purpose, and the new songs should be written by the students." Professor Bennett also stated that it would be desirable that the University own their copyright. College songs being esteemed by the students should be written by the students but the music department will give all possible assistance. The University of Vermont Song Book, as edited by Hinds, Noble and Eldredge, Publishers, in 1913, contained the songs "Champlain," "Our Colors," and "Ring the Bell on the Old Mill" but did not contain "Vermont Victorious," "Hail Old Vermont," and "Vermont My Vermont," and fifty-one pages of other Vermont songs.

This book also contained sixty-eight pages of songs popular at the college. The edition was bought up by Bailey's Music Rooms and the plates destroyed and the additional copies were destroyed by fire. "Vermont Victorious" was sold in sheet music form but is now out of existence. The Intercollegiate Song Book, compiled and arranged by Thornton Allan, contained "Vermont Victorious" and "Champlain." "A new song book with new Vermont songs would answer the question which," said Professor Bennett, "is in the minds of many Vermont freshmen. Where there is a complete record of Vermont songs there would be no difficulty in securing a publisher for the book."

FRENCH CLUB TO AWARD $25 FOR HIGHEST EXAM

At the close of the series of lectures that are sponsored this year by the Alliance Française and the University of Vermont, a prize of $25 will be awarded to any undergraduate student who passes the best written and oral examination in French based on these talks.

"Competition is open to all the students and should these lectures prove as popular as it is hoped," declared Mrs. Paul D. Evans, "they will become a permanent feature of the activities of the Alliance Française here in Burlington."

STUDENT INTEREST TO DICTATE SEASON'S PLAN FOR VERMONT FENCERS

New Men Must Be Developed if Vermont is to Compete With Other Colleges

"It all depends upon the students whether U. V. M. will have a fencing team this year or not," declared Coach Howard Prentice when interviewed in his office. "If they show sufficient interest, we'll have a team, if not, there will be no team."

However, even if there is no team, approximately a dozen freshmen have signified their interest in the sport and acknowledged their intention to participate. This means that there is a good chance of there being a varsity fencing team next year.

Such is the fencing outlook for this year. Not one man from last year's team appears to be available. Wadsworth transferred to another college, Aiken and Musgrove graduated, and Basilicato, Perelman, and Shumann are in the College of Medicine. Of these latter three, Shumann alone is eligible.

NEW PLAN THIS YEAR FOR UNIVERSITY TEAS

This year a new plan is trying to be carried out in regard to student teas. These teas will be sponsored by the University in cooperation with various student organizations and will be held on every Sunday afternoon except on those when there will be Vesper Service. Two dormitories will hold a tea each Sunday, one being at Robinson, Redstone or Slade and the other at one of the other dormitories nearer campus. It is the aim of the committee in charge of this affair to try and arrange to have some noted Vermont writer or speaker come and deliver an informal talk to the group.

The teas will not be elaborate affairs but will tend to bring students and faculty members together to spend a social and cheerful afternoon. Residents of the dormitories and any of their friends who would like to come as well as men and non dormitory residents are cordially invited to attend. The house directors will be in charge assisted by a special committee of the dormitory where the tea is to be held. The first one of the series of these teas will be held very soon.

FALL FIELD DAY WILL FEATURE SPORTS FINALS

The Fall Field Day, sponsored each year by W. A. A. and featuring the final play-offs in the major fall sports and the subsequent presentation of awards, will be held Wednesday, October 28, under the direction of Ara Armstrong '33. The tennis finals will start at 3:15 on the Weather Bureau courts and will be followed by hockey at 4:00 and volley ball at 4:40.

Supper will be served around a bonfire at Grassmount at 5:30 and the following program will be presented: "The Memories of W. A. A.," by an alumna; "The Four Milestones in W. A. A." Janet Miller '32, presentation of awards, Mildred Akins '32, class cheering competition; "The Spirit of Sportsmanship" Beatrice Freeman '32; "Winter Sports on Campus," Lillian Mount '32; "A New Venture," Alice Hoyt '34; and "Let's Get Going," Sue France '35.

Press Club Hears Professor L. W. D...

It pays to look over the wall

The industry that succeeds today is the one that looks outside its own "back-yard" for ways to make itself more valuable.

For many years, Bell System men have been working out ideas to increase the use and *usefulness* of the telephone. For example, they prepared plans for selling by telephone which helped an insurance man to increase his annual business from $1,000,000 to $5,500,000—a wholesale grocer to enlarge his volume 25% at a big saving in overhead—a soap salesman to sell $6000 worth of goods in one afternoon at a selling cost of less than 1%!

This spirit of cooperation is one reason why the Bell System enjoys so important a place in American business.

ilhouetteographic Photos Really Interest Students in Own Posture

orrect Bearing Gained by Graphic Portrayal of Individual Defects —"Conscious Effort Better Than Calisthenics," Says Prentice

WILLIAM CASS

promote personal interest own posture the Physi- Department, under the H. A. Prentice, is carrying al survey of the new men the "Silhouetteographic" camera, employing a glazed which the light from a escent lamp is thrown, uette photographs which ate picture of the postural the student.

are photographed sepa- pictures being taken of each of these pictures is a side posture; the second, a back third, the best posture the and the fourth, the best in the student as directed Prentice.

are taken of small groups, time of developing will be to allow Mr. Prentice to pictures with the student per- point out any defects of students are graded A, B, and men with C or D are se of corrective exercises.

there are two defects found. is the common sunken-chest, stomach posture. In this type, do not get enough air to purify stream properly, the heart does enough room to work efficiently, ternal organs are not held in proper relationship to each other. The second defect is the exaggerated posture. In this type, the whole body is strained in an effort to gain good posture. The shoulders are stiffened and held back too far, all the muscles are tensed, and a great strain is put on the lower back.

Posture Fundamental

Mr. Prentice, in speaking of the importance of good posture, said "Good posture is fundamental to health. I always think of it and good health as going together. If the student can be made to realize this, a big advance has been made.

"That is where the Silhouetteograph comes in. It arouses the student's interest in his own posture by graphically showing him any faults he may have. Once his interest is aroused, the student can do much more for himself by consciously trying to better his posture, than all the calisthenics and corrective exercises in the world, valuable though they may be, can do for him.

"The trouble is that we're all inclined to be careless concerning our body. I never realized myself just how important posture is to bodily health, until I had made a study of anatomy. We must think of the future. Although the postural defects that some of the students have contracted may do them little or no harm today, their condition will be serious twenty-five years from now."

NO CHARITY GAMES

The University of Vermont probably will not engage in a charity football game this year according to Graduate Manager of Athletics S. C. Abell. No official action has yet been taken, however.

Since the college loses money on football anyway, he said, it could not well afford to devote the proceeds to charity, as suggested by Owen D. Young. The decision as to a post-season contest would have to originate with the players and coaches, he stated. This is regarded as unlikely, he said, as the season does not close until November 26.

ARIEL APPOINTMENTS TO BE MADE THIS WEEK-END

This week will close the period during which *Ariel* appointments for photos may be made, it was announced yesterday by Russell Colburn '33, editor-in-chief.

Colburn also announces that no pictures will be accepted to the *Ariel* which were not taken by the Arthur Studios, thus insuring uniformity of style.

As a result of a vote of all the fraternities, a change has been made in the make-up of this year's fraternity section. It will consist of individual ovals in lieu of the group style of former years.

Margaret Tower '33 today issued a call for all editors to complete and hand in their grinds on or before November first.

New grind assignments for scrubs will be posted in the "Y" room by Miss Tower on Saturday.

STUDENT UNION GIVES EXAM ON DORM RULES

The Student Union exam for freshman women was given last Friday evening, October 16, in Room 27 of the Williams Science Hall. A make up examination will be given at a later date for those who were not able to be present at that time.

The examination consisted of dormitory rules which should be familiar to all University women.

ARIEL PICTURE DATES MUST BE MADE AT ONCE

Junior women who have not already made appointments to have their Ariel pictures taken are asked to do so at once. All pictures for the Ariel must be taken by the photographers of the Arthur Studios of New York City. Those who want their pictures for Christmas must have them taken the week of November 2.

Grinds should be turned in to Priscilla Perry '33 by November 1 at the latest.

DECLARES WORLD PEACE MENACED BY NATIONALISM

"Chronic nationalism is the root of all evil," says Yucaka Minakuchi in his chapel address on Wednesday. Nationalism is a selfish spirit whose slogan is "My country first and last; my country right or wrong." Nations are entirely unwilling to curb their ambitions. They may advocate peace conferences but secretly they are constantly on the alert for their own advancement.

A noted English philosopher once said, "That to get good is admirable; to do good is stupid." People must strive to translate their visions into words and sentences and not figures. It is said that Christ's ideal cannot be realized in business and diplomacy but human nature must be altered with such a goal in view. "What we do to an alien in admitting him into this country coincides precisely with our initiation to spiritualism," he concluded.

New Hampshire to Oppose Cats Tomorrow on Gridiron

Memories of Last Year's Slaughter Spur Men of Green and Gold to Vicious Assaults in Practice

WHITE MOUNTAIN BACKS PRESENT STRONG ARRAY

Intensive preparation for the state series games has been under way for the past four days. The Catamounts will further their drill in opposing New Hampshire University at Centennial Field tomorrow. The New Hampshire outfit will present one of the strongest small-college elevens in the section, having three wins to their credit. Their only defeat was handed them by Harvard in the opening game of the season.

Last year the Green and Gold journeyed to Durham and on a cold rainy day, the wildcats of the north galloped away to a 59-0 victory. This year, Vermont goes on the field with a more powerful club, an improved line and a shifty backfield. Each man in the line presents a dynamo of power and this week has given them the required time to be coordinated in a well oiled machine.

Backfield Uncertain

Although the backfield presents some uncertainty, due to Saba's showing last week, it is quite likely that he will start at quarter, with Captain Winant and Taft at the halfback posts, and either Manning or Rapuano at fullback.

In preparation for the Vermont game, the New Hampshire squad has been drilling very carefully. Several of their men are nursing injuries, including Howard Hanley, first-string end, who may not be able to see service tomorrow. The New Hampshire coach is satisfied with the performance of his backfield combination, which has been built around Capt. Dick Eustis, high-scoring ace of the machine. Ray Slack and Phil Wageman, fullback and guard, respectively, are among those who have been used sparingly, to recondition them for the Vermont game.

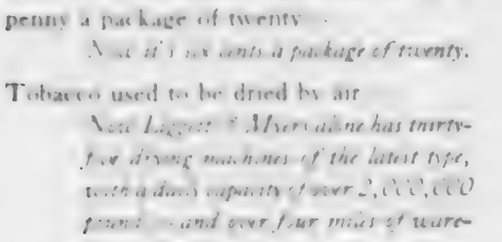
Are they as good as when the ruffles came down to the ankles?

GOOD? . . . You bet they are! Maybe the girls are even better. Anyhow, cigarettes are a whole lot better. No doubt about that.

They used to be made by hand
Now it's machines, no hand but yours ever touches them.

They used to be packed in expensive, highfalutin' cardboard boxes
Now the quality is in the cigarettes.

The U. S. Revenue Tax used to be a penny a package of twenty—
Now it's ten cents a package of twenty.

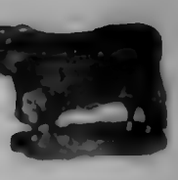


Tobacco used to be dried by air
Now Liggett & Myers alone has thirty-four drying machines of the latest type, with a daily capacity of over 2,000,000 pounds—and over four miles of warehouses for tobacco storage.

BETTER—they're *miles* better! Everything used in the manufacture of Chesterfield cigarettes is the best that money can buy or that Science knows about.

CHESTERFIELD TOBACCOS—both Turkish and Domestic—are mild and ripe, the best that money can buy.

AND THE WAY Chesterfield tobaccos are blended and cross-blended is like making a new and better-tasting kind of tobacco, with greater smoothness, more mildness and a more pleasing aroma—a fragrance and flavor not to be found in any other cigarette.



CHESTERFIELD gives you the benefit of all the world knows about the production of better cigarettes. Nobody smokes a better cigarette than Chesterfield.

VOLUME 1 | BURLINGTON, VERMONT, FRIDAY, OCTOBER 23, 1931 | NUMBER 1

Adventures in Authorizing

No. 1

Newark, N. J.
October 2, 1931.

William Hazlett Upson,
c/o *Saturday Evening Post*,
Philadelphia, Pa.

Sir:

I read those letters in the *Saturday Evening Post* about the steam shovel man and the phoney name that got $500 just for writing a few letters, and as I am an amateur writer and just starting in the business, I thought I would write you just to get a few pointers. I just graduated from South Side High School and the principal, a tall fellow who always wears a derby told us in his farewell address that it wouldn't hurt us in times like these to have some good contacts, and you don't mind my saying so, Mr. Upson, I want to start right near the top getting good contacts.

As I told you, I just graduated from high school and am now busy being an author. The first few weeks after I got out of school I spent looking for work, but there are a few thousand other fellows doing just the same thing in our town, so I thought I would get the jump on them by earning money with my typewriter.

I have tried writing poetry for a while, but I couldn't do so well on account of having too many limping feet as Horace has. Then I wrote a sort of love story, a real short one about a boy coming home from college and falling in love with a girl on the train and kissing her once or twice on the platform and then getting very cast down when the train pulls to Grand Central Terminal and the boy's fiancée meets her and she rushes into his arms. But the boy has a faithful sweetheart in Newark and she will always love him. I thought it was a very good story and I quickly corrected the proofs and sent it to the *Cosmopolitan* with a nice letter to Mr. Long, the editor. He wasn't very cordial because he quickly got the story back with a little printed slip which said they couldn't use the story. I guess you would call it a rejection slip, but I would call it a decoration slip.

I didn't feel so bad after a while and decided that there were other magazines and I sent it away again. I don't have to tell you that it came back. It had had a little slip inside, but this one was a pretty neat one on a nice orange shade of bristol board which made its message not so heart breaking. It said:

"We regret that we are unable to make use of this offering in any of our magazines but desire to thank you for its submission and hope that you will favor us with further contributions.

Which I thought very nice of them, and when I get another idea I will quickly send it either to them or to the *Saturday Evening Post*. I would prefer the latter because I feel sort of attached to it, having once sold them out in Tucson, Ariz., and made enough to buy a bicycle.

But I am wandering from the subject. What I want to know, Mr. Upson, is about these little slips. My dad writes stories sometimes, and he has a whole book of them, I mean the slips, and a lot of them ask for "further contributions." Do they really mean it, or are they just pouring a lot of oil on muddy water?

I am now busy writing the exciting story of the life of a burro I had out in Tucson, and I will send you a picture of it if you are interested in them as well as tractors and ducks. What I want to know is can I sell the story to the *Saturday Evening Post*, or do I have to wait until I become a famous author?

If I am not getting too personal, Mr. Upson, I would like to know how much the *Post* pays a good writer. I know they can get one-half cent a line and ten cents a line for poetry from most of the magazines I read, if they would take the stuff, of course. I have a good scheme for slipping a few lines of verse into my whole story about the college boy if it comes back again and making a few extra dollars when I sell it. Seeing that it is a love story I might insert the following lines here and there as a sort of theme song:

"Never shun your labial caress,
Though it leaves my heart an awful mess.

What do you think? Notice that word "labial." Just goes to show you what a high school education will do. My dad went to college. I want to go to the University of Vermont. I lived up there a year and seeing that we're both Vermonters, we ought to get along. I am glad that I wrote to you as my first contact and I wish you lots of luck and hope that letter writers don't bother you any more so that you have to give up your valuable space and lose $500 in the bargain.

I hope you will answer the little questions that I asked.

Your friend and admirer,
Adolph Grimes-Graeme.

P.S.—About that burro story, could you sponsor it, sort of, like Jack Dempsey did with his life story? I mean if it's good enough.

A. G.-G.

A Feline Fantasy

By Harry Farnes-Barnes

jonathan:—how now, alcestus, why in such a haste?
your chariot has not passed, you are not paced;
you wear no running tops, nor soft shoes.
your speed is all for naught, i think you lose—
or is it that some footpad seeks your life. . .
alcestus:—you're wrong, good jonathan, i've killed my wife.
jonathan:—your wife! !
alcestus:—'tis so.
jonathan:—what prompted this foul deed?
the whole town says that she did always feed
your hungry face with banquets of the best
filet of sole, or from the tender breast
of pullet she would make a sav'ry mess.
her cooking is no crime, you must confess.
and was she not a partner of your bed?
when you were ill and thru your throbbing head
shot pains of livid fire, who but your spouse
concocted potions strong enough to rouse
whatever devils in you, much or few.
you surely cannot hold she's false to you;
i knew her when—
alcestus:—o jonathan, pray cease
this elegy and let me go in peace. . . .
her virtue or her faults i questioned not,
and i affirm her skill with kitchen pot.
but greater than her virtues is her sin. . .
jonathan:—you mean to say—
alcestus:—shut up! ! let me begin. . .
do you remember how you used to chide
me for my love, which i forbore to hide,
and when in forum i would rise to speak,
you all would shout, "be still, there stands the sheik!"
jonathan:—and then you'd grow quite red—
alcestus:—that's right, and then
again, i'd spend my days with fertile pen
turning out love lyrics by the score,
which she, poor wretch, did read, and call for more. . .
till i would wrack my brain and pirate works
of far famed vergil or obscurest turks—
jonathan:—you wander from the point alcest—
alcestus:—'tis so.
about this death of sylvia you would know. . .
when to my home i led this maid, a bride,
and thru the torch graced portals bore inside,
i hoped for happy days for she and i
and so they did appear, to vulgar eye,
but beneath this semblance of pure bliss
there lurked a monster foul—behold, 'tis this! !
jonathan:—ho, ho, my friend, 'tis nothing but a cat
with head bashed in, no doubt it's dead, at that.
alcestus:—"'tis but a cat," you say. . . oh if you knew
the tortures and the torments i went thru
before because of it i killed the maid
i once did love so well . . . would i had stayed
my hand—
jonathan:—now dear alcestus, to the point—
your mind does rove as once that caudal joint—
alcestus:—it does. . . but listen to this tale of woe:
she named the feline after me, and lo! !
forthwith my life was one unending hell.
as for the cat—he fared exceeding well.
but ere the culmination of my trials
the cat was cause of strife. she would make piles
of all my blankets on a winter's night,
a couch for "sweet alcestus" who would fight
midst filthy garbage cans, and then come home
with reek of gore and smell the worst in rome.
him sylvia would fondle in her lap
and whisper baby talk, while i, poor sap,
stood by and saw the slaves all snickering
to see my love misplaced by that foul thing.
so now i reach the climax of my tale—
jonathan:—time out, alcestus, have a swig of ale. . .
alcestus:—'tis fine— . . .
jonathan:—it's made an trojan ida tall. . .
alcestus:—one evening cool great nero chanced to call,
and many were the guests of noble rank
who graced my board and of my bev'rage drank.
but sylvia was present in the room,
and there before the others fixed her doom:
whilst i was close to nero with demand
for government of newly conquered land,
my spouse cried—stirred up by the tomcat's tail—
"alcestus, run about and shew your tail."
jonathan:—discomfiting, no less—
alcestus:—oh it was sad
the way the empror laughed, and solemn bade
alcestus come to him where he might see
thru his green stone which one of us was me. . .
jonathan:—more ale my friend, your jaws are getting tight. . .
alcestus:—much more i fear the run i make this night. . .
when all my guests at length had left my home
i went to speak to sylvia, alone.
but on my way i came across the cat,
and snapped a rib or two—my leg as bat.
so when i scolded sylvia for my shame,
and briefly told the harm she'd done my name,
unnerved by the way the cat did shout,
she called aloud, "slaves, threw alcestus out! !"
the imbeciles then laid their hands on me,
and spite my counter order as you see,
they threw me out into the frigid yard.
jonathan:—my boy, i think you took that joke too hard. . .
alcestus:—too hard, you say?—behold this bruised back. . .
jonathan:—'tis sore indeed, with spots, both blue and black—
alcestus:—so in a rage i dragged myself back in
and did the deed whic's statutes name a sin.
but moral law does sculpate the crime. . .
i'm off good jonathan for such a time
as it will need— .
jonathan:—to make all men forget. . .
no fear, my friend, i'd do the same, i bet.

"Who was that ladie I spotted you with?"

"That was no ladie, that was my knife!"

1/C: And what's a sheet anchor used for?

4/C: For anchoring in oyster beds, sir.—*Annapolis Log.*

Ramsbottom Horsely (Guest Artist)
Editor: R. Weissman

The first issue of *el picador* makes its appearance in a rather skimpy form, but under the most auspicious circumstances. With all astrological manifestations in the most favorable confluence we are born, in a manner of speaking. We shall attempt to establish the reputation of unique copy and format, striving to keep away from the twin devils of the accepted college comic standard, and the degrading habit of stealing boring stuff from weather beaten periodicals.

We hope you will temper your criticism with an eye to our limitations. The flood of contributions, we must say, was overwhelming. (Humph.) If you object to any feature of Volume 1, Number 1, we will appreciate your correcting it by handing us something in the style which you think we should use.

We want to make a special appeal to the faculty not to hoard up those priceless bits of humor that have come with years of pedagogical experience.

"Who was that ladie I spotted you with?"

"That was no ladie, that was my knife!"

A Day in the Toils of Wall Street

by Julian Weaver

"No, we don't board AGW. You see, all these stocks are arranged on the board alphabetically. If you don't see it of course. . . ."

The board boy was rudely interrupted in his attempt to explain the intricacies of putting them up and taking them down by the speedily accurate flight of a black fibroid fraction which struck him smartly on the left ear. He spun around with a hopeless look of utter frustration. The smoke filled board room was full of customer's men, customers and watches, all wearing the most innocent faces. A few ventured a half grin. It was not the first time. I pride myself on my ability to read faces, but the culprit was a good one. As I was the relative of one of the partners in the firm of Upson Downs & Downs, members of the New York Stock Exchange, I had so far only been the target for small pieces of chalk. As long as I was not hit I let them come while I struggled to keep pace with the ticker and keep out of Tom's way.

It was a hot July afternoon and the market had been sagging all day. The bears were staging one of their successful raids and the pessimists were cleaning up on the short side of the market. Of course you understand what playing short means. It's something like selling something you haven't got at one figure, with the hope that the market will slump so that you will be able to pick up the stock you sold that you didn't have, at a still lower figure before the buyer clamors for his securities. (They rarely do.) If the market goes up, well, it's just too bad.

In such an atmosphere, when things don't look very favorable, a strange sort of humor pervades the investment counsellor and his customer as well. It's a different sort of thing, far from the exhilaration following a sharp rise. Tom was still grumbling and listening apprehensively for the whistle of the heavy little cards.

"Say, son, get us the last quote on Sellers, willya?" One of the customers was speaking. Tom turned around with the symptoms of an incipient hydrophobia glinting in his tired eyes.

"What's the symbol," he growled.

"Sellers, Sellers! I don't know the symbol. Look it up on the wall there for me. Be a good fella."

"Can't ya see I'm busy?" Tom went back to his work, ripped off three yards of accumulated tape and dropped it into the basket. I took the last four inches and hunted around for the issues on the board: R. . . .16 GIL. . . .19⅛. A rising hum filled the board room. . .Sellers, Sellers. The customer's men shook their heads. Never heard of it. Went to look it up in Standard Statistics and came back with long faces, refusing to divulge any information or the symbol. A market was immediately created for the stock. The original questioner started the fireworks.

"Markowitz, I'm buying Sellers. If that kid'll only give me the quote on it."

Tom was angry. "But I told you to tell me the symbol."

"Aw gwan, you're just lazy. Say listen, Hopkins, if I buy Sellers I'll have to sell Byers. But I want to buy Byers so can I sell Byers and buy Sellers and then sell Sellers to buy more Byers without transferring my margin?"

"Sellers, Sellers. . . ." Everyone was whispering it. "Buying Sellers, selling Byers." Someone in a corner thought it was funny and let out a roar of laughter.

Hopkins couldn't get it.

How can you buy Byers if you want to sell Sellers when you haven't got Sellers and you want to sell Byers?" He felt that something was wrong somewhere.

"But I'm not selling Byers. I'm buying Byers and selling Sellers. Byers Pipe is in a sound position. I read it in your *Daily Report*. Whereas Sellers, I'm bearish on. So I'll sell Sellers short and buy Byers and by buying Byers and selling Sellers I'll be in a position to sell Byers." As he leaned over in intense concentration, trying to get his point across a telltale fraction fell out of his pocket. I remember it well. It was a ¼—⅛ fraction. I nudged Tom. He reached into his belt and pulled out a stack of ½—⅜ fractions. They don't get so much use somehow and the corners are still sharp. Tom waited. The customer was going good.

"So don't you see, when I buy Byers at 31 and sell Sellers at whatever it is if that kid'll only tell me the last on it, I'll be able to buy a thousand more Byers and instead of selling Sellers. . . ." A customer staggered into the room with the heavy volume of records P—T under his arm.

"I can't find the stock issued or listed in the book. Maybe some of you fellows can locate it." The buyer of Byers turned. The moment was opportune. The cards descended upon him in a checkered hailstorm. Someone snorted, "Fish!"

Across the trans-lux slid the tape: MARKET CLOSED. . . . X. . . .91⅞. RKO. . . .13⅜. GIL. . . .20. People began putting on their jackets.

"Who was that ladie I spotted you with?"

"That was no ladie, that was my knife!"

One of the best pieces of humour to come out of Soviet Russia in a long time is the following story:

An old man, who had been a peddlar during life, was after his demise transported by the Angel of Death to the portals of Heaven. Old Samuel, as usual, carried his professional sack with him. On the path leading up to the pearly gates he met Comrade Lenin who had left this vale of tears some years before. Vladimir Ilyitch was disconsolate. It seems that not having been born a Jew, the All powerful Comissar could not enter the abode of the Righteous and so had to wander through all Eternity in the region between Heaven and Hell. Old Samuel took pity on him and promised to get him past the heavenly porter. The peddlar told Lenin to crawl into the sack and to keep quiet. He then shouldered his Red burden and gave his credentials to the admitting officer. When questioned about the contents of the sack he naively asked the Angel in charge of records:

"Do you have, by any chance, an individual here by the name of Karl Marx?"

The records were searched and the presence of the author of "Das Kapital" was verified. On hearing this Samuel threw the sack over the wall saying:

"Well, this is his baggage."—*McGill Daily.*

VOLUME 1 BURLINGTON, VERMONT, FRIDAY, OCTOBER 23, 1931 NUMBER 1

Adventures in Authorizing

No. 1

Newark, N. J.
October 2, 1931.

[illegible] Hazlett Upson,
[illegible] *Evening Post*,
[illegible]delphia, Pa.

[illegible] letters in the *Saturday* [illegible] about the steam shovel man [illegible]cy name that got $500 just [illegible] few letters, and as I am [illegible] writer and just starting in [illegible] I thought I would write [illegible] get a few pointers. I just [illegible]m South Side High School [illegible]pal, a tall fellow who always [illegible] told us in his farewell ad- [illegible] wouldn't hurt us in times [illegible] have some good contacts, and [illegible]und my saying so, Mr. Up- [illegible] want to start right near the top [illegible] contacts.

[illegible] told you, I just graduated from [illegible] school and am now busy being an [illegible] The first few weeks after I [illegible] of school I spent looking for [illegible] but there are a few thousand other [illegible] doing just the same thing in our [illegible] so I thought I would get the jump [illegible] by earning money with my type- [illegible]r.

[illegible]ried writing poetry for a while, but [illegible]dn't do so well on account of hav- [illegible]e many limping feet as Horace [illegible] I wrote a sort of love story, [illegible]al short one about a boy coming [illegible] from college and falling in love [illegible] on the train and kissing her [illegible] on the platform and then [illegible] cast down when the train [illegible] Grand Central Terminal and the [illegible] meets her and she rushes [illegible]s arms. But the boy has a faith- [illegible]ever-want in Newark and she will [illegible]ve him. I thought it was a very [illegible] and I quickly corrected the [illegible] and sent it to the *Cosmopolitan* [illegible] the letter to Mr. Long, the [illegible]. He wasn't very cordial because [illegible], and the story back with a little [illegible] slip which said they couldn't use [illegible]. I guess you would call it a [illegible] slip, but I would call it a de- [illegible] slip.

[illegible]dn't feel so bad after a while and [illegible]ized that there were other maga- [illegible]s, so I sent it away again. I don't [illegible] to tell you that it came back. It [illegible] had a little slip inside, but this one [illegible] a pretty neat one on a nice orange [illegible] bristol board which made its [illegible] slips not so heart breaking. It said:

"We regret that we are unable to [illegible] use of this offering in any of [illegible] magazines but desire to thank [illegible] for its submission and hope that [illegible] will favor us with further con- [illegible]butions."

Which I thought very nice of them, and [illegible] I get another idea I will quickly [illegible] it either to them or to the *Satur-* [illegible]*day Evening Post*. I would prefer the [illegible] because I feel sort of attached to it, [illegible] also sold them out in Tucson, [illegible] and made enough to buy a bicycle. [illegible] I am wandering from the subject. [illegible] what I want to know, Mr. Upson, is [illegible] about these little slips. My dad writes [illegible] sometimes, and he has a whole [illegible] of them. I mean the slips, and a [illegible] ask for "further contribu- [illegible]." Do they really mean it, or are [illegible] pouring a lot of oil on muddy [illegible]?

[illegible] am very busy writing the exciting [illegible] life of a burro I had out in [illegible] and I will send you a picture [illegible] if you are interested in them as [illegible] teachers and ducks. What I want [illegible] to know is can I sell the story to the [illegible] *Evening Post*, or do I have to [illegible] first become a famous author? [illegible] I am not getting too personal, Mr. [illegible] Upson, I would like to know how much [illegible] I guess a good writer. I know [illegible] a half cent a line and ten [illegible] for poetry from most of the [illegible] I read, if they would take [illegible]. Of course, I have a good scheme [illegible] a few lines of verse into my [illegible] about the college boy if it [illegible] again and making a few [illegible] when I sell it. Seeing that [illegible]ry I might insert the fol- [illegible]re and there as a sort of

[illegible] *your labial caress,*
[illegible] *makes my heart an awful*

[illegible]ck? Notice that word [illegible] goes to show you what a [illegible]ducation will do. My dad [illegible] I want to go to the [illegible] Vermont. I lived up there [illegible] seeing that we're both [illegible]we ought to get along. I [illegible] I wrote to you as my first [illegible] I wish you lots of luck and [illegible]tter writers don't bother you [illegible] that you have to give up your valuable space and lose $500 in the bargain.

I hope you will answer the little questions that I asked.

Your friend and admirer,
Adolph Grimes-Graeme.

P.S.—About that burro story, could you sponsor it, sort of, like Jack Dempsey did with his life story? I mean if it's good enough.

A. G.-G.

A Feline Fantasy

By Harry Farnes-Barnes

jonathan:—how now, alcestus, why in such a haste!
your chariot has not passed, you are not paced,
you wear no running toga, nor soft shoes
your speed is all for naught, i think you lose—
or is it that some footpad seeks your life. . .
alcestus:—you're wrong, good jonathan, i've killed my wife.
jonathan:—your wife! !
alcestus:—'tis so.
jonathan:—what prompted this foul deed?
the whole town says that she did always feed
your hungry face with banquets of the best
filet of sole, or from the tender breast
of pullet she would make a sav'ry mess.
her cooking is no crime, you must confess.
and was she not a partner of your bed?
when you were ill and thru your throbbing head
shot pains of livid fire, who but your spouse
concocted potions strong enough to rouse
whatever devils in you, much or few.
you surely cannot hold she's false to you;
i knew her when—
alcestus:—o jonathan, pray cease
this elegy and let me go in peace. . . .
her virtue or her faults i questioned not,
and i affirm her skill with kitchen pot,
but greater than her virtues is her sin. . .
jonathan:—you mean to say—
alcestus:—shut up! ! let me begin. . .
do you remember how you used to chide
me for my love, which i forbore to hide,
and when in forum i would rise to speak,
you all would shout, "be still, there stands the sheik!"
jonathan:—and then you'd grow quite red—
alcestus:—that's right, and then
again, i'd spend my days with fertile pen
turning out love lyrics by the score,
which she, poor wretch, did read, and call for more. . .
till i would wrack my brain and pirate works
of far famed vergil or obscurest turks—
jonathan:—you wander from the point alcest- -
alcestus:—'tis so.
about th'e death of sylvia you would know. .
when to my home i led this maid, a bride,
and thru the torch graced portals bore inside,
i hoped for happy days for she and i
and so they did appear, to vulgar eye.
but beneath this semblance of pure bliss
there lurked a monster foul—behold, 'tis this! !
jonathan:—ho, ho, my friend, 'tis nothing but a cat
with head bashed in, no doubt it's dead, at that.
alcestus:—"'tis but a cat," you say. . . oh if you knew
the tortures and the torments i went thru
before because of it i killed the maid
i once did love so well . . . would i had stayed
my hand—
jonathan:—now dear alcestus, to the point—
your mind does rove as once that caudal joint—
alcestus:—it does. . but listen to this tale of woe:
she named the feline after me, and lo! !
forthwith my life was one unending hell.
as for the cat—he fared exceeding well.
but ere the culmination of my trials
the cat was cause of strife. she would make piles
of all my blankets on a winter's night,
a couch for "sweet alcestus" who would fight
midst filthy garbage cans, and then come home
with reek of gore and smell the worst in rome.
him sylvia would fondle in her lap
and whisper baby talk, while i, poor sap,
stood by and saw the slaves all snickering
to see my love misplaced by that foul thing.
so now i reach the climax of my tale—
jonathan:—time out, alcestus, have a swig of ale. . .
alcestus:—'tis fine—
jonathan:—it's made on trojan ida tall. . .
alcestus:—one evening cool great nero chanced to call,
and many were the guests of noble rank
who graced my board and of my bev'rage drank.
but sylvia was present in the room,
and there before the others fixed her doom:
whilst i was close to nero with demand
for government of newly conquered land,
my spouse cried—stirred up by the tomcat's wail—
"alcestus, run about and shew your tail."
jonathan:—discomfiting, no less—
alcestus:—oh it was sad
the way the empror laughed, and solemn bade
alcestus come to him where he might see
thru his green stone which one of us was me. . .
jonathan:—more ale my friend, your jaws are getting tight . .
alcestus:—much more i fear the run i make this night. . .
when all my guests at length had left my home
i went to speak to sylvia, alone.
but on my way i came across the cat,
and snapped a rib or two—my leg as bat.
so when i scolded sylvia for my shame,
and briefly told the harm she'd done my name,
unnerved by the way the cat did shout,
she called aloud, "slaves, throw alcestus out! !"
the imbeciles then laid their hands on me,
and spite my counter order as you see,
they threw me out into the frigid yard.
jonathan:—my boy, i think you took that joke too hard. .
alcestus:—too hard, you say?—behold this bruised back. . .
jonathan:—'tis sore indeed, with spots, both blue and black—
alcestus:—so in a rage i dragged myself back in
and did the deed which statutes name a sin.
but moral law does exculpate the crime. . .
i'm off good jonathan for such a time
as it will need—
jonathan:—to make all men forget. . .
no fear, my friend, i'd do the same. . let

"Who was that ladie I spotted you with?"

The first issue of *el picador* makes its appearance in a rather skimpy form, but under the most auspicious circumstances. With all astrological manifestations in the most favorable confluence we are born, in a manner of speaking. We shall attempt to establish the reputation of unique copy and format, striving to keep away from the twin devils of the accepted college comic standard, and the degrading habit of stealing boring stuff from weather beaten periodicals.

We hope you will temper your criticism with an eye to our limitations. The flood of contributions, we must say, was overwhelming. (Humph.) If you object to any feature of Volume 1, Number 1, we will appreciate your correcting it by handing us something in the style which you think we should use.

We want to make a special appeal to the faculty not to hoard up those priceless bits of humor that have come with years of pedagogical experience.

"Who was that ladie I spotted you with?"

"That was no ladie, that was my knife!"

A Day in the Toils of Wall Street

by Julian Weaver

"No, we don't board AGW. You see, all these stocks are arranged on the board alphabetically. If you don't see it of ourse. . . ."

The board boy was rudely interrupted in his attempt to explain the intricacies of putting them up and taking them down by the speedily accurate flight of a black fibroid fraction which struck him smartly on the left ear. He spun around with a hopeless look of utter frustration. The smoke filled board room was full of customer's men, customers and watches, all wearing the most innocent faces. A few ventured a half grin. It was not the first time. I pride myself on my ability to read faces, but the culprit was a good one. As I was the relative of one of the partners in the firm of Upson Downs & Downs, members of the New York Stock Exchange, I had so far only been the target for small pieces of chalk. As long as I was not hit I let them come while I struggled to keep pace with the ticker and keep out of Tom's way.

It was a hot July afternoon and the market had been sagging all day. The bears were staging one of their successful raids and the pessimists were cleaning up on the short side of the market. Of course you understand what playing short means. It's something like selling something you haven't got at one figure, with the hope that the market will slump so that you will be able to pick up the stock you sold that you didn't have, at a still lower figure before the buyer clamors for his securities. (They rarely do.) If the market goes up, well, it's just too bad.

In such an atmosphere, when things don't look very favorable, a strange sort of humor pervades the investment counsellor and his customer as well. AL CAPONE GETS "BRONX CHEER"

Forty thousand throats gave Alphonse "Scarface Al" Capone the "Bronx Cheer" in Northwestern University's Dyche stadium in Evanston.

The gang leader, accompanied by "Machine-gun Jack" McGurn and several other men, supposedly body guards, was booed and hooted by the vast throng attending the Northwestern-University of Nebraska football game when he arose and departed at the end of the third period.

Capone and his party occupied seats in the fifty fifth row and were the targets for an intermittent chorus of throaty jeers and boo's all during the game. When he and his friends arose from their seats at the end of the third period, the chorus became a mighty crescendo that swept over and filled the huge stadium. Hardly a person in the stand refrained from adding his voice to the uproar.—*McGill Daily*

Owen D. Young, in a speech at Wesleyan University, during its centennial celebration on criticism of American colleges, said that most students fail to get a broad economic outlook. Students are not gaining a knowledge of the complexities of our economic relations with the world.

He stated that economic and political organizations are overreaching and to some extent paralyzing one another, and that "We have been training men in the technique of production, distribution and finance, but not for that additional 'overhead' of economics which is necessary today."

"Who was that ladle I spotted you with?"

"That was no ladle, that was my knife!"

The Mystic Pen

INMATE 641

Blue! Boo hoo! What is it color that stirs my blood—sends swimming—gives me the thrill parable? Blue—where have I before? What makes me try and penetrate under the surface w I see that color?

Every morning on the way to the thought rankled in my brain ing an obsession which tortured that I could not work the whole through. Every time I passed a sign—a blue dress—a policeman thing blue—my eyes would assume away look—seeking—seeking—for I know not.

One day I became pop-eyed looking a policeman in the middle of the and a blue dress hanging on a line stories up from the ground.

I could stand it no longer. The of human endurance was passed. I to a fortune teller. Nothing. I went a priest. Nothing. I went to a spir counsellor, a psychologist, a psyc ward. Nothing. What was I to d

Then one solution of my problem denly presented itself—I would d everything that was blue and end misery.

Then I became a rampant fiend ing and slashing, burning and tramp everything blue was lost before maniacal touch.

After raging for a few miles I was caught and sent to this accursed pla In vain I pleaded—explained—promised cajoled—no use. They were sure I was mad.

As the doctor of this lunatic asylum examined me, I became frantic, beg him to tell me why I was so affected blue.

"Heh! Heh!" he laughed as rammed me into a straitjacket. "Blue is the color of your neighbor's window shades."

"Who was that ladle I spotted you with?"

"That was no ladle, that was my knife!"

DEBATING TRYOUTS ARE TO BE HELD THURSDAY AFTERNOON

Eight Men to Enter Tryouts for Contest Against New Hampshire Forensians

Students interested in entering debate are to appear at chapel on Thursday when announcement of time [illegible] Old Mill Chapel. The first three men chosen will meet debate with Keene, N. H. and with the another team [illegible] college [illegible] two rounds [illegible] November and 7.

The men [illegible] selected on the annual debate squad will be put [illegible] a preparation for their debate trip [illegible] scheduled for this fall. All those who participate in intercollegiate debates will become eligible to Tau Kappa Alpha national honorary debating society at Vermont. Coach of debate, M. D. Powers, Prof. Leon Dean and Prof. Lester M. Pringle, head of the Latin department, are members of Tau Kappa Alpha.

Method in Tryouts

The method of tryout is to be the same which proved so successful at the Early tryouts, namely, a five minute constructive speech and a five minute rebuttal speech by each man who is paired off with an opponent.

The subject is "Unemployment Insurance," which is likewise the subject chosen for the Keene, N. H. trip. The following men have submitted their intention to defend the negative aspect of the question in the tryouts: Lamy E. Bigelow '33, P. J. LaCross '32, R. P. Donaghey '33, J. Monte '34. The affirmative has ten its defenders to date: Robert Van Dyke '34, Charles Fibbs '34, Realey McCuen '34, Norman E. Chatter '33.

Debate Candidates

All who are interested in debating, are urged to see coach at debating. M. D. Powers, who will assign them aide. This will be the last opportunity for tryout this fall. From then on the debate squad will be busy preparing for a [illegible] hard schedule of attractive intercollegiate debates.

AGGIE STOCK JUDGERS GO TO ATLANTIC CITY

[illegible] H. F. Laing '32, J. Morrell, C. E. Peak '32, and C. Wright accompanied by the Agricultural [illegible] [illegible] with [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible]

Sex and the Depression

By Pseudolitus Horsley

(Canada's foremost panster)

"Interview Horsley," snapped the assistant editor of the *Daily Mole* in a gruff voice. I shivered, for I knew only too well what this meant. "Interview Horsley," was what the editor really meant to say but his delicate sensibilities balked at the bald statement. "Baldness is unbearable nowadays when even the bellhop balls are getting gray hairs from thinking about the world crisis," she added and to me, and I hung my head in shame. Many a time as I lay in the cash alley a child born lost, I would raise my eyebrows and look at my bald head superciliously. It was an unnerving like that Mabel Pankhurst, an old friend of the family's was a real comfort to me. "He may have," I used to say, and he would comfort me by helping place unctuously. "Why do you comfort so unctuously?" I would ask. "Why not?" he would reply with an aggressive ges-

ture. "This amount less deductions will be returned at the end of the season." And what seasons those were! They were held behind the counter in a local cafeteria, and we would enter playfully into the spirit of the thing, until the counter would object.

"Boys! Boys!" he would say. "What's the meaning of this?"

The Major and I looked at each other. "You tell him," I said.

"Well, what's all this stork about?" asked the subject of our discourse.

"Oh, that's just our sales stork," we explained. "How you expect us to sell Frigidaire without a sales stork? Don't gramophone salesmen have sales storks? Don't vacuum cleaner salesmen have sales storks?"

Heh Heh Heh!" laughed the spoon-hammer. "Vacuum cleaners! Since when can you clean a vacuum?"

The Major and I were flabbergasted. We looked at each other in consternation. "Listen," said the mayor as he cut off our chins. "I've had enough lip off you two guys. You looked at each other in Vienna, you looked at each other in Constantinople, but you can't look at each other in Consternation."

"Yeah," said the Prime Minister. "You guys been living off the dole for a couple years now, and believe me, you consternation plenty. Our internal debs too big already."

"Why don't you have it taken out?" we asked.

Have what taken out?"

"Your internal debs too big already. Probably appendicitis," we agreed.

Your puns are abdominable," he poohpoohed. "Shall I write or telegraph after the operation?"

"Suture self," I said. "Either vermiform New York or send me a letter from Boston. Ever taste my surgical home brew?"

"Surgical home brew?"

"Yeah, forceps and your scalpel stand on end," I snickered.—*McGill Daily.*

FARMER SHOULD PLAN TO IMPROVE WOODLOT

"Farmers in cutting cordwood this fall should plan to improve the condition of their woodlot," says I. G. Weir, extension forester of the University of Vermont and State Agricultural College. "Nearly all woodlots contain trees that are undesirable, at least from the standpoint of profits."

There are approximately 24,000 woodlots in the State of Vermont, and very shortly an axe man will be busy among the trees, cutting for fuel and market.

Mr. Weir advises that such trees be girdled six inches and removed for fuel.

"To allow these culls to remain in the woods," he says, "means a decrease in profits from the woodlot.

"Trees with a short trunk and large spreading branches will never make good saw timber, but they will make good fuel. If the owner feels that too much labor will be expended in converting such trees into fuel he can girdle them. This will cause the trees to die and make room for seedlings to take their place. Other trees to remove would be those that are crooked and those that are decayed. Then there are some kinds of trees that may be classed as weed trees, due to slow growth, small size, or poor quality.

"Iron wood, also known as lever wood, is a weed tree. It does not reach a large size and grows very slowly. It is quite numerous in pastured woodlots, as the cattle do not seem to like the leaves. Grey birch, because of small size and inferior quality, is another weed tree. Grey birch should not be confused with white birch, which is a valuable crop tree. The bark of the grey birch does not peel and it has a dirty color in contrast to the white birch, which has a clean white bark that peels off in layers from the trunk of the trees. On dry land red maple may be classed as a weed tree, but on wet land it becomes a crop tree.

"If left to grow the weed trees produce seed and tend to crowd out the crop trees," says Mr. Weir. "By removing these undesirable trees the woodlot will be left in a better condition and will produce a larger income over a period of years."

Widow (to only son): Stop biting your fingernails, Walt! You're all I have left.—*Annapolis Log.*

"I simply can't force myself to appear in this costume."

"Maybe the manager will let you take your hat off."—*Temple Owl.*

"Is Mary fast?"

"Fast? Boy, she's fast asleep."—*Nebraska Awgwan.*

THE FRESHMAN WHO FELL AMONG CRITICS

Leading chapel service at Bates College recently, Dr. Fred C. Mabee gave an effective paraphrase of the Gospel account of the Good Samaritan. Retaining the rhythm and the simplicity of the original, Doctor Mabee's version, made to fit modern college needs, maintained a stillness in the chapel that attested each student's appreciation.

"A certain freshman came down from home unto college, and he fell among critics who said that his clothes didn't fit, and he hadn't any college style, and his personality was unfortunate, and they robbed him of his self-confidence, and his enthusiasm, and they departed leaving him sick and sore at heart and half dead. And by chance a certain junior passed that way, and when he saw him, he said, 'What a good job those sophomore critics did,' and he passed by on the other side. And a certain senior came that way, and he said, 'Yea, verily, for he hadn't the making of a real college man,' and he passed by on the other side. But a certain special student, as he journeyed that way came where he was, and he had compassion on him, and took him to his room, and bound up his wounds, pouring in the oil of understanding and sympathy, and the wine of friendliness, and he put him on his feet again, and introduced him to his own friends, and he was a friend to him.

"Which of these three thinkest thou proved neighbor to the freshman who fell among the critics?

"Go, and do thou likewise."

VERMONT'S ROYAL TYLER!

Some time ago, during the steady patter of the rain on the Johns Hopkins University Playshop's tin roof, one might have viewed a very admirable amateur production of Royal Tyler's "The Contrast," one of the earliest American plays to be written. This was only one of the many fine pieces which have been produced in this miniature theatre by Hopkins students. Last year the Playshop devotees continued their efforts with a vigor which was surprising, considering the conditions under which they had to work.

EXTENSION SPECIALIST NOW DOING XMAS WORK

Christmas has come again for the Extension Service of the University of Vermont and State Agricultural College. For two weeks now, Mrs. Charlotte P. Brooks, extension specialist in home management, has been making the rounds of the state, demonstrating the making of Christmas gifts to the leaders of home demonstration groups, who are now passing the suggestions on to group members. As usual, the gifts are designed with a view to economy and attractiveness, with special emphasis this year on the use of left-over material in the home.

Among the items to be made this year are attractive containers for home-made jellies and jams; oil-colored vases to fit decoration schemes, supplying a use for old cases refinished; flower seeds attractively arranged in bouquets and other designs; handy flower carriers; table runners, pillows, head rests and chair sets made of theatrical gauze; inexpensive bridge luncheon sets; camp and porch accessories done in block printing on burlap, crash and linen materials that may already be in the household. One of the suggestions proving of particular interest to the women is a silk neck scarf of two or three colors, giving, when made, the appearance of bias strips, which is easy of construction from material at hand.

Mrs. Brooks reports that there is much interest in Christmas work this year in the home demonstration groups, with particularly large attendance in Caledonia, Chittenden, Franklin, Orange, and Windsor Counties.

AL CAPONE GETS "BRONX CHEER"

Forty thousand throats gave Alphonse "Scarface Al" Capone the "Bronx Cheer" in Northwestern University's Dyche stadium in Evanston.

The gang leader, accompanied by "Machine-gun Jack" McGurn and several other men, supposedly body guards, was jeered and hooted by the vast throng attending the Northwestern-University of Nebraska football game when he arose and departed at the end of the third period.

Capone and his party occupied seats in the forty-fifth row and were the targets for an intermittent chorus of throaty jeers and boo's all during the game. When he and his friends arose from their seats at the end of the third period, the chorus became a mighty crescendo that swept over and filled the huge stadium. Hardly a person in the stand refrained from adding his voice to the uproar.—*McGill Daily.*

Owen D. Young, in a speech at Wesleyan University, during its centennial ceremonies, in criticism of American colleges, said that most students fail to get a broad economic outlook. Students are not gaining a knowledge of the complexities of our economic relations with the world.

He stated that economic and political organizations are overreaching and to some extent paralyzing one another, and that: "We have been training men in the technique of production, distribution and finance, but not for that additional 'overhead' of economics which is necessary today."

"Who was that ladie I spotted you with?"

"That was no ladie, that was my knife!"

The Mystic Pen

INMATE 641

Blue! Boo hoo! What is it in that color that stirs my blood—sends my head swimming—gives me the thrill incomparable? Blue—where have I seen it before? What makes me try to stare and penetrate under the surface whenever I see that color?

Every morning on the way to my office the thought rankled in my brain—becoming an obsession which tortured me so that I could not work the whole day through. Every time I passed a blue sign—a blue dress—a policeman—anything blue—my eyes would assume a far-away look—seeking—seeking—for what, I know not.

One day I became pop-eyed looking at a policeman in the middle of the street and a blue dress hanging on a line ten stories up from the ground.

I could stand it no longer. The limit of human endurance was passed. I went to a fortune teller. Nothing. I went to a priest. Nothing. I went to a spiritual counsellor, a psychologist, a psychiatric ward. Nothing. What was I to do?

Then one solution of my problem suddenly presented itself—I would destroy everything that was blue and end my misery.

Then I became a rampant fiend, tearing and slashing, burning and trampling, everything blue was lost before my maniacal touch.

After raging for a few miles I was caught and sent to this accursed place. In vain I pleaded—explained—promised—cajoled—no use. They were sure I was mad.

As the doctor of this lunatic asylum examined me, I became frantic, begging him to tell me why I was so affected by blue.

"Heh! Heh!" he laughed as they rammed me into a straitjacket. "Blue is the color of your neighbor's window shades."

"Who was that ladie I spotted you with?"

"That was no ladie, that was my knife!"

DEPARTMENT OF MUSIC NAMES DOUBLE QUARTET

At the meetng of the Women's Glee Club held last Thursday evening in the music building the following candidates were chosen as members of the Women's Double Quartet: Marlla Putnam '32, Velma Purinton '34, Evelyn Perry '35, Ruby Jenness '34, Esther Beardsley '33, Margaret Kane '35, Elisabeth Mandigo '32, Norma Carder '33.

DEBATING TRYOUTS ARE TO BE HELD THURSDAY AFTERNOON

Eight Men to Enter Tryouts for Contest Against New Hampshire Forensians

Students interested in varsity debating are to be given a chance to show their wares Thursday afternoon at four o'clock in the Old Mill Chapel. The first three men chosen will go to debate with Keene, N. H., and possibly to another nearby college in two weeks on November 6 and 7.

The other men selected for the varsity debate squad will be put to work in preparation for other debate trips already scheduled for this fall. All those who participate in intercollegiate debates will become eligible to Tau Kappa Alpha national honorary debating society at Vermont. Coach of debate, M. D. Powers, Prof. Leon Dean, and Prof. Lester M. Prindle, head of the Latin department, are members of Tau Kappa Alpha.

Method in Tryouts

The method of tryouts is to be the same which proved so successful in the Bailey cup tryouts, namely, a five-minute constructive speech and a five-minute rebuttal speech by each man who is paired off with an opponent.

The subject is "Unemployment Insurance," which is likewise the subject chosen for the Keene, N. H., trip. The following men have signified their intention to defend the negative aspect of the question in the tryouts: James E. Bigelow '33, P. J. LaCross '32, R. P. Donaghey '33, J. Monte '34. The affirmative has for its defenders to date: Robert Van Dyke '34, Charles Libby '34, Realtus McCuen '34, Newman K. Chaffee '33.

Debate Candidates

All who are interested in debating are urged to see coach of debating, M. P. Powers, who will assign them sides. This will be the last opportunity for tryouts this fall. From then on the debate squad will be busy preparing for an unusually hard schedule of attractive intercollegiate debates.

AGGIE STOCK JUDGERS GO TO ATLANTIC CITY

A team, consisting of H. J. Leach, M. B. Morrill, C. L. Park, Jr., and C. E. Wright, seniors in the Agricultural College competed with representatives of universities in all parts of the country at the National Dairy Products Judging Contest which was held at Atlantic City, N. J., yesterday. Prof. R. W. Smith, Jr., coached the men and is accompanying them on the trip.

At the Eastern States Exposition which was held in Springfield, Mass., September 22, the team ranked second to Cornell University in judging dairy cattle and second to Pennsylvania State College in judging dairy products.

A team consisting of Morrill, Park and Wright represented Vermont at the National Dairy Cattle Judging Contest held at St. Louis, Mo., a week ago. At that contest where twenty-three states were represented, Vermont placed second in judging Holstein cattle and sixth in judging Guerneys. In the individual judging, members of the team placed sixth and ninth in Holstein judging, seventh in Jersey judging and sixteenth in the judging of Guernseys.

Students must shed vests in the sanctum of the Columbia University library. The students must either retain their jackets or divest themselves of both coat and jacket. The idea is that a "vestless" or a "jacketed" student body makes a more favorable appearance.

Pi Gamma Mu New Honorary Society Here

Local Chapter of International Social Science Group Meets Council's Approval Yesterday

ORGANIZATION TO TAKE STUDENTS IN 8 COURSES

Admission Requirements Demand Twenty Hours B in Economics, Psychology, Sociology, History, Education, Political Science, and Philosophy

The establishment of a local chapter of Pi Gamma Mu, the International Social Science Society at the University of Vermont was approved by the University Council last evening in a special executive session. The adopted resolution was introduced by Prof. Claude L. Stineford, vice-chancellor of the North East region of the national chapter which includes New England, New York, New Jersey, and Delaware.

Requirements

Twenty students from this institution were found to meet the necessary requirements for admission to the local chapter, and which call for twenty hours with an average of B, or 85 percent, in any of the following courses: Economics, psychology, sociology, education, history, political science, and philosophy.

The minimum number of twenty students fulfilling the requirements was ascertained in investigation of the registrar's records.

Pi Gamma Mu, the new honorary society, is the first organization here to comprehend in its scope the work of the several departments listed above; the only departmental organizations of similar nature open to students enrolled in those courses being the John Dewey and the International Relations clubs.

The Greek letters, Pi Gamma Mu, signify "Students of Social Science," and the first chapter was founded in 1924. Today it is international, having chapters in Canada, Mexico, as well as newly formulated groups in Central Europe.

Faculty Membership

There are three distinct types of members, regular academic members, members at large, and community members. All faculty members are eligible to join the local chapter providing they meet the necessary requirements. Charter members will include Prof. C. L. Stineford, a member of this organization at Colby College, Dr. G. Groat, and L. D. Meredith, all of the economics department.

A national convention is held annually in conjunction with the conference of the American Economics Association. Their journal, a quarterly, is called *Social Science*.

A society key is presented to each student achieving position in organization. Following the local chapter inauguration the student members will govern the group, aided by a faculty counsellor in accordance with the constitutional by-laws of Pi Gamma Mu.

Incentive For Scholarship

Doctor Groat, head of the economics department, and one of the leading economists of this country is quoted, in part, on his reaction to Pi Gamma Mu. "Vermont is decidedly a place for this type of organization because it represents excellency in a particular line instead of varied interests. It is international in scope and creates intercollegiate interest and enthusiasm—an added incentive for scholarship in the field of Social Science."

Professor Stineford made the following statement last night, "Pi Gamma Mu will prove an incentive to scholarship, bring various social science students and instructors into closer contact, and through organization will bring to the University speakers otherwise not obtainable by the University."

The national officers of Pi Gamma Mu include some of America's foremost social science authorities: President, Dr. Leroy Allen Southwestern University; first counsellor, Dr George H. Webber, Georgia State College for Women; second counsellor, Dr. Gordon S. Watkins University of California; Dr. Charles A Ellwood, Duke University; secretary-treasurer, Dr. S. Howard Patterson, University of Pennsylvania.

DRAMATIC HEADS REVEAL JOINT MEETINGS SECRET

All joint meetings of Wig and Buskin and Masque and Sandal respective men's and women's dramatic honoraries are held in strict secret. This fact was learned in an interview Friday evening with S. B. Barker '32 and Hope Ranslow '32, presiding officers of the two organizations.

All dramatic productions presented at the University are selected by the members of these student groups acting in conference with Prof. J. T. Metcalf, coach of dramatics.

SCIENCE'S NEW WORLD IS BEING DISCOVERED BY DIPLOMATS SAYS MOWER

Political Science Head Explains World Situation at International Relations Club Thursday

"Science has created a new world, and the politicians have just discovered it," declared Prof. E. C. Mower in the first of a series of orientation talks sponsored this year by the International Relations Club to develop a student knowledge of world-wide affairs, and which was held last Thursday evening in the auditorium of the Fleming Museum.

In elaborating on the above statement, Professor Mower explained that: "The inventions of the steam engine, the wireless, and the trans-oceanic cable, have done more to change the world than all the diplomatic conferences which have ever taken place."

"This annihilation of distance," he continued, "has thrown nations together in close continuity. Industry has become more or less specialized, and the nations are now in a state of economic dependence rather than independence."

War's New Aspect

The speaker further explained that war has taken on a new aspect. "It is so inconsistent with civilization," he said, "that one or the other must yield. The world may be likened to a delicately adjusted watch, which, when one sticks a pin such as war into it, stops."

"We are living in an age of conferences," declared Professor Mower in speaking of the present day methods of settling international problems, "such as the world has never before seen. The League of Nations is based on a conference system, having little or no coercive power. It hasn't a soldier, or an aeroplane, or a battleship at its command, and its aim is to assuage bitter feeling between nations, and to settle disputes."

"Diplomacy by conference," he went on to say, "is becoming the way of settling international difficulties." At this juncture the speaker cited the fact that a few hours of conversation between President Hoover and Premier Laval of France, who is now in America, will clear up more matters than several months of the old time correspondence.

Prior to 1899 it was learned that great international conferences used to convene about once in seventy-five years, while now a major conference takes place once a year, with all the business often not attended to.

U. S. and the League

Professor Mower concluded his talk by calling to attention the fact that the United States has at last officially recognized both the assembly and council of the League of Nations, as shown in its recent action in the China Japanese disturbance.

Before the address, a business meeting of the club was held, during which Pres. Paul LaCross read a letter from the Anglo-American Club of Kosice, Czechoslovakia, which organization desires to correspond with an American social and literary club for the exchange of ideas, pictures and magazines. It was decided by the club that four magazines would be purchased for exchange, namely: the *Review of Reviews*, *Atlantic Monthly*, *Scientific American*, and *Good Housekeeping*.

A Young Voters' League has been organized at Temple University in order to encourage intelligent thought by prospective voters, and for those already in the voting public. Its members take an active part in the local polls as registers and inspectors.

M. DESCLOS DESCRIBES PAUL CEZANNE AS BEING REVOLUTIONARY, SAVAGE

Life and Works of "Master Painter of Yesterday" Brought to Light by Famous French Authority

LECTURER ILLUSTRATES "MASTERS" INDIVIDUALITY

Lantern Slides Reveal to Audience Man's Genius in Translating Colors, His Effective Landscapes, and His Supreme Sincerity

Il voulait faire realiser des sensations des belles couleurs, chercher l'architecture solide, et combiner ces deux choses en des composition harmoniques" was the keynote of a lecture on "The Master Painter of Yesterday Paul Cezanne" given by Monsieur August V. Desclos, professor at the University of Paris, and "Chevalier du legion d'honneur," last Friday evening, October 23, at eight o'clock in the auditorium of the new Robert Hull Fleming Museum.

Speaking of Paul Cezanne, who is one of the leaders of the impressionistic school of painting, Monsieur Desclos said that he was a painter "très français," revolutionary, original, creative, forceful, and brimming with life. "Yet," continued Desclos, "he is difficult to study and can be approached only through a personal interpretation Cezanne," said the speaker, was savage, having fear of no one, detested by his contemporaries, and even being called a madman and a misanthropist by the townspeople of Exe, near Marseilles, where he spent his whole life in painting."

In speaking of the painter, himself, Monsieur Desclos told how Cezanne found a deep satisfaction in sensation, and in his perspective of the external world. He worked in sadness all his life, never satisfied with what he was accomplishing. His objective was to realize sensation by beautiful colors, to strive for mass architecture, and to combine the two in harmonious creations. This he was successful in doing.

Cezanne a Classicist

Continuing, the lecturer pointed out how Paul Cezanne's works show a supreme sincerity, how he considered himself a realist but really was not one. He copied, but what he actually painted were his "émotions intimes." His painting is fully expressive of emotion and discloses his love of nature, nature that is clear and fresh. To everything else he was indifferent, being neither a mystic, symbolist, nor a dreamer, yet uniquely a classicist.

"Cezanne was looking for a new technique, a new method of painting," declared Monsieur Desclos. "For him, color was most important. He saw objects not as objects but only for their color possibilities; in the women he painted he did not see form, but colors, and for Cezanne, mass (volume) and colors were synonymous.

"Cezanne," the speaker went on to say, "was a thoroughly conscientious worker. He worked like a mason, digging into the colors with his thumb, and putting on colors obliquely from right to left. About 1884 he began to use liquids 'a peu pres aquarelle,' and what was unusual about his method was that after every touch of the brush he would wash it in this prepared liquid. To make sure that he had the right perspective, he would gaze at his model for ten or fifteen minutes at a time before making a single motion with his brush."

The lecturer explained that a knowledge of the method of Cezanne's work is very important in order to understand fully his painting. As a result of the procedure that Cezanne used, he was forced to seek immobile and "docile" models, and to seek models that were stable, and had "volume." Due to his constant staring at his model his perspective would often change, and become neglected, as Cezanne was not satisfied with mere impressions.

Illustrates Genius

After holding the audience's interest with the simple yet fascinating tale of Paul Cezanne, the master painter, Monsieur Desclos commented particularly on the lantern slides of pictures created by Cezanne. Among these were portraits of Cezanne himself taken at various ages, clearly indicating the dominance and force of his personality, and the tone of sadness increasing with age. Pictures of his wife and his friends were shown, pictures of grouped women, revealing the man's genius in translating colors, and, in

Politics and Fraternity

IN OPPOSITION TO FRATERNITIES

The Cynic has inaugurated a discussion of fraternities. It asked me to take the opposition. I do so gladly, but it should be remembered that I am far from having such militant convictions on the subject that I should on my own initiative feel impelled to air my views publicly.

It is common knowledge, recognized alike by friends and opponents of fraternities, that they disintegrate college spirit. Fraternity men and women need to acknowledge this. They should begin to realize that the general public, while ignoring their usefulness in the matter, resents their exclusiveness. For some time years at least it has been evident to all that fraternities with the consequent solidarity vital to [illegible]. Yet fraternities have not succeeded to make any fundamental change in their essential character or even to temporize. How long do they expect the public to be patient?

The conduct of college and fraternity men is positively sinister in its [illegible]. No unbiased observer can escape the obvious fact that the power wielded by fraternities has been a potent influence in corrupting college politics. What chance does any fraternity man or fraternity student have of being elected on his merits to any student office by popular student vote? This is a matter of vital importance. [illegible] dents do politically in college [illegible] students will do in politics after graduation.

One more point on this aspect of the question. It is often said as an argument in favor of joining a fraternity that one not in one is practically excluded from social life. This, it seems to me, is a damning charge against fraternities. It means but one thing: fraternity men and women create social life for themselves and the general college social life dies. They are again sacrificing the college to the fraternity. May I add that after graduation some fraternity members [illegible] this attitude of subordinating college to fraternity not only in the matter of loyalty but also in the matter of financial support.

Traditionally Reactionary

Aside from the question of divided loyalty, it is quite apparent that fraternities, traditionally unwilling to make any fundamental change in their very character and activities, have [illegible] enough taken an ultra-conservative stand on many questions to be solved by the student body. I do not think that anyone would claim that the fraternities have gained prestige by their attitude in the recent consideration of the [illegible] rules. It seemed clear to the impartial bystander that, as far as their corporate action could be discerned, they had the appearance of making a concerted effort to block all progress.

But ignoring for the moment the [illegible]

DANA M. DOTEN

To MEN only!

NO NEED to park a "Girls Keep Out" at the top of this advertisement. They'll shy off quick enough when they find out what it's about.

For it's a strictly masculine privilege—solace, satisfaction, retreat, call it what you will—the joy of smoking a pipe!

It's the smoke "for men only," any girl will agree. One of the few rights the women haven't crowded us on. And the *only* smoke for men, mind you, a thoughtful smoker calls it. For the deep consolation and rare comradeship of a mellow, richly aged pipe are something every man does well to know.

She likes to see him smoke a pipe

And you taste the rich satisfaction of pipe smoking at its best when you fill up your bowl with Edgeworth. The only tobacco that's made for a pipe. Cool, dry, slow-burning. Blended of fine, mellow, full-flavored burleys.

You've a rare smoke coming if you've never tried Edgeworth. You will find Edgeworth at your tobacco dealer's. Or send for special free sample packet if you wish. Address Larus & Bro. Co., 105 S. 22d St., Richmond, Virginia.

He needs his pipe

EDGEWORTH

SMOKING TOBACCO

Edgeworth is a blend of fine old burleys, with its natural savor enhanced by Edgeworth's distinctive and exclusive eleventh process. Buy Edgeworth anywhere in two forms—Edgeworth Ready-Rubbed and Edgeworth Plug Slice. All sizes, 15¢ pocket package to $1.50 pound humidor tin.

WILDER LEADS COACH ARCHIE POST'S HARRIERS TO WIN OVER WILLIAMS

Cross-country Team Gains First, Second, Third, Sixth, and Seventh Places to Swamp Opponents 19-36

Coach Archie Post's cross-country harriers took a team from Williams College into camp last Saturday afternoon when they piled up the high score of 19 points as opposed to a total of 36 obtained by the Williams runners.

The Vermont team placed first, second and third, followed by two Williams men who obtained fourth and fifth places, with sixth and seventh places being gained by the Green and Gold.

E. Wilder '32 won the race, which extended along a three and three-tenths mile course, with a time of seventeen minutes, fifty-eight seconds. Hadley and Brooks scored second and third places.

The Race

Wilder, Hadley, Brooks and Harwood took the lead at the start of the race, with Harwood dropping back at the halfway mark.

Vermont then kept the lead until the finish at the cage door.

The route followed passed by the Country Club and Spear Street, next touching Williston Road at East Avenue, following East Avenue up around Converse Hall and back to the door of the gymnasium cage.

The score of the race was reckoned on a basis of the lowest number of points winning, with first place counting as one, the second place, two, and so on in the order of finishing.

SENIOR WOMEN TO GIVE FIRST HARVEST DANCE

Lechnyr's Vermonters will furnish music at the Harvest Dance sponsored by Mortar Board, the national honorary society for senior women, which will be held Saturday night, October 31, from 8 to 12 p.m. in the University Gymnasium. Prof. and Mrs. C. L. Stineford and Prof. and Mrs. L. W. Dean will chaperone. Refreshments of cider and doughnuts will be served, and the hall decorated in seasonal colors.

Tickets may be obtained from Mortar Board women, Mildred Aikens, Helen LeBaron, Janet Miller, Margaret Mower, Lillian Mount, and from the house presidents of the women's dormitories, Esther Smith, Robinson Hall; Elizabeth Mosher, Redstone; Caroline Howard, Slade Hall; Rose Harlow, Grassmount; Emily Maslen, Campus House; Florice Murch, Rand Hall; Edna Herridon, Allen House.

Mortar Board sponsors two dances each year, which differ from the other college dances in the women's issuing invitations to the men students.

SPORTS SYMPOSIUM

Given impetus by the decision of eight leading eastern elevens to engage in two football rodeos at New York and New Haven early in December, the campaign to mobilize the nation's gridiron forces in the cause of unemployment relief took on fresh vigor today.

From every section of the country came reports that indicated the various conferences and colleges were prepared to suspend their rules relating to post-season play and strike a lick for President Hoover's committee. The response was remarkable, considering the fact that Owen D. Young, chairman of the committee, broached his plan only yesterday.

The "tournament" idea, which originated with E. K. Hall, chairman of the national football rules committee, also promised to prove popular. Its very novelty, members of the president's committee felt, was certain to attract capacity crowds.

Two Four-cornered Carnivals

Yale, Brown, Dartmouth and Holy Cross already have agreed to clash in a four-cornered carnival at New Haven on December 5, and Princeton, Pennsylvania, Columbia and Cornell will hold their battle royal four days later at the Yankee Stadium. In each instance there will be three 20-minute jousts, the winners in the first two meeting in the final, the action should be fast and continuous.

Among those offering their gridiron services were the University of Tennessee and the University of Dayton. Officials of both institutions immediately began seeking suitable opponents. Philip M Brett, acting president of Rutgers University, said Rutgers was "willing and anxious" to play a game for charity. Several opponents are being considered.

A post-season game at Denver on December 5 also was announced as "reasonably certain," with expectations of a crowd of 30,000. Possible pairings include the Universities of Colorado and Wyoming, Denver University and an intersectional rival, or the Utah All-Stars against an eastern Rocky Mountain picked team.

Game at St. Louis

Plans were under way for a game at St. Louis between the University of Missouri and the winner of the Thanksgiving game between Washington University and St. Louis University. Members of the "Big Six" were said to be generally willing to enter any kind of post-season competition, but awaited permission from the faculty council.

Members of the "Big Ten" conference were marking time pending a decision from the ruling body.

Young expressed gratification tonight over the fine response from the colleges and at the same time announced Hall had taken over direction of the football project.

"The whole country has taken up the suggestion," Young said. "A flood of inquiries and of requests for aid in making arrangements is flowing in. So that these inquiries and requests may be dealt with authoritatively, I have asked E. K Hall of Dartmouth, pre-eminent figure in football, to take care of them. Mr.

Touch Football Lèague Sees Four In Semi-Finals Go

Quartet of Fraternities Will Fight it Out for Championship on Back Campus Soon

Sigma Alpha Epsilon, Sigma Phi, and Alpha Tau Omega fraternities have reached the semi-final round of the interfraternity touch football tournament while the Sigma Nus and the Independents have yet to play off their quarter final round.

A. T. O. gained the semi final bracket of the interfraternity touch football tourney by eliminating the T. E. P. S. to the tune of 6-0 in an evenly played match Wednesday afternoon on the back campus. The winning score came in the final period starting on a triple pass beginning at mid-field from Williams to Baldwin to Kazlauskas.

The opening period saw the losers continually threatening the A. T. O.'s goal through a smooth working, short passing Pelofsky-Egal-Levin combination, while the victors seemed in doubt what it was all about.

Hot Stuff

At the beginning of the third stanza the zone defense of the winners began to work as did their offense. The Pelofsky-Egal-Levin combination provided plenty of thrills throughout the last half and kept the game on edge until Bunny Prentice blew the final whistle which sent the A. T. O.'s home with the bacon.

Phi Mu Funeral

Sigma Phi buried the Phi Mu Delts under a 54-6 score last Friday on the back campus in a quarter final match of the interfraternity touch football tournament. Only in the second quarter did the Phi Mus play on even terms with last year's champions. During this period each team scored one touchdown.

On the opening kickoff Morse received the Phi Mus kick, passed to Tupper and presto chango six points belonged to the Sigs. Within six plays Tupper tossed the oval to Thompson and the score stood twelve to nothing. The next score came when Thompson intercepted a pass, passed to Morse and the first quarter ended with the count eighteen to nothing.

Evan Stephan

The second stanza saw the Phis score again on a triple pass: Tupper to Thompson to Morse. The Phi Delts came right back with some nice teamwork holding the winners and scoring on a pretty play Young to Lyford to Howard. The period ended on a long, wild pass from Tupper intended for Rust.

With the opening of the second half the champs gained three-fourths of the field on a triple pass, Tupper to Bush to Tupper. On the next play a pass from Tupper to Billings opened the scoring for the half. Archambault did some nice defensive work for the trailing team but could not prevent Morse's score after Thompson had intercepted a pass. Score 36-6. The final round witnessed a flood of touchdowns: Tupper to Bush, 42-6; Tupper to Billings, 48-6, and then the game closed with a final tally resulting from a toss from Tupper to Bush. Final score, Sigma Phi 54, Phi Mu Delta 6.

Big New Hampshire Machine Smothers Vermont Saturday

Lighter Catamounts Put Up Stiff Fight in First Two Periods But Crumble Before Fierce Wildcat Attack With Final Score 43-0

WINANT AND SABA ARE GREEN AND GOLD STARS

STATISTICS OF GAME

	Vt	Opp
First downs	14	22
Gains by rushing	156	288
Fumbles	4	1
Own recovered	1	1

Forwards completed	3	4
Forwards intercepted	3	1
Gains, forwards	25	36
Laterals tried	7	0
Laterals completed	3	0
Lost on penalties	40	120

Before a large crowd Vermont dropped their fourth straight game to New Hampshire by a 43-0 score. Outweighed nearly fifteen pounds to a man, the lighter Catamounts were at no time able to make much headway in scoring territory. The Granite Staters had come with the reputation of having a great team which had failed to hit its stride, possessing a wealth of material and potential scoring ability.

After a scoreless first quarter the Wildcat attack began to get under way, scoring two touchdowns in the second quarter, three in the third and two in the last.

Scoreless First Period

The scoreless first period was of most interest to the followers of the Green and Gold. In this period Vermont made its greatest bid for a touchdown, taking the ball from their own 34-yard line by virtue of a New Hampshire penalty coupled with some excellent running by Winant and Saba and a forward pass from Winant to Taft to the Wildcats' 15-yard marker. Here Knox, the giant New Hampshire end recovered a fumbled lateral and thus ended the only serious scoring threat of the game for the Catamounts.

Soon after the second quarter began Eustis scored from the 4-yard line, but Delfausse blocked the kick.

The second touchdown was again the result of a fumbled lateral recovered by the visitors. This time it came after a penalty for clipping had given the Catamounts possession of the ball on the New Hampshire 20-yard line. The Vermont defense was caught napping as R. Slack dropped back and hurled a pass to Wood, one of the three eligible receivers who were far out of the reach of the Catamount secondary defense.

Second Half Disastrous

At the beginning of the second half Woodruff replaced Press at guard. Saba kicked off and on three plays Eustis and Haphey carried the ball to the Green and Gold 10-yard marker. At this point Press was reinserted in place of Woodruff.

However, Eustis again broke through the tiring Vermont line for a touchdown. The attempt for the extra point was blocked. New Hampshire kicked off, Fauner receiving and returned to his own 40-yard line. Again New Hampshire recovered a fumbled lateral and on straight line plunges scored again. The attempt for the extra point again failed.

New Hampshire kicked off, Jay returning to the 28 yard line. Vermont failed to gain and Winant punted outside on the 50 yard line. McGowan, who had just entered the contest, broke away for 20 yards. A forward pass was good for 15 yards after a 5-yard penalty for offside. McGowan broke through to the 10-yard marker, Haphey made 7 around left end and McGowan went over on the next play. A forward pass for the extra point was grounded.

R. Slack scored the sixth touchdown soon after the last quarter began, when he intercepted a Vermont forward pass and raced 70 yards through a broken field. His kick was good, making the count 37-0.

Vermont kicked off, with R. Slack returning to midfield. After a 10-yard penalty New Hampshire punted. Here Vermont was penalized to their own 5 yard line and Saba got off a beautiful punt behind his goal line which was returned by R. Slack to the Vermont 42 yard line. On a series of penalties New Hampshire had their last down on the 50 yard line. On the next play McGowan broke loose for 50 yards to score the final touchdown of the game, making the final score 43-0.

The game ended with New Hampshire again threatening, deep in Vermont territory.

U. V. M. Not Outfought

For Vermont, Winant and Saba were again the offensive threats with Manning doing the best on the defense. In the line, Delfausse, Press and Farmer did fine work. The entire team is to be praised for their spirit, although outclassed they were not outfought.

COUNCIL SEPARATES DANCE DATES IN DECREE

Henceforth no fraternities will be granted the privilege of holding dances the same evening a dance is presented by any class society, as the result of a motion passed by the Faculty-Student Council last Tuesday afternoon.

In commenting upon the decision, Dean Elijah Swift affirmed that it seemed advisable inasmuch as conflicting dates must be avoided, and the interests of all societies must be honored in such social functions.

AGGIE COLLEGE OFFERS WINTER SHORT COURSES FREE OF TUITION COSTS

Studies in Dairying, Poultry Raising and Fruit Growing to Start November 16

Winter short courses in agriculture, offered free of charge to men and women who are unable to spend a longer time in school, are to start at the University of Vermont and State Agricultural College on November 16. The purpose of these short studies is to enable those interested to become acquainted with modern agricultural sciences and practices; while those more experienced have an opportunity to refresh their memories and secure the latest and most up-to-date information on special subjects.

The courses have no fixed standard of entrance except that each student should be at least sixteen years old and possess a good common school education, as the ability to do simple arithmetic and use good English is essential.

The only expenses to be incurred, are a small incidental fee, meant to defray the cost of materials used, and board, room and the price of a few text books.

A special four-week general course in dairy production is being offered this year, as well as the usual conference for dairy plant owners, the exact date of which has not yet been announced. Other shorter, specialized courses in milk handling, dairy manufacturing, poultry raising, and fruit growing may be given if requested by a reasonable number of applicants. For further information write and make your wants known to H. B. Ellenberger, Director of Short Courses, 489 Main Street, Burlington.

Do we need a cut system?

THIRD FACULTY RECITAL TO BE HELD NOVEMBER 6

Elizabeth Bradish, dramatic soprano, and Meriam Natilee Marston, pianist and accompanist, will give the third of a series of faculty recitals under the auspices of the department of music, Friday, November 6, at 8.15 o'clock at the gymnasium.

Elizabeth Bradish, instructor in singing of the music department, has studied in New York with Wilfred Klamrath, Delia Valeri, Esperanza Garrigue and Jessie Fenner Hill. She coached with Richard Hageman and Alberto Bimboni of the Metropolitan Opera Co., also with Maurice La Farge, Lina Coen and Estelle Liebling.

Studied With Sherwood

She has also studied piano with William H. Sherwood of Chicago and Charles Lee Tracy and Theodore Hoeck of New York, harmony and analysis with Mrs. A. J. Goodrich of Chicago and Doctor Penfield of New York, German with Leo Stern of the Stern School, New York, and Albrecht Pfaehler of Burlington, Italian with Eduardo Petri of the Metropolitan Opera School, and French with Mme Augette Forêt and others.

For four years she was assistant teacher to Jessie Fenner Hill in New York, and for the past six years has taught singing in Burlington. She has taught at the University of Vermont since 1926.

Miss Marston Talented

Miriam Natilee Marston, instructor in piano, organ and public school music, is a graduate of Boston University, College of Liberal Arts, and has received certificates in public school music and piano teaching from that university. She has also received a certificate from the Institute of Music Pedagogy of Northampton, Mass.

Three Students Will Make Campus Study of Cut System Need

Faculty-Student Council Appoint Group to Investigate Actual Desire for Its Institution

NO CUT SYSTEM HERE THOUGH ONCE PROPOSED

A student committee of three comprising H. M. Albert '32, G. M. MacKenzie '33, and Margaret Tower '33, was appointed by the Faculty-Student Council at its Tuesday meeting to investigate the need for a cut system here.

Following the suggestion of Albert who is a senior representative on the council, this committee will attempt to ascertain faculty opinion on the need for a cut system in the three academic colleges. It is known that there is little expressed desire on the part of the faculty for such a system and all agitation thus far has come from the students. The committee will interview representative students, investigate college records of past years and study the systems in use at any other institutions. They are to report with definite findings to the Faculty-Student Council which will reconvene November 19 for the consideration of the problem.

Early in May, 1926, the proposal of a cut system was considered by Student Senate and an attempt at establishing such an institution here failed. The CYNIC for May 4, 1926, carried the following story of the procedure:

"A committee from Student Senate to consider the cut system proposed by the CYNIC met last Tuesday with representatives of faculty and administration to talk over the feasibility of instituting such a system at Vermont. Although no definite conclusion was arrived at at that meeting, the matter was thoroughly discussed and the student committee advised to work out the details of their plan with a view to more definite consideration later.

"The committee, which met with Acting Dean Swift on Tuesday afternoon, comprised the latter, Professor Gifford and F. W. Kehoe representing the administration, and Heath, Wilbur, Blackall, James and Hughes representing the student body. At that time the students presented an outline of a proposed cut system which was a composite of what appeared to be the best features of the systems in leading New England institutions, including Dartmouth, Williams, Amherst, University of Maine, Harvard and Bowdoin. The system as proposed would apply only to courses in the College of Arts and Sciences, and only to students from that college. It would not apply to 'time courses' where work is done in class with no outside preparation.

Money and Time

"The system is based upon the theory that there are in the Arts and Sciences College certain students who have come there to get the most possible out of the money and time expended, and that at least a portion of these students have sufficient intellect and character to make it unnecessary to drive them to master the subjects which they elect.

"The proposal is, that in connection with the general attitude of recognition of the peculiar requirements of the exceptional student on the part of the university, those students be allowed a certain amount of discretion in class attendance. This freedom from strict regularity of attendance would be granted only to members of the two upper classes, and only to those members whose academic work had shown that they were in college for the purpose of learning, and that they were of sufficiently high intelligence or sufficiently diligent to be trusted to employ to the best advantage the time taken from classes.

Must Maintain Attendance

"The details of the system must be worked out in such a way that it will not become simply the means for students to cut down class attendance without applying that time to better advantage. It must be applied so that courses with few students will not be entirely disrupted and so that the details of administration will not be sufficiently great to injure the effectiveness of the plan or to make it excessively expensive of execution.

"The idea of the system is, broadly, that the higher the scholarship of the individual, the more liberty he shall

(Continued on page 3)

UNIVERSITY DIRECTORY TO BE OUT THIS WEEK

Copies of the Student and Faculty Directory will be in the University Stores for distribution to the students. Members of the faculty will receive their copies by mail during the latter part of this week. All errors in the Directory, either in names or addresses, should be reported at the Registrar's office.

Although it will no longer be possible to change the addresses which will appear in the Directory, students should remember that the Registrar should be notified promptly of all changes of addresses. It is highly important that University officials be able to communicate with students at any time.

METCALF CASTS ANNUAL UNIVERSITY FALL PLAY

Goldsmith's, "She Stoops to Conquer" is Selected by Dramatic Clubs for Presentation in December

"It is so good a comedy, I cannot see how anyone could help enjoying it," declared Prof. John T. Metcalf, coach of "She Stoops to Conquer," by Oliver Goldsmith, the annual fall play to be staged shortly by the Vermont dramatic societies.

A CYNIC reporter had dropped in to observe progress and was told that plans were being made to have the production put on about December 3. The first rehearsal was held last night.

Tryouts were held last Monday and Tuesday and the cast of major characters picked by the judges, Professors F. Tupper, W. Aiken, L. Dean and Mr. R. T. Towne, include:

Young Marlowe	Paul Westin '32
Hardcastle	Wright '32
Hastings	Sam Barker '32
Tony Lumkin	Fred Householder '32
Sir Charles Marlowe	C. Jackson Libby '34
Diggory	S. Nathan Spiller '33
Mrs. Hardcastle	Birdie Creagh '33
Miss Hardcastle	Dorothy Murphy '33
Miss Neville	Hope Ranslow '32
Maid	Isabelle Holmes '32

The minor parts have not been apportioned yet but the following will receive them: Edward Fitzgerald '32, James Bigelow '33, R. F. Holbrook '32, J. Pierce '34 and Dorothy Edwards '32.

Some of the cast are veterans of previous productions.

Westin played in "Holiday" and "The Queen's Husband."

Barker had a part in "The Queen's Husband," "Holiday," "To Have the Honor," "Dear Brutus" and "The Devil's Disciple."

Householder acted in both "The Queen's Husband," and "To Have the Honor."

Libby took a part in "The Queen's Husband."

Dorothy Murphy played in "To Have the Honor."

Hope Ranslow took part in "Summer Time," "Holiday" and "To Have the Honor."

Isabelle Holmes played in "Dear Brutus" and "The Queen's Husband."

Two who will have minor parts are also veterans of past acting, Fitzgerald and Dorothy Edwards having taken part in "The Queen's Husband" and "To Have the Honor."

CROSS-COUNTRY MEN GET STIFF WORKOUT

Cross-country workouts are progressing rapidly. With the recent cold snap the candidates have gone out with renewed vigor. Fall training is comprised principally of preliminary workouts and slow jogs around the course. Several track men are accompanying the cross-country men on their rounds to get in condition for spring track. There is considerable seasoned varsity material this fall. Practically all are experienced runners with the exception of a few promising new men. The team is comprised of: Captain Varney '32, Wilder '32, Grant '32, Meehan '32, Flagg '32, Leach '32, Young '33, Hadley '33, Brooks '33, Millet '33, Riani '32, Woodruff '34, Gardener '33, and Lunna '34. There are three remaining matches: November 7, Rensselaer, there; November 14, Middlebury, here; November 21, Amherst, here.

PHOTO-NATURALIST TO PRESENT TRAVELOGUE ON SOUTH SEA EXPEDITION

Howard Cleaves to Illustrate Experiences of Voyage on Three-masted Schooner, "Mary Pinchot"

Howard Cleaves, photo naturalist and official lecturer of the Pinchot South Sea Expedition, is to speak on "With Pinchot in the South Seas," in the second of the University lecture series, to be presented Tuesday, November 3, in the gymnasium.

Mr. Cleaves, who was selected by Gifford Pinchot, former chief of the Forest Service, as an expert photographer in both still and motion pictures, will supplement his talk with extracts from 35,000 feet of exposed negative.

The lecture will consist of a description of the experiences of the expedition from the time it left New York on the three masted sail schooner "Mary Pinchot" until its return to the same port.

The expedition covered the Swan Islands, Old Providence, San Andreas (Caribbean outposts), Porto Bello, and the primitive San Blas Indians of Panama. While in the Pacific the party visited Cocos, the famed island of buried treasure, and Galapagos. It then cut 3,000 miles across the open ocean, southwestward to the Marquesas, the Tuamotus (Low Archipelago), and the Society Islands, touching upon French Oceania, and the South Seas of Melville and Nordoff.

Many able scientists, representing the United States Museum at Washington, D. C., and the Academy of Natural Sciences of Philadelphia, accompanied the expedition. More than 25,000 specimens were collected, including molluska, birds, mammals, fishes, insects, plants and marine invertebrates, filling more than twenty shipping cases and including many specimens new to science.

Sent by Thomas Edison

Thomas A. Edison sent Howard Cleaves to South Carolina in 1913 to film "Birds of the Southern Seacoast," a short subject released in Europe as well as United States. Since that time Cleaves has been taking wild life and outdoor photographs and movies; his articles and photographs have been published by the *National Geographic Magazine*, *Collier's Weekly*, *House and Garden*, *Country Life in America*, and *Natural Magazine*. He has followed the outdoors since early childhood, and upon entering Harvard, majored in the natural sciences.

Howard Cleaves possesses a fine speaking voice that carries to the far corners of any hall; he has lectured for twenty years or more and has a good stage presence. As an interesting attribute, he is endowed generously with a sense of humor. For seven years he was curator in the Museum of Staten Island Institute of Arts and Sciences in New York City, later becoming assistant to chief of publications for the New York State Conservation Commission. Following this he assumed the duties of managing director of the San Diego Society of Natural History, then state secretary of wild life in Virginia. At present Mr. Cleaves confines his activities solely to writing and lecturing.

Do we need a cut system?

PROFESSOR A. N. COLTON ADDRESSES FRENCH CLUB

Prof. A. N. Colton of the Romance language department was the speaker at the first meeting of the Le Cercle Lafayette, the University French club, held at the home of Mr. R. F. Doane of the same department, last Thursday evening, October 22.

After thanking the club for its invitation to speak, Professor Colton voiced the opinion that the idea back of the French club was an excellent one, and that he could see no reason as to why it should not prosper.

Twenty members were present at the meeting which was presided over by Fraser Drew '33, the club's executive. Meetings were decided to be held on the third Thursday of each month, with programs for each definitely arranged. This was followed by a social hour, with refreshments consisting of cider and cookies being served.

DO WE NEED A CUT SYSTEM?

ON THE CALENDAR

We are indeed fortunate that our [illegible] is free from the [illegible] of the world [illegible] by the colleges [illegible]. The Faculty Student Council has already made a notable [illegible].

In that the institution is not exactly like the Office to every [illegible] to make its list of events to [illegible] calendar, we are pleased to [illegible] announcement from Social Service that every effort [illegible] on the campus may [illegible] the dates of its functions [illegible] the regular social calendar by the simple process of asking one of the clerks to place it there. Scheduling of all activities would avoid many of the conflicting dates which have caused so much unpleasantness in the past. More than this, we urge every society to draw up a list of meetings for the year and submit them to the dean's office for inclusion in the social calendar. The communication appearing elsewhere in these columns carries a timely suggestion.

OUT WITH THE RANGES

Keener than the need for a women's gymnasium is the Student Activities Building, the fund for which has grown steadily during the past five years from student and [illegible] contributions.

Granting the fact that the women need a separate building for their personal activities, a work we must all endorse, the fact that the structure mentioned above will have [illegible] as part of its equipment a large swimming pool which will be available to both men and women students, better such a building than [illegible] bequests as a center for all activities than a separate gymnasium.

It is undeniably true that there is at the gymnasium now sufficient room for a large locker room for women and also a natatorium in the space now occupied by the two rifle ranges and the military store room. While the latter may be necessary, all the men brought to camp that we handle very well, do we want two ranges and that valuable room in order to enjoy the greater pleasures and conveniences of the pool and dressing rooms.

Do we need a cut system?

FIFTY YEARS WITH THE CYNIC

A Student-at-Large

I suppose nobody will believe me when I say that I am not going to college with a private purpose in mind, apart from the [illegible] and [illegible] of the [illegible] and [illegible] that almost all [illegible] my answer is that I find that I suppose the things most of my friends would get out of [illegible] as I do: [illegible] and scientific theories and [illegible] as well as [illegible] and [illegible] and [illegible] and

...awn up several years ago ...to be located on the ... between Williston Road ...r Bureau tennis courts. ... for an adequate model ... yet been procured. ...s have been circulated to ... some actual contributions ...de to a women's gym... but there are no records of ...

Small Space

...'s allotted space in the ...sium consists of two small ... with no shower-bath ac... Everybody is crowded to... to get ready for class. ... greatly impeded by the division of time between men and women and as the situation is now, it is necessary to arrange classwork whenever there are no conflicting activities in the gymnasium.

Since the women have the gymnasium on a part-time basis they have only two hours a week for extra-curricular sports as the rest of the allotted time is taken up with regular classwork. About eighty women sign up annually for basketball; it is difficult to arrange for practice periods twice a week.

Greatly Needed

The many other needs of the department are insignificant in comparison with the need of a gymnasium.

In reply to the reporter's query as to the probability of a women's gymnasium in the near future, Miss Cummings said that a great deal could be accomplished if the students would show their interest in the project. It is also possible that the matter will soon come to the attention of a benign alumnus or other friend of the University.

THREE STUDENTS WILL EXAMINE CUT SYSTEM

...Each male student is accountable to ... Dean of his College for his attendance. The Dean of Women has charge of the attendance of all women students.

Students who absent themselves from any class as a result of the concerted action of two or more students may be placed on probation or dismissed by the University Council.

THIRD FACULTY RECITAL TO BE HELD NOVEMBER 6

(Continued from page 1)

She has had training in piano, organ and voice, studying with E. Tarbell and Arthur Basset of Worcester, William Hammond of Holyoke, and Prof. John P. Marshall, Gertrude Edmunds and Frederic Tillotson of Boston.

She taught piano in the vicinity of Boston for several years, and later taught piano, organ, harmony, and theory at Monticello Seminary, Godfrey, Ill., and at Northfield Seminary, Northfield, Mass. She has taught at the University of Vermont since 1926.

PRESS CLUB TO MEET THIS AFTERNOON AT 1.30

A meeting of the Press Club, for members only, will be held this noon at 1.30 in 3 North College. All cards are due at this time. Freshman women who are interested in this work may receive further information from Beatrice Parkhill '32. Tryouts started Monday, October 26, and will close soon after Thanksgiving.

"Five cents a week for twenty weeks" is the new slogan for the Student Loan Fund at the University of Omaha which is now being planned. This plan is estimated to net at least $1,500.

PROF. EWERT TO ADDRESS JOHN DEWEY SOCIETY ON SUBJECT OF AMNESIA

Psychologist to Address Student Group at Year's First Meeting on Much Discussed Topic

Prof. P. H. Ewert of the psychology department will address the John Dewey Club of Philosophy and Psychology next Friday evening, October 30, at eight o'clock in the Old Mill, Room 34, South College. His discussion will cover hypnosis, somnambulism, sleep, dreams, slips of speech, etc.

All students interested in philosophy and psychology and particularly those enrolled in the social science curriculum are invited and urged to attend this first meeting of the year. The chairman of the executive committee, P. J. LaCross '32, states that in line with the demand of the members and friends of the John Dewey Club for a varied and interesting program, Professor Ewert will feature the first meeting and J. C. O'Neil, professor of psychiatry and resident physician of the Vermont State Hospital at Waterbury, will address the John Dewey Club in a few weeks at the second meeting.

DEBATERS WILL MOUNT ESSEX JCT. PLATFORM

The University of Vermont platformists will debate before the Essex Junction High Schol and townspeople Monday evening, November 2 on Unemployment Insurance, the question which is being used in the Vermont Interscholastic League.

Those who will go will be chosen in the tryouts to be held this afternoon at 4 o'clock. The same team will go to Keene, N. H., November 6.

Coach of Debate E. M. Codding '31 of the Essex Junction High School was influential in securing the U. V. M. debaters for next Monday evening's exhibition debate which will be judged by the audience.

The girls in charge of the Home Management House this week are: Helen LeBaron '32, hostess; Katherine Skinner '32, assistant hostess; Hazel Daniels '33, cook; Caroline Taft '33, house manager; Helen Roberts '34, waitress; Dorothy Donnelly '35 and Frances Buck '35, second girls.

Cynic Secures Names of Heads of Fraternities and Sororities

Finds Seniors Holding Eighteen Society Presidencies—Sigma Phi Has No Such Officer While Kappa Alpha Theta Withholds Its Head From Publication

Leaders of all branches of campus activities are represented as officials of the twenty Vermont fraternities and sororities according to data recently compiled by the CYNIC.

Presidents of the several organizations, all members of the senior class, are listed with their house in order of alphabetical rotation.

Alpha Chi Omega, Beatrice Parkhill; Alpha Tau Omega, Brandon Boyles; Alpha Xi Delta, Helen LeBaron; Delta Delta Delta, Roberta Powers; Delta Psi, James Marvin; Kappa Delta, Evelyn Debrune; Kappa Sigma, Edward Winant; Lambda Iota, Robert Livingstone; Pi Beta Phi, Emily Maslen; Phi Delta Theta, Mason Grower; Phi Mu Delta, Frank Varricchione; Phi Sigma Delta, Harry Albert; Sigma Alpha Epsilon, Everett Wilder; Sigma Delta, Robert Hyde; Sigma Gamma, Rosetta Harlowe; Sigma Nu, Samuel Barker; Tau Epsilon Phi, Arthur Maislen; Zeta Chi, Cedric Cross.

Sigma Phi has no presiding officer and Kappa Alpha Theta does not publish its fraternity head.

Beatrice Parkhill is a member of Masque and Sandal, Press Club, and W. A. A.

Brandon Boyles is assistant manager of varsity basketball.

Helen LeBaron belongs to Bluestockings, is an *Ariel* editor, a CYNIC editor, and a member of Masque and Sandal.

Roberta Powers is president of Tau Kappa Alpha, member of Masque and Sandal, women's *Ariel* editor, and manager of women's varsity debating.

James Marvin is a Boulder member, Student Senator, Kake Walk director, and manager of varsity track.

Evelyn Debrune is on the Pan-Hellenic Council, and a member of the Dramatic Club.

Edward Winant captains the 1931 football team, is a Boulder member, plays varsity baseball and basketball, and is a representative to the Faculty-Student Council.

Robert Livingstone was a member of the 1931 Kake Walk and Junior Week committees.

Emily Maslen was photographic editor of the 1932 *Ariel*, and is a member of the Pan-Hellenic Council.

Mason Grower is assistant manager of basketball, an R. O. T. C. officer, and a member of the Kake Walk Committee.

Frank Varricchione is a member of the 1932 *Ariel* Board and Scabbard and Blade Society.

Harry Albert is a tennis player, CYNIC sports editor, *Ariel* editor, and a representative to the Faculty Student Council.

Everett Wilder is advertising manager of the CYNIC, a Student Senator, *Ariel* business manager, and captain of the track team.

Robert Hyde is an R. O. T. C. officer, and was a member of the Kake Walk Committee.

Rosetta Harlowe is women's editor of the CYNIC, a member of the Cercle Lafayette, and the W. A. A.

Samuel Barker is business manager of the CYNIC, a member of Grey Friars, *Ariel* advertising manager, and a Boulder member.

Arthur Maislen was *Ariel* sports editor, a member of the CYNIC Board, and of Eta Sigma Phi.

Cedric Cross is a member of the Interfraternity Council.

MONTREAL PASTOR WILL TALK AT VESPER SERVICE

Dr. Lloyd C. Douglas, pastor of St James' United Church, Montreal, will deliver the sermon at Vesper service, next Sunday afternoon at 4 o'clock in the Ira Allen Chapel.

Doctor Douglas will be remembered as the speaker who delivered the Baccalaureate sermon at the 1931 Commencement exercises last June. Doctor Douglas spoke at length to the graduates using as his subject "The Golden Bowl."

The subject of next Sunday's sermon will be announced at the service. Appropriate music will be played.

Let's talk Straight from the Shoulder

WHAT you want in a cigarette *is taste*. You want mildness . . . smoothness . . . and satisfying pleasure when you smoke.

All right then . . . *get this straight.*

• • •

CHESTERFIELD pays top prices . . . yes, and a premium for the ripest, mellowest, sweetest-tasting leaf that grows.

The curing and conditioning is done by specialists . . . men carefully trained in handling these fine tobaccos.

• • •

IN BLENDING, also, Chesterfields are different . . . Instead of merely mixing the tobaccos together . . . we cross-blend them. It's like making a new and better-tasting kind of tobacco. That's how we get that *Chesterfield flavor*. Milder . . . and a more pleasing aroma.

Cigarette paper? Only the purest that's made is good enough for Chesterfield.

PICK UP a package. Note its clean appearance . . . free from heavy inks. It's moisture-proof, too.

And three big factories at Richmond, Durham and San Francisco—operating under the strictest sanitary standards—rush them *fresh* to you.

Good . . . *they've got to be good.* Because they're made that way. And most important of all . . . you can taste this goodness *in the cigarette.* You can tell it in the smoke.

Light up, Mister! Try Chesterfield.

Let the cigarette do its own talking.

You'll get the whole thrilling story, in just two words . . . "They Satisfy"!

"Yes Sir—Mild yet they Satisfy"

The Vermont Cynic

FACULTY COMMITTEE TO SPONSOR PI GAMMA MU

Organization of Social Science Honorary Pending Outcome of of Chapter Requirements Survey

A faculty of five men was appointed at a meeting held to sponsor the program of Vermont chapter of the international social science honorary society, Pi Gamma Mu, until it is permanently organized. The department members of the committee are Prof. B. C. Douglass, Education; Prof. P. D. Evans, History; Prof. D. B. Carroll, Political Science; Prof. G. B. Dykhuizen, Philosophy. Prof. P. H. Ewert, Psychology; Prof. C. L. Stineford, Economics.

These men will check the records of the twenty students required as the minimum number for the establishment of a chapter, and later arrange a program for a year. The granting of a charter by the international society is conditioned upon the local satisfaction of the requirements. Blanks have still to be obtained from headquarters for the use of the Vermont chapter. Members of the faculty committee state that it is probable that the new honorary will not be definitely organized until the second semester.

SIXTY STUDENTS HAVE HONOR SCHOLARSHIPS

Several Awards for Merit in Editorship, Debating and Oratory Now Being Used

Sixty men and women this year hold honor scholarships valued at $200 each and applicable on tuition awarded annually to the men and women graduating with the highest standing from Vermont high schools. In addition to the above number there are two here with debating scholarships,one valued at $150 and the other at $300. Two editorial scholarships are being used this year; one valued at $175 and the other valued at $150.

Four oratorical scholarships are being used, two valued at $250 each and two valued at $75 each.

Honor

The recipients are:
Allen, Howard, Greensboro.
Ansboro, Madeline, Derby.
Baldwin, Mildred, Monkton.
Barrett, Ruth, Bradford.
Bellows, Helen F., Newport.
Bingham, Leonard, Enosburg Falls.
Boright, Betty R., Richford.
Boyce, Lester, Swanton.
Braley, Forrest C., Hartford.
Brosseau, Theresa, Highgate Ctr.
Buxton, Alva G., Saxtons River.
Calkins, Constance, Morrisville.

VARSITY DEBATE TEAM PICKED AT TRYOUT FOR KEENE NORMAL DEBATE

Bigelow, Donaghy, LaCross to Argue on Unemployment Question in Forensic Encounter at Keene

DEBATERS GO TO ESSEX JUNCTION LAST EVENING

McCuin and Van Dyke Lend Opposition to Varsity on Unemployment Problem

J. E. Bigelow '33, R. M. P. Donaghy '33 and P. J. LaCross '32 were selected as the varsity debating team for the debate with Keene Normal School at tryouts held in the Old Mill Chapel last Friday afternoon at 4 o'clock.

The Keene debate will be held at Keene, N. H., next Friday evening. The Vermont team will uphold the negative of the question, "Resolved, That several states should adopt a policy of compulsory unemployment insurance." The American style of debate will be used. Efforts are being made to secure another debate for the Saturday following the Keene debate. Several colleges have been notified of this desire for a debate Saturday but as yet no arrangements have been concluded.

Tryouts

At last Friday's tryouts the judges were Prof. Daniel Carroll of the political science department, Prof. George G. Groat of the economics department and M. D. Powers, debating coach. Other men who tried out for the team were Robert Van Dyke '34 and Newman Chaffee '33. These tryouts were conducted after the scheme used in the freshman and sophomore tryouts which was a series of two-man debates, each speaker talking for five minutes in constructive argument and three minutes in rebuttal.

Essex Debate

Last evening six debaters from the University debated at Essex Junction on the subject of unemployment insurance before a gathering of assembled townspeople and high school students. This debate was arranged by courtesy of Ernest Codding '31, coach of debate at Essex Junction High School.

The affirmative in this debate was taken by Jack Libby '33, Realtus McCuin '34, and Robert Van Dyke '34. The negative was upheld by the varsity team of Bigelow, Donaghy and LaCross who are preparing the side for the Keene Normal debate.

Records

The debaters mentioned above are all veterans of many encounters on the forensic platform. Bigelow and Donaghy are veterans of two years' varsity debating, Donaghy making the western trip last year, and is captain of debating this

Fraternities Duplicate Last Year's Number With 128 Freshman Pledgees

Sigma Nu More Than Triples Last Season's Aggregate While Lambda Iota More Than Doubles Hers—Tau Epsilon Phi Pledges Eleven Less and Zeta Chi One-half the Figure of 1930

Bids to the thirteen fraternities in the Intertraternity Conference were accepted by 130 freshman men as the announcements were made last Thursday afternoon at the close of a three weeks rushing period. This number exactly coincides with the number of pledgees of last year. Phi Sigma Delta and Tau Epsilon Phi are not members of the Interfraternity Conference.

Most noticeable of all the increases in membership are the pledgings of 18 men by Sigma Nu and 11 by Lambda Iota, both of which had pledged five last season. The former is a national organization while the latter is a local at Vermont.

Tau Epsilon Phi, a national chapter in pledging three men dropped eleven behind its last year's number. Zeta Chi, a Vermont local, cut her last year's number in half by pledging five freshmen.

Kappa Sigma and Sigma Alpha Epsilon both pledged sixteen men, Phi Delta Theta received thirteen and Phi Mu Delta, eleven, while Delta Psi pledged ten. Seven each went to Alpha Tau Omega and Phi Sigma Delta, and Sigma Phi with six and Sigma Delta with four men closed the list.

The list of pledgees follows:

Lambda Iota

H. H. Abbott of Boston, Mass.; L. P. Brush of Arlington; C. C. Damery of Boston, Mass.; C. B. Henning of South Shaftsbury; J. M. Monte '34 of Montpelier; D. A. Newton of Georgia; J. B. Parmalee of Auburn, Maine; K. N. Scott of Andover, Mass.; A. M. Weitzmann of Niagara Falls, N. Y.; W. D. White, Jr., of Ryegate; A. R. Wilcox of Derby.

Sigma Phi

R. M. Bent of Gardner, Mass.; R. S. Brown of Malden, Mass.; J. E. Crane of Stamford, Conn.; P. H. Knight of Burlington; G. E. Ranslow of Montpelier; and A. Rogers, Jr., of Milton, Mass.

Delta Psi

F. W. Bancroft, Jr., of Montpelier; W. E. Cass of Burlington; R. W. Collins, Jr., of Colchester; O. R. Eastman of Burlington; S. T. Hubbard, Jr., of Hackensack, N. J.; C. A. Park of South Ryegate; A. P. Sadler of Worcester, Mass.; J. R. Simonds of Gardner, Mass.; J. A. Soule of St. Albans; F. W. Squires of Charlotte.

Phi Delta Theta

I. J. Chase of Bolton; G. M. Sabin, Jr., of Burlington; M. B. Hall, Jr., of Newton, Mass.; C. V. Hale of Boston, Mass.; G. W. Starbuck of Springfield, Mass.; P. N. Howe of Pleasantville, N. Y.; F. T. Churchill of Burlington; M. H. Carlson of Brookline, Mass.; G. I. Stratton of Reading, Mass.; J. F. Syme of Cambridge, Mass.; L. J. Boyce of

FACULTY DUO TO GIVE JOINT MUSICAL PROGRAM

Madam Bradish and Miss Marston Will Feature Recital Sponsored Friday by Music Department

Madam Elizabeth Bradish, dramatic soprano, and Miss Miriam N. Marston, pianist, will present a joint classical recital under the auspices of the music department at 8.15 o'clock, Friday evening, November 6, in the University gymnasium.

The program:

Mi Parto (Departure)
Cosimo Bottegari (1554-1620)
Tempo è alfin di muover guerra
Stefano Donaudy
Founded on an ancient Italian Folksong
I Pastori (The Shepherds)
Ildebrando Pizzetti
Words by D'Annunzio
Mrs. Bradish

Traum durch die Dämmerung (Dream in the Twilight)
Richard Strauss
Ich trage meine Minne vor Wonne, stumm
Richard Strauss
(I hold my love sacredly, in secret)
Fussreise (A-walking) *Hugo Wolf*
Marietta's Song, from "Die Tote Stadt"
E. W. Korngold
Mrs. Bradish

Mein Gläubiges Herze Frohlocke, Sing', Scherze *J. B. Bach-Hummel*
Les Fées sont d'exquises danseuses
Claude Debussy
Danse Rituelle du Feu *Manuel de Falla*
Miss Marston

Les Cygnes *Rybner*
Words by Dagmar de Corval
Pitchounette *Jules Massenet*
Words by Normand
Tout gai! *Maurice Ravel*
Translated from the Greek
Pannyre aux Talons D'or *Poldowski*
Words by Albert Samain
Mrs. Bradish

Yasmin (A Ghazel) *Tom Dobson*
Words by Flecker
The Song of the Palanquin Bearers
Martin Shaw
Words by Sarojini Naidn
The Cloths of Heaven, from Song Cycle
Thomas F. Dunhill
"The Wind among the Reeds"
Words by Yeats
A Feast of Lanterns *Granville Bantock*
Translated from Chinese poet, Yuan Mei, A.D., 1715-1797, by L. Cramer-Byng
Mrs. Bradish

Opportunities Open on Cynic Reporter Staff for Freshman Scrubs

The Cynic offers positions on its reportorial board to all freshmen who will try out this semester. Men desiring to do so should see the editor-in-chief at any time either in the Cynic office or at North Converse Hall. Cynic work is interesting and offers much fine experience in elementary journalism to those who come out for it.

President Bailey, U. V. M. '00

Dr. Guy Winfred Bailey, president of the University since June, 1920, graduated from U. V. M. in 1900 with an A.B. degree, later, in 1921, receiving the LL.D. degree from Vermont, Middlebury and Norwich. A member of Vermont Alpha chapter of Phi Beta Kappa he was admitted to the Vermont bar in 1904, although he never afterwards practiced law. From 1906 to 1907 he acted as commissioner, editing the public statues of Vermont. He was a representative in the state House of Representatives for four years from 1904 to 1908 and served as Secretary of State from 1908 to 1917. He is president of the Kurn Hattin Homes of Westminster, Vt., trustee and vice-president of the Winooski Savings Bank, and director of the local Howard National Bank and City Trust Company. He was a member of the commission to formulate the employers' liability and workman's compensation law in 1913, member of the committee for formulating a system of accounts for towns and villages. He is a member of the Republican party and of the American Bar Association.

Do we need a cut system?

CHURCHES OF STATE TO GET V. C. A. DEPUTATIONS

Deputation groups of men and women are being sent by the two Christian Association groups to the churches of the State during the year to supply positions where leadership is need. These students take charge of the regular service giving the sermon, leading in social programs, suppers, rallies and young peoples meetings.

Leon Hill '35 with Clarence Drown '34 director of deputations on the men's cabinet of the Vermont Christian Association had complete charge of the services at the United Church in Colchester Sunday, October 25. Paul J. LaCross '32 has been scheduled to speak at the local church in Richford Sunday, November 15 and will take with him other students to assist with the singing and the other parts of the service.

Over forty letters have been sent out from the Vermont Christian Association office to state churches offering the services of the men and women students in deputation work. In commenting upon the work, Drown stated, "I believe that the University of Vermont should be known by its religious work as well as by its other activities."

The deputations are sent out from the University under the provisions of the fund in the budget of the Vermont Christian Association and are open to any one who is interested.

MASQUE AND SANDAL– WIG AND BUSKIN MERGER NOT TO BE–THAT'S ALL

Dramatic Groups Find Union With National Honorary Not Practical

Wig and Buskin and Masque and Sandal, respectively the men's and women's honorary dramatic societies will not merge this year it was announced last Friday.

Last year the two groups voted to combine their activities and become the Vermont chapter of a national dramatic society believing that much could be gained thereby.

Later investigation of eligibility requirements of two national organizations revealed the fact that membership would of necessity exclude freshmen and be drawn only from students who had held a minor part in at least two productions. As there is already a scarcity of material for University plays such a move was found to be impractical.

Membership in Wig and Buskin and Masque and Sandal now requires that the candidate have assumed a rôle in at least one play or have served an apprenticeship under the properties manager.

THE SUPER-TEACHER

The ever-increasing attention to the full development of the individual student is expressed in the following announcement from Teachers College, Columbia

To create an entirely new type of teacher for our civilization, to make it start the pedagogue more as a person, seems to be the marvelous goal of the new undergraduate teacher training institution recently announced for next year by Teachers College of Columbia University. The purpose of this plan is to train promising young college graduates to become super teachers in the face of the present oversupply of mediocre teachers.

"Those who qualify, fulfill the high requirements of this new institution will be given an extra elaborate training in life experience as well as in the classroom. The chosen students will spend part of their time in the shops the factory will go to the opera to an outdoor camp will be provided with particular contact with philosophers. They will also study for a year abroad and do social work in the slums of the poor. Credit and course hours will be eliminated, much emphasis will be placed on the seminars and directed reading."

This forward step is significant of a new trend in education that has been gaining ground in America. More and more are colleges realizing that to provide an adequate training, a student must have a well-rounded, well-balanced education. The value of such a comprehensive training is inestimable.

Rev. L. LeRoy Rice, pastor of the Congregational Church in Barre, Vermont, will give the address at the chapel service tomorrow morning.

"Who's Who in America" for 1930-31 Lists Fourteen U. V. M. Faculty

(Continued from page 1)

Professor Bassett, Yale '98

Prof. Elliott Bassett, head of the department, received his A.B. degree in 1898 and his Ph.D. degree for graduate work at the University of Vermont and the University of Athens, studied at the classical school in Greece. In 1902 he became instructor in Greek at Yale and in 1905 he served as tutor and assistant professor of Greek at Yale where he has remained since except for summers of 1913 and 1914 when he studied Greek and archæology in Greece. In 1918 he organized the Army Mission of the University of Athens.

He is a member of the American Academy of Classical Studies at Athens, 1905 and chairman of the managing fellowship since 1919. He is a member of the American Philology Association which organization he was president in 1923. He is a Phi Beta Kappa member and a Republican.

Walter H. Crockett

Walter H. Crockett, University lecturer on journalism, is described as an alumnus who received his honorary A.M. degree from Middlebury College in 1928. From 1898 to 1901 he was on the editorial staff of the Burlington *Free Press*, and was editor of the St. Albans *Messenger* from 1906-09. He was managing editor of the Montpelier *Journal* for ten years from 1903-13 and at present is lecturer on journalism and Vermont history. He has served the Burlington board of aldermen from 1925-27 and was a state senator from 1927 to 1929. In 1929 he was made chairman of the State Constitutional Revision Committee. He is the author of "The History of Vermont," "History of Lake Champlain," and "Life of George F. Edmunds."

Professor Cummings, U. V. M. '01

Professor Marshall Baxter Cummings received his B.S. degree from the University of Vermont in 1901, his M.S. degree from the University of Maine in 1904 and his Ph.D. degree from Cornell in 1909. He instructed in horticulture and botany at the University of Maine in 1902 and 1903 went to Cornell University where he taught for two years. In 1909 he returned to the University of Vermont as professor of horticulture.

He is a member of Alpha Zeta, honorary agricultural society, a member of the American Association of Horticultural Science and the American Association of Plant and Animal Breeders.

Professor Groat, Syracuse '95

Professor George Gorham Groat, economist, received his A.B. degree from Syracuse University in 1895, his A.M. from Cornell in 1901 and his Ph.D. from Columbia in 1905. From 1907-13 he was professor of economics and sociology, and secretary of the faculty at Ohio Wesleyan University and since 1913 has been professor and head of the U. V. M. department of economics. He is a member of Phi Beta Kappa, an Independent Republican, the American Association for Labor Legislation. He is also the author of "The Introduction to the Study of Organized Labor in America" and a frequent contributor to economic periodicals.

Dean Hills, M. A. C. '81

Dean Joseph Lawrence Hills of the College of Agriculture received his B.S. degree from Massachusetts Agricultural College, Boston University in 1881. He was chemist of the Phosphate Mining Company for three years from 1881 to 1884. From 1893 he acted as professor of agronomy at U. V. M. and has been Dean. He is a Republican, a member of the American Association of Land-Grant Colleges and Universities.

Professor Myrick, Harvard '00

Professor and head of the Romance language department at Vermont since 1904, Arthur Beckwith Myrick received his A.B., A.M. and Ph.D. degrees from Harvard in 1900, 1901 and 1904. He was Austen teaching fellow at Harvard from 1902 to 1904. He is a Republican member, Republican, and a member of the Modern Language Association of America. He is a contributor to several Philological Reviews.

Professor Perkins, Yale '67

Professor and former Dean, George Perkins received his A.B. degree from Yale in 1867, his Ph.D. in 1869 and Litt.D. from Vermont in 1912. He was professor of geology and botany from 1869-1904, president and Dean of the College of Arts and Sciences from 1898 to 1904 when he resigned as Dean, remaining professor of anthropology. He was president from 1917 to 1919, acting president from 1880-1895 and trustee from 1898. He is a member of the Geological Society of America, the Vermont Academy of Science, the Vermont Historical Society, the Boston Society of Natural History, the Mary Fletcher, De Goesbriand and Fanny Allen hospitals. He is a Republican, a member of the New England Society of Psychiatry and Neurology, the Vermont Medical Society of which he was president in 1921 and a member of the Boston Society of Psychiatry and Neurology.

Professor Perkins, U. V. M. '98

Prof. Farnham Perkins of the Zoology department received his A.B. degree from the University of Vermont in 1898 and his Ph.D. from Johns Hopkins in 1902. He was instructor of biology from 1902-1906, assistant professor of zoology from 1906 to 1911 and professor of zoology since 1911. He was a fellow of Johns Hopkins University from 1916-1917 and has been director of the Eugenics Survey of Vermont since 1925 and Secretary of the Vermont Commission on Country Life since 1928. He is a member of Phi Beta Kappa, a Republican, and a member of the American Society of Naturalists and the American Society of Zoologists.

Doctor Sears, Amherst

Dr. Frederick William Sears, neurologist, has an A.B. from Amherst, and an M.D. degree from U. V. M. received in 1888. He attended the College of Physicians and Surgeons of New York University, studied at London, England, Berlin, Paris and Munich from 1889 to 1906. In 1906 he studied at Harvard and in 1908 at Johns Hopkins. He has been professor of nervous diseases at the Vermont Medical School since 1912 and is consultant at the Mary Fletcher, De Goesbriand and Fanny Allen hospitals. He is a Republican, a member of the New England Society of Psychiatry and Neurology, the Vermont Medical Society of which he was president in 1921 and a member of the Boston Society of Psychiatry and Neurology.

Dean Swift, Harvard '93

Prof. Elijah Swift, mathematics department head and newly elected Dean of Arts and Sciences took his A.B. and A.M. degrees from Harvard in 1903 and 1904 and his Ph.D. degree from the University of Gottingen, Germany, in 1907.

He instructed in math at Princeton from 1907 to 1909, was assistant professor in 1909-1914 of the math department and professor and head since 1914. He was assistant Dean of Arts from 1924 until his recent election as Dean upon the resignation of Dean Perkins. He is a Phi Beta Kappa member and a member of the Republican party. He is also a member of the American Mathematics Society and the Mathematics Association of America.

Professor Taylor, Wisconsin

Prof. Henry Charles Taylor, agronomist of the agriculture department, has a Ph.D. from the University of Wisconsin and has studied at Berlin and Wittenberg. He began his career as instructor at Wisconsin in 1901. From 1919 to 1921 he was chief of the office of farm management of the U. S. department of agriculture. He was Chief of the Bureau of Markets and Crops' estimates from 1921-1922 and also Chief of the Agriculture Economics Bureau from 1922 to 1925. He has taught at U. V. M. since 1928. He is a Phi Beta Kappa member and the author of "Outlines of Agricultural Economics," published in 1925.

Professor Tupper, Charleston '90

Prof. Frederick Tupper, head of the English department, took his A.B. degree from Charleston College in 1890, his Ph.D. degree from Johns Hopkins in 1893 and his L.H.D. from Vermont in 1906. He was professor of English literature at Wells College from 1893-1894 and professor of literature and language at U. V. M. since 1894. He lectured at the Columbia University Summer Sessions from 1921 to 1923 and was Colver lecturer at Brown University in 1926.

He is a member of the Modern Language Association of America and president of the association in 1930. He is a member of Phi Beta Kappa, and of the Democratic party. He has edited numerous texts, among them "Exeter Book of Riddles," texts of Shakespeare and Goldsmith and representative English dramas from Dryden to Sheridan. He is also the author of "Types of Society in Medieval Literature."

Doctor Wheeler, U. V. M. '75

Dr. John Brooks Wheeler, emeritus professor of surgery since 1924, took his A.B. at Vermont in 1875 and his M.D. at Harvard in 1879. He began the practice of medicine at Burlington in 1881 and was instructor in surgery in the College of Medicine from 1881 to 1890. He was professor of clinical and minor surgery from 1890-1900 and professor of surgery from 1900 to 1924.

He is the attending surgeon to the Mary Fletcher, De Goesbriand and Fanny Allen hospitals.

He is a Fellow of the American College of Surgeons and a member of the New England Surgical Society and the Vermont State Medical Society.

"It's a Truly Modern Cigarette"

"I'm certainly grateful for Lucky Strike. It's a truly modern cigarette for it gives me modern throat protection. **And your improved Cellophane wrapper is wonderfully modern, too. It opens without any coaxing—a flip of the little tab and there are my Luckies."**

Loretta Young

A famous and beloved picture star while still in her 'teens—blessed with breath-taking girlish beauty—could fate have been kinder to **Loretta Young?** She's the very incarnation of young loveliness. If you have not seen her in **First National's "Ruling Voice,"** do so.

* * * * * *

That LUCKY tab! Moisture-Proof Cellophane. Sealed tight—Ever right. The Unique Humidor Package. Zip—And it's open! See the new notched tab on the top of the package. Hold down one half with your thumb. Tear off the other half. Simple. Quick. Zip! That's all. Unique! Wrapped in dust-proof, moisture-proof, germ-proof Cellophane. Clean, protected, neat, FRESH!—what could be more modern than LUCKIES' improved Humidor package—so easy to open! *Ladies—the LUCKY TAB is—your finger nail protection.*

"It's toasted"

Your Throat Protection—against irritation—against cough

And Moisture-Proof Cellophane Keeps that "Toasted" Flavor Ever Fresh

TUNE IN—The Lucky Strike Dance Hour, every Tuesday, Thursday and Saturday evening over N.B.C. networks.

★Is Miss Young's Statement Paid For?
You may be interested in knowing that not one cent was paid to Miss Young to make the above statement. Miss Young has been a smoker of LUCKY STRIKE cigarettes for 4 years. We hope the publicity herewith given will be as beneficial to her and to First National, her producers, as her endorsement of LUCKIES is to you and to us.

Copr. 1931, The American Tobacco Co.

Made of the finest tobaccos—the Cream of many Crops—LUCKY STRIKE alone offers the throat protection of the exclusive "TOASTING" Process which includes the use of modern Ultra Violet Rays—the process that expels certain harsh, biting irritants naturally present in every tobacco leaf. These expelled irritants are not present in your LUCKY STRIKE. *"They're out—so they can't be in!"* **No wonder LUCKIES are always *kind* to your throat.**

GREY FRIARS CALLS FOR LITERARY CANDIDATES

All women are heartily invited to submit manuscripts before the first meeting

The society was founded to promote interest in fine literature and creative writing and its membership is limited to sixteen men from the four classes. At its meetings which are semi-monthly manuscripts prepared by its members are read and discussed.

An applicant for membership must submit two different types of writing which he has done, for reading before the members. The merit of these manuscripts decides his worthiness for admittance.

LARGE CROWD ATTENDS MORTAR BOARD DANCE

The Harvest Dance sponsored by Mortar Board senior honorary society for senior girls at Saturday night, October 31 in the University gymnasium was attended by about one hundred and fifty couples.

Intermissions Vermonters played for the dancing which was from 8 to 12 p.m. In the receiving line were: Professor and Mrs. R. P. Johnson, and Professor and Mrs. R. D. Carleton.

Esther Mount '32 was in charge of the dance which proved unusually successful. Janet Miller '32, was in charge of the ticket sale.

Any freshmen desiring to scrub track, please report to C. J. Kilburn, G. MacKenzie or F. P. Kenyon at 4.00 any afternoon at the gymnasium.

Any sophomores wishing to scrub the business side of the 1933 Ariel see G. M. MacKenzie at Sigma Alpha Epsilon House.

HYPNOSIS IS SUBJECT OF ADDRESS BY PROF. EWERT

Some facts about the use of hypnosis in removing complexes and in integrating or disintegrating personality were discussed by Prof. P. H. Ewert of the department of psychology before the John Dewey Club at its opening meeting of the year held last Friday evening in 34 South College. Fifteen students and faculty members were present and refreshments were served.

By explaining the scientific method of hypnotism and its induction, Professor Ewert dispelled the belief that this branch of psychology is allied to the black art or magic. He explained in detail the methods used to induce the hypnotic state and pointed out its biological and psychic relations to amnesia, sleep and habit formation.

Membership in the John Dewey Club is open to all who have attained an average of either A or B in one semester of either philosophy or psychology. Failing to satisfy this requirement, the student must present an acceptable report of some original research or experimental paper.

The Cosmopolitan Club of Oregon has collected over $60 from faculty members, students, and friends of the college to help in providing food and clothing for thousands of Mexicans who are being deported from Los Angeles because of the unemployment situation in that city. The Club began its activity with the distribution of apples among the destitute and with provision for their entertainment at the train. It has prepared meals for deported families, and has provided clothing for those in need. A girl student spoke Spanish numbers at the train and explained to the Mexicans the purpose of sending them back to their native land. Their reactions to the work were unutterable; it was keenly appreciated. It was done to show them that there was a spirit of friendship for them and that the students were ready to help them.

Girls vote for PIPES (for men!)

ASK any girl you know to name her favorite smoke—for men! Ten to one she'll say a pipe!

She's discovered—trust her bright little eyes—that it's the BIG men, on the campus and off, who welcome the mental stimulation and relaxation they get from this real man's smoke.

She likes a pipe—for you!

And if she's very wise in the ways of smokers, she'll go one better than that. She'll tell you the men who know, smoke Edgeworth!

No two ways about it, you *do* get a doubly satisfying smoke when you fill up your pipe with this famous old blend. It's a happy combination of choice burleys — cut long to give you a cool, slow-burning smoke. And its mellow flavor and rich aromahavemade Edgeworth the favorite pipe tobacco on 42 out of 50 campuses.

A real man's smoke

Help yourself to a pipeful next time someone pulls Edgeworth out of his pocket. Pick up the familiar blue tin yourself at any good tobacco stand. Or for a special free sample packet write to Larus & Bro. Co., 105 S. 22d St., Richmond, Va.

W. A. A. announces the varsity hockey team composed of A. Armstrong '33, B. Freeman '32, V. Goodenough '33, L. Harrington '32, D. Humphreys '33, L. Mandigo '32, M. Miller '32, E. Mosher '32, D. Putnam '34, M. Tupper '35, and K. Worthin '35.

Varsity volley ball team is made up of M. Aikens '32, A. Armstrong '33, B. Freeman '32, W. Graham '32, D. Humphreys '33, L. Mount '32, H. Mount '35, W. Oatley '35, and M. Tower '33.

Time Out

Norwich 26—Vermont 7 is the way the game ended last Saturday. The only thing in Vermont's favor is that the Sabine Field goal line was crossed for the first time since 1923. Conway kicked a field goal in '25.

—time out—

This game wasn't the only upset Saturday last. Yale a 2-1 favorite was tied by Dartmouth. Oregon, the underdog, took N. Y. U.'s measure 14-6.

—time out—

We didn't look it up in our encyclopedia, nor a dictionary, and maybe we're wrong, but we always thought a sportsman would help a fellow worker in distress and give him a helping hand in time of need—*not a kick in the face.*

—time out—

What's left of our opponents. Clarkson 6—Middlebury 0.

—time out—

Long Island University 12—R. P. I. 0.

—time out—

After a quarter century of athletic rivalry, Norwich, with one of the weakest teams it has had in years, scored the most it ever has scored previously.

—time out—

Says Wells (that young fella down the *Free Press* way).

—time out—

Vermont beat Union—Union tied Williams—Williams showed better than Dartmouth against Columbia—Dartmouth tied Yale—Yale tied Army—Harvard only licked Army by one touchdown.

Q. E. D. Vermont is several points superior than Harvard.

FROSH HARRIERS LOSE TO WATERBURY HIGH 18-37

The results of late hours at fraternity rushing nights were in evidence last Saturday when the freshman cross-country team lost to the Waterbury High harriers at Waterbury by a 18-37 score.

The freshmen were also handicapped by rainy weather and a new and difficult course.

W. D. White, finishing third ofter A. Simpson and R. Kennedy of Waterbury, put in the best performance for U. V. M. Other freshmen who made a good showing were Rogers, Merchant, Southworth and Soule.

Irene LaFontaine '35

Irene LaFontaine '35 of Springfield, Vermont has the distinction of holding more W. A. A. points than any other freshman.

PROSPECTS LOOK GOOD FOR U. V. M. RIFLE TEAM SAYS LIEUT. KULLMAN

Ten of Last Year's Outfit to Report With Others for First Practice Friday in Military Office

TO INAUGURATE HONOR SYSTEM FOR ALL SHOOTS

Circular Letters Sent to Prospective Opponents Explaining System Which Necessitates Team Members Signing a Sportsman's Pledge

Prospects for developing a fine rifle team for this year are good," declared Lieut. J. W. Kullman, "as ten of last year's marksmen are returning." At this time it was also learned that rifle practice will get under way either November 5, or 9, although there probably will be no matches fired until after midyears.

Among those of last year's team back this year are: Captain Sheldon '33, Dunham '33, Burke '33, Preedom '33, Farr '34, Primpas '32, Beckley '34, Wright '32, Donahue '34. Vermont had a winning team last year as it defeated McGill, Company K, Fort Ethan Allen, and Norwich.

A meeting of candidates for the rifle team is to be held on Friday, November 6, at 1.30 in the military office. At this time the team will be organized and possibly some matches for future dates may be arranged. It is planned to secure shoulder to shoulder matches with McGill and Norwich. The remainder of the schedule will be carried on by means of telegraphic matches, as in previous years. It is hoped to shoot at least one telegraphic match a week.

Men on Their Own

Lieutenant Kullman is attempting to inaugurate the honor system in regard to the rifle matches. In the past it has been the custom to have some officer preside over the contest to insure fair play. Lieutenant Kullman believes that the change to the honor system "will result in the maximum benefit to the individual team members." To foster this movement he has sent a circular letter explaining the proposed system to the various outfits with which Vermont may arrange matches. Under this system the contestant is placed upon his own honor to conduct himself in the interests of fair play and sportsmanlike competition. Each individual team member will be required to sign the following pledge:

The Pledge

I (Individual's Name), member of the University of Vermont Reserve Officers' Training Corps, pledge upon *my honor* to enter into the Rifle Marksmanship Competitions in a sportsmanlike manner. I understand thoroughly the various conditions as to positions under which matches are to be fired and the manner of actual firing upon the official target for the week or particular match. I voluntarily participate in the Marksmanship Competitions for the actual sport derived therefrom and pledge my honor that all my actions connected therewith will be governed by a spirit of true sportsmanship and I will, in no manner, attempt to evade the rules or take unfair advantage. I further prefer to engage in this sport without the mental knowledge that I must be attached in order that I do not *CHEAT*.

Several challenges have already been received but none as yet accepted. On last year's team there were several high individual scores. Captain Sheldon led these, taking third place at the National Rifle Association Meet held in Boston with a score of 271 out of a possible 300.

PERSONAL HYGIENE WILL REPLACE ONE HOUR GYM

Commencing November 9 all freshmen shall be required to report for one hour hygiene in place of one hour gymnasium. No person is excused regardless of athletics. Freshmen *shall* be into sections, three sections taking the course till midyears and two taking it from midyears to finals. Look for your name on the physical education bulletin board.

This course shall consist of eight lectures given by Dr. F. S. Kent. Classes will meet in the auxiliary gym and gym suits are not to be worn. Examinations will be given regularly.

H. A. PRENTICE
Director of Physical Education

Vermont Bows to Horsemen in State Series Game 26-7

Crushing Cadet Attack, Surprising Both Norwich and Vermont Followers, Results in Two Counters in First Period, One in Second, and One in Fourth

BOVE SCORES FOR CATS IN LAST FEW MOMENTS

STATISTICS

	N. U.	Vt.
First downs	17	11
Yards from rushing	183	162
Yards from forwards	134	83
Passes tried	10	15
Passes completed	7	5
Passes intercepted	2	1
Fumbles	1	1
Own recovered	1	1
Average distance of punts	40	42
Penalties	10	3
Yards lost, penalties	85	25

Scoring two touchdowns in the first period, a third in the second and a fourth in the final stanza, the Norwich Horsemen led the Green and Gold to the slaughter 26-7. Providing that the Cadets take Middlebury it will be the fourth state title in six years.

Starting the game on even terms the soldiers opened up with a powerful offensive to beat the U. V. M. team most decisively since their quarter century of rivalry. Two years ago Vermont was humbled 20-0.

Both by air and on the ground attack did Norwich show its superiority with O'Brien, Holmes and Brown carrying the brunt of the attack.

Ed Saba, a brilliant performer, was able to get away for good gains when given the ball, but these were few and far between (of course he was stopped once in a while).

As far as an overhead attack was concerned statistics show better than words could tell.

Bove provided the only thrill of the contest when he took a lateral pass and romped 45 yards, rushing his way along the side lines to score the last touchdown on Sabin Field since '23.

Bove, the elusive molecule, gave the Vermont stands something to cheer about on this play.

Norwich displayed immediate power when, with the game but five minutes old, they scored on a forward pass, O'Brien to Holmes, culminating a 70-yard march. The second touchdown of this hectic first period came this time with O'Brien carrying the ball on line plunge after two more long gains via the air route.

One of the Catamounts greatest bids to score came in the third period only to have it fizzle, controlled by the breaks of the game, into another maroon touchdown. Saba and Winant both made long gains through a crumpling Norwich forward wall, while a pass from Winant to Rapuano advanced the Vermonters to scoring distance on the Horsemen's 27. Here a pass went awry, ended up in the arms of Anastes Fanos and was carried to midfield. A 50-yard parade toward the Green and Gold goal line ensued, with Holmes finally ploughing through stern opposition for the Cadets third counter. Martin kicked the extra point to give Norwich its first after touchdown score.

The third quarter was scoreless with both teams making good advances, and playing tight on the defensive, while in the final period came the first Vermont score against its traditional opponents since 1923. Norwich also countered in this period, when another forward pass, thrown from deep in Vermont's territory was intercepted by Del Vecchio on the Cats' 23-yard stripe.

During the game, in fact in the second play, Rapuano, one of the fightingest backs ever to wear the Green and Gold, was cracked severely on the head. He continued in the fray, however, and played in a half daze, when he again suffered a head injury and was rendered unconscious. When revived sufficiently, line coach Bumps Levine tried to assist him off the field, but Rappy was not yet in his right mind, and instinctively resisted, being "fighting mad," his removal from the game. Here at least was one true sign of that old Vermont spirit. Let's have more of it. Incidentally the "skipper," who replaced Rapuano, played a whale of a good game.

The summary:

Norwich—Caswell, Williams, Mershimer, le; Martin, Boynton, lt; Bunting, Smith, lg; Fanos, Boynton, c; Lemaire, Ward, Consoletti, Richardson, rt; Sperry, Ralston, re; O'Brien, qb; Brewer, Dorling, lhb; Holmes, Gumsby, rhb; Del Vecchio, fb.

Vermont—Rust, Wood, re; Wegner, rt; Farmer, rg; Davis, c; Powell, Press, lg; Morgan, lt; Delfausse, le; Bove, Wesely, qb; Saba, Jay, rhb; Winant, lhb; Rapuano, Bedell, fb.

Touchdowns—Holmes 2, O'Brien, Brown, Bove.

Points after touchdown—Martin 2; Bedell.

Referee, Graham. Umpire, Laird. Field judge, Anges. Linesman, Jones. Time, four 15-minute periods.

SIGMA PHI, SIGMA NU WIN OUT IN SEMI-FINAL TOUCH FOOTBALL GAMES

Final Game Held Last Night at Centennial Field Between Two Strong Teams

Finals in touch football are now a matter of history as the concluding game of the tournament was run off last night at Centennial Field. The accounts of the semi-final games won by Sigma Phi and Sigma Nu are as follow:

Sigma Phi—Sigma Alpha Epsilon

Sigma Phi continued to pile up large scores in shoving the S. A. E.'s out of the intertraternity touch football race by burying them under a 30 to 6 count Wednesday on the back campus before a large crowd of rabid fans. Incidently this places the Sigs for the third consecutive time in the finals of the tourney.

The first score came in the early part of the first round when Tupper hurled the pigskin into the awaiting arms of his teammate Thompson who gallantly scampered across the last remaining marker. Again Thompson scored on a short bullet-like pass from Tupper bringing the victors count to 12. The next touchdown came when the ever-ready Tupper snared a S. A. E. pass, snapped the ball to the diminutive, bespectacled Sig, known as Brute Billings, who cantered up the field, evading all seven desperate opponents.

Gutay Grant Stars

In the second half Gutay Grant came into his own by snaring a now classical Tupperonian pass and hurling himself the remaining yards for the fourth score. The S. A. E.'s came back when Tomassetti grabbed a pass from Mercier and ran through a sleepy Sig defense to make their lone tally. The last score of the game came when the elongated Busch rambled up the field to the two-yard line from whence he received a pass, and thus ended the scoring of the game. Tomassetti, Calcagni, and Mercier showed up well for the losers, while the honors were evenly divided among the victors.

Sigma Nu 14, Independents 0

The Sigma Nus chalked their name on the semi-final line of the interfraternity touch football tournament by trouncing the Independents 14-0 on the back campus last Monday.

In the second period the Sig Nus entered two points to their score by forcing the non-fraternity men to give them a safety. Both teams were pretty ragged in the first half, neither showing much of an offensive, and both missing several easy passes.

The second half was much more interesting with both teams showing some class and some real fight. The first touchdown came when Flagg received a pass and evaded the losing team to bring the count up to eight. Riani of the Independents did some good defensive work while Woodard tried hard on the offensive end.

The last score came in the corresponding period when Wright rushed the ball across. The remaining plays showed the losers vainly trying to score.
